THE DAILY REVIEW

PROBABILITIES.
Showers during the night and for a part of Thursday.

VOL. LXV., NO. 100 PETERBOROUGH, ONT., CANADA, WEDNESDAY, MAY 8, 1912 TEN CENTS PER WEEK.

CANADIAN BASEBALL LEAGUE

Local fans will be able to follow the fortunes of the Peterboro' team in out of town games, the R eview having arranged for prómpt telegraphic service for all games—With the team playing at home the story of the games will be told in complete detail, with illustrations and right up to the minute comment.

NE TEMERE DEGREE HEARING AT OTTAWA IS POSTPONED; WILL AWAIT THE DECISION

Chief Justice Fitzpatrick Announces That the Case Will Not Be Proceeded With Until Privy Council Has Given Judgment In the Companies Act Case—Brilliant Array of Counsel Present.

Ottawa, May 8.—The Supreme Court yesterday morning postponed the hearing of the famous marriage case until the decision of the Privy Council in the Companies Act is rendered. However, Chief Justice Fitzpatrick in announcing the decision of the court to postpone the hearing, made it very clear that it was the intention to hasten the case as rapidly as possible.

"I understand," he said, turning to R. C. Smith, K.C., one of the counsel for Quebec, "that you object to the jurisdiction of the court to hear this case. In view of the fact that judgment in the Companies Act is now pending before the Privy Council, we have come to the conclusion to postpone the hearing. However, realizing the importance of the case and the anxiety of the Government to have it disposed of, we will try and hear argument as soon as convenient after the Privy Council judgment is rendered. We will endeavor to hear it during the May session, and, if necessary, may call together the court after adjournment, although, of course, it would not meet during the court holidays.

There was a brilliant array of counsel present to argue the case when the court assembled. Walter Nesbitt, K.C., and Eugene Lefluer, K.C., appeared for the promoters of the bill, providing for a fedefal marriage law. I. F. Hellmuth, K.C., and P. B. Bignault, K.C., appeared for those opposing the bill. These four lawyers were appointed by the Dominion, R. C. Smith, K.C., Amie Geoffrion and Auguste Lemieux, K.C., appeared for the Province of Quebec, and E. Bayiy, K.C., represented Ontario.

E. A. Lancaster, M.P., the author of the bill, was present to watch proceedings.

Miners Getting Disorderly.

Pottsville, Pa., May 8.—Trouble which it was feared might develop yesterday morning in Shenandoah and other towns near here, failed in materialize. The state police are in full control. Fearing an attack, the Philadelphia and Reading Coal & Iron Co., during the night, brought in a large force of deputies. Cooking utensils and cots in storage in Pottsville since the strike of ten years ago, were shipped to Shenandoah.

Scranton, Pa., May 8.—Four hundred men, women and children, made a demonstration yesterday morning against men engaged on repair work at the Dickson Colliery of the Delaware & Hudson Co., this city. Women led the attacking party and three men were badly beaten.

BIGGER THAN THE TITANIC

London, May 8.—Two new liners for the White Star Co. are at present under construction at the yards of Harland & Wolff, Belfast. One of these vessels, the keel of which was laid several months ago, will be nearly twenty feet longer than the Titanic, and will be fitted and finished throughout on the same imposing scale as were the Olympic and Titanic.

In view of the loss of the latter, the work of completing this new vessel will be accelerated. Every available man in Queen's Island works is engaged in order to have the liner finished as soon as possible.

It will be over a year before the new ship will be completed, and sufficient time will be afforded to embody the latest details regarding lifeboats and other life-saving appliances which the Board of Trade may direct after the forthcoming inquiry.

Try a Review Want Adv.

BRITISH PUBLIC SHOW LITTLE INTEREST IN THE ENQUIRY PROCEEDINGS

London, May 8.—The apathy of the British public, which has been one of the features thus far of the Board of Trade enquiry into the Titanic disaster, was again demonstrated by the thin attendance when the commissioners, under the presidency of Lord Mersey, resumed their investigation yesterday morning.

Some members of Parliament and attorneys applied to Lord Mersey to be permitted to represent the engineers' union and some of the passengers of the Titanic. Lord Mersey acquiesced in some of the applications, but refused others on the ground that the presence of too many counsel threatened to involve the enquiry in inextricable confusion.

The first witness called yesterday was George Beauchamp, a fireman of the Titanic, who testified:

"I did not know which was my boat station. I heard a list had been put up that morning, but I did not see it. None had been put up before."

Beauchamp said he could not tell whether the passengers were traveling first or third-class. There was no light, compass, provisions nor water in the boat. Everyone looked for them.

Beauchamp testified that he had had no boat drill on the Titanic, nor had he seen any. He had been ten years at sea and on most of the liners on which he had been engaged there was a weekly boat drill. On the liner New York boat drill was held on Sundays.

Beauchamp made the statement that a stoker took charge on boat No. 13.

Quartermaster Robert Hichens testified that he was on duty on the bridge of the Titanic at 8 o'clock. Second Officer Lightholder, who was in charge, sent a message to the carpenter to look out for his fresh water for it was going to freeze. He heard Lightholder through the telephone give an order to the men in the crow's nest to keep a sharp lookout for ice and growlers.

Closely questioned by Sir Rufus Isaacs on the point of the speed of the Titanic, Hitchens testified that the log book showed it to have been 45 knots in two hours and that there was no change up to the time the Titanic struck the iceberg at 11.40.

Seaman W. Lucas caused some surprise at the inquiry in the afternoon by stating that it took him five minutes to get from his quarters to the boat deck; but the sailor hardly knew his way about the ship.

The testimony of the witnesses differed as to the chances the steerage passengers had to escape as the vessel was sinking. One thought they might have reached the boat deck if there had been any one to direct them, but he did not think any one was there to do so.

Seaman Lucas considered that the steerage passengers had no time to climb the five flights of ladders separating them from the boat deck.

Important for Canal Opening.

Paris, May 8.—The approaching opening of the Panama Canal is occupying the attention of Government and commercial circles in France, which like other nations, is anxious to arrange for a coaling and docking station for the use of merchant steamers either on the Atlantic or the Pacific side of the canal and also for the opening up of new steamer routes to deal with the fresh traffic.

A special mission is now traveling in the French possessions near the Panama Canal with the object of selecting the most available location for a dock and coaling station.

BROWNING CENTENARY

Toronto, May 8.—One hundred years ago yesterday was born Robert Browning, the poet of "invincible optimism." The centenary was fittingly celebrated at the University of Toronto, when the large amphitheatre of the physics building was crowded to listen to a lecture on the works and life of the poet by Prof. Law. Brief addresses were also delivered by Rev. J. R. Hutcheon, Sir Byron E. Walker, Dr. S. Morley Wickett and others, largely along lines of personal reminiscences of the early days of the Browning Club.

At the close of the meeting the chairman, Prof. Alexander, announced that an effort was to be made to found some more permanent memorial, which might take the form of a scholarship.

Scaffold Fell With 11 Men.

Montreal, May 8.—One man was killed and several injured yesterday when a swinging scaffold, attached to the Ritz Carlton Hotel building on Sherbrooke street fell with eleven men.

The apparatus was suspended by steel ropes thrown over an iron beam. The movement of the men caused this beam to turn over on its side and bend, and the cables slipped off, precipitating the scaffold and its human load of eleven men to the ground.

A bricklayer, Christian Moteau, was killed outright, while Harry Baker, James Murray and Philip Tremblay, were injured. The others escaped with slight bruises.

Strike-Breaker Farley Dying.

New York, May 8.—James Farley, known as "king of strike-breakers," is dying from pneumonia at a hotel in Plattsburg. He made himself famous by undertaking to break the Brooklyn car strike here. He has also handled labor disputes in many other cities. He is still under 40.

TEDDY MAY BEAT TAFT IN TEXAS

Dallas, Texas, May 8.—Roosevelt appears to have beaten Taft in Texas, but a number of the delegates are uninstructed for either, and if all, or a sufficiently large majority, are swung the President's support, he may control the state convention.

Roosevelt has 22 delegates and Taft 17, while 10 are uninstructed.

Four of the 59 counties reported no conventions held.

The most significant result is the Wilson sweep, he getting 76 delegates, while Clark has 9 and Harmon 2, while 4 are uninstructed.

Clark Leads In Washington.

Walla Walla, Wash., May 8.—The state Democratic convention voted yesterday afternoon to endorse Champ Clark for President. The vote stood: Clark, 455; Wilson, 106; Bryan, 135; Harmon, 1.

An attempt was made to stampede the convention for Bryan, but it was unsuccessful.

Democrats Crush Bosses.

Harrisburg, Pa., May 8.—In the same hall where the regular Republican organization of Pennsylvania was overthrown last week, the regular Democratic state organization was yesterday swept out of power by the "reorganization" faction of the party after a fight of nearly two years. The victory of the new men in control of the party's machinery was complete and no resistance was made by the regulars after the vote on permanent chairman of the state convention showed that the "reorganizers" had control of the committee by 110 votes to 73. The party had been split for more than a year and two state committees had been directing the destinies of Pennsylvania's democracy.

The "reorganizers," under the leadership of Geo. W. Guthrie of Pittsburg, Vance C. McCormick of Harrisburg and Congressman A. Mitchell Palmer of Stroudsburg, named a complete state ticket, elected 12 delegates at large and 12 alternates at large to Baltimore, and gave them binding instructions to vote for Woodrow Wilson "as long as his name remains before the convention," selected six electors at large, adopted their own platform and ratified the selection of the "reorgainzers" state committee in electing Mr. Guthrie state chairman.

HAYS' BODY AT MONTREAL

Montreal, May 8.—The body of C. M. Hays arrived at 11 o'clock yesterday, and is now at the family residence, on Ontario avenue. The funeral has been fixed for three o'clock this afternoon. It will be of a semiprivate character, conducted by Rev. Dr. Johnston, of the American Presbyterian Church.

A raised platform the whole width of the railway tracks was built so that the body might be carried off the special car, and the train was backed in against this platform. The platform and the doorways at the station were draped in black and purple. A big crowd was at the station when the train arrived. The casket, bore two wreaths from near relatives of Mr. Hays, one of carnations and white roses and the other of lilies.

They Got Nothing.

Toronto, May 8.—At a meeting to the memorial to the heroes of 1812-14 association, held at the King Edward Hotel yesterday afternoon, Lieut.-Col. William Hamilton Merritt, the president, stated that the executive of the association had been unable to persuade either the Ontario or the Dominion Government to make any grant towards the erection of a suitable memorial. Great disappointment was expressed by the members present at the failure to get Government aid for the project, as it had confidently been expected that such aid would have been given. In view of this it was decided to hold another meeting in the near future to consider the matter. A special committee was appointed to outline what future action should be taken.

FOUR DIED WITHIN A FEW DAYS

Special to the Review.

Moose Jaw, Sask., May 8— Four children in John Cudmores family near here, have died within a few days of each other, all from cerebro spinal meningitis, believed to have been caused by wood ticks. Only one regained consciousness after the symptoms developed. Injections of serum in each case were unavailing.

'Quake Near Canary Islands.

Potsdam, Germany, May 8.—The seismagraph here registered a catastrophic earthquake at 8:04:33 Monday evening (2:04:33 p.m. New York time).

The central disturbance is presumed by the authorities to be situated somewhere near the Canary Islands, in the Atlantic, off the northwest coast of Africa.

SIR EDWARD GREY.

He says Ambassador Bryce will return to Washington in September.

No Re-Hearing of Cases.

Ottawa, May 8.—The next session of the Board of Railway Commissioners will be held here about June 4.

It is not expected that the death of Chairman Mabee will necessitate the re-hearing of any cases, as was the case when his predecessor died, as the arguments in the important cases still awaiting decision have yet to be heard.

DELEGATES FOR FEDERATION OF BROTHERHOODS

Quebec, May 8.—One hundred and fifty delegates of the Federation of Brotherhoods of England arrived in Quebec this morning by the Royal Edward. The delegation is on its way to Toronto, where it will attend the convention of the Brotherhood of Protestant Churches of Canada, from the 10th to the 13th. The object is to organize a brotherhood federation for Canada, similar to that of Great Britain, which now numbers 1,000,000 members.

The mayor and representatives of the City Council went down and met them on the arrival of the steamer. The delegates were greeted by his worship the mayor and invited to come to the City Hall, where the full body of the council were in readiness to present them with a short address of welcome.

Protest Against Ne Temere.

London, May 8.—(C.A.P. Cable.)—At a meeting of the Evangelical Alliance last night, it was stated that Premier Asquith had refused to receive a deputation on the question of the ne temere decree.

Prebendary Webb Reploe moved a resolution calling upon the council to proceed with a great meeting of protest, imperial in character, and representing Reformed and Protestant churches throughout the Empire.

THE WRECK OF THE "TITANIC"

At the Royal Theatre on Thursday and Friday, May 9th and 10th.

This wonderful film in connection with the terrible disaster to the Titanic is the only film passed by the Ontario Government Censors as being a genuine reproduction of views of the laying of the keel, launching of the ill-fated White Star leviathian; Capt. Smith her heroic commander; a panoramic view of icebergs and fields of ice such as the Titanic encountered; the arrival of the steamer Carpathia with survivors at New York; pictures of the captain and crew; departure of the funeral ship Mackay-Bennett from Halifax; and other scenes in connection with the disaster. This film will be seen for the last time in Peterboro on Thursday and Friday of this week at the Royal together with other New Pictures and new special acts of vaudeville. Admission afternoons 5c evenings 10c.

REMAINS OF JUDGE MABEE SENT TO PORT ROWAN

Prominent Canadians Attend the Last Ceremonies Over Body of Eminent Jurist and Chief Railway Commissioner—Grave Is Beside Those of His Wife and Mother In Little Lake Erie Town.

Toronto, May 8.—A special train left the Union Station at 9.15 this morning, carrying the remains of the late Hon. J. P. Mabee to the little town of his birth—Port Rowan, on the north shore of Lake Erie—where the beloved jurist and chairman of the Dominion Railway Board, passed his boyhood and early manhood days. The body was taken in the Railway Commission's private car attached to a special train. There will be a great number of mourners, including judges, railway officials, lawyers and many friends in other walks of life, who will go to the lake port, where the casket will be lowered in the cemetery on the edge of the town to rest alongside those of the late mother and wife of Judge Mabee.

It is more than likely that a number of Cabinet Ministers from Ottawa, members of the Dominion and Provincial Legislatures and different organizations will attend the funeral. Mayor Geary, Controller Church and Harry Drayton, K.C., corporation counsel, will represent the city and twelve members will represent the Board of Trade, namely, Messrs. G. T. Somers, the president, and J. D. Allan, J. W. Wood, J. W. Moyes, J. F. Ellis, Hugh Blain, D. Wood, D. W. Band, John Melady, C. B. Watts and F. G. Morley.

Hon. Mr. Mabee's body rested in the rooms of W. J. Humphrey & Sons, undertakers, Church and Maitland street, since the death in St. Michael's Hospital, in a heavy oak casket, richly-lined. A. D. Mabee, a brother, for the family, and R. Richardson, the late jurist's private secretary, made the funeral arrangements, which in most particulars follow the arrangements made by Mr. Mabee himself when his wife died two years ago. The funeral will go directly from the train to the Anglican Church in Port Rowan, which Judge Mabee attended when he lived in the town and when he visited there. The burial services will be read by Rev. Mr. Williams, rector of the church.

The Hon. Sir W. R. Meredith, C.J., C.P., said on the opening of chambers yesterday: "Before proceeding with the business of the day, reference should be made to the great loss which the profession, the bench and the country have sustained owing to the death of the chief commissioner of the Board of Railway Commisisoners of Canada.

"Mr. Mabee, after a long, successful and honorable career at the bar, was appointed a justice of the high court and a member of the chancery division on Nov. 17, 1905, and brought to the duties of his high office all those qualities which the federal office adorn. His urbanity, his sound common-sense and his knowledge of law marked him out when a vacancy occurred to the important position of chief commissioner owing to the death of Mr. Killam, as a fit successor to that gentleman. No man could have been chosen who more fully in all respects met the requirements of the high office to which he was then called. His unimpeachable integrity, his broad common sense, and his knowledge of affairs, eminently fitted him for dealing with the large problems with which he had to deal in the performance of the duties of that office."

At the session yesterday afternoon of the Ontario Railway and Municipal Board, Chairman Leitch announced that out of respect for the late Judge Mabee the board will hold no public session to-day, and Mr. Kittson will represent the board at the funeral. The chairman stated that Judge Mabee's death was a great public loss, as he was a thoroughly trained and capable lawyer, of unusual demonstrative abilities. He was a strong man, without a sign of vacillation, in his dealings with the many important public questions coming before him for a decision.

Hamilton's Respects.

Hamilton, May 8.—As a mark of respect to the late Judge Mabee, Mayor Lees, several of the aldermen and other officials will be present at the Grand Trunk Railway station, when the body of the late chairman of the Railway Commission passes through the city, en route to Port Rowan.

Controller Bailey, Ald. Dr. Davey and Ald. Dr. Hopkins will join the funeral party at the station here and will represent the city at the obsequies at Port Rowan. Mayor Lees will be unable to attend the funeral on account of important engagements which he cannot cancel.

BRYCE NOT RECALLED

London, May 8.—Sir Edward Grey yesterday put a quietus on the rumors of the retirement of James Bryce as British ambassador to the U. S.

The Foreign Secretary stated categorically in the House of Commons that the ambassador, now on his way to Australia, would return to Washington in September.

Lord Mayor of Berlin to Resign.

Berlin, May 8.—The Berlin morning papers announce that the Lord Mayor of Berlin, K. S. Martin Kirschner, intends to resign shortly, and that Adolph Wormuth, the former Imperial Secretary of the Treasury, will succeed him.

DROWNING VICTIM IDENTIFIED AS THOMAS KING OF PETERBOROUGH

Special to the Review.

Ottawa, May 8—The body, found in the Ottawa River Monday afternoon, has been identified by Wm Cottral of Ottawa West, as Thomas King of Peterboro, Mr. Cottral says King called at his place shortly after New Years. He had not seen him since, although when leaving for the city King promied to return with his grip. The deceased's mother lives in Peterboro. The body will be interred in Beechwood cemetery, Ottawa, this afternoon.

The body was found in the Ottawa river by a number of rivermen. The body bore indications of having been in the water at least two months. He was a middle aged, dark complexion, stout, and apparently sound and healthy before death brought an end. He was about six feet tall and had dark hair with a few tinges of grey in it. He was clothed in heavy underwear, having on his feet a pair of heavy gum riverman's boots with clasps on the heels. His outside shirt was black with white stripes in it. His other clothing were: a knitted vest, a sweater coat and a short heavy overcoat.

Six water soaked ten dollar bills were found in his trouser pockets, besides some silver, a jack knife, a silver open faced watch, an Ottawa Electric transfer, dated January 4, and a hotel check bearing on it No. 59 Kalace Hotel, J.G.L. Mr. J.G. Lacasse, proprietor of the Palace Hotel on Broad street did not recollect missing the check.

MISSISSIPI CANNOT RISE MUCH MORE SAY EXPERTS; FLOOD NEARING WORST

Greatest Overflow the Valley of the Father of Waters Has Ever Known Is Almost at an End, But Loss Will Be Enormous—Work of Rescuing Marooned Sufferers Goes on—Appeal Is Made For Assistance.

New Orleans, La., May 8.—When the official river gauge at the head of Canal street registred 21.3 feet at 3 o'clock yesterday afternoon, a rise of four-tenths since 7 a.m., U. S. weather officials were of the opinion that the Mississippi had started on its final lap toward the predicted crest of 21.5 feet, which would mark the passing of the greatest flood recorded in the Mississippi Valley.

Clear weather and sunshine was reported yesterday at all points from the Torras Crevasse south to the mouth of the river. The work of rescuing marooned persons in isolated districts progressed more rapidly yesterday, and boats coming into concentration camps are usually loaded with women and children.

There is a scarcity of every kind of navigable craft, and everything that can be steered and carry passengers and supplies for even a short distance has been pressed into service. Hundreds of primitive flat boats that can be towed by motor boats are being constructed.

Work on the levees has been practically abandoned here. The hot sun yesterday baked the repair work done during the past three days, and the engineers are once more cheerful, many of them believing that the worst has passed. The levees have been inspected and pronounced in good condition. The work of strengthening the levees on the Algiers side has about been completed, and the experts believe more than a 22 foot stage can be held back.

Mayor Martin Behrman issued an appeal yesterday for funds and supplies for flood victims of the northern and east central portions of the state. The newspapers have taken up the task of raising funds in connection with the relief committees, and several thousand dollars and carloads and supplies have been sent out from this city.

Another Marine Strike.

London, May 8.—Another strike in the shipping trade has been precipitated by the National Sailors' and Firemen's Union, and the National Union of Cooks and Stewards, whose officials yesterday called out all the men in the employ of the Peninsular & Oriental Steamship Co.

The unions demand that at least two white men, as well as a coxswain, shall be carried for each lifeboat, which would mean a considerable increase in the European element among the crews.

The same demand will be made on all shipping companies.

FINAL LE IN MEXICO

Mexico City, May 8.—Gen. Huerta, federal commander at Torreon, has started his troops on the march northward to meet the main body of rebels, under Orozco, and fight what it is believed will be the deciding battle of the revolution.

Orozco is credited with commanding about 8,000 rebels, and Huerta's force was recently estimated at 4,000. Since then, however, recruits have been pouring into his camp, and it has been said he has an army equal or superior in numbers to that of the rebel leader.

TELEGRAPHIC PARAGRAPHS

A watchman named Payette lost his life in a fire that destroyed Crabtree's paper mill on Lake Oiseau, Quebec.

Mr. F. W. Thompson of Montreal, managing director of the Ogilvie Milling Co., died suddenly in England yesterday.

A judgment in the Supreme Court finds the Lord's Day act in Quebec ineffective in the matter of closing moving-picture shows on Sunday.

Dr. E. B. Norton, city bacteriologist of Niagara Falls, N.Y., and a native of St. Thomas, Ont., died following an operation. He was 39 years old.

Six-year-old May Taylor, daughter of John A. Taylor, at 2 Burnfield avenue, Toronto, was killed opposite her home about 7 o'clock last night, by a motor-car.

The Berlin Town Council authorized Solicitor Millar to apply to the Lieutenant-Governor-in-Council for a charter proclaiming Berlin a city, to become effective on June 10.

Fifteen hundred persons were routed from their beds in lodging houses to go out into the rain, along East 23rd street, New York, yesterday, due to a $250,000 fire in a six-storey loft building.

George Coulson, who has been swindling charitably disposed people in Toronto out of sums ranging from $5 to $20 for the past two years, received a sentence of one year in the Central Prison yesterday.

The French delegation which came to America to convey a bronze statue from France as a gift to the United States, the statue to be attached to the Champlain monument at Fort Henry, N.Y., arrived in Toronto yesterday.

Mrs. Isabella McKean, aged 84 years, sister of Frank Arnoldi, K.C., was probably fatally injured and Miss Arnoldi, aged 25 years, was seriously hurt in Toronto yesterday, when their horse became frightened at a shunting engine, and ran away.

Militia Orders.

Ottawa, May 8.—Major W. J. Douglas is promoted lieutenant-colonel of the 32nd Bruce Regiment, in place of Lt.-Col. Hugh Clark, M.P.

The period of appointment of Brig.-Gen. Lessard as adjutant-general is extended till April, 1913.

PRIVATE SALE OF HOUSEHOLD GOODS.

At 195 London-st. Unreserved sale of high grade household goods, must be sold quick. Call afternoons and evenings.

DERAILED CARS TIE UP LINE

Toronto, May 8.—At 2 o'clock yesterday afternoon, two 50-ton coal cars left the rails at mileage four and a quarter on the C.P.R. and tied up the whole line until after midnight. Over 700 feet of the roadbed was torn up, including rails and ties. All trains going north were held at East Don and Rosedale. The Trenton and Parry Sound passengers, and the Sudbury and Trenton trains coming into Toronto, were held up also.

ELECTRICIAN MET DEATH AT SWITCH

Special to the Review.

Niagara Falls, Ont., May 8—Standing bolt upright, with his flesh literally cooked, the body of Chester Findlay, aged 25, and an employe of the Ontario Power Company, was found leaning against a switchboard A current of twelve thousand volts had been coursing through his body for at least half an hour.

Gas Distended His Stomach

Caused Palpitation and Prevented Sleep—When Health Was Gone, Cure Followed Use of "Nerviline."

"My last wish will be," writes Harry P. Pollard, a well-known boot and shoe traveler of Hartford, "that everyone with a bad stomach may learn as I did, before it's too late, that Nerviline is the one remedy to cure. Why, I was in mighty bad shape, my digestion was all wrong, and every night I would waken with a start and find my heart jumping like a threshing machine. This was caused by gas on my stomach pressing against my heart. When I started to use Nerviline I got better mighty fast. It is certainly a grand remedy for the traveling man, keeps your stomach in order, cures cramps, prevents lumbago or rheumatism, breaks up chest colds and sore throat—in fact there hasn't been an ache or pain inside or outside for the past two years that I haven't cured with Nerviline. Do you wonder I recommend it?"

Testimonial No. 4890

For general household use Nerviline has no equal; it will cure the aches and ailments of the entire family—refuse anything but Nerviline, 50c per bottle, trial size 25c, all dealers or The Catarrhozone Co., Kingston, Ont.

NERVILINE CURES ALL PAIN

The Daily Review

WEDNESDAY, MAY 8, 1912.

NOT A FATAL BLOW

When the Sherman Anti-Trust law was passed in the United States, and when that law was invoked in the cases of the Standard Oil and Tobacco companies, it was thought by the people that the legal machinery provided by Congress, would not only dissolve the trusts, but do so in a way that would effectively destroy their power. The action of the government against these trusts, was fought through the courts. That was to be expected. The highest court sustained the position of the prosecution and ordered the dissolution of the holding companies, the trusts. The order had to be carried out, but those interested in the trusts do not appear to have lost their grip on the trade they controlled. The argument was put forward against the application for dissolution that the subsidiary companies had been so amalgamated that they could not be separated—that it would be as easy to unscramble eggs. But the order was made notwithstanding the alleged impossibility of carrying out and the unscrambling process was proceeded with. Where the people have got their surprise, however, is that the owners of the concerns, have not been injured, nor the people benefitted. The distribution of the assets, held by the trusts, have enriched the stockholders in the various companies, and instead of the prices of the articles they controlled being reduced, they have been increased. Transactions in the stock is a little more cumbersome, perhaps. It is said that when a transfer of stock is made the only difference is that the purchaser receives several certificates of stock of the different companies, instead of one certificate of the holding company or trust. The businesses are carried on as before and the public can see no benefit from the order of the court.

It takes more than one effort to overcome the big combinations. Their methods are various, and when one method is made illegal, they devise another to accomplish their end. It will be interesting to see what the next step will be, that will be taken to try to cope with the combines, and how Congress will endeavor to circumvent the trusts, now that the Sherman Act seems to fall short, that is, if it does make the effort, as it probably will.

AN UNHEEDED WARNING

It is recalled by the Boston Herald that just two years ago the Atlantic Monthly published an article entitled "The Man on the Bridge." It was written by Charles Terry Delaney, an officer on one of the great ocean liners, and it excited considerable controversy throughout the country. Indeed, so many indignant protests and denials were immediately put forth by the press and by agents and officers of various steamship lines that the Atlantic printed a response to this onslaught in its August number, in which Mr. Delancy backed up his statements by a few more telling facts.

In view of the late terrible disaster it is of interest to turn back to the article in question, which points out many things that are being vitally considered at the present moment. He dwells upon the dangers of running at great speed, both in the fog and in the vicinity of ice, and cites the hair-breadth escapes which he has experienced. He states that the captains and officers of the liners are underpaid and overworked, and dwells upon many other points well worth considering.

After setting forth the dangers of the "ice-track," he describes his experience of a few years before:—"The night being hazy and the ship in the ice track, I kept hanging on, until finally, after giving up hope of the weather clearing, I did decide to call the master and start the whistle. The responsibility was his, not mine. But before this could be done, almost alongside the ship was an iceberg towering up about three hundred feet. The ship passed within twenty feet of it, going at the rate of twenty-one knots; had there been a submerged trailer attached to the berg the ship's bottom would have been ripped open. Cold as I was at the time, I went colder still, and vowed that I would never again take such risks. Had the whistle been sounded it is possible that the warning of the berg's approach would have been given me by the echo."

After stating at length numerous conditions which he feels should be changed, the writer declares: "Until some fine vessel with her precious cargo is sent to the bottom through collision, these things, I believe, will not be rectified. It is only by good luck that this has not happened already. But luck will change some day. Who will pay the piper then? Not the worn-out man on the bridge, I hope."

In commenting upon this article, the Review of Reviews wrote at this time: "If this is true it is time that the public at once took some action in this direction, and if it is not true, the article should never have been printed."

The Hamilton Herald was a supporter of the reciprocity agreement, but the publication of President Taft's letter leads it to say:—"It may help to reconcile ardent Canadian advocates of reciprocity to the death and burial of the reciprocity pact. There is not much chance of its revival, and it is well that its friends should cease to waste energy in efforts to revive it."

MINISTER PRAISES ZAM-BUK

Tells How it Cured His Wife's Bad Sore

When Everything Else Had Failed.

Rev. Henry J. Munton, of Blackfalds, Alta., writes: "My wife had a very bad sore foot, which it seemed impossible to get anything to heal. The sore would heal to a certain point and then fester again, and so on. I procured a box of Zam-Buk, and after persevering with this herbal balm for some time the sore was completely healed.

"We were so grateful for this cure, and Zam-Buk acted so differently to any other of the numerous remedies we had tried that I thought you ought to know of this case. I have since recommended Zam-Buk to several of my parishioners, and it always gives satisfaction."

Another instance in which Zam-Buk proved of unequal value is told by Mr. N. L. Gerry, of Brandon, Man. He says: "I had my left foot run over by a wagon loaded with wheat. The foot was very badly crushed, and my little toe and the next toe were laid open. I applied Zam-Buk, and only had to miss work for two days. Zam-Buk healed the wound so quickly that on the third day I was able to put on my boot and walk to my work. In a very short time my toes were quite healed, and the foot is now as sound as ever, thanks to Zam-Buk."

Just as good for chronic sores, ulcers, piles, blood poison, burns, scalds, eruptions, eczema, and all skin injuries and diseases. 50c. box at all druggists and stores, or Zam-Buk Co. Toronto. Try Zam-Buk Soap, too. 25c. per tablet.

A Tart Critic.

The Abbe d'Aubignac, who wrote admirably on dramatic composition and had instanced many living examples of failure in that direction, was so imprudent after thirty years' silence as to write a tragedy himself. In the preface he boasted that he, of all dramatists, had most scrupulously observed the rules of Aristotle, whose inspiration he had followed! To this it was replied by one who had suffered from his criticism, "I do not quarrel with the Abbe d'Aubignac for having followed the precepts of Aristotle, but I cannot pardon the precepts of Aristotle that caused the abbe to write such a tragedy."

Practical Point of View.

The man watched his wife as she entered the voting booth.

"Do you like to see a woman mingling with a lot of men at a polling place?" inquired a bystander.

"It depends a great deal on the way she votes," said the husband, who was a practical man.—Cleveland Plain Dealer.

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins, *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

Liverpool Wheat Futures Close Lower, Chicago Higher—Live Stock —Latest Quotations.

CHICAGO, May 7.—Altho guesses went wrong on the government crop report to-day and put the total estimated yield of wheat 16,000,000 bushels too low, the fact developed too late to influence the market. The close, which was firm, ranged from a shade down to ⅝c higher, as compared with the night before. Corn made a net gain of ¼c to ⅜c to ½c; oats finished ⅛c off to ⅜c up, and provisions varied from a shade decline to 17½c advance. For the most part it was a waiting day in wheat. Good rains in Kansas and neighboring states and the merely fractional rise in Liverpool in response to the strength on this side, modified the bullish feeling. Operators here, however hesitated to press the market either way, owing to the uncertainty over crop figures.

The Liverpool market closed to-day on wheat ¼d to ⅜d lower than yesterday, and on corn ¼d lower. Antwerp wheat closed ⅝c lower, Berlin ⅛c lower, Budapest ¾c lower, and Paris ¼c to 1c higher.

Montreal Grain and Produce.

MONTREAL, May 7.—Cable advices on Manitoba spring wheat were very discouraging, the markets being depressed and buyers holding off for lower prices. There was a fair demand for oats for nearby shipment, and, as the prices bid were in line, some sales were made. The local market for coarse grains was very quiet, but the feeling is steady. Winter wheat flour was strong and prices were advanced five to ten cents per bag. Spring wheat grades are firm, with a fair volume of business passing. Demand for millfeed continues good. Butter is firm, but the demand is only fair. Cheese firm, but bids from English buyers too low to permit of much business. Eggs active and steady. Provisions fairly active.

Corn—American, No. 2 yellow, 88½c.

Oats—Canadian western, No. 2, 54½c; do., No. 3, 50½c; extra No. 1 feed, 51½c; No. 2 local white, 50½c; No. 3 local white, 49½c; No. 4 local white, 48½c.

Barley—Manitoba feed, 64c to 65c; malting, $1.05.

Buckwheat—No. 2, 74c to 75c.

Flour—Manitoba spring wheat patents, firsts, $5.80; seconds, $5.30; strong bakers', $5.10; winter patents, choice, $5.25 to $5.35; straight rollers, $4.80; do., bags, $2.25 to $2.35.

Rolled oats—Barrels, $5.35; bag 90 lbs., $2.55.

Millfeed—Bran, $25; shorts, $27; middlings, $29; mouillie, $30 to $34.

Hay—No. 2, per ton, car lots, $18.50 to $19.00.

Cheese—Finest westerns, 13c to 13¼c; finest easterns, 12⅝c to 12⅞c.

Butter—Choicest creamery, 26½c to 27c; seconds, 25½c to 26c.

Eggs—Fresh, 23c to 23½c.

Potatoes—Per bag, $1.75 to $1.80.

Pork—Canada short cut backs, barrels, 45 to 55 pieces, $25.

Lard—Compound tierces, 375 lbs., 8¼c; wood pails, 20 lbs. net, 9½c; pure, tierces, 375 lbs., 13⅝c; pure, wood pails, 20 lbs. net, 14¼c.

Beef—Plate, barrels, 200 lbs., $14.50; do., tierces, 300 lbs., $21.50.

Buffalo Grain Market.

BUFFALO, May 7.—Spring wheat nominal; winter easy; No. 2 red, $1.25; No. 3 red, $1.23; No. 2 white, $1.23.

Corn—Firmer; No. 3 yellow, 83½c; No. 4 yellow, 81½c; No. 3 corn, 81½c to 82½c, all on track, thru-billed.

Oats—Steady.

Barley—Malting, $1.22 to $1.32.

CATTLE MARKETS.

Toronto Live Stock.

TORONTO, May 7.—The railways reported 76 carloads at the City Yards, consisting of 1047 cattle, 1089 hogs, 48 sheep and 420 calves.

Butchers

A few fancy heavy weight cattle sold at $7 to $7.30; good butchers, $6.75 to $7; medium, $6.30 to $6.75; common, $6 to $6.25; cows, $3.75 to $6.25; bulls, $4.75 to $6.25.

Stockers and Feeders

One load of feeders, 900 lbs., sold at $3; 21 stockers, 780 lbs., sold at $5.45; 28 stock heifers, 600 lbs., each, sold at $4.80; 14 cows for grass, 900 lbs., sold at $4.

Milkers and Springers

A moderate supply of milkers and springers were bought up readily at $45 to $80 each. Mr. James Armstrong bought 23 cows at $54 to $77 each.

Veal Calves

Receipts were liberal, 420 calves. Prices were steady at $5 to $7 per cwt., with a very few at $7.50.

Sheep and Lambs

Sheep ewes at $5.50 to $6.50 and an odd few at $7; yearlings, $6.50 to $8.75; rams, $4.50 to $5.50; spring lambs, $5 to $7 each.

Hogs

Selects fed and watered sold at $8.85, and $8.50 f.o.b. cars at country points.

East Buffalo Cattle Market.

EAST BUFFALO, May 7.—Cattle—Receipts, 50 head; market steady; trade light; prime steers, $8.20 to $8.60; butcher grades, $3.75 to $7.75.

Calves—Receipts, 350 head; market fairly active, steady; cull to choice, $6 to $8.50.

Sheep and Lambs—Receipts, 12,400; market active; lambs 40c higher; choice lambs, $8.25 to $8.40; cull to fair, $6 to $7.75; yearlings, $7 to $7.25; sheep, $3 to $6.75.

Hogs—Receipts, 4250; market active, 10c to 15c higher; yorkers, $7.90 to $8; pigs, $6.65 to $6.75; mixed, $7.95 to $8; heavy, $8 to $8.10; roughs, $6.75 to $7.10; stags, $5.50 to $6.

Chicago Live Stock.

CHICAGO, May 7.—Cattle—Receipts, 2500; market active. Beeves, $6 to $9.50; Texas steers, $5.40 to $7.30; western steers, $5.75 to $8.25; stockers and feeders, $4.25 to $6.25; cows and heifers, $2.80 to $7.75; calves, $7.75 to $7.95.

Hogs—Receipts, 10,000; market active; light, $7.15 to $7.65; mixed, $7.25 to $7.77½; heavy, $7.25 to $7.80; rough, $7.25 to $7.50; pigs, $4.75 to $6.85; bulk of sales, $7.50 to $7.75.

Sheep and Lambs—Receipts, 8000; market steady; native, $4.65 to $7.50; western, $4.90 to $7.65; yearlings, $6 to $8.35; lambs, native, $5.75 to $9; western, $6.25 to $9.65.

Cheese Markets.

STIRLING, May 7.—At to-day's cheese board 310 boxes were offered; all sold at 12 15-16c.

CAMPBELLFORD, May 7.—Cheese reported 400 offered; 200 sold at 12⅝c; 150 at 12 13-16c; balance refused.

DIABETES

is one of the most cruel maladies of which mankind is subject, the many complications arising from time to time, making life seem almost unbearable. For many diseases, medical, scientific, and physiological knowledge and experience gained from years of deep research, has achieved remarkable results, but, up to now, little has been discovered of practical value in the treatment and cure of Diabetes. In fact, people have begun to look upon the disease as well-nigh incurable. Even in the medical profession can be found doctors who are of the same opinion, regarding sceptically any claim to ameliorate or improve the condition of a diabetic patient.

It can, however, be proved that SANSOL'S ANTIDIABETES lastingly cures all cases of Diabetes. Full particulars can be obtained from the Sansol Mfg. Co., Winnipeg, Man.

PRICE $2.00 PER BOTTLE

From McDermid & Jury, Druggists.

$100 REWARD $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENNEY & CO., Toledo, Ohio.

Sold by all druggists, 57c.

Take Hall's Family Pills for constipation.

Cynthia's Chauffeur

By LOUIS TRACY

Copyright by McLeod & Allen, Toronto

Medenham put his hand in his pocket and gave her half-a-crown.

"They have forgotten to tip you, Gertie," he said. Without heeding a stare of astonishment strongly tinctured with indignation, he stooped in unnecessary scrutiny of the Mercury's tires. The minx tossed her head.

"Some folks are as grand as their missusses," she remarked, and went back to her garden.

But Smith looked puzzled. Medenham, no good actor at any time, had dropped too quickly the air of camaraderie which had been a successful passport hitherto. His voice, his manner, the courtly insolence of the maid's dismissal, evoked vague memories in Smith's mind. The square-shouldered, soldierly figure did not quite fit into the picture, but he seemed to hear that same authoritative voice speaking to Dale in the Brighton garage.

The conceit was absurd, of course. Chauffeurs do not swagger through the world dressing for dinner each night and distributing gold in their leisure moments. But Smith's bump of inquisitiveness was well developed, as the phrenologists say, and he was already impressed by the fact that no firm could afford to send out for hire a car like Medenham's.

"Funny thing," he said at last. "I seem to have met you somewhere or other. Who do you work for?"

"Myself."

Medenham caught the note of bewilderment, and was warned. He straightened himself with a smile, though it cost him an effort to look cheerful.

"Have a cigarette?" he said.

"Don't mind if I do. Thanks." Then, after a pause, and some puffing tasting: "Sorry, old man, but this baccy ain't my sort. It tastes queer. What is it? Flor de Cabbagio? Here, take one of mine!"

Medenham, in chastened mood, accepted a "five a penny" cigarette, and saw Smith throw away the exquisite brand that Sevastpolo, of Bond Street, supplied to those customers only who knew the price paid by connoisseurs for the leaf grown on one small hillside above the sun-steeped bay of Salonika.

"Yes," he agreed, bravely poisoning the helpless atmosphere, "this is better suited to the occasion."

"A bit of all right, eh? I can't stand the Count's cigarettes eether—French rubbish, you know. An' the money they run into—well, there!"

"But if he is a rich man——"

"Rich!" Smith exploded with merriment. "If he had what he owes he might worry along for a year or so, but, you mark my words, if he doesn't—Well, it's no business of mine, only just keep your eyes open. You're going through with this tour?"

"I—believe so," said Medenham slowly—and thus he took the great resolution which till that moment was dim in his mind.

"In that case we'll be having a jaw some other time, and then, mebbe, we'll both be older an' wiser."

Notwithstanding the community of taste established by Smith's weeds, the man was still furtively racking his brains to account for certain discrepancies in his new acquaintance's bearing and address. Medenham's hands, for instance, were too well kept. Hiss boots were of too good a quality. His reinder driving gloves, discarded and lying on the front seat were far too costly. The disreputable line coat might hide many details, but not these. Every now and then Smith wanted to say "sir," and he wondered why.

Medenham was sure that at the back of Smith's head lay some scheme some arranged trick, some artifice of intrigue that would find its opportunity between Cheddar and Bristol. The distance was not great—perhaps eighteen miles—by a fairly direct second-class road, and on this fine June evening it was still safe to count on three hours of daylight. It was doubly irritating, therefore, to think that by his own lack of diplomacy he had almost forfeited Smith's confidence. Twice had the man been on the very brink of revelation, for he was one of those happy-go-lucky beings not fitted for the safeguarding of secrets, yet on each occasion his tongue faltered in subconscious knowledge that he was about to betray his master's affairs.

Feeling that Dale would have managed this part of the day's adventures far better than himself, Medenham took his seat and touched the switch.

"We have to make Bristol gy seven o'clock, so I shall pull out in front; I suppose Count Marigny will give the ladies the road?" he remarked casually.

Smith was listening to the engine.

"Runs like a watch, don't it?" was his admiring cry.

"And almost as quietly, so you heard what I said."

"Oh, I hear lots, but I reckon it a good plan to keep my mouth shut," grinned the other.

"Exactly what you have failed to do," thought Medenham, though he nodded pleasantly, and, with a "so long!" passed out of the yard. The man's face wore a good-humored sneer. It was as though he said:

"You wait a bit, my dandy shuffer—you ain't through with his Countship yet—not by any manner o' means."

And Medenham did wait, till nearly seven o'clock. He saw Cynthia and her companions come out of Gough's Cave and enter Cox's. These fairy grottoes of nature's own contriving were well worthy of close inspection, he knew. Nowhere else in the world can stalactites that droop from the roof, stalagmites that spring from the floor, be seen in such perfection of form and tint. But he fretted and fumed because Cynthia was immured too long in their ice-cold recesses, and when, at last, she reappeared from the second cavern and halted near a stall to purchase some curios, impatience mastered him, and he brought the car slowly on until she turned and looked at him.

He raised his cap.

"The gorge is the finest thing in Cheddar, Miss Vanrenen," he said. "You ought to see it while the light is strong."

"We are going now," she answered coldly. "Monsieur Marigny will take me to Bristol, and you will follow with Mrs. Devar."

He did not flinch from her steadfast gaze, though those blue eyes of hers seemed definitely to forbid any expression of opinion. Yet there was a challenge in them, too, and he accepted it meekly.

"I was hoping that I might have the pleasure of driving you this evening," he said. "The run through the pass is very interesting, and I know every inch of it."

He fancied that she was conscious of some mistake, and eager to atone if in the wrong.

She hesitated, yielded almost, but Mrs. Devar broke in angrily:

"We have decided differently, Fitzroy. I have some postcards to dispatch, and Count Marigny has kindly promised to run slowly up the hill until we overtake him."

"Yes, you ought to have waited in the yard of the inn for orders," said the ever-smiling Marigny. "My car can hardly pass yours in this narrow road. Back a bit to one side, there's a good fellow, and, when we have gone, pull up to the door. Come, Miss Vanrenen. I am fierce to show you the paces of a Du Vallon."

The concluding sentences were in French, but Count Edouard spoke idiomatic English fluently and with a rather fascinating accent.

Cynthia, slightly ruffled by her own singular lack of purpose, made no further demur. The three walked off down the hill, and Medenham could only obey in a chill rage that, were Marigny able to guage its intensity might have given him "furiously to think."

In a few minutes the Du Vallon scurried by. Smith was driving, and there was a curious smirk on his red face as he glanced at Medenham. Cynthia sat in the tonneau with the Frenchman, who drew her attention to the limestone cliffs in such wise that she did not even see the Mercury as she passed.

Medenham muttered something under his breath, and reversed slowly back to the inn. He consulted his watch.

"I'll give the postcard writer ten minutes—then I shall jar her nerves badly," he promised himself.

Those minutes were slow-footed, but at last he closed the watch with a snap. He called to a waitress visible at the end of a long passage. The girl happened to be his friend of tea time.

"Would you like to earn another half crown?" he asked.

She had wit enough to grasp essentials, and it was abundantly clear that this man was not her lawful quarry.

"Yes—sir," she said.

"Take it, then, and tell the elderly lady belonging to my party—she is somewhere inside—that Fitzroy says he cannot wait any longer. Use those exact words—and be quick!"

The girl vanished. An irate yet dignified Mrs. Devar came out.

"Do I understand——" she began wrathfully.

"I hope so, madam. Unless you get in at once I intend going to Bristol, or elsewhere, without you."

"Or elsewhere?" she gasped, though some of her high color fled under his cold glance.

"Precisely. I do not intend to abandon Miss Vanrenen."

"How dare you speak to me in this manner, you vulgar person?"

For answer Medenham set the engine going.

"I said 'At once,'" he replied, and looked Mrs. Devar squarely in the eyes.

She had her fair share of that wisdom of the serpent which is indispensable to evildoers, and had learnt early in life that whereas many men say they will do that which they really will do if put to the test, other men, rare but dominant, can be trusted to make good their words no matter what the cost. So she accepted the unavoidable; quivering with indignation, she entered the car.

"Drive me to the Post-office," she said, with as much of acid repose as she could master to her aid.

Medenham seemed to be suddenly afflicted with deafness. After negotiating a line of vehicles, the Mercury leaped past the caves of Gough and Cox as though the drip of lime-laden water within those amazin gdepths were reeling off centuries in a frenzy of haste instead of measuring time so slowly that no appreciable change has been noted in the tiniest stalactite during fifty years. Mrs. Devar then grew genuinely alarmed, since even a designing woman may be a timid one. She bore with the pace until the car seemed to be on the verge of rushing full tilt against a jutting rock. She could endure the strain no longer, but stood up and screamed.

Medenham slackened sped. When the curving road opened sufficiently to show a clear furlong ahead, he turned and spoke to the limp, shrieking creature clinging to the back of his seat.

To be continued

Lost His Hair, Beard and Mustache

Terrible Plight of a Pennsylvania Man Reported by a Prominent Citizen:

"About two years ago my hair, beard and mustache started to come out in spots. These spots were entirely bare of hair.

Seeing PARISIAN SAGE advertised, I purchased four bottles and after using two of the bottles, the hair came in until now I have as good a head of hair as I had before this trouble started.

I can truthfully recommend this preparation to any one for what it is recommended for. Sam Galder, Jamison City, Col. Co., Pa. Oct. 11, 1911."

Please bear in mind that PARISIAN SAGE is not guaranteed to grow hair on bald heads.

In Mr. Galder's case the hair root was not dead and there is no good reason why PARISIAN SAGE should not do just what he writes it did.

"The next time Mr. Galder came into my store after purchasing the PARISIAN SAGE," writes the druggist who sold him, "his appearance was so changed I did not know him."

PARISIAN SAGE is without doubt the most efficient hair grower, beautifier and dandruff cure in the world and people who are wasting time with ordinary commercial tonics should wake up.

PARISIAN SAGE will banish dandruff, stop falling hair and itching scalp; will put life lustre and beauty into faded hair, or money back. It is a most delightful and refreshing tonic for men, women and children. Large bottle 50 cents at Wm. Madill's, and druggists the country over.

SUFFERED FROM VIOLENT CATHARTICS

The Warning of Mr. Geo. C. Fox Is One That Should Be Heeded by All.

Few men on the road are better known than genial George Fox, whose friends throughout the West are legion. In the following letter he expresses gratitude for signal services rendered by Dr. Hamilton's Pills. He goes on to say: "Until I used Dr. Hamilton's Pills and experienced their wonderful mildness and curative power, I estimated the value of every pill by its activity. Talking about this to a well-known physician I met on the train the other day, he explained there are different kinds of drugs that act upon the bowels, the most active being known as drastic. Except in extreme cases where the life of the patient depends upon speedy evacuation of the bowels, pills should never be drastic. Purgatives cause catarrh of the bowels and inflammation; their dose must be increased, causing even more harm. With such a clear explanation I could see why Dr. Hamilton's Pills are curative and not irritating, why they are mild, yet most searching.

"From my experience I recommend everyone that takes pills to give up the old-fashioned harsh, purging pill, and, instead, to use Dr. Hamilton's. They cure headache, biliousness, constipation, bad stomach, and keep the system in perfect condition."

Refuse any substitute for Dr. Hamilton's Pills; sold for 25c., all dealers, or The Catarrhozone Co., Kingston, Ont.

Dr. Hamilton's Pills Cure Constipation

A WINDOW GARDEN.

Northern Exposures Ideal For Indoor Blooming Bulbs.

People who like to replant and grow hyacinth bulbs indoors will find help in remembering that there is likely to be trouble if the pots are at once brought into a strong light, as many times the bud refuses to come out of the bulb until the flower spike is formed, in which case there will be a deformed flower.

You can prevent this by placing on the pot a paper cone, fitting the top inside its rim, made of any paper which is opaque, as blue, green or red. The cone should have an inch opening at the top, and the effect will be to make the bud draw up toward the light. When it has cleared the top of the bulb remove the cone.

There is no fertilizer to be given the bulbs when they are brought in for blooming, as any given would have no effect on this year's blooms. The flower is made or spoiled in the growing of the roots. If a fine, large mass of fine fibrous feeding roots are grown while the pot is in the dark there will be a large, fine flower; if not, it will be in proportion to the mass of roots. This is why the addition of fertilizer after it has been brought into the light has no effect on the blooming of the bulb.

However, there should be an abundance of water given the bulbs, and it should be kept in mind that for the best effects we must simulate nature's way of growing them as far as we can.

In a state of nature they bloom outdoors early in the spring, when the ground is wet and cool and the sun heat makes little impression on the temperature. In order to reproduce these conditions we give the pots plenty of water and keep them out of the direct rays of the sun. A north window is an ideal place for spring blooming bulbs when being grown in the house.

SPRING BLOUSES.

A Craze For Color Follows Long Reign of White.

Many women are engaged nowadays in making blouses for next summer out of gayly striped handkerchief linen or else embroidering a tiny colored picot scallop for the edge of a blouse ruffle. There is a craze for color after the lengthy reign of white, so the stripes are wide, and their colors—pink, currant, blue, green or yellow—are by no means of the pastel order, but quite deep enough to stand a bit of fading and still be good to see.

Those who make a point of keeping up with the modes are not putting the ruffles on their blouses yet, and some are merely tucking the sheer goods in blouse lengths and rolling them up to be cut when Dame Fashion has said her final word for the season. Others will make their blouses up in the style they consider most becoming to their particular style of beauty, trusting to looks rather than modes.

For the southern wardrobe a dozen white china silk shirts made exactly like those of men are not considered too many.

Since the all white blouse has ceased to be considered smart when worn in combination with a dark tailored costume there has been room for as many substitutes for it as it has been possible to devise. One clever modiste has created a charming and unique affair of white crepe de chine striped with half inch bands of velvet in a color to match the suit. It is made in a soft Russian style, with a heavy velvet cord marking the waist line, coats now being long enough to hide a blouse of this kind.

New Bath Accessory.

Wooden bowls to float in the bath carrying one's favorite soap are an obvious device that might have been invented long ago, it seems. Some are beautifully carved, others stained to match the prevailing color of the suit, and each has the owner's initials burned in or riveted on in metal.

Snake Got Loose.

There was a startling incident at the Gypsy and Folk Lore Club of London recently, when Mr. W. B. Haselden brought some snakes from the Zoological Gardens for an exhibition of snake-charming.

A bull snake, eight feet in length, from South America, which recently performed in "Kismet" at the Garrick Theatre, escaped from a box while the charmer was engaged in awakening a snake of another family, and had got "well away," before he was missed.

The reptile finally coiled itself round a beautiful fur stole worn by Miss Winefride Borrow, a descendant of the author of "The Romany Rye," who evidently inherits the fearlessness of her ancestor, for Miss Burrow was "not a bit afraid," and walked to the box with the stole and reptile.

This particular snake was of a non-poisonous species, but it was some time before those of the audience who had made a hurried exit could be induced to return.

The exhibition followed a lecture on "Serpent Worship in the Land of the Gypsies" by Mr. Haselden.

BEAUTIFUL EYES

are made beautiful by long, silky lashes and well defined, lustrous brows. Eyes, like diamonds, depend on their setting. The beauties of the face are lost is the eye brows are thin and scanty, and the lashes are thing and scanty. Parisian Lash Lustre grows beautiful, soft, silky lashes. It has done so for society women throughout Europe, and it comes here well recommended to do the same for you. Parisian Lash Lustre is not a dye or colorator, but a scientific preparation for beautifying the eye lashes and brows. Our guarantee goes with every box of Pariaian Lash Lustre. A two weeks' treatment will bring beauty to your eyes that you have never before possessed. By mail, prepaid, in opal boxes on receipt of price, fifty cents B. V. Marion, sole distributor, Bridgeburg, Ont.

SANOL

The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.

SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.

SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.

Sanol per bottle $1.50

Get it from McDERMID & JURY, Druggists, Peterborough, or direct from The Sanol Manufacturing Co., Winnipeg, Man.

Pages of the Past.

At the opening of Glasgow's huge new library, the Earl of Rosebery, in a characteristic speech, deplored the nightmare of platitudes which the opening of many libraries left behind.

The new collection, which now forms the chief library in the city, and will be known as the Mitchell Library, has been magnificently raised at a cost of $500,000. It has accommodation for 400,000 volumes and 00 readers in its spacious halls.

Lord Rosebery, with a delightful effort to seem miserable, lamented how difficult it was to find something to say on such an occasion. The subject of libraries, he thought, was exhausted. For Mr. Carnegie told him the other day that he had founded 2,200 libraries. Well, that was an enormous work of beneficence, and it meant that 2,200 speeches had been delivered in connection with the founding of all those libraries.

When he heard of all those speeches, and when Mr Carnegie told him that he (Lord Rosebery) had opened the first library in Dunfermline, he felt as if he had opened them all. With that horrible nightmare behind him it almost robbed him of speech, when he thought of the hundreds of libraries he had opened with the customary platitudes.

When Does a Man Need Life Insurance?

When he comes to die. Nine men out of ten, no matter how prosperous thay may have been during some period in the past, will leave no other estate, or at least not enough of other assets to save their families from pinching poverty.

He needs life insurance before he dies, as, for example, when he finds himself no longer insurable. He knows he needs it when he cannot get it. He always intended to take insurance, or to add to the amount he already carries, but he deferred too long. Procrastination is the robber of widows and orphans.

He needs life insurance now—all he can possibly carry. He needs it now because to-morrow, or next month, or next month, or next year, by reason of accident or disease, he may be unable to get it.

He needs it because he is poor; or because, if fairly well to-do, he would yet not leave such a provision for his family as he would like to leave, if he were suddenly taken away.

He needs it because, though he may be rich, he knows that riches often "take themselves wings." He needs it because, being rich he is able to pay for it, while a little later he may be unable to pay, or unable to get it even if he can pay.

He needs it because he can buy it cheaper to-day than ever he can in the future. He must have it sometime, and every year adds to the price that he will have to pay.

You will find the most up-to-date policy of to-day issued by THE SUN LIFE ASSURANCE COMPANY OF CANADA.

DR. NORVAL'S NUTRITIVE HYPOPHOSPHITES

When a person feels "blue" — "all tired out" — "dosen't feel like doing anything" — "connot concentrate his mind on his work" — "feels weak mentally and physically" — "doubts his powers" — "complains of poor appetite and sleeplessness" — "suffers from headache" — Then his nervous system is run down and demands a good up-building tonic. Nervous exhaustion is a modern disease, caused by too close attention to business, overwork worry, cares, overstudy, etc.

Dr. Norval's Nutritive Hypophosphites forms the best nerve and brain food known, and have restored thousands of sufferers to health.

We sell it, and strongly recommend it.

Cedron Seed Plant.

In Central America many natives are gathering the seeds of this plant, Cedron Seed, a rare medicine that has valuable curative powers. But few drug stores carry this seed, owing to the high cost of the article.

This country is a large consumer of this costly seed because it enters into the famous catarrh remedy, Peruna, sold the world over.

TITANIC WAIFS TO BE RETURNED TO MOTHER

Special to the Review.

Nice, France, May 8.—Mme. Navratil, who believed that the two waifs saved from the Titanic, and who are being cared for in New York, were her sons, has received a photograph of the pair, and she immediately recognized them as her sons. She will leave for New York immediately. Her husband took the children from her cousin, to whom they had been confided, pending divorce proceedings.

OCTOGENARIAN PASSES AWAY AT COLDPPRINGS

The death occurred this morning at the good old age of eighty-two, of Mrs John Bell, lot 21, con. 14, Coldsprings, Otonabee, at the residence of her adopted daughter, Mrs. Sidney Bennett.

The deceased had been in poor health for some time and her death was not unexpected.

The late Mrs. Bell was born in County Cavan, Ireland, and came to this country in the year 1842, settling in Otonabee. Her husband predeceased her some ten years ago

She leaves to mourn her departure, one son, R. M. Bell, of Bay City Michigan, one sister, Mrs. R. M. Matchett, East City, and three brothers, Montgomery and Joseph Neithercut, of Dundalk, and Alex. M., of Gaylord, Mich.

The funeral will leave the residence of her adopted daughter, Friday afternoon at 1.30 to Rae's Cemetery, Lakefield.

OBITUARY

The Late Fred Newman

The death occurred last evening at six o'clock, in Nicholl's Hospital, of Fred Newman, aged 24 years. He had been ailing for four weeks.

The late Mr. Newman was born in Peterborough, but his parents have since passed away. He followed farm work, and previous to his illness resided with his uncle, Mr. Joseph Newman, lot 4, con. 1, Smith township.

The funeral will take place to-morrow afternoon at two o'clock, from the home of Mr. Newman to Mount Pleasant Cemetery.

Mrs. Frances Manley

The death occurred this morning early, of Mrs. Frances Manley, at her residence, 179 Bethune street. The late Mrs. Manley was 64 years of age and has been a resident of Peterborough for twelve years, having come to this city from her native township of Hope.

She is survived by four sons and one daughter, all of Peterborough, except one son, William of Toronto. The daughter is Elizabeth, and the three sons of this city are David, Alfred and George. Her husband, the late G. H. Manley, predeceased her some time ago.

The body will be taken to Perrytown on the noon G.T.R. train tomorrow.

MILLINERY
Our latest shipment of high-grade Millinery for summer wear has arrived and is now ready for your inspection at the Peterborough Millinery Parlors. Mrs. W. B. ARMSTRONG, 435 George St. Upstairs in old T. A S. Rooms.

WHO'S COMING AND GOING

Mrs. W. J. Green, 375 Brock street, will not receive to-morrow (Thursday) nor again this season.

Mr. and Mrs. F. Matthews have returned from New York City, where they spent the last week.

The Misses Dickson left on Monday for an extended tour of Great Britain and the continent.

Mrs. Walsh and Mrs. Hazlit are spending a few weeks at the Sanitarium, Clifton Springs, New York.

Mr. and Mrs. E. W. Henderson, of Kingston, are the guests of Mr. and Mrs. Morphet, Hunter street.

Mr. W. G. Morrow and the Misses Morrow have returned after a week's visit in New York City.

A musical evening was spent at the residence of Mr. and Mrs. T. Poole, 598 Chamberlain street, to welcome Mrs. Seba back from her visit to the Old Country. Mr. W. Parker sang, "In the Dear Homeland," and Mrs. John Lee played some beautiful Irish selections on the piano. Mrs. Seba was pianist. Dainty refreshments were served and a pleasant evening drawn to a close by all singing "Auld Lang Syne." Guests from out of town were Mrs. John Lee, of Liverpool, England; Mrs. F. Roberts, of Toronto. Mrs. Lee accompanied Mrs. Seba from England, and will remain the guest of Mrs. T. Poole.

WANTED
Carpenters and laborers. Apply to W. J. Johnston, 637 Aylmer. Phone 1193.

SEWING MEETING

A meeting of the Sewing Club is called for at 2.30 to-morrow afternoon at the Children's Shelter. A large attendance of ladies is requested as there is considerable sewing to be done.

Mark Street Church

The reports for the last quarter of the year were presented at the Board meeting at Mark street church last night. Each showed progress. One month's holidays was tendered the pastor, and a committee appointed to secure a supply.

BOAT ARRIVALS

The Lake Champlain of the C.P.R. line, arrived at Quebec at 12.20 yesterday.

The Mount Royal of the C. P. R. line was reported 260 miles south of Cape Race, due Quebec on Saturday morning.

London has appointed Wm. Dilger, of Detroit, as Parks Commissioner, at $2,000 a year.

"Nothing is too good to be true"

THERE are men who say that Semi-ready Tailoring does not suit them. Some have never tried; some may never try. But Semi-ready was never conceived for the man of the shut-eye instinct.

To the man who tried and who failed to get the service and satisfaction he should have gotten—

We say that Semi-ready Tailoring is better than it ever was, better than it was ever expected to be, and that it will make you say "Nothing is too good to be true."

ON GEORGE STREET.

REMAINS EXPECTED HERE ON FRIDAY

The body of the late Samuel Adams who died in Edmonton last Thursday, is expected to reach Peterborough on Friday morning on the 11.35 C. P. R. The remains will be in care of a brother of the deceased, William Adams, of Snowflake, near Winnipeg. The funeral arrangements will be made known later.

Towns Change Flags.

By the correction of an error in surveying made long ago two American towns have become British. International surveyors who have been at work deciding the boundary line between British Columbia and the State of Washington have re-located the line for a long distance two miles further south, and British Columbia will acquire considerable new territory, including two towns, Blaine and Sumas.

The matter is being carried out by arrangement, and neither Washington nor Ottawa is perturbed. The same, however, cannot be said of Blaine and Sumas. There are 5,000 people in the former town and about 3,000 in the latter who have always called themselves citizens of the republic.

When the mistake was made in the original survey many years ago there were no towns in the district, only primeval forests. The extent of the error will not be known until the surveyors have finished their task.

The situation is somewhat complicated. Both the towns are in Whatcom County, which is "dry" (that is, teetotal or prohibitionist). When these towns are added to British Columbia the will of the electorate will be set at nought, for both will become "wet" under the Provincial Hotels Act.

Again, huge quantities of opium have been seized in these towns, and the smugglers have been sent to Walla Walla, the prison of the State of Washington. The question arises: Will these smugglers be released, because since they carried the opium no farther south than Blaine and Sumas, they are not guilty of smuggling.

World's Wheat Area.

The fourth and concluding volume of agricultural statistics for 1910, issued recently, deals with available returns for that year of the acreage and production of crops.

The report points out that the expansion of the wheat area appears to be proceeding steadily. Within the British Empire, a loss of 11,000 acres in the United Kingdom was balanced by an equal gain in New Zealand, while no less than 4,018,000 acres were added in India, Australia and Canada to the wheat land of the previous year. In Europe the chief reduction was one of 101,000 acres in France.

The wheat area of the United States increased by 2,482,000 acres, and of Argentina by 1,029,000 acres. Russia reported the immense addition of 5,620,000 acres, but there appears to be some doubt whether this figure is not partly attributable to more complete statistics.

The Young Member.

Grantley Berkeley in his "Recollections" notes one of the shortest Parliamentary speeches on record. It was in the British House of Commons. Leonard Charlton tried to make a maiden speech, and, rising in his place with a very bald head, known, too, as he was to everybody as one of the oldest stagers in all the ways of the world, he began with great affectation of inexperience and with an exceedingly mild voice: "Mr. Speaker, I am but a young member." On hearing this assertion from so crafty a man, possessing so venerable a pate, the entire House roared with laughter. Twice he stopped, and three times he commenced with these words, but it was useless. The House would not listen, and he never essayed to speak again.

And Kings, Too.

Soon after Lord Sidney's elevation to the peerage he happened to observe in company that authors were often very ridiculous in the giving of titles. "That," said one of the company, "is an error from which even kings appear not to be exempt."

A Grain a Month.

Pitchblende from Cornwall is so rich in radium that Sir William Ramsay declares a grain can be produced every month.

UNDER LOCK AND KEY.

But the Object of This English Prison Is to Reclaim, Not to Punish.

There is now in the course of construction on a breezy hill top near Newport, Isle of Wight, a prison which will be really more like a pleasantly situated and richly managed hotel than a penitentiary. The queer thing about this prison will be this—its occupants will be men who have finished their sentences and who, it would seem, had every right to go forth into the world as free men. In plain English, Camp Hill—that's what it will be called—is to be known as an institution of "preventive detention" and there will be carried into effect what one authority offers as the best solution of the case of the habitual criminal—"the indeterminate sentence which will detain veterans in custody till they prove fit for law-abiding lives." No one will be sent there for committing any specific crime. Every inmate must have been convicted at least four times. The system will work thus: Bill Sikes, indicted for burglary, will also be charged with being an habitual criminal. If he is convicted of the burglary the jury will then proceed to consider whether he has made a habit of crime. Let us assume they decide that he has. Then the judge passes sentence.

"Bill Sikes," he says, "for burglary I order you to be kept in penal servitude for three years. After that you will remain under preventive detention for five years longer." If Sikes had a particularly bad record his term of detention could be made ten years. That is the longest sentence of this kind that can be passed; the shortest is five. The kind of treatment the "detentioners" will get depends to a great extent upon themselves.

In each cell at Camp Hill there will be a big window of clear glass which can be opened and shut at will, instead of a small sheet of opaque glass placed high up in the wall and not made to open and shut at all. This is an immense boon. It largely takes away the "prison feeling." The cells are a little smaller than usual, but quite large enough, with pleasant, red-tiled floors. The occupant will be allowed plenty of books and can put up, if he likes, photographs or little pictures on the walls.

Still less prison-like than the cells are the refectories and the canteen. Hitherto it has never been thought wise to let prisoners assemble or talk freely. But at Camp Hill those who win a certain number of good conduct stripes will be allowed to have their meals together in large, light, airy rooms with wood-block floors and pleasant decorations. In the evenings they can sit here, too, play games, chat and look at magazines. Some d— it is posible the best behaved may be permitted an occasional pipe. The whole idea is to induce them to behave themselves.

At the canteen they can buy with "Camp Hill currency," which they will receive for the work they do (including work in market gardens of their own), small luxuries such as sardines, biscuits and potted meat. They can also send money to their families or friends or they can save it up against their hour of freedom. Visits are to be paid in a far more agreeable fashion than prevails at other prisons. In a comfortable room the prisoner and his friend can sit and talk at a table. A warder will be present, but visitor and inmate will not be compelled to stand several feet apart.

"The danger seemed to me, as I went through the partly completed structure," says a Londoner, "that the thing might be only too successful. Provision is made for periodical examination of the prisoners' records and for the release of those who seem to have really turned over a new leaf. But would they want to be released? And, if released, would they not soon begin to think 'wistfully of their 'sheltered life' on that healthy hill top with its glorious views over downland and deep vale?

"But just at that moment, as those questions were running through my head, we passed through a heavy, locked gate and were saluted by a warder with a loaded rifle. That is what will save Camp Hill from becoming an 'hotel.' It will, in spite of its differences, be a prison all the time."

Irishmen Barred.

The reception given recently to the Irish students at Gray's Inn recalls a time when Irishmen were not so welcome at the Inns of Court. One of the earliest entries in the Bench Books of Lincoln's Inn is, says "The Law Journal," an order, dated 1437, "that no person born in Ireland should in future be admitted as a Fellow of the Society of 'Lyncollysyn'; and if anyone born there shall hereafter be admitted by any person or persons, he shall be expelled, such admission notwithstanding." The rule seems to have been in force in the four Inns, but appears to have been relaxed after a time by allowing special admissions. Lincoln's Inn permitted the admission of a limited number of Irishmen, but in the middle of the 16th century required that all Irish students should have chambers in one building, known as the "Dovecote." So late as the 18th century some disability attached to Irishmen. The fine on admission to the Middle Temple was £5, while other members paid only £4.

Was Advised.

At a religious service in Scotland the late Lord Kelvin noticed a youngster accompanying his grandparents and looking wise as a young owl through the sermon.

At the close of the service Lord Kelvin congratulated the grandfather upon the excellence of the lad's behavior.

"Och, aye," returned the veteran; "Duncan's weel threatened afore he gangs in."

The Mint's Officers.

The British Royal Mint is subject to the management and regulation of the Treasury, and the Chancellor of the Exchequer, ex-officio, is Master of the Mint.

C. H. Dickson, who has been industrial Commissioner for Woodstock, will go into business in Hamilton.

The New Perfection Oil Cook-stove Suits Everybody

It suits the most exacting French chef. It suits the housewife. It is found in luxurious villas—in camps—in farms—in humble city homes. Everybody uses it; everybody likes it. It is the all-round stove for all the year round. It bakes, broils, roasts and toasts as well as a coal range. It is equipped with a special heating plate, and we sell the New Perfection oven, broiler, toaster, and pancake griddle—each specially designed for use with the

CHARLOTTE ST. CONGREGATION SORRY TO LOSE REV. AND MRS. HENDERSON

The Quarterly Board of Charlotte Street Methodist Church met last night in the Guild room of the church to complete the business of the conference year. Encouraging reports were given in connection with the membership, the finances and the societies of the church.

Dr. Morrison who has been recording secretary for several years, tendered his resignation which was accepted with regret. A resolution was passed [illegible] Board expressing its apprecia[illegible] Dr. Morrison's faithful work as recording secretary of the church during his term of office.

A resolution was moved by Messrs. R. J. Kidd and A. B. Cunningham, expressing grateful appreciation of Rev. Mr. Henderson's work during the past four years. Mr. Henderson has been a very capable and efficient pastor and preacher and his removal will be much regretted by the Charlotte street congregation and also by very many of the citizens of Peterborough. Mr. Henderson has accepted a charge at St. Catharines for the next Conference year.

The resolution made appropriate reference to Mrs. Henderson who has also always shown a deep interest in the work of the church and who is very highly esteemed and beloved by the people. Mr. Henderson made a feeling reply, thanking the Board for its kindness to himself and Mrs. Henderson during their pastorate in Peterborough.

STADIUM TO BE RUSHED

Ald. W. J. Johnston has received the contract for the new stadium to be erected at Riverside Park. The work will be commenced at once and rushed.

TO STONEY LAKE
On Thursday, May 9th, the Stoney Lake Navigation Co's Steamer Islinda will leave Lakefield for the Lakes on arrival of the morning train from Peterborough, returning to connect with the evening train. 2d

All men are born free and equal, but most women are slaves to fashion.

DID NOT SEE BIBLE TILL THIRTY YEARS OF AGE

Social and Moral Reform Worker at Knox Church To-night.

Miss Ratty, the foreign secretary of the Social and Moral Reform Board of Toronto will address a special meeting at Knox Church at eight o'clock this evening.

Miss Ratty is one of the strong workers in the department, and although she was thirty years of age before she ever saw a Bible, she has proved herself an expert in Christian work.

She is of French Roman Catholic stock, and was engaged for some time in French evangelization work before entering the social and moral reform arena. Miss Ratty is regarded as a strong speaker as well as a great worker, and a large number should avail themselves of the privilege of hearing her to-night in Knox Church.

ONTARIO

Provincial Loans of $2,000,000 and $210,000

THE GOVERNMENT OF THE PROVINCE OF ONTARIO, under the authority of Chapter 4, of the Statuets of Ontario, 1911, invites subscriptions from the public for a loan of $2,000,000 on bonds of the Province of Ontario, or "Ontario Government Stock."

The bonds will be dated 1st of May, 1912, and payable on the 1st November, 1941, in denominations of $1,000 each, with coupons attached for interest at the rate of 4 per cent. per annum, payable half-yearly, on the 1st May and 1st November in each year, at the office of the Provincial Treasurer, Toronto, or at the offices of the Bank of Montreal, in Montreal, Canada, and in New York, N. Y., at the holder's option. Bonds will be made payable to bearer, but on request will be registered in the office of the Provincial Treasurer and endorsed as payable to bearer, but on request of holders will be exchanged for "Ontario Government Stock" at any time.

Also balance of Algonquin Park Loan of $210,000 on the same terms and with the same dates, under the authority of Chapter 9, 1 George V.

The issue price during the month of May, 1912, will be 102 for each $100, and after the 31st day of May, 1912, the issue price will be 102 and interest accrued from the 1st May, 1912.

ALL BONDS AND INSCRIBED STOCK ISSUED UNDER THE AUTHORITY OF THE SAID ACT ARE FREE FROM ALL ONTARIO PROVINCIAL TAXES, CHARGES, SUCCESSION DUTY AND IMPOSITIONS WHATSOEVER.

Purchasers of stock or bonds will be required to send certified cheques with the application, payable to the order of the "Provincial Treasurer of Ontario."

This loan is raised upon the credit of the Consolidated Revenue Fund of Ontario, and is chargeable thereupon.

A. J. MATHESON,
Provincial Treasurer.

POOR, BUT ORIGINAL.

Points For Girls Whose Social Obligations Weigh Heavily.

A charming hostess gives the secret of her unusual entertaining: "I am too poor not to be original. I cannot attempt to compete with my wealthy friends, so I must make up in ideas what I lack in money."

She does it! One is sure at her home of being entertained, not elaborately, but so delightfully that an invitation is coveted by those who can afford to spend five times as much on their pleasure giving.

Here is a point for the girl who feels her social obligations weigh heavily. It is natural—or should be—to dislike receiving constant hospitality for which no return is made, yet that is what the girl of small means must face.

One such girl refused four invitations to parties she was anxious to attend. When questioned by a friend she replied, "I can't go out, for I can't afford to entertain, and I'm not going to be a sponge."

That is a most foolish attitude. Society is not a charitable institution. There is no law compelling a hostess to dispense her favors, so the girl who receives an invitation from one to whom she is not indebted may be sure she is wanted.

There is another alternative than cutting society, which is to have the courage to entertain simply. It does take courage in this day of elaboration and expense, but the girl who makes the attempt will find her efforts appreciated by those who can afford the most ultra entertaining.

It does not cost much to have a dozen or more friends in for a cup of tea. Any woman can manage this. A well appointed tea table with one girl to pour while the hostess makes herself agreeable to her guests, can be made very pleasant.

Be sure the tea is good, the sandwiches novel and delicious and the cake homemade. That is all that need be served, though extra touches, like homemade candy of unusual kind, crisp buttered toast or salted peanuts, are inexpensive additions.

BIRTHDAY GIFTS.

Book Covers Made by Donor of Present.

The value of a book chosen for its useful or practical contents may be much enhanced by means of a pretty cover made by the giver.

Beautiful as well as hard wearing covers are made from Holland or linen closely embroidered in dark, heavy silks in an appropriate conventional pattern, while for volumes of poems or romance the cover can be of handsome brocade enriched with gold thread.

Useful covers for everyday books are made more plainly from colored art canvas, with the title worked or painted across the front.

Imitation leather is another practical material for the purpose, especially where paper covered books are concerned. It can be obtained from any stationer or bookbinder.

If you intend to make a rather costly attachable book cover as a birthday or wedding gift your best course is to measure exactly the outer sides of the book so as to buy only the exact quantity of material needed.

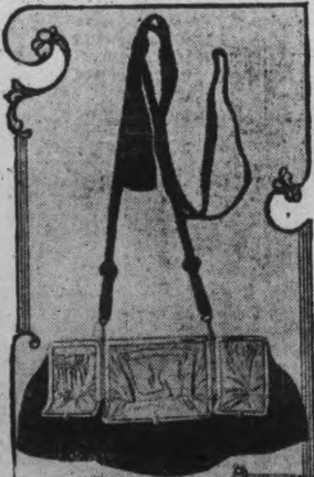
The back should be formed from a strip of some soft leather, such as French kid or morocco, which, although substantial, may be sewed to the side covers. These are fitted over the book by means of two inch deep flaps of kid or strong ribbon.

It is also a good plan to attach ribbon ties and a dainty embroidered bookmark to match. The cover, as an additional finish, might be bordered all round with a half inch wide silk fringe. This proves very effective.

Plain covers made from fragments of chine ribbon, brocade or tapestry are easily and quickly contrived by clever fingers and sell well at fairs.

What Is New In Hand Bags.

This bag may be carried in the hand if desired, but it is especially designed for use in the limousine, where it hangs for milady's convenience. The large center pocket is intended to hold various belongings, such as veils and the like, and the side pockets are for vanity trinkets and handkerchiefs.



A CONVENIENT NOVELTY.

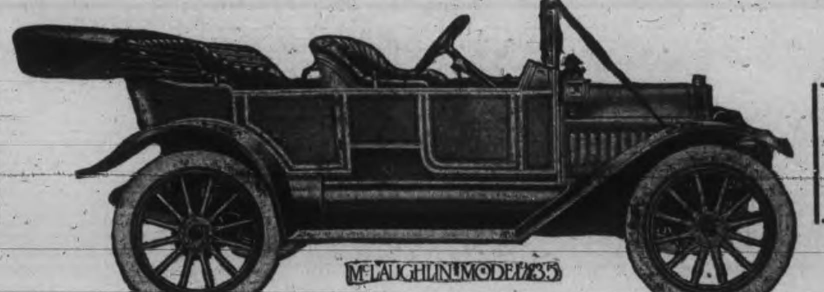
How to Get a Change.

When it is impossible to move a convalescent into different surroundings for the sake of a change move the furniture and pictures of the room into different places. An invalid often tires of seeing the same pictures and ornaments in the same places week after week. Change the position of the furnishings, and it will seem almost like moving into another room.

PILES CURED IN 6 TO 14 DAYS
Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days, 50c.

McLAUGHLIN MOTOR CAR

McLaughlin 35



McLaughlin 35

A car embodying the principles which have been tested, tried and proven more than **GOOD** under the most exacting regulations and conditions. Here is a copy received from Mr. Thomas Davis, Chief of the fire department, Victoria, B.C., what he has to say in regard to the McLaughlin Car he has purchased.

Victoria, B.C,

McLAUGHLIN MOTOR CAR CO.,
Oshawa, Ont.

Dear Sirs,—The McLaughlin-Buick, 40 h.p., chief's automobile, which was built for the department and delivered last May, has now been in our possession long enough for us to realize its good points. It has given perfect satisfaction in every respect. I have responded to 187 alarms with it to the present time, and over very rough roads. Its hill climbing capabilities are excellent, the cost of maintenance in comparison with the horse drawn vehicle used for the same purpose is trivial.

I shall be pleased to recommend this type of a machine to any Chief of Fire Dept. requiring same; you are at liberty to refer them to me.

Yours respectfully,
(Signed) THOMAS DAVIS, Chief of Fire Dept.

Peterborough Garage and Showrooms,
195 Simcoe Street
C. R. BANKS, MANAGER.

MR. CHIPMAN WOULD ASSIST WITH NEW SEWAGE PLANT

Mr. Willis Chipman, the Toronto consulting engineer, who had charge of the Romaine street sewer, has communicated with Mayor Bradburn, asking for an opportunity to assist with the plans for the proposed new sewage disposal plant for the city. The Mayor explained to the Council at Monday evening's session that Mr. Chipman had communicated with him by phone, offering to come to Peterboro and talk the matter over with the Council. However, the members did not display any particular enthusiasm over the offer, but the Mayor told the Council if they desired it, he would have him come down, any time the Council desired.

The dissatisfaction which has attended the operation of the Romaine street sewer, has not been conducive to any enthusiasm over Mr. Chipman's engineering skill. When Mr. Chipman does arrive the Council will discuss thoroughly with him the refusal of the Romaine street sewer to operate smoothly at all times.

The date of Mr. Chipman's visit to the city has not been fixed.

The majority of citizens know of the big handicap under which the work proceeded.

LOCAL STUDENTS SUCCESSFUL AT S. P. S. EXAMINATIONS

The showing made by Peterborough students attending the School of Practical Science, in connection with the University of Toronto, is particularly good. Quite a number of local students passed, several taking high honors. Among the latter is Mr. A. Stuart Anderson, Hunter st., who won the scholarship in mechanical engineering third year, offfered by the Boiler Inspection and Insurance Company.

Those who got through are—A. S. Anderson, third year mechanical engineering; Frank D. Austin, honors, first year civil engineering.; J. H. Wallis, honors, first year, J. S. Sheehy, pass first year; A. A. Richardson honors, first year pass; Bruce D. Clegg, third year, mechanical engineering; J. F. McIntyre, pass, second year electrical engineering; J. A. Kerr pass, second year electrical engineering.

PETERBORO' SUMMER FAIR

First Step in War on That Fell Monster, Consumption

(By Roy Gilray.)

A good start is half the battle. The war on the White Plague, our national enemy, has been taken up in earnest by the ladies of Peterborough, who are acting in conjunction with the Peterborough Health Association, which has for its object the banishment of consumption from our midst.

Each year in the vicinity of this city, there are 25 deaths from tuberculosis, and 75 others are afflicted with it. So in the course of twelve months there are 100 people either die or are a prey to the disease. Up to the present no effort has been made to control the malady. Conditions are such that there are many persons exposed to contagion, who cannot, or who neglect to take ordinary precautions to protect themselves.

It is the aim of the Association to provide some means whereby the afflicted may be helped, and those that are exposed to contagion may be instructed in the proper care of themselves.

They intend securing a district course, whose duty it will be to visit the homes in need of her services, and tenderly care for the poor unfortunates, as well as instruct the families in the proper method of protecting themselves from contracting the disease. The services of such a "Friendly Visitor" will require an annual expenditure of approximately $1,000, and an additional sum of about $200 will be needed for supplying such items as clothing, food and medicines.

To supply this amount the ladies of Peterborough decided, early in February, to hold an exhibition in the armories, and since then they have worked incessantly at a task that would daunt the hearts of most men. But, as a Deputy Cabinet Minister said some years ago, to a deputation, in referring to the very successful fair held in Hamilton for much the same purpose, "If you wish to succeed in your undertaking get the Hamilton women to help you. They can carry through any enterprise."

The same may be said of the women of Peterborough if their work is so far is any criterion of the results to be accomplished.

This carnival, for one whole week, commencing May 27th, will be the crowning event of the season. It will be an occasion when every citizen will cast all cares aside, and join with everybody else in making merry.

By the selection of this week, the ladies of the Auxiliary have shown themselves to be keen students of human nature, for there is no time of the year when the hearts of men and women can be so easily moved to deeds of charity for the amelioration of suffering among their unfortunate brethren.

AN ANSWER TO CITY COUNCIL FROM BOARD OF EDUCATION

The City Council received a rather severe drubbing last night at the hands of the members of the Board of Education, on account of certain statements made by some of the aldermen on Monday night. Chairman John Crane remarked that the council was borrowing trouble.

Mr. W. H. Hill in this connection, said, "the council have no right to criticise our public school course, because 77 per cent of the Public School pupils never pass the entrance examinations, and 75 per cent of those that pass, leave school and go into workshops. Therefore it is best to put the best possible equipment in our public schools, as the great majority of our children never receive any other school education.

"I notice that the city council are very ready in attacking other public bodies, just as truly elected by the ratepayers as themselves. The object may be to divert the attention of the public from their own short comings. We owe allegiance to none accept the ratepayers, and we have no intention to take commands from the City Council."

"The Council will have ample to do if they attend to the affairs for which they were elected by the ratepayers."

Col. Miller also expressed his disapproval of the Council's action in this regard, and other members of the board were not reluctant to express their opinions of this matter.

It's easy for a girl to believe a man is a hero because he isn't.

The Smallest Theatre.

The distinction of being the smallest theatre to which the public are admitted in London belongs to the Little Theatre, in John Street, Adelphi. Only stalls and boxes are to be obtained at this theatre, and when packed to its utmost capacity the audience numbers fewer than three hundred. The size of the Little Theatre may be better imagined when it is stated that the seating capacity of the two largest threatres in London — the Lyceum Theatre and the Theatre Royal, Drury Lane—is 2,800 and 2,516 respectively.

Howell—Rowell is a man of tenacity.
Powell—Yes. If he were a dog and got a grip on your trousers you would be perfectly safe in ordering a new pair.—New York Press.

Plates and Plates.

Cook—They say that the plates on a battleship are nearly a foot thick.
Kitchen Maid—Mercy! Fancy having to wash them three times a day!—Boston Transcript.

For Inspiration.

"Now, I want something in your happiest vein," said the editor.

"Better pay me in advance, then," declared the poet.—Washington Herald.

The Proper CLOTHES

for every man in every walk of life are to be found here. In gathering together our immense stock of CLOTHING and MEN'S FURNIHINGS, we have considered the needs and tastes of all classes of men.

Here the man of conservative tastes will find thoroughly genteel styles of eminent good taste and full of character. If you are young in heart or years —with an eye for the unusual—you also will find here the styles that appeal to you. It is our aim and endeavor to serve all men well and satisfactorily. Come and see what we can do for you.

SPRIGS OF SPORT

Bright Liners on Athletic Topics

BREEZES FROM THE DIAMOND

The first game in the P.C.I. Inter-form League was played yesterday afternoon at the Oval at 4.15. Huycke did the twirling for his own team and Howden for Dixon's. Huycke was invincible until the fifth innings, when he began to weaken. The final score was 9 to 5 in favor of Huycke's aggregation.

The teams lined up as follows:

Dixon's.		Huycke's.
	pitcher	
R. Howden		M. Huycke
	catcher	
H. Rogers		H. Hill
	1st	
W. Hall		F. Moran
	2nd	
C. Brown		W. Heaslip
	short-stop	
M. Carlisle		A. Lipsett
	3rd	
R. Dixon		A. Gilbert
	centre field	
O. Moore		H. Dixon
	left field	
L. Thorne		W. Whitbeck
	right field	
G. Mather		Cann

The next game will be played on Thursday at 4.15 p.m. at the Oval.

The White Caps had a full practice yesterday afternoon at the Oval.

Dolan, the big first sacker, is breaking in a new mit and did not show up as well as usual.

Deer, the portsider from Haverhill, Mass., can pitch and play the outfield with equal skill.

Jimmy Beard showed his class by catching the long drives off Bill Schaeffer behind his back.

Ned. Bartlett is rounding into fine shape. He has good control and a large variety of shoots.

Tully at short showed his usual speed.

Joe Ulmer is doing well at second.

Quinlan was out to practice but did not begin to work in the box.

Schwartz in left, fairly eats up the ground.

Frank Brode, Deer's old battery partner, is showing major league form. Baver is in excellent form.

Creswell is improving every practice; he is getting the change of pace down to a science.

Scull was not used in the box yesterday.

A visitor in the city yesterday who had seen all the Canadian League teams work, stated that the team Templin had collected is as fast as any of them.

Guelph, May 8.—Rowe, of Barrie, the pitcher who will try out with the Leafs, reported yesterday and will work out with them. Brady, the first baseman, arrived last evening. The axe commenced to fall last night, Manager Needham dispensing with the services of Moriarity, outfielder; Flynn, shortstop, and R. O'Connor, catcher. There are three shortstops trying out: F. O'Connor, Burke and Hackbush. Campbell, a pitcher from Cobalt, is the only one not yet reported.

PRESIDENT TAFT.

The President of the United States watched the Cincinatti—Philadelphia game yesterday and rooted for the Reds. Philadelphia won 8—5.

J. Landry, an old Lindsay boy, and a brother of Bill Landry, who played third for the Peterborough Athletics is trying to get an independent baseball team together to play out of town games. At present he has signed up Bill Russell, who played short for East City last year, and the three Scully boys who played ball in Lindsay some years ago. He has also a line on V. McCabe, Jack Collins, D. Picard, J. Kylie and E. Bogue.

The Ottawa Club is arranging for a big opening day on Thursday, May 16, when the Berlin champions will be entertained. His Royal Highness, the Duke of Connaught, the Duchess and Princess Patricia are to be present, while Mayor Hopewell is to take an important part in the ceremonies.

The schedule of the 1912 season is due for publication any time now.

"MIKE" DONLIN.

The former giant is working in the garden for Pittsburg.

BASEBALL YESTERDAY.

Wednesday's games: St. Louis at New York, Cleveland at Philadelphia, Detroit at Boston, Chicago at Washington.

Natural Turkish Baths.

Preston, Ont., about seventy miles from Toronto, enjoys natural Turkish baths. Near the town is a lake the waters of which are impregnated with sulphur and other chemical properties. The lake is government property, and the cost to those availing themselves of its virtues is merely nominal, about sixpence being sufficient to remunerate the services of the halfbreeds preparing the bath.

This is taken in what is locally called a "sweat lodge." The lodge is made by digging a hole four feet deep, lining it with small bowlders and covering it with an air proof tent. A fire is then built in the hole and kept burning until the stones are thoroughly heated. Water from the lake is sprinkled on the hot stones, and a steam arises which is laden with medicinal properties.—London Graphic.

Nature.

"We say that nature is blind," says John Burroughs in the Atlantic, "but she has no need of eyes, she tries all courses. She has infinite time, infinite power, infinite space, and so far as our feeble minds can see her delight is to play this game of blind man's buff over and over to all eternity. Her creatures get life and the joy and pain that life brings. But what is augmented or depleted or concluded or satisfied or fulfilled who knows?"

A Thorough Test.

"Inspector, that woman I said was always listening on my party line must have quit."

"What makes you think so?"

"Why, my wife has been listening for three weeks and hasn't caught her yet."—Cleveland Plain Dealer.

A Pessimist.

Tommy Cod—What is it they call a pessimist, pa? Pa Cod—A pessimist, my son, is a fish who thinks there is a hook in every worm!—Puck.

MORE HONORS FOR GIN PILLS

HOLYOKE, MASS, U.S.A.

"Having taken two boxes of your excellent GIN PILLS, they relieved me so much that I am quite satisfied with the results. I gave an order to my druggist about three weeks ago to send me some more. Nothing has come yet and I had to borrow a box from a lady friend who is also using GIN PILLS. I have none left and am sending you $1.50 for three boxes which I would ask you to send at once as I am not quite so well when I am without GIN PILLS".

AGATHE VANESSE.

Gin Pills must be good when people in Massachusetts send all the way to Toronto to get them. There is nothing like Gin Pills—nothing just the same or just as good. Don't accept substitutes if you value your health and want to be cured of Kidney and Bladder Trouble, or Rheumatism. Insist on having Gin Pills. 50c. a box, 6 for $2.50. Sample free if you write National Drug & Chemical Co. of Canada, Limited, Dept. B Toronto. 92

HONOR TO DOCTORS.

London's Lord Mayor of the Art of Aesculapius.

Sir Thomas Crosby's election to the chief magistracy of the City of London—the first Lord Mayor of London since the institution of that office, more than seven hundred years ago, to hold a degree of Doctor of Medicine or to have been in practice as a physician — serves to call attention to the fact that the present era is the golden age for the members of his profession. Every country appears to be bent upon overwhelming them with honors and dignities of one kind and another, and seems to be taking it for granted that since they are adept in the art of relieving physical ailments they are qualified to cure ills of every other conceivable character.

Universal satisfaction has been manifested that the office of Lord Mayor of London should have fallen to the lot of a physician, and especially one of such professional eminence as Sir Thomas Crosby. The office has often been held by men who, while worthy in other respects, and successful as wholesale and even retail merchants, were lamentably deficient in education, in breeding, and in savoir faire.

The opinion is expressed that the election of a physician — that is to say, of a man of culture — will tend to restore the former prestige of the Lord Mayorship of London, and is hailed with approval in the City, as calculated to invest with new distinction the ancient office of Chief Magistrate of the metropolis.

Sir Thomas Crosby's name is a familiar one in the annals of the City of London. It was Sir John Crosby, the builder of Crosby Hall, who was knighted by Edward IV. for his services as sheriff of London. Then there was Brass Crosby, Lord Mayor of London in 1771, and who won lasting fame, and, incidentally, also imprisonment in the Tower of London, by his vigorous championship of the liberties of the press. Horace Walpole would be compelled to describe him as in every sense of the word "a fine fellow."

Royal Jewels Catalogued.

The royal jewels of priceless value which are kept—under the charge of the King's Librarian, the Hon. John Fortescue—in a strong room at Windsor Castle have just been re-catalogued and photographed.

Many of the jewels date back centuries and belonged to former Kings and Queens of England. They consist of pendants, necklaces, hair ornaments, and rings of great beauty. Several of the greatest treasures are of the time of Henry VIII., and belonged to one or other of that monarch's queens.

The late King took much interest in the jewels. Previously they were in various apartments in the castle, but he had them collected and deposited in the strong room which was built when he came to the throne. King George and Queen Mary have also interested themselves in the jewels, and by His Majesty's directions the photographer on the Lord Chamberlain's staff at the castle has photographed every jewel. The catalogue and the photographs have been bound and are kept in the royal library.

In the gold pantry at Windsor Castle are some magnificent jeweled Communion cups, which have been used by the Kings and Queens of England for centuries and are still used by the King and Queen when they take the Sacrament. A recent addition to the collection of treasures in the royal library is the shirt that Charles I. wore at his execution.

Why the Train Stopped.

Harry Lauder, the well-known Scottish comedian, tells this story of his touring days. Lauder was in an out-of-the-way hamlet in Banffshire. He wanted to get on the main line. The "local express" took the better part of two hours to cover the twelve or fifteen miles.

"At last," he writes, "I asked a fellow-traveler if the train in which we were seated was booked to catch the connection I wanted.

"'Oh, aye,' he replied, in the broad northern Doric, solemnly removing his clay pipe before speaking, 'she's bookit richt eneuch, but she vera seldom does't!'

"By and by the train stopped with a sort of sleepy jerk less than a mile from the junction. I got up and opened the window. The signals were down and there was no sign of any block ahead. I opened the carriage door, jumped on to the line, and walked forward to the engine. The driver and the fireman were seated on the footboard, one enjoying a smoke. They expressed no surprise at my appearance; indeed, the engine driver was polite enough to remark to me that it was 'a braw mornin'.'

"'Yes,' replied I, 'the morning's all very fine, but what about this express train? What has she stopped for?'

"'Oh, no much, sir, no much!' responded the driver. 'The fact is,' he added seriously, 'the engine's gane aff the bile!'"

Antelopes and Sleeping.

Some interesting investigations on sleeping sickness are recorded by Messrs. Bruce, Hamerton, and Bateman in the Proceedings of the Royal Society. They find that the following antelopes, the water-buck, the bush-buck, and the reed buck, can be readily infected with the human strain of the sleeping sickness parasite (Trypanosoma Gambiensis) by the bite of the fly Glossina palpalis. But, strange to say, careful and continued examination of the blood of these antelopes failed to reveal any of the parasites. Equally remarkable is the fact that such infected antelopes can transmit the infection to clean laboratory-bred flies.

Even eighty-one days after the last feed of the infected fly on such an animal the clean fly will take up the infection and pass it on. It may then pass off the virus to a susceptible animal. Thus it follows that the above antelopes living in areas also inhabited by the fly are potential reservoirs of the virus of sleeping sickness. And yet hitherto no antelope has been found naturally infected.

Entries From Every County.

Some artistic soul has been attempting to pick out the twelve most beautiful women in the world. We refuse to accept the authority of any foreign artist on this question. Huh! There are half a dozen just as handsome women in—well, say Markdale —as any he has named. He hasn't seen them all, anyway.—Flesherton

YOU CAN BE ABSOLUTELY SURE OF VALUES

If you carefully read the store advertisements and follow them in your buying.

Merchants advertise certain lines because they know these lines will advertise their stores. Because there is something about certain goods, they are put in conspicuous places and the people are told about them. It may be the exclusiveness or newness of design, it may be an unusual quality, it may be an attractive price.

But there is at least one definite, sure reason why a merchant advertises an article and is willing to stake the reputation of his store upon it.

Therefore, when you see an article advertised in THE REVIEW, depend upon it, that article is good value, as good value as can be obtained in that particular store.

$1,000 FOR A COAT OF PAINT

It seems hard to believe, yet that is the sum of money that a coat of **Martin-Senour Paint 100% Pure** added to the selling price of a certain house.

For several seasons, a shabby weather-beaten house had been offered for sale. There where no buyers until a shrewd real estate broker purchased the property and, with a single coat of paint, magically changed it from a shabby house to that of a home of dignity—a home of comfort and elegance; furthermore, he sold it within a very short time clearing $1000

The coat of Paint made the sale. Don't let your property depreciate in value for the need of paint.

Nothing preserves and maintains the value of your property like

Martin-Senour Paint 100% Pure

whose mission is to paint your buildings uniformly, economically, safely and surely.

CAMPBELL & BEST

WHY A WATCH WEARS OUT

Neglect is responsible for most Watches going wrong. A Watch should be thoroughly overhauled, at least once a year. Dust collecting in a Watch causes it to run dry, the grit will then wear away the delicate bearings. If you own a good watch, better be on the safe side — Bring it to our Repair Department where it will receive Skilled Attention.

CHORISTERS ENTERTAINED AT COLEMANS'

Seventy members of the local St. George's Society, were the guests of Messrs Coleman Bros. last night in their spacious parlors.

A pleasant evening was spent in music and games, and towards the close of the evening, the happy assembly indulged in the pleasure of a whist drive. The games were of a progressive nature, and the following were the prize winners—

Ladies' Prize—Mrs. R. D. Dickson.

Gentlemen's Prize — Mr. J. W. Worth.

Mr Heaslip, who suffered most during the progress of the games, received his reward after the struggle in the form of the "booby" prize.

The society was in receipt of an invitation from the ladies in charge, to repeat the concert given in the Opera House, at the Summer Fair. They decided to give their concert again as requested by the ladies. It will be given under the direction of Mr. E. Thompson.

Mr R. J. Devey, the new conductor briefly outlined the program for the future course of the society.

On the motion of Messrs. S. Thompson and Deakin, a hearty vote of thanks was extended to the Coleman Bros. for their kindness in entertaining the society.

A very enjoyable meeting was brought to a close by the singing of "O Canada and "God Save the King."

At a committee meeting of the St. George's choral society on Tuesday night, with Mr. Chas. Coleman presiding in the chair, the following resolutions were passed.

That Handel's "Messiah" be taken up for study.

Practice every Tuesday evening.

The president, conductor and secretary to arrange for rehearsal hal

A general invitation be issued for city choristers to become members.

All citizens are eligible for membership, names to be given to Mr. Chas. Coleman, 426 George street, Mr. R. J. Devey, 285 Park street, or Mr. Reid, Rubidge street.

WITH THE 57TH REGIMENT

Yesterday morning a number of officers of the 57th Regiment went out past Jackson Park and went through manoeuvres connected with outpost duties.

Major Hordern, G.S.O., was in the city yesterday and was present at the drill last night.

The regular weekly drill was held and the whole regiment, headed by the two bands, had a march out.

The companies are rapidly filling up, some being already over strength.

Last night the following orders were read:

Headquarters,
Peterborough,
7th May, 1912.

Orders by the Officer Commanding 57th Regiment, Peterborough Rangers:

No. 1—Detail of duty for week ending 13th May, 1912: Captain for the week, Captain Hounsell; next for duty Capt. McLean. Subaltern for the week, Lieut. Meyers; next for duty, Lieut. C. Lech.

No. 2—The following have been taken on the strength of the Regiment: C Co., Ptes. W. Hall, D. Phelan, A. Yorkston, J. Williams, S. Yarrington, J. Simonite, T. Howarth, W. Deraino, W. J. Charles, 30th April.

D. WALKER (Bt. Major)
Adjutant.

In view of the fact that a great deal is being said at the present time about the Grand Trunk Railway's extensions into the New England States, and its mileage in the United States generally, it will probably come as a complete surprise to many people to learn that, at the time of Confederation, when the then Conservative Government of Sir John A. Macdonald purchased that portion of the Grand Trunk Railway between Point Levi and Riviere du Loup to form part of a railway—now known as the Intercolonial — that should link together the Maritime Provinces, Quebec and Ontario, as provided for by the terms of Confederation, it was made an express condition of their purchase by that Government that the Grand Trunk should utilize the proceeds derived from the sale of the line in question to construct or purchase a line from Port Huron, Mich., to Chicago in order to give to the Dominion an outlet into the United States.

A platonic friendship by any other name would be just as unsatisfactory.

Every woman realizes that mirrors are not what they were when she was a girl.

The bachelor who thinks a young widow is an angel and is indiscreet enough to tell her so is as good as married.

THE BOARD OF EDUCATION

The Board of Education met in regular monthly session last night, with Chairman John Crane in the chair. There were present Messrs. W. H. Hill, M. A. Morrison, B. F. Ackerman, R. Fair, T. H. Adams, Col. Miller, Dr. Burnham and L. M. Hayes, K.C.

COMMUNICATIONS.

The following communications were presented and dealt with:

From Miss Mabel Rainey, stating that owing to illness she will be unable to resume her duties during the present term.—Received.

From Miss Hislop, tendering her resignation from the Public School teaching staff; same to take effect at the end of June.—Received, and resignation accepted.

From Mr. A. H. Hutchinson, tendering his resignation as science teacher in the Peterborough Collegiate Institute, to take effect on July 1st.—Received and resignation accepted. It is Mr. Hutchinson's intention to take a post graduate course.

From Miss McCalla, secretary of the Y.W.C.A., expressing the thanks and appreciation of the Y. W. C. A Board for the use of the Collegiate Assembly Hall for the closing exhibitions.—Received.

INSPECTOR'S REPORTS.

The annual report on the manual training classes by the Inspector was received by the Board. It showed a very commendable state of efficiency in this important department, but recommended that more attention be given to the teaching of working drawings. The report also suggested that the Board take up the matter of establishing evening classes under an advisory industrial committee.

HOUSEHOLD SCIENCE.

The inspector's annual report of the household science class was also received. An extract from the report sums up in part its contents.—"That the work is proceeding very satisfactorily except that there is no preliminary training in the lower grades. Needle work should be taught from grade one throughout the whole school."

In connection with the former report the following advisory industrial committee was drawn up:

Messrs. E. G. Patterson, Robt. Anson, D. Spence, T. H. G. Denne, John Corkery, Thos. Barrie, V. Eastwood, Hay, B. F. Ackerman, T. H. Adams, J. Crane and Col. Miller.

The report from the various committees were presented.

FINANCE COMMITTEE

The Finance Committee reported as follows—

Gentlemen— Your Finance Committee beg leave to report and recommend the payment of the following accounts—

J. Reynor Piano and Organ Co	$ 5.00
J. E. Belcher	55.00
Peterborough Review	4.80
Coleman Bros.	1.54
P. Connal & Son	15.66
R. J. Soden	26.75
R. Fair & Co.	11.03
Pet. Water Commissioners	8.20
Peterboro Hardware Co.	1.79
Adam Hall	8.25
Alex. Gibson	2.00
R. Hicks & Co.	12.00
Peterboro Light and Power Co.	36.78
Peterboro Fuel & Cartage Co.	318.12

All of which is respectfully submitted,

T. H. ADAMS,
Chairman.

Board Room, May 7, 1912.

PROPERTY COMMITTEE

The following report was submitted by the Property Committee.

To the chairman and members of the Board of Education.

Gentlemen— Regarding the communication from Mr. C. A. J. Duranceau, your committee recommend that Mr. Duranceau be charged with a work risk at the Old Collegiate Building for one month only in connection with his contract and that the treasurer be authorized to refund the sum of $10.00.

All of which is respectfully submitted,

J. W. MILLER,
Chairman,

Board Room, May 7th, 1912.

COMMITTEE OF APPOINTMENTS

To the chairman and members of the Board of Education.

Gentlemen— Your Committee on Appointments beg leave to report and recommend as follows—

That Mr. S. J. Subbs be appointed a member of the Board of Examiners for the Entrance Examinations, for the present year.

That the Advisory Committee in connection with the Commercial Form of the Collegiate Institute be composed of the following, Messrs. W. R. Morris, W. F. Johnston, T. C. Elliot, P. Neill, J. Crane, V. Eastwood, Dr. Burnham, L. M. Hayes.

That the salary schedule be amended, as follows and to take effect 1st September 1912.

Principals, Collegiate Institute and Public School inspectors, minimum, $2000.00; maximum, $2400.00; yearly increase, $100.00

Collegiate Institute

Specialists who are honor graduates and in charge of a department; minimum, $1500.00; maximum, $1900.00; yearly increase, $80.00

Assistants, not in charge of a department; minimum, $1300.00; maximum, $1500.00; yearly increase, $50.00

Public Schools

Principals of schools of eight rooms and over; minimum $1300.00; maximum, $1500.00; yearly increase, $50.00

Male assistants and principals with less than eight rooms; minimum, $1050.00; maximum, $1250.00; yearly increase; $50.00.

Respectfully submitted,

W. H. HILL,
Chairman

Board Room, May 7th, 1912.

MONIES RECEIVED.

H R H Kenner, fees... ......$	553 00
Text Books fees......	272 97
City Treasurer, Grant... ...	6,500 00
A Mowat, acct. Departmental Examination Fees...	11 00
Rent Cedar St. House... ...	5 00
	$7,341 97

It was moved by Mr. B. F. Ackerman and Mr. L. M. Hayes, that the payment of the following accounts be confirmed:

Peterborough Water Commissioners ... ...$	8 72
W B Blackwell, Acct. fees	100 00
Adam Hall, contract for railing.........	335 00
Expenses deputation Toronto re convention...	25 20
F J Drake, carting ashes......	2 50
Armour Estate for purchase of site for East City School.........	3,300 00

On motion of Messrs. Morrison and Adams, the Supervision Committee was authorized to advertise for tenders for text books and supplies required for the ensuing year and also for Collegiate Institute supplies, with power to award the contract.

The report of the deputation to the annual convention of the Educational Association in Toronto was made. At the convention a resolution was passed approving of raising the standard of entrance to the University to senior matriculation. This will not seriously effect the larger high schools or Collegiate Institutes.

It was also felt that the standard of teaching in the rural schools should be raised either by means of more attractive salaries, or making the teacher a civil servant.

OUT OF PLACE.

After reading the report Mr. W. H. Hill cliamed that the Council had no right to criticise them for the amount of money spent on Public Schools, as the report showed that 77 per cent. of the city children never pass the entrance examinations, hence this is all the education they receive. Mr. Hill spoke in rather warm terms of the council's attempted interference in their work.

Col. Miller asked the Board if they had asked the City Council for any additional money. Mr. Morrison stated that they had not asked the Council for a larger or additional grant and that they were planning to erect the schools with the means already at their disposal. At this announcement the members tried to solve the conundrum of why the Council had refused an imaginary request. No solution was found.

It was decided that Miss Weir would be given leave of absence in September and October to afford her the opportunity for a continental tour.

As the Departmental Examinations will come earlier this year the Collegiate Institute will close on June 10th. Messrs. Fair and Hayes, thought the change was rather drastic but no other course was possible.

A fitting celebration for Empire Day, on May 23rd, was considered. It was not decided to have a mass meeting of all the school pupils though the advisability of such a course was considered. The matter was finally elft in the hands of the chairman, though it was practically decided to have a deputation from the Board visit the schools on that day.

On Empire Day, as Inspector Mowat pointed out, it was laid down in the regulation that the whole morning must be devoted to the study of the Empire—its history and geography—and that therefore its proper celebration was assured. Col. Miller favored an elaborately patriotic course involving extensive decorations.

After dealing with this matter the Board adjourned.

CORPS OF BOY SCOUTS ORGANIZED AT OMEMEE

Funeral of the Late John Irwin Was Attended by Large Number of Friends.

Special Correspondence.

Omemee, May 6.—On Friday morning, the death occurred of Mr. John Irwin, a gentleman who has resided in the township of Emily for over thirteen years, previous to which time he lived in Mariposa township, where he was born. The deceased was in his 74th year, and had been unwell for over a year. He was widely known and very popular with his numerous acquaintances. The funeral, which took place on Sunday afternoon, was largely attended. Service was held at his late residence, Lot 15, concession 6, Emily, at two o'clock and interment took place at Emily cemetery. The late Mr. Irwin leaves to mourn his loss his wife, one daughter, Mrs. F. Deagen, of Peterborough; two sons, Messrs. William and Norman, at home; two brothers, Messrs. William, of Emily, and John, of Verulam, and one sister living at Argyle. The deceased was an Anglican in religion and a Conservative in politics. The sympathy of a large circle of friends and acquaintances is extended to the sorrowing relatives.

Mr. and Mrs. Byers, of Lindsay, were the guests of their daughter, Mrs. White, of Sturgeon street.

We are pleased to welcome to town Mr. Winslow, of Millbrook, who is a member of the Bank of Toronto staff here.

Mr Max Shier, of Peterborough, spent Sunday at the rectory.

Hear the blind pianist on Friday evening at Coronation Hall. He will be supported by some of the best local talent. Concert begins at 7:30 sharp. Encourage the school by your attendance.

BOY SCOUTS.

The boy scout movement has reached Omemee, and a corps has been established under the leadership of Mr. Winslow, of town. There has been quite a large enlistment, the boys seeming to become enthused with the spirit of the work, which, with the assistance of an efficient and capable leader, should prove of great value.

Mr. H. Bland, of Mount Pleasant, made a business trip to Omemee on Saturday evening.

The Bachelors Congress is quite the talk of the town, and the convention on May 24th is sure to draw a heavy attendance.

The W.F.M.S. of the Presbyterian church commenced, on Wednesday afternoon, at the home of Mrs. White.

The sucker crop is splendid this year, if one should judge by the many large strings that are carried away from the river.

Miss Maud Handley, of Mount Pleasant, is spending the week with friends in town.

The Public Library Board is working hard to produce a first class play in Coronation Hall on the evening of Victoria Day.

Mr. N. Clarke, who has spent a year in Western Canada, is at his home here for a holiday.

The Presbyterians are having some repairs made to the foundation of their church.

Mrs. White has been improving the property on Sturgeon street which she recently purchased.

Mr. C. H. Shield was home for the week-end.

Mrs. McCrea and Reeve Mulligan have had their residences, &c., freshened up by a coat of paint.

Mr. T. C. Stephenson is the recipient of a handsome piece of plate, suitably engraved, as a prize for the highest aggregate score at the local ranges for each day of last year's shoot and for each range. The prize is on exhibition in Mr. H. Murray's grocery window.

Dr. Rogers, of Peterborough, made a professional visit last week and received a warm hand shake from many of his old friends whom he made when he resided here.

SPORTS, SPORTS.

The baseball, cricket, tennis and golf enthusiasts are beginning to get in shape for a good summer of sport.

Mr. Wm. Magee has been indisposed for some time, but is convalescing slowly.

On Sabbath evening service was conducted in the Presbyterian church by Dr. J. N. Thompson.

Last Friday was Arbor Day. The event was not observed in our schools.

The Misses Bannon, teachers, were home for over Sunday.

Much driving and windy weather have made the clouds of dust rather disagreeable to residents of the main thoroughfares.

LETTERS TO THE EDITOR

The Review does not hold itself responsible for opinions expressed by its correspondents

A RATEPAYER'S OBJECTION.

To the Editor of the Review.

Sir,—I am surprised to see by the report of the Council proceedings that the aldermen have sanctioned a grant of $200 to assist the Orangemen in defraying expenses on the twelfth of July.

This is in striking contrast to the occasion when the curlers of Peterborough requested aid in connection with the visit of the Scotchmen in the early part of the year, and when they were told that it would be establishing a bad precedent if a grant was extended.

A correspondent in a daily paper supporting the Council in its action at that time led an attack on the curlers for even applying, and, in a word, admonished them to take care of themselves. If this was good logic then, surely the same can be said now. But consistency, thou art a jewel!

ANOTHER RATEPAYER.

Peterborough, May 8.

NAVIGATION NOTES

The Kirkfield lift lock has commenced to operate and will be opened for the season to-morrow.

The water is gradually lowering to normal, although it has not yet reached its ordinary height. The stop logs are being put in at Young's Point, Bobcaygeon and Fenelon Falls. The boom of logs near Young's Point has broken loose, but is causing little or no trouble and can be easily returned to its former position.

This Summer Will Be a Season of Tailored Waists. More So Than Ever Before

Our Matchless Display Shows all the Latest, Daintiest and Most Fashionable Models and Materials in Wonderful Assortments.

An unusually big demand for tailored waists this season will not catch us napping. We have drawn most generously on the productions of the leading waist manufacturers in the country, and we are now superbly ready with a collection of new tailored waists for Summer that surpasses anything of the kind ever seen before in this section.

Our assortment embraces every new and distinctive style touch, every beautiful model. Many of the styles are exclusive with us. There is a model for every woman, a size for every woman, a price for every woman. And another good thing about these waists is their smooth perfect fit. You'll appreciate that if you've had experience with the other kind.

Come and see them NOW! You'll want to buy several, and exceptionally low prices will make it quite easy.

CANOE CLUB OF THE Y.M.C.A. PREPARE FOR THE SEASON

The Y.M.C.A. Canoe Club held a very successful meeting last night, when the following officers were elected for the coming season: Hon. Commodores, Mr. Claude Rogers and J. J. Howden; Hon. Vice-Commodores, J. H. Connal, and W. Irvine; Commodore, W. Richardson; Vice-Commodore, D. Loomis; Secretaary-Treasurer, M. Adams. Plans were discussed for the season's work and prospects are the brightest for a most successful season on the water. It was decided to launch the war canoe Saturday next at 3 p.m., when the trial trip around Little Lake will be made. Arrangements are also being made for a trip to Stony Lake on May 24th, with the war canoe. Altogether it looks like a busy season for the paddlers of the city.
take two canoe club

The basketball game between the White Caps and the local "Y" team scheduled for to-night, has been postponed until Thursday night, and judging from the class which the White Caps have already shown, the local boys will certainly have to score more baskets than they have ever done before, if they are to keep the game interesting. The White Caps play a very fast and open game. A team will be picked from among the local boys, who play the same style of a game, so that the game should be most interesting. The White Caps may take on the Ekos', the city champions at a later date.

The Tennis Courts are now open.

DIAMOND DUST

The fans have got to give a great deal of credit to Conny Murphy, says the Hamilton Spectator. Murphy jumped in and handled the first bag on Saturday, just when things were breaking bad, and got away with it in fine style. Conny is game and puts his whole heart into the work. He has done everything but pitch now, and claims that he can do that too.

Here's a bargain for the star guesser. To the fan or fanette who can pick the correct number or the nearest to the attendance at the opening here on May 22, the Review will present ten tickets of admission. The contest will close on May 21. Send in your guess to the Guessing Dept, Review office.

The City Dads refused to approve of a half holiday on May 22, and a big jump in the vital statistics for the month will likely be recorded, and stand until the official report.

The regulars and yannigans are playing a practice game this afternoon at the Oval.

The junior Collegiates opend their Inter-form League this afternoon at 4.15 at the Oval.

The following games in the Interform League at the P.C.I. have to be played this week:
Senior, Thursday—D. Huycke vs. G. S. Matthews.
Junior, to-day—Feeney vs. Lipsett.
Saturday—Adams vs. O'Brien.

THE FIRST DERBY.

And an Occasion When Herbert Spencer Was Present.

The first Derby was run nearly 132 years ago, on May 4, 1780, when Sir Charles Bunbury's Diomed beat Maj Kelley's famous Eclipse and seven others. The stakes were 1,025 guineas, or $5,125, less than our own King's Plate is now worth. It was only a mile race, and proved so small an attraction to the sporting fraternity that it was found necessary to fortify the Epsom program with a cock-fight. Public interest in the matter was so slight that The Public Advertiser, though it found room to record the breakdown of a one-horse shay on the road home from Epsom, had not even a corner to spare for an account of the race itself. Nowadays people go to Epsom in search of sport, but our forefathers were wont to look for health in the little Surrey town—and what is more they found it. For Epsom wells were famous before Epsom races were thought of, and royal visits were common. Discovered in the reign of Elizabeth, the wells soon became famous, and Epsom grew from a country village to a gay and brilliant town, with absolutely the last word in luxurious hotels at that day. Pepys, of course, visited them and tasted the water—four pints was his allowance for a taste. By 1810 the wells were deserted, but the Derby had then been in existence thirty years, so a continuance of the fame of Epsom was assured. Epsom Downs attract every year for Derby Day many people who have not the slightest sympathy for the turf. Perhaps the strangest of all these alien race-goers was Herbert Spencer, who was once wickedly persuaded by his friend, the late Sir Francis Galton, to go to the Derby with an Oxford clerical don. "They were," records Sir Francis in his volume of memoirs, "as incongruous a pair as could easily be devised, but they enjoyed each other's company." "All went well," except that Spencer would not be roused to enthusiasm by the races. He said that "the crowd of men on the grass looked disagreeable, like flies upon a plate, and that the whole event was just what he had imagined the Derby to be."

Hon. Mr. Beland Forgot.

For one who has established a reputation as a wizard on the campaign platform, Hon. Dr. Beland, who for a short couple of months was Postmaster-General of the late Laurier Government, is one of the most modest and retiring Parliamentarians in the House. He is comparatively rarely heard, and then in the most business-like and brief manner possible. Dr. Beland has a horror of the spotlight and the spectacular, and is none the less a valuable worker on that account. A good story of the modesty of the young physician from Beauce comes over from last summer. It was about a week after he had been sworn in as head of the Postoffice Department that he arrived in Ottawa and called to see Sir Wilfrid Laurier. He found the Prime Minister engaged with his colleagues in Cabinet council. Dr. Beland seated himself in the ante-room and waited for some twenty minutes. Then the genial and popular Ernest Lemaire, secretary to Sir Wilfrid, happened in.

"Why don't you go in?" asked Mr. Lemaire, when Dr. Beland told of having waited.

Then it dawned on the young French-Canadian that as a member of the Government he had the right to go in.—H. W. Anderson in Canadian Courier.

The Herb of Ferocity.

If you have any reason to suspect that you are too mild mannered, too gentle for this strenuous age, eat catmint. Miss F. A. Bardswell in her book "The Herb Garden" says catmint, one of the ten varieties of mint, is known as the herb of ferocity because of the ferocious disposition it imparts. "The herb when chewed," says Miss Bardswell, "is said to make the most gentle person fierce and quarrelsome. A legend is extant of a certain executioner who could never muster up his courage to the point of hanging till he had partaken of it."

Crushed Again.

"If I have a fault," said Mr. Henpeck, "it is that"—

"If you have 'a' fault?" Mrs. Henpeck broke in. "Ha, ha! Excuse me for laughing. If I have a fault it is that I sometimes permit my sense of humor to get the better of me."—Chicago Record-Herald.

Port Dalhousie has voted $10,000 to overhaul the old Maple Leaf Rubber Co's electric plant.

Hamilton will send Chief Ten Eyck and two aldermen to the fire chief's convention at Denver.

Mrs. Margaret Ward, of Stirling, Ont., has been notified that a brother perished with the Titanic.

In order to be happy you must be able to forget things.

Mrs. Hughes' Opportunity

She Availed Herself of It, but Never Explained

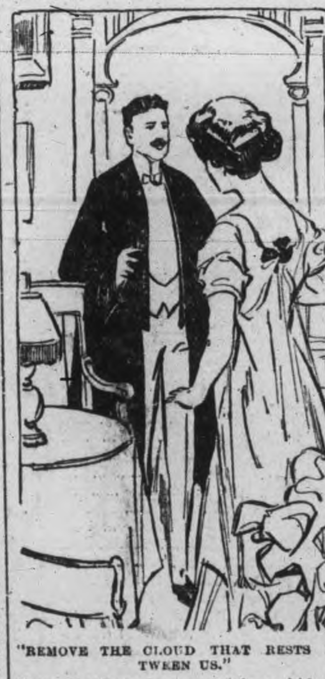
By EDNA RATHBONE

Mrs. Mortimer Hughes, a young widow, returned from a theater party, disrobed and got into bed very much disgruntled. A certain Franklin Hocking had been one of the group at the theater and afterward of a supper party at the Berrys'. Mrs. Hughes had exercised all her arts of coquetry on Mr. Hocking and had been piqued that he had given her no response. They were both used to playing at the game of love, and she did not know whether he was feigning indifference toward her or really feeling it. As to her own heart, Mr. Hocking knew no more about it than she knew about his. They lived next door to each other and had begun to show a mutual interest from projecting balconies, alike on each house, and in other ways continued principally by the lady. An acquaintance and the gentleman's introduction into the lady's set were the result.

Mrs. Hughes lay trying to hit upon a method by which she might force Mr. Hocking's hand. It mattered not to her whether his indifference were real or feigned. What she wanted was to bring him to her feet. But, tired and sleepy, her inventive powers were not in good condition, and she finally dozed off without having laid any plan.

Mrs. Hughes was awakened by hearing the front door shut downstairs. She listened and heard some person or persons moving below. The servants slept above, and there could be no one belonging to the house on the main floor. Living without any male protector, Mrs. Hughes kept a telephone instrument on a stand at the head of her bed and rang up the police, asking them to come to her immediately.

She had scarcely done so when her bedroom door opened and an electric light just inside of it was turned on.



"REMOVE THE CLOUD THAT RESTS BETWEEN US."

Mrs. Hughes, terror stricken, hid beneath the covers. Then, remembering that the police would soon be with her, she gained courage, but only enough to peep in order to see yet not to be seen. A man was looking about him with a puzzled expression. He was not the conventional burglar at all, but in evening dress, with a chrysanthemum in his buttonhole.

Then was the young widow paralyzed with astonishment. In the gentlemanly burglar she recognized Mr. Hocking. An explanation flashed upon her at once. He had not accompanied her home from the theater party, but had shown that attention to a lady who was either her rival or whom Mr. Hocking had been attempting to lead her to think was her rival. Coming home later than Mrs. Hughes, he had entered her house instead of his own unintentionally.

Mrs. Hughes partly uncovered her face, but not sufficiently to be recognized. Besides, she was in a dimly lighted corner. Mr. Hocking, who had by this time become aware that he was not at home, seeing some one in bed he had not expected to find, exclaimed, "Beg pardon!" and beat a hasty retreat.

The next scene in this little comedy is Mrs. Hughes in a dressing gown standing at the partly open door talking to a policeman.

"We got him, ma'am," said the cop. "He's one o' them fellers who goes around dressed like a gentleman, so that if they stumble on any of the household they can pertend to have made a mistake."

"Oh," said Mrs. Hughes, "what are you going to do with him?"

"He's gone already to the station, ma'am. You'll have to go to court in the morning to testify against him."

"I?"

"Yes, ma'am. You saw him, didn't you?"

"No."

"I thought you said he came into your room and turned on the light."

"Did I say that?"

"Yes, ma'am."

"Where will he sleep tonight?"

"If he can't furnish bail it'll be in a cell."

Mrs. Hughes did not doubt that the prisoner could furnish bail. At any rate, he was quite well to do.

"I hope you'll appear against him. It don't do to let these rascals go unpunished. Good night, ma'am."

The policeman withdrew, the house was locked up, the lights put out, and Mrs. Hughes went back to bed.

Mr. Hocking, having returned from the theater party, had put his night key into the lock of the front door, to find it would not work. He turned the knob and was surprised that the door had not been locked. Thinking of the scolding he would give the servants in the morning for their carelessness, he hung up his coat and hat and went upstairs to his room, as he supposed, but really to the adventure that has been described. On beating a retreat he ran out the front door into the arms of a policeman. An explanation followed that was not accepted. Mr. Hocking was run in and told his story to the sergeant. The sergeant had no authority to release him, but let him go for the night on his own bail bond.

The next time Mrs. Hughes met Mr. Hocking on the street she gave him the dead cut. This threw the gentleman, to speak in sailors' lingo, "on his beam ends." His heart sank into his boots. Mrs. Hughes' cut plainly indicated that she had been in the room he had entered, had seen him and considered that he was no better than a common thief. Whether or no he was in love with her, his being thus suddenly treated by her with disdain filled him with horror. Why had he not the morning after his unfortunate mistake gone to her, confessed that he had made it and offered his apologies? He had thought of doing so; but, hoping that his identity had not been known to her, he had refrained. Now he saw his error, but too late.

It required some time for Mr. Hocking to recover his equanimity, but when he did and considered what course to pursue from that point he saw plainly that to demean himself still further would make matters worse. The only hope for him—a ghost of a hope—was to make a bluff. To do this he must have an opportunity, and an opportunity might not arise. And yet possibly he might make an opportunity. After a good many discussions with himself on the matter he saw that the widow had the whiphand of him beyond recovery.

So he continued to go in and out of his house, never looking up at the windows, as he had formerly been accustomed to do, but the widow often from a retired spot where she could not be seen looked out through the windows when he came home and from his expression endeavored to ascertain his mental condition so far as that condition pertained to her. While the advantage of her position was evident, she had no assurance that Mr. Hocking's debasement would work him into that feverish condition she considered love to be.

The second time Mrs. Hughes met Mr. Hocking was face to face at a social function. He was talking to a lady beside him, but on seeing Mrs. Hughes he gave evidence of panic. The widow saw his companion look up at him as if to learn what was the matter with him. Though this did not prove that he was suffering from anything except unmerciful treatment while occupying an unfortunate position, the woman who was trying to crush him was convinced that he was in torture.

Another month went by, and when she examined his face as he passed on the sidewalk, which she did with a lorgnette, she saw unmistakable signs of a breakdown. She debated whether to give him encouragement to approach her or wait till he was ready to surrender. She chose the latter course.

Mr. Hocking kept going from bad to worse till spring returned, and one evening when he came home the spider that was watching the fly was sitting by a window opening from the floor in her drawing room. As he ascended the steps he paused, then stepped on to the balcony and entered the window.

"I have considered you both unjust and ungenerous," he said, "in showing your disdain for what you must have known was a mistake. Were you to me what all other women are I would be too proud to beg you to descend from that position. But you are not what other women are to me. Your good opinion is necessary to my very life. Remove the cloud that rests between us or I shall go mad."

He spoke with bowed head. When he looked up at her, not knowing whether he would see contempt or triumph, or both, and saw there neither, but an expression of exquisite happiness, he fancied that he had been translated to paradise.

Mr. and Mrs. Hocking have been married some time and live very happily together except when the matter of the episode which brought them together is broached. Perhaps it is that Mrs. Hocking has never explained her purpose in virtually accusing him of breaking into her house at midnight; perhaps it is on account of an oversensitiveness on the part of the husband. Certain it is that the matter is never mentioned that Mr. Hocking doesn't lose his temper. Then Mrs. Hocking, instead of telling him that she seized an opportunity to land him, throws her arms about his neck and admits that it was very stupid of her not to have seen from the first that he had simply blundered into the wrong house.

BORDEN PLANS EFFICIENT NAVY, McBRIDE TELLS LONDON CANADIAN CLUB

British Columbia Premier Says His Province Is Strong For a Good Fighting Machine, and He Has the Dominion Prime Minister's Assurance That Canada Will Have a Well-Equipped Naval Force.

London, May 9.—(C.A.P. Cable.)—At the Canadian Club dinner last night, Sir E. H. Rose presided, and Sheriffs Hanson and Briggs were chief guests. There were present also Hon. Richard McBride, Sir Frederick Borden, Hon. Colin Campbell, John Hoxel, Sir Hugh Graham, Donald McMaster, M.P., Hon. J. H. Turner, the Bishop of Saskatchewan, Major Malcolm Murray, Col. Burland, Gen. Elliott, Captain and Lieut. Hanson and Sir T. Skinner.

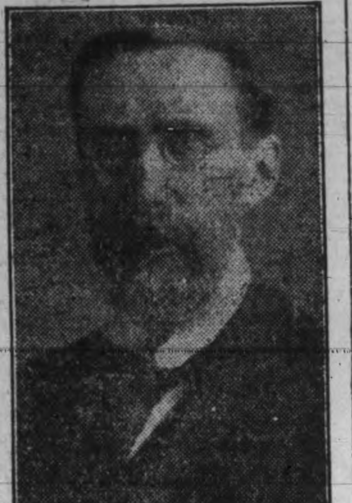
Col. Burland, responding to the toast of the Imperial forces, eulogized the work done by Sir Frederick Borden for the military body.

Hon. Mr. McBride, responding to the toast of the Dominion, referred to the wonderful success the Duke of Connaught was achieving and to his gratification that His Royal Highness intended making a western journey.

"The loyalty and patriotism of Canada has never been questioned," continued the speaker, "but lately it has been intensified by political exigencies which it would, perhaps, be unfitting to enter into here."

Proceeding to discuss the navy question, Hon. Mr. McBride said: "I assure intense interest is being taken in this question in British Columbia. We have an assurance from Hon. R. L. Borden that the Government purpose to take up this question at once and deal with it effectively. We in British Columbia are reminded day by day of all that a navy means. I have confidence that when the Premier proposes, as he will do shortly, a strong policy, making for an active efficient Canadian navy, he will have the entire Dominion behind him. One is very much encouraged to believe there will be results and quickly, too, when one has watched the earnest, splendid fashion in which First Lord of the Admiralty Churchill has discharged the duties of his office, not without meaning any reflection on his predecessors. I think I may safely say Mr. Churchill has made a name for himself unique in the annals of his department.

"I want to emphasize the strong determination of the Canadian people, as far as I can gauge it, to have this question dealt with quickly, and we may expect good results from the fact that at the head of the Admiralty is such a personality as Mr. Churchill."



HON. GEO. E. FOSTER.

New Brunswick University will confer degree of L.L.D. on the Minister of Trade and Commerce.

COMPANY ADMITS LIABILITY AND PAYS WIDOW

Her Husband Went Down With the Titanic

Special to the Review.

London, Eng., May 9— The first compensation claim in connection with the Titanic disaster has been made at Liverpool to a bedroom steward's widow. The company admitted its liability and paid fifteen hundred dollars into court.

Canoeist Is Drowned.

Toronto, May 9.—George Sumner, 19 years old, a traveler for the Penman Manufacturing Co., who lived at 336 Sackville street, was drowned out of his canoe in St. Andrew's Cut, at Centre Island, last night. He is the first of the list of drownings from craft upon the bay for the summer season of 1912. The body was recovered and is now in the morgue. An inquest is unlikely.

THE WRECK OF THE "TITANIC"

At the Royal Theatre on Thursday and Friday, May 9th and 10th.

This wonderful film in connection with the terrible disaster to the Titanic is the only film passed by the Ontario Government Censors as being a genuine reproduction of views of the laying of the keel, launching of the ill-fated White Star leviathian; Capt. Smith her heroic commander; a panoramic view of icebergs and fields of ice such as the Titanic encountered; the arrival of the steamer Carpathia with survivors at New York; pictures of the captain and crew; departure of the funeral ship Mackay-Bennett from Halifax; and other scenes in connection with the disaster. This film will be seen for the last time in Peterboro on Thursday and Friday of this week at the Royal together with other New Pictures and new special acts of vaudeville. Admission afternoons 5c evenings 10c.

GREAT BRITAIN NOW LEADS ALL OTHER NATIONS IN RACE FOR AERIAL SUPREMACY

Special To The Review.

London, Eng., May 9—A wonderful new machine, both aeroplane and hydroplane, which was successfully tried before King George in Weymouth Bay, has been acquired by the navy. It has already performed feats, completely altering conditions possible in naval warfare and Great Britain thus has been placed far ahead of the other powers in the race for aerial supremacy. The new waterplane can fly over water, float upon it and rise again.

HON. A. G. McKAY TO PRACTICE LAW IN THE WEST

Special to the Review.

Toronto, May 9.—A special to the Star from Owen Sound says Hon. A. G. Mackay is quitting Ontario politics and has taken up practice of law at Edmonton. He went west one month ago and passed examinations admitting him to the Alberta bar.

Accidental Death.

Hamilton, May 9.—The coroner's jury which investigated the death of Aldouna Marini, who was killed in the steel plant on Saturday, brought in a verdict of accidental death last night.

Oldest Postmaster Dead.

Dundee, Que., May 9.—Lieut.-Col. David Baker, the eldest postmaster in Canada, died here yesterday morning. He had been a postmaster for seventy years, and was 94 years old.

FATAL CLASH AT COAL MINE

Philadelphia, May 9.—The situation in the anthracite coal regions is believed to be growing more serious hourly.

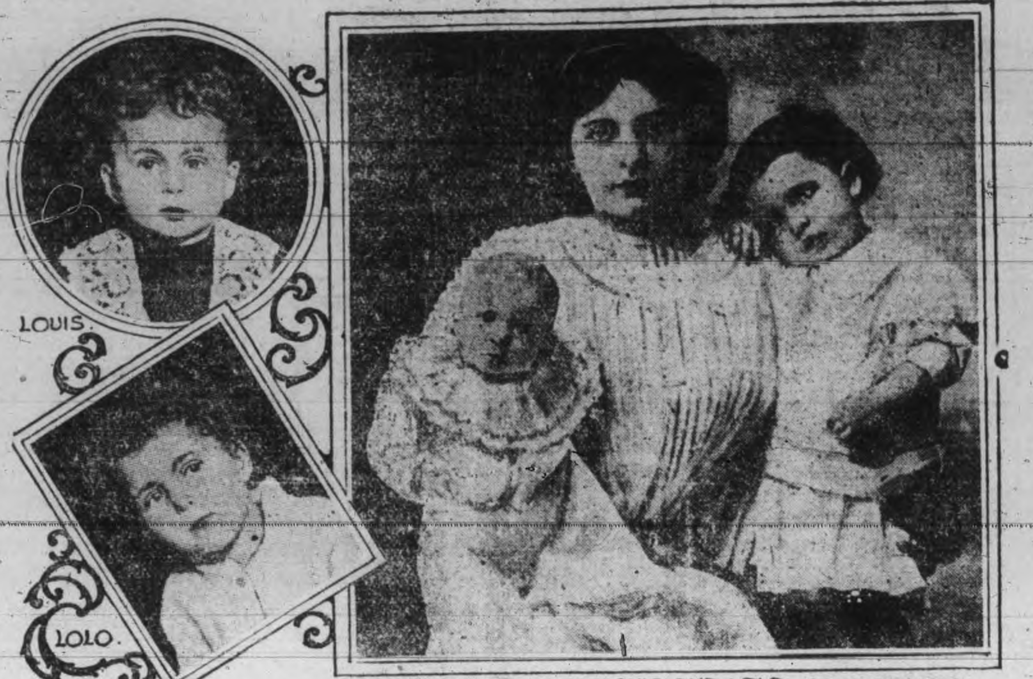
Yesterday's shooting of three foreign speaking miners at Minersville, in the Schuylkill region, by state troopers, has had the effect of embittering the foreigners. It is said that two of the men have absolutely no chance of recovery.

The shooting was the result of an attempt of a mine superintendent to take a pumpman and repairman to a colliery.

At a meeting held last night at Minersville, at which all Americans were barred, threats were made against the troops, and the miners assembled say that they are determined to prevent work being done at any of the collieries in the Minersville section to-day.

It is feared that if the troops attempt to carry out their avowed intention to search the foreigners' homes for firearms it will mean a day of bloodshed for Minersville.

THE FIRST PICTURE OF TITANIC WAIFS' MOTHER PROVES IDENTITY



MME. NAVRATIL WITH LOUIS AND LOLO. FROM THE DAILY MIRROR.

The first picture of Mme. Navratil, in group with her little sons, proves the identity of the two waifs who were rescued from the sinking Titanic and brought to New York. Mme. Navratil is now on her way to this country to claim her youngsters, who are being cared for by Miss Margaret Hays, who is also a survivor of the disaster.

It is understood that Mme. Navratil recently was divorced from her husband. The man who had the children in his charge on board the Titanic and is believed to have been their father was one of the second class passengers. None of the other passengers who survived can remember seeing the man rescued.

GIBSON INCRIMINATED; CORONER'S JURY SAYS EVIDENCE IS AGAINST HIM

Eli Dunkelman, Who Survived the Attack Which Cost Rosenthal His Life, Points to Charles Gibson as the Man Who Struck Him Down—Counsel For Defence Aims to Implicate Others.

Toronto, May 9.—"That Joseph Rosenthal came to his death at the foot of Strachan avenue between the hours of 6.15 p.m. on April 5 and 7 a.m. on April 6, from injuries sustained, and we believe that the evidence adduced points to Charles Gibson, now in custody, as the perpetrator of the crime."

This verdict was returned by Coroner Cotton's jury at the morgue last night after an hour's deliberation at the close of the most sensational session of the inquest into the death of Joseph Rosenthal, whose lifeless body was found in rear of the Hydro-electric station on Strachan avenue Saturday morning, April 6.

"You could have found no other verdict on the evidence," said Coroner Cotton, in receiving the verdict.

Dramatic incidents crowded thick throughout the three-hour session in which Eli Dunkelman, the companion of Rosenthal on the fatal night, recounted the story of his trip to the spot where he was struck down and Rosenthal murdered. The atmosphere of the court room was tense as he pointed an accusing finger at the shrinking form of Gibson, and again as Chief Coroner Arthur J. Johnson declared that stains upon the clothing which Gibson had left in a Church street rooming-house were positively found to be human blood.

Aubrey A. Bond, counsel for the prisoner, who had followed Dunkelman's story with a minute cross-examination, in which he strove in vain to draw from the witness the admission that there might have been present on the fateful night the two other men of whom Gibson had spoken, had no question to ask when the crushing evidence of Dr. Johnson was concluded.

Gibson chatted to the constable at his elbow as he awaited the verdict. He was nervous and ill at ease. The police refused his father and stepmother access to him, and would not allow a parcel to be handed to him, fearing that poison or a means of escape might be concealed in it. As the boy stepped into the patrol wagon to be taken back to the jail, his stepmother strove to cheer him. "Cheer up, lad," she said, "you're not proved guilty yet."

Gibson will be arraigned before Magistrate Denison to-day, and County Crown Attorney Greer expects that the case will come to trial before the assizes now sitting.

Gibson was led into the room a few moments before Dunkelman was brought in. He stood at the side of the entry door with a policeman at his left, but a number of other men standing close to his right. Dunkelman came in to take the stand. His steps were slow and uncertain. His head was swathed in bandages. When he spoke his voice was low and husky. He has a peculiarly broad face with mild and benevolent eyes. His air was of great gentleness and something that was almost an absorption.

When he told of seeing the man "Smith," who came to ask for Rosenthal at his house, County Crown Attorney Greer asked him: "Could you find him if he was in the room?"

"I could," replied the witness with quiet assurance.

"Where is he?"

"There he is." As he sat low down in the witness box just his mild face and his leveled accusing finger were visible as he pointed without a moment's hesitation to Gibson. The prisoner had looked down when the question was asked. His face was flushed and his fingers fumbled with his hat. As the witness pronounced his identification Gibson cast an uneasy, furtive glance at him. His lips moved nervously as though he were muttering to himself and then his eyes once more sought the floor.

Dunkelman in his evidence told how he and Rosenthal went to the Hydro station.

"Gibson came out and said that Rosenthal had better go down with him to the yard, and he could see the stuff.

"Then I asked him where was Rosenthal," continued the witness.

"He said Rosenthal would come out at the back door. Then he said to me: 'Do you see it lightning?' "

"What happened then?" asked Mr. Greer.

"I asked him then, 'Where is Rosenthal?' and he said he would be out soon, and told me to look at the lightning, and I looked up. I received a smash on the head and dropped. He was close to me, and he struck me on the head. It was dark. We could see ten feet about us, and could have seen anyone approaching for that distance."

"It was daylight when I came to myself. I saw a hammer lying on the ground near him. I got up and began to walk home."

He said he knew where he was. It was in the Hydro-Electric yard. "I do not know whether I had any money or not." He got on a street car, but the conductor put him off because he was covered with blood.

Chief Coroner Johnson told of the analysis of stains found upon clothing which was left by Gibson in a rooming-house on Church street, where it was recovered by Detective Mitchell. He said that he had first ascertained that the stains were blood. Then that they were mammal blood and lastly that they were undoubtedly human blood. He said that the stains were about the middle of the front part of the clothing and that one spot in particular looked as if it had spurted out upon the clothing. He said that there were other and more numerous stains upon the lower parts of the clothing which looked exactly like those analyzed, but which he had not thought it necessary to analyze.

The Members of Marathon Lodge Knights of Pythias are requested to be at their Lodge Room at 6.30 Sunday evening, May 12th, to join together to attend Knox Church. Every member is requested to attend

Claims Waifs of Titanic.

Nice, France, May 9.—Mme. Navratil, who declared that two waifs saved from the Titanic, and who are being cared for in New York, are her children, has received the photographs of the children. She immediately recognized them and will sail on the Oceanic for New York to claim her sons.

Three Bank Clerks Arrested.

Vancouver, May 9.—Three bank clerks, one in the Imperial and two in the Merchants' Bank, are under arrest for embezzlement. The confessed amounts of their stealings was $12,000. Their ages are 20, 21 and 24 respectively. They said they lost the money in a Chinese gambling joint.

Burned to Death In Mill.

Joliette, Que., May 9.—The paper mill owned by Crabtree & Son and located on the shore of Lake Oiseau was totally destroyed by fire early yesterday morning, and a watchman named Payette was killed.

HON. RICHARD McBRIDE
Premier of British Columbia

Premier Borden will adopt strong naval policy, he says.

SAYS RICHESON IS NOT A MORMON

Boston, May 9.—"It's a lie," said Wm. A. Morse, attorney for Clarence V. T. Richeson, yesterday, in answer to the charge by Mrs. Louise E. Brittain, that his client was formerly a Mormon. "I know Richeson's life story thoroughly, and the statement that he has been a Mormon is a wicked, foolish, ridiculous lie."

Still Hope to Unseat Reaume.

Windsor, May 9—As a result of a visit here by J. M. McElvoy, the Liberal lawyer of London, and Robert Sutherland, Liberal member for East Middlesex, against whom the Conservatives have filed a protest, it is likely that the Liberal protest against Hon. Dr. Reaume will go to trial next month.

Moslems Called to Holy War.

Paris, May 9.—The call for all Moslems to participate in a holy war, which was launched at the start of the Turco-Italian war, is according to the correspondent of The Temps in Tunis, secretly enveloping all Islam, and moving steadily from tribe to tribe in every Mohammedan country.

May Erect Monument.

Ottawa, May 9.—The suggestion has been made to the Government by a number of admirers of the late Judge Mabee that a monument in his honor be erected. It is very probable that the suggestion will be acted upon. The monument would be erected in either Ottawa or Stratford.

Will Be Buried In Canada.

London, May 9.—(C.A.P. Cable.)—F. W. Thompson, who died suddenly here yesterday, will be buried at Montreal, the remains probably leaving here to-morrow. Deceased was apparently well when he retired on Monday night. His widow, two daughters, C. R. Hosmer and E. L. Pease, were present at the death bed.

Boy Run Over by Train.

Cornwall, May 9.—George Tye, the sixteen-year-old son of Adolphus Tye, met with an accident on the Grand Trunk tracks about two miles west of the town yesterday afternoon, which cost him his left leg.

He was employed in the Ives Modern Bedstead Co.'s factory, but did not report for duty yesterday afternoon. Instead he went for a ride on a freight car. When near what is known as Edgar's Hill he fell off and the train passed over his left leg, cutting is so badly that Dr. Hamilton found it necessary to amputate it above the knee. He was brought to town on a handcar and removed to the Hotel Dieu Hospital.

NOMINATIONS HELD FOR QUEBEC PROVINCIAL ELECTIONS

Every Riding Is Filled and the Struggle Promises to Be a Warm One, But Some of Those Named May Not Be In the Field When Polling Occurs—Strong Men Oppose Members of the Cabinet.

Montreal, May 9.—The nomination of candidates for the provincial election, which will be held on May 15, took place yesterday.

Candidates representing both the Liberal and the Conservative parties have been put up in every riding yesterday, though it is hardly likely that they will all remain in the fight until election day. Sir Lomer Gouin, the Premier, was nominated in both Portneuf and St. John's, while Hon. Chas. Devlin, Minister of Colonization, is to run in both Nicolet and Temiskaming.

Armand Lavergne, aide de camp of Henri Bourassa, will contest Montmagny and Montmorency, while another prominent member of the Opposition, Jean Prevost, will attack Terrebonne and L'Assumption. Strong Conservative candidates have been put against all the members of the Gouin Cabinet. Hon. J. M. Tellier, leader of the Opposition, is running in Joliette.

The Liberals are making their appeal on the strength of Sir Lomer Gouin's careful progressiveness in finance and the good roads, education and temperance policies. The Conservatives claim that the good roads policy is not popular, and that the Government has been extravagant.

In the city, the Conservatives have all spoken in favor of autonomy for Montreal, holding that the rest of the Province of Quebec merely milks this city.

Confidence prevails on both sides, and the fight, as a rule, has been conducted with a complete absence of the spectacular. Assistance has been given the Conservative candidates from time to time by Hon. L. P. Pelletier, Postmaster-General at Ottawa; Hon. B. Nantel, Minister of Inland Revenue, and Hon. C. J. Doherty, Minister of Justice; while the Liberals have received support from Hon. Rodolphe Lemieux, former Postmaster-General.

ULSTER MEN ARE DRILLING

Belfast, May 9.—The drilling of the members of the Unionist clubs in Ulster has at length attracted the serious attention of the Government.

The Lord Lieutenant's office in Dublin has made a requisition to the authorities for an immediate return of the names of all officers and noncommissioner officers, active or retired, who are engaged in drilling the members of the clubs and Orange lodges and the men in the factories and shipyards.

YOUNG IN YEARS BUT OLD IN CRIME

Belleville, May 9.—Joseph Foley, a young man, was yesterday sentenced by Magistrate Masson to the penitentiary for four years, having pleaded guilty to theft. While Foley's employer and family were absent from home, the lad stole a watch and chain, money and coins and left the city, being later caught at Napanee.

While young in years, he is old in crime.

Tried to Wreck Train.

London, Ont., May 9.—After thoroughly investigating the wreck of Grand Trunk express No. 7 at Blackwell's, near Sarnia, Wednesday night, Grand Trunk officials state that they are satisfied that a deliberate attempt was made to wreck the train. They claim that the switch lock was forced and the switch deliberately left open, and that it had not been opened previously for three weeks. Every effort is being made to trace the guilty parties.

News Agent Penturen of Toronto, who was riding in the baggage car and was hurled against some trunks, is still unconscious in Sarnia Hospital, but is expected to recover.

For His Brother's Sake.

Niagara Falls, Ont., May 9.—For making false representations in an effort to get his brother Gustave into Canada, Raphael Maggiacomo, Toronto, was fined $50 yesterday. Gustave was fined $1 and deported.

The Niagara Falls Canning Co. contracted yesterday for duplication of its present plant. The addition will cost $100,000.

Arrangements were completed for the location of a branch of the Bank of Commerce here, making the city's seventh bank.

Bye-Election Writs Issued.

Ottawa, May 9.—The Speaker's warrant has been issued for the federal bye-elections in Kootenay, B.C.; South Simcoe, Ont.; Richelieu, Que., and Macdonald, Man.

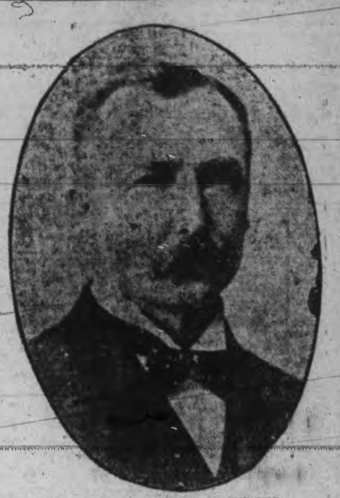
In the district of Kootenay the election will be brought on without delay.

The dates for the others have not been considered.

Two Men and Woman Shot.

Pottsville, Pa., May 9.—Two men and a woman were shot by the state police at Minersville, near here, yesterday morning, when a mob which was being dispersed, started an attack upon them. Stones were thrown at the police who were dispersing them.

Try a Review Want Adv.



HON. CLIFFORD SIFTON.

He has given $500 towards the Titanic Fund.

BRYCE NOT TO BLAME

London, May 9.—The Times, in an editorial article on the Canadian reciprocity negotiations and the recent disclosures, regrets that Ambassador Bryce's name was so freely introduced in the attack in Parliament upon the Government. It says:

"In discussing the actions of an ambassador, it is always well to remember that his duty is to represent the Government that accredits him, and that the only question that can arise affecting him personally is whether he did efficiently and satisfactorily carry out his instructions. If he did, he is completely covered by the responsibility of his Government for the policy it employed him to carry out. If he did not, then the matter rests between him and his Government, which has ample means of marking its sense of his failure and which at the same time is the only fully informed and the completest judge of the degree in which he failed."

Canadians Knew It.

London, May 9.—(C.A.P. Cable.)—The Times says: "President Taft's disclosure of his real aims was no surprise to Canadians. It only confirms the view so emphatically expressed at the polls as to the effect of reciprocity on Canada's destiny."

PRIVATE SALE OF HOUSEHOLD GOODS.
At 195 London-st. Unreserved sale of high grade household goods, must be sold quick. Call afternoons and evenings

FIRE BRIGADE ASKED TO QUIT AT GUELPH

Guelph, May 9.—In the shortest session on record the City Council last evening adopted the report of the fire and light committee, calling for the resignation of the entire fire brigade, from the chief down. The vote was six to three, the same as on Monday. There was no discussion, and the session lasted only two minutes.

Not on the Titanic.

Liverpool, May 9.—Thomas Hart, a fireman, who was supposed to have been drowned in the sinking of the Titanis, has, according to his mother's statement, turned up alive. The explanation is made that Hart's discharge book was stolen, and that it was used by another man to sign on the Titanic under Hart's name.

No Temporizing at Fez.

Paris, May 9.—Gen. Lyautey, the newly-appointed governor of Morocco, sailed yesterday afternoon from Marseilles, on board the cruiser Jules Farry for Tangier, whence he will proceed to Fez. According to The Excelsior, his orders are: "Strike quick; strike hard."

Foster to Receive LL.D.

Ottawa, May 9.—Hon. George E Foster, Minister of Trade and Commerce, will go to Fredericton next week to receive the honorary degree of doctor of laws from the University of New Brunswick, his alma mater.

Nurse's Home for Brantford.

Brantford, May 9.—The contract for the new nurses' home has been let to Messrs. Secord & Sons here. The building will cost $36,000, and will be on an elevation adjacent to the hospital.

Judge Mabee Buried.

Port Rowan, May 9.—While the little lakeside town of Port Rowan was draped in black, with its streets silent and stores closed, a casket containing the remains of the late James Pitt Mabee was lowered into a grave yesterday afternoon. Hundreds of Canadians — jurists, lawyers, politicians, railway officials, villagers—who knew and loved Judge Mabee stood with bowed heads as Bishop Williams of Huron conducted the service. The casket was placed in the family plot in Bayview Cemetery on a hill on the edge of the town overlooking Lake Erie.

Catarrhal Deafness

Successfully Treated By Catarrhozone

Deafness is not so common as blindness, yet thousands are more or less afflicted by it, and their comfort seriously interfered with.

Catarrhal deafness manifests itself but slowly, yet it must be acknowledged that the great majority of those who become totally deaf might have averted this unfortunate condition if they had treated the catarrhal inflammation at its beginning.

The only remedy that can be safely employed for all forms of catarrhal deafness is Catarrhozone. You simply charge the air you breathe with this healing, soothing agent, and by forcing it gently through the ears destroy the germ life which keeps up the inflammation, and at the same time by the soothing, healing action it heals the inflamed surfaces of the middle ear.

CATARRHOZONE, to those who are just a little deaf, and are growing increasingly deaf, is an agent capable of affording the utmost satisfaction, and its use is attended without danger, and as the treatment can be carried on at home no person threatened with the affliction of deafness should postpone one moment in beginning its use.

From every part of the Dominion glowing accounts of the beneficial action it exerts upon catarrhal conditions of the middle ear have been sent in, and you will be resorting to the only method of cure, and the simplest method too, if you try Catarrhozone. Dealers everywhere sell it, 25c, 50c, and $1.00. By mail from The Catarrhozone Co., Buffalo, N. Y., and Kingston, Ont.

The Daily Review

THURSDAY, MAY 9, 1912.

THE LATE MR. MABEE

There is a unanimity of opinion as to the loss the country has sustained in the death of Mr. J. P. Mabee, the chairman of the Board of Railway Commissioners, that is a very striking testimony to his ability, his fairness and his fitness for the responsible position which he occupied. The Board has played an important part in regulating the transportation business of the country since it was established. The chairmanship requires a man with legal knowledge, with a capacity for much work, and with that rare qualification, good sense. Mr. Mabee, although formerly a judge, did not confine the proceedings within strict court rules, but aimed to get at the facts and to adjust the conditions to meet the requirements. A man of firmness is needed to hold the railways to what they should do and not do, and tact to show people, at times impatient, that the rulings of the Board are reasonable. Mr. Mabee fitted and filled the difficult position as few men could do it, and his untimely death, in the midst of his work and at an age when years of usefulness would be expected to be awaiting him, is deeply lamented.

THE RESPONSIBILITY

Mr. Asquith, the British Premier, came valiantly to the defence of Mr. Bryce, the British Ambassador at Washington. In reply to the strictures upon the ambassador, made in Parliament for his connection with the reciprocity negotiations between Canada and the United States, by which President Taft hoped to make Canada, only an adjunct of the United States, Mr. Asquith said that Mr. Bryce had in no way influenced the views or policy of the late Canadian Government. "The question," said the Premier, "of what is most to the advantage of Canada is primarily one for the Canadian Government. I must, in view of these questions, take the opportunity of repudiating emphatically the reflection of Mr. Bryce which is contained in them. Mr. Bryce had nothing to do with the views or policy of the Canadian Government." "For Mr. Bryce to have interfered," the Premier further said, "with negotiations going on at Washington, upon matters which were within Canada's own competence would have been naturally resented in Canada. Generally, there has been no difference of opinion in the Dominion about that, whatever may be the differences between Canadians themselves, regarding reciprocity." The Premier plainly repudiates all responsibility on the part of the Ambassador for the arrangement that was made by Mr. Fielding and Mr. Patterson: the Laurier Government must bear that alone. So far, at any rate, as Canada is concerned, that is right. The Government was responsible to the Canadian people and the Ambassador was not, and the statement that he did not interfere with the negotiations may be accepted. He was probably friendly to the attempt to make a trade arrangement, and his sympathies may have inclined him to hope for some success on the part of the Liberal negotiations. But had it been otherwise, he would no doubt have acted as he did. It would scarcely be wisdom for a British Ambassador to try to thwart the efforts of responsible Canadian ministers to negotiate a trade treaty with another country for the reason that in his opinion, or owing to his political training or applications, he was not in sympathy with their policy. He did not interfere; the British Premier says so for him. The people who were responsible were held responsible by the Canadian electors, and were shown that they had misrepresented Canadian opinion.

There might be one ground upon which a British Ambassador might be justified in taking some action under such circumstances, and that would be if he thought the negotiations were taking a political turn that would be inimical to the Empire. The charge against Mr. Bryce was that he should have known that the proposed reciprocity would have a political effect and an effect seriously inimical to the Empire. President Taft and Mr. Roosevelt were of that opinion. Others, as soon as they obtained knowledge of the terms thought it would. But there is no doubt that many Liberals thought otherwise, and the Ambassador is a free trader trained in the school of Cobden. He may have been blinded to some extent by his free trade prejudices. The President, however, was not, and most fortunately the Canadian Conservatives in Parliament at the time and the Canadian people were not, and the danger was averted. It will not soon be forgotten that it was only the most determined opposition of Mr. Borden and his followers, that saved Canada from being caught in the President's trap, for the Laurier Government would have forced the pact through Parliament if the Conservatives had not held up the business and forced the Liberals to permit the people to express their opinion. It was upon compulsion that they submitted this question to the test of a general election, and the result of the strong stand taken by the Conservatives was that the proposed arrangement was condemned and the Laurier Government with it.

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

NOTE AND COMMENT

Canada has in Baffin's Bay two of the greatest coal deposits in the world, a member of Capt. Bernier's exploration party says. It may be years before they are available, but no matter how long the time may be, they should be kept out of the hands of the coal barons.

Charges were made against the Chairman of the License Commissioners in Centre Huron, and no time was lost by the Whitney Government in having them investigated. Upon reviewing the reports, the Provincial Secretary announced that the License Inspector and chairman must retire. The Globe says that "Mr. Hanna has taken the right course and has lost no time in doing so." The present Government of Ontario wants and will have a proper service given by all officials.

IT ALL STARTED WITH LA GRIPPE

And the Cure Was Quick and Sure When He Used Dodd's Kidney Pills.

Aged New Brunswick man tells how his Diabetes and Bright's Disease vanished before Dodd's Kidney Pills.

Lower Abougoggin, Westmoreland Co., N.B., May 8.—Special.—"I had a severe attack of La Grippe, which developed into Diabetes and Bright's Disease, but Dodd's Kidney Pills cured me. Yes, I am seventy years old, but I am in good health again and I hardly need to tell you I am well satisfied with Dodd's Kidney Pills."

Such is the story of Damien Boudreau, one of the oldest and most highly respected inhabitants of this place. It shows what a boon Dodd's Kidney Pills are to the old folks. They cure the Kidneys, clear the dregs of disease out of the blood and make the old feel young.

Dodd's Kidney Pills cure the Kidneys. Good Kidneys mean that there can be no impurities left in the blood. And the man or woman who has good pure blood can laugh at nine out of ten of the ills to which the flesh is heir. They are the one sure cure for all diseases of the kidneys and all diseases such as Rheumatism, Backache, Lumbago and Heart Disease, which are caused by impure blood.

G.T.R. Firemen Make Demands.

Montreal, May 9.—Grand Trunk firemen from all over the system are sending a deputation to Montreal next week to demand a twenty per cent. increase in wages. Their demand has been inspired by the ten per cent. increase recently granted to the company's engineers.

Hon. Mr. Sifton Subscribes.

London, May 9.—(C.A.P. Cable.)—Hon. Clifford Sifton has given $500 to the Titanic fund.

YOU don't get better beer because you pay twice as much for imported lager as for O'Keefe's.

The difference is the duty. 120

O'Keefe's Pilsener Lager

is brewed right here in Canada—and there's no duty to pay on it. Insist on having

"The Light Beer in the Light Bottle."

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

Liverpool and Chicago Wheat Futures Close Lower—Live Stock—Latest Quotations.

CHICAGO, May 8.—Wheat prices broke wildly to-day because the government crop report was less bullish than expected. The market closed nervous, ¾c to 1⅛c under last night. All other leading staples made net advances—corn ⅛c to ⅛c to ⅝c, oats ⅛c to ⅜c, and provisions 2½c to 15c.

Liverpool wheat closed ¼d to 1d lower than yesterday, and corn unchanged to 1d higher. Paris wheat closed ⅛c lower to ⅛c higher. Antwerp unchanged, Berlin 1c lower, and Budapest ⅛c lower.

Montreal Grain and Produce.

MONTREAL, May 8.—There was some demand from foreign buyers for Manitoba spring wheat, but, as the prices bid were 7½d to 1s per quarter under what exporters offered at, no business was done. The demand for oats was also quieter, and the grain trade on the whole was slow, with no change in prices to note. The butter situation is somewhat mixed, but supplies are moving off as fast as they come in, there being a steady demand from the west for car lots. A little business is passing in cheese over the cable. Eggs rule steady, with a good demand, and provisions are fairly active.

Corn—American, No. 2 yellow, 89c.

Oats—Canadian western, No. 2, 54½c; do. No. 3, 50½c; extra No. 1 feed, 51½c; No. 2 local white, 50½c; No. 3 local white, 49½c; No. 4 local white, 48½c.

Barley—Manitoba feed, $1.05; malting, 74c to 75c.

Buckwheat—No. 2, 74c to 75c.

Flour—Manitoba spring wheat patents, firsts, $5.80; seconds, $5.30; strong bakers', $5.10; winter patents, choice, $5.25 to $5.35; straight rollers, $4.80; do., bags, $2.25 to $2.35.

Rolled oats—Barrels, $2.55.

Millfeed—Bran, $25; shorts, $27; middlings, $29; moullie, $30 to $34.

Hay—No. 2, per ton, car lots, $18.50 to $19.00.

Cheese—Finest eastern, 13½c to 14c.

Butter—Choicest creamery, 25½c to 26c; seconds, 23c to 23½c.

Eggs—No. 2 stock, 18c to 20c.

Potatoes—Per bag, $1.75 to $1.80.

Pork—Canada short cut backs, barrels, 35 to 45 pieces, $25; Canada short cut back, barrels, 45 to 55 pieces, $23.50.

Lard—Compound tierces, 375 lbs., 9¼c; wood pails, 20 lbs. net, 9⅝c; pure, tierces, 375 lbs., 13¾c; pure, wood pails, 20 lbs. net, 14¼c.

Beef—Plate, barrels, 200 lbs., $14.50; do., tierces, 300 lbs., $21.50.

Liverpool Grain Market.

LIVERPOOL, May 8.—Closing—Wheat—Spot firm; No. 2 red western winter, 8s 5d; No. 3 Manitoba, 8s 4d. Futures weak; May 7s 10¼d, July 7s 8d, Oct. 7s 6⅞d.

Corn—Spot steady; new, 6s 5¼d; old, 6s 11¼d; American mixed, new, kiln-dried, 6s 7¼d; May, 6s 8d. Futures firm; Sept. 5s 3⅜d.

Flour—Winter patents, 30s.

Hops—In London (Pacific Coast), £10 to £11 5s.

Minneapolis Grain Market.

Corn—No. 3 yellow, 76½c to 78c.

Oats—No. 2 white, 54c to 54½c.

Rye—No. 2, 89½c.

Buffalo Grain Market.

BUFFALO, May 8.—Spring wheat firm; No. 1 northern, carloads, store, $1.21⅞; winter lower; No. 2 red, $1.24; No. 3 red, $1.22; No. 2 white, $1.22.

Corn—Stronger; No. 3 yellow, 84c; No. 4 yellow, 82c; No. 3 corn, 82¼c to 83½c; No. 4 corn, 80¼c to 80¾c, all on track, thru-billed.

Oats—Higher; No. 2 white, 61½c; No. 3 white, 61c; No. 4 white, 60c.

Barley—Malting, $1.20 to $1.30.

CATTLE MARKETS.

Montreal Live Stock.

MONTREAL, May 8.—At the Canadian Pacific live stock market the receipts of live stock for the week ending May 4 were 1100 cattle, 300 sheep and lambs, 1670 hogs and 2550 calves. The offerings on the market this morning were 600 cattle, 300 sheep and lambs, 1050 hogs and 2000 calves.

There were no new developments in the condition of the live stock trade to-day, prices for all lines being well maintained. The gathering of buyers was fairly large, and the demand for cattle was good; in consequence an active trade was done, with sales of choice steers at $7.50 to $7.75; good at $7 to $7.25, and the lower grades at from $4.50 to $6.50 per 100 pounds. Choice cows brought from $6.25 to $6.50, and common stock from that down to $4.50, while bulls sold at $5 to $6.75 per 100 pounds, as to quality.

The trade in calves was active, at prices ranging from $1.50 to $5, as to size and quality. The demand for sheep and lambs was good at firm prices. Sheep brought from $5 to $6.50, and yearling lambs $7.25 to $7.50, while spring lambs sold at from $3 to $7 each. The tone of the market for hogs was steady, and prices were unchanged from Monday, under a good demand for selected lots, at $9.40 to $9.65 per 100 pounds, weighed off cars.

East Buffalo Cattle Market.

EAST BUFFALO, May 8.—Cattle—Receipts, 75 head; market slow, steady; prime steers, $8 to $8.60; butcher grades, $6.75 to $7.75.

Calves—Receipts, 300 head; market slow, steady; cull to choice, $6 to $8.50.

Sheep and Lambs—Receipts, 8600; market slow, steady; choice lambs, $8.25 to $8.50; cull to fair, $6 to $8; yearlings, $7 to $8.75; sheep, $3 to $6.75.

Hogs—Receipts, 2550; market active, 10c higher; yorkers, $8 to $8.10; pigs, $6.75 to $6.85; mixed, $8.05 to $8.10; heavy, $8.10 to $8.20; roughs, $6.90 to $7.10; stags, $5.50 to $6.

Chicago Live Stock.

CHICAGO, May 8.—Cattle—Receipts, 21,000; market steady to 20c lower. Beeves, $6 to $9; Texas steers, $5.40 to $7.25; western steers, $5.75 to $7.60; stockers and feeders, $4.20 to $6.60; cows and heifers, $2.80 to $4.75; calves, $5 to $7.75.

Hogs—Receipts, 20,000; market generally 10c higher; light, $7.25 to $7.75; mixed, $7.25 to $7.90; heavy, $7.35 to $7.95; rough, $7.35 to $7.60; pigs, $5 to $7.05; bulk of sales, $7.60 to $7.85.

Sheep and Lambs—Receipts, 15,000; market quiet and generally steady; native, $4.65 to $7.50; western, $4.90 to $7.00; yearlings, $6 to $8.35; lambs, native, $5.90 to $9; western, $6.25 to $9.65.

Kincardine Hotelman Dead.

Kincardine, May 9.—The death of J. G. Walker, proprietor of the Commercial Hotel, Tiverton, occurred suddenly yesterday morning. He was one of the best known men in Bruce County, having been born in Kincardine Town 52 years ago.

The Bishop of Ontario has been obliged to cancel important engagements in Brockville and at other points throughout the diocese, owing to illness.

Work on the erection of the rifle range for the 24th Regiment at Erie Beach, near Chatham, will be started shortly and will be completed in time for practice early in the summer.

The five-year-old son of George Atkins of 2 Baxter street, Toronto, was bitten by a dog on Friday last, and on Monday began Pasteur treatment. There are several people taking the Pasteur treatment at the provincial laboratory.

A resolution passed by the Methodist Episcopal Church of the U. S. prohibits the election of any officer of the general conference, which includes secretaries of boards and editors of church papers, who use tobacco in any form.

$100 REWARD $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENNEY & CO., Toledo, Ohio.

Sold by all druggists, 57c.

Take Hall's Family Pills for constipation.

Goal Results

¶ We sell the very best quality of hard coal, as good as we know how to buy.

¶ Are you getting results from the coal you are now using? Are you sure it is good? Are you burning it the right way?

¶ There is a deal of difference in how you handle the range or furnace. Our long experience tells us that fact, and we are ready to advise any in doubt as to the best way to make use of coal as fuel.

Cynthia's Chauffeur

By LOUIS TRACY

Copyright by McLeod & Allen, Toronto

"You are not in the slightest danger," he assured her, "but if you wish it I will drop you here. The village is barely half a mile away. Otherwise, should you decide to remain, you must put up with a rapid speed."

"But why, why?" she almost wailed. "Have you gone mad, to drive like that?"

"Again I pledge my word that there is no risk. I mean to overtake Miss Vanrenen before the light fails—that is all."

"You conduct is positively otrageous," she gasped.

"Please yourself, madam. Do you go, or stay?"

She collaspsed into the comfortable upholstery with a gesture of impotent despair. Medenham was sure she would not dare to leave him. What wretched project she and Marigny had concocted he knew not, but its successful outcome evidently depended on Mrs. Devar's safe arrival in Bristol. Moreover, it was a paramount condition that he should be delayed at Cheddar, and his chief interest lay in defeating that part of the programme. Without another word, he released the brakes, and the car sped onward.

Now they were plunging into a magnificent defile shadowed by sheer cliffs that on the western side rose to a height of five hundred feet. Fluttering rock pigeons circled far up in the azure riband that spanned the opposing precipices. From many a towering pinnacle, carved by the ages into fantastic imageries of a castle, a pulpit, a lion, or a lance, came the loud, clear calling of innumerable jack-daws. It was dark and gloomy most terrifying to Mrs. Devar, down there on the twining road where the car boomed ever on like some relentless monster rushing from its lair. But the Cheddar gorge, though majestic and awe-inspiring, is not of great extent. Soon the valley widened, the road took longer sweeps to round each frowning buttress, and at last emerged, with a quality of inanimate breathlessness, on to the bleak and desolate tableland of the Mendips.

At this point had Cynthia been there, Medenham would have stopped for a while, so that she might admire the far-flung panorama of the "Island valley of Avallon" that stretched below the ravine. Out of the green pastures in the middle distance rose the ruined towers of Glanstonbury. The purple and gold of Sedgemoor, relieved by the soft outlines of the Polden hills, the grim summits of Taunton Dean and the Blackdown range, the wooded Quantocks dipping to the Severn, and the giant mass of Exmoor bounding the far horizon,—these great splashes of color, softened and blended by belts of farmland and the blue smoke of clustering hamlets, formed a picture that not even Britain's storehouse of natural beauty can match too often to sate the eyes of those who love a charming landscape.

He had, as it were, jealously guarded this vista all day, said not a word of it, even when Cynthia and he discussed the route, so that it might come at last in one supreme moment of revelation. And now that it was here, Cynthia was hidden somewhere in the gray distance, and Medenham was frowning at a flying strip of white road, with his every facutly intent on exacting the last ounce of power from the superb machine he controlled.

The miles rolled beneath, yet there was no token of the Du Vallon that was to "run slowly up the hill" until overtaken by the industrious writer of postcards. At the utmost, the French car was given some twelve or thirteen minutes' start which meant seven or eight miles to a high-powered automobile urged forward with the determination Medenham himself was displaying. Marigny's chauffeur, therefore, must have dashed through that Titanic cleft in the limestone at a speed utterly incompatible with his employer's excuse of sightseeing. Of coure, it would be an easy matter for Marigny to enlist Miss Vanrenen's sympathies in the effort of a first-rate engine to conquer the adverse gradient. She would hardly realize the rate of progress, and, from where she was seated, the speed indicator would be invisible unless she leaned forward for the express purpose of reading it. Medenham was sure that the Mercury would catch the Du Vallon long before Bristol was reached, but when the last ample fold of the bleak plateau spread itself in front, and hunter's eyes could discern no cloud of dust lingering in the still air where the road dipped over the horizon, he began to doubt, to question, to solve grotesque problems that were discarded ere they had well taken shape.

Oddly enough, there came no more expostulations from Mrs. Devar. Like the majority of nervous people, she quelled by the need of placing complete trust in one who understood his work. While Medenham was still searching the sky-line for signs of the vanished car, she did show some interest in his quest. He felt, since he could not see, that she half rose and looked over his head, bent low behind the partial shelter afforded by a glass screen. Then she settled back in the seat, and drew a rug comfortably around her knees. For some reason, she was strangely content.

The incident supplied food for active thought. So she felt safe! That which she dreaded as the result of a too strenuous pursuit could not now happen! Then what was it? Medenham swept aside the fantasy that Mrs. Devar knew the country well enough to ge able to say precisely when and where she might be sure of his failure to snatch Cynthia from that hidden evil of his nature of which he could only guess at. Her world was the artificial one of hotels, and shops, and numbered streets—in the real world, of which the lonely wastes of the Mendips provided no meager sample, she was a profound ignoramus, a fat little automaton equipped with atrophied senses. But she blundered badly in composing herself so cozily for the remainder of the run to Bristol. Medenham had dwelt many months at a time in lands where just such simple indications of mood on the part of man or beast had meant to him all the difference between life and death. So now, if ever, he became doubly alert; his eyes were strained, eager, peering; his body still as the wild creatures which he knew to be skulking unseen behind many a rock and grass tuft passed on the way.

This desolate land, given over to stones interspersed with patches of wiry grass on which browsed some hardy sheep, resembled a disturbed ocean suddenly made solid. It was not level, but ran in long, almost regular undulations. In the trough bteween two of these rounded ridges the road bifurcated, the way to Bristol trending to the left, and a less important thoroughfare glancing off to the right.

There was no sign-post, but a child could scarce have erred is asked to choose the track that led to a big town. Medenham having consulted the map earlier in the day, swung to the left without hesitation. The car literally flew up the next incline, and the dark lines of trees and hedges in the distance proved that tilled land was being neared. Now he was absolutely sure that he had managed, somehow, to miss the Du Vallon—unless, indeed, its redoubtable mechanism was of a caliber he had not yet come across in the highways and byways of Europe.

With him, to decide was to act. The Mercury slowed up so promptly that Mrs. Devar became alarmed again.

"What is it?—a tire gone?" she cried.

"No, I am on the wrong road—that is all."

"But there is no other. That turning we passed was a mere lane."

The car stopped where his watchful glance noted a carpet of sand left by the last shower of rain. He sprang out and examined the marks of recent traffic. Marigny's vehicle carried non-skid covers with studs arranged in peculiar groups, and their imprint was plain to be seen. But they had followed that road once only. It was impossible to determine offhand whether they had come or gone, but if they came from Bristol, then most certainly they had not returned.

Medenham took nothing for granted. Dusk was advancing, and he must make no mistake at this stage. He ran the Mercury slowly ahead, not taking his gaze off the telltale signs. At last he found what he was looking for. The broad scars left by a heavy cart crossed the studs, and had crossed after the passage of the car. Thus he eliminated the vagaries of chance. Marigny had not taken the road to Bristol—he must get on the other one—since no cart was in sight.

Medenham backed and turned. Mrs. Devar, of course, grew agitated.

"Where are you going?" she demanded.

Medenham resolved to end this farce of pretense, else he would not be answerable for the manner of his speech.

"I mean to find Miss Vanrenen," he said. "Pray let that suffice for the hour. Any further explanation you may require can be given at Bristol and in her presence."

Mrs. Devar began to sob. He heard her, and of all things that he hated it was to become the cause of a woman's tears. But his lips closed in a thin seam, and he drove fast to the forkfork in the roads. Another halt here, and the briefest scrutiny showed that his judgement had not erred. Du Vallon had passed this point twice. If it came from Bristol in the first instance it had gone now to some unfamiliar wilderness that skirted the whole northeastern slopes of the Mendips.

He leaped back to the driving seat, and Mrs. Devar made one more despairing effort to regain control of a situation that had slipped from her grasp nearly an hour ago.

"Please be sensible, Fitzroy!" she almost screamed. "Even if he has made a mistake in a turning, Count Marigny will take every care of Miss Vanrenen——"

It was useless. She was appealing to a man of stone, and, indeed, Medenham could not pay heed to her then in any circumstances, for the road surface quickly became very rough, and it needed all his skill to guide his highly-strung car over its inequalities without inflicting an injury that might prove disastrous.

His only consolation was provided by the knowledge that the risk to a stout Mercury was as naught compared with the tortures endured by a French-guilt racer, with its long wheel-base and low chassis. After a couple of miles of semi-miraculous advance his respect for Smith's capability as a driver increased literally by leaps and bounds.

But the end was nearer than he thought. On reaching the top of one of those seemingly interminable landwaves, he saw a blurred object in the hollow. Soon he distinguished Cynthia's fawn-colored dust cloak, and his heart throbbed exultantly when the girl fluttered a handkerchief to show that she, too, had seen.

Mrs. Devar rose and clutched the back of the seat behind him.

PARALYSIS COMPLETELY CURED
"Fruit-atives" Performs Another Miracle
BRISTOL, N. B., JULY 25th. 1911
"I had a stroke of Paralysis in March 1910, and this left me unable to walk or help myself, and the Constipation of the Bowels was terrible.
Nothing did me any good and I was wretched in every way.
I then took "Fruit-a-tives" for the Constipation and it not only cured me of this terrible tronble, but gradually this fruit medicine toned up the nerves and actually cured the Paralysis.
By the use of "Fruit-a-tives", I grew stronger and stronger until all the Paralysis and weakness left me.
I am now well again and attend my store every day. I say "Thank God for Fruit-a-tives"
ALVA PHILLIPS.
"Fruit-a-tives" not only cured the terrible Constipation, but so toned up the nervous system and the general health as to completely overcome the palsy.
Truly "Fruit-a-tives" is a wonderful medicine.
50c a box, 6 for $2.50 trial size, 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

COW TESTING WORK RAPIDLY ADVANCING

Reports from all parts of the Province show that the farmers are beginning to appreciate the value of knowing what each cow in the herd is producing, and it has been difficult to secure the necessary sample bottles, so great has been the demand.

Owing to the great increase in membership of the local Association, it's became necessary for the local recorder to eliminate some of the smaller Associations situated some distance from Peterborough, in order to look after the details of the larger Associations. The Keene Association has doubled this year as have also the Associations at Ennismore, Trewern and Peterborough, while at Shearer and Norwood three times as many cows will be tested.

To those wishing to know what their cows are doing, it is important that they should commence weighing and sampling at once in order to secure the record for the full milking period as records for a portion of the time are of very little value.

Some exceptionally good records have been made during the winter in spite of the fact that there was a shortage of feed. A 3 year old pure bred Holstein owned by Mr. W. E. Wood, of the Shearer Association, in the month of February produced 1550 lbs. of milk and 48 lbs. of fat, which, at 36c. per lb. of fat, the price paid by the Peterborough Creamery for that month, brought in for her owner over $17, which was nearly equalled by a 9 year old pure bred Holstein owned by Mr. Wellington Fife, also of the Shearer Association, which produced 1460 lbs. of milk and over 45 lbs. of fat. A 4 year grade Holstein owned by Mr. T. R. Mann, of Trewern, produced 1410 lbs. of milk and 46 1-2 lbs of fat. The owners of these 3 cows may well be proud of such profitable animals.

In the month of March, a cow owned by Mr. Jas. Sweeney, of Ennismore, produced 1215 lbs. of milk and over 43 lbs. of fat and several cows in the herd of Mr. J. K. Moore and Son, of Central Smith, went up to over 40 lbs. of fat, as did several cows in the herd of Mr. Sandy Matchett, of Peterborough.

Many people hesitate to commence testing their cows, because they think their animals are not very good, and are ashamed to let it be known, but they need have no fear about this, as all the information obtained, is private and everyone should avail themselves of this inexpensive way of finding out what their cows are doing.

LAKEHURST NEWS

Special Correspondence.

Lakehurst, May 8—Mr. W. Smith, who left for Edmonton, Alberta in April, returned to his home here this week.

Mr. R. Strickland, who has been working for Mr. Shearer for about a month, decided to change his sphere of labor last week. He left Mr. Shearer's on Friday morning, but Saturday night found him joyfully wending his way back again, "having speedily discovered that he could do no better elsewhere.

The above two items surely speak well for the attractions of Harvey.

Mrs. W. Elliott with her two little boys left for Islay, Alberta last week Miss Madge Shaw and Mrs. W. Thompson accompanied her as far as Toronto, where they remained until Saturday. Mrs. Elliott's many friends here are anxious to hear of her safe arrival and wish her and Mr. Elliott great success in their new home.

Mr. Pier of Norwood is conducting services in the Lakehurst Presbyterian church during May in the absence of Mr. Bain, who is spending the month at his home.

School section No. 8, re-opened after a rather prolonged holiday. The trustees have secured the services of Miss E. Pearson of Smith.

Rev. W. E. Smith, of China, will preach in the Lakehurst Methodist church next Sunday evening.

Seeding has commenced in earnest now, the weather lately having been extremely favorable to farm work.

Gannon's Narrows Bridge is still impassible, and we regret to learn is likely to remain so for sometime.

SANOL
The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.
SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.
SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.
Sanol per bottle $1.50
Get it from McDERMID & JURY, Druggists, Peterborough, or direct from The Sanol Manufacturing Co., Winnipeg, Man.

Let the Buyer Beware
FOR centuries the principle of "Let the Buyer Beware"—"Caveat Emptor"—ruled the world of business. In fact, it was not a principle—but rather a lack of principle—yet it held sway everywhere until a decade or two ago.
When a merchant quoted a price, he made it high enough to stand almost unlimited whittling, and yet be profitable—to him. When he spoke of quality, his fingers were crossed, and you were not expected to believe him—unless you wanted to very badly.
Buying was a haggle—unless you were a hardened haggler you came out second best in every deal. "Caveat Emptor"—it was up to you. There was no confidence between buyer and seller.
Business—once an aggregation of deals—has become the living embodiment of ideals.
Advertising has helped, because Advertising creates confidence in the buyer and proves the seller's confidence in his wares. Confidence has eliminated the haggle.
You see business confidence is a good deal like capital, in that it accumulates like savings. The grocery-consumer's confidence in a town will be on deposit chiefly with a few capable square grocers; and dry-goods confidence, jewelry confidence, and so forth, are massed in the same way.
The retail merchant doesn't lock this confidence in his safe. He deposits it in turn with the wholesaler, who passes it on to the manufacturer. And the manufacturer, to make the circle complete, must give confidence to the consumer.
The manufacturer with goods to sell must draw upon all these reserves of confidence. He must demonstrate his own fairness in dealing, his integrity in maintaining quality, his willingness to put principle before profit.
Advertising is the means through which the manufacturer makes this demonstration to you.
Advertising has given personality to commodities, so that you now recognize your "friends" among soap, tea, or collars, as readily as you recognize your human acquaintances.
Advertising fathered the "money back" principle, and has made buying a pleasure instead of a duel of wits.
Advertising has spread the one-price policy—erased "Caveat Emptor" from the language of business, and made buying safe to entrust to a child.
Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—write if interested.

DR. NORVAL'S NUTRITIVE HYPOPHOSPHITES

When a person feels "blue" — "all tired out" — "dosen't feel like doing anything" — "connot concentrate his mind on his work" — "feels weak mentally and physically" — "doubts his powers" — "complains of poor appetite and sleeplessness" — "suffers from headache" — Then his nervous system is run down and demands a good up-building tonic. Nervous exhaustion is a modern disease, caused by too close attention to business, overwork worry, cares, overstudy, etc.

Dr. Norval's Nutritive Hypophosphites forms the best nerve and brain food known, and have restored thousands of sufferers to health.

We sell it, and strongly recommend it.

INQUEST ORDERED

At the instigation of the Crown an inquest will take place to investigate the circumstances connected with the death by drowning of Assistant Fishery Overseer James Peters. A jury will be empannelled at eight o'clock, but no evidence taken.

PETERBORO IN THE VOICE

The May issue of "The Voice," the official organ of the Associated Advertising Clubs of America, contains two full page, attractive, well worded "ads" for Peterborough, one of Farm and Dairy, and the other of Peterborough as a whole. The latter is illustrated by several excellent cuts of views, of the city, one of the Quaker Oats Company's plant, one of the Peterborough Hydraulic Lift Lock, one of a 20 pound maskinonge, captured in the Otonabee river, and a particularly striking birds-eye view of the whole city.

Peterborough's advantages in industries, conveniences and beauty spots are alluringly set forth.

Farm and Dairy are to the front with illustrations also, showing splendid views of well kept barns, farm residences, etc., typical of what are to be found on the farms of "Farm and Dairy" enthusiasts throughout Ontario.

TO STONEY LAKE

4 Days' Suit Sale of Exceptional Merit

FRIDAY
SATURDAY
MONDAY
TUESDAY

It's our intention to sell almost every Women's Suit in stock during this 4 Days' Sale. We have 93 to sell.

We could give several reasons for this special *Sale of Suits*, but they are all combined in this one: a *quick clearance* and at *abnormally low prices.*

We might tell you that we have sold nearly 50% more Women's Suits than in any former season, which is gratifying to us. There's a reason too—"*Exclusiveness*" is the strong predominating feature.

Not necessary to say "Friday's choice is best"—if not Friday, then Saturday—though every Suit offered is a rare "Pick Up" at the price named.

Every Suit altered if necessary—but at these prices we must charge a small amount for alterations.

You can pay a small deposit and have any Suit put aside until you are ready to take it.

Prices are positively for the *4 Days only.*

A Comprehensive Description of the 93 Suits that go on Sale at Much Reduced Prices - Friday, Saturday, Monday and Tuesday.

$12.00 & $13.50 SUITS for $10 95

Navy blue is particularly strong this season, and this lot is composed chiefly of navy blue with a sprinkling of grey tweeds—also navy hairline stripes; styles are absolutely correct; strictly tailored; coats in 2, 3 and 4 button styles, all silk lined; skirts are made panel front and back—with and without foot pleats. If you purchased any one of these Suits at the regular price of $12.00 or $13.50, you would get splendid value for your money. 4 Days' Sale price. 11 only to clear **$10.95**

LAST YEAR SUITS, $9 89

Could you use a Suit which was carried over from last season? One that still adheres closely to the present season's style tendencies, and one that will give the utmost satisfaction in service? We have 12 only of such costumes and are offering them during the 4 days of this sale at a price which—considering quality — is simply marvellous. Materials are French serge, diagonal serge. Worsteds and Venetians in navy blue, green, grey, black, rose, wisteria, shepherd's check, etc. The former prices were as high as $25.00. All to clear quickly at the 4 Days' Sale price of......... **$9.89**

$20.00 & $22.00 SUITS for $16 90

Particularly desirable and of superior workmanship are the garments which we are featuring at this price. You will find Broadcloths, Serges and Venetians in navy blue, black, brown, light and dark grey tweed mixtures; also a very stunning model in the new grey and white stripe. Every garment is beautifully tailored. You will quickly recognize these as regular $20.00 and $22.00 values. Positively for 4 days only at **$16.90**

A Leader
$15.00 & $18.00 SUITS for $12.75

15 Suits in this lot for a complete cleanup at the price marked. Included one will find navy and black Serge and Tweeds, Worsteds and Homespuns in grey, brown, fawn and novelty stripe effects. Made according to Fashion's newest lines—strictly tailored styles—silk and satin linings. Two lines ($15.00 and $18.00) which have been our department leaders all season, and which represent the best procurable value at the regular price. Only for 4 days at the remarkably low price of.......... **$12.75**

SEE THE CENTRE WINDOW DISPLAY OF THIS LINE.

IMPERIAL HOME RE-UNION SECRETARY TELLS OF WORK

Ottawa, May 9—With the prime object of enthusing Ottawans in the direction of aiding the British immigrants who are residing in Ottawa to bring their wives and families here Mr. Frank Wise, of the Imperial Home Reunion Association of Toronto is in this city. This gentleman, who is greatly in sympathy with the work in which he is voluntarily engaged, will point out the work done by the association and will show how one may be managed.

Mr. Wise outlined the rules governing the Imperial Home Re-union Association, and stated that in the eighteen places where the idea has been taken up, progress has been made, and the fruits of the work are now being seen.

"The objection of this association is to assist British workmen in Ottawa to bring their families here to live with them," said Mr. Wise.

"But before we assist a man we stipulate certain things. He must be able to produce twenty per cent of the total cost of the transportation and must also prove to us that he has enough money laid by to support his dependents when they are here. He must be working and have an apparently permanent position. A man has one year to pay back the money which we supply for the transportation, and in cases where there are several wage earners in one family this money is paid back rapidly.

"Now our mode of organization is simply this," he continued. "A number of men are interested in the work and they agree to support the association to a certain value. The bank accepts the guarantee as collateral and the association may loan money to the value of the collateral. We have never had to draw upon our supporters, however, as the men we help always pay back within the year."

Mr. Wise then told of the work done by the Toronto association, stating that out of 143 heads of families aided 114 had brought their families to the city, and the others were preparing to do so. Those 114 men represented 639 people. The people brought over through this system were factory hands, domestics and little children to go to school and become Canadians. The seventeen associations, he said, extended from St. John, N.B., to Vancouver B.C., and were organized in most of the larger places.

"This is my recreation," he said, "I am deeply interested in the work because it tends to unite families. We in Toronto intend bringing over between ten and twelve hundred persons this year, which will call for about $75,000, but the men interested in Toronto have their hearts in the work, it's astonishing the interest they take." H. R. H. the Duke of Connaught and Earl Grey are our honorary patrons, and our president is Mr. J. Norton Griffiths, M.P., of Wednesbury, England.

THEATRICAL

"The Chocolate Soldier"

The presentation of the famous "Chocolate Soldeir" to a packed house at the Grand last evening was, as anticipated, the biggest hit of the season. The glowing accounts of the merit and quality of the piece, together with its tuneful score were fully demonstrated. In addition there was any amount of humor, and the fun makers very evenly distributed.

"The Chocolate Soldier" received its peculiar name through the fondness of the leading male character for chocolates. The play is a three act Opera Bouffe, richly and realistically staged to depict a Bulgarian scene near the famous Dragoman pass.

Charles Purcell as the Chocolate Soldier made an instant hit in the character of Lieut. Bumerli, the Swiss soldier. His unique mannerisms added to ever ready wit and irrepressible humor made him a distinct favorite, a reputation which he never allowed to lag for a second. There is a very complicated but charming plot permeating the play in which Miss Alice Yorke, a Toronto young lady made a splendid impression on her first appearance here. Possessing a beautiful melodious and powerful voice, Miss Yorke brilliantly executed several extremely difficulty and trying numbers, acquitting herself so well that enthusiastic recalls were sounded.

Miss Yorke rendered the solo "My Hero," the piece that has made the 'Chocolate Soldier" famous, in a manner that could scarcely be excelled, being encored again and again. The chorus which assisted her are picked chiefly for their vocalism. The finale at the close of the second act was splendidly balanced and given with a spirit and accuracy really wonderful.

The various other leading characters were most ably depicted and the show was undoubtedly a big success from the rise to the drop of the curtain.

The body of Rev. Dr. Stubbs, the Bishop of Truro, was cremated. This was the first time on record when a bishop's body was incinerated.

WHO'S COMING AND GOING

Mr. E. W. Cooley of Toronto is in the city to-day.

Mr. R. J. Morden of Belleville is in the city to-day.

Miss May Waters of Orillia is visiting friends in the city.

Mr. W. R. Burgin of Sarnia, is transacting business in the city.

Mr. B. C. McKenzie of Toronto is in the city to-day on business.

Mr J. V. Sackville of Norwood is in the city to-day on business.

Mr J. B. Hoath of Toronto is registered at the Munro House.

Mr. T. C. Eddy of Scotland is registered at the Snowden House.

Mr. P. G. Pennington of Bowmanville is registered at the National.

Mr. W. R. Widdess of Lindsay is spending the day in Peterborough.

Mrs. Frank Galvin left on the 4.28 train yesterday for Toronto.

Mrs. W. H. Meldrum is at her cottage at Stony Lake preparing for the coming season.

Mr. W. G. Morrow went to Stony Lake this morning to arrange for the opening of his cottage.

Mr. and Mrs. J. Nugent went to Stony Lake to-day to open their cottage after the winter season.

Mr. Fred Holland left for Stony Lake this morning to take charge of the steamer "Islanda."

Mrs. J. Hogan, 577 Gilmour St., has returned home after a very pleasant visit in Lindsay.

Mrs. Greenslade, who for some time past has been teaching music in J. M. Greene's music buildings, has removed her studio to 189 King street. 'Phone 1112.

Mr. James O'Brien of the Union Bank leaves to-night on the 4.28 for New Dundee, where he will take up his duties as the manager of the Union Branch branch there. His successor will be Mr. Haig of Toronto, who will be accountant for the Peterboro branch.
Personals.

Publicity makes a product noted, quality brings fame. "SALADA" Tea is both noted and famous.

IN COUNTY COURT

A case of dispute over some property in Otonabee may be aired in County Court next Saturday. A farmer of that township complained to County Magistrate Edmison this morning, but having a very poor case, on the advise of the Magistrate, he has postponed the information until later. The circumstances, it is stated, are of a trivial character.

DRIVEN FROM THEIR "HANGOUTS"

The boys in the western part of the city were chased off the streets in the vicinity of Weller street, a couple of times during the past week by the police. The youngsters have nowhere else to indulge in play, and naturally created quite a noise. Some of the dwellers in the vicinity objected and phoned to the police with the result that an officer hove in view and the boys were sternly told to desist.

Fire which did $550,000 damage to the Revere Rubber Co., Providence R. I., destroyed thousands of auto tires.

BOY SCOUTS TO ASSIST AT SUMMER FAIR

Between seventy-five and one hundred boy scouts will assist in entertaining the crowds at the big summer fair to be carried out at the armories, commencing May 27th. The boys will parade decked in the scout uniform and probably give an exhibition of boy scout manoeuvres.

On Friday night the regular meeting at the armories will be held at 7.30. Every scout is asked to be present in uniform and with his staff.

Mr. Wm. Miller, who has been scout master for the past year or so, has been promoted to the rank of Boy Scout District Commissioner.

HIGH WATER IN THE LAKES

The high water on the lakes above is interfering with navigation to some extent. There can be too much of a good thing and such is the case at present.

As an instance, the tug "Ajax," owned by Mr. J. E. A. Fitzgerald, and which has been laid up at Bobcaygeon all winter, could not get through the locks at Buckhorn on account of the high water. This has delayed the bringing down of a large quantity of wood, and the scarcity of firewood in the city is felt.

Mr. Fitzgerald had to get the "Lintonia" to bring down a scow load to Lakefield, and instead of bringing the scow through the canal to the city it had to be unloaded at Lakefield and sent in by rail. Still this has raised the blockade, and Mr. Tom Pratt, the affable and dexterous purveyor of wood and fuel at the Fitzgerald Garage, says that they can now fill all orders. When Pratt affirms such to be the case, it is so.

Card of Thanks

Mr. George Allen and son, of Smith, wish to express their gratitude to their very kind friends and neighbors for their help since their loss by fire. In a couple of hours the neighbors had every animal they owned away to their own stables, and in two and a half days the timbers for a new barn had been cut and drawn home, ready for the hewer.

Five weeks from the date of burning the new building was completed, under the able workmanship of Mr. J. Botterill.

Mr. Allen feels he owes his neighbors a debt which he can never pay. "A friend in need, is a friend indeed."

Hamilton will send Chief Ten Eyck and two aldermen to the fire chief's convention at Denver.

Ladies' Fancy Dresses and Costumes Are Our Specialty.

We clean, press, alter and repair all outer garments worn by ladies and gentlemen, also furs and sleigh robes, chintz curtains, &c.

HAD SPARKLERS ON HER FINGERS ALSO HER TOES

Miss Alice Yorke, who so charmingly filled the title role in the "Chocolate Soldier" last evening, is in private life Miss Coady Hill, a well known and extremely popular Toronto young lady.

She is a daughter of the late H. J. Hill, of Toronto, for many years one of the big men in connection with the Toronto Exhibition. On his death his daughter embraced the stage as a means of livlihood and her venture has been extremely successful. Her rapid rise in the profession can only be attributed to painstaking study, a winning personality and a beautiful well cultivated voice.

Miss Hill while appearing before the public has realized handsomely from a financial standpoint. Those who noticed the glitter and sparkle from the trimming on her dainty foot-wear, last evening, were unaware perhaps that it emanated from costly genuine diamond bead work.

It is also said that Miss Hill has a couple of sisters for whose education she holds herself responsible.

LABOR HALL

James Simpson

Will address a public meeting to-night at 8 p. m. on topics of interest to working men. All welcome.

GAMBLING AND FAST WOMEN

Cause Downfall of Bank Clerks Well Connected.

Vancouver, May 9 — Alexander Strachan and M. M. Cox of the Merchants Bank and J. H. Robbie of the Imperial Bank, pleaded guilty to embezzling in all nearly twelve thousand dollars in the police court this morning before Magistrate Shaw. Strachan stole five thousand alone. The other two worked in collusion between the banks, getting several thousand. Three thousand was returned.

All are young men, the eldest twenty-four and the youngest twenty. Gambling in a Chinese den caused the downfall of Strachan, and fast women that of the other two.

Bank Managers pleaded hard for leniency.

The Magistrate reserved judgment until to-morrow. The boys are all well connected in the east, and have been in the bank service for several years.

The system practised by Strachan, teller of the Merchants, was removing packages of one thousand bills from bundles, while checking bundles "O.K." The others evolved a scheme of entering fictitious accounts in the balance of a depositor who seldom came to the bank. This man arrived suddenly, and discovered that his account was two thousand dollars short. An investigation led to the discovery.

MOUNT JULIAN

Special Correspondence.

Mount Julian, May 8.—The annual meeting of this branch of the Women's Institute was held on Wednesday last at the residence of Mrs. L. Reid, and was a very successful one. There was an extra good attendance. The popular president, Mrs. Lauder, occupied the chair.

The meeting opened by singing "A Goodly Thing it is to Meet," followed by prayer. Then the minutes of the previous meeting were read by the secretary and confirmed.

The Secretary-Treasurer's report was received and adopted.

Mrs. A. R. Mallory, who has been secretary-treasurer since our Institute was organized, handed in her resignation. She was urgently requested by all present to withdraw the same, but it was of no avail.

The officers elected for the ensuing year were as follows:

President—Mrs. Charles Lauder.
Vice-President—Mrs. S. Wilson.
Sec.-Treas.—Miss Emma Reid.
Directors—Mrs. J. C. Stone, Mrs. W. T. Northey, Mrs. R. McCauley, Mrs. J. Reid, Mrs. Wm. Creary and Mrs. G. Foster.
Auditors—Mrs. A. Reid and Miss Windover.
Program Committee—Mrs. J. Thompson, Mrs. B. Reid, Mrs. A. R. Mallory, Mrs. C. Lauder, Miss L. Windover and Miss Emma Reid.

A motion was passed unanimously that a vote of thanks be given for the praiseworthy services of the secretary for the past five years.

The meeting closed by singing "Blessed Assurance."

This branch of the Institute was started five years ago and has now a good membership. We have not only local members, but some in Peterborough, Lakefield, Toronto and elsewhere.

The summer meeting, which is arranged for by the Department of Agriculture, will be held at the home of Mrs. L. Reid. A special feature of this meeting will be an address given by Miss E. Robson, of Iderton, upon one or more topics. It is the desire of the Department of Agriculture to give the best instruction to our Institutes, hence the lecturers sent out by them are well instructed on various topics, as social and health problems, domestic science, labor-saving devices, etc. We extend a cordial invitation to all those who are not members, as well as those who are to attend this meeting at Mrs. Reid's on Thursday afternoon, May 30th, at two o'clock. A brief program will be provided.

Three railways were fined $10,000 each at Chicago for giving rebates to theatrical companies under the guise of advertising contracts.

WOULD LIKE TO LIVE IN PETERBORO

Mr. R. J. Todd Had Visitor With Chocolate Soldier Co.

Mr. Alan Forbes, a member of the Chocolate Soldier Co., whose home is in Boston, was the guest of Mr. R. J. Todd, Aylmer street, while in the city yesterday.

Mr. Forbes had many interesting references to make regarding the late Mrs. Eddy. His father, he said, was healed by Christian Science of an affection of the heart which medical doctors pronounced incurable.

Mr. Forbes expressed himself as greatly pleased with Peterborough and remarked that it was the only city in Canada visited by the company, that he felt he would like to reside in.

COMPETITION IN ALFALFA GROWING BY FARMERS

Entries are coming in nicely for the Alfalfa Growing Competition that is being conducted by Farm and Dairy, our local farm paper published at Peterborough.

The editors of Farm and Dairy would like to see every farmer in Peterborough county growing alfalfa. There is no reason why they should not be. The soil and climate of Peterborough county are well adapted to growing aflalfa. There are already at least 100 farmers in the county who have grown alfalfa with good success.

And they all speak highly of its value. Several farmers in Smith township have told the editors of Farm and Dairy that they believe that good alfalfa hay had just as much feeding value per ton as wheat bran. They can produce the alfalfa hay for $4 a ton, or even less. The wheat bran would cost them $26 to $28. Is it any wonder that they like alfalfa?

It is to make the growing of alfalfa more popular in the county that Farm and Dairy is conducting this competition. Any readers of the Review who have three or four acres of alfalfa seeded down last spring are invited to enter their best three acres in this competition. Several valuable prizes, probably in the form of silver cups, will be given to those having the best fields. If the entries are numerous enough the county will be divided into several sections and several prizes provided for each section. The only requirement is that the competitor be a subscriber to Farm and Dairy. Send in your name now to the Editor of Farm and Dairy, at Peterborough, as the fields will be judged either the last of this month or the first week in June.

The Buccaneers.

Originally buccaneers were peaceful English, French and Dutch settlers in the Spanish West Indies, and they received their name on account of their custom of drying their meat, in the Indian fashion, on a buccan, or hurdle. The Spaniards resented strongly the intrusion of these foreigners and made many attempts to oust them, but the buccaneers were a hardy set of men and crack shots with the musket, so they successfully resisted all the Spaniards' attacks and obstinately remained in the islands. What it was that caused the buccaneers to abandon their comparatively peaceful mode of living and take to piracy it is hard to say. Possibly the constant harrying to which they were subjected by the Spaniards prompted them to retaliate; but, whatever the reason, their depredations soon rendered the passage of the Caribbean sea an undertaking of extreme danger to merchantmen, and the word buccaneer has come down as a synonym for robbery, murder and all the vices.

Goethe's Birthday.

In August, 1818, Goethe went to Carlsbad for the cure and placed himself under the care of Dr. Rehbein. One morning when he rose he requested Charles, his domestic, to place a bottle of red wine and a glass in each of the two windows in the room.

Then the poet walked round and round the apartment, stopping at each window to drink a glass of wine. When he had nearly emptied the bottles the doctor arrived. "Ah," said Goethe, "you are come. Do you know it is my birthday?" "No," said the doctor, "it is not your birthday. It falls tomorrow."

Only the production of the almanac could convince Goethe that he was a day out in his reckoning. When he discovered his mistake he gave vent to a strong expression and, after a long pause, turning to the doctor, said, "Then I have got drunk for nothing."

Beware of Cousins.

Cousins are not as simple as they seem. The very fact of being a cousin or having a cousin is complicated. The laissez faire of cousinship is both eluding and deluding. Cousins will be cousins even if you did not choose them. They can borrow money from you, visit you without being asked, tell people they belong to your family, contest your will, even fall in love with you, and a cousin once removed is twice as apt to. Never completely trust a cousin; never depend on his not doing any of these things; never take him for granted. The "cousinly kiss" may or may not mean what it means, and cousins always do kiss. It's part of being cousins.

Not that cousins need necessarily prove perilous. Once in a blue moon they invite you to Europe or leave you money, but that almost takes an aunt or uncle.—Atlantic.

Never ask a friend for a candid opinion unless you are sure you want it.

DEATH OF MR. P. D. DORAN AT KINGSTON

Had Conducted Clothing Store in Peterboro

The death occurred in Kingston on May 4th, of a one time resident of Peterborough in the person of Patrick Daniel Doran, at the family residence, Barrie street. The deceased gentleman was in his seventy-second year, and when a young man came to Peterborough. He conducted a clothing establishment with a Mr. Gibbons on the site where the present Bank of Ottawa now stands. On the retirement of the latter Mr. Doran carried on the business alone for some time. He left Peterborough about twenty years ago, and was in the civil service at Ottawa for some time. Of late, however, he had not enjoyed good health, and the end came quietly in Kingston on Saturday last.

The funeral was held in Kingston on Monday of this week.

MILLINERY

Our latest shipment of high-grade Millinery for summer wear has arrived and is now ready for your inspection at the Peterborough Millinery Parlors. Mrs. W. B. ARMSTRONG, 435 George St. Upstairs in old T. A. S. Rooms.

Funeral To-morrow

Arrangements have been completed for the funeral of the late Samuel Adams, whose body is expected to reach the city from Edmonton tomorrow morning on the 11.35 C.P.R.

The service will be held at the residence of Mr. Frank Adams, 50 Robinson street, and the cortege will proceed to Little Lake Cemetery. Rev. F. J. Sawers will officiate.

Chimney Fires

The fire brigade was called upon to answer an alarm yesterday at 12.15, a chimney fire at the home of Mr. Wm. Keller, 109 James St., being the cause.

A chimney fire at 488 Sherbrooke street, the residence of Mr. Thomas Grimison, gave the fire brigade a run at 8 o'clock this morning.

LOCAL NEWS ITEMS

In addition to the names published yesterday, W. H. Bonus was successful in passing first year examinations in electrical engineering at the School of Practical Science.

Bright Liners on Athletic Topics

ARMSTRONG OF THE CENTRALS KNOCKED OUT FIRST HOME RUN

Good healthy batting marked the games in the junior series of the Public School League, yesterday afternoon, and the prize for the first home run, of a glove or pair of baseball shoes offered by the Review, was won by Armstrong, who twirls for the Central team.

He made the circuit wallop in the first innings against the King Edwards. It was well he clouted thus early in the game as Howard Hall, pitcher and third baseman of the Queen Alexandras, hit for the round trip in the second innings, and towards the close of the contest Percy Johnston added another to the record of his team.

It has been decided however, that as the two homers came so closely together and the fact of Hall being prevented from making the home run in a previous game, through being accidentally tripped, each player may take his choice of the baseball goods by applying in person to the Review office.

SOUTH CENTRALS LEAD JUNIOR SERIES WITH THREE STRAIGHT WINS

In the junior series of the Public School Baseball League yesterday afternoon the South Centrals continued their winning way and are perched on the top of the league standing with a clear sheet.

West Wards occupy the ground floor, but the youngsters from Principal Roszel's school are unable to bat or throw the ball, as do the other teams, they being the youngest and lightest nine in the league. It is their first season at the game.

The Queen Alexandra aggregation walked away from the West Ward baseball team. The pill-pounding started at the very first innings, the Queen Alexandra bunch annexing ten runs. The final score was 42—10, with the North Ward team on top.

In the game there were two home runs handed out, one by Hall in the second, and one by Johnston in the 5th. The slugging all the time was heavy, and the fielding inclined to be wobbly.

The batteries were:

West Ward—Thompson and Fallis.

Queen Alexandra—Hall and Ecobichon.

The clash between the King Edward and Central School teams was a fair exhibition of baseball. The fielding of both sides was steady, although at times the batting was strong. The Centrals came out ahead with a 16—11 score.

Up to the last of the seventh the game was even, the score being 11—11. In the next innings the King Edward boys went up in the air and the Centrals pounded the sphere for five runs. This innings lost the game for the Royalty.

Armstrong, for the Centrals, clouted a home run in the first innings.

The batteries were:

King Edward—Williams and Taylor.

Central—Armstrong and White.

The South Central nine swamped the East City team, ending the game with a 17—3 score.

The batteries were:

East City—Anderson, Phillips and Nellist.

South Central—Bartlett and Soden.

JUNIOR STANDING.

South Central	3	0
Queen Alexandra	2	1
Centrals	2	1
King Edward	1	2
East City	1	2
West Ward	0	3

BREEZES FROM THE DIAMOND

The regulars and Yannigans of the Peterboro White Caps, played their first practice game yesterday afternoon at the Oval. Schaeffer pitched good ball for the regulars and had the batters guessing all the time. He allowed but two passes and struck out ten.

Derr and Bartlett were on the mound for the Yannigans, Bartlett relieving Derr in the seventh. Derr walked two and had five strike outs to his credit, while Bartlett struck out five and passed one, and hit two one of them being Trout, who was struck on the head and knocked into starland for a few minutes.

In the fourth innings, Brode, who caught for the Yans, knocked out a three sacker.

One of the features of the game was the double steal pulled off by Brode and Cresswell.

There were no holes in the regulars outfield, all the men covering ground at top speed. Johnson, the old Peterboro boy, played a good game for the Yannigans.

Baver was umpire until Trout was hurt, when he was relieved by Mr. Johnson of the Windsor Hotel.

Score 8 to 2 in favor of the Regulars.

The teams were—

Regulars—Schwartz, lf, Hartman 3b, Tully ss, Templin 2b, Dolan 1b Beard cf, Mooney c, Trout rf, Baver rf, Schaeffer p.

Yannigans—Scull 1b, Davis 3b, Ulmer 2b, Brode, c, Quinlan ss, Johnson lf, Cresswell rf, Bartlett cf, Derr p.

Sanitary cushions will be rented to the Ottawa fans for five cents each Loud sighs of relief from the umpires

Baseball postponements due to rain have cost the big league clubs nearly $200,000 thus far this season. Up to yesterday there has been twenty-seven postponements in the National League, and twenty-one in the American, and receipts so far this year are much below normal. Figuring on an average attendance of 6,500, the forty-eight unplayed games mean that the clubs are shy receipts from 312,000 persons.

Johnny Benzie, the local boy who returned from Peterboro, is not discouraged over his release, but claims that his experience there convinced him that he is fast enough for professional company. He may try to make good with some of the other teams if given a chance—Hamilton Herald.

Christy Mathewson says that the thing that breaks a pitcher's heart is the cry from the fans "take him out." But then, the work of some pichers nearly breaks the heart of even the most hardened fan.

A pro ball league is to be formed with some of the western Ontario towns included. Windsor and Sarnia are mentioned as likely to enter teams in a six club league with some of the Michigan towns near Detroit.

The teams of Cap. Feeney and Cap. Lipsett performed at the Oval yesterday afternoon in a junior interform league fixture, the game ending in a win for the latter by a score of 13-4. The work of O'Connell for the winners was particularly good in the pinches. The line ups were.

McBride p, Anderson c, Eakins 1b, Feeney 2b, Condin 3b, Wheeler s, McDonal r, Patterson l, Evans c.

O'Connell p, Frost c. Lipsett 1b, Carruthers 2b, Dixon 3b, May ss, McCarney r, Kirn l, Hopkins c.

Secretary Robinson has decided to issue the Canadian League schedule to-morrow, for publication.

The ball team, with the exception of the pitchers, had about two hours' practice this morning on signal work at the Y.M.C.A.

The White Caps could not practice this afternoon on account of rain. However they worked out at the Y.M.C.A. gymnasium at basketball and other stunts. They will be in good shape for to-night's game with the Y.M.C.A.

Big Legal Fee Bothers Indians.

Brantford, May 9.—Six Nations Indians are taking a vote as to whether payment of nearly $50,000 legal fees should be made or not to an Ottawa firm. The fees arose from a claim of the Indians which is still pending for $150,000 and interest. The amount was loaned to the Grand River Navigation Co., which became insolvent, and the Indians believed it should be made good. The amount used was taken by the Government from Indian trust money.

In order to be happy you must be able to forget things.

WHY A WATCH WEARS OUT

Neglect is responsible for most Watches going wrong. A Watch should be thoroughly overhauled, at least once a year. Dust collecting in a Watch causes it to run dry, the grit will then wear away the delicate bearings. If you own a good watch, better be on the safe side — Bring it to our Repair Department where it will receive Skilled Attention.

FENIAN RAID VETERANS

It is necessary that those Fenian Raid Veterans throughout the county who saw active service, and wish to apply for the government grant of $100, should send in their applications without delay.

Information to be sent to "The Secretary, Militia Council, Ottawa," must consist of, name of corps; name and number of company; where he served, with name of commanding officer and time of service.

Such declaration must be signed by applicant and witness. Application forms may be had from Officers Commanding Divisions and Districts.

TOWER AT ALL SAINTS' TO BE COMPLETED

The largest meeting of the Advisory Board of All Saints' church in the history of the church was held last night.

The chief topic under consideration was that of proceeding with the tower and chancel of the new building.

It was decided to make all arrangements to commence the work and the following committee was appointed to attend to the matter:

The wardens, T. H. Dawson, J. Hogan and Messrs. T. H. Hooper, H. P. Morgan, Jas. Mulholland, Jas. Edgar and R. Denne.

The work of leveling the lawn and completing the cement sidewalk at the church is almost completed, and the Board feel that when all is finished the new church will be one of the most attractive in the diocese.

DELEGATES FROM PETERBORO WERE AT TORONTO

The annual meeting of the Women's Auxiliary of the Missionary Society of the Canadian Church was held in Toronto April 30 to May 4th, inclusive.

The meetings were opened on Tuesday by a conference of out-of-town delegates at St. Alban's school house, followed by a reception to delegates and their hostesses at the See House, where Bishop and Mrs. Sweeney received all those delegates who were fortunate enough to have accepted their kind invitation. There were some twelve delegates from Peterborough representing St. John's, St. Luke's and All Saints' churches. The meetings were largely attended throughout. All reports were most encouraging. The treasurer announced that the receipts for the year had been $22,331, and expenditure $16,683, leaving a balance of $5,648. There are 120 mission stations in the diocese and 37 missionaries. The extra cent a day or E.C.D. fund amounted to $2,014, which has been voted away monthly once to foreign missions, twice to mission in Peterborough diocese and nine times to Canadian missions.

The secretary-treasurer of mission work, Miss Middleton, resigned, and is succeeded by Miss Summerhayes.

On Thursday morning there was held an impressive communion service at St. James' church, when the sermon was preached by the Bishop of Algoma, and nearly 700 women from all parts of the diocese received communion. After lunch a most inspiring afternoon meeting was held, consisting of devotional addresses on different phases of the work. A most interesting paper on "Missions from a Child's Standpoint" was read by Mrs. Loosemore, a sister of Rev Canon Davidson.

The Literature Committee brought in a splendid report, that more books had been taken from the library than before, and more interest in missionary literature still more needed. Those branches who had held study classes were commended and encouraged to speak of their work. The text book for the coming year will be "The Island Empire of the Sea"—Japan—by Rev. Cooper Robinson, who has worked as a missionary in Japan, for 20 years, and is a nephew of Mrs. Isaac Robinson, of Peterborough.

A resolution of thanks to those hostesses who had so kindly entertained the delegates was moved by Mrs. Sawers of St. Luke's, Peterborough, and one thanking the diocesan officers for the inspiring program provided, was moved by Mrs. Davidson, of St. John's.

An interesting discussion on "Dorcas Work" was led by Miss Halson, Dorcas secretary.

Those desiring to contribute to bales for China must send contributions to the Dorcas rooms before August, and please include money for freight.

Anything for the Arctic mission must be sent by 1st June. A summer school will be held at Trinity College School, Port Hope, in July 2 to 9, when it is hoped many interested in mission work will attend.

OBITUARY

Mrs. T. Kennedy

From an attack of heart failure, Mrs. T. Kennedy, formerly of Peterborough, passed away at the General Hospital, Toronto, on Sunday, May 5th.

Two daughters are left to mourn the loss of a kind and loving mother. The remains were sent to Belleville for interment.

U. S. Congress has authorized the coinage of 3 cent and half-cent pieces to encourage economic buying.

PORTER'S SLAYER HAS NEVER USED WHISKY OR TOBACCO; READS RELIGIOUS BOOKS

Arthur Ellis, who shot and killed Lewis Porter, now occupies a cell in the Lindsay county jail, being brought from Minden yesterday by Constable Welch. It was the fourth occasion on which Constable Welch had brought a prisoner charged with murder to Lindsay, during the past twenty-five years.

The Lindsay Warder says:

After arriving in the Governor's office, Constable Welch produced a key for the hand cuffs and they were taken off Ellis' wrist, while "Heck" was given a cushioned seat. As he sat down and Governor Balfour produced his long entry book, and began to ask him questions, the prisoner seemed to regain perfect self-control, answering the questions in a perfectly straightforward manner, and without the least hesitation. "Heck" is possessed of a high-pitched voice, his enunciation is clear and distinct and language fairly good.

HAD NO RELIGION.

Governor Balfour—"What township do you live in?"

Arthur Ellis—"In the Township of Lutterworth."

"What is your occupation?"

"A farmer."

"What is your nationality?"

"A Canadian."

"What is your religion?"

"I have no religion," replied Ellis.

Governor Balfour—"Yes, but what church did your parents attend?"

"They were members of the Baptist church, but although I attended the Baptist church I was not a member."

"How old are you?"

"Thirty-six years."

"Are you temperate or intemperate?"

"Temperate, I have never used tobacco or whiskey."

"Were you ever committed to jail before?"

"No, sir."

READ RELIGIOUS BOOKS.

At this stage Chief Chilton and Turnkey Ashman made a thorough search of the prisoner's clothes which were quite scanty, but the search revealed the fact that Ellis appeared to be of a religious turn of mind. Two small books were found which at once caught the attention of the Warder man. They were entitled, "Tales of Adventure from the Old Book," and "Probable Sons," contained several short Biblical stories and the books were well thumb-marked, showing evidence of having been much read.

Among the short stories therein three in particular arrested the attention of Governor Balfour, namely "David and Goliath," "The Prodigal Son" and "How the Jail Bird, turned out to be a Bird of Paradise."

ANNUAL CONVENTION PETERBORO DISTRICT EPWORTH LEAGUES

The seventeenth annual convention of the Peterborough District Epworth Leagues and Sunday-schools, will be held in Lakefield Methodist church on Wednesday, May 15th. A glance at the program which follows, indicates that first class speakers have been secured and a highly successful convention is anticipated.

The program is as follows—

AFTERNOON SESSION

2.00 p.m.—Devotional exercises; Rev. C. H. Coon; report of Sunday school Secretary; report of Epworth League Secretary; election of Nominating Committee.

2.30 p.m.—The Place and Value of the Epworth League as a Spiritual Agency; Miss Pearl Burnham.

Music.

3.00 p.m.—Address; Dr. W. E. Smith Chentu, China; representative of Peterborough and Cobourg Districts.

Music.

3.45 p.m.—Address; Rev. F. L. Farewell, B. A., Associate Secretary of Epworth Leagues.

EVENING SESSION

8.00-8.10—Devotional exercises; Rev. G. W. Henderson, Hon. President. Report of Nominating Committee.

8.15-8.40—Address; "Good Citizenship," Rev. Mr. Farewell, B. A.

Music.

Address by Rev. Isaac Couch, M.A., B.D.; "The Inspiration of the Old Testament.

Each League is asked to send at least two delegates. Secretaries will kindly forward names of delegates to be billeted to Rev. C. H. Coon, Lakefield.

Rev. J. G. Brown, President.
Chester J. Frowde, Secretary.

STRENUOUS WAR ON WHITE PLAGUE

Campaign Well in Hand—District Nurse Will Soon be in The Field

(By Roy Gilray.)

"Count that day lost, whose setting sun,
Finds at thy hands no good thing done."

The Peterborough Health Association is engaged in a battle against the spread of tuberculosis that should have the hearty endorsation and sympathy of every citizen with the interests of humanity at heart. They are endeavoring to stop the useless waste of life by this terrible disease, and if system and enthusiasm count for anything, then the Association should see splendid results within two or three years.

They purpose engaging a District Nurse, (thanks to the heroic efforts of the ladies of the City,) whose entire attention will be given to the care of those afflicted with consumption, and who need her services. She will visit homes where children may be exposed to tubercular infection, and will see that the conditions are such as to insure the children against contracting the disease. Lessons on ventilation, fumigation, etc., will be given, and the nurse will see that all possible precautions are taken to prevent parents from imparting the disease to their offspring.

There are a few consumptives who are fortunate enough to possess the money and patience to complete their cure in a Sanatorium, where they learn how to live, and then return to their families and homes to carry out the precepts of their treatment. Unfortunately the largest number of all cannot afford to attend a Sanitorium, even for a short time. It is to those, more especially, that the "Friendly Visitor" will come as an angel of light.

Then there are other reasons why a patient would prefer home treatment

The young father or mother cut off from the family must of necessity worry over the fate of those left at home in uncertain circumstances, and that must tell on digestion, appetite, and resisting power of the patient. The same individual cared for at home and assured that the family is being cared for is devoid of all this anxiety, and the benefits of this peace of mind outweigh the undoubted benefits of better air and food, and more constant attendance. It sometimes occurs that these large Sanatoria are so crowded and so sparingly provided with nurses that a patient is assured of more faithful attendance at home. And if we can gain these results at a small cost, the number of cases is so great that we have no choice but to support the more economical scheme.

Besides a Sanatorium at a distance can exercise little or no supervision over its patients once they are discharged, and they return to their scattered homes. It is by local activities directed towards the control of the disease in all its stages that the most good can be accomplished at the least cost to the individual.

Therefore the advent of a nurse, who shall devote all her time to the care of patients and education of the people, will be a great advantage to Peterborough, particularly to those who will need her attentions most.

It is no wonder the ladies are meeting with such success in their gigantic undertaking. Behind it all lies that spirit which prompts all good deeds; that unselfish love which every true citizen should bear towards those, who, through no fault of their own, are not in a position to help themselves.

"Comfort one another:
For the way is growing dreary,
The feet are often weary,
And the heart is very sad.
There is heavy burden-bearing,
When it seems that none are caring,
And we half forget that even we
were glad."

LAKEFIELD ITEMS

Lakefield, May 9.—Mrs. Harold Kidd, of Toronto, spent a few days last week as the guest of Mr. and Mrs. Arthur Kidd.

Rev. George Brown, of Peterborough, was in the village last week visiting his parents, Mr. and Mrs. J. Brown.

Miss Addie Wigg, of Peterborough, spent a few days in the village last week visiting friends.

Mrs. Hunter, Peterborough, spent Friday in the village visiting friends.

Miss Coon, of Peterborough, spent the week-end with her parents, Rev. Mr. and Mrs. Coon, in the village.

Mr. and Mrs. Lynn and Miss Ida, of Peterborough, spent Sunday in the village as the guest of Mr. and Mrs. Trude Waldon.

Mr. Horace Coon spent Friday in the village, visiting his parents, Rev. Mr. and Mrs. Coon.

Miss Mary Traill, who has been spending a few days in Toronto, returned to the village on Tuesday.

Mr. R. Flynn, of Havelock, is spending a few days in the village this week.

A very delightful evening was given to the members of St. John's Sunday school on Friday evening by the Sunday school teachers' staff on the Sunday school lawn.

A social was given in the Presbyterian church on Friday evening, under the auspices of the Sunday school.

A ball was given in the town hall on Monday by a number of young gentlemen of the village. The hall was beautifully decorated with flags, bunting and evergreens. There were a large number of dances and a number of extras. The closing waltz, "Home, Sweet Home," which was played by Miss Hunter, pianoist for the evening, told the guests it was time to depart.

The sale of farm stock implements etc., belonging to Mr. G. J. Jopling held at his farm in Ennismore on Thursday last, proved to be the largest ever held in this district and the auctioneer, Mr. R. H. Alford, realized top-notch prices for everything sold. Nine head of horses brought $2282.00 and the total amount of the sale was $4700. Mr. Jopling was well pleased with the way in which Mr. R. H. Alford handled the sale.

Mrs. J. Moore, who has been spending the past few months visiting relatives in the west, returned to her home. Mrs. Moore is very ill.

Mr. Roland Johnson of Port Hope was in the village on Thursday.

Mrs. W. L. Hurl and Miss Ruth, have been spending the last month in the village left on Wednesday for their home in Brandon.

Mr. A. Murduff, who is attending the Peterboro Business College, is spending a few days at his home this week.

Mr. Bert Page of Lindsay is visiting her parents in the village.

Mr. and Mrs. Wm. Cox who have been spending the past few months visiting relatives in Manitoba, returned home last week.

A regular meeting of the Beresford, L.O.L., No. 122, was held in the Orange Hall on Monday evening at eight o'clock.

Mr. W. H. White of Peterboro was visiting friends in the village last week.

While engaged in drilling a block of cement on Monday last, Mr. Richard Simpson had the misfortune to get the end of his little finger of the left hand taken off. The man handling the sledge, missed the drill with the result that the hammer came down with great force on his finger.

A very pretty wedding was solemnized in St. Peter's Cathedral, Peterboro at six o'clock Tuesday morning when Mr. Frank Young and Miss Ida Kearney, both of Young's Point, were united in marriage by Rev. Fr. O'Brien. The witnesses were Mr. F. M. Young and Miss E. Kearney, also of Young' Point. Mr. and Mrs. Young left for Toronto and other points west, and on their return east will reside at Young's Point.

Mrs. L. J. Labelle and family left on Wednesday for Sheldrake, Mich., where they will join Mr. Labelle and take up their residence.

Mrs. W. Srawford, who has been spending the last few months in the west, returned home last week.

OFFICERS FOR NICHOLL'S OVAL TENNIS CLUB

The annual meeting of the Nichols Oval Tennis Club was held last Tuesday night and the officers for the coming season were elected as follows:

President—Dr. J. E. Middleton.
Vice-Pres.—Mr. Gates.
Secretary—Miss J. Lightfoot.

The Executive Committee was drawn up as follows:

The officers, and Miss Perrin, Miss Stubbs, Mr. Perrin and Mr. Kerr.

The reports of the various committees were presented and showed that the club's finances were in a flourishing state and that a great deal of interest and enthusiasm was displayed last year in the club. A number of new members were received into the membership of the club.

The prospects for a banner year this season in the tennis game are better than ever before and it is expected that the club will have a successful summer. The tennis enthusiasts hope to be allowed to play on the Oval this week.

A liberal-minded man is one who thinks the way you do.

The will of the late Mayor Arthur Butt of Washington lost on the Titanic, asked for interment in the soldier's cemetery at Arlington that his name should be perpetuated in that historic spot.

Never Have Handsomer RUGS Than These Been Bought in Peterboro'

Their patterns are rich, elegant and artistic; their colorings are quiet or gorgeous—showy or neat; their general appearance is of patrician refinement and elegance.

Axminster, Wilton, Brussels, Velvet and Tapestry Rugs are included in this splendid collection—our own importation from several makers whose names have long stood for best in rug-making.

We want you to critically examine these rugs, to judge them by the severest tests. When you do this you'll realize why we ourselves are so enthusiastic over them!

The Moderateness of Prices is Another Important Feature of These Rugs.

RICHARD HALL & SON

LUMBER

And builders' materials of all kinds—Shingles, Scantlings, Joist and Bill Stuff—Mouldings, Casings and Base and all kinds of finish. Boxes and Box Shooks.

ALF. McDONALD ESTATE
Point St. Charles Mills

When Does a Man Need Life Insurance?

When he comes to die. Nine men out of ten, no matter how prosperous thay may have been during some period in the past, will leave no other estate, or at least not enough of other assets to save their families from pinching poverty.

He needs life insurance before he dies, as, for example, when he finds himself no longer insurable. He knows he needs it when he cannot get it. He always intended to take insurance, or to add to the amount he already carries, but he deferred too long. Procrastination is the robber of widows and orphans.

He needs life insurance now—all he can possibly carry. He needs it now because to-morrow, or next month, or next month, or next year, by reason of accident or disease, he may be unable to get it.

He needs it because he is poor; or because, if fairly well to-do, he would yet not leave such a provision for his family as he would like to leave, if he were suddenly taken away.

He needs it because, though he may be rich, he knows that riches often "take themselves wings." He needs it because, being rich he is able to pay for it, while a little later he may be unable to pay, or unable to get it even if he can pay.

He needs it because he can buy it cheaper to-day than ever he can in the future. He must have it sometime, and every year adds to the price that he will have to pay.

You will find the most up-to-date policy of to-day issued by THE SUN LIFE ASSURANCE COMPANY OF CANADA.

NORWOOD NEWS

Special Correspondence.

Norwood May 7.—The Board of Education met on Monday evening of this week in the High School at 8 o'clock with the following members present:

Messrs. D. McNaughton, W. H. Cuthbertson, E. P. Cuffe, Thos. Burknell, J. Doherty, E. C. Squire, J. L. Elliott, F. Anderson, C. E. Pakenham.

In the absence of the chairman it was moved by Mr. MacNaughton, and Mr. Cuthbertson, that Mr. Cuffe occupy the chair.—Carried.

Mr. Cuffe reported that Miss Lees had been engaged to teach in Miss Kirkpatrick's room until October at the same salary as the other assistants.

Mr Doherty reported that fence posts had been purchased from Mr. Baskin for the fence att he Agricultural plot at a cost of $4.15.

AA bill was presented by Mr. W. C. Doughty for fixing the pump, the amount being one dollar.

Moved by Messrs. Anderson and Squire, that the above account be referred to the Property Committee, and if found correct, paid.—Carried.

Moved by Messrs. Cuthbertson and Squire, that the chairman be requested to investigate the matter of examination fees in the lower forms in the high school, and report at the next meeting of the Board.—Carried.

The local branch of the Bank of Toronto, has completed arrangements with Mr. J. L. Squire for the erection of suitable bank premises for the village. Mr. Squire intends to commence operations at once for the erection of a handsome bank building adjoining his store on Peterborough street. The new office, which will have a frontage of 32 ft. and extend 37ft. to the rear, will be built on up to date lines. The construction will be of stone for the first storey with the upper storeys of brick and no pains will be spared to have it of a very imposing appearance. The interior of the building will have every accommodation for the convenience of its customers and altogether will be a credit to the village as well as to the owner and to the occupants.

Mr. D. N. King, who has taken over the lease of the Norwood House, has had men employed for the past week overhauling and renovating the premises and is installing everything new and modern for the accommodation of his guests. The house has been practically closed during the past week but will be opened this week.

Mr. Earl Fry, who has been employed in the tinsmithing department of Mr. Rork's store here, for the past few years, left last week to take a position in Norwich, Ont. Previous to his departure Mr. Fry's boy friends tendered him a banquet at the White Restaurant.

Mr. Daniel Rodgers, who was taken to the hospital in Peterborough last week as a result of the accident in the J. Finlay & Sons' factory, is reported to be progressing favorably.

The Village Council purchased a Karn Piano last week from Mr. John Hendren for use in the Town Hall. This will fill a long felt want, as parties renting the hall had always to pay an additional rental of five dollars for the use of a piano which was usually supplied by Mr. Hendren.

People who are fond of fishing are having plenty of sport just now gaffing suckers in the creek which appears, from the numbers being taken, to contain an almost unlimited supply.

Mr. John Baskin is pushing along his hotel building on Colborne St., the walls having almost attained to the top of the second storey. By the end of this week he expects to have the roof almost completed.

Mr. White has his block of stores ready to commence the brick work, and intends pushing it along as speedily as possible.

McClary's

Why Should McClary's "SUNSHINE" Furnace be called "The Understudy of the Sun?" Ask the McClary Agent of your locality—he knows.

APSLEY NEWS

Special Correspondence.

Apsley, May 8.—Mr. Alfred Smith, who still remains in very poor health, was taken to Lakefield on Friday last for treatment.

Mr. and Mrs. James McIlvena spent last Sunday at Mr. Esau Tucker's.

Friday last was observed as Arbor Day at the school and was spent in planting trees and cleaning up the yard and otherwise beautifying the school grounds.

Miss Iva Windover entertained her little friends at a birthday party last Saturday.

Mr. and Mrs. Alexander McColl and Mr. and Mrs. Wellington Lean attended the oyster supper held in the Lasswade Cheese Factory last Friday evening.

Miss Alberta Wilson was the guest of Miss Charlotte Tucker last Staurday.

The Ladies Aid Society held their monthly meeting at the home of Mrs. Abner Windover last Thursday.

Miss Alice McFadden, of Burleigh, visited friends in the village last week.

Mrs. Wm. Staples was the guest of of Mrs. Simon Windover last Friday evening.

Nearly everyone spent a day suckerfishing last week and came home abundantly supplied.

Miss Mildred Hales left on Tuesday last to take charge of a school at Rose Island.

The honor roll for No. 2, Anstruther for April:

Class IV.—Harold Tucker.
Class III.—Melville Tucker, Walter Tucker, Freddie Mann.
Class II.—Roland Tucker.
Class I.—Maudie Tucker, Charlotte Tucker.
Regular attendants—Melville Tucker, Charlotte Tucker.

Homeseeker's and Settler's Train to Camrose, Edmonton and Western Canada.

Via Chicago and St. Paul, will leave Toronto 10.30 p.m., Tuesday, April 30th, via G. T. R. System, for Camrose, Edmonton and points in Manitoba and Saskatchewan. Stopping at all points on Grand Trunk Pacific Railway, west of Winnipeg. Through coaches and Pullman Tourist Sleepers will be carried, fully equipped with bedding and porter in charge. Berths may be secured in these cars at a low rate. This is an exceptional opportunity for those wishing to take advantage of the remarkably low one way settlers rates or round trip homeseekers' excursions through the American cities, no change of cars. Full particulars, berth reservations, etc., from any Grand Trunk Agent, or write A. E. Duff, District Passenger Agent, Toronto.

Dr. de Van's Female Pills

A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. **Dr. de Van's** are sold at $5 a box, or three for $10. Mailed to any address. **The Scobell Drug Co., St. Catharines, Ont.**

Sold by the Warne Drug Co., Limited.

Points for Mothers

Fresh Air For the Children.

One hour of bad air will do more harm than good air for the other twenty-three will undo; therefore keep the room well ventilated every moment of the day, vs the Woman's Home Companion. If the rooms are large and open into each other one or two windows in the proper place will furnish fresh air for the whole house. In a small apartment we must select one room where the windows may be opened top and bottom and from which the fresh air may circulate without causing too much of a breeze or draft. At any cost keep the air good night and day.

The temperature of the room should be 65 to 70 degrees F. A thermometer should hang in the rooms that are most frequented by the children and at the height of their heads. Overheating is the commonest error in the city. Perhaps the most usual mistakes in the country are drafty rooms and floors and cold halls.

Babies, beginning at six weeks, should be taken out for their airing once a day and later two times—in winter when the sun is high and in summer when it is coolest. At six weeks an hour a day is sufficient; at six months three or four hours is a necessity; after that the more the better.

The sun should not shine into the unprotected eyes.

The only objection to going out is extremely cold weather (below zero), rain or snow and possibly sharp winds. When this outdoor airing is impossible the baby should be dressed for the street and put in the carriage close by the widely opened windows in the sun. In the city it is as necessary to have a carriage for the baby as it is to have a bed.

The sleeping room should have one or more windows wide open at top and bottom throughout the year. The bed should be as far away from the windows as possible, in a corner out of the direct draft. A blanket may be pinned around the crib when the winter winds blow directly upon it. The room should be cold and the night clothing warm. This does not apply to sickly infants nor to those under six weeks of age. However, the delicate child often requires fresh air even more than the well child. The appetite is improved and the strength increased by good pure air. Sleep also is often induced by the airing. Many a sick child who will not sleep in the house immediately sinks into a restful slumber as soon as he is put out in his carriage. Of course there is no objection to sleeping out of doors in sickness or in health.

Children's Habits.

Habits that are formed during the first year of a baby's life remain with the child for many years; therefore it is important for mothers and nurses to take care to establish good ones.

During the first few months a baby should live as much as possible by clockwork. Habits should be absolutely regular. Food should be given at the same hour each day, not a few minutes earlier because he cries for it or a bit later because he happens not to cry and mother is busy with other duties, but on the stroke of the hour prescribed by doctor or trained nurse.

He should be put to sleep at the same time every day, the nap hour being as regular as the hours when nourishment is given.

If medicine is ordered, this must be given according to the physician's directions.

Mothers are very apt to give medicine, especially soothing remedies that relieve colic pains or quiet a teething child, whenever fretful baby cries with pain.

This is not only wrong, but also very dangerous, and sometimes results in serious illness or death.

Teach him that when mother says "No" she means no; that when he is told to do something he must do it at once, cheerfully, without fret or worry. Very young children can be taught to be orderly, to fold their clothes neatly on a chair, to put shoes away in the closet and to pick up toys that have been scattered about the nursery. They can also be taught at a very early age to be clean about their person. When little hands and faces are soiled or sticky with sweets have them washed at once.

Teach them to use a handkerchief and that the towel is the proper article to dry wet hands on.

Of course train the children to be truthful. Little fibs of childhood, if overlooked, develop into dangerous lies as the child grows older.

In all things establish good habits in your children while they are young.

Grotesque Toys.

The penchant for toys that are worse than grotesque is ever increasing and worse things have succeeded to the Golliwog and the Teddy Bear.

In fact, it seems that the last invention must be just the limit, a sinuous monkey that hops about in a lifelike fashion that is revolting.

Another toy which is calculated to give a nervous woman fits—the extremely realistic rat which is formed by a skin slipped over the hand and deftly maniplated.

We have a wholesome fear of the rodent in this capacity, even if we do not at all mind cuddling it round our neck and calling it ermine.

Harry Lauder, the Scotch vaudeville performer, is seriously ill of an internal ailment caused by overwork in London.

SICK DAUGHTER NOW WELL

Mrs. C. Cole Tells How Her Daughter Was Restored to Health by Lydia E. Pinkham's Compound.

Fitchville, Ohio.—"I take great pleasure in writing to thank you for what your medicine has done for my daughter.

"Before taking your medicine she was all run down, suffered from pains in her side, could not walk but a short distance at a time, and had severe pains in head and limbs. She came very near having nervous prostration. She had begun to cough a good deal and seemed melancholy by spells. She tried two doctors but got little help.

"I cannot find words to express my gratefulness for what Lydia E. Pinkham's Vegetable Compound has done for my daughter. She feels and looks like another girl since taking it, and I shall always feel that I owe you a great debt.

"You can use this letter for the benefit of others if you wish, as I shall always recommend your medicines for female troubles."—Mrs. C. COLE, Fitchville, Ohio.

Hundreds of such letters from mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished have been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

Young Girls, Heed This Advice.

Girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound.

PILES CURED IN 6 TO 14 DAYS

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for Wharf or Retaining Wall at Owen Sound, Ont.," will be received at this office until 4.00 P.M., on Tuesday, June 4, 1912, for the construction of a Wharf or Retaining Wall at Owen Sound, Grey County, Ont.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department and at the offices of J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont.; H. J. Lamb, Esq., District Engineer, Windsor, Ont., and on application to the Postmaster at Owen Sound, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, April 20, 1912.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—20529.

MAJORITY ON HOME RULE BILL SHOWS AN INCREASE

Second Reading of Momentous Measure Passes With a Plurality of 101 as Against 94 at First Reading—Welsh Disestablishment Bill Will Now Have the Floor for Some Time—Word Conservative Disappears.

London, May 10.—The Government carried the home rule bill on its second reading in the House of Commons last night by a majority of 101, as against 94 for the first reading. The vote was 372 to 271.

It was the most largely attended House of the present Parliament. Both sides had done their utmost to secure every available vote. Mr. Balfour, former Opposition leader, and Mr. Churchill, First Lord of the Admiralty, returned from Weymouth in order to be present.

The announcement of the figures showing an increased majority occasioned enthusiastic demonstrations on the Government side, and the Prime Minister was given a great ovation on leaving the House with his wife and daughter by the crowd assembled outside.

The bill was formally referred to a committee of the whole House, but as home rule and Welsh disestablishment are being taken concurrently, it will now be the turn of the Welsh bill. The committee stage of the home rule bill is not expected to be reached until after Whitsuntide and will probably occupy a couple of months even with a liberal application of the closure rules, as the Opposition are preparing an endless list of amendments and will adopt every possible means to obstruct the measure.

Curiously, the second reading of the home rule bill coincides with the disappearance of the word "conservative" as the official designation of the Tory party. A conference of the Conservative and Liberal Unionist parties yesterday resolved upon a fusion of the two parties under the title of "National Unionist Association." Thus the Liberal Unionists who seceded from Gladstone on his espousal of home rule now will become part and parcel of the Tory party.

Andrew Bonar Law, leader of the Opposition, assailed the bill fiercely. The Government, he said, was setting up customs houses not to create a union, but to destroy the union which already existed. He denounced the safeguards in the bill as utterly futile, condemned the financial provisions and drew a gloomy picture of Ireland's future under home rule.

Every new Parliament of inexperienced men, said the speaker, had tried to get the millenium in a hurry. The new Irish Parliament would launch all sorts of schemes for improving the condition of the country, borrowing money for the purpose. As a result the Imperial Parliament would become liable for a huge capital sum it would not have sanctioned and for expenditures over which it had practically no control.

In conclusion, the Opposition leader declared that the Government never could carry the bill through unless it was first submitted to the judgment of the country.

Premier Asquith wound up the debate for the Government in a brief and forceful speech which aroused great enthusiasm on the part of his supporters. No serious attempt, he said, had been made by the Opposition to meet the argument with which he opened the discussion—the character and persistence of the Irish demand. Had this demand been made under similar conditions by any community of their own race throughout the Empire, there was not a man on either side who would not say that it was entitled to consideration.

A demand so persistent, continued the Prime Minister, was one which a democratic Parliament in these days was bound to assent to. If the Irish vote were eliminated in the House of Commons, there still would be a majority of fifty or sixty for home rule.

MOTHER-IN-LAW IS THE BOSS

Toronto, May 10.—The late Thomas Fyshe, late general manager of the Merchants' Bank of Montreal, who died last November, left to his family an estate valued at $582,834. By his will, which was filed in the Surrogate Court yesterday, none of those who share in the estate can get married without the consent of the others. The will reads: "It is my wish and intention that my mother-in-law, Mrs. A. H. Leonowens, and all my family shall live together as long as possible, but when it may be necessary for any of them to leave the house owing to marriage, my trustees shall pay out of the estate $800 per annum. But I order and direct that no member of my family shall be free to marry without the consent of the others, including my mother-in-law, on pain of forfeiting all rights to any part of my estate."

Killed by Explosion.

Cleveland, May 10.—Three men were killed and twenty seriously injured by an explosion at the central furnace of the American Steel & Wire Co. here yesterday morning.

Will Install Searchlights.

London, May 10.—(C.A.P. Cable.)—One immediate result of the Titanic disaster is that the Canadian Northern Railway Co. will install electric searchlights on their ships.

Ambassador Resigns.

Berlin, May 10.—Count Paul Wolff-Metternich has resigned his office as German ambassador to Great Britain.

WIDOW OF TITANIC'S CAPTAIN TELLS OF SYMPATHY FOR OTHERS

WIDOW AND CHILD OF CAPTAIN SMITH OF THE TITANIC

Although Mrs. Eleanor Smith, widow of Captain Smith, commander of the Titanic, is overwhelmed with grief because of her personal misfortune, she has found time to send the following message:—

"To My Poor Fellow Sufferers:—

"My heart overflows with grief for you all and is laden with sorrow that you are weighed down with this terrible burden that has been thrust upon us.

"May God be with us and comfort us all. Yours in deep sympathy,

(Signed) ELEANOR SMITH."

A photograph of Mrs. Smith, said to be the only one in existence, shows her with her daughter Melville, now fourteen years old.

GERMANY TO END DUELLING

Berlin, May 10.—The Centrists yesterday introduced a resolution in the Reichstag asking the Imperial Chancellor, Dr. Von Bethmann-Hollweg, to take steps to end duelling in the army, particularly the practice that makes it compulsory for an offended person to challenge the offender or leave the army.

Pending this reform the resolution demands the observance of the imperial order of 1897, restricting duelling. The resolution will be adopted as the Clericals and Socialists demonstrated yesterday that they have a clear majority when co-operating.

Baby Crushed Under Wagon.

Brockville, May 10.—W. A. McElroy was driving to the factory with a load of milk and was leaving his own yard, when he heard a child's cry. He stopped his horse, and on looking around, was horrified to see his youngest son, Walter, under the hind wheel of the wagon. The little fellow was terribly crushed and only lived an hour after the accident. He was 2 1-2 years old.

Killed by Train.

Windsor, Ont., May 10.—The mangled body of Wm. Brown, 28, and unmarried, was found yesterday morning on the Pere Marquette tracks at Walkerville.

The Members of Marathon Lodge Knights of Pythias are requested to be at their Lodge Room at 6.30 Sunday evening, May 12th, to join together to attend Knox Church. Every member is requested to attend

BANK CLERKS SENTENCED

Vancouver, B.C., May 10.—Three years for John H. Robbie of the Imperial Bank, two and a half years for Maurice Cox of the Merchants' Bank, and two years for Alex. Strachan of the Merchants' Bank, were the sentences imposed yesterday by Magistrate Shaw on the three young bank clerks who Wednesday admitted defalcations from the two banks amounting in all to nearly $12,000.

Tribesmen In Revolt.

Casablanca, Morocco, May 10.—The tribesmen in the suburbs of Marakesh, one of the three capitals of Morocco, have broken out in revolt The Calif was assassinated and the tribesmen then pillaged the residences of the officials.

INCREASES GIFT TO $80,000

Toronto, May 10.—Having announced some weeks ago that he would contribute $60,000 towards the erection of the hospital for children at the Weston Sanitarium, W. J. Gage yesterday supplemented his gift by $20,000. He will give $80,000 to be used for the erection of a new wing at the Weston Consumptive Hospital, where children will be treated.

The National Sanitarium Association, which controls the Weston Hospital, has purchased nine acres of land near the present buildings for $16,000. This will be made into a park where patients at the hospital may enjoy the fresh air and sunshine. The corner-stone of the new children's wing, the gift of Mr. Gage, will be laid by the Duke of Connaught on May 27, when the mayor, representatives of the Board of Trade and others will be present.

REV. DR. BARCLAY RESIGNS POSITION

Montreal, May 10.—The members of the Protestant Board of School Commissioners were surprised at yesterday's meeting when Rev. Dr. James Barclay tendered his resignation as chairman of the board.

Dr. Barclay stated he was leaving Montreal on June 14, for Scotland, and would be absent all summer.

It was finally decided not to accept the resignation until a full meeting of the board on June 10.

White Star Admits Liability.

London, May 10.—The first compensation claim in connection with the Titanic disaster was made at Liverpool by a bedroom steward's widow in behalf of herself and five children. The company admitted liability yesterday and paid $1,500 into court, the maximum amount for which the company was liable.

Jailed for Sedition.

Manchester, Eng., May 10.—Tom Mann, the labor leader, was yesterday sentenced to six months' imprisonment for sedition. In a speech at Salford he advised soldiers not to shoot if called out for strike duty.

Will Extradite McNamara.

New York, May 10.—Judge Hand in the U. S. District Court yesterday dismissed a write of habeas corpus obtained by counsel for John McNamara, who recently was held by U. S. Commissioner Shields for extradition to New Westminster, B.C., on a charge of burglary. The complainant against McNamara was Chas. Fox, counsel for the British Government.

HOW GORDON MADE ESCAPE

Titanic Sailor Says Sir Cosmo Refused to Go Back.

London, May 10.—The escape of Sir Cosmo and Lady Duff-Gordon from the Titanic in lifeboat No. 1, which was less than half filled, was inquired into searchingly yesterday afternoon. Charles Hendrickson, a fireman of the Titanic, and one of the crew in the boat in question, on being asked why he did not return to the scene of the disaster to try and rescue some of those in the water who were crying for help, said that he suggested that the boat should return, but Sir Cosmo objected on the ground that it would be dangerous. Lady Duff-Gordon agreed with her husband, and the boat did not return.

Lord Mersey asked the witness: "You mean to tell me that because two passengers objected the rest of you kept your mouths shut and did not go to the rescue?"

Hendrickson replied: "That's right."

Witness said that Sir Cosmo Duff-Gordon gave each member of the crew of the boat five pounds, but he insisted that no arrangements to take effect had been made, and the first he heard of a reward was after the lifeboat reached the Carpathia.

TO INVESTIGATE "BLACK PERIL"

Cape Town, South Africa, May 10.—The color question was brought prominently to the front by the promise of the Premier, Gen. Louis Botha, made in Parliament yesterday afternoon, to appoint a commission to enquire into the "black peril" problem. The question has been increaseingly attracting attention in South Africa in consequence of the frequent assaults made upon white women.

Accused of Assault.

Niagara Falls, Ont., May 0.—William Shaver, aged eighteen, of St. Catharines, was arrested here yesterday for assaulting twelve-year-old Mildred Green, a Montrose farmer's daughter. He was remanded to jail for eight days.

Robert Sprott, aged 22, was last week sentenced to six months in the Central for a similar offence against the girl.

FIRE WIPES OUT GRAIN ELEVATORS

Special to the Review.

Brandon, May 10.—The Maple Leaf Milling Co's. two elevators here, with a joint capacity of seventy thousand bushels were completely destroyed by fire this morning.

THE MEXICANS ARE HARD AT IT

Rebel Front, near Bermejillo, Mex., May 10.—Skirmishing between the vanguard of Gen. Orozco's army and the federals under Gen. Huerta raged for hours yesterday through a storm of wind and dust on the desert plains in front of Torreon, the objective point of the rebels.

Operating from Escalon as a base, where Gen. Orozco and his staff are stationed, the Liberal forces continued to tighten their cordon around the heavily garrisoned and fortified federal outposts at Bermejillo and Mapimic, both less than twenty miles Torreon.

Though there was much skirmishing, no battle had been fought up to five o'clock last night, the federals refusing to be drawn from their strong positions. Notwithstanding the intense heat the men in the field are in good condition.

St. Kitt's Carries Bylaw.

St. Catharines, May 10.—By a majority of about 900 votes the ratepayers yesterday accepted the bylaw to bonus a plant to be erected by the Canadian Warren Axe and Tool Co., at the corner of Ontario and Carleton streets. The company is to be given a site free by the city. It covers four acres of land, which cost the city $4,000. It will also be given free water up to $200 yearly, and a fixed assessment of $5,000 for ten years. The company agrees to erect buildings costing $40,000, and to pay annually $20,000 to employes and operatives.

On June 5 the ratepayers will vote on a bylaw to grant a fixed assessment of $6,000 to the Ree Motor Car Co., which agrees to expend $100,000 on new buildings.

Louisiana Flood.

New Orleans, May 10.—Other than the rescue of marooned persons in the overflowed sections and the closing of an incipient crevasse at Illyria, near the mouth of the Mississippi River, the Louisiana flood situation yesterday was without incident. Workmen, in decreased numbers, were engaged at nearly all doubtful places between Natchez and New Orleans, taking advantage of the fair weather, in strengthening the embankments.

Rescuers, working near Lettsworth, have about completed their work and turned their attention to places more distant from the river. Water from the Terras crevasse rose three inches at Morgan yesterday. Railroads in that section are paralyzed by the washouts.

FOR THE BISLEY

The Commandant of the Riflemen Will Be Lt.-Col. J. W. DeC. O'Grady of the 96th Regiment, Winnipeg, and His Adjutant, Lt.-Col. Winter of Quebec — Twenty Men Are Named.

Ottawa, May 10.—The Dominion Rifle Association yesterday announced the official list of the Bisley team as follows:

Commandant—Lt.-Col. J. W. DeC. O'Grady, 90th Regiment, Winnipeg.

Adjutant—Lt.-Col. Chas. F. Winter, A.A.G., Quebec.

1.—Lieut. J. A. Steele, No. 1 Co., C.A.S.C., Guelph.
2.—Sergt. J. G. Battershill, 90th Regt., Winnipeg, City Engineer's office.
3.—Corpl. A. Rutherford, Q.O.R., 110 Bay street, Toronto.
4.—Pte. H. Auld, 90th Regt., 356 Bannatyne avenue, Winnipeg.
5.—Lt. A. M. Blackburn, 90th Regt., Winnipeg.
6.—Capt. J. C. Slater, 6th Regt., D.C.O.R., Vancouver.
7.—Pte. A. B. Mitchell, 19th Regt., 59 Concord avenue, Toronto.
8.—Sergt. E. McInnis, P.E.I.L.H., Cherry Valley, P.E.I.
9.—Sergt. J. H. Armstrong, 66th Regt., 6 Sarah street, Halifax.
10.—Corpl. J. H. Regan, 101st Regt., 566 Second avenue, Edmonton.
11.—Col.Sergt. J. Stoddart, 91st Regt., 439 Main street, Hamilton.
12.—Sergt.-Major W. L. Dymond, R.C.R., Halifax.
13.—Sergt. W. A. Smith, G.G.F.G., 185 Bolton street, Ottawa.
14.—Sergt.-Major E. MacDougal, 5th C.G.A., 638 Dallas road, Victoria.
15.—Corpl. G. Mortimer, 9th R.R., 32 Joan of Arc street, Quebec.
16.—Lieut. A. B. Maggs, 1,144 Haro street, Vancouver.
17.—Staff-Sergt. F. Richardson, 5th C.G.A., 550 Dallas road, Victoria.
18.—Capt. R. H. Kennedy, 7th Regt., Pictou.
19.—Lt. E. L. C. Forster, 3rd. F.C.E., 359 Cooper street, Ottawa.
20.—Pte. W. H. MacPherson, 78th Regt., Stellarton, N.B.

On the waiting list:

1.—Pte. W. Davidson, 90th Regt., Winnipeg.
2.—Sergt. W. Marsden, 90th Regt., Winnipeg.
3.—Corpl. G. Copping, 3rd V.R.C., Montreal.

SAVED LIFE; LOST HIS OWN

Special to the Review.

Viking, Alberta, May 10. — After descending into a gas-filled well yesterday and saving the life of W. Fitzpatrick, who was lying unconscious at the bottom, Frank Dayton, a young farmer lost his life after being pulled almost to the surface by his wife. Dayton had put his foot in a noose on the end of a rope, but was overcome by fumes before reaching the top. He fell back, being instantly killed.

PRIZE WINNERS AT THE O.A.C.

Guelph, May 10.—The following were the winners of prizes and scholarships at the Ontario Agricultural College for the college year 1911-1912: Valedictory, awarded to the second year student who composed the best thesis upon the subject assigned for the year—winner, G. S. Ayearst, Eastbourne, England. Prize of $10 in books, awarded to the student standing highest in general proficiency in first and second year work—winner, J. H. Nash, London, Ont.

Public speaking prize, second year—winner, H. M. Scott, Abbotsford, Scotland. Public speaking prize, third year—winner, G. J. Spencer, India.

Inspector-general's silver medal, awarded to the second year student standing highest in general proficiency in first and second-year work—winner, J. H. Nash, London, Ont.

Scholarship awarded on first-year work—Agriculture, Andrew Corry, Prince Albert, Sask.; biology, S. Smylie, Westholm, B.C.; physical science, M. T. Smith, Guelph, Ont.; English and mathematics, Q. McLaren, Vereenigine, Transvaal, South Africa.

Militia Reorganization.

Ottawa, May 10.—Winnipeg is to have a cavalry regiment, according to yesterday's Militia Gazette.

The old Prince of Wales Fusiliers, Montreal, is reorganized as the 1st Regiment Grenadier Guards. The 8th Regiment, Quebec, is to be reorganized. The 72nd Regiment will be known as the Seaforth Highlanders. The 29th Regiment will reorganize, with four companies, at Galt, and others at Preston, Hespeler, New Hamburg and Elmira.

The 11th Argenteuil Rangers are absorbed by the Duke of York's Hussars.

Will Be Tried at Once.

Toronto, May 10.—Charles Gibson will be tried at the present sittings of the assizes. He comes up in the police court to-day, the coroner's jury having already found a verdict of murdering Joseph Rosenthal against him. Even if he is not forthwith committed for trial from the police court, as it is altogether likely that he will be presented before the grand jury, now sitting, for indictment upon the plain story of Eli Dunkelman, as told at the inquest.

SERIOUS TROUBLE FEARED IN PENNSYLVANIA FIELDS; MINERS BUY WEAPONS

PREMIER ASQUITH.

He was given great ovation on leaving the house, after the Home Rule Bill passed its second reading.

One of the Men Injured In Wednesday's Riots Has Died and Feeling Is at a High Pitch Among the Foreign Laborers—Officers Fear That Men Plan to Draw State Police Into an Ambush.

Philadelphia, May 10.—The feeling of bitterness engendered among the foreign-speaking miners of Minersville, when three of their countrymen were shot by the state police during a riot, was further intensified yesterday, when Michael Mullange, one of the trio, died.

That trouble is brewing is apparent from the amount of firearms being purchased by naturalized foreigners. Several dealers in Minersville have practically sold out and there is also a big demand for firearms in Pottsville.

Capt. Wilhelm of the state police says there is no way to stop the sale unless martial law is declared and the situation does not warrant such a step at present.

Officers of the state police fear that an attempt may be made to lead their men into an ambush along some of the mountain roads. They believe that the naturalized foreigners are distributing the firearms to their countrymen with this object in view.

Although Mullange was a stranger in Minersville, arrangements are being made by the foreign element to hold a big demonstration when his funeral takes place.

There has been no serious rioting in the coal field. Some women and boys marched to two washeries yesterday with the intention of driving the employes from their work, but were persuaded by union officials to return to their homes.

LONDONERS WITHOUT CLOTHES

Special to the Review.

London, May 10.—Thirty thousand east end tailors, male and female, have joined twenty thousand west end tailors, who struck some days ago. London is sweltering in a heat wave; thousands of light suits and costumes have been ordered and there is not a master tailor in London who can get the work out.

PRIVATE SALE OF HOUSEHOLD GOODS.
At 195 London-st. Unreserved sale of high grade household goods, must be sold quick. Call afternoons and evenings

Third Suicide In Family.

St. Thomas, May 10.—The body of Mrs. James Wallis, a widow, 65 years of age, was found in a well at Talbotville yesterday morning. She had been ill and her son had come from Saskatchewan to take her back home with him. This is the third suicide in the family.

Insurance Manager Dead.

Waterloo, Ont., May 10.—W. H. Riddell, assistant manager of the Mutual Life Assurance Co., died yesterday morning from apoplexy, after a few hours' illness.

He was born in Sparta, York County, August 18, 1837, taught school in the counties of Grey and Bruce, and in the '70's was in newspaper work in Toronto, becoming in 1876, joint owner and manager of The Toronto Tribune. He joined the staff of the Mutual Life in 1882 as secretary.

Belleville Man Leaves $86,000.

Belleville, May 10.—The will of the late F. R. Lingham of this city has been probated, and it shows that he left an estate of $86,000. The greater portion is bequeathed to his daughter, Mrs. S. D. Lazier of this city.

May Upset Sparkhall Will.

Kingston, May 10.—In order to have a will set aside, E. Gus Porter, K.C., M.P., Belleville, is in the city securing the evidence of Dr. Pollard of Toronto, who is serving a term in the penitentiary for a criminal operation.

Mr. Porter is trying to have the will made by the late William Sparkhall, Toronto, who died recently, leaving $85,000, set aside. He left the bulk of his money to this second wife, ignoring the daughter of his first wife. This daughter, Mrs. A. Hall, living near Belleville, is bringing action to have the will set aside. Pollard was the family physician. It is asserted that the deceased was insane at the time he made the will.

Almost a Catastrophe.

New York, May 10.—Robert J. Collier, the publisher, who is also president of the Aero Club of America, had a narrow escape from drowning yesterday as he went with Walter Brookins, the aviator, to convey to Rear Admiral Hugo Osterhaus an invitation to a luncheon of the Aero Club.

The crew of the warship and thousands of people gathered along Riverside Drive feared another catastrophe when the engine stopped suddenly, but Messrs. Collier and Brookins managed to use the planes so effectively in their 600-foot glide to the river that they escaped with a drenching.

A. G. MacKay Going West.

Owen Sound, May 10.—A. G. MacKay, former Liberal leader in Ontario, is out of the politics of this province. Such is the opinion of his closest friends throughout the riding of North Grey, and the facts apparently allow of no other conclusion.

Mr. MacKay, who left for the west about a month ago, has opened an office at Edmonton and began the practice of law. Already he has been engaged as counsel in an important litigation.

Mr. MacKay is expected to resign his seat shortly.

BOAT ARRIVALS

The Empress of Ireland of the C. P.R. line is due at Rimouski on Saturday night and Quebec Sunday.

The Teutonic of the White Star Dominion line, is reported 100 miles east of Cape Race at 5.30 o'clock, Thursday evening. Due Quebec Sunday morning, and Montreal Sunday evening or Monday morning.

The Empress of Britain of the C. P.R. line, passed Fastnet to-day. Due Liverpool 11 a.m., Saturday.

Inauguration of Port McNicoll Service and Opening of Upper Lakes Navigation.

The Canadian Pacific is now operating Great Lakes Steamship Express trains between Toronto and Port McNicoll on the following schedule, with first class coach and parlor car running through without local stops.

NORTHBOUND.

Leave Toronto 12.45 p.m., arrive Port McNicoll 4 p.m. Mondays, Tuesdays, Wednesdays, Thursdays and Saturdays, connecting with the Palatial C.P.R. Upper Lake Steamers, leaving Port McNicoll 4.00 p.m. on above days for S. Ste. Marie, Port Arthur and Fort William. The Steamer Manitoba sailing from Port McNicoll Wednessays will call at Owen Sound leaving that point 10.30 p.m.

SOUTHBOUND.

Leave Port McNicoll Sundays and Thursdays at 8.45 a.m., arriving Toronto 12.00 noon, and leaving Port McNicoll on Mondays, Tuesdays and Saturdays, at 12.00 noon, arriving Toronto 3.15 p.m.

Full particulars from any C. P. R. Agent.

MRS. ASTOR RETURNS TO BE WITH HER SON

MRS. AVA WILLING ASTOR

Mrs. Ava Willing Astor, the first wife of Colonel John Jacob Astor, has just returned to this country, accompanied by her daughter, Miss Muriel Astor.

Mrs. Astor declined to say whether she will attend Colonel Astor's funeral, or will wait here until his will is offered for probate. She would say only that she had come to New York to be with her son, Vincent Astor.

FRIDAY, MAY 10, 1912.

UNION LABEL

COMMAND OF THE AIR

Who will be mistress of the air? That is a new question among those who take an interest in military matters. France has an ambition to lead in the equipment of an air fleet, and her competitor in this appears to be Germany, which is at the same time making an effort to build up a navy to compete with the mistress of the sea. France has been a good start in building and equipping aeroplanes as is shown in an article in the National Review. That nation has 208 avions, or military aeroplanes, actually ready for use, and a total of 324 machines built, or building. These are divided into thirteen squadrons, eight field and five garrison squadrons. The military aviation unit is a squadron of eight avions in three sections—monoplanes, biplanes and multiplanes—plus a reserve section. It is estimated that at the end of the present year France will have between 500 and 600 machines built and in course of construction. Its rate of progress is an increasing ratio, with the intention of producing within next three or four years from 2,000 to 3,000 aeroplanes fully equipped and officered for war purposes.

It is unfortunate that so far the chief result of the advance in the science of aerial navigation has been another line upon which the nations compete in spending money to prepare for war upon each other, while the industries of these nations carry the burden.

DOCTOR DEAR

If a title is to be used commonly it should carry some indication with it as to why it was given and what it stands for. When a man is addressed as Colonel or Major it is known that he holds military rank, and His Worship occupies a magisterial position. But when a person is referred to as doctor, one almost requires plans and specifications to know why the appellation has been conferred. Once upon a time, if one heard a man called "doctor" one would feel fairly safe in calling upon him for medical advice, for doctors were nearly all physicians. Now, however, we have a plentiful supply of D.Ds, LL Ds., Ph. Ds., D. C. Ls., D.D.Ss., and degrees of various other combinations of the alphabet which give the wearers the right to be called doctors. Upon hearing or reading of "Dr. Smith" one is lost in speculation as to whether he occupies a pulpit, or practices the healing and operating art, or pulls teeth, or dabbles in electricity or metallurgy, or treats horses and cows, or teaches in a college, or is a rich man who has been honored by a degree in recognition of his gifts, or a politician, a novelist, a humourist, or some other prominent gentleman upon whom some University has conferred a degree to honor him or call attention to itself. This multiplicity of doctors of many different professions and callings is very confusing. Could not the Universities make use of other terms for their different degrees, and apply them in such a way that they would carry with them some fairly definite meaning?

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet mailed free.* **The Wood Medicine Co. (formerly Windsor) Toronto, Ont.**

NOTE AND COMMENT

The Winnipeg Tribune thinks that mental food should not be taxed. If a pure food list should also be applied, how the Liberal papers would be mutilated.

Five hundred saloon keepers in Chicago are going out of business, not because of legal compulsion, but because drinking is diminishing. Chicago must be adapted to the anti-treating rule to some extent.

The financial statement of Galt's first eleven months' operation of its Hydro-Electric Department shows that a net profit of $7,510 was made. Further capital expenditure is to be made to give the citizens better service, and the business will carry the increased expenditure without effecting the tax rate.

Mr. Edison, the electrical wizard expects to spend eight years and $3,000,000 in perfecting films for school room purposes. It is said that he has already had one made, which shows the process of chemical crystallization of certain substances. This is an indication of what the moving pictures may one day do for the student. A picture of a chemical process, magnified millions of times, should teach more and more impressively than text books.

A measure received a unanimous vote in the United States House of Representatives to authorize the coinage of a three cent piece and a one-half cent piece. Canada at one time had a three cent piece, and it was a nuisance. A half cent piece would be more useful in making accurate change, although perhaps, many people would prefer to lose a half cent occasionally than be bothered by handling farthings. If a half-cent coin were tried it would soon be ascertained whether it would be popular.

CIVIL SERVICE DISTURBANCE

A good deal of noisy and vacuous talk about "the axe" and "the operation of the spoils system" is coming from Liberal newspapers. The facts do not justify the exclamations. The cut is not deep enough for tears. Certain office holders who have made themselves obnoxious have been removed, on recommendations of members of Parliament. It may be that some of these have not deserved dismissal. But the number is small. On the contrary there are men still in office who did not wholly forget their Liberalism in the days of Laurier ascendancy. Assuredly wholesale dismissal, predicated in the term "spoils system," has not been made.

Indeed complaints arise amongst Conservatives that too few of the old employes were dismissed, that it is difficult for Conservative employes to secure promotion and that Liberal office holders still have the "pull" with the Administration. The Halifax Herald goes into the question with some thoroughness and not wholly without vigor. But surely it is time for this squabbling to cease. Patronage is a curse wherever it appears. Mr. Borden has already declared his determination to put the outside civil service on a competitive non-political basis, and assuredly the good work cannot be done too soon.

The idea of politicians and members of Parliament messing about with the civil service is objectionable, and grows more so every day. The country is sick of office peddling and one-horse espionage, of Patronage Committees and members' recommendations. In the past everything about a civil servant has been considered but merit. It is time to make merit the sole desideratum.—Toronto News.

$100 REWARD $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENNEY & CO., Toledo, Ohio.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

TELEGRAPHIC BRIEFS.

Bruno Damasie, an Italian, was convicted yesterday at the district court in Port Arthur, of the shooting and wounding of Jami Gratton, April 6, and sentenced to ten years in Stony Mountain.

A supply of the new $5 and $10 gold pieces of Canada has been sent to Vancouver, Winnipeg, Toronto, St. John, Halifax and Charlottetown. They are the first of the sort made at the Ottawa mint.

Col. Sir Henry Pellatt, C.V.O., Toronto, received the degree of D.C.L., honoris causa, yesterday afternoon from the University of King's College, Windsor, N.S., one of the oldest universities of Canada.

Mrs. William Gothe, her infant child, and a daughter of William Adair, a farmer, were drowned while attempting to cross the Pipestone River in the flood at the Parker crossing, near Elkhorn, Man.

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

Liverpool and Chicago Wheat Futures Close Higher—Live Stock—Latest Quotations.

CHICAGO, May 9.—Prospects that wheat acreage in the northwest would be curtailed caused the market to-day to recover nearly all of the loss, due to the government report on damage to the winter crop. Closing prices were strong, ⅜c to 1⅛c above last night. Other cereals, too, made a net gain—corn ⅛c to 1⅛c, and oats ⅜c to ⅝c. Latest trading, however, left provisions varying from unchanged figures to 7½c below.

Liverpool wheat closed ¼d to ⅛d higher than yesterday, and corn ½d to ⅞d higher. Paris wheat closed ¼c to 1c lower, Antwerp ⅜c lower, Berlin ⅜c lower, and Buda Pesth ⅜c higher.

Montreal Grain and Produce.

MONTREAL, May 9.—There was a slight improvement in the foreign demand for Manitoba spring wheat, but as the prices bid were from 2½c to 3¼c per bushel under cost no business was done. The demand for oats was better, and as bids in some cases were in line, sales of 50,000 bushels were made. Butter is steady under a fair demand. Cheese is firm and tending higher. Eggs steady with a brisk demand.

Corn—American No. 2 yellow, 88c.

Oats—Canadian western, No. 2, 54½c; do., No. 3, 50½c; extra No. 1 feed, 51½c; No. 2 local white, 50½c; No. 3 local white, 49½c; No. 4 local white, 48½c.

Barley—Manitoba feed, 64c to 65c; malting, $1.05.

Buckwheat—No. 2, 74c to 75c.

Flour—Manitoba spring wheat patents, firsts, $5.80; seconds, $5.30; strong bakers', $5.10; winter patents, choice, $5.25 to $5.35; straight rollers, $4.80; do., bags, $2.25 to $2.35.

Rolled oats—Barrels, $2.55.

Millfeed—Bran, $25; shorts, $27; middlings, $29; mouillie, $30 to $34.

Hay—No. 2, per ton, car lots, $18.50 to $19.00.

Cheese—Finest westerns, 13c to 13¼c.

Butter—Choicest creamery, 26½c to 27c; seconds, 25½c to 26c.

Eggs—Fresh, 23c to 23½c.

Eggs—No. 2 stock, 18c to 20c.

Potatoes—Per bag, car lots, $1.75.

Dressed hogs—Abattoir killed, $13.00 to $13.25.

Pork—Canada short cut backs, barrels, 35 to 45 pieces, $25; Canada short cut back, barrels, 45 to 55 pieces, $23.50.

Lard—Compound tierces, 375 lbs., 9¼c; wood pails, 20 lbs. net, 9⅝c; pure, tierces, 375 lbs., 13¾c; pure, wood pails, 20 lbs. net, 14¼c.

Beef—Plate, barrels, 200 lbs., $14.50; do., tierces, 300 lbs., $21.50.

Liverpool Grain Market.

LIVERPOOL, May 9.—Closing—Wheat—Spot firm; No. 2 red western winter, 8s 6d. No. 3 Manitoba, 8s 4d. Futures firm; May 7s 10⅝d, July 7s 8⅝d, Oct. 7s 7⅛d.

Corn—Spot steady. American mixed, new, 6s 8¼d; futures firm; May 6s 8⅛d, Sept. 5s 4⅝d.

Flour—Winter patents, 30s 3d.

Minneapolis Grain Market.

MINNEAPOLIS, May 9.—Close—Wheat—May, $1.16⅝; nominal; July, $1.16⅞; Sept., $1.08⅝ to $1.08¾; No. 1 hard, $1.19⅝; No. 1 northern, $1.17⅞; No. 2 do., $1.17; No. 3 wheat, $1.15.

Corn—No. 3 yellow, 77c to 78c.

Oats—No. 3 white, 54½c to 55c.

Rye—No. 2, 89½c.

CATTLE MARKETS.

Toronto Live Stock.

TORONTO, May 9.—The railways reported 55 carloads of live stock at the City Yards, comprising 493 cattle, 2012 hogs, 129 sheep, 138 calves and 2 horses.

Butchers.

A few fancy heavy weight cattle were sold, for butchers' purposes at $7.25 to $7.50, but probably not more than a load all told of this class; good butchers, $6.75 to $7; medium, $6.30 to $6.60; common, $6 to $6.25; cows, $3.75 to $6.25; bulls, $4.75 to $6.25.

Stockers and Feeders.

Feeders, 800 to 900 lbs., are selling at $5.75 to $6.25; stockers, 500 to 700 lbs., sell from $4.65 to $5.75.

Milkers and Springers.

Trade in milkers and springers was not as good to-day as it has been, and drovers who paid high prices for medium cows got hit hard. Prices ranged from $48 to $75 each, the bulk selling at $55 to $65.

Sheep and Lambs.

Wesley Dunn quoted sheep and lambs as follows: Sheep ewes, $5.50 to $6.75; rams, $4 to $5; yearlings, $7 to $8.50; calves, $3 to $7.50 per cwt.; spring lambs, $4 to $7 each.

Hogs.

Selects fed and watered sold at $8.85, and $8.50 to $8.60 f.o.b. cars at country points.

East Buffalo Cattle Market.

EAST BUFFALO, May 9.—Cattle—Receipts, 50 head; market slow, steady; prime steers, $8.25 to $8.60; butcher grades, $3.50 to $7.60.

Calves—Receipts, 150 head; market active and steady; cull to choice, $6 to $8.50.

Sheep and lambs—Receipts 3800; market active, lambs 25c higher; choice lambs, $8.50 to $8.75; cull to fair, $6 to $8; yearlings, $7 to $7.25; sheep, $3 to $6.75.

Hogs—Receipts 4250; market active; heavies, 5c to 10c higher; yorkers, $8 to $8.10; pigs, $6.65 to $6.80; mixed, $8.10 to $8.20; heavy, $8.20 to $8.25; roughs, $7 to $7.25; stags, $5.50 to $6.

Chicago Live Stock.

CHICAGO, May 9.—Cattle—Receipts, 2500; market slow; beeves, $6 to $9; Texas steers, $5.40 to $7.40; western steers, $5.75 to $7.60; stockers and feeders, $4.20 to $6.60; cows and heifers, $2.80 to $7.75; calves, $5 to $7.75.

Hogs—Receipts 16,000; market weak to shade lower; light, $7.30 to $7.75; mixed, $7.35 to $7.87½; heavy, $7.40 to $7.90; rough, $7.40 to $7.60; pigs, $5 to $7; bulk of sales, $7.60 to $7.80.

Sheep—Receipts 7000; market unsettled; native, $4.60 to $7.40; western, $4.90 to $7.50; yearlings, $6 to $8.25; lambs, native, $5.90 to $9; western, $6.25 to $9.75.

Cheese Markets.

BROCKVILLE, Ont., May 9.—The offerings at to-day's cheese board meeting were 1795 colored and 680 white. The sales were 1190 colored and 680 white, at 13¼c.

VANKLEEK HILL, May 9.—There were 151 boxes of cheese boarded and all were sold at 13 5-16c.

KINGSTON, May 9.—Cheese took a jump on the Frontenac board this afternoon. Two hundred boxes boarded sold at 13 5-16c.

ALEXANDRIA, May 9.—The first meeting of the Alexandria Cheese Board this season was held to-night; offerings were 160 cheese, of which 54 were colored. All sold at 13 5-16c. Four buyers present.

TENDERS FOR DREDGING

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Dredging Ontario," will be received until 4 P.M., on Monday, May 13, 1912, for dredging required at the following places in the Province of Ontario:—

Goderich, Napanee, Picton, Telegraph and Nigger Islands.

Tenders will not be considered unless made on the forms supplied, and signed with the actual signatures of tenderers.

Combined specification and form of tender can be obtained on application to the Secretary, Department of Public Works, Ottawa. Tenders must include the towing of the plant to and from the work. Dredges and tugs not owned and registered in Canada shall not be employed in the performance of the work contracted for. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

A separate cheque for each place for which a tender is submitted must accompany the tender. This cheque must be equal to five per cent. (5 per cent) of the amount of the tender, based on the approximate quantities set opposite the name of a place, but in no case must the cheque be for a less sum than $1,500. The cheque must be accepted, on a chartered bank, and payable to the order of the Honourable the Minister of Public Works. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works.
Ottawa, April 27, 1912.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—21812.

TENDERS FOR DREDGING

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Dredging, Sault Ste. Marie, Ont.," will be received until 4.00 P.M., on Monday, May 20, 1912, for dredging required at Sault Ste. Marie, in the Province of Ontario.

Tenders will not be considered unless made on the forms supplied, and signed with the actual signatures of tenderers.

Combined specification and form of tender can be obtained on application to the Secretary, Department of Public Works, Ottawa. Tenders must include the towing of plant to and from the work. Dredges and tugs not owned and registered in Canada shall not be employed in the performance of the work contracted for. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for five per cent (5 per cent) of the contract price which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 3, 1912.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—22457.

Cynthia's Chauffeur

By LOUIS TRACY

Copyright by McLeod & Allen, Toronto

I apologize, Fitzroy," she piped tremulously. "You are right. They have lost their way and met with some accident. How glad I am that I did not insist on your making straight for Bristol!"

Her unparalleled impudence won his admiration. Such a woman, he thought, was worthy of a better fate than that which put her in the position of a bought intriguer. But Cynthia was near, waving her hands gelefully, and executing a nymph-like thanksgiving dance on a strip of turf by the roadside, so Medenham's views of Mrs. Devar's previous actions were tempered by conditions extraordinarlly favorable to her at the moment.

She seemed to be aware instinctively of the change in his sentiments wrought by sight of Cynthia. It was in quite a friendly tone that she cried:

"Count Edouard is there; but where is his man? . . Something serioa is his man? . . Something serious feur has been sent to obtain help. . Oh, how lucky we hurried, and how clever of you to find out which way the car went!"

CHAPTER VI.

A Midsummer Night's Vagaries

Cynthia, notwithstanding that spirited pas seul, was rather pale when Medenham stopped the car close beside her. She had been on tenterhooks during the past quarter of an hour—there were silent moments when she measured her own slim figure against the natty Count's in half-formed resolutions to take to her heels along the Cheddar Road.

At first, she had enjoyed the run greatly. Although Dale spoke of Smith as a mechanic, the man was a first-rate driver, and he spun the Du Vallon along at its best speed. But the change from good macadam to none soon made itself felt, and Cynthia was more troubled than she cared to show when the French flier came to a standstill after panting and jolting alarmingly among the ruts. Marigny's excited questions evoked only unintelligible grunts from Smith; for all that, the irritating truth could not be withheld—the petrol tank was empy; not only had the chauffeur forgotten to fill it that morning, but, by some strange mischance, the supply usually held in reserve had been left at Bristol!

The Frenchman was very angry with Smith, and Smith was humbly apologetic. The pair must have acted convincingly, because each knew to a nicety how soon a gallon of petrol would vaporize in the Du Vallon's six cylinders. Having taken the precaution to measure that exact quantity into the tank before leaving Cheddar, they were prepared for a breakdown at any point within a few hundred yards of the precise locality where it occurred.

Cynthia, being generous-minded, tried to make little of the mishap. By taking that line she strove to reassure herself.

"Fitzroy is always prepared for emergencies," she said. "He will soon catch up with us. But what a road! I didn't really notice it before. Surely this cannot be the only highway between Bristol and Cheddar?—and in England, too, where the roads are so perfect!"

"There are two roads, but this is the nearest one," explained the glib-tongued Count, seemingly much relieved by the prospect of Fitzroy's early arrival. "You don't deserve to be pulled out of a dibculty so promptly, Smith," he went on, eyeing the chauffeur sternly.

"There's a village not very far ahead, sir," said the abashed Smith.

"Oh, never mind! We must wait for Miss Vanrenen's car."

"Wait?" inquired Cynthria. "What else can we do?"

"I take it he meant to walk to some village, and bring a stock of spirit."

"Oh, dear! I hope no such thing will be necessary."

From that half hint of latent and highly disagreeable developments dated Cynthia's uneasiness. She accepted Marigny's suggestion that they should stroll to the top of the slight hill just descended, whence they would be able to watch their rescuer's approach from a considerable distance—she even remembered to tell him to smoke—but she answered his livly sallies at random, and agreed unreservedly with his voluble self-reproach.

The obvious diuse of the road, a mere lane providing access to sheep inclosures on the hills, caused her no small perplexity, though she saw fit not to add to her companion's distress by commenting on it. In any other circumstances she would have been genuinely alarmed, but her well-established acquaintanceship with the Count, together with the apparently certain fact that Fitzroy and Mrs. Devar were coming nearer each second, forbade the tremors that any similar accident must have evoked if, say, they were marooned on some remote mountain range of the continent and no friendly car was speeding to their aid.

The two halted on the rising ground, and one of them, at least, anxiously into the purple shadows now mellowing the gray monotony of the plateau. The point where the Du Vallon left the main road was invisible from where they stood. Marigny had laid his plans with skill, so his humorous treatment of their plight was not marred by any lurking fear of the Mercury's unwelcome appearance.

"What a terrible collapse this would be if I were running away with you, Miss Cynthia," he said slyly. "Let us imagine a priest waiting in some ancient castle ten miles away, and an irate father, or a pair of them, starting from Cheddar in hot pursuit."

"My imagination fails me there, Monsieur Marigny," she replied, and the shade of emphasis on his surname showed that she was fully aware of the boundary crossed by the "Miss Cynthia," an advance which surprised her more than the Frenchman counted on. "At present I am wholly absorbed in a vain effort to picture an automobile somewhere down there in the gathering mists; still, it must arrive soon."

Then Marigny put forth a tentative claw.

"I hate to tell you," he said, "mais il faut marcher quand le diable est aux trousses* I am unwillingly forced to believe that your chauffeur has taken the other road."

"The other road!" wailed Cynthia in sudden and most poignant foreboding. It was then that she first began to estimate her running powers.

*"But needs must when the devil drives."

"Yes, there are two, you know. The second one is not so direct——"

"If you think that, your man had better go at once to the village he spoke of. Is it certain that he will obtain petrol there?"

"Almost certain."

"Really, Monsieur Marigny, I fail to understand you. Why should you express a doubt? He appeared to be confident enough five minutes ago. He was ready to start until we prevented him."

That the girl should yield to slight panic was precisely what Count Edouard desired. True, Cynthia's sparkling eyes and firm lips were eloquent of ken annoyance rather fear, but Marigny was an adept in reading the danger signals of beauty in distress, and saw in these symptons the heralds of tears and fright. His experience did not lead him far astray, but he had not allowed for racial difference between the Latin and the Anglo-Saxon. Cynthia might weep she might even attempt to run, but in the last resource she would face him with dauntless courage.

"I assure you I would not have had this thing happen on any account," he said in a voice that vibrated with sympathy. "Indeed, I pray your pity in my own behalf, Miss Vanrenen. After all, it is I who suffer the agony of failure when I meant only to please. You will reach Bristol this evening, a little late, perhaps, but quite safely, and I hope that you will laugh then at the predicament which now looks so ill-starred."

His seeming sincerity appeased her to some extent. In rapid swing back to the commonplace, she affected to laugh.

"It is not so serious, after all," she said,, with more calmness than she felt. "Just for a moment you threw me off the rails by your lawyer-like vagueness."

Drawing a little apart, she looked steadily back along the deserted road.

"I see nothing of my car," she murmured at last. "It will soon be dusk. We must take no more chances. Please send for that benzine right away."

Smith was dispatched forthwith on what he knew to be a fool's errand, since both he and Marigny were practically sure of their ground. The nearest petrol was to be found at Langford, two miles along the Bristol road from the fork, and four miles in the opposite direction to that taken by Smith, who, when he returned empty-handed an hour later, must make another long journey to Langford. The Du Vallon was now anchored immovably until eleven o'clock, and it was well that the girl could not realize the true nature of the ordeal before her, or events might have taken an awkward twist.

The Frenchman meant no real harm by his rascally scheme, for Cynthia Vanrenen, daughter of a well-known American citizen, was not to be wooed and won in the fashion that commended itself to unscrupulous lovers in by-gone days. Yet his design blended subtlety and daring in a way that was worthy of ancestors who ruffled it at Versailles with the cavaliers of old France. He trusted implicitly to the effect of a somewhat exciting adventure on the susceptible feminine heart. The phantom of distrust soon vanish. She would yield to the spell of a night scented with the breath of summer, languorous with soft zephyrs, a night when the spirit of romance itself would emparadise the lonely waste, and a belated moon, "like to a silver bow newbent in heaven," would lend its glamor to a sky already spangled with glowing sapphires.

In such a night, all things were possible.

> In such a night
> Stood Dido with a willow in her
> hand
> Upon the wild sea-banks, and waft
> her love
> To come again to Carthage.

Marigny had indeed arranged a situation worthy of his nurturing among the decadents of Paris. He believed that in these surroundings an impressionable girl would admit him to a degree of intimacy not to be attained by many days of prosaic meetings. At the right moment, when his well-bribed servant was gone to Langford, he would remember a bottle of wine and some sandwishes stored in the car that morning to provide the luncheon that he might not obtain at a wayside inn. Cynthia and he would make merry over the feast. The magnetism that had never yet failed him in affairs of the heart would surely prove potent now at this real crisis in his life. Marriage to a rich woman could alone snatch him from the social abyss, and the prospect became doubly alluring when it took the guise of Cynthia. He would restore her to a disconsolate chaperon some time before midnight, and he was cynic enough to admit that if he had not then succeeded in winning her esteem by his chivalry, his unobtrusive tenderness, his devoted attentions—above all, by his flow of interesting talk and well-turned epigram—the fault would be his own, and not attributable to adverse conditions. n It was nt surprising, therefore, that he failed to choke back the curse quick risen to his lips when the throb of the Mercury's engine came over the crest of the hill. Never was mailed dragon more terrible to the beholder, even in the days of knight-errantry. In an instant his well-conceived project had gone by the board.

To be continued

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

Is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.

Small Pill. Small Dose. Small Price.

SPRINGVILLE NEWS

Special Correspondence.

Springville, May 10.—Mr. Andrew Goodfellow spent Sunday with Mr. and Mrs. Geo. Gipson.

A number of our young people attended church at Fraserville Sunday night.

We understand that Mr. Walter Bowles intends setting a number of duck eggs. We all wish you success in your experiment, Walter.

Miss Katherine Hopkins and Miss Pearl Scobell were the guests of the Misses Reynolds over Sunday.

Miss Patterson of Peterborough, spent Sunday with Miss Eva Bisgood.

Mr. Charles Nixon, of Peterborough, was in the village Monday night.

We were pleased to see such a large attendance out to Sunday school, Sunday. We have had no Sunday school during the winter, and Rev. Dr. Marsh is doing all in his power to make this a banner year for Springville; eighty-two was the roll call Sunday.

We understand that a committee has been appointed to look after the cemetery and do some repairing.

Mrs. Harold Fry, of Bailieboro is spending a week with her sister, Mrs. Albert Reynolds.

Messrs. Stanley Armstrong and Tom Madill are busy practicing a duet for Sunday afternoon at three o'clock, at Fraserville, and we hope that all who can will make an effort to be present, as we are sure they will receive a treat.

Mr. John Marsh spent the week-end with his parents.

FINAL DANCE

The last of the social evening classes at the Conservatory of Music was held last evening, under the direction of Miss Ivy Coventry, who commenced the classes early in the winter. The classes met once a week and some very enjoyable evenings have been spent.

Last evening one of the largest classes of the season attended, about fifty being present.

The music so ably supplied by the Misses Gladman for the dancing, has been largely appreciated.

BABY FELL ON STOVE

Postmaster Says: "Zam-Buk Acted on the Burn Like Magic

Whenever you—or the children—sustain a burn apply Zam-Buk! Takes the fire out of burns like magic!

Mr. A. Summers, Postmaster of Gledhow, Sask., writes: "I would like to bear testimony to the wonderful healing properties of Zam-Buk. I have used it for some considerable time for cuts, bruises, etc., with excellent results, but the most wonderful cure in my experience happened recently when my little boy, two years old, fell from his chair on to a red hot heater!

"One side of his face and his ear were just frizzled. I dressed the burns liberally with Zam-Buk every day, and within two weeks the burns were healed. I was afraid my boy would be disfigured permanently, but the skin has grown beautifully, and there is no scar left. I always recommend Zam-Buk to my friends, and would advise everybody to keep a box handy."

Zam-Buk is just as good for cuts, bruises, poisoned wounds, scratches, ulcers, eczema, piles, festering sores, barbed wire scratches, etc., and all skin injuries and diseases. 50c. box. Druggists and stores everywhere, or post free for price from Zam-Buk Co., Toronto. Refuse harmful substitutes and imitations. Have you tried Zam-Buk Soap? 25c. tablet. Best for baby's tender skin.

Warned by the Titanic catastrophe, the Hamburg-American Steamship Co. has discontinued any self-insurance of its own ships, and has reinsured all the ships of the Hamburg-American line against total loss or serious wreckage.

Frank J. Bergs, vice-president and general manager of the St. Louis Coal Co., was killed, and three others were injured, when an automobile Bergs was driving was struck by a Missouri Pacific engine at Barrett Station, St. Louis County, Mo.

More than a dozen earthquakes were felt at Guadaljara, Mexico, at intervals from 6.30 o'clock yesterday morning up to 5.50 last evening. The last shock was the most severe, and several adebe houses were damaged. No injuries to persons were reported.

Hon. J. S. Duff, Minister of Agriculture, paid a visit yesterday to the Ontario Agricultural College at Guelph, accompanied by a Government architect who took a look over the grounds available for the location of new buildings to be erected soon.

SANOL

The new discovery will positively remove Gall Stones, Kidney Stones, Gravel in the Bladder, and will effect a complete Cure. It will dissolve and remove stones without pain, and there is no necessity for an operation in the future, as Sanol will cure in every case no matter how long standing the disease may be.

SANOL will be found particularly valuable in old cases of Kidney and Bladder diseases.

SANOL is a preparation of herbs and herb extracts, and contains no poisonous ingredients. It's use, therefore, cannot possibly harm either the stomach or intestines.

Sanol per bottle $1.50

Get it from McDERMID & JURY, Druggists, Peterborough, or direct from The Sanol Manufacturing Co., Winnipeg, Man.

The Cressman Store Offers Unparalleled "Saturday Bargains"

THE SATURDAY BARGAIN LIST

A COLUMN OF UNUSUAL INTEREST TO ECONOMICAL SHOPPERS.

Every housekeeper is busily engaged at present with the spring housecleaning which necessitates bright, new furnishings. Our housefurnishing dept., which occupies the entire third floor, is splendidly prepared to supply your wants and offers some particularly interesting Saturday Snaps to help you choose. Of unusual merit is our offering of fresh, new Curtain Nets at only 19½c a yard. These are procurable in a great variety of new patterns, which simplifies choosing. Worthy also of particular attention is a Scotch Linoleum—full 4 yards wide, at 49c a sq. yd.

In the Ready-to-wear Section—second floor—are three important "Saturday Snaps" that represent unusual value. The Women's Suits at $9.89 are really marvelous value. There are only 10 of these and all should be picked up quickly. The Women's Skirts at $3.98 include values up to $7.50 and $10. The Silk and chiffon Blouses at $1.95 should cause an early morning rush at Blouse counters.

Women's Tan Button Boots at $2.95 will mean a busy day in our shoe section. Tan footwear is enjoying an immense popularity and shrewd buyers should be keen to take advantage of this remarkable offer.

SATURDAY

Will be the big day of our **4 Days' Suit Sale.** Its our intention to sell almost every women's Cloth Suit in stock during this event. We could give several reasons for this special **Sale of Suits**; but they are all contained in one—**a quick clearance**—and at **abnormally low prices.** Not necessary to delay—**Saturday's choice is best.** Every suit a real, genuine, "pick-up" at the prices marked.

NOTE—Owing to the very marked reductions it will be necessary to charge a small amount for alterations.

Ready-to-wear dept. 2nd Floor

STORE NEWS

A column dealing with new arrivals and containing accurate information of the new style tendencies.

These warm May days are just a foretaste of warmer days to come. And with the thought of hot summer days the feminine mind instinctively turns to thoughts of dainty cool apparel. And what is more necessary—more essential to the completion of the wardrobe than a charming little dress of white embroidery, especially when it can be procured at little cost.

The **Embroideries** which we are showing this season are especially worthy your attention and admiration. Not only is the variety more extensive, but the designs are simply wonderful. And best of all, these beautiful embroideries bear most moderate prices. For instance:

Allover Embroideries, 18 inches to 45 inches wide, range in price from **59c** to **$2.50** yard.

Flouncing and Skirting embroideries, 18 to 45 ins., **25c** a yard and up.

Corset Coverings, very special values at **22c**, **39c**, **49c**, etc.

Embroidery and Insertions to correspond in all widths and qualities, at all prices.

Worthy particular attention is a collection of **Matched Sets**—Flouncings in three widths, 16, 27 and 45 inches, at **75c, 98c** and **$1.95** respectively; Allover Embroideries at **$1** a yard, and Insertion at **25c** yard.

Main Floor Centre

White Parasols—A white Parasol is indispensible this season for the white costume, and our showing is exceptionally select. Novelty directoire and shepherd crook handles; brass frames with cotton and embroidery tops; hemstitched and scalloped edges. Prices, **$1.25** to **$3.95**

Main Floor Right

White Shoes—This will be the greatest white season on record and the newest novelty is the White Button Boot. Made of white Nubuck on the newest, snappiest lasts, short vamp, high heel, obtainable at **$3.95** and **$4.50.** Also White Nubuck, colonial pumps, all sizes, **$2.50.**

Second Floor

White Hose—To wear with the white shoe. Procurable in silk, lisle and lace, in plain and embroidered styles—**25c** to **$1** a pair. Representing unusually good value is a fine lisle hose in neat eyelet embroidery designs. All size, pair **50c.**

LOCAL POLICE WANT M. F. FOY

Charge is Obtaining Money Under False Pretences

Daniel Thompson, chief constable of Peterborough, holds a warrant for the arrest of one M. F. Foy, on a charge of obtaining money under false pretences. Foy is described as being forty years of age, five feet nine or ten inches in height, weight 185 lbs., fat face, clean shaven and fair complexion.—Belleville Intelligencer.

GOOD PROPERTY TO BUILD HOUSES

Folded in to-day's issue of the Review will be found a plan or diagram of property offered for sale by Mr. Geo. W. Hatton.

Unlike much other property offered, this is all within the city and within reasonable—in fact some of it is quite near to the manufacturing industries. It is of excellent value to workingmen who wish to build homes.

The locality is well known, and it has often been asked why was it not placed on the market before. Here it is. Thirty-two lots, of varying size. The ground is new ground, high, on street car line. Cambridge street is paved and sewers and water pipes already in. These public services will be extended along McDonnel and Walnut streets in the near future. Jackson Park is convenient, and there is every facility for reaching the lots.

This property should attract buyers, and at once.

COLLECTOR IS UP AGAINST IT

Owing to Mr. Scrivers' two drivers being off duty to-day, the garbage collector is somewhat handicapped. Only one wagon is on the route, and if some people are disappointed in not having their garbage collected they will understand the reason. Mr. Scriver himself is in charge of the one wagon on the road.

Even a love match may have its flare-ups.

STOMACH OF DROWNING VICTIM SENT TO TORONTO

Evidence to be Heard on Friday Night Next at the Council Chamber.

The following jurors were empannelled last evening at Comstock's undertaking parlors, to conduct an investigation into the drowning of the late James Peters, assistant fishery overseer—R. J. Soden, foreman, Angus McPherson, Harry Meredith, Charles Banks, Frank Jacobi, Wm. Lech, Herbert Stenson, Finch Miller, Harry P. Morgan, R. C. Braund, Andrew Braund.

No evidence of any description was taken last evening, but proceedings adjourned until Friday night next, May 17th, at the Council chamber. The body of the victim has been exhumed and the stomach sent to Toronto for examination.

Thornbeck it is learned, has not been out of the house for any length of time since the affair, when Peters met his death.

Detective Boyd has been in the city during the past week, investigating the particulars of the case.

MOTHERS' DAY TO BE OBSERVED BY MURRAY ST. SUNDAY SCHOOL

In Peterborough as in other cities of America and other countries Mothers' Day is now observed on the second Sunday of May of each year. It is the custom for persons of all ages to pay respect to Mother whether she is living or passed to her reward by wearing on that day a white carnation.

Services calculated to promote appreciation of Mother's love, or pay tribute to her memory are being held in thousands of Sunday schools and churches on that day. Below will be found the order of Service for Mothers' Day in Murray street Sunday school at 3 p.m. next Sunday.

There are many tender memories connected with the old building of Murray street Baptist church and as this will be one of the last opportunities of a Service in that building and as the attendance will be large this open session of the Sunday school will be held upstairs in the main audience room. Combined interest in the old church building, Sunday school and Mothers' Day will influence many to attend this service.

Order of service in the Murray street Baptist Sunday school at 3 p.m. Sunday next:

Hymn, 1131, "Tell Me the Old, Old Story."
Prayer—Rev. Mr. Webb.
Collections, Books, Announcements.
Hymn by Primary Class.
Address—Mr. Elcome.
Hymn, 1007, "Will You Meet Me There"
Address—Rev. Mr. Pogue.
Solo, "Mother's Prayer" — Mr. Huycke.
Recitation, "Mother"—Miss Helen Blade; "Love of God," Miss Ethel Hardwicke.
Solo, "Has Mother's Prayer Been Answered?"—Miss C. Kidd.
Recitation, "Prayer for Mother"—Miss Aimee Rathbone; "A White Carnation"; Mr. Walter Batley.
Report.
Hymn, 949, "Glory Song."
Prayer—Mr. Benjamin Matthews.

LINDSAY HAS PROFESSIONAL DOG CATCHER

The Lindsay Warder says:—The town dog catcher was acting in his official capacity to-day. He opened up for business at eight o'clock a.m., and possesses all the captivating stunts to attract the dogs, together with a net in which to ensnare them. He is no amateur at the business, having served many years' apprenticeship at this particular work in some of the great metropolises in the old world. It is this determination to make good, and got a hustle on as he left the market this morning that made him look like an Old Dutch Cleanser ad. His salary depends upon the number of dogs he catches, as he works on a commission basis. All dogs caught will be kept four days, enabling owners to redeem their pets at a cost of $2 and $5. After this period has elapsed an officer will dispatch the imprisoned vagrant with a well directed bullet in the most vitaal portion of his anatomy.

Chief Childton had ten applicants for the position since making it known that a catcher was required.

Scouts Attention

The usual meeting will take place in the armories at 7.30 sharp, to-night. First Aid Drill will be gone through. All boys bring their staffs. Newcomers are welcome. W. J. Miller, Dist. Com.

CONCERNING YOUR EYES

Good eyesight is essential to health, comfort and appearance. Have you ever noticed a strained look on your face, or your friend's? Usually this comes from eyestrain. More wrinkles are caused by eyestrain than by age. Thousands unconsciously squint in an effort to adapt the eyes to the surroundings. Success in relieving eyestrain depends entirely upon the OPTICAL SKILL of the Specialist who prescribes the glasses. Neglect of the eyes many times leads to surgical operations, which glasses worn in time may prevent. We correct errors of vision by means of properly fitted lenses.

We have every modern appliance for accurate eyesight testing, and we grind all our own lenses. Thus assuring you accuracy and promptness. All work guaranteed.

PARK ST. BAPTIST CHURCH HAS HAD PROSPEROUS YEAR

Anniversary to be Observed on Sunday With Special Preacher.

The annual business meeting of the Park street Baptist church was held last night in the church parlors. The pastor occupied the chair, and the business was conducted in a most harmonious manner. The various reports showed progress all along the line, and several good balances were reported in hand by the treasurer. The church has increased in its missionary contributions and a number of new members have been added to the church making the present number two hundred and five. Two new deacons were elected, Mr. A. Follis and Wm. Hubel and a new office created, when Mr. Thomas Mark was appointed secretary to the building fund.

A choir committee was also appointed to consult with the leader in the interests of the choir and worship. The committee consists of two from the choir and three from the church, Messrs. Moore, Garside, A. Jackson, Kemp and A. Follis.

The church generously voted an increase of over $100.00 in order to allow the pastor to put in a telephone and pay other sundry expenses connected with the pastoral duties.

Altogether the gathering was a tribute to the faithful pastor and workers of this flourishing and growing church in the south end of the city.

The annual roll call will be held the first Sunday in June.

Next Sunday, the 12th anniversary of the church will be held.

Rev. Patrick Morgan will preach three times on Sunday.

11 a.m.—Subject, "A Glorious Victory.

3 p.m.—Special address for men.

7 p.m.—Subject, "Christ the Liberator."

On Monday evening there will be a platform meeting, Mr. Morgan and others speaking. All are welcome.

TOOK PARALYTIC STROKE WHILE VISITING HIS SICK MOTHER

The many local and country friends of Mr George Robb, of Stewart's Settlement, Otonabee, will regret to learn of his demise, which took place yesterday, following a paralytic stroke, with which he was seized one week ago yesterday, when he went to visit his widowed mother at Garden Hill, she being seriously ill.

Medical aid given, proved of no avail. His death coming as it does at a time when his mother lies ill, makes the trying ordeal of his widow and brothers and sisters, all the more harder to bear by all.

He was a son of the late John Robb and was 48 years of age.

Besides his sorrowing wife and young son, are his mother and four brothers and four sisters.

The brothers are Messrs. John, of Penatanguishene, Joseph, of Old Virginia; William and David of Garden Hill, while the sisters are Mrs. Jacob Waddell, of Garden Hill, Mrs. Lewis Hitherly of Otonabee, Miss Annie of Toronto, and Miss Bertha of Garden Hill.

The funeral will take place to-morrow afternoon.

FIRST SERMON IN NEW MURRAY ST. BAPTIST CHURCH TO BE GIVEN BY FORMER SUNDAY SCHOOL SCHOLAR

The new Murray street Baptist church will be opened for worship on Sunday, May 26, and on that joyous occasion, Rev. J. L. Gilmour, D. D., of Toronto, whose grandfather, the late Rev. John Gilmour, who was the pastor at the founding of the church on Aylmer street, in the year 1815, will preach.

Rev. J. L. Gilmour was one of the first Sunday school scholars of the church.

On Sunday, June 2, Rev. O. C. S. Wallace of Baltimore, Maryland, will preach, and on the succeeding Sunday, June 9th, the services will be taken by Rev. Thos. Trotter, D.D., of McMaster University, Toronto, and a brother of a former pastor.

DR. DOUGLAS COMMITTED FOR TRIAL AT PORT HOPE

His Victim Paid Him $60 for Medical Service—The Expected Fortune Did not Come.

Port Hope Guide

There are some easy people in the world, as shown by the Police Court case this morning, when Walter Cruse of Rossmount, was plaintiff and Dr. Douglas of Quyon, Quebec, was defendant. It hardly seems possible that any man would bite at such a bait, as furnished by Douglas, but Cruse took it all.

According to Cruse's own story, Douglas drove to his place on the 28th of January, 1910, in company with Frank Rouse, of Brighton. Douglas asked for dinner and this was provided, upon which Rouse left. Douglas remained for three days. He told Cruse that he was a detective from the Scotland Yards, and then Cruse had him examine some cloth he had purchased from a traveller, to ascertain if the same were Scotch tweed. Douglas inquired of Cruse if he had any more of the cloth and he replied a piece of blue. Douglas at once decided that this was government blue cloth and informed Cruse that he held a warrent for his arrest for having this cloth in his possession. Detective Crowe had been travelling with him, but owing to an accident to the cutter the detective was delayed. Detective Crowe was a member of the firm of Crowe & Murray, Toronto. Cruse at once turned the goods over to Douglas.

On Monday, Cruse started on a drive with Douglas through the country and he drove him to the boundary line of Simcoe and Dufferin counties. Here he sold the team at a sacrifice, as they were completely played out, and he returned home by train.

He also told Cruse that he would soon become heir to a large fortune and he (Douglas) had been paid by the Government to look after his interests. Since leaving him in Simcoe, however, Cruse heard nothing more of the fortune.

Cruse also told of his wife taking ill while Douglas was at his home. Douglas at once took the part of a medical practitioner, and administered seven plasters to his wife's head. It completely cured her and for this treatment he paid Douglas $60 but he considered it money well spent.

Upon this evidence the Magistrate committed the prisoner for trial. Mr. F. W. Kerr conducted the prosecution and Mr. Field appeared for Douglas.

PRESENTATION BY COLDSPRINGS YOUNG PEOPLE

Mr. Herbert Peters secretary of the Young People's Society of Coldsprings Union Sunday School, was presented last evening with a gentleman's travelling companion, at the conclusion of the Christian Endeavor meeting.

Mr. Peters is very popular around Coldsprings, and has been a power for good in the neighborhood. He intends leaving for Lethbridge on Tuesday, May 14th. The presentation was accompanied by a short verbal address made by Mr. Frank Kitney. Miss Mina Waldie bestowed the gift.

Mr. Peters was given to understand that he would always be welcomed back to Coldsprings should he ever desire to return.

Naturally surprised, Mr. Peters, however, thanked the donors of the gift most appropriately, expressing the many happy remembrances he would always carry with him from Peterborough.

COLLEGIATE CLUB BANQUET TO-NIGHT

The members of the Collegiate Club have arranged for a banquet to be held to-night in Hooper's Palm parlors. There will be about thirty members of the club present as well as a number of guests including Judge Huycke, Ald. G. N. Gordon, and Dr. Carmichael. The collegiate club is one of the most educative clubs in the city for youths between the ages of 12 and 18, and since its inception its members have benefited by several instructive addresses.

MILLINERY

Our latest shipment of high-grade Millinery for summer wear has arrived and is now ready for your inspection at the Peterborough Millinery Parlors. Mrs. W. B. ARMSTRONG, 435 George St. Upstairs in old T. A.S. Rooms.

PETERBORO MAN IN HAMILTON COURT

In the report of the Hamilton police court proceedings, by the Spectator the following appears:

Mark Black, of Peterborough, is evidently a firm believer in the practice of making an early start. The roosters had barely stopped their morning serenade to-day, when Constable McClure spied Black breezing across the corner of King and James street with a "jay package."

"You are charged with being drunk. What do you say," warbled the court crier in his thistle-down brogue.

"Never was (hic) drunk'sh in my life'sh," squeaked Black, as he secured a strangle hold on the dock railing for support. "I was sick (hic) and the doctor gave me some medicine. Then my wif'sh gimme some booze on top of that. Made me sicker, but I wasn't drunk'sh."

"What is the use of blaming it on your wife?" asked the magistrate.

"I suppose the little dear (hic) meant all right'sh, but she should never have given me the booze. That'sh all," replied Black.

"Oh well, you're a married man. I'll let you down with $2 this time," said his worship, and, nursing a feverish brow, Black carreened over the bridge.

McLAUGHLIN MOTOR CAR

McLaughlin 35

McLAUGHLIN MODEL 35

McLaughlin 35

A car embodying the principles which have been tested, tried and proven more than **GOOD** under the most exacting regulations and conditions. Here is a copy received from Mr. Thomas Davis, Chief of the fire department, Victoria, B.C., what he has to say in regard to the McLaughlin Car he has purchased.

Victoria, B.C.

McLAUGHLIN MOTOR CAR CO.,
Oshawa, Ont.

Dear Sirs,—The McLaughlin-Buick, 40 h.p., chief's automobile, which was built for the department and delivered last May, has now been in our possession long enough for us to realize its good points. It has given perfect satisfaction in every respect. I have responded to 187 alarms with it to the present time, and over very rough roads. Its hill climbing capabilities are excellent, the cost of maintenance in comparison with the horse drawn vehicle used for the same purpose is trivial.

I shall be pleased to recommend this type of a machine to any Chief of Fire Dept. requiring same; you are at liberty to refer them to me.

Yours respectfully,
(Signed) THOMAS DAVIS, Chief of Fire Dept.

WHITE CAPS HAVE HOME GAMES ON MAY 24 AND JULY 12; PLAY AT OTTAWA DOMINION DAY

etes go to Capital City Also for Labor Day—St. Thomas Opens Here on May 22 and Guelph Comes for May 23, 24 and 25, Ottawa Follows on May 27. 28, and 29 and White Caps Hit the Road Again Going to Ottawa for May 30 and 31 — Locals go to Hamilton Next Week.

The schedule of Canadian Baseball ague is to hand, and below is given e story of the White Caps' battles om the opening day on May 14th at amilton to Aug. 1. when Guelph ill be on hand. This is not the comete schedule of games, but sufficient given to enable the fans to know hat's what up to August.

Peterborough will play at Home May 24 (two games with Guelph) d on the King's Birthday. June 3, rantford will be here for two games. he White Caps play at Ottawa on minion day, and at Home on July with Berlin.

The opening game for Peterborough on May 22, when St. Thomas will welcomed.

Peterborough opens at Hamilton on ay 14, 15, then going on to Brantrd for May 16, 17, 18, and St. homas May 20, 21, returning Home r one game with St. Thomas May . Guelph comes next for May , 24 (holiday two games) and 25.

Ottawa comes next on May 27, 28, , after which Peterborough jumps Ottawa for May 30, 31.

Ottawa returns with the White aps for one game on Saturday, ne 1, Brantford will be here for two ames on June 3 and one for June 4. Peterborough's next jump is to uelph for June 5 and 6, then Hamton, June 7 and 8 (Saturday). Berlin comes to Peterborough June 10 and 11, London comes for 12 and 13, Peterborough returning with London to London for 14 and 15. White Caps go to Berlin 17 and 18, and come Home for 19 and 20 against Hamilton, with St. Thomas following 21 and 22, 24 and 25, and London 26 and 27. Brantford comes next for June 28 and 29.

On Dominion Day, July 1 (Monday) Peterborough plays at Ottawa two games, with one on July 2, coming Home with Ottawa for July 3 and 4; then going on to Berlin for 5, 6, 8 and 9. Both teams take a holiday on July 10, and White Caps are Home again with Berlin for July 11, 12 (holiday) and 13 (Saturday.)

White Caps take the road again, going to St. Thomas for 15 and 16, London 17 and 18, Hamilton 19 and 20 (Saturday). The locals then return Home, Brantford playing here 22 and 23, Berlin 24 and 25. Peterborough goes back to Guelph for 26, 27 (Saturday), and finishes the month at Home with Guelph 29, 30, 31 and August 1.

Peterborough plays in Ottawa on Labor Day.

BREEZES FROM THE DIAMOND

The Canadian League will open its eason next Tuesday, with the following games: Ottawa at St. Thomas, eterborough at at Hamilton, Berlin t Brantford, and Guelph at London. he umpires have been ordered to report for Sunday at Hamilton, and are s follows: Bill Pearson, Toronto; icher, Bay City; McDonald, Buffalo, nd Yerke, New York.

Detroit travelling men who have een watching the Canadian Leaguers ork out say that Schwind and obertson of the Ottawa club are aster than Bush and Baumann, of ennings' Tigers and are quite up to he speed of Vitt.

Manager Knotty Lee will pit the folowing line-up against Peterborough n May 14:

Schafer, 1b.
Keenan, 3b.
Lee, rf.
Corns, cf.
Killilea, 2b.
Farrell, lf.
Fisher, c.
Martin, ss.
Teed, p.

It is probale that Hon. Col. Sam ughes, who happens to be an expert n gunning, will shoot the first ball ver the plate at the opening game n Thursday next. The Minister of ilitia is a great baseball enthusiast nd is said to have been the "Ty" obb of Lindsay, Ont.—Ottawa Citizen.

The White Caps worked out this morning in the Y.M.C.A. gymnasium.

The regulars and Yannigans play heir return game this afternoon at he Oval. Creswell will take a turn n the box for the Yannigans.

The work at Riverside Park is in ull swing. Mr. James O'Keefe has he contract of putting the grounds n shape. Everything is being rushd forward as fast as good workmanship will permit, and everything will be in tip-top condition for the pening game on the 22nd with St. Thomas.

THE TURF

A despatch from New York says: A woman pleading before the board of Review of the National Trotting Association to-day was a feature of the proceedings, which are usually confined to men. Mrs. W. J. Whittom, of Peterborough, Canada, appeared after her husband had twice tried to turn the board in his favor, and won the case of The Lady of the Lake, the trotting mare which Whitton bought in alleged good faith as Susie Hal, to discover later that the horse was disbarred as a "ringer" in 1910. Susie Hal was reinstated, after Mr. Whittom paid $105 to get the mare back into good standing.

BASKETBALL

Manager Thompson wasn't far astray when he picked a team to do battle against the White Caps, in a basketball exhibition at the "Y" Gym. last night.

His bunch scored right off the reel and always led. The count at half time was 14—12 in favor of the Triangle boys, and at full time 26—22.

It was a well played and thoroughly interesting contest, and the free-admitted rooters liked the engagement.

However, Bill Schaeffer is not disappointed and promises something different, in the event of another game being arranged.

The teams were:—

Y.M.C.A.—Hanwell and Nicholls, forwards; Wallace, centre; Hall and Loomis, defence.

White Caps—Ulmer and Hartman, forwards; Tully, centre; Mooney, Scull and Beard, defence.

Mooney gave up the floor to Scull at half time and his successor more than made good.

One rather remarkable incident of the game was that only one foul shot was presented, Jimmie Beard being asked to hand the ball to Y.M.C.A. There was, however, no connection with the basket.

The first half was played under Y.M.C.A. rules, while the second period witnessed the introduction of American National rules, in which the ball is never outside. Both styles were equally acceptable to the "Y" quintet, as the score shows.

Hartman uncorked some fast work and while he did the bulk of the scoring for his team, many more attempts close on the hole, fell by the way.

The attendance, large and enthusiastic, was made up of officers and players of the ball club and many red hot fans.

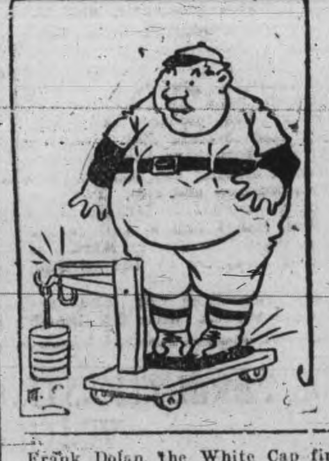
Sandy Hall and Doug Loomis were prominent more than once by some stellar combination work, but Hanwell, Nicholls and Wallace never let up for a minute. Nicholls secured five baskets, and it was Wallace who started the scoring.

On team work the "Y" boys had the edge. They worked the ball right in on the basket, while for the most part, the White Caps shot from outside.

Twelve of the 22 shots for the White Caps were gathered by Hartman. Tully and Ulmer contributed the majority of the remainder.

Mr. J. J. Thompson worked the whistle and kept the game going at a hot pace throughout.

A tug of war has been suggested as a future attraction, but Manager Thompson is undecided. Much depends on the question of how much can Sandy Hall.



Frank Dolan, the White Cap first sacker is happy in the hope that he is fast reducing weight.

The Kaiser will introduce foxhunting into Germany, and is importing a pack of hounds.

The B. and N. railway has been leased to the N.Y., N.H., and A., and will be electrified. A four-track tunnel will be built in Boston.

Electric Restorer for Men

Phosphonol restores every nerve in the body to its proper tension; restores vim and vitality. Premature decay and all sexual weakness averted at once. **Phosphonol** will make you a new man. Price $3 a box, or two for $5. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.

In "Wits and Their Humors," the Rev. J. O. Bevan relates the following Irishisms which have been perpetrated in Parliament and elsewhere:

"Mr. Speaker, before I begin to spake, I should like to say," etc.

"The voice of Oireland is now making itself felt. So long as she was silent, England was deaf to her cries."

"The cup of Ireland's miseries has been running over for centuries, and now—it is almost full."

"The right hon. gintleman is attempting to ram his bill down our throats — behind our backs; but we have many friends, though they may be backward in coming forward. The preamble of the bill has a feature in it which is objectionable, and on this feature the whole question hinges."

"The Government is taking credit for what it has not done; like the cuckoo, which, as you honorable gentlemen are aware, is the only bird which does not lay its own eggs."

EMPIRE DAY CELEBRATION

To The Editor of The Review.

Sir—Empire Day is to be celebrated in Toronto by a patriotic dinner of large dimensions at Convocation Hall, University of Toronto. His Excellency will be the guest of honor. It is suggested by those at the head of this movement that similar festivals be held in other places. Would it be out of the way to suggest that the Canadian Club in Peterborough, take this matter up? The famous "adjunct" letter of President Taft has given Canadians a good reason to show their imperial feeling and that we should all meet on that day in some manner to pledge anew our fealty to the Empire, is surely worthy of consideration.

Great Britain appreciates the occasion as never before, and a renewal of our bond of fellowship will be appreciated by her, also as the event in Toronto is intended to demonstrate.

J. H. BURNHAM.

COMMENTS ON WORK OF MISS GLADY'S SEWARD

That Miss Gladys Seward continues to meet with success in her studies in Germany, is interesting to citizens of Peterboro. Recent German journals comment on her work—

Dresden Guide (printed in English)—The social evening in the Scots Manse on Wednesday last was of the most pleasant character and the excellence of the program conspicuous amongst these interesting occasions. The pianists of the evening were both in their youth, and both acquitted themselves with brilliancy and distinction, showing excellence already achieved; and abundant promise in the near future. Miss Gladys Seward has an established reputation for the rich quality and fascination of her tone and the interest she imparts by her music temperament. These were again clearly displayed in her contributions, Liszt's Barcarolle, and a waltz by Sapelnikoff. Afterwards, by special request of the company, she gave a delightful interpretation of Liszt's Rhapsodie No. 11.

Dresden Nachrichten—Mr. Harry Field, our great pianist and teacher, gave a recital at the Hotel du Nord which showed the result of industrious study of his pupils. Miss Seward played Bach's G. Major Toccato and Daguin's Con Son with great clearness and lively rhythm. She also played Clement's Sonata for two pianos together with the youthful, but very talented Master Fridy Weitzman.

Dresden Jounal—Mr. Harry Field, our esteemed pianist, gave a recital at the Hotel du Nord on March 4th, for his pupils and proved through their great success his ability as teacher and also the careful and industrious work of his pupils. Miss Gladys Seward's playing again stood out beautifully and won more honour for this already well known young pianist.

The International Club of Friends to Young Girls in Dresden gave a social evening, on March 17trh. The artistic story-telling of Mrs. Echeober was much appreciated. The pianist, Miss Gladys Seward rendered with wonderful technic and expression composition by Chopin and Liszt.

ASSISTANCE FOR CHINESE HUNGRY

Eugene R. Cox of the Christian Science Committee on publication for the state of New York, with office at No. 1, Madison Avenue, forwarded to Jacob H. Schiff, treasurer of the China famine fund, a cheque for two thousand and ninety-three dollars and forty three cents, the proceeds of a collection taken up in the twelve Christian Science churches and societie in Greater New York. The largest contribution the the fund was made by First Church of Christ, Scientist, of Brooklyn, which is constructing a new church edifice at New York Avenue and Dean street. Previous to the taking of the collection the following notice was read in all the churches—

In time of wide spread disaster the great heart of humanity instinctively turns to thoughts of succor and relief. We to whom the true brotherhood of man is revealed should be among the first to manifest our recognition of such brotherhood and because of the amplitude of our spiritual blessings, give generous of material means in time of need. In a large district of China three million human beings are on the verge of starvation, because of the failure of crops. Prompt action is necessary by the world in order to alleviate the trying conditions of their famine. No people should respond more promptly than Christian Scientists, whose wealth of love can flash to the antipodes as quickly as to our next-door neighbor."

Extract from New York Herald.

BOARD OF WORKS' INSPECTION TRIP IS ON TO-DAY

The Board of Works, chaperoned by Ald. Buller, the efficient chairman, started off shortly after eight o'clock this morning on their tour of inspection of all matters connected with the city which comes under their department. The committee was accompanied by Mayor Bradburn and City Clerk Armstrong.

The inspection will occupy the greater portion of the day and will be most thorough.

PETERBORO SUMMER FAIR

Will be Indirect Means of Saving the City $330,000 Each Year.

(By Roy Gilray.)

In one of our previous articles we pointed out that 100 people were afflicted with consumption each year in Peterborough, of whom 25 failed to recover. This is a very conservative estimate made by one of our local physicians in the course of an address on tuberculosis.

The average age at which death occurred among these was, roughly speaking, 30 years. According to the period of expectancy of life worked out by the insurance companies there was in each case a loss of life period about 33 years.

The Labor Bureau of the Province of Ontario tells us that the sum of $400 per annum is a low average earning power of adult individuals. At this low estimate we are losing in earning power each year the sum of $10,000. Multiply this by 33 and we have the total of earning power of one year's deaths from this disease—the sum of $330,000. Remember (this is for Peterborough alone. When one contemplates the figures for the whole Province or even for the Dominion, the monetary loss is appalling.

This surely is bad enough. We are justified in considering in addition the extra expense of, in many cases, years of incapacity to work and earn money, of medical care, of nursing, all or nearly all of which may by proper care and treatment be prevented.

This is where the district nurse will be of great value to the community. She will make frequent visits to the homes of the afflicted, supervising and regulating the home life, and doing everything to encourage the patient with the interest that the Health Association is taking in his recovery. The moral assistance of the other members of the family is essential and they must be convinced of the necessity of strict obedience to all instructions so that the recovery of the patient will be assured.

In the introduction of this article we have tried to impress those who measure everything in dollars and cents, but there are others who look deeper into the tragedies that are being enacted on every hand.

Humanity first, mutual safety second, calls for united action. Capitalist and working man, master and servant, are equal in this, the greatest of modern missions among mankind; there is no distinction of class or quality; we cannot, by either united or any other effort, defeat death ultimately, but we have it in our power to combat disease, some kinds partially, some effectually. That the work we have commenced is necessary cannot be denied; that it is effective is amply proved. The man, the woman, the brother, the sister, the father, the brother, who stands aloof, says in effect: "Let those sink who cannot swim." The one without family, without kindred, who adopts a similar stand, says: "What is society, or what is my brother man to me?" In short, they stand on the banks of the river into which human beings have fallen, and when they could save them by stretching forth a helping hand, they allow them to perish miserably and hopelessly. To do this actually would be criminal; to do it morally is about the same. The person capable of doing it morally would almost do it actually; and the same person, with positions reversed, would be the first to cry out for assistance.

I cannot believe there is such a one in Canada. I do not believe there is such a one in Peterborough, and am satisfied it is only thoughtlessness or ignorance of Christ's command that hinders any citizen doing his part, let it be great or small.

A man may not know who his friends are, but he usually has his enemies spotted.

Boys' Own Annual.	
The shadow of Love	Tinayre
How to design and Construct a Motor-Boat	
Rural Denmark and Its Lessons	Haggard
Tom Sawyer	Twain
Asgard Stories	Foster
Seven Champions of Christendom	Matthews
Book of Knight and Barbara,	Jordan
Girl's Own Annual	

Also fifteen volumes published by the Noroena Society, dealing with the romances and epics of the Norwegians and comprising also the Arthurian tales, the Volsunga Saga, Heimskringle, the Norse Discovery of America and Teutonic Mythology.

It will be noticed that there are some very valuable books in the above mentioned list. Most of the volumes speak for themselves but the attention of those interested in agriculture is especially drawn to Haggard's work on Rural Denmark. It will be remembered that some two or three years ago, a special commission was sent by the Dominion Government to Denmark to study the conditions of agriculture and more especially dairying in that country and Sir Henry Haggard's book will certainly appeal to all who read the report of that commission. The author, apart from his eminence as a novelist is one of the foremost agriculturists in the United Kingdom.

The work of cataloguing which has been in progress ever since the library is now completed, so far as the main portion of the stack room is concerned. The only parts left uncatalogued are the Reference Room and the Juvenile Department, both of which will soon be in process of re-organization.

The public are once again asked to kindly take special pains to replace books back in the same places from which they are taken, on the shelves. It will not only be a convenience to each individual patron of the library to do this but also a very considerable assistance to the staff.

Directions of how to use the catalogue have been placed above the catalogue cabinet.

MR. JAS. SIMPSON GAVE ADDRESS AT LABOR HALL

In the interests of the Labor Educational Association, Mr. James Simpson addressed a meeting in Labor Hall last evening, giving a stirring address, the object of which was the development of a plan, already well under way, to establish a weekly paper, conducted solely in the interests of labor and controlled entirely by trade unions and their members. Mr. Simpson, who was a member of the Royal Commission on Technical Education, told of many things that came under his observation in Germany and England, and spoke of the ever advancing power of trade unionism in those countries. Germany had to-day 87 daily papers and 100 or more weekly papers and periodicals, entirely controlled by labor organizations, and that country was now the strongest and best organized country in the world in the matter of labor unions, and , politically these were wielding a power that more and more had to be reckoned with. He spoke of the great coal strike in England that the mine workers were able to carry to a successful issue, that even ten years ago would have been regarded as an impossibility. Coming nearer home, the speaker dwelt with problems agitating the minds of workingmen in the United States and Canada. Mr. Simpson referred to the coming convention here on May 24th, and said that it would undoubtedly be one of the most important conventions yet held by the Labor Educational Association.

Woman's World

Mrs. Dewar Wins Fencing Laurels From Baroness.

Photo by American Press Association.

MRS. WILLIAM H. DEWAR.

Mrs. William H. Dewar of Philadelphia recently won her way to the amateur fencing championship among women in a seven minute bout with the Baroness de Meyer of England.

The play with the foils came off at the Colony club, the fashionable woman's club of New York city.

Although the bout lasted only seven minutes, some of those who witnessed it said it was the most exciting seven minutes through which they had ever sat, bobbed, gasped and stared.

The opponents were well matched, each vigorously contesting every second of the time allowed them.

A handsome loving cup, the gift of Mrs. Payne Whitney, was awarded to Mrs. Dewar.

YEAR OF THE RAT.

How the Chinese Reckon a Child's Years.

The Chinese method of reckoning age is very curious. A Chinese child at birth is said to be one year old, and after it has passed one new year it is said to be two years old. The Chinese divide the years into cycles of twelve, each one of the twelve years being represented by the name of one of twelve different animals, and all people born in one year say that they belong to the class of corresponding animal. Thus the Chinese year corresponding to 1876 was a year of the rat, and all born in that year belong to the class rat; so also do all people born in the year removed from 1876 by any multiple of 12.

The twelve different animals are rat, ox, tiger, hare, dragon, snake, horse, sheep, monkey, fowl, dog and pig. Every one knows his corresponding animal class, for the information is necessary for arranging betrothals, fortune telling or choosing lucky days.

A source of error in age (with the exception of that in entering young children) is illustrated by the case of an old woman of the village of Chingtzu, known to be over a hundred, who insisted on the census enumerator entering her as ninety-nine. This was because it is a customary term of abuse to call a person a "hundred-year-old donkey" or "ten toothed donkey," which has the same significance.

The only source of error in the division of sex is in regard to very young children. It is common for a Chinese mother to give a son the name of a girl, presumably to deceive the fates, for it is a common saying that a girl is easier to rear.

As to the size of Chinese families, the Chinese give much credit to a large family which is able to live together without dividing up the family property. There are many large undivided families in Weihaiwei. The largest is that of Meng Yu Shih, a widow of the village of Mangtao. Her family consists in all of sixty-six persons.

What the Eyes Tell.

Hazel eyes show steadiness and power of constant affection. Black eyes show strong intellect and passions.

The eyes of genius are said to be of varying tints, like the sea—sometimes blue, tinted with green or orange; in certain lights, or when affected by emotion, deep and almost dark.

It should never be forgotten that eyes are more capable of misleading than any other feature.

Widely expanded eyelids see much without reflecting greatly. They live in the senses and think little beyond the present moment.

Eyelids half closing over the eye denote less facility of impression, but clearer insight, more definite ideas, greater steadiness in action.

Deep set eyes, with wrinkles at the outer corners, show penetration and a sense of humor.

Eyes set near together, especially when there are wrinkles across the nose, are a sign of cunning and meanness in small things.

Set wide apart, the character will be generous; if too wide, careless and extravagant.

The proper distance between the eyes is the width of one eye.

What a man can never see is that, maybe, it's no worse for the baby to cry, than for him to swear.

WHO'S COMING AND GOING

Mr. Edgar Fenter of Toronto is in the city on business.

Mr. H. H. Ross of Ottawa is in the city to-day on business.

Maurice P. Shea of Montreal is in the city to-day on business.

Mr. T. W. Evo of Buffalo is registered at the Snowden House.

Mr. Wm Holmes, of Hamilton, is transacting business in the city.

Mr. E. J. Hopkins, of Norwood, is in the city to-day on business.

Mr. Wesley Clarke of Keene was in the city yesterday, the guest of friends.

Miss Kathleen Vincent of this city spent yesterday with her parents at her home in Lakefield.

Mr. V. J. McElderry, of Peck, Kerr & McElderry, was at Havelock attending Division Court yesterday.

Mr. W. A. McFadgen of Sundridge and Mr. C. A. McFadgen, of Stratford, are in the city to-day.

The Conservatory of Music Orchestra left on the noon train for Hastings, where they will give a high class concert to-night.

Messrs. R. Marshal, H. J. Armstrong, L. L. Findlay, L. J. Ellis, H. Capewell, F. W. Lyon, W. Turner, W. G. Bartlett, and Smith Turner of Toronto are registered at the Oriental.

Mr. Spence McIntyre, son of A. A. McIntyre, has been successful in passing his second year examinations at the School of Practical Science, Toronto.

LAID TO REST

The funeral of the late Mrs. John Bell, of Coldsprings, Otonabee, took place this afternoon at half-past two o'clock, to Lakefield cemetery. A large number of friends desirous of paying their last respects to the deceased made up the large funeral cortege.

Navigation Notes

The steamer Islanda is meeting the train at Lakefield every day now and taking a daily spin around Stony Lake. The locks are open at Buckhorn, Bobcaygeon, Rosedale and all places between here and Lake Simcoe, so that a steamer can now travel between here and the big northern lake.

The rumors that have been circulated that Buckhorn locks are closed are not correct, according to Mr. J. H. McClellan, superintendent of this district of the Trent Canal.

Homeseeker's and Settler's Train to Camrose, Edmonton and Western Canada.

Via Chicago and St. Paul, will leave Toronto 10.30 p.m., Tuesday, April 30th, via G. T. R. System, for Camrose, Edmonton and points in Manitoba and Saskatchewan. Stopping at all points on Grand Trunk Pacific Railway, west of Winnipeg. Through coaches and Pullman Tourist Sleepers will be carried, fully equipped with bedding and porter in charge. Berths may be secured in these cars at a low rate. This is an exceptional opportunity for those wishing to take advantage of the remarkably low one way settlers rates or round trip homeseekers' excursions through the American cities, no change of cars. Full particulars, berth reservations, etc., from any Grand Trunk Agent, or write A. E. Duff, District Passenger Agent, Toronto.

BIRTHDAY GIFTS.

Book Covers Made by Donor of Present.

The value of a book chosen for its useful or practical contents may be much enhanced by means of a pretty cover made by the giver.

Beautiful as well as hard wearing covers are made from Holland or linen closely embroidered in dark, heavy silks in an appropriate conventional pattern, while for volumes of poems or romance the cover can be of handsome brocade enriched with gold thread.

Useful covers for everyday books are made more plainly from colored art canvas, with the title worked or painted across the front.

Imitation leather is another practical material for the purpose, especially where paper covered books are concerned. It can be obtained from any stationer or bookbinder.

If you intend to make a rather costly attachable book cover as a birthday or wedding gift your best course is to measure exactly the outer sides of the book so as to buy only the exact quantity of material needed.

The back should be formed from a strip of some soft leather, such as French kid or morocco, which, although substantial, may be sewed to the side covers. These are fitted over the book by means of two inch deep flaps of kid or strong ribbon.

It is also a good plan to attach ribbon ties and a dainty embroidered bookmark to match. The cover, as an additional finish, might be bordered all round with a half inch wide silk fringe. This proves very effective.

Plain covers made from fragments of chine ribbon, brocade or tapestry are easily and quickly contrived by clever fingers and sell well at fairs.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. HYDRO POWER TO ENTER BARRIE AND COLLINGWOOD; FIVE TOWNS IN THE SCHEME

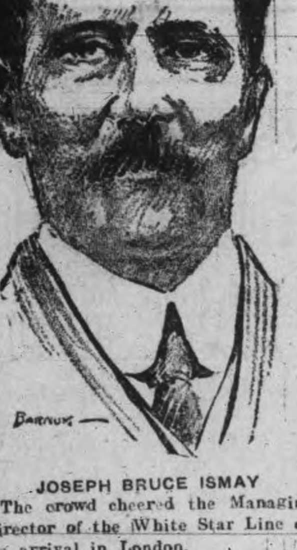
Northern Municipalities Along With Stayner, Elmvale and Coldwater Arrange For an Extension of the Line Now Serving Midland—Contracts Awarded for Work on Section South of Dundas.

Toronto, May 11.—Five more towns in the northern part of the province will be served by the Hydro-Electric Power Commission—Barrie, Stayner, Collingwood, Coldwater and Elmvale. This fact was announced yesterday by the Hon. Adam Beck.

Preliminary estimates have been submitted by the commission to the town of Barrie for a supply of power under contract between the commission and the Simcoe Railway & Power Co., developing at the Big Chute Falls on the Severn River. An extension of the lines built by the commission supplying Midland and Penetang will be made to the five new municipalities in the Hydro-Electric belt. Final estimates will be submitted to these towns in the course of a week or two.

The prices will compare favorably with those prevailing at Stratford, St. Mary's, London and St. Thomas, in the Niagara district. Barrie and Coldwater are submitting bylaws on June 3 and 7. It is expected that Collingwood will take action as soon as the final estimates are submitted. This will mean much for the industrial development of the north.

Contracts have also been let for the material for the new district south of Dundas, including Caledonia, Hagersville and Cayuga. The erection of this line will be under way in the course of a week. A considerable quantity of power in this district will be used by the Alabastine and Crown Gypsum Works. Very favorable power prices will obtain in this district.



JOSEPH BRUCE ISMAY

The crowd cheered the Managing Director of the White Star Line on his arrival in London.

WM. DAVIDGE IS ACQUITTED

Toronto, May 11.—After an hour's deliberation the jury in the case of William Davidge, who was charged with the murder of his wife, Esther Davidge, returned a verdict of not guilty at five o'clock yesterday afternoon. Davidge was immediately discharged.

T C Robinette, counsel for the defence, objected to Crown Prosecutor Blackstock reading the ante mortem statement of Mrs. Davidge to the jury. Mr. Justice Middleton upheld the crown and the statement was read. Mr. Blackstock strenuously objected to his lordship's charge to the jury, holding that he laid too much stress on the need for caution in receiving Mrs. Davidge's statement. Mr. Justice Middleton refused to recharge the jury but promised a reserved case for the crown for the Court of Appeal if such was desired.

Quiet In Coal Fields.

Philadelphia, May 11.—Outside of the attack on the Cayuga breaker of the Lackawanna Coal Co., in North Scranton by about 2,000 foreigners, there was no rioting of consequence in the hard coal field yesterday.

The North Scranton disturbance was quickly quelled and everything is quiet to-day.

Chief interest now centres in the action the miners will take on Tuesday when they meet in Wilkesbarre to either approve or reject the action of their representatives who took part in the recent conference in New York.

Brotherhood at Ottawa.

Ottawa, May 11.—The delegation of the Brotherhood Federation left last night for Toronto. During the day they held a meeting at Stewarton Church, where addresses were made and a dinner was tendered to them at the Young Men's Christian Association at which the object of the visit was ably explained.

Rt. Hon. R. L. Borden met the party on Parliament Hill.

Cohen Goes Free.

Toronto, May 11.—The grand jury of the assizes found "no bill" yesterday afternoon in the case of Abe Cohen, charged with the murder of Rebecca Cohen, who was fatally shot while standing on the doorstep of a house on Chestnut street on March 25 last. This is said to be the first time in the history of the Canadian courts that the grand jury has returned a no bill in a murder case.

Earthquakes Alarm Mexico.

Guadalajara, Mexico, May 11.—A state of terror exists in this city as the result of earth shocks, which in twenty-four hours since Wednesday morning have numbered over thirty-five. Many shocks were felt yesterday, but their force was less severe than those of Wednesday. Buildings have been damaged by the earthquakes.

Montreal Chinaman a Leper.

Montreal, May 11.—The medical health officer here has decided that Chin Tong, a Chinaman, who was thought to be suffering from leprosy, really has the dread disease. While arrangements are being made for the deportation to China, Tong will be kept in a special shack, which will be burned after he is removed.

KING SEES THE REVIEW

Weymouth, Eng., May 11.—King George spent a long day yesterday on board the battleship Neptune, which headed the first and second squadrons of the fleet out into the channel for gun practice and battle manoeuvres. The weather continued hazy but the two battle squadrons were able to carry out their gunnery practice fifteen miles out at sea, and during the afternoon the roar of the big guns was distinctly audible here and doors and windows rattled under the concussion. His Majesty, therefore, experienced as near war conditions as is possible in time of peace.

Yesterday's manoeuvres at sea ended with a submarine attack on the battleships Neptune and Hercules.

King George passed practically the whole morning inspecting the hydro-aeroplane invented by Horace Short, on which Acting Commander Chas. R. Samson on Thursday carried out a series of evolutions round the British fleet. The facility with which the hydro-aeroplane was manoeuvred was a revelation to everyone not immediately attached to the naval flying corps.

It has not yet been divulged whether arrangements have been made to give the King the trip in the air which he desires so much.

The hydro-aeroplane used by Commander Samson has sufficient capacity to carry petrol and oil for a six hours' flight, giving a radius of 300 miles.

Commander Samson yesterday gave the King a brief explanation of the capabilities of the machine with which he soared, volplaned and dodged in and out between the vessels of the fleet, finally skimming the surface of the sea until he came into the vicinity of a breakwater, over which he leaped.

The Members of Marathon Lodge Knights of Pythias are requested to be at their Lodge Room at 6.30 Sunday evening, May 12th, to join to-gether to attend Knox Church. Every member is requested to attend

CANNOT DECIDE ON CARD GAME

Minneapolis, May 11.—Paragraph 260 of the discipline of the Methodist Episcopal Church still is undecided and the question of whether dancing, card-playing and kindred amusements are to be left only to the "conscience" of the members of the church remains a bone of contention in the committee on the state of the church.

Dr. Leander W. Mulhall of Philadelphia administered a reproof to the College of Bishops of the church when he said in opposing the striking out of the section, that the bishops' duties are such that they "cannot give full consideration to the spiritual affairs of the church and their judgment in this case is not of the best."

Officials Deny Deal.

Hamilton, May 11.—Directors of the Dominion Power & Transmission Co. yesterday denied the story that a deal had been closed by which the Mackenzie-Mann interests had secured control of the Hamilton radial road or any of the other electric lines of the company.

City officials and those in close touch with the situation here, believe that it will not be long before a deal will be made.

Norwegian Crew Save Lives

Halifax, May 11.—The Norwegian steel bark Urbye from Genoa for Bridgewater, with ballast to load for River Platte, ran ashore at Port Beckerton Thursday night in a thick fog and is a total loss. The captain and crew escaped in the ship's boats. The crew arrived in Beckerton safely and left for Halifax to-day.

U.S. SUPREME COURT SENDS F. E. BRANDT BACK TO JAIL

Appellate Division Decides That He Must Resume His Thirty-Year Sentence and That Judge Rosalsky Did Not Exceed His Powers—Effort to Free Him Will Be Kept Up—Governor May Pardon Him.

New York, May 11.—Folke E Brandt, former valet to Mortimer Schiff, was ordered sent back to Dannemara prison by the appellate division of the Supreme Court yesterday. The court was unanimous in dismissing the writ of habeas corpus granted by Justice Gerard.

Two hours after the decision was rendered Brandt was arrested in his home at Flushing, L.I., and taken to the Tombs.

By order of the Appellate Division Court he must be returned to Dannemora, where he was serving a thirty-year term for burglary, to which he was sentenced by Judge Rosalsky on the complaint of Mortimer L Schiff.

Justice Gerard released Brandt in $7,500 bail in habeas corpus proceedings, finding that the former valet had been illegally sentenced for burglary in the first degree by Judge Rosalsky. Bail was furnished by the Empire Security Co. Upon the release of Brandt by Justice Gerard, District Attorney Whitman and Attorney-General Carmody carried an appeal to the Appellate Division, which has sustained their contention that Justice Gerard misinterpreted the legal status of the case.

Five of the justices of the Appellate Division were unanimous in their decision that Brandt should go back to jail, but Justice Ingraham wrote a supplementary opinion to the majority opinion of Justice Miller.

The judgment of the court does not confirm the sentence on a review of the case, but simply determines the legal point whether the sentence was in excess of the original court' spower.

It is scarcely likely that the case will be allowed to remain where it is, and it is possible that Governor Dix may exercise his powers of clemency.

Red Cross and Prisoners.

Washington, May 11.—In order that prisoners of war, as well as those wounded on the battlefield, may receive the benefits of the Red Cross, the International Red Cross conference yesterday adopted a resolution suggesting that the international Red Cross committee of Geneva, an absolutely neutral body, take care of the prisoners of war of both countries engaged.

The resolution was offered by Gen. Michal, head of the French delegation at the conference.

ROOSEVELT THE ONLY CHANCE

New York, May 11.—The Roosevelt committee yesterday gave out a copy of a letter sent to I. A. Caswell, chairman of the Minnesota Roosevelt committee, in which Roosevelt declares that there is just one candidate whom it is possible to nominate against the "bosses," and that is himself. In an analysis of the Presidential situation, he says Taft has carried only two of nine states in which primaries have been held, and has only forty of the 256 delegates chosen.

Asquith In Taft Plot?

London, May 11.—Andrew Bonar Law, the leader of the Opposition in the House of Commons, addressing the annual love feast of the Primrose League, in the Albert Hall yesterday, directly charged Premier Asquith's Government with assisting the United States in its alleged designs on Canada.

Stars and Stripes Lavishly Displayed.

Calgary, Alta., May 11.—The lavish display of the Stars and Stripes and the almost entire absence of Canadian and British emblems at the opening baseball parade through the streets on Wednesday has led to the committee in charge being virtually swamped with letters from indignant citizens. Members of the committee say that the majority of the ball players are from the other side of the line, hence the presence of the numerous American flags.

BRUCE ISMAY WAS CHEERED

Special to the Review.

London, Eng., May 11.—Bruce Ismay Managing Director of the White SStar Line, arrived to-day on the Adriatic and was cheered as he walked down the gang plank by a big crowd which had gathered to greet him. Mr Ismay was pale and haggard and appeared to be greatly affected by the reception.

TAFT'S TOUR OF OHIO

Washington, May 11.—The complete schedule of President Taft's final campaign tour of Ohio before the Presidential primaries there on May 21 was made public last night.

Political advisers of the President regard his visit to his home state as of the highest importance and Mr. Taft probably never has had a more difficult or exacting program of speech-making mapped out for him. From the time he leaves Washington next Sunday afternoon until he returns on the morning of May 22, the President will be on the go practically every minute. His only real rests will be in Cleveland next Thursday and in Cincinnati the following Saturday and one election day, May 21. On every day he speaks he will make ten speeches, except on Sunday, May 18, when he will make twelve, and on Thursday, when he will speak at a big night gathering at Cleveland.

ENGLISHWOMAN IS SENTENCED

Warsaw, Russian Poland, May 11.—Miss Malecka, an English woman, was sentenced yesterday to four years' penal servitude on a charge of being affiliated with the Polish revolutionaries.

Storm of Protest.

London, May 11.—The Liberal morning newspapers protest strongly against the sentencing of Miss Malecka declaring that she was sentenced on the flimsiest of evidence. They demand that the British Foreign Office take strong action against Russia in behalf of the woman.

Miss Malecka was arrested July 4 of last year charged with complicity in plots of the Polish revolutionaries. The British Foreign Office made representations to Russia, which country replied that although Miss Malecka's mother was English and her father a Pole naturalized in England, the father never had received permission to change his nationality, and, therefore, in accordance with British law, his naturalization was ineffective and his daughter was a Russian subject.

PRESIDENT FOR THE G.T.R.

Special to the Review.

London, Eng., May 11.—Chairman Smithers of the Grand Trunk Board, started to-day on his trip to Canada to appoint a successor to the late C. M. Hayes Sir Donald Mann, who accompanied him, declined to discuss a report that it was possible he would be the man chosen.

GOVERNMENT TO RUN THE SCHOOL

Toronto, May 11.—It is understood that the Victoria Industrial School at Mimico will be taken over by the Government and placed under the direct supervision of the Department of Education. This report is based on the result of the recent investigation into conditions existing at the institution. The report of the investigators dealt largely with the discipline of the school, gave suggestions for improvement, and called attention to the misuse of the school in caring for youths with a criminal streak. As the care of these young criminals is one of the purposes of the prison farm at Guelph, it is said that the Government hereafter intends to prevent the commitment of them to the school, there being no means of detention or preventing their escape.

The school is provided with facilities to teach the boys trades and as a result of the investigation it is believed that more facilities will be provided in order to make over unruly boys into good citizens.

Sunday Train For I.C.R.

St. John, N.B., May 11.—Hon. Frank Cochrane, Minister of Railways, before leaving for Moncton and Nova Scotia, to continue an inspection of the Intercolonial Railway, was asked if it was the intention to put on a Sunday train on the Intercolonial.

He said: "Yes, on the main line, but not Halifax and Montreal." He added: "I suppose some of the people down here will be giving me the very dickens about it, but I don't see anything for it but to put on a Sunday train. The passenger traffic is increasing and I think it is up to the I.C.R. to provide more trains."

Found Traces of Arsenic.

Bad Axe, Mich., May 11.—Traces of arsenic were found in the stomach and liver of the late Scyrel Sparling of Ubly, by Chemist R. W. Pryer and Dean Victor C. Vaughan of the University of Michigan, according to their testimony at the trial of Dr. Robert McGregor of London, Ont., charged with the murder of the Sparling youth. Experts also testified that Sparling could not have died from any alleged contagious disease.

Hughes Compromise Candidate?

New York, May 11.—A mass meeting, which an organization of Brooklyn Republicans have been planning to boom Justice Charles E. Hughes of the Supreme Court for the Presidential nomination, has been called off in deference to the wishes of the justice. Should President Taft fail to win out in Ohio, the plans for the rally will be resumed, it is said.

Italian Squadron Off Chios.

London, May 11—A special despatch from Constantinople says that an Italian squadron is off the Island of Chios, in the Aegean Sea. It is reported that the warships are disembarking a large force.

Another Postmaster Accused.

Chatham, May 11.—A. J. Pesha, postmaster at Kent Bridge, is accused of partisanship in the federal elections. This he denies. An investigation will be made.

TITANIC ENQUIRY IN BRITAIN ELICITS STORIES OF COWARDICE

Federation Opens Sessions.

Toronto, May 11.—At the first meeting for organization of the Brotherhood Federation of Canada, held last night in Cooke's Church, Rev. Dr. A. T. Taylor, pastor of the church, and chairman of the provisional committee, presided, and words of greeting were expressed by a number of out-of-town delegates, one man coming from as far west as Regina, and some from as far east as Brockville. About two hundred were present in all, and there will be others arriving to-day from Ottawa, Montreal, and other Canadian points, as well as the big British delegation.

Changes at Kingston "Pen."

Ottawa, May 11.—The investigation into conditions at the Kingston Penitentiary, as the result of the recent escape of the Manitoba convicts will be concluded to-day, and the report will be submitted to the Minister of Justice next week. It is, however, practically certain that Dr. Platt, the warden of the penitentiary, will soon be superannuated. Deputy Warden O'Leary will also, it is said, be retired. Strong influence is being brought to appoint John Hughes, the present secretary, as warden to succeed Dr. Platt.

PRIVATE SALE OF HOUSEHOLD GOODS.

At 195 London-st. Unreserved sale of high grade household goods, must be sold quick. Call afternoons and evenings

PICTURES THAT SPEAK

Special to the Review.

London, Eng., May 11. — Moving pictures that speak were exhibited at the Royal Institute last night. Films were shown of cocks crowing and lions roaring in the den. the sounds being produced with startling realism. The pictures were shown in natural colors.

Engineer Is Injured.

Guelph, May 11.—A yard engine leaving Guelph with a load of hay for the provincial prison farm, crashed into a way freight from Toronto on a sharp curve 100 yards east of Trainor's Cut, about 4.30 p.m. yesterday. Both engineers reversed their levers and with the firemen jumped.

Engineer Williamson of Toronto, who was on the engine of the way freight, was slightly hurt.

The yard engine is badly smashed up, and the tender is lying on the embankment. The car containing the hay was completely demolished.

The cause of the accident is alleged to be a mistake by the operator at Rockwood.

Removing to Brockville.

Stratford, May 11.—Mr. W. H. Wood, boys' secretary of the local Y.M.C.A. for the last three years, has resigned, and will go to Brockville on August 1 as general secretary. Mr. Wood, in addition to being a popular and successful worker with the boys, is a noted athlete, having been the first Canadian to finish in the Olympic marathon in England.

St. Thomas Man Killed.

St. Thomas, May 11.—While returning from his work last night at the Hydro-Electric station at the north of the city, Patrick O'Keefe, aged 35 years, fell from the high Pere Marquette bridge into a deep gully, being instantly killed.

TELEGRAPHIC PARAGRAPHS

The Mexican federal army repulsed the advance guard of the rebels.

Cobourg ratepayers carried the bylaw to exempt the new cannery from taxation.

The Duke of Sutherland, after spending Thursday night in Montreal arrived in Toronto to-day.

Work on the new park on the Plains of Abraham has been commenced by the Dominion Government.

Instructions have been sent out for rushing the work in sinking test piles on the line of the new Welland Canal.

Wm. Wainwright, acting manager of the G.T.R. celebrated his fiftieth anniversary with the G.T.R. yesterday.

Frank Dayton was suffocated in a well at Viking, Alberta, after he and his wife had rescued W. Kirkpatrick, a neighbor, who had fallen in.

To arrange for a celebration of the hundred years of peace between Canada and the United States, a meeting has been summoned at Ottawa on June 4.

The police of Tien Tsin, China, have given warning to the foreign consuls that they expect a mutiny to occur among the troops stationed at Han Chia-Shu.

Executive action pending reports as to his sanity by certain experts, has delayed the transfer of Rev. Clarence Richeson from the county jail to the death cell, where he is to die on May 19.

Reports of suffering from starvation and horrible tales of cannibalism come from the districts of Kiangsu and Anhwei, in China. It is said one-third of the population has already starved to death.

S. J. Rule, a Bathroom Steward, Says Under the Searching Examination of Sir Rufus Isaacs, That There Was a Stampede For Boat No. 15 and Only Eight Women and Children Escaped.

London, May 11.—That all the members of the crew of the Titanic did not act in the manner expected from men of their calling on the night of the disaster is being slowly drawn out from the witnesses at the British Board of Trade enquiry under the searching examination of Sir Rufus Isaacs and other counsel.

From a witness, S. J. Rule, a bathroom steward, it was learned that there was a rush on lifeboat No. 15, and that she left the Titanic with only four or five women and three children, while sixty-one men got away in her.

Rule said that scouts were sent to look for women and children, but they looked on only one deck and then returned.

Sir Rufus Isaacs promised to have every man from boat No. 15 brought before the court as far as possible.

Lord Mersey has decided to inquire thoroughly into the loading of the boats and the failure of those only partially filled to return to pick up those in the water.

So important did the White Star Co. consider the evidence of Charles Hendrickson, one of the firemen of the Titanic, who testified yesterday that his lifeboat had not returned to the scene of the disaster because Sir Cosmo and Lady Duff-Gordon objected that it would be dangerous to do so, that the company's attorney yesterday requested that the cross-examination be postponed. The attorney desired time to consult with the surviving officers who are arriving on the Adriatic. The request was granted.

Ismay Arrives In England.

Southampton, May 11.—The White Star liner Adriatic arrived here from New York at 1.45 o'clock yesterday afternoon. No reporters were permitted to go on board. The passengers report that J Bruce Ismay, managing director of the White Star Line, is in good health. He kept to his own stateroom nearly all the time throughout the voyage, very seldom appearing on deck. Mrs. Ismay went out on the tender to join him.

MANAGER TEMPLIN

Besides leading the local team in the Canadian Ball League, he will play second base.

HOTELMAN MAKES AN ASSIGNMENT

Kingston, May 11.—W. A. Telfer, proprietor of the British American and Frontenac Hotels, has made an assignment. His liabilities are about $22,000. He says he was forced to assign by reason of the hold up of the license for the Frontenac Hotel. For some reason, the license commissioners held over his license for the Frontenac, and Mr. Telfer then blocked the transfer of the British American to Messrs. Halliday and Manley. Halliday is now in charge of both hotels for the creditors.

To Sell Pulp Limit.

Toronto, May 11.—Tenders will be invited by the Provincial Government for the Abitibi pulp limit. It is understood that this is the first step on the part of the Government in its development policy for Northern Ontario, for which $5,000,000 was appropriated at the last session of the Legislature, and was foreshadowed in a speech made by Hon. W. H. Hearst, Minister of Lands, Forests and Mines. Incident to the lease of this limit will be the construction of works at Iroquis Falls, and in order to facilitate the development of the district, special conditions will be attached to the lease.

Horse Distemper

Prince Edward Farmer Solemnly Declares "Nerviline" Is a Specific.

"After fifty years' experience in raising horses I can safely testify that no remedy gives such good results for an all-round stable liniment as Nerviline." Thus opens the very earnest letter of J. J. Evanston, who lives near Wellington, P. E. "I had a very valuable horse that took distemper a month ago, and was afraid I was going to lose him. His throat swelled and hard lumps developed. His nostrils ran and he had a terrible cough. I tried different remedies, but was unable to relieve my horse of his pain and suffering till I started to use Nerviline. I mixed a bottle of Nerviline and sweet oil and rubbed the mixture on the throat and chest three times a day and you would scarcely believe the way that horse picked up. Nerviline cured him. I also have used Nerviline for colic in horses and cows, and earnestly recommend it to every man that is raising stock."

Nerviline CURES QUICKLY

For strains, sprains, swellings, colic, distemper, coughs, and colds, no liniment will prove so efficacious in the stable as "Nerviline"—it's good for man or beast, for internal or external use. Wherever there is pain, Nerviline will cure it. Refuse substitutes. Large bottles 50c, trial size 25c, at all dealers, or The Catarrhozone Co., Kingston, Ont.

CORNS CURED IN 24 HOURS

You can painlessly remove any corn, either hard, soft, or bleeding, by applying Putnam's Corn Extractor. It never burns, leaves no scar, contains no acids; is harmless, because composed only of healing gums and balms. Fifty years in use. Cure guaranteed. Sold by all druggists, 25c bottles. Refuse substitutes.

PUTNAM'S PAINLESS CORN EXTRACTOR

The Daily Review

SATURDAY, MAY 11, 1912.

A NOISY NEIGHBOR

Canada has the same interest in the out-come of the contest now in progress between Taft and Roosevelt as every householder, the world over, has in the question of who is to be his neighbor in the house next to his own. In our domestic life we all love amity and quiet. The fellow next door who is constantly making a noise, belligerent in its nature, while he may not be able to work us any serious damage, is a nuisance. He gets upon our nerves. We do not fancy the man who at every opportunity glowers at us over the back fence as if demanding an apology for our existence in the same world as himself. The feeling that he is at all times ready, upon the slightest provocation or pretense, to hop over the fence and engage us in a pugilistic encounter, is not a comfortable one. We may have no physical fear of him, nothing to dread from such a mix-up, but we love peace and are all for a quiet domestic life. On the other hand we can tolerate with equanimity the dignified adjacent resident who refrains from noise, even when we have reason to know that he is not over friendly to us in the abstract and that he casts covetous glances upon the vegetables growing so luxuriantly in our back garden.

We have had experience of both Taft and Roosevelt occupying, as near neighbors, positions of prominence and power. We know the bellicose colonel of old even as his compatriots came to size him up, as a man dangerous alike to the amity of the world and to the economic conditions of his country. He is the prize jingo in a nation where jingoism is rampant. He loves nothing quite so well as a fight, not so much for the principal involved in the contest, as for sheer love of the excitement. The man's egoism is abnormal. The great trouble has been that his head has swollen under the mistaken belief that party successes in the past have been personal triumphs. He is not the first public man who, fortunate enough to be on the popular side of a great question, is vain enough to suppose that the shrieks of victory are acclaims of the people's belief in his own greatness. Roosevelt has in the past threatened invested capital with every form of pain and penalty. When capital is brow-beaten and bullied into timidity and consequent stagnation, who is it suffers most, the men of money or the working man who, forced into idleness, suffers for the very necessaries of life. Roosevelt as a neighbor may not be able to work us serious injury, but it must be admitted that he cannot fail to get on our nerves.

As in our national, so in our domestic life, we love peace, we cannot but prefer Taft as a contiguous resident. He is at least quiet. He prefers soft peace diplomacy to either verbal or contumacious tumult. He has been in public life long enough to have learned something of the dark ways and the vain tricks of the professional politician put to desperate straits to unify upon some great question the different factions of a once great party almost disintegnated by dissension. Taft is really harmless because he is perfectly helpless either to cajole or coerce this country. He can never force Canada to toe the line which marks the so called parting of the ways any more than he can either by prowess or diplomacy make her a commercial or political "adjunct" of the United States. But, as before hinted, he is averse to tumult. If he should seek to possess himself of the vegetables and the woodpile in our back yard, he would for the purposes of spoilation array himself in the gum shoe and the slouch hat rather than arm himself with murderous weapons and seek to appropriate our property with trumpets blaring defiance. He would not get on our nerves and we like quiet.

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet mailed free.* **The Wood Medicine Co. Toronto, Ont.** (formerly Windsor)

WHAT HE MEANT

What President Taft meant by the expressions in his letter to Mr. Roosevelt the New York Sun tries to explain, the explanation no doubt being meant principally for exportation to this country. It said that he was talking about a trade or business situation and it would have been correct to say that the United States should have been equally "an adjunct of the Dominion." But the President did not think it would have been equally correct to say that; he had no idea that the tail would wag the dog. He explained to his confidential friends and adviser that the commercial centres of Canada would lose the business that gave them their prominence, and that the financial interests of the Dominion would be transferred to Chicago and New York, and that in fact Canada would become "only an adjunct of the United States." When the President took that view of the matter, when he looked forward to Winnipeg, Toronto and Montreal losing their commercial and financial interests, when he expected that United States manufacturers would crowd out Canadian factories—and he said all that—how could he be [illegible] of the opinion that the United States would become in the same sense, an adjunct of Canada? He expected New York and Chicago to gain, but the Canadian cities to suffer loss; he counted upon United States industries expanding their business, but the Canadian industries contracting their output; he founded his arguments upon a Canadian loss that would be a United States gain, and to an extent that would make the Dominion "only an adjunct." Mr. Roosevelt agreed with him, and patted him on the back for promoting a scheme that would be economical and political gain for the States. The Sun's explanation does not explain. The President knew what he meant and said it too plainly for misunderstanding.

NOTE AND COMMENT

With potatoes quoted at $2.50 a bag what boots it where the baseball pennant goes.

It is not the harbor bar, but the Cobalt bar which is moaning loudest at present.

Col. Roosevelt has gone to Oyster Bay for a week's rest. "Rest and the world rests with you."

After all perhaps fighting in the Italian army is little more dangerous than helping to build some of the skyscrapers they are putting up these days.

Another highly capitalized American industry has established a branch in Windsor. Let the people of the border city be duly grateful that Canada is not an "adjunct."

Let us not despair for the heroic motherhood of Canada when a Toronto woman has the temerity to attack, with pugilistic science, a police sergeant of that city and in the police station, too—his own lair, so to speak.

Lord Sackville-West was recalled from Washington by the British Government for interfering in political questions of the United States. Ambassador Bryce perhaps had that fact before his eyes when he remained neutral at the reciprocity issue.

As so the people of Virginia told Sir Wilfrid Laurier they hoped he would be returned to power at the next election. Was it not after all a doubtful compliment? More than one public man has been ruined by the praise of injudicious admirers.

Some one has said that men can rise to sublime heights by making stepping stones of their dead selves. Is Senator Smith striving to use the remains of the gallant officers of the Titanic as a ghastly ladder to attain another term in the United States Senate?

GUARD THEIR HEALTH!

Children Who Grow Very Fast Need Careful Watching.

Next to infancy, the years between ten or twelve and eighteen are the most critical in life, especially for the boys and girls who grow too fast. Rapid growth and the physical changes that are taking place render them particularly liable to weakness and disorders of the digestive system, kidneys or lungs that very frequently, when allowed to run on, condemn them to a lifetime of suffering.

Dr. Morse's Indian Root Pills would make her healthy and happy.

It is most important that at this period of life those organs which carry off the body's waste and impurities—the bowels, the kidneys and the skin—should be kept active and vigorous.

Nothing will do this more effectively than that good old-fashioned remedy, **Dr. Morse's Indian Root Pills.** It acts directly on each of these organs, enabling them to do their work properly, and thus keeps the whole system pure and healthy.

Dr. Morse's Indian Root Pills are still made from precisely the same formula as when our grandparents used them, for nothing better has ever been devised.

Made by W. H. Comstock Co., Ltd., Brockville, Ont., and sold by all dealers at 25c. a box. 13

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

Liverpool Wheat Futures Close Higher, Chicago Lower—Live Stock—Latest Quotations.

CHICAGO, May 10.—Ideal weather for crops shut off buying power in the wheat pit to-day. The market closed weak at prices slanting from last night's level to 1c to 1 1-8c below. All other leading staples, too, scored a decline—corn 1-8c to 3-8c, oats 1-4c to 5-8c and provisions 12 1-2c to 17 1-2c.

Liverpool wheat closed ⅜d lower to ⅛d higher than yesterday, and corn ¼d higher. Paris wheat closed ¼c to ½c lower, Antwerp and Berlin unchanged and Budapest ½c lower.

Montreal Grain and Produce.

MONTREAL, May 10.—There was no improvement in the foreign bids for Manitoba spring wheat. The demand for oats continues fair for nearby shipment, and further sales were made. The butter market is firm under a steady demand for supplies from the west. Cheese is firmer in sympathy with the higher prices paid in the country and the steady demand from abroad. Egg trade active. Demand for provisions good.

Corn—American No. 2 yellow, 88c.

Oats—Canadian western, No. 2, 54½c; do., No. 3, 50½c; extra No. 1 feed, 51½c; No. 2 local white, 50½c; No. 3 local white, 49½c; No. 4 local white, 48½c.

Meredith for Railway Board?

Toronto, May 11.—That Chief Justice Sir William Meredith, on his retirement from the bench, will become head of the Ontario Railway Board, and that Chairman Leitch will become a judge of the High Court, is a rumor which is making its way about legal circles here.

It is pointed out that the duties of the Ontario Railway Board do not call for the traveling which would militate against Sir William Meredith becoming chief of the Dominion Board.

The name of W. J. Hanna is being mentioned as a possible successor to Judge Mabee.

Acute Dyspepsia

Restoration of Stomach Power Comes Quickly With the Right Medicine.

"My food seemed to decompose in my stomach," writes Mr. Ralph Clemmons, of Newbridge, P.O. "I had a stomach that failed in some way to perform its work. Digestion seemed more or less arrested and I grew thin, yellow, nervous. The stomach became distended and impeded apparently the action of the heart, for often at night it would do great stunts. At times I would vomit a mucous mass, and at these times my head ached most terribly. A friend, who had been cured of a similar condition, advised me to take Dr. Hamilton's Pills regularly, which I did. The result in my case was simply marvelous. Dr. Hamilton's Pills removed the cause, strengthened the stomach, excited the liver to normal action, the kidneys were released of excessive work. Health soon glowed within me. I can now eat, sleep, and live like a live man."

Be advised—Use Dr. Hamilton's Pills—they are sure to do you good. 25c per box, at all dealers, or The Catarrhozone Co., Kingston, Canada.

Dr. Hamilton's Pills Cure Indigestion Dyspepsia

DOCTOR ADVISED HER TO TAKE THEM

Dodd's Kidney Pills Cured Mrs. Belliveau's Bright's Disease

Now She Can do any Kind of work—Why Dodd's Kidney Pills Are so Popular

Pre Des Haut, Westmoreland Co., N.B., May 10. (Special).—It is becoming a proverb in New Brunswick that no place is too small to furnish at least one person who owes his or her good health to Dodd's Kidney Pills. And this place is no exception to the rule. Mrs. Dominique J. Belliveau, a well known and highly respected resident, says in an interview:

"I took Dodd's Kidney Pills on the advice of my doctor for Bright's Disease, and I am glad to say three boxes cured me completely. I can do all kinds of work now. I always keep Dodd's Kidney Pills in the house in case we might need them."

Sometimes you wonder why people cured by Dodd's Kidney Pills are so enthusiastic in their praises of them. The reason is that they strike at the root of ill-health. Dodd's Kidney Pills cure the Kidneys. That means that all impurities are strained of the blood. It means pure blood, and pure blood means good health all over the body. Good health means good spirits; hence the enthusiasm.

The Kaiser will introduce foxhunting into Germany, and is importing a pack of hounds.

In order to counteract the rise in the price of meat, the municipality of Madrid proposes to bring the meat trade under its control, and also to slaughter cattle.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

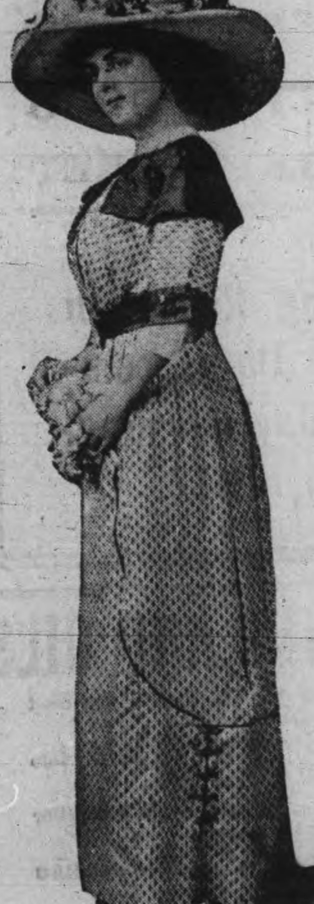
CARDINAL FROCK.

The Latest Style For the Summer Girl.



CHARMING MODEL IN RED AND WHITE FOULARD.

It takes but a few yards of the new wide foulard silk for a dress this year, so simple and scant are the new models. This dainty little dress is of a spotted foulard, with a red pattern on a white ground. The bib shaped panel at the front of the bodice extends down over the skirt and widens out to form a deep band at the foot. The religeuse collar, girdle and cuffs are of red satin, matching a tone of the foulard. The hat is trimmed with red roses and purple pansies.

CURE SICK HEADACHE.

Advice For Business Girl.

Eat the very best food your means will allow. Remember that you are working for your bread, and after you have earned it buy it. Good food comes back in firm flesh, pink cheeks and good spirits, which make you far more attractive and successful than any garment you could possibly buy.

Drink lots of water. If you are afraid of taking on too much weight do not drink with your meals, for that is the time when weight is added.

When working do not eat a heavy lunch. Have a good breakfast, because by the time you get to your work that is partly digested, but if you have a heavy lunch you are apt to feel sleepy. The big meal of the day should come at night.

In these cold days dress warmly. It is true that woolens are not beautiful, but they keep your skin a pretty color, with a smooth, even flow of blood, and they keep you from using up your energy and power in trying to keep warm.

Don't get jaded or overtired. There is no salary big enough to recompense you for that. Sacrifice a little salary for a position less trying if necessary. Ordinary work should not overtire a woman. If it does it is a sign she is not in good condition—she is not getting enough sleep nor food nor fresh air.

Gave Good Weight.

The very latest trick of the trade was taught to the young butcher by the marketman who gave him his first employment. The old dealer pointed to trays of beef, lamb and pork trimmings beneath the counter.

"When customers ask to have all the waste that has been cut from their own meat wrapped up with their order, be sure to put in a few of these trimmings besides," he said. "Most always they want the scraps sent home so they can weigh the whole business and find out whether they are getting full weight or not. Enough extra pieces to tip the scales half an ounce beyond the supposed weight won't hurt anybody, and will give us a good name."

Shortly after that the new clerk heard one frugal housewife say to another, "Oh, why don't you trade at Blank's? He gives such good measure; often almost an ounce more than you pay for."

The clerk smiled.—Boston Herald.

Gifts For the Bride.

Breakfast sets always make acceptable gifts for the bride or for any woman who entertains week end guests. Some sets include the tray, but others require the addition of a white enameled tray or one of wood or of papier mache. An asparagus dish with a well at one side for the melted butter or sauce is exceedingly useful. Cordial glasses with oval cups of green glass that fit down into white crystal standards with silver bases make a beautiful present. Wind shields for kettles are gifts that no housekeeper fails to appreciate. Glass flower bowls with nickel plated woven wire tops to hold the flowers are always useful.

Rural Mail Routes.

Brockville, May 11.—W. C. Riddle, Ottawa, has just completed installing rural mail routes in Waterloo, is now laying out routes in Leeds County, the constituency of Hon. W. T. White.

Milady's Mirror

Make Your Own Rouge.

If you are dissatisfied with the rouge you are using try making your own. A very simple way of preparing a harmless rouge is by tinting a portion of a tried and true cold cream with carmine. Be sure that only the fruit or vegetable tint is procured for tinting purposes. If a poisonous tint is used where a minute break in the skin of the face or lips is present it is liable to result disastrously, causing blood poisoning or chronic skin disease. A vegetable or fruit carmine powder worked into cold cream (not the disappearing kind) until evenly distributed and placed in a rouge box is a safe and delightful toilet adjunct and a benefit to the skin rather than an injury. By mixing equal portions of faintly pink face powder and pure rice powder a wonderfully transparent blush tint is obtained. White, as a rule, shows plainly against the skin, especially if the complexion inclines toward ivory. Pink has the equally undesirable quality of causing a natural flush to appear almost florid, besides giving a note of artificiality to the face. By blending the two and applying the result with a piece of soft white velvet a clear, flesh tone becoming to almost every complexion is acquired.

Care of False Hair.

If neglected the most costly bought hair is soon worthless—worse, disease breeding. The puffs, switch or transformation should be brushed as carefully as the real hair and as often. The best way to do it is to put a towel on the lap or table and, spreading the piece on it, brush with a rubber backed boar bristle brush, wet one side, then the other. This removes tangles and does not tear the hair, as does a comb.

AN INVITATION TO SICKNESS

Thin, Watery Blood Leads to a Breakdown in Health

Thin, impure blood is an invitation to sickness. The blood is at work day and night to maintain the health and any lack of strength or purity in the blood is a weakness in the defense against disease. Anaemia is the doctor's name for lack of blood—watery blood. There may be an actual loss in the quanity of the blood, or one or more of its constituents may be lacking. The surest symptom of anaemia is parlor. The trouble is particularly common among young girls, between the ages of fourteen and eighteen, but is also found in women of all ages, and quite frequently attacks men. It is nearly always present and prevents recovery after grippe, fevers, malaria, and operations and for this reason a tonic medicine is required in all these cases to enrich the blood, build up the nerves, and restore health and strength. And there is no other tonic as good as Dr. Williams' Pink Pills, as has been proved in thousands and thousands of cases, among them that of Miss Annie Turner, Marei Joseph Post Office, N.S., who says—"Dr. Williams' Pink Pills have been of inestimable benefit to me. I was so badly run down that I could hardly go about, was not able to help in the work about the house. As my health grew worse the trouble brought on some species of fit, and when these attacks would come on, I would sometimes remain unconscious for half an hour. After many other medicines had failed to help me, my brother got me a supply of Dr. Williams' Pink Pills and I began taking these. In the course of a few weeks I felt much better, and after taking the Pills for a time longer I was again in the full enjoyment of good health. I feel that I cannot praise Dr. Williams' Pink Pills too highly and I recommend them to all weak girls."

You can get these pills from any medicine dealer or by mail at 50 cents a box, or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Keep Windows Open.

Don't sleep in a closed room.

Fresh air is the basis requisite to good health. A sealed chamber is a breeding place of disease.

The lungs utilize the oxygen they breathe and expel their impurities in your exhalations.

Within an hour a man consumes all the oxygen in the average room. If the windows and transoms are down and the door is shut thereafter he breathes foul poisons.

Rural communities should, by reason of natural advantages, be practically immune from the "white plague," but statistics show a greater percentage of consumptives among farmers than any other class of people.

Who isn't familiar with the deadly parlor, with its stale atmosphere, where for days at a stretch whole generations of malignant germs are permitted to incubate undisturbed. A week often passes without the admission of sunlight. As well spend an afternoon in a smoke filled tunnel as remain in such a pesthole.

Open the windows even in the rain—far better to spoil a few trumpery lace curtains and spot the carpet than jeopardize your health.

The B. and N. railway has been leased to the N.Y., N.H., and A., and will be electrified. A four-track tunnel will be built in Boston.

A WOMAN'S WAY TO GET RELIEF

TAKE GIN PILLS FOR LAME BACK.

TYNESIDE, P. O., ONT.

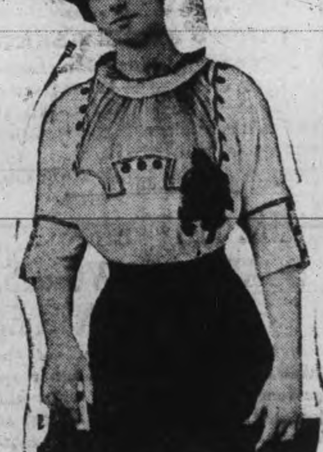
"I received your sample of Gin Pills and after using them, I felt so much better that I got a box at my druggist's and now I am taking the third box. The pain across my back and kidneys has almost entirely gone and I am better than I have been for years. I strongly advise all women who suffer from Pain in the Back and Weak Kidneys, to try Gin Pills". MRS. T. HARRIS.

Gin Pills contain the well known medicinal properties of Gin as well as other curative agents—but do not contain alcohol. Gin Pills are guaranteed by the largest wholesale drug house in the British Empire to give complete satisfaction or money refunded. 50c. box, 6 for $2.50—sample free if you write National Drug and Chemical Co. of Canada, Limited, Dept. B Toronto.

If the bowels are constipated take National Lazy Liver Pills, 25c. box. 98

For Bridge Parties.

For some occult reason known only to the designer of this waist it has been called "the bridge blouse." Possibly the gold buttons arranged as a trimming about the square corsage is supposed to suggest the coin of the realm that at some parties changes hands in a most distressing fashion. The waist is of white chiffon cloth with a front empiecement of black tulle. A big splashing chou of scarlet tulle enlivens this chic waist.



MAGPIE EFFECT IN BLOUSE.

Embroidery on Kid.

Frenchwomen are enthusiastic over the fad of using kid trimmings on their outdoor costumes. But the kid must be embroidered. Soft white or very light colored kid is used and is fashioned into belts, collars and revers bands.

Any shape that suits the fancy is used, but all must correspond. The work is done in silk and metal threads, and the raw edge of the kid is finished off with a cord of heavy thread of dull gold or silver. Any simple design can be worked out, but be sure to let the design be simple. One does not wish to cover too closely the beauty of the kid.

A favorite adaptation of the work is the loose "ceintures," or fronts, worn beneath the fashionable boleros of cloth or velvet.

The kid fits in the space between the fronts of the bolero and reaches to the belt line. It is then embroidered, using white or two tones of silk that correspond with the color of the gown.

Little loops are placed at the sides and these fastened to hooks sewed inside the bolero. Sleeve bands to match add another trig touch to the costume.

The work has many other uses besides dress trimmings. It can be made into charming opera bags, holders for various things or mounted on cardboard for picture frames, fancy boxes, etc.

Thos. Hart, a ship's fireman, supposedly lost with the Titanic, has turned up safe. Somebody had stolen his papers and shipped in his name.

BEAUTIFUL EYES

are made beautiful by long, silky lashes and well defined, lustrous brows. Eyes, like diamonds, depend on their setting. The beauties of the face are lost is the eye brows are thin and scanty, and the lashes are thing and scanty. Parisian Lash Lustre grows beautiful, soft, silky lashes. It has done so for society women throughout Europe, and it comes here well recommended to do the same for you. Parisian Lash Lustre is not a dye or colorator, but a scientific preparation for beautifying the eye lashes and brows. Our guarantee goes with every box of Parisian Lash Lustre. A two weeks' treatment will bring beauty to your eyes that you have never before possessed. By mail, prepaid, in opal boxes on receipt of price, fifty cents. B. V. Marion, sole distributor, Bridgeburg, Ont.

SNOW IN BRITAIN.

English Railways Have Spent Thousands Clearing Their Lines.

The recent severe weather that has been felt practically all over Canada has been of more inconvenience to the railways and has caused them more expense than they have been put to for some years back. A comparison between the conditions as they are in the Dominion and in Great Britain is interesting.

A mild winter is a big boon to the railways, for frost and snow increases their working expenses enormously, and during very severe weather the cost of keeping the traffic moving attains abnormal figures.

During the great storm of January, 1881, the Great Western had fifty passenger trains and a dozen goods trains snowed up at different parts of their system. Over a hundred miles of snow-bound line had to be cleared, and when the bill was paid it came to $250,000. So great was the stoppage caused by that memorable storm, that the Bristol, Exeter, and Plymouth mails were held up for twenty-four hours at Paddington, until the line was partially opened.

During a prolonged storm it is not uncommon for a big railway to spend $7,500 a day in clearing the line, and their most formidable weapon for fighting the battle with the drifts is the snow-plow. Towering 13 feet 6 inches high and weighing, when fully equipped, nearly thirty tons, these huge vehicles, shaped like the bows of a ship, convey an impression of irresistible strength, especially when propelled by two or three engines.

A railway snow-plow is built on a massive iron frame, carried on small bogie wheels, just clearing rail level. The steel cutting edge rises perpendicularly between inclined plates, tapering outwards to throw the snow clear of the line.

Within the hollow body of the snow-plow there is accommodation for about forty men. Cushioned box seats, making in emergency, not bad sleeping bunks, are arranged round the sides. Inside them are scores of shovels and picks, also screw jacks and "ramps" for lifting derailed vehicles. A good supply of provisions, provided by the railway company, is taken "on board" before starting on a journey, which in rough weather may extend for days. Two of the gang take turns at preparing meals, for which purpose the snow-plow is furnished with a large stove.

When under way, and traveling over smooth, dry snow, the sensation inside a plow is rather unique. The snow, divided by the cutting-edge, streams up the inclined planes in twin torrents. Where drifts abound, full steam is put on, and, with a rush, the enormous weight of the engines and plow, often three hundred tons or more, is hurled against the obstruction. The plow buries itself in the drift. The speed slackens more and more. The attendant engines pant fiercely. Round whirl the wheels, slipping on the wet rails. Vainly, with spur of fire, the drivers urge on their iron steeds. But the compact phalanx of snowflakes conquer, and the snow-plow, big as it is, has to be ignominiously backed out, retreated down the line, and with a flying start returns again to the attack.

DIABETES

Sarol's Antidiabetes, the great discovery of a German Specialist, is the only practical and thoroughly tested Remedy for Diabetes-mellitus. It has a specific action against the poisons of the disease, and by its use the secretion of sugar almost immediately abates and disappears altogether after a short time. So long as the disease has not reached its last stages, a cure can be effected with "Sarol's Antidiabetes."

Open wounds heal after a little time, the disagreeable thirst disappears, after a few days the general health of the patient becomes speedily improved.

Sarol's Antidiabetes is used with an alternate diet regimen based on long experience in the study of this disease.

All sufferers from this terrible and hitherto considered incurable disease should not hesitate to give "Sanol's Antidiabetes" a trial, as we feel absolutely certain that it will justify all the claims we make for it.

This remedy is perfectly harmless to the organic system, being composed only of herbs and extracts, and containing no poisonous or injurious matter whatever.

Further particulars free from the Sarol Mfg. Co., Winnipeg, Man.

Sansol's Antidiabetes in liquid $2.00 per bottle from Druggists.

McDermid & Jury, Druggists, etc., Peterborough.

Notice to Creditors

In the matter of the Estate of MARY ANN TIGHE, late of the Township of Dummer in the County of Peterborough, Widow, deceased.

NOTICE is hereby given that all persons having any claims or demands against the Estate of Mary Ann Tighe, late of the Township of Dummer, in the County of Peterborough, widow, deceased, who died on or about the 9th day of March, 1912, are required to send by post prepaid, or to deliver to the undersigned, solicitor for Richard Deen of the said Township of Dummer, Township Clerk, Executor of the said estate, **on or before the 1st day of July, 1912**, their names and addresses, with full particulars of their claims, in writing and the nature of security, if any, held by them.

And take notice that after the said 1st day of July 1912, the said Executor will proceed to distribute the estate of the deceased among the parties entitled thereto, having regard only to the claims of which he shall then have notice, and that the said Executor will not be liable for the said estate or the assets thereof to any person of whose claim he shall not then have received notice.

Dated at Lakefield, Ontario, this 18th day of April, 1912.

O. A. LANGLEY,
Lakefield, Ontario,
Solicitor for the said Executor.

CONCERNING YOUR EYES

Good eyesight is essential to health, comfort and appearance. Have you ever noticed a strained look on your face, or your friend's? Usually this comes from eyestrain. More wrinkles are caused by eyestrain than by age. Thousands unconsciously squint in an effort to adapt the eyes to the surroundings. Success in releaving eyestrain depends entirely upon the OPTICAL SKILL of the Specialist who prescribes the glasses. Neglect of the eyes many times leads to surgical operations, which glasses worn in time may prevent. We correct errors of vision by means of properly fitted lenses.

We have every modern appliance for accurate eyesight testing, and we grind all our own lenses. Thus assuring you accuracy and promptness. All work guaranteed.

EVANGELIST COMING TO THE CITY IN JUNE

Mr. Douglas Russel, a noted evangelist of Weston, England, is to visit Peterborough about the first of June and many of the older residents of the city will hail his coming with pleasure, remembering his work here thirty-five years ago when, with Mr. Carle, he was touring this country on evangelistic work.

Mr. Russel came to Canada on a business trip a couple of weeks ago on the Royal George and intends to return on that steamer about the 12th of June.

During his short stay in Peterborough he will address four meetings in the Gospel Hall, the dates of which will be announced later.

FROM THE CRADLE TO THE GALLOWS AND TO HONOR

To-night and to-morrow afternoon at the Salvation Army Temple, the editor of the War Cry will give interesting addresses on subjects of human interest and his talks will be illustrated by the artist of the War Cry.

To-night his address will be "From the Cradle to the Gallows and to honor." To-morrow he will speak on "London's Bedless Ten Thousand."

On Sunday night "Lessons From the Titanic Disaster," will be the subject of a fine address. Everyone is cordially invited to attend.

ORCHESTRA GAVE HASTINGS PEOPLE FINE TREAT

An orchestra of local talent, assisted by soloists from the Peterborough Conservatory of Music, journeyed to Hastings yesterday, where they supplied a high class program in the Grand Opera House, in the evening, scoring a big success, and creating a very favorable impression. The program was under the direction of Mr. Rupert Gliddon, of the Conservatory. Assisting in the program were Miss Choate, Miss Chalmers, Mr. Hoycke, Mr. Wilson and Otto and Paul Gliddon.

COSTS $2 TO WALK ACROSS C.P.R. BRIDGE

That the law is no respector of persons was evidenced at police court this morning, when a young lady, who trespassed on the C.P.R. bridge was fined $2.

There have been several fines meted out for transgressors at this point.

THE MARKET

The market this morning was large, there being a considerable offering of butter, eggs and poultry. The first appearance of rhubarb, horse radish, and onions was noticed. The potatoes were plentiful, but the price was not enticing.

To-day's prices were:
Eggs, per dozen—22, 23 and 24c.
Butter per lb—27, 28 and 29c.
Chickens, per pair—$1.60, $1.50 and $1.25.
Potatoes per bag—$2.00 and $2.40.

MOTHERS' DAY

To-morrow morning at the eleven o'clock service in Murray street Baptist church, a special Mothers' Day service will be held, the pastor, Rev. J. R. Webb, preaching a specially prepared sermon appropriate to the occasion. Every parent in the congregation is asked to make an effort to be present, accompanied by their children.

DANTE'S INFERNO

A theatrical attraction which has the unqualified and unanimous commendation of the best elements in the community, is a rarity indeed. Such an attration is Dante's "Inferno," presented for the moving picture by a distinguished company of Italian artists, who have devoted their gifts, their time and their money to the achievement. After a period of two years, success crowned their efforts, and they gave to the world a marvelous reproduction of Dante's "Inferno." Nothing was left to chance or accident in the preparation of the work, but on the contrary, the slightest detail was given the most careful attention, and as the production now stands, and as it will be shown on the 17th and 18th May, at the Grand Opera House, it may safely invite the criticism, not only of the public at large, but of every Dante scholar in the land.

It would be impossible within the limitation of a short paragraph to go into the contents of the "Inferno" as filmed by the Milano-Films Company. While the creation must necessarily prove a special attraction to readers of Dante, it will be of interest to every man, woman and child, and the full and explanatory lecture delivered by a noted orator, makes every situation plain and clear. A special music program, the work of a noted Italian composer, will also be heard. Special matinee at 2.30 Saturday afternoon.

Retrospective Luncheon

The Willing Workers of Murray street Baptist Church will serve luncheon at 7.30 Friday evening, May 17, after which a program, suitable to the occasion, will be given. This will consist of addresses by Rev. O. G. Smith and several local gentlemen and several good musical numbers. Admission 25 cents 3d

FOUR CARS LEFT THE TRACK NEAR BIRDSALL

The traffic on the Belleville line was delayed for some hours yesterday because of a small wreck near Birdsall station. A west bound freight train between here and Hastings had four cars leave the track and plunge down a bank into the fields breaking down a fence in the course. The cause was a broken flange on a wheel of one of the freight cars, and the track for a distance of seventy five feet was torn up and some of it carried down into the field.

The auxiliary train from Lindsay arrived on the scene shortly before twelve o'clock and immediately set to work to clear away the debris and repair the track. The passengers on the noon, the 1.40 train and the afternoon, were forced to transfer to a train waiting at the other side of the track. No one was injured when the cars ran off the track. The engine did not leave the track.

WAS DRUNK IN LOCAL OPTION MUNICIPALITY

Harold Coons, of the village of Bridgenorth, was fined $20 and costs amounting to $22.[illegible] Police Court this morning. The amount is to be paid in fifteen days.

He was charged with being drunk in a local option municipality.

TRIP TO STONEY LAKE

On Tuesday May 14th the Str. Islinda will leave Lakefield on arrival of morning train for the lake, returning to connect with 4.40 p.m. train

2d. **Stoney Lake Nav. Co.**

SOME MATTERS BOARD OF WORKS WILL CONSIDER

A thorough inspection of the streets, sidewalks, and all other appurtenances of the city, under the jurisdiction of the City Board of Works was made yesterday, the committee being out all day. The trip around was made in a 'bus. A very large number of recmmendations were brought in, the majority of which were for gravelling roads wherever required, putting in surface drains and catch basins, installing culverts, and in other ways bringing in suggestions for the general betterment of the city.

Some of the suggestions were, that George street, south of Lake, be gravelled, and a fence placed in front of the yard at the sewage pumping station; that two catch basins be put in to connect with the surface drain at the corner of Aylmer street; that a bridge be rebuilt north of McFarlane street over the culvert, and that a wooden sidewalk be built on the east side of Park street, and cement crossings at the C.G.E. gate.

Mrs. Burnett's Marmalade Recipe.

Friends who have been guests of Mrs. Frances Hodgson Burnett at Plandome, her Long Island home, are enthusiastic over her delicious marmalade, a specialty of the house.

The following recipe for its making was unselfishly given by Mrs. Burnett's sister:

One large orange, one lemon, one grapefruit. Clean the fruit thoroughly with brush and water; cut in halves, remove all seeds and as much of the white skin as possible (do not peel). Then put through the meat chopper.

To one cupful of pulp add three cupfuls of water. Put in skillet and boil up quickly to skim off the froth. Set the skillet where it will boil slowly for two hours. Then take from the stove. Let the mixtures stand overnight.

The next day add one cupful of sugar to one of juice and again get it to the boiling point quickly for a second skimming. After this boil slowly for about three hours or until it has thickened to marmalade consistency.

This quantity of ordinary sized fruit will make eight half pint tumblers of marmalade.

Beauty Hint For Thin Girl.

The thin girl in the morning, after a sponge bath with a thorough rub, should drink half a glassful of comfortably hot water. When appetite is felt a soft boiled egg, a piece of whole wheat bread thoroughly baked and well buttered and, a little while after, a glass of cool water, not iced, may be taken. The noonday meal should consist of a good clear beef soup, a broiled steak or roast beef, a little boiled rice, a lettuce salad with olive oil dressing and some simple dessert; for supper beef or mutton boiled and good whole wheat bread well buttered. At the close of this meal a cup of hot chocolate is taken and another of hot milk on retiring.

LIQUOR TRAFFIC

Supplied by the W.C.T.U.

With the steady decline in tuberculosis of recent years there has been a regular decline in the number of public houses. Since 1904 there has been a net decrease approximating to more than 8,000. There has also been a decrease in the annual alcoholic drink bill during the past twelve years of no less than £30,000,000 (thirty million) pounds sterling. A lessening drink bill, with a lessening number of facilities, has tendedt o a better condition of social life all round. It is hoped, as public education grows and is focussed upon this agency for disease spreading, viz., the licensed liquor shop, there will continue to be even a further and greater reduction of the mere alehouse and beer-tippling centres that are still far too numerous in our large centres of population.

OPINIONS OF EXPERTS.

On the question of the relation of these places to the spread of consumption or tuberculosis, we have indisputable and introvertible evidence.

Dr. Howarth, the County Medical Officer of Health for Kent, is reported to have said (South-Eastern Gazette, May 3, 1910): "That nearly a thousand deaths occurred in the county, or about 200 more than other infectious diseases combined."

Another medical officer in Kent, viz., Dr. Davis, of Woolwich, has rendered most valuable service to the community by careful inquiry and analysis on this question. In his annual reports for the years 1903 and upward, we find frequent reference to the relation, and that a very close one, between the tavern, the taproom and consumption. He (Dr. Davis), inform us; That 33 per cent. of notified cases were intemperate, 90 per cent. habitual drinkers, and as such frequenters of public-houses."—Annual Report 1903. Again: "Samples from the bar sweepings of six public-houses were examined by inoculation experiments, and the tubercle bacillus was found in two of them During the past two years six deaths have occurred among persons engaged in the drink traffic, giving a mortality of 3.8 per 1000 so employed, or nearly three times the mortality of the borough of Woolwich. The death-rate in the borough was 1.1, or 1.39 per 1,000 during the same period."—Report for 1903. The report for 1904 confirmed 1903: "The public-house is an important, if not the principal source of infection."

An excess of phthisis or consumption among the intemperate, those employed in the liquor trade, casual laborers, and those specially exposed to temptation to drink, is noted. "During the past three years there have been eleven deaths from phtisis among persons employed in the liquor trade, giving a mortality of 15.2 per 1,000 employed, which is ten times the mortality of the borough, and five times the mortality of the population between the ages of 20 and 65 years.

One of the most distressing and disgraceful features of our licensing system is the forcing of liquor shops in greatest numbers where the people are poorest and least able to resist the temptations. Upon our licensing magistrates rests an awful and solemn responsibility on this pressing problem. They deserve, and ought to continue to have, the support of all who seek to reduce these places. There the "pubs" are most numerous, generally speaking, the death rate rate from consumption is highest.

"To frequent a public house is one of the most certain ways of receiving larger cases of infection."

Sir Victor Horsley, M.D., states: "The susceptibility of the lungs of those who indulge in alcohol explains the high death rate from consumption that exists in places where it is freely taken."

Professor Osler in "Principles and Practice of Medicine," writes: "It was formerly thought that alcohol was antagonistic to tuberculosis diseases, but the observation of later years indicates clearly that chronic drinkers are much more liable to acute and pulmonary tuberculosis."

PIONEER.

CHILDREN'S FESTIVAL

Given by chorus and orchestra of 150 little people, introducing Mother Goose and what she did, Teddy Bears, vocal, violin, cello, clarionette, cornet and piano solos. Conservatory of Music Hall, Friday evening May 17, at 8 o'clock; Saturday afternoon, May 18, at 3 o'clock. Admission, adults 25c, children, 2 for 25c. Under direction of Miss Dean and Mr. Gliddon.

LOCAL NEWS ITEMS

Monday, May 13th, is the birth day of Rev. Patrick Morgan, which he will celebrate in Peterborough at Park street Baptist church. Just how old Rev. Mr Morgan is, could not be ascertained, but in appearance he is remarkably well preserved, and when required can exhibit plenty of vigor and youthful fire.

PAYING CANADA'S RENT

HOW THE ABORIGINE IS RECOUPED FOR HIS LOST LANDS.

Four Dollars a Year Per Man, Woman and Child, Free Schooling, Medicine and Aid In Time of Dire Necessity Is What the Dominion Gives Him — He Seems Content and Happy on His Allowance.

You have heard of Canada's duty to herself—and of Canada's duty to the Empire. You have gloated over her natural resources, you have debated hotly the question of reciprocity and its probable bearing upon the future welfare of the country. But was it ever brought home to you, prosperous Canada, that this Canada of yours is not yours after all; that it is a leasehold property, leased by the many from the few, and that you pay every [illegible] a portion of the rent?

[illegible] are but tenants in the land [illegible] we so proudly call our own. [illegible] many miles to the northward, [illegible] a simple life in tents and lowly shacks, dwell our landlords. They are not harsh and overbearing, these owners of our soil; nay, rather are they humble and submissive in spirit, thankfully accepting from their tenants a paltry handful of crumbs, let fall from the heaped-up table of the land's fruitage, the fullness of which they were incapable of reaping for themselves.

Among the Cabinet Ministers of the Dominion of Canada is numbered the Minister of the Interior. From his office at Ottawa he directs those administrative departments which come under his control. The Department of Indian Affairs is one of these. It is presided over by a Deputy Minister and carries on its work through the medium of Indian agents distributed throughout Canada, and one of the most important duties of each agent consists in "paying off" the Indians in his district, according to the treaties made at different times in the past between the redmen and the whites.

James Henry Pedley in a recent article in The Saturday Glabe thus vividly describes such ceremony at Flying Post, New Ontario, last summer:

"A hush, then at a word from the interpreter a young man detaches himself from one of the groups and saunters forward, tugging at the knot in a bandana handkerchief he carries. This, opened and unwound, he hands to the agent a small blue ticket, which will be found to bear the printed words "The James Bay Treaty," and in manuscript the number which is his on the official books and his name, John Wolf. The books show that last year he was paid twenty dollars, his offspring numbering three. To find what changes, if any, have taken place during the last twelve months is the task of the interpreter. A short colloquy in Ojibway, then the interpreter turns to announce that, although one of the children died—tuberculosis—in the spring, the family still shelters five members and points in explanation to a papoose which its mother is rocking to sleep nearby. The birth and death duly recorded, the clerk with ostentation counts out twenty dollars into the father's hand and sees them folded up along with the blue ticket in the big red handkerchief. The full-bred Indian whether from trustful courtesy or ignorance, or both seldom counts the money we pay him. Honest himself (and no one is more so than he), he has perhaps not learned, though he has had many an opportunity, that all men are not as conscientious as he is.

"Another summons, and another paterfamilias lounges forward, his halting feet and impassive countenance giving one the impression of extreme boredness, but that is the way of his race and must be so interpreted. The former process is repeated, except that this time it is an elderly man who stands before us and his family has grown up. One of his daughters, moreover, has found a husband since last pay-day with whom she will henceforth be paid. This worthy advances next to receive a ticket (heretofore he has been paid under his father's name) and to have himself set down as the head of a family. Pride—the one emotion which the redskin does not blush to reveal —shines from his countenance, and it is with a great show of dignity that he takes his eight dollars and bears the sum off to his "woman."

"After the family men have all been paid come the widows and the orphans and the lone old men of the tribe. Here is a woman who last year received twenty-four dollars. But in the early fall, as the family journeyed toward the hunting grounds, her eldest son, the provider, was drowned. None of the others was as yet old enough to hunt successfully. The tubercule germ breeds fast in a stuffy wigwam, and it delights to prey on ill-nourished bodies. With the spring the mother returned from the bush—alone; her hand shook as she took the four dollars given her, and hobbled back to sit silent among the jabbering squaws. Many are the bashful youngsters dragged forward by stern guardians, and made deliver up the tickets which they hold crushed in tight-clenched hands. The bush is a cruel dwelling place, even to the men whom it has reared, and many a father meets his death before his children have learned to know him.

"There is little or no attempt at deceit, so great is the respect for truth which obtains among these "uncivilized" peoples of the north. Finally, when all have been paid, the Factor, who has watched the proceedings from the doorway of his store, presents the tickets of such absentees as have left them in his hands, and receives the money called for. Payment for 1911 is complete."

PAY AS YOU ENTER CARS ARE NOW IN OPERATION ON THE GEORGE STREET LINE

Commencing this morning the Peterborough Radial Railway Company placed on the George street section of their system, three commodious, handsomely equipped, and thoroughly modern trolley cars of the "Pay-as-You-Enter" plan, similar to those commonly in vogue in all the larger cities. The introduction of the system of "Pay-as-You-Enter" by the local radial company will be found to give general satisfaction, and be much more convenient than the old system, if passengers will exercise their "peepers" and accede to a couple of simple regulations, necessary to make the new plan harmonious to all.

In the first place, any person wishing to enter a "May-as-You-Enter" trolley, should remember to stand on the east side of the George street crossings, when the car is proceeding northward, and on the west side when wishing to board the car going south.

The rear vestibules of the new trolleys are of sufficiently ample dimensions to allow plenty of room for passengers to enter and deposit their fares, without crowding. There are two doors at the rear, but passengers enter always through the door nearest the back of the car, and never under any circumstances will it be permitted by the company to board the trolley through any other entrance way. A brass railing separates the two doors. The conductor is inside this railing, and the money box is fitted into a case on the brass rod.

It will be the wisest and most convenient plan for intending passengers before boarding their car to be ready with their fare. As they enter, then, they will simply deposit their money, pass into the car, and not be subject to further disturbance, until they reach their alighting point. The advantage of this, over the other plan of having the conductor circulate through the car, often crowded, in the endeavor to gather the fares, will be readily recognized.

Another rule passengers should be guided by, is that no one can enter by the door at the front of the cars to the right of the motorman. When necessary however, they may alight at this door, which is opened by a lever, operated by the motorman. Passengers cannot open this door, which is intended solely for "exeunt" purposes. To ensure this, there is no handle to it inside, or outside. It is operated on the sliding plan.

A Review representative enjoyed a trip on the first car this morning, accompanied by Mr. J. H. Munro, manager of the Company, who thoroughly pointed out some of the conveniences which the new cars offered and their suepriority over the others. Passengers will immediately notice a great diminition of bumping and jarring, a much smoother and more agreeable ride on the new cars being assured. This will be doubly a fact, when certain improvements to the road-bed contemplated by the company are completed.

The completion of the "Y" which has been under construction at the northern terminus of the George st. line, has rendered possible the introduction of the Pay-as-you-enter system.

BYERSVILLE LINE

The Company now are able to turn their cars at every end of the line. The extension of the Byersville line is being rushed, and the rails will be to Albert street on Monday. This extension will represent about four-fifths of a mile of trackage added to the mileage of the Radial Company's system

The ventilation of the car by small windows along the sides at the top, which open slantingly at one end, are also superior to the present car windows opening inward. The new vehicles are also slightly wider, and the seats are of the regular retan material.

When the time arrives and circumstances warrant it, the Company will equip the service throughout, with cars of the Pay-as-you-enter type, and which can be easily prophesied to prove of general satisfaction.

MARLBOROUGH CLUB HELD SMOKER IN HONOR OF THE WHITE CAPS

The members of the Marlborough Club upheld their reputation as entertainers last night, when they had as their guests, officers and players of the Peterborough Ball Club, twenty-five members of the Belmont Club and other friends, all making up a happy and sociable crowd of one hundred and fifty.

The boys did their work well and no one was in danger of freezing up.

The first part of the evening was spent in progressive euchre. Those who did not care to manipulate the pasteboards, directed their zeal at the billiard tables. Later, refreshments were served and the program proceeded, President Dinsdale welcoming all the boys and announcing the prize winners of the euchre contest, they being Messrs. Haig and Girvin, who took first and the booby respectively.

Those contributing to the program were, Tucker's Orchestra, Messrs. Donaldson and Ayers, from the Red Mill, W. McIlroy, Teddy Crowe, Reg. Deakin, Jimmie Callaghan, Frank Clarke, George Lynch, C. Barrett, W. Pratt and R. G. Langford and Eddie Desautel.

Short speeches of congratulation and thanks to the Marlborough Club were made by Messrs. Templin, Quinlan, Calvin Fee and McIlroy. Someone suggested that Jim Mooney should exhibit his vocal powers, but the crowd wouldn't stand for it.

The affair was brought to a close with cheers by the ball players for the Club, and similar vociferous greeting to the ball players, and the singing of the National Anthem.

Mr. Fred Lownds, pianist at the Red Mill, supplied the accompaniments.

MILLINERY

Our latest shipment of high-grade Millinery for summer wear has arrived and is now ready for your inspection at the Peterborough Millinery Parlors. Mrs. W. B. ARMSTRONG, 435 George St. Upstairs in old T. A. S. Rooms.

WHO'S COMING AND GOING

Mr. J. A. Sexsmith, M.P., is in the city to-day.

Mr. John Artick, of Ottawa, is registered at the National.

Mr. T. E. Warren, of Toronto, is in the city on business.

Mr. D. W. McLachlan, of Ottawa, is in the city to-day on business.

Mr. Percy Earl of Montreal, and formerly of this city, was in Peterborough yesterday, the guest of friends here.

The numerous friends of Mr. Walter Metheral, will regret to learn that he was taken to the Nicholls Hospital this morning in Belleghem's private ambulance. He is suffering from an attack of appendicitis.

The many friends in the city will be pleased to hear of the success of Harold W. E. Young, son of Rev. W. R. Young of Montreal, formerly of this city. The results of the McGill University examinations, published today, announce the fact that Harold W. Young graduates as Bachelor of Arts with first class honors in history and English. Harold's many friends in the city will be pleased to hear of his success.

Count the cups and count the cost. Much is saved by using "SALADA" Tea. Sold only in sealed lead packets.

FRAMED PICTURE FOR FIRST HOME RUN FOR WHITE CAPS

To the first player of the Peterborough White Caps who clouts out a home run at Riverside Park, "Doc" McFadden, of McFadden's furniture establishment, will present an enlargement of Manager Templin, the picture being framed. "Doc" has showed his interest in amateur ball in Peterborough on former occasions by hanging up prizes.

What a man can never see is that, maybe, it's no worse for the baby to cry, than for him to swear.

THE MOTH MILLER.

Watch Out For This Insidious Little Destroyer.

We are all familiar with the moth miller seen flitting about in the early dusk during late spring and early summer. If when a closet door opens a number of these moths flutter out we may rest assured that mischief has been brewing there. Not that this moth itself has done or can do any injury. Its work is to lay the little white eggs in fur or wool, wherever it can find a place. These eggs hatch twice (during the spring and early summer) into tiny grubs or caterpillars, and they do the mischief.

Almost the first work of the caterpillar after hatching from the egg is to eat holes in the material on which it nests. With that wool or fur it eats is spun a little sheath or cocoon, and this sheath shows as the insect grows. After awhile it leaves its cocoon and hatches into a moth.

The period of development depends upon the temperature. In this climate there are two hatching times in one season. But the insect is sensitive to cold and does not develop unless the temperature is above 60 degrees; hence has come the practice of placing furs and valuable rugs in cold storage, where, if already infected with eggs, no hatching can take place.

It behooves all home keepers to put all winter clothing away early—before these little pests get busy. In houses that are kept too warm there is danger of constant hatching of eggs, but, as a general rule, they do not hatch till early spring.

To prevent all moth eating clothing should while the days are yet cool be thoroughly cleaned, brushed and aired in the sun and whipped so that any eggs may be dislodged. They should then be put away in some way that will keep the air from them.

Paper bags sealed at the top and boxes with covers sealed with strips of paper are best for furs and feathers. Newspapers and cotton cloths are excellent to wrap garments in, as moths will not touch either.

Carpets and rugs need particular attention and should be given frequent beatings in the sunlight. Many people spray all clothing with gasoline before putting away for the summer, and carpets and rugs may safely be treated in this way. Camphor and moth balls are of absolutely no use if eggs are in the garments when they are put away. The only use of camphor is that it repels the moth by its odor and no moth will go near it.

The man who hesitates may win by watching others lose.

When a New Perfection Comes in at the Door Heat and Dirt Fly Out at the Window.

What would it mean to you to have heat and dirt banished from your kitchen this summer—to be free from the blazing range, free from ashes and soot?

This Stove saves Time
It saves Labor
It saves Fuel
It saves—YOU

Made with 1, 2 and 3 burners, with long, enameled, turquoise-blue chimneys. Handsomely finished throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with drop shelves, towel racks, etc.

All dealers carry the New Perfection Stove. Free Cook-Book with every stove. Cook-Book also given to anyone sending 5 cents to cover mailing cost.

New Perfection
WICK BLUE FLAME
Oil Cook-stove

With the New Perfection Oven, the New Perfection Stove is the most complete cooking device on the market. It is just as quick and handy, too, for washing and ironing.

S. CENTRALS TOOK FIRST OF SENIOR BALL LEAGUE SERIES WITH EIGHT RUNS TO SPARE

Nineteen to eleven in favor of the South Centrals with an innings to spare was the result of the opening game in the senior Public School League played yesterday afternoon at the Oval between the St. Peter's and the South Central School teams.

The game up to the sixth innings was close and a fair exhibition of baseball though at times the fielding on both sides was shaky and the throwing to the bags wild. The South Centrals had nothing on the Saints in fielding, but they plugged hard and chased around the circuit in a manner that put them on top at the finish.

Clancy, in the box for the boys from the hill, pitched a good game, using lots of steam, but throwing wild at intervals. If he had twirled the whole game he might have copped the big end of the score for his supporters. Richardson who did the bombarding for the South Centrals, pitched a consistent game, and though sometimes he was roughly handled, his showing, considering that his support was often very weak, was on the whole very creditable. Richardson's handling of the hot grounders that came his way was responsible for thirteen outs, and was a feature of the game. Wolff, for the Saints, played a stellar game on the sack, getting off with some quick and heady plays. He failed, however, in the slinger's box on relieving Clancy, but his batting was strong the whole game.

"Scorcher" Barclay pulled off some real classy stunts at short, and Neill and Williamson both took into custody some beautiful flies. Galvin and Grady on third and second were always on the job and Embury at short gave Clancy some good support.

The teams were:

H. Wolff	pitcher	Richardson
C. Wolff	catcher	Boden
Clancy	1st	Jackson
Grady	2nd	Stevenson
Galvin	3rd	Smith
Embury	short-stop	Barclay
Rutherford	right field	Clark
Corbett	left field	Neill
Auger	centre field	Williamson

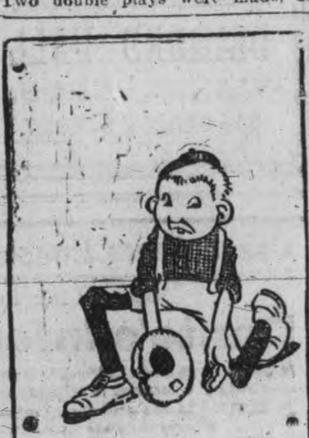
THE GAME.

The Saints went first to bat. Two men went down with no scores when the Centrals fielding went to pieces, and the Westerners circled the sack three times before they were called upon to take the field. The South Centrals came back with one run. In the second the Westerners swatted hard again and three more runs were annexed. The southern boys and St. Peter's kept the scoring even till the sixth innings, when Wolff went in the box for St. Peter's. The first two men he let walk, when Smith came up and clouted out a three bagger. Richardson followed with a home run over centre field. In this innings the South Centrals secured seven runs, silencing the Saint's rooters and putting their team away in the hole. In the last the losers could only bring one man across the par.

Two double plays were made, one by each team. The score by innings was:

South Centrals	133327x	19
St. Peter's	3312101	11

The next game is on Tuesday next between the Centrals and the South Centrals.



CLARE WOLFF.
The diminutive backstop for St. Peter's, caught well.

BREEZES FROM THE DIAMOND

In their jaunts around the circuit, after the Canadian League pennant, the Peterborough Ball Club will travel something like 5,800 miles, being next to Ottawa, which Club will do the greatest travelling, to complete the schedule. St. Thomas will do the tourist act to the extent of 4,800 miles, while Hamilton and London do the least travelling, their distances being 3,100 and 3,200 miles respectively.

Managers Templin and Lee are to combine their efforts in the direction of raising the Union Jack on the grandstand flag pole at Hamilton on Tuesday, the opening day. The Hams are preparing for a big time. Mayor Lees is to pitch the first ball, after a parade to the ball grounds by the two teams.

They are having an investigation of baseball betting in New York at present. It has come to light that the pool rooms are conducting pools on the big league games and that bets amounting up in the hundred thousands are registered every day. The police are trying to cope with the situation.

In a closely contested game the regulars slipped one over on the yannigans by the narrow margin of 1 to 0, at the Oval yesterday. It was a pitcher's battle all the way, both pitchers working in the best form in both pitching and fielding. Bartlett and Davis pulled off some sensational stops and their work pleased the fans very much.

The regulars took the lead in the first innings and held on till the end. The last innings looked like a run for the yannigans. Bartlett doubled and took third on an error and tried to score on Scull's intended sacrifice, but was caught at the plate. Davis struck out eight, while Bartlett fanned seven.

The regulars went first to bat. Schwartz hit to left; Hartman sacrificed; Creswell dropped Tully's fly to right and Schwartz scored. Tully was caught at third and Templin flied out to Derr. One run.

In the second half Scull struck out, Baver grounded to Davis and Schaeffer struck out. No runs.

Mooney fumbled Dolan's bunt, Beard fanned, Johnston put a fly up to Derr and Brode fanned. No runs.

Mooney struck out; Quinlan struck out and Ulmer popped one to Tully. No runs.

Davis fanned, Schwartz grounded to Baver, and Hartman grounded to Bartlett. No runs.

Creswell grounded to Davis; Derr smashed out a double, Bartlett grounded to Hartman and Scull put up a high foul to Brode. No runs.

Tully drew a pass, but was caught at second; Templin fanned and Dolan put a fly up to Derr.

Baver grounded out, Davis to Dolan. Schaeffer struck out and Mooney flied out to Templin.

Beard struck out. Johnson grounded to Bartlett. Brode grounded out, Ulmer to Scull. No runs.

Quinlan struck out, Ulmer popped one to Tully and Derr grounded out, Davis to Dolan.

Davis grounded to Bartlett, Schwartz went out; Quinlan fumbled Hartman's drive, but Tully was out Ulmer to Scull.

Bartlett popped one to Hartman, Scull fanned and Baver was out, Hartman to Dolan.

Templin hit a hard grounder. Ulmer to Scull. Dolan fanned, Scull missed Beard's drive, Ulmer fumbled Johnson's grounder, Bartlett stopped Brode's drive

Schaeffer drove a long fly to Johnson; Mooney's grounder got away from Tully; he stole second, but he was called out at the plate. Quinlan flied out to Beard.

Davis grounded to Bartlett, Ulmer fumbled Schwartz's grounder, and Hartman singled to left; Tully fanned and Templin grounded to Ulmer.

Ulmer drew a pass, but was out at third; Creswell grounded out, Tully to Dolan; Derr grounded to Dolan.

Dolan grounded to Bartlett, Beard grounded to Ulmer and Johnson hit to the pitcher.

Bartlett slammed out a double, took third on an error; Scull tried to sacrifice, but Bartlett was caught at the plate, Davis to Brode. Baver fanned and Schaeffer hit a foul up to Brode.

The Ferocious Microbe.

Life is growing too complicated for the average unlearned human being, says the Dietetic and Hygienic Gazette. It has been discovered by medical men that birds are dangerous carriers of disease—that "even the fluttering of a canary in its cage may throw out infection" and that as for the companionable, impudent parrot, he often suffers from something called psittacose, which may be transmitted to the unsuspecting owner. The unfriendly germ, the vindictive animalcule, the blustering bacillus, browse on our carpets, hide in our books, hold swimming races in the water we drink. They seat themselves by our side in the trains, invade the very clothes we wear and penetrate to the innermost portions of our anatomy by means of the atmosphere which we shall very soon be cautioned not to breathe.

SECRET INK.

Writing Which May Be Made Invisible or Visible at Will.

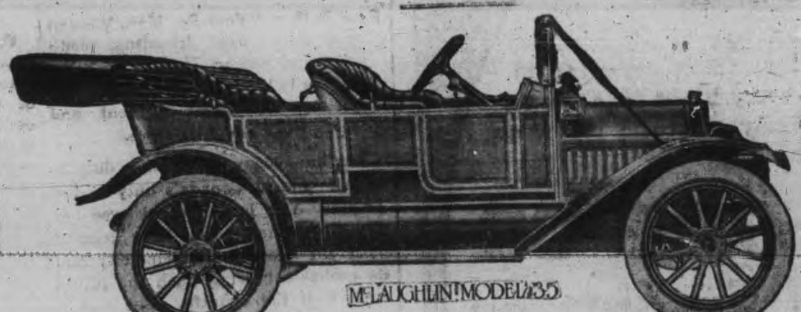
There are several ways in which two persons can correspond with each other unknown to even the people before whose eyes the very letter is held. Ovid taught young women when writing to their lovers they should use new milk as ink. This when dried is invisible, but by scattering coal dust or soot upon the paper the writing becomes legible. Ansonius adopted this method when writing to Paulinus.

Diluted sulphuric acid, lemon juice, solutions of nitrate and chloride of cobalt or of chloride of copper write colorless, but on being heated the characters written with the first two become black or brown and the latter green. When the paper becomes cool the writing disappears and leaves the paper blank again. Saltpeter dissolved in water and equal parts of sulphate of copper and sal ammoniac dissolved in water are two good invisible inks.

There are also some inks which are invisible when dry, but visible when moistened with another liquid. Thus a solution of muriate of antimony washed with tincture of galls becomes yellow, green vitriol ink washed with the same solution turns black, nitrate of cobalt washed with oxalic acid turns blue, arsenate of potash with nitrate of copper green, solution of gold with muriate of tin purple.

McLAUGHLIN MOTOR CAR

McLaughlin 35



McLaughlin 35

A car embodying the principles which have been tested, tried and proven more than **GOOD** under the most exacting regulations and conditions. Here is a copy received from Mr. Thomas Davis, Chief of the fire department, Victoria, B.C., what he has to say in regard to the McLaughlin Car he has purchased:

Victoria, B.C,

McLAUGHLIN MOTOR CAR CO,
Oshawa, Ont.

Dear Sirs,—The McLaughlin-Buick, 40 h.p., chief's automobile, which was built for the department and delivered last May, has now been in our possession long enough for us to realize its good points. It has given perfect satisfaction in every respect. I have responded to 187 alarms with it to the present time, and over very rough roads. Its hill climbing capabilities are excellent, the cost of maintenance in comparison with the horse drawn vehicle used for the same purpose is trivial.

I shall be pleased to recommend this type of a machine to any Chief of Fire Dept. requiring same; you are at liberty to refer them to me.
Yours respectfully,
(Signed) THOMAS DAVIS, Chief of Fire Dept.

BOARD OF TRADE

On Tuesday evening next, May 14, in the City Council Chamber, at 8 o'clock sharp, the Board of Trade will hold its annual meeting and the election of officers for the ensuing year will also take place.

Our esteemed townsman, Mr. Ryerson Ritchie, who is an eminent specialist in Civic Organization, and stands at the head of his profession on the North American Continent, will be present and has kindly promised to address the members on the most important and interesting subject, "Civic Organization and Development."

Mr. Ryerson Ritchie is well known both in Canada and the United States as a most successful organizer.

Among some of the important positions which he has filled with pronounced success are the following:—

Secretary of the "Merchants' and Manufacturers' Association of Cincinnati."

Secretary of the "Commercial Chamber of Kansas City."

Secretary of the "Cleveland Chamber of Commerce."

Secretary of the "Detroit Board of Commerce."

Executive Director of the "Chicago Association of Commerce."

Executive Director of the "Boston Chamber of Commerce."

Executive Director of the "San Francisco Chamber of Commerce."

In view of the importance of this meeting it is sincerely hoped that every member of the Board of Trade will be present.

$100 REWARD $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENNEY & CO., Toledo, Ohio.

Sold by all druggists, 57c.

Take Hall's Family Pills for constipation.

The threatened strike against the Peninsular & Oriental Steamship Company has been referred to the National Executive of the Transport Workers' Federation.

SUCCESSFUL BANQUET BY THE COLLEGIATE CLUB BOYS

AN INTERESTING TOAST LIST

The boys of the local Collegiate Club held a banquet last night in Hooper's palm parlors, and it proved to be a happy occasion beyond their brightest anticipations. A full attendance of the members went far to make the evening the success that it was voted to be, and the guests Mr. J. Crane, Judge Huycke, Mayor Bradburn, Dr. J. E. Middleton, Dr. Carmichael, the Rev. Mr. Pogue, Ald. G. N. Gordon and Mr. J. Masson, of Campbellford, president of the Collegiate Club there, were just as enthusiastic in the festivities as the boys.

A very fine spread was thoroughly enjoyed before the extensive toast list. The dainties disappeared and the president of the club, Mr. Burton Throop, who discharged the duties of toast master in a most acceptable manner, opened the list with a toast to "the King."

Harold F. Hill proposed the following toast to "Canada— and Judge Huycke responded in a patriotic address On the proposal of Gordon S. Matthews, the toast to "Our City" was duly honored and Mayor Bradburn responded in a brief but splendid speech. "The Learned Professions" were honored in the next toast proposed by Meredith S. Huycke in a complimentary speech and was responded to in humorous addresses by the Rev. R. Pogue, Ald. G. N. Gordon Dr. Carmichael and Dr. Middleton. The toast to "Sister Organizations" proposed by Murray Carlisle was honored in a spirit of good fellowship and was responded to by Mr. Masson, president of the Campbellford club.

The toast to the "Board of Education" was proposed by Lorne Cann and responded to by Mr. John Crane.

"The Peterborough Collegiate and club," was the subject of the next toast, proposed by Judge Huycke. The speaker outlined the good work being carried on by both institutions and congratulated the boys on their club and on their school. Mr. B. Throop replied.

In true college fashion, the banquet was brought to a close by the following harmonious yell—

One, Two, Three, Who are we,
We begin with the letter "P"
Then comes "C" and then comes "I"
We are the boys from the P. C. I.

HOW POOR YOUNG WOMAN SOUGHT TO HELP CONSUMPTIVE

By Roy Gilray.

Ellen Williams, a young lady full of the bloom of health, which only life in the country can give, is possessed of a remarkable ability for painting and, at the earnest solicitation of her friends, decides to attend the Academy of Art in New York City. Arriving in the great metropolis she at once proceeds to the Academy at the corner of 14th street and 4th Avenue for enrollment. To her dismay she discovers that the tuition fees are payable in advance, $100 being the first installment.

Not having much money with her she starts with a sad heart to hunt for a boarding house, which must not cost much, at least until she can earn some money.

The look of dismay and dejection which came over her face at the Art School was noticed by more than the clerk who waited upon her. A rich young man, of artistic tastes, Jordan Clarkson by name, chanced to see it too, and was not long in divining its meaning. He could not efface from his memory the momentary agony of the beautiful features of the young applicant. As he sat at his club looking over his evening mail, he slowly but resolutely resolved to help this young woman if she were at all deserving. To prove this he immediately determined to go on an expedition of adventure, which he had long promised himself. Visiting the Academy next day, he learned the young artist's address to be 10 Cherry street, rather an undesirable quarter, but he reasoned that it would give him the long cherished opportunity to see how "the "other half" lived.

Changing his clothes so as to be in keeping with his proposed surroundings, he succeeded in securing a room just above that occupied by the young woman, and proceeded to make good use of his powers of observation.

He was not long in making the acquaintance of Miss Williams, and learned that she was working on a diagram for a Christmas Stamp, which the Red Cross Society were going to issue, and for which they offered a prize of $100., just the sum needed to gain admittance to the School of Art.

Jordan too, was interested in this Red Cross campaign against tuberculosis, as he had received a letter from this philanthropic Society asking for aid.

Ellen's surroundings in this tenement district were not the most elevating. Her neighbor in the next room on the same floor was a poor washer-woman with two little girls and a son almost grown to manhood but of no use to her or himself—he was a victim of the White Plague. Here the poor creature labored from morning till night, over her steaming tub, in the hopeless task of keeping the ravenous wolf away from the door. In fact, the whole atmosphere was a typical breeding ground for consumption.

After a few week's suspense Ellen recieved the news that she was the winner of the $100 prize. How she wept for joy in her tiny room as she read and re-read the welcomed letter, and fondled the money order. The intelligence was too good to keep, so she rushed out of her room to that of her poor neighbor; but hearing a strange voice, she paused, and overheard a doctor telling the weeping mother that her son must be taken out of this at once if she wished him to live.

Creeping back to her room, hot tears began to flow, not from the promptings of great joy, but from the realization that this poor woman had no money, and the unfortunate son must soon pass away if someone did not come to their aid. Slowly the truth unfolded itself to her sympathetic mind, and, grasping a pen, she inscribed on an envelope "From a Friend," enclosed the order that meant so much to her, and stealthily crept to the door of the sorrowing ones and slipped it under.

Clarkson appeared just in time to see the tail end of the act, and from that same disappointed look on the young girl's face he was able to interpret its significance. Hearing of the doctor's ultimatum he hastened to the Red Cross headquarters, secured a District Nurse, and gave orders that the young man be sent to a Sanatorium and the house cleaned up.

That night Miss Williams received a message to present herself at 745 Fifth avenue, where she met Jordan Clarkson, though clothed in quite a different garb, and, from his lips, heard the glad tidings that arrangements had been made whereby she would be able to pursue her studies without interruption.

In explanation Mr. Clarkson took both her hands, and looking into her soulful eyes, exclaimed, "Anyone who has a heart as big as yours, a heart which prompted so great a sacrifice, merits the help of a friend!"

The ladies of Peterborough, during the long winter months, have been busily engaged in preparing for their great Summer Fair. The amount of time, money and energy which they have "sacrificed" no one will ever know, but the citizens will have an opportunity of forming an opinion on the opening day, May 27th, and they are doing it all that some poor unfortunate victim of consumption may have a chance to live.

How much are you prepared to sacrifice?

Who of us know
The heartaches of the men we meet
Each day in passing on the busy
street,
The woes and cares that press them
Forebodings that distress them—
Who of us know?

Who of us think
Of how hot tears have traced the
smiling cheek
Of some we meet who would not dare
to speak
The pangs they feel, the burdens
that they bear,
Each hour that passes through the
solemn year—
Who of us think?

PASSED AWAY IN IRELAND

Death of Uncle of Ex. Ald. D. H Kerneghan Aylmer St.

The Reporter of Newry, Ireland gives the particulars of the death of Mr. Adam Kerneghan, who was an uncle of ex-Ald. D. H. Kernaghan, 497 Aylmer street. The Reporter says—

It is with much sorrow that we chronicle to-day the death of a distinguished journalist in the person of Mr. Adam Kernaghan, brother of Mrs. John Donaldson, Basin Walk, Newry. The deceased gentleman, who was the son of a local merchant began life as a reporter in Newry over 50 years ago. He subsequently secured an important position on the literary staff of the Birmingham "Daily Gazette." Later on he removed to London, and eventually became the chief of the Parliamentary reporting staff of "The Times." This responsible position he filled with distinction for many years. He leaves three sons, one of whom is chief reporter on the "York Herald" and five daughters, to mourn his loss. Many of the deceased gentleman's old time friends and acquaintances, still reside in Newry, and they are all much grieved to learn of his death which occurred somewhat suddenly on Thursday evening last.

If You Want a New Separate
SKIRT
See Our Showing on 2nd Floor

They're all new models—but each style has some individual note that will particularly please you.

Some of them are plain and severe depending for their appeal on their artful cut that gives the modish lines. Many are cleverly strapped or set off with buttons or the introduction of a few pleates.

But the greatest merit of the new Summer Skirts lies in their skillful modelling and painstaking tailoring, causing them to fit as accurately and gracefully as though made to order.

We are noted in Peterboro' for our very unusual values in the most fashionable Skirts. Come tonight and look at them.

WHO WANTS TO JUMP INTO THE SOFT BALL GAME?

A movement is on foot to organize what will be known as the Peterborough Soft Ball League. This game will include all the fine features of the regular ball game, without the same danger of injury to the inexperienced players, it will also afford an excellent opportunity for the older fans of the city to get into the game. The diamond is rather smaller than the regulation diamond and the running will be greatly reduced. The field does not need to be near so large so that all together everything is in favor of the conditions as found in the city at the present time.

This game is played extensively in Hamilton and other cities, and why not in Peterborough? A number of teams are forming, now why not get in on this fine recreative feature? With the object of forming such a league a meeting is called for next Tuesday night at the Y.M.C.A. If you are interested in such a league you are requested to put in an appearance next Tuesday. In the meantime any further information will be gladly given by Physical Director Thompson at the Y.M.C.A.

DIAMOND DUST

The White Caps had a good practice this morning on the Oval, and another this afternoon. The team will be in good shape for the opening game at Hamilton, next Tuesday.

Ohio will be the scene of Taft's "last stand" in his fight for renomination. If Roosevelt carries it—and he says he will—then Taft is doomed.

Will Revise U. S. Patent Laws.

Washington, May 11.—President Taft yesterday took a decided step toward revision of the patent laws, which have remained practically unchanged since 1807. He sent a special message to Congress asking for Legislature authorizing him to appoint a commission to investigate the patent laws and report what changes were necessary to make them fit modern conditions.

William Langton Killed.

Toronto, May 11.—While working on an engine driving wheel in the C.P.R. shops in ward seven yesterday afternoon, William Langton slipped and fell. In some manner the heavy wheel fell, crushing his head and chest. He was immediately taken to the Western Hospital, where he died at 4.45.

Committed for Trial.

Kingston, May 11.—At the penitentiary yesterday the Mecum brothers, Brown, Bonner and McNeil, who escaped from the penitentiary on April 29, appeared before Magistrate on charges of assaulting their guards and escaping, and were sent for trial at the Court of General Sessions next month. Walter Collins, another prisoner, who recently made a murderous attack upon a fellow-prisoner, was also sent for trial.

Boy Cannot Recover.

Toronto, May 11.—Stanley Jess, a four-year-old boy was severely injured by being struck by a street car, while crossing Gerrard street last night and is lying in an unconscious condition at the General Hospital. The doctors state that his skull is very badly fractured and that he cannot recover.

The Smallest Republic.

The smallest republic in the world without contradiction is that of Tavolara, a little island situated about a dozen kilometers (seven and a half miles) from Sardinia. It is a little more than a mile in length and has a population of fifty-five. The sovereignty of the island was accorded in 1836 by King Charles Albert to the Bartoleoni family. Up to 1882 Paul I. reigned peaceably over his litte island kingdom, but at his death the islanders proclaimed a republic. By the constitution of the republic the President is elected for ten years, and women exercise the franchise.

Wear Slippers In the House.

In England it is the custom not only for grown persons, but also for children, to wear slippers in the house. English children as well as grownups wear shoes as we in America wear rubbers, only out of doors. This is not only a more comfortable custom with regard to footwear than ours, but it is also more healthful. The streets and sidewalks and even the yards are dusty. This dust, full of germs as it is, should not be tracked all over the house. We would do well in the interests of preventive medicine to provide slippers for our children and to insist upon the wearing of them in the house. It is less trouble to change from shoes to slippers, even three or four times a day, than it is to cure an illness the germ of which may have been brought into the nursery on the soles of the children's shoes.—Home Progress.

SANOL

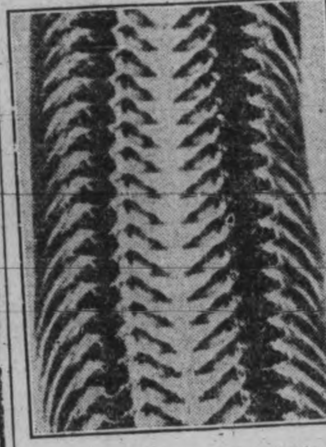
For the Children

A Section of a Snail's Tongue.



This queer looking picture is that of a section of the tongue of a snail. The tongue is greatly magnified to show the rasping teeth.

A snail eats by rasping off small particles with the tongue. This tongue is a narrow band or ribbon with pointed teeth set in rows across it. The common slug, often found in damp places, has more than 25,000 teeth on the tongue, which act like the ridges on a file and scrape the food into the mouth. I once watched with a magnifying lens, says a writer in St. Nicholas Magazine, a small water snail feeding as it slowly crawled up the side of an aquarium, and, although I made no very accurate count, the tongue seemed to be pressed against the glass about forty times a minute.

Man and Object.

Two persons go out of the room and, after agreeing together as to what they shall represent, come back again and sit down side by side in front of the company. One of the two takes the part of some well known person, and the other represents an object which is closely connected with that person. For instance, George Washington and the hatchet or Roosevelt and the big stick, the king of England and his crown, etc.

After the two take their seats the other players in turn ask each of them a question, to which both the man and the object must answer only "Yes" or "No" until the right person and the right article have been guessed. The first player may perhaps ask the man, "Are you alive?" The man will answer "Yes" or "No" according to the character he represents. Then the object may be asked, "Are you made of wood?" "No." Then the second player in order asks a question of each, and so on along the line until all have had a turn at questioning or until the person and object have been rightly guessed.

A Giant Baby.

The world's astronomers are now much interested in the planet Jupiter. This planet is the largest in our system, but is said by the scientists to be an infant in swaddling clothes so far as development is concerned. In volume Jupiter is 1,279 times greater than our own globe. But we are now full grown and, as some astronomers declare, on the downhill side of life. In other words, our little earth is in middle age and will soon be growing old. Great Jupiter, the king of the heavens as far as our planetary system is concerned, is not yet fit for life. From the latest observations of Jupiter it is supposed to be in the act of building, of solidifying. One astronomer says: "I have not the slightest doubt that we are assisting at the creation of a world. Under our dazzled eyes a new world is being created in the infinity, and in Jupiter we hail the world of the future."—Chicago News.

Conundrums.

What is the difference between a photographer and the whooping cough? One makes facsimiles, the other sick families.

What French word contains every vowel and but one consonant? Oiseau.

When is an altered dress like a secret? When it is let out.

How do eggs show their anger on being called "beggs?" By becoming eggs-aspirated.

What part of speech are shopkeepers most anxious to dispose of? Articles.

Why are sick persons like auto wheels? Because the are tired.—Philadelphia Ledger.

Cupid's Target—A Game.

In the game Cupid's darts are shot from a small bow by each child in turn at a heart shaped target of white with a smaller red heart for a bullseye. The one whose dart comes nearest the middle of the bullseye may receive a gayly beribboned bow and arrow for a prize.

The Two Echoes.

Two echoes, each with mouth and ears,
Lived peacefully for many years
Till one, not meaning to offend,
Said: "Let me hear your voice, my friend.
I know my voice is very fine,
But which is finer, yours or mine?"
"Mine," said the other, loud and clear.
"Mine," said the first in tones severe.
"Mine," said the other echo next.
"Mine," said the first one, rather vexed.
And "mine" was all that they would say,
And neither of them would give way.
For, though most echoes can be mute,
If spoken to they will dispute,
And I am sure these always will,
For there they are disputing still.
—Youth's Companion.

The regular meeting of the Peterborough O.C.H.C., No. 193 will be held to night in the K.O.P. Hall at eight o'clock.

Mrs. H. VON RODEN of LYNDON, KY.

Recommends Lydia E. Pinkham's Vegetable Compound for Backache, Nervousness, Headaches.

Lyndon, Ky.—"I have been taking Lydia E. Pinkham's Vegetable Compound for headaches, neuralgia pains, backache, nervousness and a general run down condition of the system, and am entirely relieved of these troubles. I recommend your remedies to my friends and give you permission to publish what I write."—Mrs. H. VON RODEN, Lyndon, Ky.

When a woman like Mrs. Von Roden is generous enough to write such a letter as the above for publication, she should at least be given credit for a sincere desire to help other suffering women, for we assure you there is no other reason why she should court such publicity.

Canadian Woman's Experience:

Windsor, Ont.—"The birth of my first child left me a wreck with terrible weak spells, but I am glad to tell you that I do not have those weak spells and I feel like a new woman since taking Lydia E. Pinkham's Vegetable Compound. I am now well and strong and can do my own housework. I do not take medicine of any kind. It was Lydia E. Pinkham's Vegetable Compound that restored me to health."—Mrs. ROBERT FAIRBAIRN, 72 Parent Avenue, Windsor, Ontario.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

LETTERS TO THE EDITOR

The Review does not hold itself responsible for opinions expressed by its correspondents

To the Editor of the Review.

Sir.—The Examiner seems determined to excel even itself in circulating false reports about Mr. Burnham. Still what can you expect.

Yours.

CITIZEN.

MOTHERS PLEASED WITH BABY'S OWN TABLETS

A mother who has once used Baby's Own Tablets for her little one never fails to show her pleasure at the result. She at once realizes that they are the ideal medicine for baby — being absolutely safe and free from injurious drugs and at the same time a sure cure for all the little ills from which babies suffer. Mrs. P. Therriault, Pacquetville, N. B., writes:—"Please send me another box of Baby's Own Tablets. I was extemely pleased with the last. My baby was greatly troubled with constipation and vomiting but the Tablets quickly cured her." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co. Brockville, Ont.

A Practical Manicure.

A practical way of keeping the finger nails well in order is that to treat them to one or two strokes of the file every morning. First have them shaped and the cuticle trimmed by a manicurist, then be careful to preserve the shape when filing. In this way nails can be kept looking well for at least a month, and the regular allowance for manicuring will be a fourth or at least a half of the former amount.

Polish the tips slightly after the morning filing, but do not use the buffer until the nails are hot, as this causes them to become brittle.

Dr. de Van's Female Pills

A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at $5 a box, or three for $10. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.

AWFUL NERVOUSNESS AND PARALYSIS CURED BY "FRUIT-A-TIVES"

The Miracle Worker, That Cures When Doctors Fail — Now Used In Thousands Of Homes In Every Section Of Our Great Country.

Two Men, From Widely Different Parts Of Canada, Tell How They Found Health And Happiness By Taking These Wonderful Fruit Juice Tablets.

WALKERTON, ONT., MAY 9th. 1911

"I have been in Walkerton in business for a good many years and many of my townsmen know that my health, for long periods, was precarious. My trouble was extreme nervousness, brought on by Indigestion or Dyspepsia, from which I suffered in its most severe form. It was so bad that I could not sleep before about four in the morning. I noticed in the Toronto "World", one of your published testimonials of how someone had used "Fruit-a-tives" for similar trouble, and asked Mr. Hunter, my druggist, his opinion on the matter and he advised their use. I immediately procured several boxes and I am pleased to say that I now enjoy splendid health and could not possibly feel better. I can eat with every degree of satisfaction, and sleep without an effort, which pleasure I was denied before I was fortunate enough to use "Fruit-a-tives". I strongly advise anyone suffering from like complaints to commence using "Fruit-a-tives" immediately. Don't stop at a few doses—but continue using "Fruit-a-tives" until a cure is accomplished."

MR. ALEX. McCARTER

ALEX. McCARTER.

BRISTOL, N.B., JULY 25th. 1911.

"I am unable to say enough in favor of "Fruit-a-tives", as it saved my life and restored me to health, when I had given up all hope and when the doctors had failed to do anything more for me. I had a stroke of Paralysis in March, 1910, and this left me unable to walk or help myself, and the constipation of the bowels was terrible. Nothing did me any good and I was wretched in every way. Finally, I took "Fruit-a-tives" for the constipation, and it not only cured me of that trouble but gradually this fruit medicine toned up the nerves and actually cured the paralysis. Under the use of "Fruit-a-tives", I grew stronger and stronger until all the palsy and weakness left me.

I am now well again and attend my store every day and all day. I reverently say "Thank God! for Fruit-a-tives".

ALVA PHILLIPS.

MR. ALVA PHILLIPS

These two cases show the wonderful powers of "Fruit-a-tives" in restoring a shattered nervous system to health and vigor—in entirely curing obstinate Constipation—and in completely relieving Indigestion and Dyspepsia. What other one medicine in the whole world has ever done so much? "Fruit-a-tives" cures.

It is the only medicine in the world actually made from fruit with the addition of valuable tonics. It is pleasant to take and will always give the most gratifying results when taken regularly.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

Cynthia's Chauffeur

By LOUIS TRACY

Copyright by McLeod & Allen, Toronto

He saw himself discredited, suspected, a skulking plotter driven into the open, a self-confessed trickster utterly at the mercy of some haphazard question that would lay bare his pretenses and cover his counterfeit rhapsody with ridicule.

If Cynthia had heard, and hearing understood, it is possible that a great many remarkable incidents then in embryo would have passed into the mists of what might have been. For instance, she would not have deigned to notice Count Edouard Marigny's further existence. The next time she met him he would fill a place in the landscape comparable to that occupied by a migratory beetle. But her heart was leaping for joy, and her cry of thankfulness quite drowned in her ears the Frenchman's furious oath.

Mrs. Devar, having had time to gather her wits, made a gallant attempt to relieve her fellow-conspirator's shattered fortunes.

"My dearest Cynthia," she cried effusively, "do say you are not hurt!"

"Not a bit," was the cheerful answer. "It is not I, but the car, that is out of commission. Didn't you see me do the Salome act when you were thrown on the screen?"

"Ah! the car is broken down. I do not wonder—this fearful road——"

"The road seems to have strayed out of Colorado, but that isn't the trouble. We are short of petrol. Please give some to Monsieur Marigny, Fitzroy. Then we can hurry to Bristol and the Count must pick up his chauffeur on the way."

Without more ado, she seated herself by Mrs. Devar's side, and Marigny realized that he had been robbed of a golden opportunity. No persuasion would bring Cynthia back into the Du Vallon that evening; it would need the exercise of all his subtle tact to induce her to re-enter it at any time in the near future.

He strove to appear at his ease, even essayed a few words of congratulation on the happy chance that brought the Mercury to their relief, but the imperious young lady cut short his limping phrases.

"Oh, don't let us waste these precious minutes," she protested. "It will be quite dark soon, and if there's much more of this wretched track——"

Medenham broke in at that. Mrs. Devar's change of front had caused him some grim amusement, but the discovery of Marigny's artifice roused his wrath again. It was high time that Cynthia should be enlightened, partly at least, as to the true nature of the "accident" that had befallen her; he had already solved the riddle of Smith's disappearance.

"The road to Bristol lies behind you, Miss Vanrenen," he said.

"One of the roads," cried the Frenchman.

"No, the only road," persisted Medenham. "We return to it some two miles in the rear. Had you followed your present path much farther you could not possibly have reached Bristol to-night."

"But there is a village quite near. My chauffeur has gone there for petrol. Someone would have told us of our mistake."

"There is no petrol to be bought at Blagdon, which is a mere hamlet on the downs. Anyhow, here are two gallons—ample for your needs—but if your man is walking to Blagdon you will be compelled to wait till he returns, Monsieur Marigny."

Though Medenham did not endeavor to check the contemptuous note that crept into his voice, he certainly ought not to have uttered those two concluding words. Had he ransacked his ample vocabulary of the French lanuage he could scarcely have hit upon another set of syllables offering similar difficulties to the foreigner. It was quite evident that his accurate pronunciation startled the accomplices. Each arrived at the same conclusion, though by different channels; this man was no mere chauffeur, and the fact rendered his marked hostility all the more significant.

Nevertheless, for the moment, Marigny concealed his uneasiness; by a display of good humor he hoped to gloss over the palpable absurdity of of his earlier statements to Cynthia.

"I seem to have bungled this business very badly," he said airily. "Please don't be too hard on me. I shall make the amende when I see you in Bristol. Au revoir, chères dames! Tell them to keep me in dinner. I may not be so very far behind, since you ladies will take some time over your toilette, and I shall—what you call it—scorch like mad after I have found that careless scoundrel, Smith."

Cynthia had suddenly grown dumb, so Mrs. Devar tried once more to relax the tension.

"Do be careful, Count Edouard," she cried; "this piece of road is dreadfully dangerous, and, when all is said and done, another half hour is now of no great consequence."

"If your chauffeur has really gone to Blagdon, he will not be back under an hour at least," broke in Medenham's disdainful voice. "Unless you wish to wreck your car you will not attempt to follow him."

With that he bent over the head lamps, and their radiance fell unexpectedly on Marigny's scowling face, since the discomfited adventurer could no longer pretend to ignore the Englishman's menace. Still, he was powerless. Though quivering with anger and balked desire, he dared not provoke a scene in Cynthia's presence, and his continued silence already warned him that she was bewildered if not actually suspicious. He forced a laugh.

"Explanations are like swamps," he said. "The farther you plunge into them the deeper you sink. So, good-by! To please you, Mrs. Devar, I shall crawl. As for Miss Vanrenen, I see that she does not care what becomes of me."

Cynthia awakened a little at that. Certainly she wondered why her model chauffeur chose to express his opinions so bluntly, while Marigny's unwillingness to take offense was admirable.

"Is there no better plan?" she asked quickly, for Medenham had started the engine, and his hand was on the reversing lever.

"For what?" he demanded.

"For extricating my friend from his difficulty?"

"If he likes to come with us, he can leave his car here all night, and return for it to-morrow."

"Perhaps——"

"Please do not trouble yourself in the least on my account," broke in the Count gayly. "As for abandoning my car, such a stupid notion would never enter my mind. No, no! I wait for Smith, but you may rely on my appearance in Bristol before you have finished dinner."

Though it was no simple matter to back and turn the Mercury in that rough and narrow road, Medenham accomplished the manoeuver with a skill that the Frenchman appreciated to the full. For the first time he noted the number when the tail-lamp revealed it.

"X L 4000," he commented to himself. "I must inquire who the owner is. Devar or Smith will know where to apply for the information. And I must also ascertain that fellow's history. Confound him, and my luck, too! If the Devar woman has any sense she will keep Cynthia well out of his way until the other chauffeur arrives."

As it happened, the "Devar woman" was thinking the same thing at the same moment, but, being nervous, dared not attempt to utter her thoughts while the car was creeping cautiously over the ruts and stones. At last, when the highroad was reached, the pace quickened, and she regained the faculty of speech.

"We have had a quite eventful day," she said with an air of motherly solicitude, turning to the distrait girl by her side. "I am sure you are tired. What between an extra amount of sightseeing and poor Count Edouard's unfortunate mistake, we have been in the car nearly twelve hours."

"How did Fitzroy discover that we had taken the wrong road?" asked Cynthia, rousing herself from a perplexed reverie.

"Well, he drove very fast from Cheddar, much too fast, to my thinking, though the risk has been more than justified by circumstances. Of course, it is always easy to be wise after the event. At any rate, there being no sign of your car when we reached the top of the hill, we—er—we discussed matters, and decided to explore the byroad."

"Did you remain long in Cheddar? If Fitzroy hit up the pace, why were you so far behind?"

"I waited a few minutes to address some postcards. And that reminds me—Fitizroy sent a most impertinent message by one of the servants——"

"Impertinent!"

"My dear, there is no other word for it—something about going off without me if I did not start instantly. But there! We must not renew our Bournemouth argument."

"And he caused a servant in the hotel to speak to you in that manner?"

"Yes—the very girl who waited on us at tea—a pert creature, who seemed to find the task congenial."

Mrs. Devar was building better than she knew. Cynthia laughed, though not with the whole-souled merriment that was music in Medenham's ears.

"She has ben properly punished; I forgot to tip her," she explained.

"Count Edouard would see to that——"

"He didn't. I noticed what he paid—out of sheer curiosity. Perhaps I ought to send her something."

"My dear Cynthia!"

But dear Cynthia was making believe to be quite amused by a notion that had just suggested itself. She leaned forward in the darkness and touched Medenham's shoulder.

"Do you happen to know the name of the waitress who brought you some tea at Cheddar?" she asked. "None of us gave her anything, and I hate to omit these small items. If I had her name, I could forward a postal order from Bristol."

"There is no need, Miss Vanrenen," said Medenham. "I handed her—well, sufficient to clear all claims."

"You did. But why?"

The temptation to explain that he had never seen the girl before that day was strong, but he waived it, and contented himself with saying:

"I—er—can't exactly say—force of habit, I imagine."

"Is she a friend of yours?"

"No."

Cynthia subsided into the tonneau.

"Of all the odd things!" she murmured, little dreaming that her chance question had sent a thrill of sheer delight through Medenham's every vein.

"What is it now?" inquired Mrs. Devar vindictively, for she detested these half confidences.

"Oh, nothing of any importance. Fitzroy footed the bill, it seems."

"Very probably. He must have bribed the girl to be impudent."

Cynthia left it at that. She wished these people would stop their quarreling, which threatened to spoil an otherwise perfect day.

The Mercury ran smoothly into Bristol, crossed the Avon by the pontoon bridge, and whirled up the hill to the College Green Hotel. There, on the steps, stood Captain James Devar. Obviously he did not recognize them, and Medenham guessed the reason—he expected to meet his mother only, and bestowed no second glance on a car containing two ladies. Indeed, his first words betrayed sheer amazement. Mrs. Devar cried, "Ah! there you are, James!" and James's eyeglass fell from its well-worn crease.

"Hello, mater!" he exclaimed. "But what's up? Why are you—where is Marigny?"

"Miles away—the silly man ran short of petrol. Fortunately our car came to the rescue, or it would have been most awkward, since Miss Vanrenen was with the Count at the time. Cynthia, you have not met my son James, this is Miss Vanrenen."

The little man danced forward. Like all short and stout men, he was nimble on his feet, and his voluble outburst warned him of an unforeseen hitch in the arrangements.

"Delighted, I'm sure," said he. "But by gad: fancy losing poo-aw Eddie. What have you done with him? Driven a stake through him and buried him at a cross road?"

To be continued

A dynamite bomb was found under a railway bridge in Monastir, over which members of the Reform Commission were to pass.

Salves Can't Cure Eczema

In regard to skin diseases medical authorities are now agreed on this.

Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid.

WASH THE GERMS OUT.

A simple wash: A compound of Oil of Wintergreen, Thymol and other ingredients as combined in the D.D.D. Prescription. This penetrates to the disease germs and destroys them, then soothes and heals the skin as nothing else has ever done.

We have made fast friends of more than one family by recommending this D.D.D. Prescription to a skin sufferer here and there, and we want you to try it now. We can tell you all about D.D.D. Prescription, and how it cures eczema, or you can get a free trial bottle by writing D.D.D. Laboratories, 49 Colborne street, Toronto.

McDermid & Jury and E. L. Payne, druggists.

This Medicine Is Breathed!

Have You a Cold?—It Can B Completely Cured By

Catarrhozone

It Quickly Cures Whoopin Cough, Grippe, Bronchitis, Catarrh, Hay-Fever, Asthma, and Colds.

Catarrhozone is not like other remedies, but is so healing and soothing that when it is breathed through the inhaler it kills the germs that cause diseases of the throat and lungs.

Catarrhozone quickly soothes and heals the mucous surfaces so that in a short time the whole mucous lining is healed.

If you are subject to throat irritation or have a tendency to consumption you should use the "Medicine that is breathed."

Thousands who have used it tell of its merit.

Air which you breathe through the Catarrhozone inhaler carries healing to the very spot affected, and there is no chance of failure by going to the wrong place. That is why it cures.

Catarrhozone

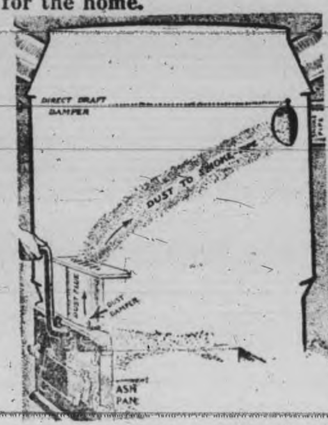
Approved by Doctors, Druggists, and thousands of Canadian people who have used it. Little drops of healing for weak places in the throat and nasal passages—that's Catarrhozone.

Three sizes, 25c., 50c., and $1.00, at druggists or by mail, postpaid, from the Catarrhozone Co., Buffalo, N.Y., and Kingston, Ont.

More Facts About McClary's "Sunshine" Furnace

—The Understudy of the Sun—

There's **no dust nuisance** about the **"Sunshine"**—when you rock down the ashes the dust is **drawn up dust-flue** then **directly** across to smoke-pipe where it belongs. Look at the illustration and remember to open both "Dust" and "Direct Draft" dampers—these simple devices make the "Sunshine" the cleanest furnace **for the home.**



See the famous "cup joints" here—the frame of the ash pit—the two sections of the fire-pot and the dome all jointed together by our "cup joint."

There's a layer of asbestos cement in each joint—this unites all sections in a **permanent way,** yet leaves room for the expansion and contraction of the metal.

No wonder that this "Understudy of the Sun" is called the "Sunshine" furnace—Since it diffuses pure warm June air **throughout the house.**

You don't have to wear overalls when attending to the "Sunshine" furnace—It has a big roomy ash-pan. All the ashes are guided directly into the pan by ash-chutes. A minute or two performs the job. Yes, the "Sunshine" is the clean **furnace.**

CUP JOINT
CUP JOINT
CUP JOINT

The "Sunshine" Furnace burns either wood or coal. Coke, too, if you prefer it. The "Sunshine" distributes a greater percentage of heat units—the Baffle plates (a new McClary device) decidedly increase the heating efficiency of the furnace.

But—see the McClary agent of your locality. Ask him to **show** you all the features and exclusive devices which make the "Sunshine" Furnace worthy of the name—**The Understudy of the Sun.**

If you do not know the McClary Agent, write us at our nearest address and we'll forward you a letter of introduction by return.

MABEL'S CHITCHAT

How to Make Over Last Summer's Kimono Gowns.

CRASH TOWELING FOR FROCKS

Scalloped Edges on Costumes High In Fashion's Favor — Fichu Draperies Give Rejuvenating Air to Old Dresses. Leap Year Party With Amusing Stunts.

Dear Elsa—Ever since Lent began I have had the time of my life dressmaking—that is, making up little frocks for the summer that are so expensive to have made out of the house by a really good woman. Now that the width of skirts has been definitely settled it is perfectly safe to begin on one's summer wardrobe, although we are shivering with cold here in our New York apartment. And the sleeve question—that, too, is definitely fixed as far as the passing of the kimono effect is concerned, which is decidedly de mode. And, by the way, I am altering all my last year's kimono sleeves by cutting them off about three or four inches from what would be a legitimate shoulder seam and at this point attaching a puffed lower sleeve a trifle below the elbow or a long straight sleeve on morning frocks.

To bring about the now fashionable tunic effect on a last year's pink linen one piece frock was a simple affair. Fortunately I had some of the linen left, and with it I made a band about four inches deep to fit about the skirt. The lower edge of this strip I scalloped and bound with white wash soutache braid. The band was then placed on the skirt about five inches above the knees and a little longer in the back. The upper edge was simply turned in and stitched in place. The shirt waist front was scalloped; also the edges of the long tight sleeves. A black patent leather belt and a wide sailor collar of eyelet embroidery completed a mighty smart looking frock. The neck is slightly low. So I am going to wear a black velvet bow at the throat opening.

Turkish toweling, that has been so much exploited in fashion talks, is now being taken up as a dress material for entire gowns, and I am sure you will be interested in hearing about the toweling gown that I have just finished making.

It is of pale lilac mixed with white, an exact duplicate of the regular crash one sees in the bathroom. The skirt has three narrow plaits inserted in the middle of the front running up nearly to the waist line. The top of them is held down flat by an applied piece of violet embroidery on heavy white linen.

This embroidery is also used on sleeves at the elbow, where it is finished with a turnover cuff. The frock fastens up the front with white crochet buttons, and there are a V shaped yoke and a stock of white wash net.

A Leap Year Party.

Since the new year began there have been lots of leap year parties among hostesses of my acquaintance. Perhaps the most amusing feature of a recent jolly affair was the proposal contest. In this the men were seated around the room at intervals, and the girls progressed about the circle, each girl making a mock proposal of marriage to each man. Each girl employed her own methods of persuasion by kneeling to her adored one or by taking his hand or walking off with him to a corner or by sitting by his side or writing him a note. There was only three minutes' time for the girl to put the question before going on to the next victim. The man was allowed to accept or refuse. When the circle was completed each man wrote on a slip of paper the name of the girl whose proposal seemed to him the best, either the most amusing, the most natural, the most original or the most convincing, and the girl who got the most votes received a prize. The girls also voted for the man who received the proposal in the best manner, the coyest or the most ingenious.

A variation of this idea would be to have each girl propose out loud to just one man, with all the others listening, and have the crowd vote on the best proposal made under these highly embarrassing circumstances.

When a buffet supper is served at a leap year party the girls must take the refreshments to their partners and keep them well supplied with everything. The ice cream should be in the form of hearts, and the favors may include hearts and arrows and the rest of the trifles usually associated with valentine affairs. To give a real leap year atmosphere Cupid may be replaced among the favors with girl dolls armed with bows and arrows, and there may be miniature suffragettes. For a very frivolous leap year party the prizes might be suffrage cartoons, Gibson pictures of women, dolls, posters or other appropriate and inexpensive gifts.

Before saying goodby to you, dear, I must tell you about the charming new footwear. Many colors are being made up into suede shoes—purple, sage green, sea blue, raspberry red. The colored shoes are worn with dresses to match and with white and black gowns, and colored stockings of these bright shades are worn with black shoes. Now black stockings have the walls of Troy in straight lines from the knee, which looks like black satin ribbon. Those who are economically inclined have lisle thread heels and toes to their silk stockings, for silk does not last long, especially if you are a tramper, like your friend.

New York. MABEL.

Never exaggerate your faults; your friends will attend to that.

Wheat is scarce and dear in France, and heavy orders are being placed in Canada, Australia and Argentina.

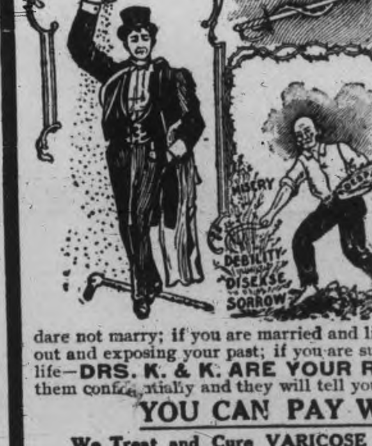
SOWING HIS WILD OATS

REAPING A HARVEST OF SORROW



How many young men can look back on their early life and regret their misdeeds. "Sowing their wild oats" in various ways. Excesses, violation of nature's laws, "wine, women and song"—all have their victims. You have reformed but what about the seed you have sown—what about the harvest? Don't trust to luck. If you are at present within the clutches of any secret habit which is sapping your life by degrees; if you are suffering from the results of past indiscretions; if your blood has been tainted from any private disease and you dare not marry; if you are married and live in dread of symptoms breaking out and exposing your past; if you are suffering as the result of a misspent life—**DRS. K. & K. ARE YOUR REFUGE.** Lay your case before them confidentially and they will tell you honestly if you are curable.

YOU CAN PAY WHEN CURED

THE MISSING RING

A Dramatic Incident at a Dinner Party

By MOLLIE K. WETHERELL

At a dinner consisting of a dozen persons or thereabouts a lady who had recently returned from abroad wore on her finger a ring she had brought from Rome. It had been found in digging the foundation for a house to be erected on the Via Cavour, and, considering the depth at which it lay and its workmanship, archaeologists placed it as belonging to the time of Augustus Caesar. The ring having been noticed by some one sitting near her, the lady took it off her finger, and it was passed around the table for inspection.

The curiosity that had belonged to so distant a period and probably the most interesting to modern European races in history led to a spirited dialogue on the conditions existing at the Eternal City under Augustus, and the ring was forgotten. Later its owner asked for it. Each person who had held it looked at some one else at the table, but no one produced the ring. Several minutes passed, during which a search was being made among the tableware, the brow of the lady who had submitted it for inspection meanwhile darkening. The host, who also looked anxious, arose and, asking the guests to push their chairs back from the table, looked carefully under it, but without success.

There had been no waiters in the room while the ring had been circulated, for the dinner was over and the coffee served. A suspicion therefore arose among those present that it had been stolen by one of their number. This suspicion showed itself to a marked degree in the expressions of those who held it. The host, who sat at one end of the table, and the hostess, who sat at the other, looked at each other in dismay. There was in the incident material for a first class scandal. Then the host, evidently much moved, said:

"It looks as though we had in our midst a thief, and yet I have perfect confidence that such is not the case. Nevertheless every person present is under suspicion. That every one may be cleared of that suspicion I propose that we each and all submit to be searched. I will call in some one who has not been in the room to do the searching, one of my own family, who will have no reason in screening or convicting any individual. You have heard my proposition. Let those who are willing to submit to it say 'Aye.'"

Every one at the table rose except Earle Huxford, a young artist who had passed his novitiate in Florence, Italy, and had returned to America for a short stay. Those present looked at the young man in astonishment.

"Mr. Huxford," said the host with dilated nostrils and flashing eyes, "do you confess yourself a thief?"

"No."

"Then why do you object to clearing this matter up?"

"I do not care to state my reasons."

Huxford sat toying with the stem of a wineglass. Outwardly at least he was cool. He did not meet the gaze of those whose eyes were fixed upon him, some with indignation, some with surprise and some with contempt. There was a short silence, after which the host said to the others:

"I presume we shall be obliged to take Mr. Huxford's action as proof of his guilt, though he virtually pleads not guilty." Then, turning to the lady who had lost the ring, he added, "I cannot replace your property, but I shall send to a friend in Rome, an archaeologist, to procure me the best substitute he can find that is purchasable at any price."

The lady replied that she did not hold her host responsible for her loss, but he insisted that he was responsible and would make it good.

Huxford arose from the table and, looking at the host, said:

"Under the circumstances I must ask your permission to withdraw."

"Madame," said the host to the loser of the ring, "is it your wish to call upon the police to regain your ring?"

"Certainly not; I would not think of such a thing."

"Very well, Mr. Huxford. You may withdraw."

All eyes were fixed on Huxford, who left the room without turning his back to the company, making a slight inclination just before passing through the door. He left a roomful of persons influenced by different emotions. Some blamed the host for permitting him to depart without attempting to secure the ring; some felt that he had acted wisely, but no one expressed an opinion. The episode was discussed in general terms by the company all taking part except Miss Louise Trover, who seemed to have been stunned by it, and Miss Kate Sheldon, who, though she made no comment, showed in her expression that she was much moved. The question, "Do you believe him guilty?" passed around the table. Miss Trover's reply was, "I can't understand it." Miss Sheldon's was, "I have no opinion to express in the matter."

Nothing else than Huxford's guilt—his motives for taking the ring, his consent to stand in the position of a thief if innocent—was discussed for the rest of the evening. One gentleman, a lawyer by profession, proposed a theory that met with more favor than any other. He suggested that Huxford, being an artist, poor and having lived in Rome, knowing the value of the ring, had yielded to a temptation to possess it, then had relied on the character of the company not to push the matter to a disclosure.

The next afternoon while Miss Trover was preparing to go out she was surprised to receive a card bearing the name of Earle Huxford. She was about to send an indignant "not at home" when she abruptly changed her mind and went down to receive the visitor. She walked into the room with a look on her face to indicate that Mr. Huxford under a cloud was not an acceptable acquaintance.

"Louise"— he was beginning when she stopped him.

"Miss Trover, please."

Huxford's face changed. "I came here for an explanation. From your manner I infer that you consider me a thief. Such being the case, I will not attempt to remove the impression. I bid you good morning."

The composed manner that accompanied the words changed that of the lady. With a voice that trembled slightly she said:

"Heaven knows how glad I would be to hear proof of your innocence."

She had not asked him to be seated, and when he spoke again he continued standing. She, too, remained on her feet.

"Do you remember when we first met in Florence, while I was copying a picture in the Pitti gallery?" he asked.

"I do."

"A young American lady had just left me. You did not notice her, but she noticed you. I do not relish speaking of favors I have received from women, but in this case it is necessary. That girl wished me for herself—why I know not, for I certainly had no reciprocal desire on my part. She watched you and me during your stay in Florence and when you were gone reproached me for what she called deserting her for you. I declared that, far from deserting her, I had never expressed any other except a friendly feeling for her."

"I was not aware I had a rival."

"Have I not just said that you had not? Certainly not in the woman I have mentioned."

"Go on."

"Then when I was able to do so, after our correspondence, I followed you here."

He paused, seeming to debate in his mind just what to say next; then he said abruptly:

"You wish to know where that ring is?"

She looked up at him inquiringly. "I certainly do."

"If it has not been lost on the way you will find it in one of the folds of the gown you wore at the dinner last evening."

"In *my* costume?"

"Yes, in yours."

"Why do you say that?"

"Because I saw it dropped there."

The girl stood as if stunned for a time, then suddenly ran out of the room and upstairs. In a few minutes she returned with the ring. On her face were many thoughts and emotions in confusion, but the one that was growing predominant was a consciousness of a sacrifice having been made to save her from a very trying position.

"What did you mean," she exclaimed almost indignantly, "by admitting that you were a thief when you were—were—what were you trying to do anyway?"

"There were several things for me to do. The first was to prevent your being found with the ring in your dress. You didn't know it was there. Since I saw it placed there I should have had to accuse the person who put it there, and I question if I would have been believed. At any rate, the motives of the person who sought to vent her vindictiveness upon you would have necessarily come out."

"Who was she?"

"Miss Sheldon."

"Miss Sheldon! What object had she to injure me?"

"Your dinner companion had sat between you and her, but had moved to speak to another lady. Our host was telling of an adventure he had had in the Coliseum in Rome. All eyes were turned on him. The ring was on the table near Miss Sheldon. Though I appeared to be watching the speaker, half my glance was upon her. She, too, pretended to be interested in what was said. Presently she let fall her hand on the ring, then lowered both beneath the table. When she raised her hand the ring was not in it. The dress you wore, full of folds as it was, was a convenient receptacle for stolen property."

"Who is Miss Sheldon?"

"One you have dignified with the name of rival."

There were a few moments of silence between Huxford and Miss Trover. The explanation had appalled her. Two emotions struggled within her—horror at the act of the woman who had sought to ruin her and wonder and appreciation for the sacrifice that had been made in her behalf. Silently she moved toward the artist, and he clasped her in his arms.

"I have heard of such women," said Miss Trover presently, "but I did not believe that they existed."

"You have proof in this that they do."

"What is the next step in the drama?"

"To return the ring without an explanation."

"Without an explanation? In that case you will not be vindicated."

"I never can be vindicated. When a man is attacked by an unscrupulous woman his only defense is silence."

Then, after a pause, she said: "One thing I am glad of. I shall partake of your disgrace before the world."

Money Back Dandruff Cure

Wm Madill Guarantees Parisian Sage for Dandruff and Falling Hair

Destroy the dandruff germs that's the only known way to eradicate dandruff, and PARISIAN SAGE contains just the ingredients that will destroy germs.

Dandruff causes falling hair and baldness, because the little dandruff germs rob the hair roots of the nourishment that should go to supply life, luster and vigor to the hair.

PARISIAN SAGE costs but 50 cents a bottle at Wm. Madill's and druggists everywhere. It is guaranteed to banish dandruff, stop falling hair or scalp itch or money back. The girl with the Auburn hair is on every bottle. It is a most delightful and daintily perfumed dressing that quickly invigorates the scalp.

"My hair was falling out badly until I began to use PARISIAN SAGE, but it looks fine now. My hair was getting very thin, but it is getting thick and wavy.—Eliza Archer, 60 Church street, Hartford. Conn., June 5.

Saves one ton in seven

Figure up your annual coal bill, divide it by seven, and you have the amount the Hecla Furnace will save you every year. ¶ The steel-ribbed fire-pot does it. Adding steel ribs to the fire-pot increases its radiating surface three times more than is possible by any other method. The steel-ribbed fire-pot heats the air quicker. It sends the heat through the registers instead of up the chimney. ¶ Examine the Hecla. Compare it with other Furnaces. ¶ You will find every feature that makes for convenience and ease of operation. But the Hecla is the only one that has the Steel-ribbed Fire-pot—the fire-pot which saves thousands of users one ton of coal in seven.

HECLA FURNACE
No Gas or Dust

Section of fire-pot showing ribs of steel plate which save 1 ton in 7.

Burns wood as well as coal.

And this furnace cannot possibly leak gas or dust. The joints, usually bolted or cemented, are fused in the Hecla in a perfectly tight joint. Time and service cannot loosen the Fused Joint. The fusing welds the Hecla Radiator into one piece.

Our Booklet "Comfort & Health" should be in the hands of everyone who has a heating problem to solve. It will be sent free of charge.

AWFUL NERVOUSNESS AND PARALYSIS CURED BY "FRUIT-A-TIVES"

The Miracle Worker, That Cures When Doctors Fail — Now Used In Thousands Of Homes In Every Section Of Our Great Country.

Two Men, From Widely Different Parts Of Canada, Tell How They Found Health And Happiness By Taking These Wonderful Fruit Juice Tablets.

WALKERTON, ONT., MAY 9th. 1911

"I have been in Walkerton in business for a good many years and many of my townsmen know that my health, for long periods, was precarious. My trouble was extreme nervousness, brought on by Indigestion or Dyspepsia, from which I suffered in its most severe form. It was so bad that I could not sleep before about four in the morning. I noticed in the Toronto "World" one of your published testimonials of how someone had used "Fruit-a-tives" for similar trouble, and asked Mr. Hunter, my druggist, his opinion on the matter and he advised their use. I immediately procured several boxes and I am pleased to say that I now enjoy splendid health and could not possibly feel better. I can eat with every degree of satisfaction, and sleep without an effort, which pleasure I was denied before I was fortunate enough to use "Fruit-a-tives". I strongly advise anyone suffering from like complaints to commence using "Fruit-a-tives" immediately. Don't stop at a few doses—but continue using "Fruit-a-tives" until a cure is accomplished."

MR. ALEX. McCARTER

ALEX. McCARTER.

BRISTOL, N.B., JULY 25th. 1911.

"I am unable to say enough in favor of "Fruit-a-tives", as it saved my life and restored me to health, when I had given up all hope and when the doctors had failed to do anything more for me. I had a stroke of Paralysis in March, 1910, and this left me unable to walk or help myself, and the constipation of the bowels was terrible. Nothing did me any good and I was wretched in every way. Finally, I took "Fruit-a-tives" for the constipation, and it not only cured me of that trouble but gradually this fruit medicine toned up the nerves and actually cured the paralysis. Under the use of "Fruit-a-tives", I grew stronger and stronger until all the palsy and weakness left me.

I am now well again and attend my store every day and all day. I reverently say "Thank God! for Fruit-a-tives".

ALVA PHILLIPS.

MR. ALVA PHILLIPS

These two cases show the wonderful powers of "Fruit-a-tives" in restoring a shattered nervous system to health and vigor—in entirely curing obstinate Constipation—and in completely relieving Indigestion and Dyspepsia. What other one medicine in the whole world has ever done so much? "Fruit-a-tives" cures.

It is the only medicine in the world actually made from fruit with the addition of valuable tonics. It is pleasant to take and will always give the most gratifying results when taken regularly.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

Cynthia's Chauffeur

By LOUIS TRACY

Copyright by McLeod & Allen, Toronto

He saw himself discredited, suspected, a skulking plotter driven into the open, a self-confessed trickster utterly at the mercy of some haphazard question that would lay bare his pretenses and cover his counterfeit rhapsody with ridicule.

If Cynthia had heard, and hearing understood, it is possible that a great many remarkable incidents then in embryo would have passed into the mists of what might have been. For instance, she would not have deigned to notice Count Edouard Marigny's further existence. The next time she met him he would fill a place in the landscape comparable to that occupied by a migratory beetle. But her heart was leaping for joy, and her cry of thankfulness quite drowned in her ears the Frenchman's furious oath.

Mrs. Devar, having had time to gather her wits, made a gallant attempt to retrieve her fellow-conspirator's shattered fortunes.

"My dearest Cynthia," she cried effusively, "do say you are not hurt!"

"Not a bit," was the cheerful answer. "It is not I, but the car, that is out of commission. Didn't you see me do the Salome act when you were thrown on the screen?"

"Ah! the car is broken down. I do not wonder—this fearful road——"

"The road seems to have strayed out of Colorado, but that isn't the trouble. We are short of petrol. Please give some to Monsieur Marigny, Fitzroy. Then we can hurry to Bristol and the Count must pick up his chauffeur on the way."

Without more ado, she seated herself by Mrs. Devar's side, and Marigny realized that he had been robbed of a golden opportunity. No persuasion would bring Cynthia back into the Du Vallon that evening; it would need the exercise of all his subtle tact to induce her to re-enter it at any time in the near future.

He strove to appear at his ease, even essayed a few words of congratulation on the happy chance that brought the Mercury to their relief, but the imperious young lady cut short his limping phrases.

"Oh, don't let us waste these precious minutes," she protested. "It will be quite dark soon, and if there's much more of this wretched track——"

Medenham broke in at that. Mrs. Devar's change of front had caused him some grim amusement, but the discovery of Marigny's artifice roused his wrath again. It was high time that Cynthia should be enlightened, partly at least, as to the true nature of the "accident" that had befallen her; he had already solved the riddle of Smith's disappearance.

"The road to Bristol lies behind you, Miss Vanrenen," he said.

"One of the roads," cried the Frenchman.

"No, the only road," persisted Medenham. "We return to it some two miles in the rear. Had you followed your present path much farther you could not possibly have reached Bristol to-night."

"But there is a village quite near. My chauffeur has gone there for petrol. Someone would have told us of our mistake."

"There is no petrol to be bought at Blagdon, which is a mere hamlet on the downs. Anyhow, here are two gallons—ample for your needs—but if your man is walking to Blagdon you will be compelled to wait till he returns, Monsieur Marigny."

Though Medenham did not endeavor to check the contemptuous note that crept into his voice, he certainly ought not to have uttered those two concluding words. Had he ransacked his ample vocabulary of the French lanuage he could scarcely have hit upon another set of syllables offering similar difficulties to the foreigner. It was quite evident that his accurate pronunciation startled the accomplices. Each arrived at the same conclusion, though by different channels; this man was no mere chauffeur, and the fact rendered his marked hostility all the more significant.

Nevertheless, for the moment, Marigny concealed his uneasiness; by a display of good humar he hoped to gloss over the palpable absurdity of his earlier statements to Cynthia.

"I seem to have bungled this business very badly," he said airily. "Please don't be too hard on me. I shall make the amende when I see you in Bristol. Au revoir, chères dames! Tell them to keep me in dinner. I may not be so very far behind, since you ladies will take some time over your toilette, and I shall—what you call it—scorch like mad after I have found that careless scoundrel, Smith."

Cynthia had suddenly grown dumb, so Mrs. Devar tried once more to relax the tension.

"Do be careful, Count Edouard," she cried; "this piece of road is dreadfully dangerous, and, when all is said and done, another half hour is now of no great consequence."

"If your chauffeur has really gone to Blagdon, he will not be back under an hour at least," broke in Medenham's disdainful voice. "Unless you wish to wreck your car you will not attempt to follow him."

With that he bent over the head lamps, and their radiance fell unexpectedly on Marigny's scowling face, since the discomfited adventurer could no longer pretend to ignore the Englishman's menace. Still, he was powerless. Though quivering with anger and balked desire, he dared not provoke a scene in Cynthia's presence, and his continued silence already warned him that she was bewildered if not actually suspicious. He forced a laugh.

"Explanations are like swamps," he said. "The farther you plunge into them the deeper you sink. So, goodby! To please you, Mrs. Devar, I shall crawl. As for Miss Vanrenen, I see that she does not care what becomes of me."

Cynthia weakened a little at that. Certainly she wondered why her model chauffeur chose to express his opinions so bluntly, while Marigny's unwillingness to take offense was admirable.

"Is there no better plan?" she asked quickly, for Medenham had started the engine, and his hand was on the reversing lever.

"For what?" he demanded.

"For extricating my friend from his difficulty?"

"If he likes to come with us, he can leave his car here all night, and return for it to-morrow."

"Perhaps——"

"Please do not trouble yourself in the least on my account," broke in the Count gayly. "As for abandoning my car, such a stupid notion would never enter my mind. No, no! I wait for Smith, but you may rely on my appearance in Bristol before you have finished dinner."

Though it was no simple matter to back and turn the Mercury in that rough and narrow road, Medenham accomplished the manoeuver with a skill that the Frenchman appreciated to the full. For the first time he noted the number when the tail-lamp revealed it.

"X L 4000," he commented to himself. "I must inquire who the owner is. Devar or Smith will know where to apply for the information. And I must also ascertain that fellow's history. Confound him, and my luck, too! If the Devar woman has any sense she will keep Cynthia well out of his way until the other chauffeur arrives."

As it happened, the "Devar woman" was thinking the same thing at the same moment, but, being nervous, dared not attempt to utter her thoughts while the car was creeping cautiously over the ruts and stones. At last, when the highroad was reached, the pace quickened, and she regained the faculty of speech.

"We have had a quite eventful day," she said with an air of motherly solicitude, turning to the distrait girl by her side. "I am sure you are tired. What between an extra amount of sightseeing and poor Count Edouard's unfortunate mistake, we have been in the car nearly twelve hours."

"How did Fitzroy discover that we had taken the wrong road?" asked Cynthia, rousing herself from a perplexed reverie.

"Well, he drove very fast from Cheddar, much too fast, to my thinking, though the risk has been more than justified by circumstances. Of course, it is always easy to be wise after the event. At any rate, there being no sign of your car when we reached the top of the hill we—er—we discussed matters, and decided to explore the byroad."

"Did you remain long in Cheddar? If Fitzroy hit up the pace, why were you so far behind?"

"I waited a few minutes to address some postcards. And that reminds me—Fitizroy sent a most impertinent message by one of the servants——"

"Impertinent!"

"My dear, there is no other word for it—something about going off without me if I did not start instantly. But there! We must not renew our Bournemouth argument."

"And he caused a servant in the hotel to speak to you in that manner?"

"Yes—the very girl who waited on us at tea—a pert creature, who seemed to find the task congenial."

Mrs. Devar was building better than she knew. Cynthia laughed, though not with the whole-souled merriment that was music in Medenham's ears.

"She has ben properly punished; I forgot to tip her," she explained.

"Count Edouard would see to that——"

"He didn't. I noticed what he paid—out of sheer curiosity. Perhaps I ought to send her something."

"My dear Cynthia!"

But dear Cynthia was making believe to be quite amused by a notion that had just suggested itself. She leaned forward in the darkness and touched Medenham's shoulder.

"Do you happen to know the name of the waitress who brought you some tea at Cheddar?" she asked. "None of us gave her anything, and I hate to omit these small items. If I had her name I could forward a postal order from Bristol."

"There is no need, Miss Vanrenen," said Medenham. "I handed her—well, sufficient to clear all claims."

"You did. But why?"

The temptation to explain that he had never seen the girl before that day was strong, but he waived it, and contented himself with saying:

"I—er—can't exactly say—force of habit, I imagine."

"Is she a friend of yours?"

"No."

Cynthia subsided into the tonneau.

"Of all the odd things!" she murmured, little dreaming that her chance question had sent a thrill of sheer delight through Medenham's every vein.

"What is it now?" inquired Mrs. Devar vindictively, for she detested these half confidences.

"Oh, nothing of any importance. Fitzroy footed the bill, it seems."

"Very probably. He must have bribed the girl to be impudent."

Cynthia left it at that. She wished these people would stop their quarreling, which threatened to spoil an otherwise perfect day.

The Mercury ran smoothly into Bristol, crossed the Avon by the pontoon bridge, and whirled up the hill to the College Green Hotel. There, on the steps, stood Captain James Devar. Obviously he did not recognize them, and Medenham guessed the reason—he expected to meet his mother only, and bestowed no second glance on a car containing two ladies. Indeed, his first words betrayed sheer amazement. Mrs. Devar cried, "Ah, there you are, James!" and James's eyeglass fell from its well-worn crease.

"Hello, mater!" he exclaimed. "But what's up? Why are you—where is Marigny?"

"Miles away—the silly man ran short of petrol. Fortunately our car came to the rescue, or it would have been most awkward, since Miss Vanrenen was with the Count at the time. Cynthia, you have not met my son James, this is Miss Vanrenen."

The little man danced forward. Like all short and stout mortals, he was nimble on his feet, and his voluble outburst warned him of an unforeseen hitch in the arrangements.

"Delighted, I'm sure," said he. "But, by gad, fancy losing poo-aw Eddie! What have you done with him? Driven a stake through him and buried him at a cross road?"

To be continued

A dynamite bomb was found under a railway bridge in Monastir, over which members of the Reform Commission were to pass.

Salves Can't Cure Eczema

In regard to skin diseases, medical authorities are now agreed on this.

Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid.

WASH THE GERMS OUT.

A simple wash! A compound of Oil of Wintergreen, Thymol and other ingredients as combined in the D.D.D. Prescription. This penetrates to the disease germs and destroys them, then soothes and heals the skin as nothing else has ever done.

We have made fast friends of more than one family by recommending this D.D.D. Prescription to a skin sufferer here and there, and we want you to try it now. We can tell you all about D.D.D. Prescription, and how it cures eczema, or you can get a free trial bottle by writing D.D.D. Laboratories, 49 Colborne street, Toronto.

McDermid & Jury and E. L. Payne, druggists.

This Medicine Is Breathed!

Have You a Cold?—It Can B Completely Cured By

Catarrhozone

It Quickly Cures Whoopin Cough, Grippe, Bronchitis, Catarrh, Hay-Fever, Asthma, and Colds.

Catarrhozone is not like other remedies, but is so healing and soothing that when it is breathed through the inhaler it kills the germs that cause diseases of the throat and lungs.

Catarrhozone quickly soothes and heals the mucous surfaces so that in a short time the whole mucous lining is healed.

If you are subject to throat irritation or have a tendency to consumption you should use the "Medicine that is breathed."

Thousands who have used it tell of its merit.

Air which you breathe through the Catarrhozone inhaler carries healing to the very spot affected, and there is no chance of failure by going to the wrong place. That is why it cures.

Catarrhozone

Approved by Doctors, Druggists, and thousands of Canadian people, who have used it. Little drops of healing for weak places in the throat and nasal passages—that's Catarrhozone.

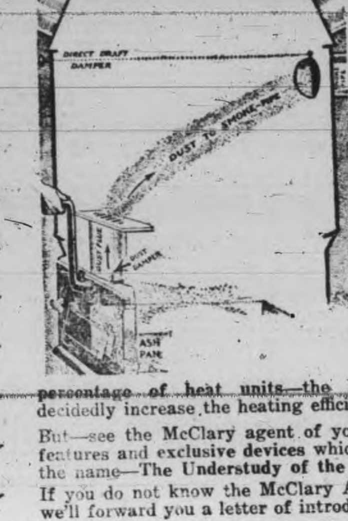
Three sizes, 25c., 50c., and $1.00, at druggists or by mail, postpaid, from the Catarrhozone Co., Buffalo, N.Y., and Kingston, Ont.

More Facts About McClary's

"Sunshine" Furnace

—The Understudy of the Sun—

There's **no dust nuisance** about the "Sunshine"—when you rock down the ashes the dust is **drawn up dust-flue** then **directly** across to smoke-pipe where it belongs. Look at the illustration and remember to open both "Dust" and "Direct Draft" dampers—these simple devices make the "Sunshine" the cleanest furnace **for the home.**



See the famous "cup joints" here—the frame of the ash pit—the two sections of the firepot and the dome all jointed together by our "cup joint."

There's a layer of asbestos cement in each joint—this unites all sections in a **permanent way,** yet leaves room for the expansion and contraction of the metal.

No wonder that this "Understudy of the Sun" is called the "Sunshine" furnace—Since it **diffuses pure warm June air throughout the house.**

You don't have to wear overalls when attending to the "Sunshine" furnace—It has a big roomy ash-pan. All the ashes are guided directly into the pan by ash-chutes. A minute or two performs the job. Yes, the "Sunshine" is the clean furnace.

The "Sunshine" Furnace burns either wood or coal. Coke, too, if you prefer it. The "Sunshine" distributes a greater percentage of heat units—the Baffle plates (a new McClary device) decidedly increase the heating efficiency of the furnace.

But—see the McClary agent of your locality. Ask him to show you all the features and exclusive devices which make the "Sunshine" Furnace worthy of the name—**The Understudy of the Sun.**

If you do not know the McClary Agent, write us at our nearest address and we'll forward you a letter of introduction by return.

MABEL'S CHITCHAT

How to Make Over Last Summer's Kimono Gowns.

CRASH TOWELING FOR FROCKS

Scalloped Edges on Costumes High In Fashion's Favor — Fichu Draperies Give Rejuvenating Air to Old Dresses. Leap Year Party With Amusing Stunts.

Dear Elsa—Ever since Lent began I have had the time of my life dressmaking—that is, making up little frocks for the summer that are so expensive to have made out of the house by a really good woman. Now that the width of skirts has been definitely settled it is perfectly safe to begin on one's summer wardrobe, although we are shivering with cold here in our New York apartment. And the sleeve question—that, too, is definitely fixed as far as the passing of the kimono effect is concerned, which is decidedly de mode. And, by the way, I am altering all my last year's kimono sleeves by cutting them off about three or four inches from what would be a legitimate shoulder seam and at this point attaching a puffed lower sleeve a trifle below the elbow or a long straight sleeve on morning frocks.

To bring about the now fashionable tunic effect on a last year's pink linen one piece frock was a simple affair. Fortunately I had some of the linen left, and with it I made a band about four inches deep to fit about the skirt. The lower edge of this strip I scalloped and bound with white wash soutache braid. The band was then placed on the skirt about five inches above the knees and a little longer in the back. The upper edge was simply turned in and stitched in place. The shirt waist front was scalloped; also the edges of the long tight sleeves. A black patent leather belt and a wide sailor collar of eyelet embroidery completed a mighty smart looking frock. The neck is slightly low. So I am going to wear a black velvet bow at the throat opening.

Turkish toweling, that has been so much exploited in fashion talks, is now being taken up as a dress material for entire gowns, and I am sure you will be interested in hearing about the toweling gown that I have just finished making.

It is of pale lilac mixed with white, an exact duplicate of the regular crash one sees in the bathroom. The skirt has three narrow plaits inserted in the middle of the front running up nearly to the waist line. The top of them is held down flat by an applied piece of violet embroidery on heavy white linen.

This embroidery is also used on sleeves at the elbow, where it is finished with a turnover cuff. The frock fastens up the front with white crochet buttons, and there are a V shaped yoke and a stock of white wash net.

A Leap Year Party.

Since the new year began there have been lots of leap year parties among hostesses of my acquaintance. Perhaps the most amusing feature of a recent jolly affair was the proposal contest. In this the men were seated around the room at intervals, and the girls progressed about the circle, each girl making a mock proposal of marriage to each man. Each girl employed her own methods of persuasion by kneeling to her adored one or by taking his hand or walking off with him to a corner or by sitting by his side or writing him a note. There was only three minutes' time for the girl to put the question before going on to the next victim. The man was allowed to accept or refuse. When the circle was completed each man wrote on a slip of paper the name of the girl whose proposal seemed to him the best, either the most amusing, the most natural, the most original or the most convincing, and the girl who got the most votes received a prize. The girls also voted for the man who received the proposal in the best manner, the coyest or the most ingenious.

A variation of this idea would be to have each girl propose out loud to just one man, with all the others listening, and have the crowd vote on the best proposal made under these highly embarrassing circumstances.

When a buffet supper is served at a leap year party the girls must take the refreshments to their partners and keep them well supplied with everything. The ice cream should be in the form of hearts, and the favors may include hearts and arrows and the rest of the trifles usually associated with valentine affairs. To give a real leap year atmosphere Cupid may be replaced among the favors with girl dolls armed with bows and arrows, and there may be miniature suffragettes. For a very frivolous leap year party the prizes might be suffrage cartoons, Gibson pictures of women, dolls, posters or other appropriate and inexpensive gifts.

Before saying goodby to you, dear, I must tell you about the charming new footwear. Many colors are being made up into suede shoes—purple, sage green, sea blue, raspberry red. The colored shoes are worn with dresses to match and with white and black gowns, and colored stockings of these bright shades are worn with black shoes. Now black stockings have the walls of Troy in straight lines from the knee, which looks like black satin ribbon. Those who are economically inclined have lisle thread heels and toes to their silk stockings, for silk does not last long, especially if you are a tramper, like your friend.

New York. MABEL.

THE MISSING RING

A Dramatic Incident at a Dinner Party

By MOLLIE K. WETHERELL

At a dinner consisting of a dozen persons or thereabouts a lady who had recently returned from abroad wore on her finger a ring she had brought from Rome. It had been found in digging the foundation for a house to be erected on the Via Cavour, and, considering the depth at which it lay and its workmanship, archaeologists placed it as belonging to the time of Augustus Caesar. The ring having been noticed by some one sitting near her, the lady took it off her finger, and it was passed around the table for inspection.

The curiosity that had belonged to so distant a period and probably the most interesting to modern European races in history led to a spirited dialogue on the conditions existing at the Eternal City under Augustus, and the ring was forgotten. Later its owner asked for it. Each person who had held it looked at some one else at the table, but no one produced the ring. Several minutes passed, during which a search was being made among the tableware, the brow of the lady who had submitted it for inspection meanwhile darkening. The host, who also looked anxious, arose and, asking the guests to push their chairs back from the table, looked carefully under it, but without success.

There had been no waiters in the room while the ring had been circulated, for the dinner was over and the coffee served. A suspicion therefore arose among those present that it had been stolen by one of their number. This suspicion showed itself to a marked degree in the expressions of those who held it. The host, who sat at one end of the table, and the hostess, who sat at the other, looked at each other in dismay. There was in the incident material for a first class scandal. Then the host, evidently much moved, said:

"It looks as though we had in our midst a thief, and yet I have perfect confidence that such is not the case. Nevertheless every person present is under suspicion. That every one may be cleared of that suspicion I propose that we each and all submit to be searched. I will call in some one who has not been in the room to do the searching, one of my own family, who will have no reason in screening or convicting any individual. You have heard my proposition. Let those who are willing to submit to it say 'Aye.'"

Every one at the table rose except Earle Huxford, a young artist who had passed his novitiate in Florence, Italy, and had returned to America for a short stay. Those present looked at the young man in astonishment.

"Mr. Huxford," said the host with dilated nostrils and flashing eyes, "do you confess yourself a thief?"

"No."

"Then why do you object to clearing this matter up?"

"I do not care to state my reasons."

Huxford sat toying with the stem of a wineglass. Outwardly at least he was cool. He did not meet the gaze of those whose eyes were fixed upon him, some with indignation, some with surprise and some with contempt. There was a short silence, after which the host said to the others:

"I presume we shall be obliged to take Mr. Huxford's action as proof of his guilt, though he virtually pleads not guilty." Then, turning to the lady who had lost the ring, he added, "I cannot replace your property, but I shall send to a friend in Rome, an archaeologist, to procure me the best substitute he can find that is purchasable at any price."

The lady replied that she did not hold her host responsible for her loss, but he insisted that he was responsible and would make it good.

Huxford arose from the table and, looking at the host, said:

"Under the circumstances I must ask your permission to withdraw."

"Madame," said the host to the loser of the ring, "is it your wish to call upon the police to regain your ring?"

"Certainly not; I would not think of such a thing."

"Very well, Mr. Huxford. You may withdraw."

All eyes were fixed on Huxford, who left the room without turning his back to the company, making a slight inclination just before passing through the door. He left a roomful of persons influenced by different emotions. Some blamed the host for permitting him to depart without attempting to secure the ring; some felt that he had acted wisely, but no one expressed an opinion. The episode was discussed in general terms by the company all taking part except Miss Louise Trover, who seemed to have been stunned by it, and Miss Kate Sheldon, who, though she made no comment, showed in her expression that she was much moved. The question, "Do you believe him guilty?" passed around the table. Miss Trover's reply was, "I can't understand it." Miss Sheldon's was, "I have no opinion to express in the matter."

Nothing else than Huxford's guilt—his motives for taking the ring, his consent to stand in the position of a thief if innocent—was discussed for the rest of the evening. One gentleman, a lawyer by profession, proposed a theory that met with more favor than any other. He suggested that Huxford, being an artist, poor and having lived in Rome, knowing the value of the ring, had yielded to a temptation to possess it, then had relied on the character of the company not to push the matter to a disclosure.

The next afternoon while Miss Trover was preparing to go out she was surprised to receive a card bearing the name of Earle Huxford. She was about to send an indignant "not at home" when she abruptly changed her mind and went down to receive the visitor. She walked into the room with a look on her face to indicate that Mr. Huxford under a cloud was not an acceptable acquaintance.

"Louise"— he was beginning when she stopped him.

"Miss Trover, please."

Huxford's face changed. "I came here for an explanation. From your manner I infer that you consider me a thief. Such being the case, I will not attempt to remove the impression. I bid you good morning."

The composed manner that accompanied the words changed that of the lady. With a voice that trembled slightly she said:

"Heaven knows how glad I would be to hear proof of your innocence."

She had not asked him to be seated, and when he spoke again he continued standing. She, too, remained on her feet.

"Do you remember when we first met in Florence, while I was copying a picture in the Pitti gallery?" he asked.

"I do."

"A young American lady had just left me. You did not notice her, but she noticed you. I do not relish speaking of favors I have received from women, but in this case it is necessary. That girl wished me for herself—why I know not, for I certainly had no reciprocal desire on my part. She watched you and me during your stay in Florence and when you were gone reproached me for what she called deserting her for you. I declared that, far from deserting her, I had never expressed any other except a friendly feeling for her."

"I was not aware I had a rival."

"Have I not just said that you had not? Certainly not in the woman I have mentioned."

"Go on."

"Then when I was able to do so, after our correspondence, I followed you here."

He paused, seeming to debate in his mind just what to say next; then he said abruptly:

"You wish to know where that ring is?"

She looked up at him inquiringly. "I certainly do."

"If it has not been lost on the way you will find it in one of the folds of the gown you wore at the dinner last evening."

"In *my* costume?"

"Yes, in yours."

"Why do you say that?"

"Because I saw it dropped there."

The girl stood as if stunned for a time, then suddenly ran out of the room and upstairs. In a few minutes she returned with the ring. On her face were many thoughts and emotions in confusion, but the one that was growing predominant was a consciousness of a sacrifice having been made to save her from a very trying position.

"What did you mean," she exclaimed almost indignantly, "by admitting that you were a thief when you were—were—what were you trying to do anyway?"

"There were several things for me to do. The first was to prevent your being found with the ring in your dress. You didn't know it was there. Since I saw it placed there I should have had to accuse the person who put it there, and I question if I would have been believed. At any rate, the motives of the person who sought to vent her vindictiveness upon you would have necessarily come out."

"Who was she?"

"Miss Sheldon."

"Miss Sheldon! What object had she to injure me?"

"Your dinner companion had sat between you and her, but had moved to speak to another lady. Our host was telling of an adventure he had had in the Coliseum in Rome. All eyes were turned on him. The ring was on the table near Miss Sheldon. Though I appeared to be watching the speaker, half my glance was upon her. She, too, pretended to be interested in what was said. Presently she let fall her hand on the ring, then lowered both beneath the table. When she raised her hand the ring was not in it. The dress you wore, full of folds as it was, was a convenient receptacle for stolen property."

"Who is Miss Sheldon?"

"One you have dignified with the name of rival."

There were a few moments of silence between Huxford and Miss Trover. The explanation had appalled her. Two emotions struggled within her—horror at the act of the woman who had sought to ruin her and wonder and appreciation for the sacrifice that had been made in her behalf. Silently she moved toward the artist, and he clasped her in his arms.

"I have heard of such women," said Miss Trover presently, "but I did not believe that they existed."

"You have proof in this that they do."

"What is the next step in the drama?"

"To return the ring without an explanation."

"Without an explanation? In that case you will not be vindicated."

"I never can be vindicated. When a man is attacked by an unscrupulous woman his only defense is silence."

Then, after a pause, she said: "One thing I am glad of. I shall partake of your disgrace before the world."

PILES CURED IN 6 TO 14 DAYS

Money Back Dandruff Cure

Wm Madill Guarantees Parisian Sage for Dandruff and Falling Hair

Destroy the dandruff germs that's the only known way to eradicate dandruff, and PARISIAN SAGE contains just the ingredients that will destroy germs.

Dandruff causes falling hair and baldness, because the little dandruff germs rob the hair roots of the nourishment that should go to supply life, luster and vigor to the hair. PARISIAN SAGE costs but 50 cents a bottle at Wm. Madill's and druggists everywhere. It is guaranteed to banish dandruff, stop falling hair or scalp itch or money back. The girl with the Auburn hair is on every bottle. It is a most delightful and daintily perfumed dressing that quickly invigorates the scalp.

"My hair was falling out badly until I began to use PARISIAN SAGE, but it looks fine now. My hair was getting very thin, but it is getting thick and wavy.—Eliza Archer, 60 Church street, Hartford, Conn., June 5.

Saves one ton in seven

Figure up your annual coal bill, divide it by seven, and you have the amount the Hecla Furnace will save you every year. ¶ The steel-ribbed fire-pot does it. Adding steel ribs to the fire-pot increases its radiating surface three times more than is possible by any other method. The steel-ribbed fire-pot heats the air quicker. It sends the heat through the registers instead of up the chimney. ¶ Examine the Hecla. Compare it with other Furnaces. ¶ You will find every feature that makes for convenience and ease of operation. But the Hecla is the only one that has the Steel-ribbed Fire-pot—the fire-pot which saves thousands of users one ton of coal in seven.

Section of fire-pot showing ribs of steel plate which save 1 ton in 7.

HECLA
FURNACE
No Gas or Dust

Burns wood as well as coal.

And this furnace cannot possibly leak gas or dust. The joints, usually bolted or cemented, are fused in the Hecla in a perfectly tight joint. Time and service cannot loosen the Fused Joint. The fusing welds the Hecla Radiator into one piece.

Our Booklet "Comfort & Health" should be in the hands of everyone who has a heating problem to solve. It will be sent free of charge.

BRITAIN STARTED NEW DEFENCE MOVE THIS MONTH; FLEET PATROLS THE COAST

Winston Churchill Has Evolved an Elaborate Scheme to Prevent Sudden Attack by Germany—Northeast Coast Is Most Heavily Guarded—Destroyers, Numbering 165, Are Included In the New Flotillas.

London, May 13.—Under a new scheme of defence initiated by Winston Spencer Churchill, the First Lord of the Admiralty, the destroyers of the British fleet commenced on May 1 a continuous patrol of the coasts of the United Kingdom. The northeast coast, menaced as it is by the powerful fleet of the German Empire, is necessarily most closely guarded and there the most modern and powerful vessels of the mosquito fleet, supported by submarines, have been stationed.

Heretofore, the two battle squadrons have had attached to them a destroyer flotilla with reserve flotillas at the naval bases at Devonport, Portsmouth and the Nore. The new scheme provides that no steamers are to be permanently attached to the battle fleets. Instead the whole available forces have been organized into eight flotillas, four being in full commission and four in reserve, with nucleus crews.

With the four active flotillas, the first and second, composed of 36 of the newest and most powerful vessels, will have their base at the new naval headquarters at Rosyth, on the east coast of Scotland, and facing directly across to Germany, besides guarding the north-about exit to the Atlantic. The third flotilla will have its base at Harwich another east coast station, and the fourth at Portland on the English Channel, where it will be available for work on any coast. At each of the bases named there will be one reserve flotilla, while other destroyers will patrol other parts of the coast not covered by these.

Ne fewer than 165 destroyers are included in the new organization, besides eight fast cruisers, eight scouts and eight depot and repair ships. Of this number one-third are assigned to the North Sea, so that with 24 submarines with bases at Dundee and Harwich, the coasts of England should be well guarded. Naval experts in fact estimate that the new scheme doubles the effective strength of the advance guard along the eastern seaboard.

With the exception of the fifth flotilla, all the North Sea destroyers are driven by turbines and the majority burn oil. Most of the vessels at Rosyth have been built since 1910, and have a speed of 29 knots and they will shortly be strengthened by the 27-knot boats. All have either been designed or altered for work in the rough waters of the North Sea. The active flotillas are fitted with wireless telegraphy.

Darrow on Trial Wednesday.

Los Angeles, May 13.—Rivaling in interest the famous case of the McNamara brothers will be the trial on Wednesday on a charge of bribery of Clarence Darrow, famous the world over as a lawyer and labor leader.

Not the least interesting phases of the case that promises to be as dramatic as it is unique are the facts that Darrow will assist in his own defence, and that the testimony expected to convict him was obtained by means of a dictograph.

New Rink for Niagara Falls.

Niagara Falls, Ont., May 13.—Hockey enthusiast will begin the erection of a six thousand dollar rink here early next month. The money has practically all been raised by subscription.

Joseph Erie, Niagara Falls, N.Y., was deported yesterday for assisting Marbine Zablincki to enter Canada. Zablinski was held for hearing to-day.

STRIKE IN CHICAGO

Chicago, May 13.—By a vote of 1,099 to 655 members of the Typographical Union yesterday voted not to go on strike in sympathy wth the pressmen who now are out in all Chicago daily newspaper offices.

While the vote was decisive, J. M. Lynch, international president of the Typographical Union, and Walter W. Barrett, president of the Chicago local, had expected that the majority against a strike would be larger than the returns showed. Both of them expressed themselves as well pleased with the result, however. From the beginning of the agitation of a strike, they urged the pressmen not to take such a step. They insisted that the present contract with the publishers was binding and could not be broken.

Squabble Shocks Britain.

London, May 13.—The only view which people here are taking of the struggle between Taft and Roosevelt is that it is the worst possible introduction to a serious political campaign.

That a party with as great a history as the Republican organization should experience so deep a cleavage over a dispute which centres so largely on personal matters, is not regarded as an indication of health in the body politic. To us, it seems to indicate that grave problems of the day, which ought to be grappled with seriously by American statesmen, are being thrust aside for the sake of pleasing the public's curiosity as to how far two eminent politicians can go in abuse of each other.

NEW BROTHERHOOD IS NOW AN ESTABLISHED FACT

The Aims and Objects of the Federation — Constitution Adopted.

Toronto, May 13.—The opening session of the Canadian Brotherhood Convention on Saturday afternoon was devoted to the passing of the constitution. The following was decided upon as the aims and objects of the federation: To win the men of Canada for Christ; to promote the development of men's christian organizations; to foster worthy ideals of citizenship and to focus public sentiment upon great moral issues.

The constitution adopted is as follows:

The Brotherhood Federation of Canada shall consist of Federated Church Brotherhoods of societies, and individual brotherhoods or societies not included in a federation in the B. F. of C.

Societies and federations which join are expected to recognize the evangelical character of the movement, as set forth in the aims and objects.

The B. F. of C. shall not interfere with the freedom of the federations or individual societies, nor with the relation between societies and the churches.

Federations of societies shall undertake to contribute annually during the affiliation to the funds of the federation, assuming the payment of an annual fee of 50 cents per member by each society. The power to veto joining is reserved to the executive, subject to the federation at its annual business meeting.

Each federation uniting with the B. F. of C. is requested to observe, if possible, the first Sunday in May as brotherhood Sunday, and each society in such federation is requested to make a special collection on that Sunday, of which a percentage shall be forwarded to the treasurer of the B. F. of C.

The Brotherhood Federation of Canada shall hold an annual conference in November, at such place and time as shall be decided by the executive. So far as possible the conference shall be held in different parts of the country.

The constitution was passed subject to the provision that it could be altered by a two-thirds vote of the delegates at any annual meeting of the federation. The first annual meeting of the Canadian Federation will be held next November.

Government Steamer Employes Strike

Charlottetown, P.E.I., May 13.—Saturday morning the firemen and trimmers on the Earl Grey and the Minto went on strike, demanding an increase in wages and reduction in hours. After a conference with the Marine Department, the latter decided to grant the demands. Henceforth the firemen will receive $32 per month, and the trimmers $29. The length of watches will be four hours.

Negro Found Dead.

Chatham, May 13.—Adolphus Cook, a colored man, was found dead near the Ursuline College Saturday afternoon. The coroner was notified and an inquest will be held.

Cook, who lived on the Wood survey, was going home from market with a box of tomato plants and a box of cabbage plants, which were found beside him. He leaves a family.

Galt's New Armories.

Galt, May 13.—That work is to be started on an armory for Galt this year is shown by a letter received from the Militia Department by Town Clerk McCartney, asking for plans of the proposed site. The council will give a free site, to be selected by a committee of which Reeve Jaffray is chairman. The new armory is to be 80x100 feet.

TO PUT CHECK ON PICTURE EXPORTING

London, May 13.—The House of Lords has taken effective measures to prevent the removal of further historical monuments to America. Aroused by the many recent purchases by Americans of interior decorations of old castles and homes, the Government, through Earl Beauchamp, First Commissioner of Works, has introduced and passed to second reading a bill entitled "Ancient Monuments Protection Bill." The bill gives the Government the right of pre-emption for the purchase from a private owner of monuments of interest, which otherwise might be sold and sent out of the country.

The bill was supported by Lord Curzon and other Opposition peers, and should have a smooth passage through both Houses.

MRS. VANDERBILT UNDER SURGEON'S KNIFE

MRS W. K VANDERBILT

PHOTO. BY ALMAN.

Mrs. William K. Vanderbilt, Jr., has just undergone an operation for appendicitis at her residence, in Fifth avenue, New York. She is reported to be resting easily and entirely out of danger. The operation was performed by Dr. James I. Russell, assisted by several other surgeons.

Mrs. Vanderbilt had not been in her usual robust health for some time, but her condition was not such as to excite alarm or interfere with her social activities.

Mrs. Vanderbilt before her marriage was Miss Virginia Fair, daughter of the late Senator Fair, of Nevada. She is a sister of Mrs. Hermann Oelrichs and of the late Charles Fair, whose tragic death, together with that of his wife, in an automobile accident in France a few years ago precipitated a legal fight over his part of the large Fair estate.

NESBITT IS OUT ON BAIL OF $15,000

Special to the Review.

Toronto, May 13.—Dr. Beattie Nesbitt, the former president of the Farmers' Bank, who was brought back to Toronto from Chicago, made his appearance in police court this morning.

Without pleading or electing, he was remanded for one week, bail to the extent of $15,000 being accepted by the court.

His bondsmen are Wallace Nesbitt, K.C., and Dr. Walter McKeown. Since his arrival in Toronto yesterday, Nesbitt had shaved the heavy growth on his face, and he presented much the same appearance as when he walked the streets of Toronto before the smash of the Farmers' Bank came.

REV. J. D. MORROW RECEIVED FEE OF TEN DOLLARS

Special to the Review.

Toronto, May 13.—Rev. J. D. Morrow told in police court this morning that he got a ten dollar fee for marrying Lorne Fraser to Fred Young Hamilton, a Chinaman, when the charge against him of performing a marriage ceremony after legal hours, was taken up. "I hope it will be the last cent you get for that kind of thing," said Crown Attorney Corley. Miss Fraser testified it was eight minutes past ten when they reached the minister's house. The case was remanded for a week to get the driver of the taxicab who took them there.

TO INVESTIGATE HYDRO-POWER

London, May 13.—The passengers who sailed for New York Saturday on the steamship Mauretania included Lord Montagu of Beulieu, who goes on a two months' trip to the United States and Canada to investigate the progress of motoring and aviation, and also to study the good roads movement. His principal business will be to look into hydro-electric schemes along the Mississippi, in which London is very much interested. He will also look over the life insurance field with a view of combining British companies whereby they will obtain the advantages of united financial strength. Geoffrey Marks accompanied Lord Montagu.

ZELAYA GUILTY OF ASSASSINATION

Managua, Nicaragua, May 13.—The Nicaraguan Congress has decided that Jose Zelaya, former president of the republic, is liable to prosecution for many alleged assassinations, and the killing of Cannon and Grace, two Americans, who were illegally executed in November, 1909. Zelaya is believed to be in Belgium, but may be tried, convicted and sentenced in his absence.

BIRTH

DRIVER.—At 2035 Yonge street, North Toronto, on Friday, May 10, to Mr. and Mrs. George Driver, a daughter.

SNOW FALLS AT CHATHAM

Special to the Review.

Chatham, May 13.—The people of Chatham awoke this morning to find that a blizzard raging rain, which started to fall last night, had turned to snow.

The oldest residents have no recollection of a snow storm here so late in the season.

SMITH MAY RUN IN KOOTENAY

Nelson, B.C., May 13.—The Conservatives will hold a convention on May 16, to nominate a candidate for the Kootenay bye-election, June 20, and R. F. Green of Victoria is the probable choice. No Liberal is yet in the field, but several names are mentioned, including that of Ralph Smith, a former member for Nanaimo.

Brantford Lad Missing.

Brantford, May 13.—Parents of Ivor Rhodes, a ten-year-old English boy, are greatly distressed at the disappearance of a lad from home at 28 Spring street, on Wednesday last. He was last seen fishing from the railway bridge over the Grand River and it is feared he must have been drowned.

BUFFALO BATTLES WITH WHEAT

Buffalo, May 13.—To avert a grain blockade at this port, elevators are being worked day and night and will continue to handle their capacity for the next week. Approximately eight million bushels of grain have been elevated during last week, and to-day twelve big grain carriers were lying inside the breakwater awaiting the turn at the elevators.

It is estimated that there are seven million bushels afloat. The railroads are co-operating with the elevators to prevent a blockade, clearing on an average of 1,500 cars a day for export.

Minister's Wife Dropped Dead.

St. John, May 13.—While her husband was away in another county preaching, Mrs. Thorne, wife of Rev. I. Newton Thorne, of Cody's, dropped dead on her way home from church yesterday morning. Mr. Thorne is a prominent Baptist and has been engaged in mission work in the province. On Saturday he left Albert County to preach.

LADY TUPPER PASSES AWAY

London, May 13.—(C.A.P. Cable.)—Lady Tupper, wife of Sir Charles Tupper, who died Saturday at Bexleyheath, Kent, had been an invalid for a number of years, suffering from heart trouble. Her condition became serious three weeks ago, death resulting from simple exhaustion.

The body will be sent to Halifax for burial, probably on the Empress of Britain, sailing Friday, May 17, and will be accompanied by Sir Charles Tupper, Stewart Tupper, who only arrived Saturday, and Sir Chas. Hibbert Tupper, who is expected by the Lusitania to-day. Sir Charles Tupper is wonderfully well under the circumstances.

Lady Tupper's maiden name was Frances Amelia Morse, and she was the daughter of Silas Hibbert Morse of Amherst, N.S. She married on Oct. 8, 1846, Sir Charles Tupper, who later became Prime Minister of Canada and filled two terms as High Commissioner for Canada in London.

There were great celebrations on the 50th anniversary of their wedding on Oct. 8, 1896, in Ottawa, when they were presented with many souvenirs, including a gold epergne from the Conservative members of the Senate, a solid gold salver from the Conservative members of the House of Commons and a handsome silver gilt epergue from the Conservatives of Halifax, N.S.

NEW ROUTE TO DODGE BERGS

Washington, May 13.—The hydrographic office has announced the changing of the transatlantic steamer lanes 60 miles to the southward of their present position, as a result of reports of many icebergs in the present lanes. The steamship companies have agreed to adopt the new route, beginning last Saturday.

HORSE DRAGGED CHILD TO DEATH

Montreal, May 13.—Eight-year-old Walter Maynes was dragged to death by a horse belonging to his father in a field at Ville Emard, when he tied the rope which was about the horse's neck around his waist, and the horse becoming frightened, dashed away.

REV. H. J. KEITH.

He preached the annual sermon to the Knights of Pythias at Knox Church last night.

CHILDREN OF MIXED MARRIAGE

Kingston, May 13.—W. H. Wrightmeyer, Children's Aid Agent at Belleville, was here Saturday removing two children from the Catholic Orphanage to his care. The children had been taken from their parents and later returned on the promise that they would be better cared for. Recently the couple parted and the mother, who is a Catholic, placed them in the Catholic home.

The father, who is a Protestant, wanted them brought up as members of his church, hence their removal.

Kingston Harbor Improvements.

Kingston, May 13.—To-day Mayor Houg and Ald. Carson and Rigney leave for Ottawa with Dr. E. Ryan, Capt. Robt. Fraser and G. Y. Chown, representing the Board of Trade, to interview the Minister of Public Works regarding improvements to Kingston harbor. He will also offer the Minister the old Cataraqui bridge, recently purchased by the city from the Cataraqui Bridge Co.

THE PRESIDENT OF FARMERS' BANK IS BACK IN TORONTO

Superintendent Rogers Extradition Efforts Prove Successful and Much Sought After Doctor Is Brought Home as Quietly as He Went Away—Reporters Who Tried to See Him Go Away Disappointed.

Toronto, May 13.—Dr. W. Beattie Nesbitt returned to Toronto yesterday morning after an absence of a year and four months. He left over the ice of the Muskoka Lakes, riding to the border upon a freight train, and went unattended. He returned accompanied by Detective Boyd of the provincial police, and occupied a stateroom upon the G.T.R. flyer from Chicago sped by the signed and sealed orders of the U. S. Secretary of State and at the urgent seeking of the authorities of his own country.

The doctor's going was quiet and he attracted no more attention than was absolutely necessary. When he came again he slipped, or was slipped, into the city with the utmost secrecy. When the train arrived at West Toronto half a dozen newspaper men boarded it in quest of a word with the doctor or hoping to get at least a glimpse of his once familiar figure. More newspaper men boarded the train at North Parkdale at 7.32, when the train arrived punctual to the minute. They were disappointed, for as the train pulled out for the Union Station, where the doctor was scheduled to alight, he and his escort slipped quietly from the other side of the train and entered a taxi which had waited for them in Queen street subway.

Provincial Detective Greer, who was waiting at the station, came on with the train and the newspapermen to the Union station and went with them to the Court street police station, where it was expected that Dr. Nesbitt would be held until his arraignment this morning. There was nothing doing. The taxi which picked up the doctor and the detective drove to the home of Supt. J. E. Rogers and then whirled away to the jail, where the doctor was received under a special commitment. He will be turned over to the city authorities at the city hall to-day.

The evasion of any observers who might be on hand to witness the doctor's arrival, was made at his own request, and was neatly executed. The doctor expressed a wish that his homecoming might be as quiet as possible. Mrs. Nesbitt is in their island home in Muskoka, and no effort was made to secure bail for the doctor, who, after having a hearty breakfast, which was specially prepared for him at the jail, spent the remainder of the day resting.

Despite the fact that the doctor declared his intention while in Chicago of calling in the assistance of a barber to restore as far as might be his former appearance, he is still wearing the small beard of a Kentucky colonel, although this may be removed before his appearance in the police court.

Ismay Is Cheered.

Liverpool, May 13.—A big crowd awaited the arrival of J. Bruce Ismay, managing director of the White Star line, on board the Adriatic, and cheered him as he walked down the gangway with his wife, who had gone on board at Queenstown and accompanied him here.

Mr. Ismay lifted his hat in acknowledgement of the reception, but excused himself from making any statement to the press, saying that he was still suffering from the strain of the disaster. He had, he said, already given a plain unvarnished statement of facts to a responsible and adequate commission, and he thought that his evidence to be given before the British court of enquiry should not be anticipated.

He expressed his gratitude for the cablegrams and letters he had received from public societies and private friends conveying their sympathy with their confidence in him "during the greatest trial of my life."

Mr. Ismay was pale and haggard, and appeared much touched by his reception.

TELEGRAPHIC NEWS ITEMS

Work has commenced on a ladies' college at Red Deer, Alta., to cost $200,000.

Fire Saturday destroyed Clark Bros.' machine shops at Belmont, N.Y., entailing a loss estimated at $200,000.

It is announced that work will start next month on a Catholic Cathedral at Lethbridge, Alta., to cost over $100,000.

Hon. T. W. Crothers declares that there is no foundation for the rumor connecting him with the succession of the late Judge Mabee on the Railway Commission.

On the construction of the main line of the G.T.P. Railway, from mile 28 west of the Rocky Mountain summit to mile 53, there are to-day at work no fewer than 6,000 men.

The strike of 6,000 workmen employed in the branch establishment at Hamburg, Germany, of the Stettin Vulken shipbuilding yard, has been settled. The men went out April 30.

James Murray and Peter Fairbairn, the former a Hamilton man, were on Saturday sentenced at London to three years in the penitentiary for burglarizing a safe at Arva several weeks ago.

The public service commission left Ottawa to-day for Sorel to conduct an enquiry into the methods at the Government shipyard there. Its accountants and auditors have already been at Sorel.

After an illness of several months the Earl of Euston, the heir of the Duke of Grafton, who is ninety years of age, died Saturday afternoon of heart failure. He was in his sixty-second year.

GENERAL OROZCO'S FORCES ROUTED NEAR TORREAN

Anxiously Awaited Battle Between Mexican Revolutionists and the Government Troops Is Decided In Favor of Madero and Orozco Is In Full Flight—Washington Anxiously Awaited Outcome of Conflict.

Conejos, Mex., May 13.—(At the Federal Front)—Twelve hours of brisk fighting on the desert plains 300 miles south of the American border between a force of 5,000 rebels under Gen. Orozco and an equally strong body of federals under Gen. Huerta resulted yesterday in a decided advantage to the Government.

It was the steady artillery fire of the Government troops that dislodged the enemy. The aim of the federal gunners was true. They began to shell the rebel positions at daybreak. For a time the insurrectos fired in volleys and seven federal officers were wounded. Only a few hours, however, they withstood the cannonading, and soon began evacuating their positions. Gen. Tellez arrived at nightfall with 1,500 men in the valley behind Conejos, where the vanguard of rebels gathered. It seems likely that unless the rebels continue to fight desperately, many prisoners will be taken to-day.

Enthusiasm in the federal camp is intense. Word reached here that Torreon is celebrating the victory with street parades and music

Gen. Tellez who had been stationed in the rear of Huerta's vanguard at noon, was sent around to the eastward to flank the rebels and cut off their retreat. Last night federal headquarters claim the rebels are completely surrounded and that the second day of fighting will prove equally decisive.

Orozco In Retreat.

El Paso, Tex., May 13.—Gen. Orozco is retreating northward toward the American border.

A message to the Mexican consul here from Gen. Huerta at the federal front at 11 a.m., declared that Orozco had hastily abandoned his position at Conejos, leaving many guns and ammunition. The federals at noon yesterday occupied the positions held by the rebels.

The fighting began at daybreak.

Washington Anxious.

Washington, D.C., May 13.—The U. S. Government is awaiting the outcome of the battle now going on between the federals and rebels at Tiahuailo, Mexico, with great anxiety. This battle, it is claimed by those who know the situation, will decide whether this Government will be forced to intervene in Mexico, or if the Madero Government is able to cope with the situation.

With the knowledge that they must either win a battle at once or starve, the rebel forces were reported on Saturday as desperately attacking the federal at Rancho Tiahuailo, near Torreon, and exerting every effort to drive the Government forces from their strong entrenchments. So far the best of the fighting had been with the federals. President Madero's forces were strongly equipped with modern artillery and had plenty of supplies.

The rebels, on the other hand, were fighting in a desert and were far from their base, El Paso being the nearest point at which they could purchase provisions. If the federals should succeed in holding the rebels in their present position for a few days, it was believed that the revolutionary forces would have to retreat, in which event it was admitted that the army would break up and the rebellion dwindle to a scattered guerilla warfare.

Although the rebel forces, commanded by Gen. Orozco, greatly outnumbered the federals, the situation had become so serious that Gen. Salazar, who with 3,000 men was defeated in his attempt to get around to the federal rear, was said to have been recalled from Cuatro Cienegas to reinforce the rebels. His arrival was expected in a few hours a his command would bring the rebel forces in the battle to 11,000 men. Salazar's retreat meant the abandonment of operations by the rebels in the regions of Saltillo and Monterey.

Gen. Orozco's plans seemed to have gone entirely astray. Not only was Salazar prevented from making his rear attack on the federals, but the expected rebel forces that were to have attacked Torreon from the south and west while he made his attack from the north, have failed to show and are reported to be kept busy by Government troops.

Heavy bloodshed is expected before Torreon can be taken. Madero has instructed Gen. Huerta to lose his last man before he loses Torreon, which is the railroad gateway to Northern Mexico. Should Torreon fall, the revolution will have to be counted with Mexico City, and Madero himself will have to take the field to defend his Government and his life.

STEAMER FINDS TITANIC VICTIM

Toronto, May 13.—The body of a man who was on his way to Toronto was picked up by the Canadian Government steamer Montagny, together with three other bodies in the vicinity of where the Titanic sank. The man is Harold Reynolds, of the Royal West Kent Regiment, Manston, England. He had been with this regiment for nearly four years, and leaving it was on his way to Toronto, where he was to have gone to Fred W. Canon of 807 Yonge street. Canon had served in the same regiment as Reynolds, and when seen at his home last night stated that he had only came to Canada last November.

Reynolds was an Englishman about 22 years of age and single.

OVER-WORKED KIDNEYS

Cause. Rush of Blood, Fullness, Dizziness.

J. T. Chetland, the well-known railway engineer of Hamilton, found the strain always resting upon men of his occupation vastly intensified by a tendency of the blood to rush to his head, and often at times when clearness of vision and great steadiness were demanded. Finding some difficulty in bending—a stiffness with pain having settled in his back, it occurred to him that his kidneys might be at fault. "This was a happy idea, for by it I not only got rid of the pain but many other troubles as well. I took a full dose of Dr. Hamilton's Pills and was glad to note that some obstruction of the kidneys, which I had lately noticed, was at once relieved. The flushed appearance of my face gave way to a more rational color and there was a perceptible improvement in my appetite. Dr. Hamilton's Pills certainly act splendidly upon the blood, removing heat and fulness and that sort of dizziness that makes a man at the throttle wish when it siezes him that he were elsewhere."

No medicine gives such unquestionably good results for stomach, liver, and blood troubles as Dr. Hamilton's Pills; they are mild, certain, and always curative. Refuse any substitute. All dealers sell Dr. Hamilton's Pills, 25c per box, or The Catarrhozone Co. Kingston, Ont.

Dr. Hamilton's Pills Cure Kidneys and Liver

The Daily Review

ONTARIO'S ANTICIPATIONS

In Ontario the Liberal Opposition attacked the Whitney Government for accepting the arrangment made for the extensions of the boundaries of the Province, on the ground that it was not as advantageous as it should have been. On the other hand the Liberals in Manitoba argue that Ontario was given advantages and that the Roblin Government was lax in not getting as good terms as Ontario. The Winnipeg Free Press says:

"The despatch from the East that Ontario is sending out a party to locate the right of way to Hudson's Bay and the sea-port at the mouth of the Nelson makes interesting reading for the people of Manitoba.

"Ontario expects, so the despatch informs us, to place the harbor frontage, to which she is entitled, at the precise point where the new Dominion port is to be located. This has been on the cards from the very beginning. The concession of the harbor frontage to Ontario implied that the future sea of Hudson Bay is to be on the townsite owned by Ontario

"Moreover Ontario proposes to select its five mile right of way with a view to securing the ownership of valuable mines and minerals.

"Manitoba will not own the port on Hudson's Bay, nor will it have the right to a single mineral claim in the whole 175,000 square miles of added territory. Not a foot of land; not a stick of timber, not an ounce of mineral ore, not a single water-power, not a fish in the inland waters becomes the property of Manitoba. They all belong to the Dominion, which has transferred some of the property rights, with values which may run into the millions, to Ontario."

The fact is that in each of these Provinces the Liberals express dissatisfaction for the purpose of stirring up opposition to the Provincial Governments, because they are Conservative. The Borden Government in a short time settled a question that the Laurier Government had been unable to dispose of for years, and settled it in a manner that is satisfactory to the Provinces concerned. This naturally displeases their opponents.

SENATE REFORM

The fitful discussion of Senate reform that has followed the partisan action of the Senate in dealing with important government measures has not brought forward a plan for its reform that has met with acceptance. Second chambers might be useful in revising laws originating in the popular assemblies, or in originating measures, if not governed by partisan ideas, but whenever they attempt to thwart the will of the elected representatives there is trouble. The proposed re-organization of the House of Lords has not yet been carried out, or even attempted, although a Conservative plan was formulated in resolutions and the Liberal government promised a re-organization. In Canada, for many years—in fact, from the time the British North America Act went into operation and confederation became a fact—there has been criticism of the Senate, but the criticism has not resulted in any change or in any proposal for an alteration that has commended itself. The present discussion has not been any more fruitful than those that have periodically taken place in the past. The Liberals for years, when the Conservatives were formerly in office, railed at the Senate and some of their most vigorous and mocking attacks were directed at that body. But when they had the opportunity, an opportunity which remained open to them for weary years, to make a change in the method of filling the red chamber, they did not take any action. And now they are mainly silent—except one or two papers, like the Toronto Star, which propose its abolition. What the smaller provinces would say as to that policy would be learned were it taken up seriously, but so far, it seems to be the only feasible plan proposed to make a change—if it is possible. So far we have not seen any attempt to show that Quebec would have been any less wisely governed without a second chamber, or that Ontario would have had more judicious legislation if it had had a legislature Council or Senate. If the discussion is kept up for another quarter of a century or so, something may come of it.

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet mailed free.* **The Wood Medicine Co.** (formerly Windsor) **Toronto, Ont.**

NOTE AND COMMENT

Canada does not propose to be "only an adjunct of the United States" either in a business or political sense.

It gives one an idea of how many able men there are in Canada when one sees the number of names suggested of men capable of filling the Chairmanship of the Board of Railway Commissioners made vacant by Mr. Mabee's death.

Five and ten dollar gold pieces have been made in the Canadian mint at Ottawa and sent out to different Provincial centres to be put into circulation. Most of us will continue to make more use of the good old five and ten cent pieces.

A joint committee of New York Senators and Assemblymen are in Toronto for the purpose of further investigating the Ontario Hydro-Electric power system. Hon Adam Beck visited Albany some time ago and gave political leaders then information regarding the Ontario project, its development and operation, and they desire to establish a similar policy in their state. They wish to have further information as to the operation of the Ontario system, because they were impressed with the advantages that it provides for the people.

France has decided to adopt the twenty-four hour system of reckoning time. The Canadian West seems to find this system satisfactory and it certainly is more simple and less clumsy than the custom of dividing the day into the anti-meridan and post-meridian periods. Why should time be wasted by saying three o'clock in the afternoon, when fifteen o'clock would do as well? The change would be found so convenient that the new system would be readily adopted. Some persons would no doubt be found clinging to the old system if the new one were in operation, just as a number continued to count their money by shillings and pounds after the decimal currency was adopted, but the number who would do so would be less, because very few are not now accustomed to counting as high as twenty-four.

$100 REWARD $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENNEY & CO., Toledo, Ohio.

Sold by all druggists, 57c.

Take Hall's Family Pills for constipation.

Tuberculosis is reported on the increase in Quebec, Montreal has increased its grant for pure milk depots. Most of the veterinaries employed by the Dominion Government in Saskatchewan, who resigned because of small pay and bad working conditions, have returned on the strength of promise of reforms.

Deathly Cramps, Stomach was Bloated

A Bad Case That Proves Cramps and Stomach Disorders are Cured Fast by Nerviline.

"The distress I suffered from cramps last summer was so severe I thought it meant death," writes P. B. Emerson, of Guys Hill, P. O. "I was doubled up with pain and in such bad shape I couldn't walk a hundred feet. I remembered having Nerviline on hand and took half a teaspoonful in sweetened water. In five minutes I was well and my stomach derangements disappeared entirely."

NERVILINE AN INSTANT RELIEF

For cramps, flatulence, diarrhoea and disorders of the stomach and bowels, Nerviline knows no equal—one million bottles used every year—fifty years on the market, that's proof enough of its merit. Large bottles, 50c., trial size 25c. All dealers or The Catarrhozone Company, Kingston, Ont.

Alice Neilson's Mother Dead.

New York, May 13.—Mrs. Sarah Neilson, mother of Alice Neilson, the actress, died Saturday at her home in Brooklyn. She was 75 years old.

RED TAPE IN PRAGUE.

While the Officials Wrangled the Matter Settled Itself.

A delightful story of circumlocution comes from Prague. One of the least imposing of the bridges in the city, the Liebner Brucke, connects two suburbs. Some time ago the toll collector discovered that some rabbits had invaded the district and concluded that their burrowings might threaten the stability of the bridge, so he called the burgomaster's attention to the matter. The burgomaster decided that it did not come within his province, but he sent the representation to the committee managing the public slaughter houses. The committee examined the rabbits and found they were wild, so they could do nothing, and as it was a close time the aid of the sportsman could not be impressed. Still, they did not relieve them of their moral responsibility.

The Prague slaughter house committee in turn informed the Stadtratpreesidium, but the matter was not within its jurisdiction. Yet the stability of the bridge was beyond all things necessary, so the dossier was sent to the central authority for buildings. This body went into the matter and concluded that the water authority should deal with the subject. But, no; the water board opined that it was for the conservators of rivers, and this body decided that rabbits could not be brought within the domain of things fluvial and that the burgomaster was the right party to take action. The dossier having completed the circle of possible departmental travels, the burgomaster decided to act. He appointed a committee of investigation. The committee went to the bridge in four carriages, and then they learned that the rabbits had taken their departure for some months.—Munchner Nachrichten.

A. K Pesha, postmaster at Kent Bridge, is accused of offensive partisanship.

Cynthia's Chauffeur

By LOUIS TRACY

Copyright by McLeod & Allen, Toronto

Medenham dreaded that the too-faithful Simmonds, car and all, would be found awaiting their arrival, and it was a decided relief when the only automobile in sight proved to be the state equipage of some local magnate dining at the hotel. Cynthia, apparently, had shared his thoughts so far as they concerned Simmonds.

"I suppose your friend Simmonds will reveal his whereabouts during the evening," she said, while disencumbering herself of her wraps. Mrs. Devar had already alighted, but the girl was standing in the car and spoke over Medenham's shoulder.

"Of course, he may not be here," was the answer, not given too loudly, since Mrs. Devar had hastened to give details to the perplexed James, and there was no need to let either of them overhear his words.

"Oh my! What will happen, then?"

"In that event, I should feel compelled to take his place again."

"But compulsion, as you put it, tends rather to take you to London."

"I have changed my mind, Mis Vanrenen," he said simply.

She tittered. There was just a spice of coquetry in her manner as she stooped nearer.

"You believe that Simmonds would not have found me in that wretched lane to-night," she whispered.

"I am quite sure of it."

"But the whole affair was a mere stupid error."

"I am only too glad that I was enabled to put it right," he said with due gravity.

"Cynthia," came a shrill voice, "do make haste, I am postively starving."

"Guess you'd better lose Simmonds," breathed the girl, and an unaccountable fluttering of her heart induced a remarkably high color in her cheeks when she sped up the steps of the hotel and entered the brilliantly-lighted atrium.

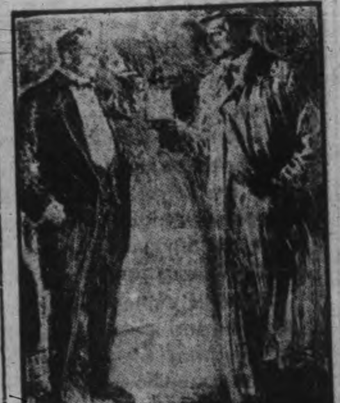
As for Medenham, though he had carefully mapped out the exact line of conduct to be followed in Bristol while watching the radiantly white arc of road that quivered in front of the car during the run from the Mendips, for a second or two he dared not trust his voice to ask the hall porter certain necessary questions. Unaided by the glamor of birth or position he had won this delightful girl's confidence. She believed in him now as she would never again believe in Count Edouard Marigny; what that in such a moment, none can tell but a devout lover. Naturally, that was his point of view; it did not occur to him that Cynthia might already have regretted the impulse which led her to utter her thought aloud. Her nature was of the Martian type revealed to Swedenborg in one of his philosophic trances. "The inhabitants of Mars," said he, "account it wicked to think one thing and speak another—to wish one thing while the face expresses another." Happy Martians perhaps, but not quite happy Cynthia, still blushing hotly because of her daring suggestion as to the disposal of Simmonds.

But she was deeply puzzled by the mishap to the Du Vallon. Unwilling to think evil of anyone, she felt, nevertheless, that Fitzroy (as she called him) would never have treated both Mrs. Devar and the Frenchman so cavalierly if he had not anticipated the very incident that happened on the Mendips. Why did he turn back? How did he really find out what had become of them? What would Simmonds have done in his stead? A hundred strange doubts throbbed in her brain, but they were pumbled in confusion before that more intimate and insistent question—how would Fitzroy interpret her eagerness to retain him in her service?

Meanwhile, the Swedish seer's theory of Martian speech and thought acting in unity was making itself at home on the pavement in front of the hotel.

Medenham learnt from the hall-porter that a motor-car had reached Bristol from London about five o'clock. The driver, who was alone, had asked for Miss Vanrenen, and was told that she was expected but had not yet arrived, whereupon he went off, saying that he would call after dinner.

"Another shuffer kem a bit later an' axed the same thing," went on the man,



"Look again Devar." The man wilted under those stern eyes.

"but he didn't have no car, an' he left no word about callin' again."

"Excellent!" said Medenham. "Now please go and tell Captain Devar that I wish to see him."

"Here?"

"Yes. I cannot leave the car. He must be at liberty, as he is in evening dress, and the ladies will not come downstairs under half an hour."

Devar soon appeared. His mother had managed to inform him that the substituted driver was responsible for the complete collapse of Marigny's project, and he was puffing with annoyance, though well aware that he must not display it.

"Well," said he, strutting up to Medenham and blowing a cloud of cigarette smoke from his thick lips, "well, what is it, my man?"

For answer, Medenham disconnected a lamp and held it close to his own face.

"Do you recognize me?" he asked.

Devar, in blank astonishment, affected to screw in his eyeglass more firmly.

"No," he said, "nor am I particularly anxious to make your acquaintance. You have behaved rather badly, I understand, but that is of no consequence now, as Simmonds has brought his car he-aw——"

"Look again, Devar. We last met in Calcutta, where you swindled me out of fifty pounds. Unfortunately I did not hear of your presence in South Africa until you were cashiered at Cape Town, or I might have saved the authorities some trouble."

The man wilted under those stern eyes.

"Good gad! Medenham!" he stammered.

Medenham replaced the lamp in its socket.

"I am glad you are not trying any pretense," he said. "Otherwise I would be forced to take action, with the most lamentable consequences for you, Devar. Now, I will hold my hand, provided you obey me implicitly. Send for your overcoat, go straight to the Central Station, and travel to London by the next train. You can scribble some excuse to your mother, but, if I have any cause even to suspect that you have told her who I am, I shall not hesitate to put the police on your track. You must vanish, and be dumb—for three months at least. If you are hard up, I will give you some money—sufficient for a fortnight's needs—and you can write to me for further supplies at my London address. Even a rascal like you must be permitted to live I suppose, so I risk breaking the law myself by screening you from justice. Those are my terms. Do you accept them?"

The red face had grown yellow, and the steel-gray eyes that were a heritage of the Devar family glistened with terror, but the man endeavored to obtain mercy.

"Dash it all, Medenham," he groaned, "don't be too hard on me. I'm goin' straight now—'pon me honor. This chap, Marigny—"

"You fool! I offer you liberty and money, yet you try brazenly to get me to fall in with your wretched designs against Miss Vanrenen! Which is it to be—a police cell or the railway station?"

Medenham moved as if to summon the hall-porter. In a very frenzy of fear Devar caught his arm.

"For Gawd's sake—" he whispered.

"You go then?"

"Yes."

"I am prepared to spare you to the utmost extent. Tell the hall-porter to bring your overcoat and hat, and to give you a sheet of notepaper and an envelope. Show me what you write. If it is satisfactory I shall start you with twenty pounds. You can send from London to-morrow for your belongings, as your hotel bill will be paid. But remember! One treacherous word from you and I telegraph to Scotland Yard."

Mrs. Devar had a bad quarter of an hour when a penciled note from her son was delivered at her room and she read:

Dear Mater—I hardly had time to tell you that I am obliged to return to town this evening. Please make my apologies to Miss Vanrenen and Count Marigny. Yours ever,

J.

Medenham frowned a little at the reference to Cynthia, but something the sort was necessary if an open scandal was to be avoided. As for "Dear Mater," she was so unnerved that she actually wept. Hard and calculating though she might be, the man was her son, and the bitter experiences of twenty years warned her that he had been driven from Bristol by some ghost new risen from an evil past.

Medenham, however, believed that he had settled one difficulty, and prepared blithely to tackle another. He ran the car to the garage where he had arranged to meet Dale.

"Have you seen Simmonds?" was his first question.

"Yes, my l—, yes sir."

"Where is he?"

"Just off for a snack, sir, before goin' to the hotel."

"Bring him here at once. We will attend to the snack afterwards. No mistake, now, Dale. He must see no one in the hotel until he and I have had a talk."

Simmonds was produced. He saluted.

"Glad to meet you again, my lord," he said. "I hope I haven't caused any trouble by sending that telegram to Bournemouth, but Dale tells me that you don't wish your title to be known."

"Forget it," said Medenham. "I have done you a good turn, Simmonds—are you prepared to do me one?"

"Just try me, sir."

To be continued

NEEDLEWORK NOTES.

Fancy Hems and Featherstitching on Sheer Summer Gowns.

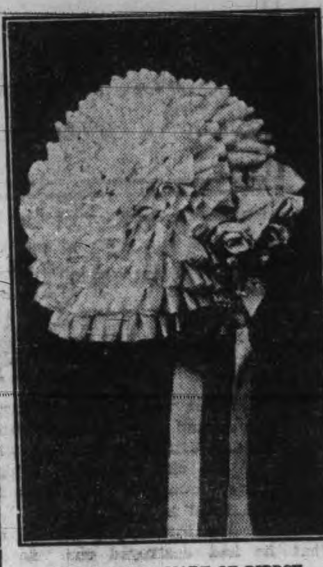
Many women who are fond of needlework do not possess the skill to work some of the embroidery designs that are now so fashionable, but almost any one with a little practice can do feather stitching neatly and rapidly.

With this stitch you can secure many effective designs with very little labor, and it is an ideal way to finish the top of hems on any sheer material.

When French knots, "birds' eyes" and eyelets are combined with the feather stitching lovely effects are possible.

Such borders are particularly attractive on summer gowns, but can be used on anything from the finest lingerie to curtains, heavy cushions and table covers.

Birds' eyes are made by drawing the thread through to the right side of the material of the hem, then holding it down with the left thumb (as you would for buttonhole stitching), inserting the needle in the hole it has just passed through and taking a small stitch, pulling the thread through until the loop formed is the same length as the stitch you have taken; then take a stitch at the outer point to hold the loop securely.



BABY BONNET MADE OF RIBBON.

Dainty little daisies can be made of the birds' eye stitch by making the first stitch long enough for the petal. After taking the second stitch draw the needle through the first hole made, which will be the center of the flower. Then make a second petal, pulling the needle through the center hole to form each petal.

A line of these little flowers placed just inside the feather stitching on the edge of the hem will make a delightful finish to any gown. Featherstitching applied in scallops, with a tiny daisy at the top of each or in the center of each scallop, is another dainty way to trim a hem. Perfect scallops are easily made by drawing a perfect circle on the stiff cardboard and cutting it out, then dividing it exactly in half. Now lay these two half circles on the material end to end and draw a fine line around the outer curved edge, keeping the straight edge even with the edge of the hem.

Repeat this process all the way along the hem and do the stitching over the mark.

Very fine mercerized cotton is used for this work. White material worked in pale colors is beautiful, and for variety you may do the featherstitching in one color and the row of daisies or eyelets of a contrasting shade.

Fagoting is sometimes used instead of the featherstitching, and with a little practice you will be able to design different patterns for yourself, suiting the work to the need of your material or the article being made. Quite different, though within the realm of needlework, is the making of a baby's cap of ribbon like the pretty little piece of head covering seen in the illustration. Loops of inch wide white satin ribbon are bunched, arranged in loops very evenly over the usual cap foundation of white silk. A lace frill frames the baby face.

Boiled Salad Dressing.

The following boiled dressing is very nice with tomato jelly, fish salads and fresh green salad herbs and with a bit of onion or watercress makes a delicious filling for sandwiches. It may also be used on bread or rolls when a butter boycott has been called: Beat two eggs together, add a tiny pinch of salt, two tablespoonfuls of sugar, half a scant teaspoonful of ground mustard and half a cupful of milk. Mix well and then stir in a quarter of a cupful of vinegar. Cook the mixture until it thickens, taking care to stir it constantly to prevent curdling. Upon removing from the fire let it cool and then add a few drops of olive oil.

Pasteboard Pyramids.

Quite the newest conceit in imported place favors has appeared from abroad in the form of miniature pasteboard pyramids with tiny flowering plants seeming to have grown in them. The decoration of the holder simulates porcelain, with a color note to harmonize with that of the artificial blossoms surmounting it. A set of these favors in yellow, for instance, if in accord with the chosen color scheme for the table setting, will give a far prettier effect than a favor introducing its color solidly. With these novelties there come tiny white place cards to be slipped among the flowers.

A "Bigger, Better, Brighton Club" has been organized by the town's Board of Trade.

Tonic For White Hair.

Pour a half pint of boiling water over a tablespoonful of powdered castile soap. Add a pinch of borax, the beaten whites of two eggs and a teaspoonful of listerine.

Only lukewarm water should be used on white hair and no heat used in the drying process. Curling irons should never touch such hair, as the extreme heat will cause it to break and fall off, leaving it in a ragged, uneven condition. In rinsing white hair always use the coolest water possible, and to the last water add a little dissolved ultramarine blue.

A Beauty Tip.

If the circulation is defective try some simple hand exercises. Clapping them rhythmically, twisting the fingers with a different interlacing every time, shaking them loose from the wrists—all these will help to bring the blood to the farthest confines of the finger tips, and external care will do the rest.

The cornerstone of the new $40,000 Church of St. Mary Magdalene, Picton was laid by Aubrey White of Toronto.

Boys found the body of Patrick O'Keefe, aged 49, under a railway bridge near St. Thomas. He had fallen to his death.

Lowering the Cost

REDUCED to its simplest terms, the price of an article is the cost of material, labor of manufacture, transportation, distribution, sale, and delivery—plus a profit on each of these.

Let us take the case of a fountain pen to show what price is.

First, the materials must be produced—the rubber in Para—the gold in South Africa or the Yukon—iridium in Siberia.

Then all these must be transported to the factory. There the rubber is vulcanized into holders; the gold refined and stamped into points; the iridium tipped on to the gold; and so on.

The labor operations on a fountain pen run well over the hundred mark, and expensive machinery is required for almost every one of them.

Manufacturing completed, the pens are sold to jobbers and retailers—transported hundreds and thousands of miles. And profits are taken at every step, remember that.

After the wholesale distribution, the retail sale is made—delivery completed, and the pen at last put to its destined use.

Suppose you have paid $2.50 for one of the standard well-known fountain pens. Do you begin to realize what an imposing number of things that $2.50 has paid for? Haven't you a pretty clear idea that, if these operations were applied to the making of one single pen, it would break an oil magnate to buy it?

Is it not perfectly plain that Quantity controls price by one of the simplest of natural laws?

Para rubber by the shipload—gold and iridium by pounds instead of milligrammes—labor of thousands organized and directed—transportation in car lots—and sales by the million—to every schoolboy, stenographer, business man—to every one who writes.

It is all this gigantic expenditure, *divided* by the countless units of millions of sales, that makes it possible to buy a fountain pen for $2.50. The more sales, the smaller becomes the cost of the unit.

We know that Advertising has raised Quality.

We know it has standardized prices.

And now we see that Advertising increases sales, shortens the road between producer and consumer—and lowers prices.

CONCERNING YOUR EYES

Good eyesight is essential to health comfort and appearance. Have you ever noticed a strained look on your face, or your friend's? Usually this comes from eyestrain. More wrinkles are caused by eyestrain than by age. Thousands unconsciously squint in an effort to adapt the eyes to the surroundings. Success in releaving eyestrain depends entirely upon the OPTICAL SKILL of the Specialist who prescribes the glasses. Neglect of the eyes many times leads to surgical operations, which glasses worn in time may prevent. We correct errors of vision by means of properly fitted lenses.

We have every modern appliance for accurate eyesight testing, and we grind all our own lenses. Thus assuring you accuracy and promptness. All work guaranteed.

OVER SIXTY MOULDERS OUT ON STRIKE

Want Nine Hour Day With Ten Hour Wage

All the moulders in the following manufacturing establishments, went out on strike this morning, owing to the refusal of their employers to accede to the request for a nine hour day, at a ten hour wage—Wm. Hamilton Manufacturing Co., Adam Hall and Co., Limited, and G. Walter Green Company Limited. Altogether a little over sixty men are out, all being firm in their determination to hold out for the nine hour day time schedule. While feeling that their wage rate is not sufficient either, yet they are not asking for any increase, simply evidencing their decided objections to the ten hours per day clause.

The men have negotiated with the employers through two officials from the head office of the Moulders' Union Cincinnatti, but the employers refused to comply with the wishes of the men, hence the general walk-out this morning. Vice-President Keough and John Barnet, business agent for this province were in the city Saturday, and laid the wishes of the men before the employers.

The desire for the nine hour day is one of long standing and has been agitated by the moulders for the past twenty-five years. In working till six in the evening, the men feel that it takes nearly an hour to make themselves presentable by removing the traces of the day's toil, and may business which they wish to transact in the evening is delayed. By closing at five o'clock in the evening, this would be remedied and be satisfactory in other ways.

If their wishes are not complied with, the men are determined to remain out, no surrender being their motto.

So far no indication of giving in by the employers has been extended.

IMPROVEMENTS TO NICHOLL'S HOSPITAL PLANS ARE READY

The trustees of the Nicholl's estate have gone into the matter of building a new wing on the Nicholls Hospital, and plans have been prepared for the construction of such an addition which will be submitted to the Board at their next meeting.

The enlarging of the present building has been contemplated for some little time and the construction is intended to provide for the future needs of the hospital.

DELEGATES TO THE CONVENTION

Rev. W. G. McColl and Messrs. Daniel O'Connell, Past State Deputy, and Harry Phelan, District Deputy leave to-day as delegates to attend the annual convention of the Knights of Columbus which opens to-day in London, Ontario.

Cobourg's Tax Rate

Cobourg's tax rate for the current year has been fixed at 25 1-2 mills on the dollar, an advance of half a mill over last year, the difference being brought about by increased expenditure for schools.

Catholics Not Wanted.

Mr. Samuel Hope Morley, who was one of the three New Year peers, has taken the title of Lord Hollenden of Leigh, in the County of Kent, this being the old name of his property.

The new peer is a director of the great firm of warehousemen of J. and B. Morley, of Wood street, London, and Mosley street, Manchester. The firm has attained its present vast dimensions from small beginnings. John and Richard, two brothers of the family, which was one of some standing in the Nottinghamshire village of Sneinton, established a hosiery business at Nottingham in the eighteenth century, and John, who was the traveler, married a Miss Paulton, of Maidenhead. She was a business-like woman and it was due to her influence that the brothers established themselves in London in an unpretentious style, John and his wife living over the shop. The business thrived apace, and in 1809 had established a reputation, and the Morleys were leaders among London Nonconformists. The father of Mr. Samuel Hope Morley refused to employ a Roman Catholic, but advocated Home Rule for Ireland. From 1903 to 1905 the new peer was a governor of the Bank of England.

Britain's 1911 Output.

During the year 1911 forty warships were launched in the British navy. These include eight super-Dreadnoughts carrying 13.5 inch guns, two protected cruisers, two unarmored cruisers, twenty-three torpedo boat destroyers and five submarines. These ships aggregated 221,000 tons and will cost when completed over $86,000,000.

England's Forests.

The forests for which England was at one time famous have vanished or exist only in the attenuated form of carefully preserved woods and parks, from which they can obtain but a fraction of the supplies they need.

BE ON THE WATCH FOR CATERPILLARS

Look out for the caterpillars, they are on the way. This is a real danger, and the citizens of Peterborough should be up and doing.

Sunday afternoon strollers who found their way to the western outskirts of the city yesterday, bring reports of the advancing hosts. These destructive creatures are already crawling, and have reached the Boundary Road in large numbers.

Mr. Jos. Picard, jr., of Park street, informed the Review to-day that he had destroyed one nest, which he discovered in an apple tree.

Peterborough people have had past experiences with caterpillars, and know the danger. If the shade trees, which are a big asset, of the city, during the summer season, are to be saved, it is the duty of one and all to fight the oncoming crawlers at their first appearance.

LOVE AND SELF SACRIFICE OF MOTHERS AND THE DUTY OF THEIR SONS AND DAUGHTERS

The significance of Mother's Day was referred to in the city churches yesterday, and the white carnation emblematic of the occasion, was conspicuous. At Murray street church and Sunday school special services had been arranged for, and at the morning service a large number of mothers and children were present, the pastor, Rev. J. R. Webb, giving the sermon. In the afternoon an appropriate program was carried out by the Sunday school.

AT ST. JOHN'S CHURCH.

At St. John's church yesterday morning the rector took up the subject of prayer in connection with Rogation Sunday, the observance of which was explained. In the evening Canon Davidson dealt with matters suggested by Mothers' Day, which, he remarked, though neither an ancient nor an ecclesiastical festival, was an appropriate observance, reminding men of the honor due to their parents and emphasizing the glory of motherhood. His text was I Samuel, 2, 18: "His mother made him a little coat and brought it to him from year to year when she came to offer the yearly sacrifice." Samuel was dedicated to the ministry before his birth and was an example of the power and influence of mothers in determining useful careers for their children. The ministry was not receiving its proper share of young men to-day, though there was more room and opportunity in its ranks than in other professions which were abundantly supplied. The usefulness and honor of Samuel's lofty career were all owing to his mother, and this was true of many far-seeing and devoted mothers to-day, who had saved their sons from anxiety as to their future work and placed them on a path of high usefulness. The rector next referred to the constant love and self-sacrifice of mothers for their children, which should ever be gratefully remembered. This called for equally glad sacrifices on the part of children to parents in their old age. The duty of sons and daughters away from home was next dealt with, of which regular letter writing was an important factor. In a western church the motto was displayed: "When did you write home last? Do it to-day!" The love of Samuel's mother found expression, like many a woman's to-day, in sewing, and in this connection the speaker urged that all girls should fit themselves for home duties. Sewing, cooking, housekeeping and home decoration were all the distinctive work of women, and no success in other fields could make up for failure in the home empire.

Lastly Mr. Davidson pointed out the value of the church as a connecting link between separated members of families. It was an unspeakable satisfaction to mothers in the Old Land to know that their sons were regular church attendants, sharing in the same divine service and united in the same Divine Family. Clergy were also links in this respect, and many letters written and inquiries made gave valuable reassurance where any grounds were found for it.

The sermon was followed by an appropriate hymn and prayers for both living relations, and also a memorial prayer in remembrance of departed mothers. The whole service was most warmly entered into by the large congregation present, the Psalms being particularly well sung. The heartiness of the service at St. John's is greatly assisted by a large body of young men belonging to the Bible class.

CHILDREN'S FESTIVAL

Given by chorus and orchestra of 150 little people, introducing Mother Goose and her children, Teddy Bears, vocal, violin, cello, clarionette, cornet and piano solos, Conservatory of Music Hall, Friday evening May 17, at 8 o'clock; Saturday afternoon, May 18, at 3 o'clock. Admission, adults 25c, children, 2 for 25c. Under direction of Miss Dean, Miss Choate and Mr. Gliddon

Knox Church

Monday, 18 p.m.—Meeting of Board of Managers. Committee of Brotherhood in Brotherhood room.

Tuesday, 4.30 p.m.—Mission Band.

Tuesday, 7.30—Meeting of Committee Representatives of organized classes.

Wednesday, 8 p.m.— Midweek service.

Thursday afternoon—At Home at residence of Mrs. Bartley, 135 Rubidge street.

Thursday, 8 p.m.—Choir practice.

Sunday, March 19— Morning service taken by Rev. A. W. Head, of Honan, China, evening service by Rev. Dr. Shearer of Toronto.

Monday, May 20—Rev. W. Lindsay, of Glasgow Scotland, will give an address on Scotland's National Poet.

Rev. John Galt, of Picton Baptist church, will go to Vankleek Hill.

BOUNDARY LINE IN BAD SHAPE

The country roads between the Chemong bridge and the boundary line between Emily and Ennismore are in a poor condition. In some places there are deep holes and in other places some enterprising farmers have taken advantage of these small sized trenches and have used them to get rid of the stonepiles on their farms. This may be a good idea, but the only animal that could get over them with any ease would be a Rocky Mountain goat.

JANITOR WANTED

Applications will be received up to Wednesday, May 15th at 6 o'clock p.m., for the position of janitor of the new Baptist church, Murray-st. Apply, stating salary, etc, to

GEO. COCHRANE,
Chairman Board of Trustees
765 George.st.

HOLLY SHEPARD MET SUCCESS AT SUDBURY

Holly Shepard's minstrelsy never grows old. The two performances given at the Grand, Thursday and Friday, marked the third consecutive season for the Baseball Minstrels in Sudbury, uunder the direction of Mr. Shepard and his talented wife, and this year's production brilliantly surpassed those of the past two years. There are many, of course, who have witnessed the productions of the past three years—to some, it was their first attendance—but opinions are unanimous that it was a genuinely good attraction, clean, smart, bright and perfect down to the minutest detail.—Sudbury Star.

ANNIVERSARY AT PARK ST. SERMONS BY REV. MR. MORGAN

The seventeenth anniversary of Park street Baptist church was celebrated yesterday by unusually interesting services and large congregations. Rev. Patrick Morgan, occupied the pulpit on three occasions, in the afternoon addressing a crowded men's mass meeting.

For his morning sermon Rev. Mr. Morgan chose the words of Paul to Timothy, 4—7, "I have fought the good fight, I have finished my course, I have kept the faith."

"Daniel Steele," said the speaker, "referred to the foregoing passage in Scripture as Paul's swan song. As most of us know, the swan just previous to leaving activities, raises its head and gives forth a most beautiful song."

In the same manner Paul had disparged himself in order to exalt Christ. The lives of other great men such as Luther, Knox and Calvin all exemplified the words of Paul in the text, "I have fought the good fight, I have finished my course."

At this juncture in his sermon Rev. Mr. Morgan chose a very telling method of demonstrating the difference between the dried out and long winded written sermons such as are delivered by some pastors, and sermons which come from the heart, and are spoken from the heart.

His manner of illustrating the difference was by reading a lengthy and comparatively uninteresting sermon, in which the chief aim had been a striving for grammatical accuracy and good rhetoric. He had not proceeded very far with this reading before a lack of interest became apparent among the congregation, which however was rapidly dispelled when he finished the reading and explained his object lesson, of illustrating by these means the superiority and value of preaching from the heart, over cut and dried, meaningless yet grammatically correct sentences.

Before concluding his address Rev. Mr. Morgan urged everyone when they were tempted to drop out of the fight to banish the feeling and continue to struggle valiantly for the Master. Speaking for himself he felt that there were times when the Protestants were very cool and the priests very bitter, and it made one feel discouraged. But when he remembered the trials and tribulations of Paul, Luther and other great men and their struggles he was encouraged to fight on and keep up the good fight.

His evening subject was "Christ the Liberator."

PETERBORO' SUMMER FAIR

The Greatest Spectacular Event of the Season.

(By Roy Gilray.)

The last week in May will be red letter week in Peterborough. The Ladies' Auxiliary of the Local Health Association have determined to do their duty in banishing consumption from our midst, and propose raising money enough to provide a District Nurse of "Friendly Visitor" whose duty it will be to visit those homes that need her assistance, where perchance, some loved one lies prostrate, a victim of that fell monster, the White Plague, and where the balance of the family are exposed to the great danger of contracting the same disease.

These noble women have been working incessantly for months and they promise a program which will eclipse anything undertaken in the past.

In addition to the list of drawing cards mentioned last week they propose having numerous side attractions such as; an Egyptian encampment, where lovers may have their fortunes told; a rummage sale to delight the heart of every bargain hunter; a theatre, where a continuous performance will be given; a shooting gallery and bowling alley; where the crack shots may exhibit their skill; an art exhibit, where lovers of the beautiful may feast their eyes; a dolls' palace, where little girls can be happy for hours at a stretch; and an orange tree laden with oranges made-in-Peterborough, each one containing a prize package.

The crowning event of each evening will be the grand promenade in costume, to the thrilling music of the City Band.

No one can afford to miss this the greatest event of the season.

PENNY BANK SYSTEM FOR THE LOCAL SCHOOLS

The Penny Bank system which Inspector J. L. Hughes recommended so highly as a result of its beneficial effects in Toronto, has been considered by the Board of Education and a committee of Mr. John Crane and Mr. V. Eastwood, have been appointed to visit Toronto and see its working there. They will report to the Board as to the advisability and practibility of introducing the system into the local schools.

Y.M.C.A. NOTES

The Junior Leaders held their closing banquet on Friday evening, after which an examination was held on the gymnasium floor. This closes the regular Leaders' Corps work for the season.

The Junior and Intermediate Leaders' Corps will give a short program on the gymnasium floor next Wednesday evening in connection with the reception to be given the new General Secretary, Mr. A. A. Hainsworth.

Permanent boards of arbitration or conciliation for the adjustment of labor disputes are proposed by the Hon. T. W. Crothers, Minister of Labor, to be located in the different industrial centres of the country.

OBITUARY

Mrs. Thomas Mark

The death occurred yesterday of Alma Irene Tims, wife of Mr. Thos. Mark, 779 Aylmer street. The deceased was 33 years of age and had been seriously ill for a short time. Mrs. Mark was a faithful adherent of the George street Methodist church.

She is survived by her husband, Mr. Thomas Mark, and infant twin girls, her parents, Mr. and Mrs. W. H. Tims, of Lifford, and one brother, Mr. C. H. Tims.

The funeral will take place on Wednesday afternoon at 2 o'clock, from the family residence, 779 Aylmer street, to the Little Lake cemetery, the Rev. I. Couch officiating.

Mr. John B. Lang

The many local friends of Mr. John B. Lang, of this city will be grieved to learn of his death, which occurred yesterday at the residence of his son-in-law, Mr. Thos. Starr, 656 Rogers street.

For many years the late Mr. Lang had resided in East City and had made the acquaintance of numerous friends who will be sorry to learn of his demise. The deceased gentleman was 68 years of age and had lived for some time past with his son-in-law, Mr. Starr.

He is survived by one son, Robert, of Farnumsville, Mass., and one daughter, Mrs. T. Starr, of Peterborough.

The funeral takes place Tuesday afternoon at 3 o'clock, from his late residence, to the Little Lake Cemetery.

Daughters of the Empire

The Imperial Daughters of the Empire will hold their meeting on Thursday, May 16th, at the recreation rooms of the armories, at 3.30, p.m. The feature of the meeting will be an address by Mr. F. D. Kerr, on "Champlain."

Bright Liners on Athletic Topics

BAPTISTS BEAT CHAMPIONS IN CHURCH LEAGUE OPENER

At the opening game of the Church Football League played Saturday, on the Brinton meadows, the Park St. eleven defeated All Saints, last year champions, in a well contested game, resulting in the score of 1 to 0, in favor of Park Street. Both teams played fairly good ball, but the play was not up to the usual standard. The All Saints stalwarts had to play without three of their regular men. The half-time score stood 0 to 0, and it was not until the last four minutes of the play, that Pagett scored the only counter of the game with a neat, swift shot.

The Park street bunch have a fairly strong line-up this season and with practice should make a strong bid for the Bornham trophy.

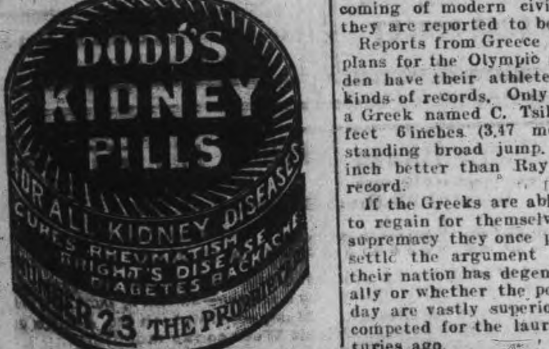
KNOX WON TOO

At the exhibition grounds on Saturday a good game was pulled off between the Knox and St. John's teams, the former capturing the game with the score 3-1. The St. John's team was handicapped by the absence of three of their players and had to pick up substitutes from their supporters who had assembled to witness the game. When the St. John boys are at their full strength and the Knox club have had a few more work outs, both teams will be in fit trim for the coming games and some lively contests are anticipated.

THE RING

Jack Johnson will have a big bunch of trainers accompanying him to his conditioning place for his proposed fight with Jack Flynn. Included in his training list, are his wife, his mother, a piano player and a singer. What's Johnson training for—a grizzly bear, or a prizefight? His real trainers consist of two big humps of white flesh called Monahan and Marty Cutler. They are to be used as human punching bags for the champion.

The Norwegian bargue Urby, from Genoa for Bridgewater, with ballast to load for River Platte, ran ashore at Port Beckerton in a thick fog, and is a total loss.



SPORT TALK

Athletics first originated with the Greeks. It is from this country that discus hurling, javelin throwing, marathon runs, jumping and athletic contests that constitute the Olympic games, descended. The Greeks were superior to all other nations at one time in athletics. Their race was a race of athletes. But as an athletic nation they degenerated with the coming of modern civilization. Now they are reported to be coming back.

Reports from Greece concerning the plans for the Olympic games at Sweden have their athletes breaking all kinds of records. Only the other day a Greek named C. Tsikleteras did 11 feet 6 inches (3.47 metres) in the standing broad jump. This is 1 1-8 inch better than Ray Ewry's world record.

If the Greeks are able to come back to regain for themselves the athletic supremacy they once possessed, it will settle the argument as to whether their nation has degenerated athletically or whether the performers of today are vastly superior to those who competed for the laurel wreaths centuries ago.

BREEZES FROM THE DIAMOND

This afternoon, the members of the Peterborough Ball team took possession of a special coach attached to the 4.28 C.P.R. train, and went on to Hamilton, to prepare for their first battle in the Canadian Baseball League, with Manager Knotty Lee's Kolts to-morrow afternoon.

◆

Manager Templin gave out the following line-up in batting order:

Schwartz, l.f.
Hartman, 3b.
Tully, s.s.
Templin, 2b.
Dolan, 1b.
Beard, c.f.
Brode, r.f.
Mooney, c.
Durr, p.

◆

Durr is the southpaw of the team and should make the engagement interesting for the big attraction in Hamilton. The players will parade to the grounds and Managers Lee and Templin are send up a new flag on the grandstand pole. Mayor Lees is to pitch the first ball.

◆

The White Caps play two games in Hamilton and pass on to Brantford for the remainder of the week.

◆

Monday and Tuesday of next week, the Caps play in St. Thomas returning with that team to Peterborough for the opening here on May 22nd.

◆

A large number of the fans have seen the local team in action, but the majority know the players only through the press reports. Professional baseball is now a realty for Peterborough.

◆

So far this much can be said. The players have conducted themselves in a gentlemanly manner during their short residence in the city and the comments coming from the Y.M.C.A. where they have spent much of their time, are all that could be desired.

◆

The scheme is worth a trial and that trial should be a fair one. It is not to be supposed that the team is going to win every day. Indeed Manager Templin's squad goes into the game to-morrow, with a big handicap.

◆

The condition of Riverside Park, made it impossible to hold practices on the regulation diamond, and the boys had to make the most out of the Fair Grounds and the Oval. Other teams have had exhibition games during the past week or more.

◆

Amateur sport, so far as baseball is concerned, is a dead issue in Peterborough. Officers of any sporting organization, will bear witness to this statement. It is impossible to effect the organization of a senior or intermediate baseball league. Those who can play the game will not do anything towards assisting such a league.

◆

Now that we have professional ball, it is up to the lovers of baseball to get busy and boost. Peterborough receives extensive advertising through the introduction of the team and the city will benefit very materially throughout this summer season. Canadian League baseball should encourage a heavier excursion patronage.

◆

Christy Mathewson, sizes up the National league race in this manner New York, first; Pittsburg, second; Cincinnati, third.

◆

John M. Ward, himself a famous ball player in days gone by, and now president of the Boston Club, knows the average ball player more than that player knows himself, and he has issued an edict which states that members of his team will not be allowed any expense money for porters taking their baggage to and from the station.

◆

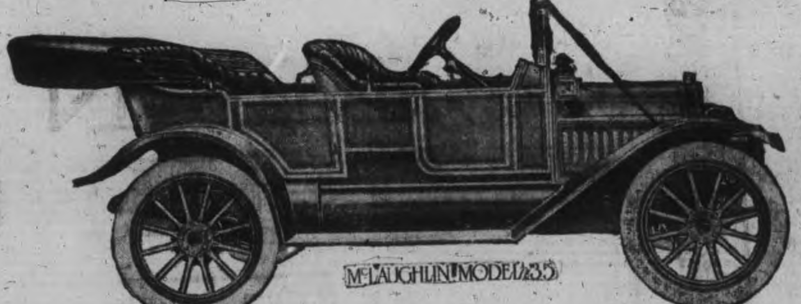
Manager Templin has released Johnston, outfielder, Ulmer, infielder and Davis, a pitcher. He will keep fourteen men on the payroll up to June 1.

◆

The surviving are: Mooney, Trout, and Brode, catchers; Scull, Bartlett, Baver, Schaeffer and Durr, pitchers; Dolan, first base, Templin, second base; Tully, short; Hartman, third base; Schwartz and Beard, fielders.

McLAUGHLIN MOTOR CAR

McLaughlin 35



McLaughlin 35

A car embodying the principles which have been tested, tried and proven more than **GOOD** under the most exacting regulations and conditions. Here is a copy received from Mr. Thomas Davis, Chief of the fire department, Victoria, B.C., what he has to say in regard to the McLaughlin Car he has purchased.

Victoria, B.C,

McLAUGHLIN MOTOR CAR CO,
Oshawa, Ont.

Dear Sirs,—The McLaughlin-Buick, 40 h.p., chief's automobile, which was built for the department and delivered last May, has now been in our possession long enough for us to realize its good points. It has given perfect satisfaction in every respect. I have responded to 187 alarms with it to the present time, and over very rough roads. Its hill climbing capabilities are excellent, the cost of maintenance in comparison with the horse drawn vehicle used for the same purpose is trivial.

I shall be pleased to recommend this type of a machine to any Chief of Fire Dept. requiring same; you are at liberty to refer them to me.
Yours respectfully,
(Signed) THOMAS DAVIS, Chief of Fire Dept

A WHISTLER PICTURE.

The Story of Henry Irving's Portrait as Philip II.

The queer ups and downs of a picture are illustrated by the history of the portrait by Whistler of Henry Irving as Philip II. of Spain, now hanging in the Metropolitan museum, in New York. Whistler at a precarious period of his career asked his friend Irving to sit to him for a portrait in the character in which Irving was then playing, Philip II. The portrait was painted, and Irving, much pleased, requested Whistler to let him buy it and to name a price not too high for his slender purse. Having had the pleasure of Whistler's acquaintance, the writer can imagine the following conversation:

"Not too high, Jimmy! You know—aha—that actors—now, modestly, Jimmy!"

"My dear Irving, 'tis a masterpiece, but you shall have it for a song—let us say a thousand pounds."

"Too much, Jimmy—too much!"

Whistler kept the portrait. Soon after, in one of those unpleasant experiences which he shared with his great master, Rembrandt, he was sold out for debt. Rembrandt was sold out only twice. The "Butterfly" underwent three such forced sales.

Irving heard of the sale. Unknown to Whistler, he was able to buy his portrait at the auction for a song, and then in a spirit of friendly retaliation he invited the "Butterfly" to dinner. After the coffee and cigars he remarked, "Aha, my dear Jimmy, you must see my latest acquisition!" and invited him in to see his pictures, not mentioning the fact that he had bought the portrait. Whistler went from one picture to another, criticising, admiring, with that subtle, biting wit of his, and, coming in front of the portrait, he gayly remarked: "Aha! What have we here? My congratulations, Henry—the best picture in your collection!" He never turned a hair. This picture after Irving's death brought $25,000 at auction in London, and we are lucky to have it here now. This was a legitimate advance in price, and the picture is worth it. The few pounds that Irving paid was one of those fortuitous hazards of the auction room.—Saturday Evening Post.

Another Postmaster Accused.

Chatham, May 11.—A. J. Pesha, postmaster at Kent Bridge, is accused of partisanship in the federal elections. This he denies. An investigation will be made.

Balks the Jail Breakers.

A detective was talking about jail breaking.

"Down in Colombo," he said, "they have got a very good dodge against the jail breaker. It's simple too. Just bricks. You see, the Mutival jail at Colombo is surrounded by a very high brick wall. Well, the last dozen courses of these bricks are laid loose, without mortar. So when you try to escape you climb stealthily, hardly daring to breathe, up the wall, and with a sigh of relief you reach the loose course at the top and—clatter, crash, bang, clatter—a thousand bricks in the profound silence fall with a noise fit to wake the dead and a dozen warders rush out and you climb down sadly into their waiting arms."—New York Press.

AN ELEMENTARY GRADES UNION

Meeting in St. Paul's Hall Tuesday May 14.

A Graded Union is an organization of Sunday school teachers of two or more departments, from various denominations meeting regularly to help each other to improve the character and conditions of the work, by supplying immediate needs, forming higher ideals and gaining knowledge and teaching ability.

The union aims to keep in the forefront of all desirable progress, and to encourage improved methods by planning work adapted to the nature and needs of the scholars at the different stages of their development.

The transition to the graded sessions has emphasized the need of more definite grading and separation of departments, suitable equipment, regular promotions and adaptation of teaching, music, &c. Better work in the elementary department will create a need for better work beyond it.

The object of the union shall be:

1—To provide mutual acquaintance by Christian fellowship and prayer.

2—To study approved courses of training, or books recommended for specialization.

3.—To stimulate active interest in the study of children, and all that pertains to their development, physical, mental, moral and spiritual.

4.—To discuss topics relating to the work, and to confer about problems and needs.

5—To provide for the exposition and and presentation of Sunday school lessons for the various departments represented.

6.—To assist in all interdenominational movements which will further the work of the Sunday school, all teachers of all children up to the age of twelve, and mothers interested in the religious training of children may become members.

The executive hope to meet a large representation from the city schools at this, the first meeting of the recently organized union. All connected with the following departments are expected to be present: Cradle roll, beginners, primary and junior classes.

The meeting will commence at eight o'clock in St. Paul's Sunday school room to-morrow night.

TYPHOID MAY BE PREVENTED

Says Dr. McLaughlin in Report to U. S. Hospital Service

That the excessive prevalence of typhoid fever in the United States has been characterized, and not without reason, as a national disgrace, is the truthful though startling statement in an important series of suggestions to the cities and towns throughout the country regarding the necessity for safe water supplies in the control of this dangerous disease which is taking its deadly and awful toll yearly from every community.

These suggestions form a part of a special report to the United States Public and Marine Hospital service, prepared by an expert, Dr. Allan J McLaughlin, past assistant surgeon.

"Certainly," he says, "that portion of our typhoid prevalence which is due to polluted water supplies is preventable and our failure to prevent does not redound to our national credit.

SEWAGE POLLUTED WATER.

"The rather common use of sewage polluted water without purification has been responsible for disaster in the shape of typhoid fever epidemics in our cities with a frequency not pleasant to contemplate.

"The average American citizen displays towards sanitary problems a very dangerous apathy. It is difficult to arouse his interest in anything so well known as typhoid fever. Cholera or plague, or any scourge which to him suggests a quick and mysterious death will awaken his instinct of self preservation and arouse him to activity; not so typhoid fever. It has been all about him always, excites no terror and is viewed indifferently as an inevitable visitation which comes every year and takes its dreadful toll from the community. He never asks himself, 'Is this visitation inevitable or may not typhoid fever be prevented or reduced?'

FIGURES TELL THEIR STORY.

"Twenty deaths per 100,000 probably represent 200 cases of typhoid fever. Suppose 200 cases of Asiatic cholera were to occur in any American city of 100,000 population, would not strenuous activity be displayed, and very properly so, for the eradication of the scourge?

"Altogether the case mortality rate of typhoid fever is lower than that of cholera yet typhoid is transmissible in its lingering course, and more disastrous in its sequalae than Asiatic cholera. The mental attitude toward typhoid fever, displayed by many physicians and especially health officers, is most discreditable. Their complacency in the face of typhoid fever rates of above 20 deaths yearly per 100,000 population is difficult to explain. If the rate is below 20 many municipal officers are inclined to be satisfied with this rate, as it is low compared with less fortunate cities.'

POLLUTION OF THE LAKES.

"While it is impracticable to prevent pollution of the Great Lakes," he says, "it is possible and imperatively necessary that such pollution be controlled and kept within safe bounds. It would be very foolish from an economic standpoint not to avail ourselves of the cheapest and simplest method of sewage disposal, namely disposal by pollution, provided this may be done without danger to the water supplies of other communities, and without putting an unreasonable burden and excessive responsibility upon the filter plants of those communities.

STANDARDIZE DRINKING WATER

"The point to which this method of disposal may be permitted must be determined by local conditions. There is a crying need in the United States for official standards of the purity of drinking water."

Cobourg carried a by-law to exempt for two years the British Canadian Canners Co.

THE ARMS AND WEAPONS OF THE MODERN KNIGHT

KNIGHTS OF PHYTHIAS AT KNOX CHURCH

The Knights of Pythias attended the Knox Presbyterian Church last night in a body and the Rev. Mr. Keith, pastor of the church delivered an eloquent and appropriate sermon, taking his text from II Kings, 9; 12, which reads, "And Jehu drew his bow with his full strength, and smote Jehoram between his arms and the arrow went out at his heart, and he sunk down in his chariot."

From this text Mr. Keith in the beginning of his discourse, described the Knight of ancient times when under the threatening cloud of tyrants' power they fought to defeat the evil results of idolatry and heathenism. It was pointed out how idolatrous worship had invaded most of the homes and gained a prevalence in the land, and how such mighty men as David, Samson, Jonathan and Jehu battled at the call of God for that which was right. The speaker described their mode of procedure that necessitated the taking, the sacrificing of human life and continued to show by contrast the feature to be emphasized in a modern life. But the best type of Knight was not to be found in those ancient times so the attention of the listeners was directed to the chivalrous nobility of the Middle Ages. A certain development or evolution had taken place and those Knights Tennyson has idealized for us and depicted for us in such men as Arthur and Sir Galahad. But these portrayals were greatly pictures of ideals and the usual Knights of that time pursued only incidentally the stamping out of the vices and evils which then existed. Their victory was only achieved through the taking of human life and it was to be conceded that here the highest type of Knight was not to be found.

So we see by comparison the great change in the modern Knights who were endeavoring not to take but to save the lives of their fellow beings, and the equipment and weapons are as noticeably changed. The modern Knight has to battle with poverty, want and misfortune and they have learned to overcome these evil forces by benevolence. They must realize that our God-given talents are bestowed upon us by the Almighty to use for others. They are given to us in trust to be a means of alleviating the suffering of our fellow beings. The man who would retain his manhood must learn the manner in which to overcome temptations and the modern Knights have accomplished this by the medium of friendship. The ideal friendship suggested in the name Pythias which had been taken by that Order, was an example of the highest form of friendship illustrated in the episode of "Damon and Pythias." Here one man was willing to give his life that his friend might bid his family farewell before being executed; and the condemned man refused to save his own life at the cost of that of his friend's, and expended all the energy that he could muster to surmount the difficulties which threatened his failure to return in time and give his own life, when a little intentional delay or indifference would have saved his own life through the sacrifice of that of Damon. Charity was another weapon of the modern Knight, which was manifested in the reluctance to condemn others.

In conclusion Mr. Keith showed how the vows of the fraternal societies helped a man in living a life that would be of use to others, and that to carry out these great obligations that many had taken upon themselves, and which if adhered to in practice would result in so much good, they must first be a true Knight in their own hearts and have the weapons needed in their own souls.

FIGHTING THE WHITE PLAGUE

THE PROTECTION OF THE CHILD IS THE MOST VALUABLE AND THE MOST EFFICIENT MEANS OF FIGHTING TUBERCULOSIS

By Roy Gilray.

Tuberculosis is common in childhood as well as in adult life. Since physicians have been able to detect this disease in its incipient (first) stage in adults, they have discovered that a very similar condition often existed in the lungs of children.

Undoubtedly, much of the delicacy, invalidism, and so-called, minor ailments of children, are dependent on, or connected with unsuspected or undefined tuberculous disease. Therefore, the period of childhood must be given more attention in the future, for it is not only possible, but probable, that the seeds which ripen into full-fledged cases of tuberculosis in later life were in very many cases implanted in the tissues, during childhood, remaining there until a favorable time appeared for their activity.

Assuming that tuberculosis is comparatively common in children, the most likely way for this condition to arise, since it is a house disease, is for the young child to contract the disease from an afflicted father, mother, or other adult in the same house. No child should be fondled by an advanced tuberculous patient, and some authorities declare that no child should be left in the same house with an advanced case of consumption.

But, strange to say, nearly half the children that are stricken with pulmonary tuberculosis have come from families which give no previous history of this disease. In these cases some other cause must be assigned, and it is my belief that if the cause could be definitely determined it would be found in many cases to be careless spitting about the streets.

This infection may occur from the sputum, drying and becoming powdered, and carried by the winds, and thus occasionally germs being inhaled.

Or possibly the adult who comes in from the street carries dust into the house on his shoes, or her skirts, some of the dust being bacillus laden. Once this is deposited on the carpet or floor, it is a simple matter for the young child playing on the floor, to carry the infection to his lips, for it is child-nature to continually stick his fingers or toys into his mouth.

Milk from infected cows is also claimed by some to be a frequent source of infection.

If then there is the same danger of a child contracting this disease as there is of an adult, it follows that parents should know the signs that the disease manifests in a child for unless the child is seriously ill, and has been so for some time, the parents, at least, seldom assign tuberculosis as a possible cause of trouble.

When they do take a child to a physician, they say it is "run down" or pale, or thin, or tires easily. Sometimes they report that the child is nervous and cannot attend school regularly. Such a child should have a very thorough chest examination, for when no other cause can be assigned for such a condition, it is usually found that the child is tuberculous.

If these earlier cases are left untreated, they will, in all probability become advanced cases in adult years and, thus by being cared for early they are prevented from becoming future sources of infection to others. Besides, the recuperative powers are greatest in childhood years, and treatment should therefore be most economically carried out at this time.

In children of school years, tuberculous trouble is more common in girls, but boys are harder to cure. The cause for more girls contracting the disease is due to the fact that they spend more time in the house as they grow older, while their brothers are playing out of doors, and as tuberculosis is a "home disease" they are more exposed to infection; whereas the natural inclination of boys is to take more violent exercise and rest less, which is a serious handicap. Very little trouble is experienced in keeping girls of all ages reasonably quiet, but the boys will be boys whenever they get the doctor or nurse out of sight—much to their detriment.

We have one comforting assurance however, it makes no difference how people live, or how much they abuse their bodies or their minds, or how seriously they are exposed to the conditions that are characterized as the causes of tuberculosis, unles the germs find their way into and multiply within their bodies, tuberculosis can not and does not affect them. But against this, is the rather startling discovery that the source of the great majority of all tubercular trouble in children comes from tuberculous cattle.

To those who love the little tots and believe that the highest duty of responsible adults is to make them happy, it is hardly necessary to say that everything possible should be done to prevent their contracting the disease.

The prevalence of tuberculosis in our midst is due largely to ignorance of the disease, but the advent of the District Nurse will change all this. It will be her duty to carry to the homes needing it, such information as the situation requires, instructing the family in the proper methods of caring for themselves.

It is just such education as she will impart that will enable anxious mothers to do their best for the little ones, for the best way to fight consumption is to protect the children.

The Peterborough Summer Fair will be the thin edge of the wedge of education which will separate the community from the "White Plague," which leaves death and destruction in its wake.

S.A. TEMPLE BAND FOR HAMILTON ON THE HOLIDAY

The Salvation Army Temple band, under Bandmaster Peryer, will be in Hamilton for May 24, 25 and 26, an invitation being accepted from the Hamilton corps. During the absence of the musicians the musical part of the services at the local Temple will be taken by the boys' band.

WAR CRY EDITOR AND ARTIST GRAY AT S. A. TEMPLE

The special meetings at the S.A. Temple Saturday night and Sunday by Brigadier Bond, editor of the War Cry, and Lieut Gray, artist for the same paper, were well attended.

On Saturday night the lecture, "From the Cradle to the Gallows and to Honor," was very interesting, the lecture given by the Brigadier being illustrated by the artist in lightning sketches on paper. On Sunday afternoon "London's Bedless Ten Thousand" was the subject, and last night, "Lessons from the Titanic Disaster." These were both fully illustrated. Lieutenant Gray is an old Peterborough boy. He came out from England and resided here about six years ago then he left for the Army work, and has been so engaged for the past five years.

The meetings next Sunday will be of a musical character, being conducted by the band. In the afternoon a musical festival will be given. The band will be going to Hamilton for the 24th, 25th and 26th of this month. Everybody is welcome to next Sunday's meetings.

THE PETERBORO PRESBYTERIAL

The thirteenth annual meeting of the Peterborough Presbyterial of the W.F.M. Society will be held in St. Andrew's church, Campbellford, on Thursday and Friday, May 16th and 17th. A public meeting will be held Thursday evening, to which all are invited. Among the speakers will by Rev. Mr. Lochead, of Honan, China. Rev. Mr. McDonald, of Keene, will give an address on Thursday afternoon.

St. John's Church Notices

Monday, 4.15—Boys' choir practice.

Monday, 7.30—Girls' Auxiliary hold a most important meeting.

Tuesday 3.30—W.A. monthly meeting, also reports from delegates to Toronto meetings.

Holy Thursday—Ascension Day, Holy Communion, 10 a.m.. Festival Evensong and sermon, 8 p.m. Choir practice after this service.

Saturday 9 a.m.—Boys' choir practice.

Sunday after Ascension, 8.30— Holy Communion.

Monday, Tuesday and Wednesday in this week are Rogation Days, for intercession for the crops, and for all mission work.

RARE VALUES IN WOMEN'S RAINCOATS

It's a Fine Lot We Have Just Received, All Imported Garments, Consisting of Pelrane, Cravenette, Rubberized Tweed ∴ and Shotrane in a Big Variety ∴

This is the most unusual offer, for these garments are not the common-place kind. They are fine, perfectly-tailored coats, guaranteed to be rain-proof. Not only good protectors against rain, but also stylish garments that will give good service for motor use.

They are all imported coats remember, possessing the best qualities their regular prices will buy, and made in the most careful and thorough manner.

You've never seen raincoats of such fine grades marked before at such little prices—and you have never seen better styles and patterns at any figures. Garments that are both ornamental and useful. Not made alone to keep off the rain, but designed to present a good fashionable appearance for all occasions.

Accident Insurance

Following the Titanic Disaster no one will think of travelling without first taking out an Accident Policy.

It is interesting to know that practically all the Canadians who lost their lives through the Titanic wreck carried Accident Insurance. The average amount to be paid by Accident Companies alone, is over $30,000 for each Canadian lost.

The Double Indemnity and Bonus feature of The Dominion of Canada and General Accident Assurance Company policies are worthy of investigation before placing your Insurance.

WAR CANOE LAUNCHED BY IT'S CREW OF THE Y.M.C.A.

Although there was no grand ceremony, accompanied by the champagne bottle breaking act, yet the success and satisfaction which attended the launching of the new Y.M.C.A. War Canoe, on Saturday afternoon, was most complete. The recently finished and nifty craft took to the water like a duck and distinguished itself and its builders by its staunchness and buoyancy. The new canoe was presented to the Association by the Peterborough Canoe Company. It is finished in dark blue, with a white stripe, just below the gunwhale, the stripe being ended at the bow, and the Y.M.C.A. triangle prominently displayed.

Various salutes were given during the progress of the craft's maiden trip, the sight of such a boat occasioning praiseworthy comment. The canoe, when propelled by over a dozen strong arms, is capable of cutting the water at some speed, and the sight of the paddlers' wings working in union is very striking.

To-night the crew will make another trip, leaving the foot of King street at 7.15 p.m.

The crew on the first trip consisted of D. White, P. Stock, J. Downing D. Loomis, H. Wallis, H. Portsmouth, J. Mahoney, A. Leader, C. Stewart, and A. Johnston, J. J. Thompson, officiated as coxswain.

BAGPIPES FIVE CENTURIES OLD IN MUSEUM

A notable addition has recently been made to the collection in the National Museum of Antiquities, Edinburgh, in the shape of a set of Highland bagpipes, the oldest instrument known of its class, and probably one of the most ancient instruments of wood still capable of being played on. These pipes consist of two small drones and a chanter, the former inserted into one stock or joint formed from a fork branch of a tree. Carved in relief on the front of the stock are the date MCCCCIX, the letters "R. M'D." and a lymphad or galley. On the reserve is a triple floriated knot, and the upper ends of the fork and the lower joint are ornamented with bands of interlaced work. The head pieces of both drones at the top are cup-shaped, and both are similarly decorated with bands of interlacing, while the chanter at the head and also at the lower or bell end is enriched with similar devices.—Northern Ensign.

The Federal Grain Commission is in Winnipeg to consider the establishment of sample markets.

Two men at Galt were fined $100 each and costs for having liquor in a local option district.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (formerly Windsor)

LOTS OF HITTING

Saturday afternoon, in the presence of a large number of fans, the Regulars again defeated the Yans by the score of 11 to 6. Durr did the hurling for the Yannigans and Baver for the Regulars. Durr pitched a good game and used the stick to advantage getting four hits out of four times at bat, one being a double.

Baver also pitched a good game, having fourteen strike outs to his credit.

Quinlan had a big time with the willow, getting a single and a tripple out of three times up.

Durr lad a bad innings in the seventh when he allowed three hits and one base on balls. The entire line up of the Regulars batted, but this was due mostly to fielding, not of the best.

Mooney, who will catch Tuesday's game in Hamilton played a good game. He has a fine whip.

Tully, at short, played his usual fast game.

Beard in centre, pulled off some fine running catches.

Brode, who is on the receiving staff has shown class in the outfield and Templin has decided to use him there for the opening game.

Baver had the "spitter" working fine, and looks good.

George Ingleby of Oakville, is seeking a divorce. His wife is in New York.

DID ELLIS HAVE AN ACCOMPLICE?

Is there another man implicated in the murder of "Lew" Porter, the Minden trapper, along with "Heck" Ellis, the self-confessed assailant and slayer?

This is the question that is causing considerable talk in Minden and in the vicinity of the murder. In fact, there are many friends of the murdered man who openly state that Ellis had an accomplice in killing Porter.

It is stated that when Detective Reburn visited Ellis' house to make the arrest, he took him over the ground, the scene of the tragedy, and asked Ellis how he ever managed to drag a big man like Porter a distance of 200 yards up a slight hill and into a low lying piece of wood. Ellis, apparently unconcerned, replied, "Oh, we managed it easy enough."

It is further stated that Ellis could not have possibly dragged the body that far himself. Further, it is mentioned that the Snider rifle is not capable of firing three shots in rapid succession, and there are three or four witnesses who state that they distinctly heard three shots fired one immediately following the other.

Then again it is stated that of the bullets found in the body, or leaving their marks, that only one was a Snider bullet, the other two being apparently fired from some other make of gun.

Porter, the murdered man, had a number of friends, who state that Ellis was often heard to make threats that he would "do away with Porter sometime," while they never heard Porter make any threats in regard to Ellis. They expect that Ellis' confinement in the county jail will have a tendency to weaken him, and that he will break down and make further confession in regard to the murder, which occurred on the Cameron Road on the night of April 25.

Topics of the Household.

A dish that retains the odor of cooked foods such as onion or cabbage can be cleansed by boiling a strong solution of soda in it.

To forestall any danger of cracking a cut glass dish on which ice cream is to be served rinse the dish in cold water and then gradually chill it with ice water before putting the cream on it.

One of the everyday but very useful facts given out in one of the teachers' colleges of New York city was this: If the silver which has become tarnished is put into an aluminium dish and boiling water is turned over it an electric current will be set up and the grime will drop off as if by magic. The current may be increased by adding to the hot water a tablespoonful of salt. The silver, it was said, will require no rubbing.

Gasoline in which a little salt has been dissolved will, it is said, take stains from delicate fabrics without leaving a ring.

Old tea and coffee stains that have resisted other treatment will come out, it is said, if they are wet with cold water, covered with glycerin, left for about three hours and then washed in cold water and soap. A second application of the glycerin is sometimes necessary.

His Fortunate Mistake

It Brought Him Good Luck

By CLARISSA MACKIE

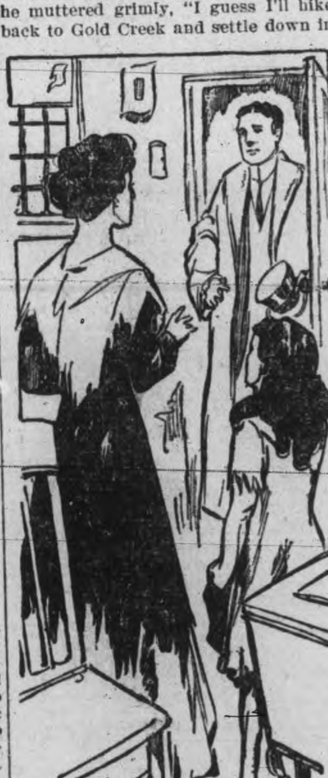
From the window of his luxurious private parlor Dick Lewis looked down at the brilliant color and continuous movement of life on Fifth avenue. The great hotel which he had entered with awe and some misgiving in his new role of millionaire mine owner was situated on the fashionable thoroughfare, and his rooms were on the fourth floor. From his windows he had an excellent view of the daily parade of wealth and fashion, and he had soon wearied of it.

He was a stranger in New York, and because of his natural reserve and reticence he had not yet been discovered by those human vultures of society whose instinct it is to prey upon the guileless newcomer and separate him from his money. As a matter of fact, Dick Lewis had renounced cards and gambling of any sort ever since one night in a Gold Creek mining camp when he had witnessed the killing of three men over a game of poker.

There was no one to know that he was a stranger in the city—a raw westerner who had made a lucky strike in Nevada and who had come to the great metropolis to see life and to spend his money. So far he had been safe.

As he looked down at the continuous stream of automobiles and carriages in the broad avenue, at the multitude of strangers, a sense of loneliness assailed him for the first time since his arrival. He turned from the window and picked up the morning paper.

"If this is all there is to New York," he muttered grimly, "I guess I'll hike back to Gold Creek and settle down in a house of my own. That Hilltop ranch property would be a mighty fine site for a house."



DICK LEWIS FOUND THE WIDOW SCHMIDT.

Dick Lewis was a handsome man even when he frowned, as he was doing now over the dry details of the want columns, in which he had not the slightest interest. His hair was black, thickly sprinkled with gray that made him look older than his thirty-five years. His eyes were large and gray, with a keen, compelling glance that attracted interest in any one who met him casually.

"Well—I'll be—!" whistled Dick as his roving eye lit on an advertisement in the personal column of the paper:

> A poor widow with four children about to be placed in an orphan asylum begs the assistance of some benevolent person in preventing the breaking up of her little family. Address Mrs. S., box 2FF.

He himself had once been the inmate of such an institution, and he had always remembered the homesick feeling that had attended his residence there.

It was characteristic of him that he drew paper and pen toward him and indited a short note to Mrs. S. of the advertisement:

> Dear Madam—If you will send your address to me, care of this hotel, I will be glad to call upon you concerning the matter mentioned in your advertisement of this date. Yours truly,
>
> RICHARD LEWIS.

When he addressed the envelope Dick did not notice that his glance had skipped a few lines and that the address he penned was the one appended to the one following that of the poor widow.

By noon the following day he received a businesslike little note:

> Dear Sir—Please call at room 844, Luckfly building, concerning advertisement.
>
> F. SELDEN.

"F. Selden must be the widow," mused Dick, as he ate his luncheon in the splendid hotel restaurant. "Wonder what she's doing in an office building—why, of course she's a scrub woman and some kind hearted fellow has allowed her to have her mail addressed there. I'll go down by and by and see her—makes me cold all over to think of those four youngsters being torn away from their mother's arms."

Room 844, Luckily building, proved to be tucked away in a corner at the end of a long, dark corridor. Dick Lewis knocked gently and then turned the knob and entered the office.

It was a small office and contained one window looking down on a dim side street far below. There was little office furniture, and what there was appeared to have been recently reclaimed from some secondhand store, for it was all pretty well battered and scarred. However, everything was neat and clean and carefully arranged to the best of its poor advantage. There was a roll top desk and a long table and a couple of chairs. Beside the window was a typewriter on a stand, and seated at the machine was a young woman gowned in black. She arose and came toward Dick as he closed the door.

Dick Lewis was tongue tied. He had seen many women in his life, but never one just like this. She was tall and slender, with a sweet, oval face lighted by soft brown eyes. Her golden brown hair was braided into a coronet above her white forehead. The dark eyebrows went up ever so slightly as she waited for her visitor to speak.

Suddenly it dawned upon Dick that this could not be the poor widow of whom he was in search. This young girl could not be the mother of four children, although her gravity and the mourning gown she wore lent her an air of maturity.

"You came in answer to my advertisement?" she questioned at last.

"Yes," stammered Dick, wiping the perspiration from his brow.

"Then you must be Mr. Lewis, for I only had one answer yesterday, and that was yours," she went on, motioning him to a chair and resuming her seat by the window.

"I was hoping I might be of some service to you," began Dick awkwardly. "You see, I've got more money than I know what to do with, and I came east to spend some of it, but it's mighty lonesome spending money all alone, and it's a confounded idiotic thing to do when there is so much need for it in the world. I suppose I sound kind of goody-goody, but I'm not"—

The girl in black stiffened and all the pretty color faded from her cheeks. Her brown eyes lost their gentle expression and became sharp and questioning. She arose with a single graceful movement and looked down upon him in the brief moment before he remembered to get upon his feet.

"I scarcely understand just what your business is with me, sir, but it is evident that you do not wish any typewriting done," she said haughtily.

"Typewriting?" he echoed blankly. "I came to see if I couldn't help you keep those four kids out of the orphan asylum and"—

"Four kids—er—four children! What do you mean?" demanded F. Selden, bewilderment mingled with her hauteur.

"I am referring to your advertisement in yesterday's Trumpet." Dick was on his feet now and looking down at her disturbed face.

"I don't know what you mean. I didn't advertise for an orphan asylum," she said confusedly.

"No, no; of course not. Only, you see, I got your answer to my inquiry, and I supposed you were the party—poor widow wanting help to keep four children out of the orphan asylum," explained Dick.

F. Selden shook her head and a faint smile curved her pink lips. A slender hand went up to smooth the golden brown braid, and Dick's heart leaped strangely to notice that there was no wedding ring upon the third finger of that left hand—indeed the finger was quite bare of rings.

"I am Miss Selden, and I do typewriting here. Business was so dull that I placed an advertisement in yesterday's Trumpet. I noticed the other advertisement just above my own. You must have addressed your envelope to me instead of your widow."

"I must have done that," admitted Dick with some chagrin as Miss Selden produced a copy of the Trumpet and showed him his error. "So that widow didn't get my letter after all. I shall have to write her another one. Perhaps—perhaps you'd write it on the machine for me."

Before he wrote the letter he told her all about himself and his trip to New York and how glad he was to find a useful way to spend some of his money. She listened with sympathy, and after the letter was written and properly addressed Dick found courage to voice a great desire.

"Miss Selden, I wonder if you'd let me come up tomorrow or next day and report on the case of the widow?"

"I shall be interested to hear the outcome," said Miss Selden politely.

Dick Lewis found the Widow Schmidt as poor as her advertisement hinted at. It gave him pleasure to set her up in business in a small notion store in the suburbs.

Dick's greatest delight was in telling all this to Freda Selden, who listened with genuine interest. He called on her once more and gave her a bulky package of papers to be copied, and that time he was introduced to her widowed mother, who happened to be in the office at the moment.

Lewis didn't see as much of New York as he had intended, his time being taken up with hunting manuscripts for Miss Selden to copy. He wrote to all his friends to send him manuscripts to be typewritten, he to pay all costs. He discovered that every friend he had in the world had at some time been innoculated with the literary fever.

When Dick Lewis went back to Gold Creek to build his handsome home on the hilltop he carried with him a bride and a mother-in-law as well as the blessings of the entire Schmidt family.

Members of the Dominion Police at Ottawa want one day off a week.

Huron County Council plan a publicity campaign.

A Prehistoric Man.

Basing his remarks on the skeleton found some months ago between the mid-glacial sand and the boulder clay in the neighborhood of Ipswick, Prof. Arthur Keith spoke at the Royal College of Surgeons in London on the antiquity of the modern type of man. He said he had come to the conclusion that the man whose skeleton lay in a crouched-up position differed from all the other instances of ancient remains which were known in that he was 5 feet 10 inches in height at least. There was no shin, properly speaking, it being simply marked by a thin line, and they were evidently dealing with an early stage in the evolution of the bone. The peculiarity of the skull was its lowness, and its widest point was seated further back than in the modern skull. The palate was comparatively small. No place, said Prof. Keith, was, in his opinion, likely to throw so much light on the early history of man as East Anglia.

A Robust Babe.

Sir John Richard Robinson in his "Fifty Years of Fleet Street" tells of an amusing incident during the visit of the Swazi deputation from the Transvaal to England at the close of 1894: "The Swazi braves went to Windsor and had an audience of Her Majesty Queen Victoria. They were very graciously received. One of their number began to speak, and an interpreter followed him phrase by phrase, 'We come, O great mother,' he said, 'to bring to you our babe. Take him, O mother, to thy knees; fold him to thy breast.' Here the Queen, half frightened, exclaimed: 'But where is the child? I don't see him. Where is he?' 'Here, O mother,' said the Swazi gravely, at the same time bringing forward a big black about six feet high and weighing well over 200 pounds. 'He is here!'"

Attended Soldiers Under Fire.

Surgeon-General W. Babtie, V.C., who has been promoted to that rank after holding it temporarily since he was made Deputy Director-General Army Medical Service, in 1910, is a son of Mr. John Babtie, of Dumbarton, and is now in his 52nd year.

After taking his medical degree in Glasgow and Edinburgh, he, in 1881, joined the Army Medical Service. In Crete in 1897-8 he was senior medical officer, and for his services during the troubles there was given the C.M.G., while in 1899-1900 he served in South Africa as medical staff officer in Natal, being present at the actions leading up to the relief of Ladysmith, and the subsequent operations in Natal and the Eastern Transvaal.

Dr. Babtie was mentioned in dispatches, promoted to be lieutenant-colonel, and gained the V.C., as well as the Queen's medal with five claps, the former being given for his gallantry at Colenso in attending to the injured under fire, and also for going out and assisting to bring in Lieutenant Roberts, who was lying wounded.

Famous Surgeon's Chuckle.

Some good stories have been told of Sir Frederick Treves, who has recently returned home from a tour in the West Indies. One is associated with Lord Charles Beresford.

Lord Charles fell ill, and sent for the great surgeon. "Tell me your symptoms," said Sir Frederick. His lordship enumerated pains here and pains there, with an ache and a stiffness somewhere else. Each item was greeted by the doctor with a great chuckle, and at last, when the catalogue of ills was completed, he rose and turned to Lord Charles. "My dear fellow," he said, "let me congratulate you. You have the rarest disease of the century You lucky dog; you have a disease that was thought to be extinct!" History is silent upon Lord Charles' answer.

England's Tobacco.

Smokers in the United Kingdom last year consumed over 3,000,000 pounds of tobacco more than in 1910, involving an increased expenditure of £967,622, while the year's smoke bill amounted to £29,164,867, which works out roughly at about two pounds of tobacco per head of the whole population.

TEN CENTS PER WEEK.

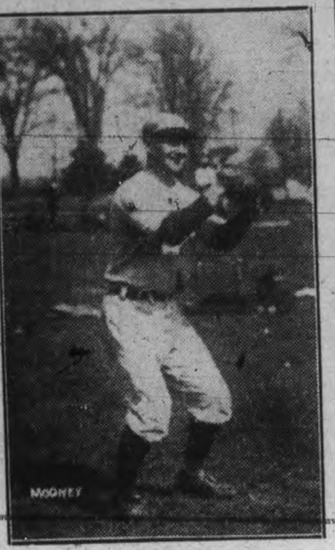
NESBITT SAYS HE HAS NO FEAR OF THE OUTCOME; WILL LIKELY VISIT MUSKOKA

Bonds For $30,000 Insure His Reappearance a Week Hence.

Toronto, May 14.—Dr. Beattie Nesbitt appeared in the police court yesterday morning. He was arraigned upon four charges of making false returns to the Government while president of the Farmers' Bank. Neither plea nor election was made to any of these, and at the request of his counsel, H. H. Dewart, K.C., he was remanded for a week. Bail was granted by the consent of Crown Attorney Corley, who fixed the amount at $15,000, with the doctor's own bond in an equal amount. The sureties accepted were Wallace Nesbitt, K.C., cousin of the accused, and Dr. Walter McKeown. The doctor was greeted by a host of friends in the police court corridor after he was admitted to bail, and left in a taxi for the home of his brother, Frank Nesbitt, with whom he will stay for the present.

Dr. Nesbitt once more succeeded in evading all efforts to secure his photograph. The jail yard was cleared when he left there for the court, and he was protected by a detective on either side as he left his taxi for the Albert street entrance of the City Hall. "I have no fear of the outcome," was the only word which the doctor would vouchsafe upon his case. He said that he would likely go to his island home in Muskoka, where his wife now is. This visit will be made before he again appears in the police court. It was from this place that the doctor made his start for the border a year ago January last.

The doctor had shaved off the beard which he was still wearing when he was brought to the city Sunday morning, and save that a wide western fedora had been submittel for his former habitual silk hat his appearance was much the same as when he was perhaps the most familiar figure upon this city's streets. He has not lost weight, and his manner is the old jovial one that he always used.



CATCHER MOONEY

He handled the slants in the opener to-day.

TO BRING THE MILLENNIUM

In First Day of Final Campaign In Ohio the President of the U. S. Makes a Remarkable Attack on His Opponent For the Republican Nomination—Roosevelt Believes He Is the Only Man Big Enough.

Steubenville, O., May 14.—President Taft's first day of his final campaign swing through Ohio, which came to an end with a speech here last night, was marked by the most pronounced verbal assaults upon Col. Theodore Roosevelt to which Mr. Taft has so far given utterances.

Speeches that were filled with indignant attack, that bubbled over with uncomplimentary adjectives, Mr. Taft discharged at his predecessor in the White House.

"He says the reason the American people are going to elect him is because he is necessary for the job. That is the description he gives. Well, I hope the American people will not think that he is necessary for the job. I want to call your attention to what the job is which he proposes. It is the millennium that he is going to bring about when he gets into office. All bosses are going to disappear; politicians are going to be fewer and he is going to have a finger in every community, in every state, in every county and everything is going to heaven.

"If that be true the millennium is coming, and that is the job he is to do. It is going to take longer than four years. I beg of you to ask him when he comes here whether he would take a fourth term, ask him whether he is going to take a fifth term, and why he should not continue in office during his life?"

Wyoming For Taft.

Cheyenne, Wyo., May 14.—The Republican and Democratic state conventions met yesterday to select delegates to the Chicago and Baltimore national conventions respectively, and to name national committeemen.

Twelve of the thirteen county delegations to the Republican convention favored Taft instructions. B. B. Brooks, temporary chairman, eulogized the Taft administration.

Eyes on South Dakota

Sioux Falls, S.D., May 14.—Theodore Roosevelt is coming to South Dakota to make a personal fight for the ten delegates from the state to the Republican national convention. He will make a flying visit June 1, spending that day in the state. It is expected here that Taft and Lafollette also will visit the state. The state primary will be held June 4.

FIRE IN HUMBER BEACH HOTEL

Toronto, May 14.—Damage amounting to several thousand dollars, fully covered by insurance, was caused by a fire which broke out in the Humber Beach Hotel at 11.45 last evening. The hotel is owned by L. W. Hansen, who took it over last January from T. J. Boland. A refreshment booth, owned by Richard West, not insured, was also burned, and at 1.30 this morning the flames were spreading to a garage west of the hotel and were gradually eating their way through the roof of the hotel proper. The building to the west of the hotel, which is owned by West, was the old restaurant which was owned by Mrs. Meyers at Sunnyside, and was removed to the Humber when the city bought it in order to make room for the Sunnyside bridge.

Richard King Drowned.

Sault Ste. Marie, Ont., May 14.—All doubt as to the fate which befell Richard King, a Toronto boy, who disappeared Thursday night was dispelled Sunday night by the finding of the body near the Government dock in St. Mary's River. It was a friend, Stanley Simpson, who recovered the body, and he located it with the first throw of the hook. The remains were shipped to Toronto.

BRUCE ISMAY'S THANKOFFERING

London, May 14.—The London papers publish a statement made by The Liverpool Journal of Commerce, that J. Bruce Ismay intends to provide an endowment fund for pensions for disabled seamen of all classes connected with the White Star Line, and for their widows, as a thank offering and a memorial to the heroism of the Titanic's crew. The fund, it is further said, will probably amount to $100,000.

London's Empire Concert.

London, Eng., May 14.—A great and enthusiastic audience of 10,000 listened to the Empire Concert, which inaugurated Shakespeare's England at Earlscourt Saturday. The singing of the Imperial choir of 4,000 voices, conducted by Dr. Charles Harriss of Canada, was most imposing. Sir Henry Wood also conducted.

London Needs Carpenters.

London, May 14.—There is a bigger demand for carpenters and bricklayers in this city than it is possible to fill. The Ontario free labor bureau can place on jobs at once at least a dozen experienced carpenters and bricklayers. A large number of men could be placed on farms in Western Ontario.

People to Elect U. S. Senators.

Washington, May 14.—The House yesterday adopted 237 to 39 a joint resolution providing for an amendment to the constitution to permit the election of U. S. Senators by direct vote of the people. It already had passed the Senate, and now goes to the President.

HON. A. G. MacKAY NOT TO RESIGN YET

Toronto, May 14.—Before severing his connection with Ontario politics, Hon. A. G. MacKay will consult his constituents in North Grey. So spoke the ex-leader of the Liberal party to an enquiry made at Edmonton yesterday. Said Mr. MacKay: "I am not in actual practice in Edmonton. I do not immediately intend severing my political relationship with my constituents in North Grey, but will consult them later."

The Liberals of the constituency are casting about, however, for a candidate. The names of Ald. John McQuaker, ex-Mayor Harrison and Mayor Lenon of Owen Sound, and Col. H. R. Cleland of Meaford are mentioned. C. S. Cameron of Owen Sound is favored as the Conservative candidate. Other names mentioned are J. K. Rutherford, Reeve T. W. Thomson, Dr. Howey and Rev. H. A. Fish of Owen Sound, and A. Carnahan of Meaford.

Women In Civil Service.

Ottawa, May 14.—There is no foundation for the story published a few days ago to the effect that the civil service commissioners had decided to in future debar women from admission to the general ranks of the civil service.

Civil Service Exams.

Ottawa, May 14.—Yesterday was civil service examination day at the various centres throughout the Dominion. There are 1,200 candidates for some 220 positions, and of these 403 are writing in Ottawa.

NEW PAPAL DELEGATE BRINGS BLESSINGS OF POPE

ARCHBISHOP GIOVANNI BONZANO

Bringing the Papal blessing for the American people and the news that the Pope is enjoying fairly good health, Archbishop Giovanni Bonzano, the new Papal Delegate to the United States, has just arrived in this country. An impressive welcome was extended him by hundreds of ecclesiastics and distinguished laymen in New York.

Archbishop Bonzano is the youngest of his rank in the Catholic Church. He told reporters this is his first trip to this country. He expressed gratification on arriving.

REVOLUTION JUST BEGUN SAYS GENERAL OSOZCO

Defeated Mexican Rebel Admits Getting Worst of Battle at Conejos, But Declares That Madero Will Soon Find Him Very Much Alive—Gen. Enrile Will Recover From Murderous Attack.

Jiminez, Mexico, May 14.—(At Gen. Orozco's Headquarters.) — Conceding his defeat in the battle before Conejos, Gen. Pascual Orozco last night was by no means dispirited.

"The revolution has just begun," he said, "and we are confident that we will ultimately overthrow Madero for a just revolution will always triumph."

Gen. Orozco would not say how many men he had lost, but admitted that he had not heard from Gen. Campa and Gen. Artugumedo, whom he sent around to the west of Conejos with 2,500 men to flank the federals.

Gen. Tellez of the federal army is believed to have engaged them and cut off their retreat.

Gen. Orozco was at a loss to understand rumors in circulation yesterday that he had been killed.

"Madero will find me very much alive before many days," said Orozco. Only skirmishing occurred yesterday. The rebels chiefly occupied themselves in recovering from Sunday's fight.

Gen. Enrile Will Recover.

Chihuahua, Mex., May 14.—The condition of Gonzalo C. Enrile, financial agent of Orozco, who was murderously assaulted here early yesterday, was last night unchanged. Enrile's four wounds, inflicted by knife and pistol, are not regarded as fatal. The identity of the assassins is unknown.

Enrile by his activity in the revolution during the last two months has made many political enemies. To him is attributed the financing of the present revolution on behalf of Bernardo Reyes Limantour, former Governor Terrazas and others once identified with the Diaz regime. Enrile opposed Vasquez Gomez and influenced Orozco to denounce him and it is believed Gomez supporters were behind the plot to assassinate him.

ARRIVES WITH THREE BODIES

Louisburg, N.S., May 14.—The steamship Montmagny, Captain Piliot, arrived yesterday with three bodies of the Titanic disaster—Harold Reynolds of Toronto, C. Smith of the cooking staff, and a young girl about 15 years of age, name unknown. These were landed in Louisburg and expressed to Halifax for burial. The Montmagny sailed at 11 o'clock last night to continue the search after taking on bunker coal.

Baby Strangled In Montreal.

Montreal, May 14.—The body of a baby boy, apparently about two weeks old, was found wrapped in a newspaper in a yard off Oliver street, by a corporation workman yesterday. Marks of violence were found on the body and it is suspected that the body was strangled before being left in the yard.

McNamara Fights Extradition.

New York, May 14.—John McNamara, known to the police as "Australian Mack," filed in the U. S. District Court yesterday notice of appeal to the Supreme Court of the United States from a decision of the district court in extradition proceedings brought against him by the Canadian authorities. McNamara is wanted at New Westminster, B.C., to answer a charge of burglary in connection with the looting of the Bank of Montreal at that place.

PITCHER DURR

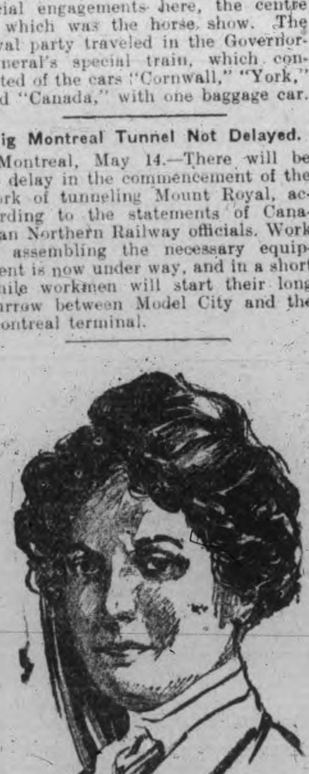
He is a southpaw and pitched for Peterboro at Hamilton this afternoon

ROYAL PARTY BACK AT OTTAWA

Montreal, May 14.—Their Royal Highnesses the Duke and Duchess of Connaught and Princess Patricia left Montreal for Ottawa at one o'clock yesterday afternoon, after a week's social engagements here, the centre of which was the horse show. The royal party traveled in the Governor-General's special train, which consisted of the cars "Cornwall," "York," and "Canada," with one baggage car.

Big Montreal Tunnel Not Delayed.

Montreal, May 14.—There will be no delay in the commencement of the work of tunneling Mount Royal, according to the statements of Canadian Northern Railway officials. Work of assembling the necessary equipment is now under way, and in a short while workmen will start their long burrow between Model City and the Montreal terminal.



MRS. J. BRUCE ISMAY

Mrs. Ismay has given $5,000 towards a pension fund for British seamen's widows. Her husband has given $50,000.

Try a Review Want Adv.

A FINE OF $500

Special to the Review.

Hamilton, May 14—The biggest fine ever collected in a liquor case here, was imposed to-day by Magistrate Jelfs, when he fined W. Barton, proprietor of Halfway House, five hundred dollars for selling liquor without license.

BASEBALL

A despatch from Hamilton at four o'clok stated that the game between the White Caps and the Hamilton Kolts had not yet started.

SARNIA WOMAN WAS DECOYED

Sarnia, May 14.—Mrs. Mary Williamson of Point Edward disappeared from her home on May 3, and in company with Thomas Harrison, who works at the Imperial Oil Refinery at Sarnia, has been found in Bay City, Mich. The immigration officials at Port Huron were notified by her husband and as a result Harrison has been locked up at the latter place under a charge under the White Slave Act. Mrs. Williamson is being detained as a witness in the case.

This is the second woman that Harrison has enticed across the line for immoral purposes, and this woman, who has returned to her home in Sarnia, has also been secured to give evidence against the prisoner.

AN UNKNOWN MET DEATH

Special to the Review.

Toronto, May 14.—An unknown, about 45 years of age, was found dead this morning behind a large sign board at the corner of Gerrard street and Carlaw avenue. He had bled to death from a deep gash on the wrist, and may possibly have been murdered.

FROST IN THE FRUIT BELT

Special to the Review.

St. Catharines, May 14.—Two degrees of frost last night visited the Niagara fruit belt, now one mass of blossoms, but the buds this morning showed no indication of damage.

Canadian Writer Dead.

Victoria, B.C., May 14.—Miss Agnes Deane Cameron, the well-known writer and lecturer, died at St. Joseph's Hospital yesterday morning, following an operation for appendicitis, after a short illness.

Miss Cameron was a native daughter of Victoria, having been born in 1868, a daughter of Duncan and Jessie Cameron, pioneers of the province. She was educated in the public and high schools of the city, and embraced the teaching profession.

Six years ago, owing to a controversy with the Provincial Department of Education, she terminated her connection with the teaching staff in the city, and ran for the office of school trustee, being elected at the head of the poll.

She later removed to Chicago and won renown as a descriptive writer. She concentrated most of her energies to describing to the world the resources and opportunities of Western Canada. She became associate editor of The Last Best West Magazine, and also was identified with the Canadian Woman's Press Association.

Demented Mother Ends Life.

Pembroke, Ont., May 14.—After having returned from Kingston Asylum with her few days old child two weeks ago, apparently cured of her insanity, Mrs. R. S. Covert of Cobden, shot herself through the head Friday afternoon and died almost instantly. She was 24 years old and the wife of Cobden's principal jeweler. Some time ago she became insane and was taken to Kingston Asylum. She was released, however, two weeks ago, apparently cured, and returned home. A baby was born three weeks ago.

Italian Workman Killed.

Toronto, May 14.—Carol Pengally, an Italian laborer, was instantly killed yesterday morning while at work on the roof of the transformer station at the foot of Atlantic avenue. He came into contact with the high tension wires crossing the roof of the building. There was no one working with him at the time, it is not known exactly how the accident occurred. These wires carry upwards of 30,000 volts, and it is claimed that sometimes the high current will jump a short distance.

Phonographs Musical.

Ottawa, May 14.—The Railway Commission has decided that gramaphones, phonographs, and other similar machines, must be classed as musical instruments, and must be so classified in freight designation. This will add materially to the cost of transportation of these "instruments."

ENGLISH AVIATOR AND AMERICAN MINING MAGNATE FALL TO THEIR DEATH

FRANK DOLAN

Will cover first base for the local Canadian Leaguers.

E. V. Fisher, a Well-Known British Birdman, and Victor Louis Mason, an American Mining Magnate, Are Pitched Out of Machine at Height of 150 Feet—Mason Is Caught In Wreckage and Body Is Burned.

London, May 14.—Victor Louis Mason, an American identified with extensive mining interests, and at one time private secretary to the American Secretary of War, Gen. R. A. Alger, and to his successor, Elihu Root, was killed yesterday while making a flight at Brooklands with the English aviator, E. V. Fisher. Fisher also was killed, by being pitched out of the machine when at a height of about 150 feet.

Fisher was about to give an exhibition and picked Mr. Mason as a passenger from among the spectators. They circled the track once when, eyewitnesses say, the machine, which was a monoplane, made an abrupt turn. It wavered a moment and then fell straight to the earth. The sudden stoppage in the air threw Fisher headlong from his seat. Mason was pinned beneath the wreckage, which caught fire, and he was badly burned before being extricated. Physicians state that both men died almost instantly.

It is surmised that some fault developed in the engine of the aeroplane, which caused the accident, as the weather conditions were perfect. The bodies were removed to a mortuary to await an inquest, which probably will be held to-morrow.

Fisher was regarded as a daring aviator. He had met with a number of accidents, one in October last, in which he was rendered unconscious and his passenger painfully injured. On another occasion, after a cycling accident, Fisher made a flight with one arm strapped to his side.

Victor Louis Mason resided in Passaic, N.J. He was born in Washington in 1870. His wife was Miss Daisy Comstock Simons of Washington. He was associated with Gen. Alger in Detroit from 1899 to 1902.

Thomas Sopwith was also flying around the grounds with a passenger at the time and witnessed the accident. He flew in the direction of the wrecked machine and alighted close beside it. The two men tried their utmost to beat down the flames.

In the meantime the crowd rushed to the spot and extinguishers were applied, but when the flames were quenched the machine was almost destroyed.

Fisher's body was found 20 yards away, his neck having been broken. Among the spectators were Flanders, owner of the monoplane, and Commander Samson, who made a notable hydro-aeroplane flight at Weymouth last week.

According to newspaper reports Mr. Mason was a friend of Commander Samson. The latter accompanied him to the grounds and, it is reported, arranged for the flight with Fisher.

Amateur Aviator Killed.

St. Louis, May 14.—Ray Wheeler, amateur aviator, was killed, and Peter Glasser, a companion, was probably fatally injured when their machine struck a telegraph pole at Kinlock Park last night.

The accident occurred when the aeroplane was caught in a whirlwind 100 feet above the earth.

Wheeler and Glasser were thrown 30 feet. Wheeler's skull was crushed, his right leg was broken in three places, and his right arm was fractured. He died on the way to the hospital.

GIBSON CASE IN THE FALL

Accused in Rosenthal Murder Case Asks for More Time.

Toronto, May 14.—After considering the many intricate points of the murder of Joseph Rosenthal and the attempted murder of Eli Dunkelman yesterday, Mr. Justice Middleton granted the request of Aubrey Bond, counsel for Charles Gibson, to traverse the hearing of the case until next fall. Gibson is charged with the murder of Joseph Rosenthal.

Gibson filed an affidavit stating that Eli Dunkelman lied at the inquest, when he said that Gibson was the only man who accompanied him and Dunkelman to the scene of the murder. He alleges that he introduced two former employes of the hydro, known as "Wilson" and "Alf" to the two Jews, and left them on the Strachan avenue bridge.

Mr. Bond said he had been in communication with a witness who would be prepared to testify that he saw the two Jews talking to two other men on this bridge. Gibson holds that he would have taken steps to locate these two men sooner had he thought that the evidence of Dunkelman would not exonerate him.

The prisoner is without funds, but some citizens are contributing money for his defence. Mr. Justice Middleton was in favor of allowing only a few weeks' stay in proceedings, but Mr. Bond advised the court that he would have to withdraw from the case if such a stipulation were made.

ISMAY MAKES $50,000 GIFT

Special to the Review.

Liverpool, May 14.—J. Bruce Ismay has contributed fifty thousand dollars and Mrs. Ismay five thousand dollars to start a fund providing pensions for widows of seamen who lost their lives while serving in vessels of the British mercantile marine.

Canadian Gold Issued.

Toronto, May 14.—Between $11,000 and $12,000 worth of the new Canadian $5 and $10 gold coins were issued from the office of the assistant receiver-general in Toronto street yesterday. The original instructions had been to hold them until Wednesday, but yesterday morning word came from Ottawa releasing them, and all day the teller was kept busy handing out the coins. They went mainly in small lots to the general public, but little being taken by the banks.

The new coins are handsome. On the face they bear the King's head, with the inscription "Georgius V. Rex et Ind. Imp." around the edge. The reverse bears the Canadian coat-of-arms, surrounded by a wreath of maple leaves, inside of which is the word "Canada," the year of issue and "Five Dollars," and "Ten Dollars" respectively.

Raising $250,000 for Anglican Pastors.

Montreal, May 14.—The campaign to raise $250,000 for the augmentation of the salaries of Anglican pastors throughout the diocese of Montreal, was opened yesterday by the Bishop of Montreal. A midday luncheon was held, attended by many prominent church workers, at which it was announced that $70,000 had already been promised. Last night, while official figures had not been compiled, it was stated that this sum had been considerably increased during the afternoon.

Turkey In Bad Fix.

Rome, May 14.—It is announced in the newspapers that the occupation by Italy of the Island of Karpathos, Kaso, Piscopi (Tilos), and Nisyro, in the Grecian archipelago, and belonging to Turkey, together with the capture of the Islands of Stampula and Rhodes, completely closes the Aegean Sea. Turkey is thus blockaded and isolated from the Mediterranean, and she is consequently unable to despatch warships or troops to Tripoli.

SEALSKIN SACQUES WILL BE HIGHER

St. John's, Nfld., May 14.—Yesterday marked the close of one of the most unsatisfactory sealing seasons that Newfoundland has known in many years. Twenty steamers engaged in the fishing industry reported a total catch of 175,128 seals, valued at $329,104. This is hardly more than half the number taken last year when the steamers reported 304,291 seals, valued at $493,635.

The falling off this year is due in a large measure to abnormal ice conditions which have prevailed. There were no serious accidents to the fleet this year, in contrast with past years.

BRANTFORD BOY STILL MISSING

Brantford, May 14.—An all day search of the Grand River bed for one mile below the Grand Trunk bridge here yesterday by the city fire department, failed to reveal any trace of the body of Ivor Rhodes, the ten-year-old boy thought to have been drowned, and the authorities have almost concluded that the lad has run away from home. His parents do not believe that he has been drowned, and search of the river may not be resumed. Absolutely no trace has been secured of the missing lad since Wednesday night last.

British Capital For Coal Fields.

Regina, Sask., May 14.—Word was received from England yesterday that J. H. Haslem has completed the formation of a $5,000,000 concern with British capital, for the exploitation of the Estevan coal fields. It is understood that Viscount Haldane and Winston Churchill have been named as directors of the new concern.

LUNG TROUBLE

Mrs. Biny Brown, of Tenecape, N.S., Was Cured by Catarrhozone of Lung Trouble and Catarrh, After Hundreds of Other Remedies Failed

If your lungs are weak; if there is consumption in your family; if Colds, Catarrh, and Bronchitis bother you, be sure to use Catarrhozone. It is especially adapted for these diseases and cures every time.

Mrs. Brown took cough mixtures, but they made her sick. Then she used an atomizer, but, after resorting without benefit to poultices, she tried Catarrhozone.

"I used Catarrhozone Inhaler," writes Mrs. Brown; "five minutes every hour, and soon recognized that it was going to cure me. I could feel the soothing medicated air spreading through the air passages of the throat, and it touched the sore spots in the lungs that other remedies failed to reach. Catarrhozone seemed to go just where it was needed most, and soon put a stop to my cough. It restored me to perfect health, and I am convinced that no cough, cold, or catarrh can exist if Catarrhozone is used."

No treatment is so clean, so pleasant, so certain to cure as Catarrhozone. By means of the Inhaler, the local symptoms, such as coughing, inflammation and congestion are speedily corrected. Ferrozone tablets, which are taken after each meal, purify and cleanse the blood of all poisons, and build up and strengthen the system.

This local and constitutional treatment is always effective, and cures cases that have been given up as hopeless. Money can't buy or produce anything better, and to get cured it is absolutely necessary to use Catarrhozone.

The Daily Review

TUESDAY, MAY 14, 1912.

SWATTING THE FLY

In some cities, fly swatting campaigns have been inaugurated, and boy scouts and other children have been enlisted in the war on the household pests. With suitable weapons they swat and extinguish the flies, and they are encouraged by the whoops of the press. There should be no flies. They carry disease and death. At the same time, a method of ridding the community of them that develops a cruel tendency in children has its drawbacks. An English poetess declared that she would not consider any man a friend, who needlessly set foot upon a worm, and her spirit was a right one. To get rid of flies is not a needless act, but it can surely be accomplished without organizing bands of fly-swatting children.

There should be no flies. The right way to avoid the nuisance and the danger is to prevent, instead of putting an end to their insistence. Cleanliness, most scrupulous cleanliness, is what is required. Swat the fly breeding grounds.

HYDRO ELECTRIC POWER

Hydro-Electric power is in demand and new territory is being entered by the commission in response to demands of the people. Its latest sphere of influence is in the north, and towns on the Georgian Bay and Lake Simcoe, and between these waters, have received estimates and will vote upon by-laws.

It is becoming more important, especially looking to the future, that Peterborough should have municipally owned power. There does not seem to be any prospect of the city purchasing a power development or a power privilege. These have been secured to such an extent by the companies controlled by the Electric Power Company of Toronto, that practically the only one that could be purchased is the Dickson Company's power property at Lakefield and as the city and company could not come to terms last year, it is not probable that they would do so now. There is the one alternative left, which the ratepayers decided in January to adopt, of obtaining power through the Ontario Hydro-Electric Commission. The Commission is said to be working upon the project, and before long, will be heard from. Judging from the ability the Commission has shown in other quarters, it is to be expected that it will be able to provide power for Peterborough on terms that will enable the city to serve the people, not only with street lights, but with light and power for residential and manufacturing purposes.

The municipalities that are using hydro-electric power, are paying for their plants. When they have them paid for, out of the revenues derived from the business, they will be in a position to sell light and power at lower prices than they can do now and lower than places that continue to purchase from companies. When the municipalities pay for the plants by retiring the debentures that provided the funds used for purchasing or equipping their plants, the original will be written off and no further levies upon the light and power rates will be needed to meet them. In the case of successful company operated plants, the capital is never wiped out. If the profits should be sufficient to allow writing off of the capital, the result would be increased capitalization in the form of bonus stock or reserves, and further calls for dividend returns. Peterborough must be placed in the best position, by having municipal power so that it can pay off the cost of installation and be able to drop its light and power prices when other cities do so. And for this reason, no time should be lost, so that we shall not be behind in the race.

Of course prudence must be exercised in establishing the municipal power, as well as in its management after it is secured. But there is no reason for taking for granted that all the prudence and ability available has been monopolized by the power trust along with the power properties.

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet mailed free.* **The Wood Medicine Co.** (formerly Windsor) Toronto, Ont.

NOTE AND COMMENT

Hanover has about 7,000 miles of highways bordered with fruit trees some of which yielded revenue at the rate of $595 a mile. Are there no boys in Hanover?

The furnace has only been out a few days, and the citizen is already worried to know how he can purchase next winter's supply of coal before there is another advance in price.

It is said that the new bank act will provide that soiled bank notes will not be re-issued, and that the day of the dirty dollar is about past. People, however, will still strive as ever for filthy lucre.

The introduction of a motion in the German Reichstag to end duelling in the army is evidence of one point in which Germany is away behind other civilized nations, however advanced that country may be in other ways. Duelling has nothing to commend it.

A checker champion tells the Belleville Ontario there is a strong similarity between the game of checkers and war. We had not noticed that the game of checkers was like Rugby football, but Rugby is like war, and the game of checkers is like war, therefore Rugby and checkers are like each other.

Some Liberal papers do not try to explain away or apologize President Taft's "adjunct" correspondence. The Brantford Expositor says: "It's a dirty bird that fouls its own nest. If Mr. Taft was the creator of the reciprocity proposals he can hardly find satisfaction in reflecting upon the fact that by his own injudicious conduct he has made any such measure an impossibility for generations to come."

London is following Toronto in trying to secure a "federal square," upon which will be located the government and civic buildings, thus forming a show place of public buildings. The Central Park, with the Armories, the Collegiate Institute, the Public Library and two handsome churches facing it, partakes of this character, and if the aforetime proposal to have a city hall erected on George street south of the Library could be carried out it would round it out.

What is Canada? Wood pulp and paper from the Dominion are admitted free into the United States under the only provision of the reciprocity arrangement that survived the deluge, and other nations that have most favored nation trade treaties with the States demand similar treatment. Their demand is denied on the ground that Canada is not a "nation, state or country" within the meaning of the treaties, and the question is to be settled by the United States Court of Customs appeal.

$100 REWARD $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENNEY & CO., Toledo, Ohio.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

Permanent boards of arbitration or conciliation for the adjustment of labor disputes are proposed by the Hon. T. W. Crothers, Minister of Labor, to be located in the different industrial centres of the country.

WIFE'S HEALTH RESTORED

Husband Declared Lydia E. Pinkham's Vegetable Compound Would Restore Her Health, And It Did.

Ashland, Ky.—"Four years ago I seemed to have everything the matter with me. I had female and kidney trouble and was so bad off I could hardly rest day or night. I doctored with all the best doctors in town and took many kinds of medicine but nothing did any good until I tried your wonderful remedy, Lydia E. Pinkham's Vegetable Compound. My husband said it would restore my health and it has."—Mrs. MAY WYATT, Ashland, Ky.

There are probably hundreds of thousands of women in the United States who have been benefitted by this famous old remedy, which was produced from roots and herbs over thirty years ago by a woman to relieve woman's suffering.

Read What Another Woman says:

Camden, N. J.—"I had female trouble and a serious displacement and was tired and discouraged and unable to do my work. My doctors told me I never could be cured without an operation, but thanks to Lydia E. Pinkham's Vegetable Compound I am cured of that affliction and have recommended it to more than one of my friends with the best results."—Mrs. ELLA JOHNSTON, 324 Vine St.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Eggs—Fresh, 23c to 23½c.

Eggs—No. 2 stock, 18c to 20c.

Potatoes—Per bag, car lots, $1.75.

CATTLE MARKETS.

Union Stock Yards.

TORONTO, May 13.—Receipts of live stock at the Union Stock Yards were 159 cars, comprising 3137 cattle, 608 hogs, 155 sheep, 83 calves and 39 horses.

Exporters

Geo. Rowntree bought for S. & S. Company 138 export steers, 1265 lbs. each, at $7.62, average price, and 45 export bulls, 1800 lbs. each at $6.40.

Butchers.

Steers of export weights, $7.10 to $7.35; good butchers, $6.85 to $7.10; medium butchers, $6.50 to $6.75; common, $6 to $6.50; inferior, $5.25 to $5.90; cows, $4 to $6.50; bulls, $4.50 to $6.50.

Stockers and Feeders

One load, 900 lbs. each, was reported at $6.15.

Milkers and Springers

Only a limited number on sale, all of which were bought by Fred Rowntree at $40 to $60.

Veal Calves.

Prices for veal calves ranged from $5 to $8 per cwt.

Sheep and Lambs.

Sheep, ewes, sold at from $6 to $7.25; rams, $5 to $5.75; spring lambs at $6 to $7.50 each.

Hogs.

Prices for hogs were unchanged, at $8.85 for selects, fed and watered, and $8.50 to $8.60 f.o.b. cars at country points.

Montreal Live Stock.

MONTREAL, May 13.—At the Montreal Stock Yards, West End Market, the receipts of live stock for the week ending May 11 were 1450 cattle, 250 sheep and lambs, 2250 hogs and 1700 calves. The supply for sale on the market this morning consisted of 400 cattle, 75 sheep and lambs, 1050 hogs and 250 calves.

A feature of the trade was the stronger feeling which developed in the market for cattle and prices scored a further advance of 25c per cwt., which was due to the very small run, the increasing scarcity of good finished stock thruout the country and the fact that drovers have been compelled to pay higher prices on account of the keen competition for stock between them and American buyers, as prices in the Chicago market are much higher than in the Canadian markets, owing to the scarcity of supplies. The steady advance in prices of late here and in the Toronto market has forced packers to mark up dressed beef ½c per lb., and the prospects are that they will go still higher in the near future, unless supplies of cattle increase. At the above advance noted the trade was fair, but the demand from butchers was principally for small lots to fill actual wants. A few full loads of good to choice steers changed hands at $7.50 to $7.75 per cwt.

The easier feeling which developed in the market for hogs a week ago has continued to prevail and in consequence prices were lowered again to-day 5c to 15c per cwt.

The market for sheep and lambs is strong on account of limited supplies coming forward, for which the demand was good, and sales of mixed lots were made at $6 each. The demand for calves is very good on account of the high prices ruling for beef and all the stock offered met with a steady sale.

Butchers' cattle, choice, $7.75 to $8 per cwt.; medium, $6 to $7; common, $5 to $5.50; choice cows, $6.50 to $6.75; medium, $6 to $6.25; bulls, $5.75 to $6.75; milkers, choice, each, $80 to $90; common and medium, each, $65 to $75; springers, $50 to $60.

Sheep—Ewes, $6 to $6.50; bucks and culls, $5 to $5.50; lambs, $7.25 to $7.50.

Hogs, f.o.b., $9.25 to $9.60.

Calves, $1.50 to $8.

East Buffalo Cattle Market.

EAST BUFFALO, May 13.—Cattle—Receipts, 3700 head; active and 15c to 25c higher. Prime steers, $8.50 to $8.80; shipping, $7.75 to $8.40; butchers, $7.50 to $8.25; heifers, $5.56 to $7.75; cows, $2.75 to $7; bulls, $4 to $7; stockers and feeders, $4.75 to $6; stock heifers, $4.50 to $5; fresh cows, and springers, active and strong, $30 to $73.

Hogs—Receipts, 15,200 head; fairly active and steady to 5c lower. Heavy, $8.15 to $8.20; mixed, $8.05 to $8.10; yorkers, $7.40 to $8.05; pigs, $7 to $7.25; roughs, $7 to $7.15; stags, $5 to $6; dairies, $7.75 to $8.

Sheep and Lambs—Receipts, 14,200 head; sheep, slow and steady; lambs, active and 25c higher; yearlings, 50c higher; lambs, $4 to $9.50; yearlings, $7.50 to $8; wethers, $6.75 to $7; ewes, $5.75 to $6.25; sheep, mixed, $2 to $6.50.

The Young Member.

Grantley Berkeley in his "Recollections" notes one of the shortest Parliamentary speeches on record. It was in the British House of Commons. Leonard Charlton tried to make a maiden speech, and, rising in his place with a very bald head, known, too, as he was to everybody as one of the oldest stagers in all the ways of the world, he began with great affectation of inexperience and with an exceedingly mild voice: "Mr. Speaker, I am but a young member." On hearing this assertion from so crafty a man, possessing so venerable a pate, the entire House roared with laughter. Twice he stopped, and three times he commenced with these words, but it was useless. The House would not listen, and he never essayed to speak again.

And Kings, Too.

Soon after Lord Sidney's elevation to the peerage he happened to observe in company that authors were often very ridiculous in the giving of titles. "That," said one of the company, "is an error from which even kings appear not to be exempt."

A Grain a Month.

Pitchblende from Cornwall is so rich in radium that Sir William Ramsay declares a grain can be produced every month.

Electric Restorer for Men

Phosphonol restores every nerve in the body to its proper tension; restores vim and vitality. Premature decay and all sexual weakness averted at once. **Phosphonol** will make you a new man. Price $3 a box, or two for $5. Mailed to any address. **The Scobell Drug Co., St. Catharines, Ont.**

DOCTORS SAID IT WAS HEART FAILURE

And Gave Me Up—But "Fruit-a-tives" Cured Me

MOORFIELD, ONT., MARCH 25th, 1910

"I suffered from severe Indigestion and Dyspepsia for nearly two years.

I could not take food without fearful distress. Two doctors thought my disease was Heart Failure and incurable, and I expected to die in a short time. My son asked me to try "Fruit-a-tives".

From the outset, I was better and gradually this fruit medicine completely cured me.

I took perhaps a dozen boxes—now I am cured and have gained over 30 pounds in weight".

HENRY SPEERS (Justice of Peace)

"Fruit-a-tives" are sold by all dealers at 50c a box, 6 for $2.50, trial size 25c—or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

Cynthia's Chauffeur

By LOUIS TRACY

Copyright by McLeod & Allen, Toronto

"Put your car out of commission. Stick a pin through the earth contact of your magneto and jam it against a cylinder, or something of the sort. Then go to Miss Vanrenen and tell her how sorry you are, but you must have another week at least to pull things straight. She will not be vexed, and I guarantee you against any possible loss. To put the best face on affairs, you had better remain in Bristol a few days at my expense. Of course, it is understood that I deputize for you during the remaider of the tour."

Simmonds, no courtier, grinned broadly, and even Dale winked at the North Star; Medenham had steeled himself against such manifestations of crude opinion—his face was impassive as that of a graven image.

"Of course I'll oblige you in that way, my lord. Who wouldn't?" came the slow reply.

CHAPTER VII.

Wherein Cynthia Takes Her Own Line

When the Mercury, shining from Dale's attentions, halted noiselessly opposite the College Green Hotel on the Saturday morning, Count Edouard Marigny was standing there; the Du Vallon was not in evidence, and its owner's attire bespoke other aims than motoring, at any rate for the hour.

Evidently he was well content with himself. A straw hat was set on the back of his head, a cigarette stuck between his lips, his hands were thrust into his trouser pockets, and his feet were spread widely apart. Taken altogether, he had the air of a man without a care in the world.

He smiled, too, in the most friendly fashion, when Medenham's eyes met his.

"I hear that Simmonds is unable to carry out his contract," he said cheerfully.

"You are mistaken, a second time monsieur," said Medenham.

"Why, then, are you here this morning?"

"I am acting for Simmonds. If anything, my car is slightly superior to his, while I may be regarded as an equally competent driver, so the contract is kept in all essentials."

Marigny still smiled. The Frenchman of mid-Victorian romance would have shelved this point by indulging in "an inimitable shrug;" but nowadays Parisians of the Count's type do not shrug—with John Bull's clothing they have adopted no small share of his stolidness.

"It is immaterial," he said. "I have sent my man to offer him my Du Vallon, and Smith will go with him to explain its humors. You, as a skilled motorist, understand that a car is of the feminine gender. Like any other charming demoiselle, it demands the exercise of tact—it yields willingly to gentle handling—"

Medenham cut short the Count's neatly turned phrases.

"Simmonds has no need to avail himself of your courtesy," he said. "As for the rest, give me your address in Paris, and when I next visit the French capital I shall be delighted to analyze these subtleties with you."

"Ah, most admirable! But the really vital question before us to-day is your address in London, Mr. Fitzroy."

Marigny dwelt on the surname as if it were a succulent oyster, and, in the undeniable surprise of the moment, Medenham was forced to believe that "Captain" Devar, formerly of Horton's Horse, had dared all by telling the confederate the truth, or some part of the truth. The two men looked squarely at each other, and Marigny did not fail to missinterpret the dubious frown on Medenham's face.

He descended a step or two, and crossed the pavement leisurely, dropping his voice so that it might not reach the ears of a porter, laden with the ladies' traveling boxes, who appeared in the doorway.

"Why should we quarrel?" he asked, with an engaging frankness well calculated to reassure a startled evildoer. "In this matter I am anxious to treat you as a gentleman. Allons, donc! Hurry off instantly, and tell Simmonds to ring the Du Vallon here. Leave me to explain everything to Miss Vanrenen. Surely you agree that she ought to be spared the unpleasantness of a wrangle—or, shall we say, an exposure? You see," he continued with a trifle more animation, and speaking in French, "the game is not worth the candle. In a few hours, at the least, you will be in the hands of the police, whereas, by reaching London to-night, you may be able to pacify the Earl of Fairholme. I can help, perhaps. I will say all that is possible, and my testimony ought to carry some weight."

Medenham was thoroughly mystified. That the Frenchman was not yet aware of his identity was now clear enough, though, with Devar's probable duplicity still running in his mind, he could not solve the puzzle presented by this vaunted half-knowledge.

Again the other attributed his perplexity to anything except its real cause.

"I am willing to befriend you," he urged emphatically. "You have acted foolishly, but not criminally, I hope. In your anxiety to help a colleague you forgot the fine distinction which the law draws between meum and tuum—"

"No," said Medenham, turning to the porter. "Put the larger box on the carrier, and strap the other on top of it—the locks outwards. Then you will find that they fit exactly."

"Don't be a headstrong idiot," muttered the Count, with a certain heat of annoyance making itself felt in his patronizing tone. "Miss Vanrenen will come out at any minute—"

Medenham glanced at the clock by the side of the speed indicator.

"Miss Vanrenen is due now unless she is being purposely detained by Mrs. Devar," he commented dryly.

"But why persist in this piece of folly?" growled Marigny, to whose reluctant consciousness the idea of failure suddenly presented itself. "You must realize by this time that I know who owns your car. A telegram from me will put the authorities on your track, your arrest will follow, and Miss Vanrenen will be subjected to the gravest inconveniences. Sacre nom d'un pipe! If you will not yield to fair means I must resort to foul. It comes to this—you either quit Bristol at once or I inform Miss Vanrenen of the trick you have played on her."

Medenham turned and picked up from the seat the pair of stout driving-gloves which had caught Smith's enquiring eye by reason of their quality and substance. He drew on the right-hand glove, and buttoned it. When he answered, he spoke with irritating slowness.

"Would it not be better for all concerned that the lady in whose behalf you profess to be so deeply moved should be permitted to continue her tour without further disturbance? You and I can meet in London, monsieur, and I shall then have much pleasure in convincing you that I am a most peaceable and law-abiding person."

"No," came the angry retort. "I have decided. I withdraw my offer to overlook your offense. At whatever cost, Miss Vanrenen must be protected until her father learns how his wishes have been disregarded by a couple of English bandits."

"Sorry," said Medenham coolly.

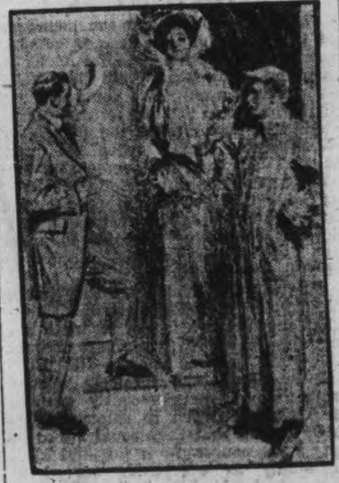
He alighted in the roadway, as the driving seat was near the curb. A glance into the vestibule of the hotel revealed Cynthia, in motor coat and veil, giving some instructions, probably with regard to letters, to a deferential hall-porter. Walking rapidly round the front of the car, he caught Marigny's shoulder with his left hand.

"If you dare to open your mouth in Miss Vanrenen's presence, other than by way of some commonplace remark, I shall forthwith smash your face to a jelly," he said.

A queer shiver ran through the Frenchman's body, but Medenham did not commit the error of imagining that his adversary was afraid. His grip on Marigny's shoulder tightened. The two were now not twelve inches apart, and the Englishman read that involuntary tension of the muscles aright, for there is a palsy of rage as of fear.

"I have some acquaintance with the savate," he said suavely. "Please take my word for it, and you will be spared an injury. A moment ago you offered to treat me like a gentleman. I reciprocate now by being willing to accept your promise to hold your tongue. Miss Vanrenen is coming........What say you?"

"I agree," said Marigny, though his dark eyes blazed redly.



"Now, you two—what are you discussing?"

"Ah, thanks!" and Medenham's left hand busied itself once more with the fastening of the glove.

"You understand, of course?" he heard, in a soft snarl.

"Perfectly. The truce ends with my departure. Meanwhile, you are acting wisely. I don't suppose I shall ever respect you so much again."

100 PERSONS CURED OF ECZEMA
Within the past few months over 100 persons have written to the Zam-Buk Co. reporting their cure of eczema, rashes and skin diseases by Zam-Buk!
Does this not prove that Zam-Buk is something different?
Don't you need it in your household?
Miss Mary McCuaig, 913 St. Catherine Street W., Montreal, says: "I do not know words powerful enough to express my gratitude to Zam-Buk. Eczema broke out on my scalp and hands. The irritation of the scalp was so bad that I could not sleep or rest, and I feared I should have to have my hair cut off. On my hands the disease appeared in sore patches, the burning and itching of which drove me many times to spells of weeping. I went to the dispensary, but they referred me to a skin specialist, who said that mine was as bad a case of eczema as he had seen. He gave me some ointment, and then a second lot, but neither gave me any relief.
"I was in a very bad condition when Zam-Buk was introduced, but I soon found out that it was different from all the other remedies. I persevered with the Zam-Buk treatment, and each box did me more and more good. The irritation and smarting soon disappeared, then the sores began to heal, fresh healthy skin grew over the parts which had been sore, and I am now quite free from all traces of eczema, both on head and hands. My hair has also been saved."
Zam-Buk is also a sure cure for piles, eruptions, blood-poison, cuts, burns and all skin injuries. 50c. all druggists and stores, or Zam-Buk Co., Toronto, for price. Refuse substitutes.
ZAM-BUK

FAR APART.

Wise Heads Disagree Concerning Life on the Planets.

No less far apart than the millions of miles separating our two nearest plants, Venus and Mars, are the opinions of scientific men concerning the possibility of there being anything like human inhabitants on those heavenly bodies. Some affirm while others deny that these planets can support life like ours; and the world of mankind looks on and grins, caring not a rap which faction is right. If either place were available for Sunday excursions there would be far more interest displayed in the question, but the airships come to grief instead of port when headed for such far places, so there is little likelihood of common men bothering their heads any more about the scrap than they would if it were so many newsboys engaged in a scuffle over the respective fighting merits of two yellow pups. And yet, the controversy has its points of interests for certain ones. The fight may be far above our heads, like that of eagles in the clouds, but as the feathers come floating down one can not resist a glance upward now and then to see how the conflict is progressing. Just now there are more feathers in sight.

Prof. E. Walter Maunder, of England, declares that Mars is uninhabited. He says the temperature on that planet often approaches absolute zero, which would make life there impossible, of course. Oddly enough, he believes Venus may be inhabited. It receives about twice as much of the sun's heat as the earth, but he believes the envelope of vapor around it may keep the temperature down as low as is that of this planet of ours. To properly understand this it should be recalled that Venus is only 67,000,000 miles from the sun, while the earth is 92,000,000 and Mars is 141,000,000 miles away from that central luminary.

Dr. F. S. Archenhold, professor of astronomy at the University of Treptow-Sternwarte and author of numerous books about the planets, as well as builder of the largest telescope in the world, boldly announces his belief that Mars is inhabited. He is not the only one so believing and by the same token neither is Prof. Maunder alone in his opposition. No wonder the feathers fly.

Misnamed.

An old lady was going over the London zoo, and after some time she went up to a keeper and tapped him on the shoulder with her umbrella.

"Well, mum?" said the keeper.

"I want to ask you," explained the old lady, "which of the animals in the zoo you consider the most remarkable."

STEVENSON'S CHRISTMAS SERMON

To be honest, to be kind; to earn a little and to spend a little less; to make upon the whole a family happier for his presence; to renounce when that shall be necessary and not be embittered; to keep a few friends but these without capitulation — above all, on the same grim condition, to keep friends with himself —here is a task for all that a man has of fortitude and delicacy. He has an ambitious soul who would ask more; he has a hopeful spirit who should look in such an enterprise to be successful. There is indeed one element in human destiny that not blindness itself can controvert: whatever else we are intended to do, we are not intended to succeed; failure is the fate allotted. It is so in every art and study; it is so above all in the continent art of living well. Here is a pleasant thought for the year's end or for the end of life; only self-deception will be satisfied, and there need be — despair for the despairer

MY LADY'S COLUMN.

HEALTH AND BEAUTY

Clean Healthy Hair is Woman's Crown of Glory, and Can be Easily Kept Just So.

One of the reasons why the yolks of eggs are good for shampooing the hair is that they contain sulphur and ammonia; another reason is that they are also emollient. Hair which has been cleansed with an egg shampoo invariably looks full of lustre and brightness, and is soft and silky to the touch after the drying process is complete; but, in order that these results may appear, thorough rinsing is essential, as, if any of the egg preparation remains in the hair, it will be unpleasantly sticky and greasy afterwards. One of the secrets of successful head-washing, in fact, is that, whatever medium be employed for cleansing purposes, the rinsing in pure clean water afterwards should be carefully carried out.

Another secret which is well worth knowing is that pure rain or distilled water is an ideal hair cleanser. Washing the hair in very hard water is seldom successful. In the country rain-water is easily obtainable, and, if not perfectly clean, can be filtered before using. In towns it is more difficult to get but automatic domestic stills are now so frequently employed that where one of these is in use a plentiful supply of soft water can always be obtained.

PRETTY AND GRACEFUL

The girl who can effectively wear her hair in a low knot at the back of her head is fortunate this season. This is one of the prevailing fashions, and it is as pretty as it is graceful. For this style the hair is parted and drawn over the ears.

The knot may be a single large one in the nape of the neck, two on either side of the nape, or a trio. If done in the latter then one knot must be close after the other.

For the Traveller

The traveller who is fastidious about the boiling of her eggs should invest in one of the egg-shaped boilers of copper, small enough to pack in a trunk. It will cook four eggs.

This lamp is like a huge egg, has an alcohol lamp beneath and a tray with four compartments to hold the eggs erect in the water and make removal easy.

For the girl in an apartment who likes to do light housekeeping such a cooker could be utilized for making cup custards and other dishes cooked in water.

Coffee Recipe

Roast the beans before putting them into coffee grinder, each time fresh. Pack ground coffee tight on top of french coffee pot, and put in one spoonful of water at a time, so that it will drip very slowly. Be sure the water is boiling. Pour it over several times and allow one hour to make good coffee. Never left it stand after it is made.

Hot milk should almost come to a boil, cooking slowly but should not be allowed to stand. Use rich milk for coffee. Never buy ground coffee —or keep your coffee uncovered.

CONCERNING YOUR EYES

Good eyesight is essential to health comfort and appearance. Have you ever noticed a strained look on your face, or your friend's? Usually this comes from eyestrain. More wrinkles are caused by eyestrain than by age. Thousands unconsciously squint in an effort to adapt the eyes to the surroundings. Success in releaving eyestrain depends entirely upon the OPTICAL SKILL of the Specialist who prescribes the glasses. Neglect of the eyes many times leads to surgical operations, which glasses worn in time may prevent. We correct errors of vision by means of properly fitted lenses.

We have every modern appliance for accurate ey sight testing, and we grind all our own lenses. Thus assuring you accuracy and promptness. All work guaranteed.

ELLIOT'S STORE IMPROVEMENTS

Elliot's store has been remodelled and almost entirely rearranged. The old windows have been taken out and replaced with the modern windows with prismatic glasses, thus making the interior of the store almost as light as the street. The inside of the windows have been greatly enlarged. New double acting glass doors have replaced the old doors. One of the stairways at the back has been taken down and the space used for a new wool section. Overlooking this section is a large window and electric light, thus making it very easy to match shades.

Additional shelving has been put in on the main floor at the south side

On the second floor, owing to the north stairway having been taken down, Miss Noble's millinery work room has been doubled in size, giving plenty of scope for her increasing business.

The large room on the same flat as the millinery [illegible] has been made into a whitewear and corset room. At the rear of this room is the ladies' lavatory and dressing rooms. These rooms have all been repapered and painted.

On the third floor, which extends over the whole store, great changes have been made. Here there is a great number of wax figures, so lifelike that you would think they were alive. They certainly show the dresses very satisfactorily, if one may judge from the remarks the animated crowd of ladies were making regarding them.

This room has also been re-papered and painted and rearranged for the convenience of customers.

MILLINERY

Our latest shipment of highgrade Millinery for summer wear has arrived and is now ready for your inspection at the Peterborough Millinery Parlors. Mrs. W. B. ARMSTRONG, 435 George St. Upstairs in old T. A.S Rooms.

TENNIS MEETING

There will be a meeting of the members of the Nicholls Oval Tennis Club in the Y.M.C.A. parlors on Tuesday evening, May 14th, at half past seven o'clock sharp. A full attendance is requested of all the members.

The Peterborough Fair

Will the ladies of Peterborough who have been contributing needle and fancy work to the Spring booth in the Peterborough Summer Fair, to be held in the armories, May 27, leave their donations as soon as possible, and before the middle of May, at the residence of Mrs. R. H. Leary, 162 McDonnel street, or Mrs. F. C. Neild, Charlotte and Rubidge streets. Kindly mark with donor's name and cost of article. Signed:

Mrs. F. D. Cruikshanks,
Miss F. M. Burnham.

George St. S. S.

All those connected with George st. Sunday school, who wish to attend the Sunday school convention at Lakefield, are requested to meet at the church Wednesday evening. The first bus will leave at 6.15 and the second, not later than 6.30.

Daughters of the Empire

The Imperial Daughters of the Empire will hold their meeting on Thursday, May 16th, at the recreation rooms of the armories, at 3.30 p.m. The feature of the meeting will be an address by Mr. F. D. Kerr, on "Champlain."

HARRY ADAMS

MINISTER OF MILITIA TO OPEN FAIR

The Peterborough Summer Fair promises to be a grand occasion, and the latest announcement in this connection is that Col. the Honorable Sam Hughes, Minister of Militia for Canada, will be present to open the fair.

WANT THE CANOE SLIDE AT LOCKS IMPROVED

A petition now in the course of circulation, and which already has a large number of signatures, will be forwarded to the Minister of Public Works at Ottawa asking that the canal slide at the Peterborough Locks be repaired and improved, that dangerous and damaging elements at present attached to the slide will be eliminated. It is difficult and dangerous work for canoeists travelling either direction at this point, and a remedy will give general satisfaction.

JANITOR WANTED

Applications will be received up to Wednesday, May 15th at 6 o'clock p.m., for the position of janitor of the new Baptist church, Murray-st. Apply, stating salary, etc, to GEO. COCHRANE, Chairman Board of Trustees 765 George st.

DO NOT RIDE ON THE SIDEWALK

A young man appeared in police court this morning charged with riding on the sidewalk. He pleaded guilty and was fined $2 and costs, amounting to $4.60. Another transgressor was also asked for a contribution.

WATERING TROUGH TO BE REMOVED

The Water Commissioners met last evening, when general business was transacted.

It was decided to remove the watering trough in front of the Greene Music Company. Some accounts were passed.

POINTERS FOR JUNE BRIDES AT R. HALL & SONS

The prospective June bride can gather many valuable suggestions regarding correct wearing apparel, by a study of the elaborate and daintily adorned display windows of Richard Hall & Sons departmental store. Mr. J. McNabb has formulated a very pleasing and attractive arrangement calculated to reveal the very latest in gowns and accessories for the bride to be in June. The background consists of four pegolas, from each of which are suspended lighted globes hung with massive trimmings. In the centre are two more similarly adorned. In the evening, the illumination heightens the clever effect presented even in the day light.

In front of the pegola is the figure of a bride, gowned in white satin and white marquisette, with the customary veil, caught with orange blossoms. On a table adjacent are the very latest designs in writing stationery, and all accessories naturally associated with the bride. The window is being much admired.

ST. JOHN'S BOYS WERE ENTERTAINED

The boys of the St. John's Church Guild were entertained last night in the Sunday school room of the church, by the members of the Girls' Guild.

A number of musical items made up the greater part of the program, and the young people thoroughly enjoyed the solo by Mr. A. Flowers, "Out on the Deep" and the Scotch solos. Mr. Cluxton gave an amusing recitation from one of Drummond's poems, and a very pleasant evening was concluded by dainty refreshments served by the young ladies.

NEW OFFICE

The vacant office in the J. M. Greene Music building, on the east side, has been rented by Mr. A. M. Dingman, sales agent for the Port McNicholl Development Company, whose office was formerly in the Bank of Commerce building. The new office is very roomy and will be partitioned off into a waiting room, a stenographer's office, and a private office. Men are engaged at present with the alterations and in lettering the windows.

Retrospective Luncheon

The Willing Workers of Murray st. Baptist church, will serve luncheon at 7.30 Friday evening, May 17, after which, a program suitable to the occasion will be given. This will consist of addresses by Rev. C. G. Smith, and several local gentlemen and several good musical numbers. Admission 25 cents.

ANNIVERSARY AT PARK ST. CONCLUDED

A large number faced the inclement weather last night, and attended the platform meeting in connection with the 17th anniversary of the Park street Baptist church.

The pastor, Rev. W. C. Riddeford, occupied the chair, and conducted the devotional exercises. In his opening remarks the pastor thanked the church and its officers for their faithfulness in the past year, and said that the coming year was to be the banner year of the church's history in more ways than one.

Miss Ethel Hill, Miss Pearl Brock and Mr John Miller favored the assembly with musical selections, which were rendered in a very able manner, and were very much appreciated by all.

The Rev. H. J. Keith, on behalf of Knox church conveyed the hearty congratulations of his church to the Park street church, and wished them every success in the future.

Mr. Patrick Morgan then gave to the audience in a quiet modest manner the story of his conversion and the program of his life work in the future. He believed God had a purpose in bringing him to this country and after his trip on the continent he intended to settle down, by God's help, to a life of better usefulness to the Dominion. The pastor on behalf of the church thanked Mr. Morgan and all who assisted to make the anniversary a success. To-night Mr. Morgan will address a meeting at the Gilmour Memorial church.

PRESIDENT OF S. O. E. GOES TO VANCOUVER

Mr. Fred Smith, Lafayette avenue, left yesterday en route for Vancouver where he has accepted a situation. Mr. Smith who has been an employe of the Canadian General Electric Works for the past seven years, leaves behind him a host of friends who wish him every success and prosperity in his new field.

Mr. Smith has been president of the Lansdowne Lodge of the Sons of England, and the society feels that it has lost one of its best and loyalest members in Bro. Fred Smith. However, Peterborough's loss will be Vancouver's gain and the sterling qualities that gained for him the esteem and respect not only of the members of the Lodge, but of all who knew him, will win a place for him in any lodge room in the Dominion. The members wish him God speed.

SIMCOE STREET GATEMEN GOING TO THE WEST

Mr. Davidson, gatekeeper at Simcoe street railway crossing, for the last ten years leaves to-night for Calgary where he will reside with his children. Mr. John McGinnity, of Omemee, who has been employed by the G.T.R. as trackman for the past thirty-five years will succeed Mr. Davidson.

Mr. Davidson has a large number of friends in Peterborough who will join in wishing him every success in his new home.

CHILDREN'S FESTIVAL

Given by chorus and orchestra of 150 little people, introducing Mother Goose and her children, Teddy Bears, vocal, violin, cello, clarionette, cornet and piano solos. Conservatory of Music Hall, Friday evening May 17, at 8 o'clock; Saturday afternoon, May 18, at 3 o'clock. Admission, adults 25c, children, 2 for 25c. Under direction of Miss Dean, Miss Choate and Mr. Gliddon

The Peterborough Light & Power Company's showroom will be open on Tuesday, Thursday & Saturday evenings during May and June from 8 to 10 p.m., for the convenience of those wishing to secure gas appliances, or to arrange for gas connections. 5d

RESIDENCES CHANGE HANDS

Mr. Bruce Patterson has disposed of a splendid new residence at [illegible] King street to Mr. Gerald Young, of Young's Point, who was recently married, and who intends to reside in Peterborough.

Mr. Walter Evans of Pearl Ave. has also sold his house to Mr. John Duncan, of the Canadian General Electric Works. It is understood that good returns were realized on both sales.

Scottish Barber

A new barber has arrived in Peterborough, almost direct from Bonnie Scotland. The new comer is Mr. John Smith, hailing from Larbert, Scotland. He conducted a tonsorial and hair dressing establishment for many years in his home town, and is a first class man in his trade. He retains considerable of the Scottish accent in speaking.

George Ingleby of Oakville, is seeking a divorce. His wife is in New York.

Store Opens 8.15 **The CRESSMAN Company Limited** Store Closes 5.45

Annex Closes 5.30

No More Cheap Meals.

Not much longer are the members of the House of Commons to remain in enjoyment of the cheapest meals in England. For some years they have been eating twenty-five cents dinners that would cost the less fortunate millions who never enter the portals of Westminster almost twice the sum. Now it has been discovered that the refreshment department of the House of Commons has been dropping money at the rate of $17,000 a year and a new kitchen committee proposes to jump the price of the members' dinners to thirty or thirty-five cents.

Just why the members of Parliament should be so advantageously placed that they are able to eat in what has become known as "the finest club in the world" no one knows. But when the members, who formerly worked without pay, were recently granted $2,000 a year each in salary, everybody agreed that they could afford to pay a few pennies more for their food, especially as everything served at Westminster is of the best quality and the service is the same as is found in the most fashionable London restaurants. An enormous business is done, and during a session, from February to November, more than 185,000 meals are served. The restaurant enjoys a state subsidy of $10,000.

Rulers' Peculiar Homes.

The craze for peculiar homes has never been apparent in the character of a king or queen of England, but in other countries reigning monarchs have fallen to the fancy. For instance, a native prince of Java has cooled his palace by making a stream fall in a cascade over the gateway.

The Czar Paul constructed a room formed entirely of enormous mirrors, where he spent hours walking to and fro in full uniform—a peculiar taste, seeing that he was one of the ugliest of rulers. One Russian empress built a palace of ice and when a courtier offended her he was condemned to spend a night in the chilly silence of the chamber of state, where he was almost frozen to death.—London Answers.

Coal Mining With Canary Birds.

One of the most effective instruments of rescue work in case of mine accident is a canary bird. After an explosion, it seems, there is likely to be carbon monoxide in the air. This gas is not perceptible to any of the senses. All the victim knows is that suddenly his senses give way and he falls. A canary bird, as it happens, is much more quickly affected by the fumes than a man is. So a rescuer going into a mine in which an accident has hapened may feel safe in proceeding just so long as the canary bird he carries with him sits upright on its perch.—World's Work.

London, Ont., is asking the Government to provide a federal square for the Government offices there.

E. C. Bowker of Edmonton becomes manager of the Dominion Bank branch at London, while C. A. Ross goes to Hamilton.

WHO'S COMING AND GOING

Mr. G. R. Gilbert of Calgary, Alta., is in the city to-day.

Mr. J. Cohan of Montreal, is in the city to-day on business.

Mr. Walter Metheral is improving at the Nicholl's hospital.

Dr. Cameron has returned to the city and resumed his practice.

Mr. G. T. Martin, Smith Falls is transacting business in the city to-day.

Mr. C. Moffat who has been in Mexico for the last two years is visiting at his home in the city.

Mr. George Roth has left the city for a trip of several weeks to Saskatoon and Kerrobert.

Invitations are out to an At Home by the Marlborough Club on the evening of Monday, May 20.

Miss Eilleen Eyres of Calgary, arrived in town Monday and will be with Mrs. Eyres, 168 Antrim street, till Friday morning.

Rev. Patrick Morgan, who came to Peterboro for the anniversary of Park Street Baptist church, is to leave shortly on a continental trip, of several months.

The many friends of Mr. Allan Harper of Montreal, who was recently connected with the local Grand Trunk ticket office, will be pleased to learn that he is recovering satisfactorily from an attack of typhoid fever. He is confined to the hospital yet, but is expected to be out shortly.

Mr. and Mrs. H. D. Burnett, who for the past few years have resided at the corner of Park and Charlotte streets, have removed to the residence recently vacated by D. W. Dumble. It is understood that Mr. and Mrs. Burnetts' reason for removing was that Mr. S. T. Medd has purchased the aforesaid property from Mr. C. H. Clementi.

You can make richer, more fragrant, more delicious tea if you use "SALADA" One teaspoonful makes two cups. Use absolutely boiling water

The Peterborough Light & Power Company's w-room will be open on Tuesday, Thursday & Saturday evenings during May and June from 8 to 10 p.m., for the convenience of those wishing to secure gas appliances, or to arrange for gas connections. 5d

MODERN PORTIA SUCCESSFUL IN PLEA FOR SUSIE HALL

The following is from the New York Sun:

A modern Portia appeared before the Board of Review of the National Trotting Association yesterday in the person of Mrs. W. J. Whittom, of, Peterborough, Ont., and caused that August body to reverse its thrice made decision and upset the precedent set by twenty years of trotting legislation. Mr. Whittom, who is a wealthy mining man, races for diversion only, and in March, 1911, he bought the pacer, Susie Hall, 2.12 1-4, from a man in Waterloo, N.Y. He heard that the mare had been suspended, but the man who sold her said she had been reinstated in December, 1910. When he entered the mare in Canada his friends told him that the right name of his pacer was Lady of the Lake, and that she had been expelled in 1910. Mr. Whittom appeared at the December meeting of the Board of Review and his application for the reinstatement of Susie Hall was denied.

This brings the history of the case up to the semi-annual meeting of the board, which began at the Murray Hill Hotel on Tuesday, and ended yesterday. The owner of Susie Hall made another application for her reinstatement on Tuesday morning, and when this was denied followed it up with another appeal to the board in the afternoon. Again his arguments failed to impress those sitting in judgment

Bright and early yesterday Mrs. Whittom, a fascinating young woman, presented her brief in the case. She appeared before the board, and with no argument but a winning smile pleaded the cause of Susie Hall. Addressing each member of the board in turn, Mrs. Whitton said: "You will let her race again, won't you?" Every man said that it would depend on the others, but when the decision was handed down Susie Hall had a clean bill of health after Mr. Whitton had paid the $50 fee for recording change of name and $55 unlawful winnings of the mare.

REV. E. A. PEARSON TAKES STRONG STAND AGAINST SUNDAY BALL

Hamilton, May 14.—During the course of a sermon relating to Mothers' Day, Rev. E. A. Pearson, speaking from his pulpit in Wesley Methodist church Sunday morning, took a strong stand against Sunday baseball in Canada, and declared it was not in keeping with the spirit of Canadian sport that such an innovation should be practiced. Mr. Pearson stated that he had always taken a deep interest in baseball, and had enjoyed it greatly. He deprecated the fact that the law of Quebec allowed Sunday baseball, and said that Ontario's better laws were what prevented it in this province. He did not think Sunday baseball in Hull would profit the teams any place on the Canadian League circuit.

The service was a strikingly Mothers' day celebration. Old ladies and men who took an active interest in the church years ago were brought to the service in automobiles and conveyed home by the same means. Nearly every one present, and the church was well filled, wore a white flower in memory or in honor of his or her mother.

IS SAID TO HAVE LEFT HIS WIFE AND CHILDREN HERE TO RUN AWAY WITH HAMILTON GIRL

Hamilton, May 14—William Dixon, 25 years old, formerly of this city, has been arrested in Detroit, but has yet no charge has been laid against him. It is alleged that he left the city for Detroit about January 22, and that two weeks later he managed to coax Florence Gee, a 19 year-old girl, who resided on Wilson st., to follow him. Later he is said to have deserted the girl there. Her aunt heard that she was alone, and finally traced her to a cheap boarding house. With the aid of the police Mrs. Gee had her niece taken to the Florence Strittendom home until the case of Dixon can be looked into.

At present he is being held by the Detroit police pending their investigation. He left a wife and two children in Peterborough, but Mrs. Dixon said she would not prosecute her husband, nor would she have anything more to do with him. When spoken to to-day, the girl's mother said she would not prosecute Dixon if she could only get her girl back.

SOLD MEAT UNDER AGE LIMIT AND WAS FINED $10

The first conviction under the amendment to the act governing the sale of meat of cattle under four weeks old, was recorded at police court this morning, when a man named Gilbert Thompson, a wholesale dealer, was relieved of the minimum fine of $10 for the offence. The information in the case was laid by Sanitary Inspector Spence, who detected the illegal meat on the market Saturday morning by its small and unhealthy appearance. The owner stated that he had been in the habit of selling meat under the age of four weeks for some time past. The prosecution shows that the Sanitary Inspector is active and alive to his business.

WILLIAMS SENTENCED

Toronto, May 14.—Leonard Williams, real estate agent, was convicted by Magistrate Denison yesterday with the theft of $590 from Thomas B. McNair, an aged invalid, who put trust in him, and sentenced to two and a half years in the penitentiary. Williams said in appeal to the magistrate that he wished he had never left his trade as a carpenter to go into real estate transactions. The Crown Attorney characterized the theft as one of the meanest Magistrate Denison has tried for some time. Williams was the man who jumped his bail a short time ago while awaiting trial.

Williams is the man reported to have swindled McNair, said to be a resident of Peterborough.

Delegates at the Falls.

Niagara Falls, Ont., May 14.—The Brotherhood Federation were entertained by the city yesterday, after a stormy voyage across the lake from Toronto, at a civic luncheon. Visit to the power houses and a trip around the scenic belt line constituted the program. They went from here to Hamilton.

Keep Windows Open.

Don't sleep in a closed room.

Fresh air is the basis requisite to good health. A sealed chamber is a breeding place of disease.

The lungs utilize the oxygen they breathe and expel their impurities in your exhalations.

Within an hour a man consumes all the oxygen in the average room. If the windows and transoms are down and the door is shut thereafter he breathes foul poisons.

Rural communities should, by reason of natural advantages, be practically immune from the "white plague," but statistics show a greater percentage of consumptives among farmers than any other class of people.

Who isn't familiar with the deadly parlor, with its stale atmosphere, where for days at a stretch whole generations of malignant germs are permitted to incubate undisturbed. A week often passes without the admission of sunlight. As well spend an afternoon in a smoke filled tunnel as remain in such a pesthole.

Open the windows even in the rain—far better to spoil a few trumpery lace curtains and spot the carpet than jeopardize your health.

Never exaggerate your faults; your friends will attend to that.

TELLING TALES ON THE NEW STREET CARS

People Who do Not Follow the Rules, Alone Suffer.

The new P.A.Y.E. street cars have got the folks guessing. Funny in the extreme have been some of the experiences with them. Having the entrance on one side only seems to be the fly in the honey.

One old lady the other day could not understand it at all. She waited at a crossing for a car, on the wrong side of course. When it rolled up, a blank wall apparently confronted her. Her amazement was amusing. What kind of thing is this was plainly written upon her face. Indeed she was turning disgustedly away, when she was noticed by the conductor, who pantomined her in the direction of the right door and she was safely taken aboard.

The women folks seem to be slowest to adapt themselves to the new cars. The conductors are busy men but they are very patient and direct the ladies in what to do as much as possible. One elderly woman was transfering from Jackson Park to George street north last night. She waited on the wrong side, hence the car almost got away without her. She was forced to gather up her skirts and eventually reached the car with hat askew, and in no pleasant temper.

The new street cars are gradually impressing upon the travellers, the necessity of taking the car that is going in the right direction. Yesterday afternoon, in the pouring rain, one lady,—it semms that the new cars worry the gentle sex—took a north bound car, intending to transfer at Central Park and go south. Now the P.A.Y.E. cars have doors only on the right side, and as the cars passed each other on that side, the unfortunate victim of the new system was forced to walk in the deepest of mud across the front of the car, then the whole length of the other, in the soaking rain before she could enter the car that would take her to her ultimate destination. It may be imagined that her dignity, her temper and her raiment were somewhat ruffled.

The conductors at all times obliging and polite have their share of the troubles. On Saturday, about six o'clock a man entered the car laden with parcels. He did not know that you must pay your fare at the door, and upon being informed that such was the case, his astonishment and confusion were laughable to all but himself. There were a number of people following him who stood patiently waiting till he had bestowed his parcels on the floor and pulled out a dollar bill requesting change. At the sight of further delay a few of those waiting entered the "exit" door all unknown to the conductor.

On one car the conductor noticed that some people had escaped his vigilence in this manner. He at once took up the collecting box and entered the car to extract the usual nickel. To further complicate matters, while he was collecting fares on the inside, the car stopped at a corner and a number of people entered. The conductor was forced to abandon his pursuit of gold on the interior and rush back to the door where he had his hands full to explain the P.A.Y.E. system to the new comers, who had unconsciously given certain parties in the car a free trip.

To those who have learned well the rules governing the new cars, the system is superior to that of the former one, and all things considered the street railway company made a move in the right direction.

SITUATION UNCHANGED

No Concessions Made in Moulders Strike Grievance by Employers

The moulders' strike situation in Peterborough remains unchanged. No further developments have occurred, nor any concessions made by either the moulders or employers.

The different foundry directors have assumed the attitude of refusing to recognize the claims of the moulders, and the men are discussing the advisability of taking some definite measures to insure a better treatment of their claims.

G.T.R. FIREMEN AFTER INCREASE IN THEIR WAGES

All over the system the Grand Trunk firemen are, through a large deputation which is being sent to Montreal this week, asking for a twenty per cent. increase in wages. There is no local representative on the deputation, but it will include one from Lindsay. The ten to fifteen per cent. raise recently given to the engineers has prompted their request for a raise in pay.

The freight hands and checkers in Toronto have been given a raise, so that the local freight shed men are hopeful that their request, which has been put off for some time, will be acceded to.

WEDDING ANNOUNCEMENT

Mrs. J. G. Belcher, Collingwood, an[illegible] the engagement of her daughter, Alison Elizabeth, to Mr. Alfred Allan Smith of Peterboro. The marriage will take place on the 6th of June.

Mr. and Mrs. John Owen Hughes nounce the engagement of their daughter, Dorothy Beatrix, to Mr. Alexander George Hall, son of Mr. and Mrs. W. A. Hall, Peterboro. The marriage will take place quietly at the end of this month.

TWO TROOPS OF BOY SCOUTS FOR KNOX CHURCH

Interest was centred in various motions which were adopted for the welfare of the Brotherhood of Andrew and Philip at the special meeting last night in Knox church.

It was moved and adopted that Mr. Andrew McKenzie arrange for the charter of the steamer Empress for a trip down the river on the 8th of June.

The visitation of members, rambles and picnics in connection with the Young People of the church was discussed. The principal motion called for the formation of two troops of boy scouts.

The members present were enthusiastic in the idea, and on motion Mr. James Milloy was appointed scoutmaster, with Messrs. Vick and Anderson as his lieutenants.

A meeting will be called for some evening next week, when it is expected that the youths of the south side will attend at Knox church on the evening appointed, and thus aid the inauguration of this interesting movement.

Dr. de Van's Female Pills

A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. **Dr. de Van's are sold at $5 a box, or three for $10. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.**

SPECIALS FROM THE HOME OF KNOTTY LEE'S KOLTS

Specials from Scoop.

Hamilton, May 14, 10 a.m.—An exclusive report, secured by your representative, shows that 75 per cent of the grandmothers and mothers-in-law of the city have been attacked by a strong disease which is baffling the doctors. No serious results are anticipated, as the patients will receive every care, their loving relatives on the male side having received permission from their respective employers to remain home for the afternoon.

Hamilton, May 14, 11.55 a.m.—The sun shines and the weather could not be better. An alarming report has spread throughout the burg, to the effect that the number of victims of the new disease has greatly increased.

Hamilton, May 14, 1.05 p.m.—It is now known that every grandmother and mother-in-law in the city is seriously ill. The manufacturing establishments commenced this afternoon with depleted forces.

Hamilton, May 14, 2 p.m.—A serious accident occurred at the Peanut factory shortly after one o'clock. James Shootemover, an employe of the shipping department, went down the elevator. The factory doctor was reported as sick in bed and it was only after a long delay the telephone operator was able to find a physician at his office. He was blind.

Hamilton, May 14, 2.30 p.m.—James Shootemover will recover. It is expected he will return to work on Thursday. Your representative learns that no action will be taken against the company.

Hamilton, May 14, 2.45 p.m.—It is understood Hamilton may secure a branch of the Hitem concern. Mayor Lees, however, was not in his office and your representative was informed that he would be absent for the afternoon.

Hamilton, May 14, 2.50 p.m.—The fire department was called out at 2.30 o'clock this afternoon to extinguish a fire which threatened the grandstand at the ball park. Chief Ten Eyck and his men will remain in the vicinity till five o'clock as a precaution against further trouble.

Hamilton, May 14, 3.00 p.m.—The suffragette demonstration, which was to have included a big procession in the down town district this afternoon, has been called off indefinitely.

Extra Special, 3.15 p.m.

Hamilton, May 14.—The ball game has started. Schaeffer singled on the first pitched ball, Hartman doubled, Tully tripled and Templin hit the sphere for a home run. Connie Murphy now pitching for Hamilton; Dolan singled, Beard doubled, Brode singled, Mooney hit to deep centre, Durr cleaned up the bags with a swat over the right field fence. The attendance is diminishing.

BREEZES FROM THE DIAMOND

For being "the best batsman in the country" Ty Cobb was presented with a loving cup by his Detroit friends in New York.

Manager Knotty Lee has decided to retain the services of Connie Murphy, and the fans are glad. Murphy is a whole side show.

The line-up of the Hamilton Kolts to-day was:

Schaefer, 1b.
Keenan, 3b.
Lee, rf.
Corns, rf.
Corns, cf.
Killilea, 2b.
Farrell, lf.
Fisher, c.
Martin, ss.
Teed, p.

If Rube Marquard can pitch a slow ball Coach Robinson, of the Giants, says he will be invincible. Marquard has learned to control terrific speed and a fast breaking curve. But he doesn't know much about change of pace. Robinson is drilling him every day in the art of pitching floaters and says the big southpaw is making progress. All of the great pitchers in days gone by mixed slow ones with fast ones, thereby increasing their effectiveness in a remarkable way.

The second game in the P.C.I. Interform League, that was to be played yesterday afternoon, was postponed on account of rain.

The new grandstand at Riverside Park is on the way to completion. The back of the stand is nearly finished. It is built just behind the home plate and runs for a few feet down the third base line. It will have a seating capacity of about one thousand. The grounds are being looked after by half a dozen men who are kept busy cutting sod and rolling the grounds.

LAWN TENNIS

There will be a meeting of all members of the Peterboro Lawn Tennis Association in the Y.M.C.A. building at 8 o'clock on Thursday evening May 16, for the election of officers for the coming year. Everybody interested in tennis should endeavor to be present.

G. B. HALL,
Secretary.

FOOTBALL

The football enthusiasts of this city are already engaged in practices to prepare them for the coming season. Peterborough will be represented in both the Senior and Junior Midland football leagues by teams from the Canadian General Electric works. In this district, there will be teams from Whitby, Oshawa, Bowmanville, and Bethany. The opening game for the local players will be on May 24th, when they will journey to Bethany in the Senior series, and the Juniors on the same day will play in Warsaw. It is reported that the outside aggregations are strong combinations, and considerable interest will be displayed by the fans in watching the progress of the local men.

All the young men of St. John's church who are interested in football are requested to turn out to practice to-night at the Nicholls Oval at 7.15 o'clock.

LAWN BOWLING

The meeting held by the bowlers last night in Mr. J. E. A. Fitzgerald's office was adjourned without doing anything because a number of those who should have attended were out of the city on business. The meeting will be held Wednesday evening next at eight o'clock at Fitzgerald's office.

Irrigation In Spain.

During the four months from June to September practically no rain falls in the province of Andalusia, Spain. As a result a large area of fertile soil which should be highly productive is almost idle, the frequency of droughts and the small annual rainfall discouraging agriculture. To remedy this condition the government has started work on irrigation plans calling for the expenditure of $8,156,000. Work has already been begun on a long irrigation canal which will ultimately have ten branches, the aggregate length of the main artery and branches being 153 miles. The main canal will have a length of fifty-three miles and will be completed in six years.—Exporter's Review.

It Wasn't a Dream.

Archbishop Thompson was greatly surprised when he was given the archdiocese of York. He had been suffering acutely from toothache and upon medical advice had resorted to narcotics. After a particularly bad night he set out for his doctor, though his wife had besought him not to submit to further narcotics, as after them he was "not himself" for some hours. On the way he met the postman, who handed him a letter announcing his preferment from Gloucester to York. He rushed back and burst excitedly into the house, the toothache all forgotten. "Zoe, Zoe," he cried, "what do you think has happened? I am Archbishop of York!" "There, what did I tell you?" rejoined his wife "You've been taking that horrible narcotic again and are quite out of your head."

GIRL GUIDE IS COMING

VIOLET TEMPLE STARTED SCOUT MOVEMENT FOR HER SEX.

Sixteen-Year-Old English Lassie Was Not to Be Outdone by a Mere Boy and She Now Stands as Pioneer of a Corps Numbering Eight Thousand Members—Miss Baden-Powell Speaks Highly of Idea.

As if to prove the truth of Rudyard Kipling's theory that "the female of the species is more deadly than the male," the girls of England are out to beat their brothers in scouting. Within a year or so their movement has assumed dimensions far out of proportion to what was anticipated at the outset. Now they aim to spread their enterprise across the seas, and have selected one of their number as a first missioner for Canada and Australia.

Time was when the appearance of the girls—clad in khaki skirts and the regulation Baden-Powell headgear, with staves and water bottles—in the streets of English cities, roused more ridicule than sympathy. But they stuck to their scouting with enthusiasm, and marched along with military precision and a sense of responsibility sufficiently marked to indicate that they were bearing a large share of the Imperial burdens. To-day the prejudice has almost gone. Serious-minded people see in the movement an outlet for energy that can be turned to the benefit of the community.

Eight thousand girls, on their own initiative, joined the scouts before influential people overcame their prejudices and volunteered to lead them. They provided their own clothes, found their own drill instructors, appointed scout "masters" from their own ranks, and displayed a respect for discipline and a power for organization that excited the astonishment of their elders.

A girl of sixteen, named Violet Temple, was one of the first to catch the scout fever, and to her may be said to be due the beginning of the Girl Scout movement in this country. When asked to explain how the movement had grown so rapidly, she replied: "It grew of itself, because it possessed within it all the elements of healthy amusement for girls who desired to occupy their spare time usefully and intelligently."

Miss Temple herself claims no special capacity for organizing, but Miss Baden-Powell, the sister of the famous originator of the Scout movement, believes her to be a genius, and to test her abilities further it has been arranged that she shall make this world tour during the present year in the interests of the "Baden-Powell Girl Guides"—the name the movement has now assumed.

Miss Baden-Powell, who is playing the leading part in the organization and government of the Girl Guides, claims that the movement provides inducements for its followers to become proficient in all the womanly essentials. She believes it will bring out most useful qualities, inculcate healthy habits, and stimulate kindness and "camaraderie" to all around them.

There are others like Lady Massie Bloomfield and Major H. T. Stafford, who look upon the movement as a blessing to the state, in so far that it has found an occupation for the leisure time of work girls of an impressionable age, who, in numerous cases, up to now have been thrown entirely upon their own resources. Instead of congregating at street corners discussing the latest variety shows, the girls now go to their local "headquarters," where they receive instruction towards their comprehensive equipment as Guides. When they are not at "headquarters" they may be seen at exercises in Hyde Park or on Hampstead Heath to their physical, mental, and ethical betterment.

The Turks make a liquor from barley which is called bouza and which, although fermented, is not prohibited like wine, because it gives heat and strength to the body of Moslem warriors and goes for hunger. Excess in drinking it brings on gout and dropsy.—Evlia Effendi, "Travels."

PREHISTORIC MAN.

Three Races That Have Left Traces of Their Customs Behind Them.

Science has proofs of the existence of several prehistoric races, but only three of these have left traces of their customs behind them. These are Homo Europeus, Homo Eurafricus and Homo Eurasicus. The first race is extinct. Its representative man resembled the remains of Neanderthal. His forehead was low and retreating and his eyebrows beetled.

Probably the second race journeyed to Europe from the north of Africa. Their traces have been found on the Thames, in Moravia, and in caves of different regions.

Sergy, a close student of human origins, traces the second race to the paleolithic culture of the quaternary epoch in the south of France. In that culture analogies with Mycenaean and prehistoric Egyptian civilization are found. Some families of the race may have been inspired by their adventurous and artistic instincts to wander onward out of their own land to a land specially suited to the development of their dreams of something that they had never been able to produce in their own country. The geographical conditions, the climate and the natural beauty of the land they settled in may have allured them and encouraged them to develop their rude arts.

The third race, Homo Eurasicus, came into Europe from western Asia, and its members were the ancestors of the modern European peoples.—Harper's.

How Trouble Came.

Once dar wuz a man what bought a wilderness for ter live in, an' he lived peaceable an' all alone, but one day he got so lonesome dat he prayed fer company, an' w'en de company come dey got him ter sign away all his rights ter de place, an' purty soon he didn't have a tree ter set under.—Atlanta Constitution.

ST. JOSEPH'S HOSPITAL ASKS THAT CITY PAY $1 FOR EACH OF FOUR PATIENTS

The committee of the Whole Council were in session last evening, mainly to consider a notice from St. Joseph's Hospital stating that there were four indigent patients confined there, and that it was the intention of the hospital authorities to bill the city with the costs of their maintenance. A new Act in the Legislature came into effect last April which demands payment by the municipality and that notice from hospital authorities be given municipalities fourteen days previous to their billing aforesaid municipalities for maintenance of indigents.

The four patients referred to are all women. One is feeble minded and subject to hallucinations and at present physically indisposed. The other three are girls whose parents are living. The father of one of these girls met with a serious accident last winter, which has prevented his working, while the mother is very sick. The fathers of the remaining two children are living, but the mothers are dead.

Alderman Butler wanted to know where the city would end up if it were compelled to outlay $1 a day for the keeping of indigents, and others, who would take advantage of such means of support merely from laziness or on account of being "dead broke."

The municipality, he said, would be subject to imposition on the part of dead beats and ne'er-do-wells if such a course of maintenance were continued.

Ald. Gordon offered a suggestion that the Provincial Government be petitioned to provide for a place where such cases could be suitably looked after. Cases like those in question should not be forced to spend their lives in a jail for lack of appropiate institutions to receive them.

On motion of Ald. Johnston and Duncan the St. Joseph Hospital authorities will be notified that the Council does not consider three of the cases confined there as indigents, and that therefore the municipality does not consider itself responsible for their maintenance.

In future the Finance Committee will have authority to deal with all similar notices received from the hospitals regarding indigents.

Alderman Duncan, chairman of the City Property Committee, asked leave of absence of from four to six weeks as he is leaving the city for that time. The Council granted the request. Ald. Graham will be his successor as Property chairman in the interval.

A communication was received from Charles K. Ostrom, in reference to the plot of park ground at the corner of Charlotte and Park streets. He offered to bear half of the expense up to $100 of planting a cedar hedge around it, if the Council saw fit to place one there. The Mayor and Alderman Duncan were not much taken up with the plan, but Alderman Gordon considered it would be a means of beautifying that section of the city.

The chairman of the Property committee was instructed to look into the matter, secure prices on cedar hedges, and also inquire if Mr. Holly would care for the park at $10 a year

WHAT OTHERS ARE DOING IN THE FIGHT AGAINST CONSUMPTION

(By Roy Gilray.)

The campaign against tuberculosis which is stirring Peterborough from one end to the other is not a new idea by any means. We are simply followingt he example set by other municipalities and organizations, which for years have been trying to stop the onward march of the dread White Plague.

The inroards o. this fell monster are so terrible and cause such distress among its victims that anyone who has the interests of humanity at heart must realize the need of concerted action, and that without delay.

In prosecuting any great work of this kind it is always well to compare notes and see what others are doing in a like cause.

In Toronto the Heather Club, an association which had its origin among the nurses who were connected with the Toronto Hospital for Sick Children, has been aiding in the work against tuberculosis among children of 14 years and under. Their work consists in instructing mothers in the care of the patient and how to prevent the spread of the disease to other members of the family.

They also provide suitable nourishment, clothing, when the patients cannot afford to pay for the same.

At first the members, in turn, devoted their spare hours visiting the homes of their patients, but as the work grew they found it necessary to employ a visiting nurse, who should devote her whole time to it.

Such is the plan to be followed by the Health Association in Peterborough.

In Kingston the Board of Governors of the General Hospital are erecting a building to be known as the Sir Oliver Mowat Memorial Hospital, for the treatment of tuberculosis. The cost of the building will be about $55,000.

St. Catharines has built, and has in operation, a Hospital for Consumptives which is of sufficient capacity to meet all the requirements of the city and neighborhood.

Ottawa has secured the establishment of what is known as the Lady Grey Hospital for advanced cases of tuberculosis. The Hospital is a large and handsome building which stands on a prominent site in the city, and which finished and furnished cost about $50,000.

Early in the year 1905 a few ladies of the city o. Montreal became interested in the possibility of assisting in the suppression of tuberculosis by establishing a convalescent home in the Laurentian Mountains near the village of Ste. Agathe, P. Q., where persons could be sent who were recovering from typhoid fever, pleurisy, grippe, pneumonia, or any disease which made them susceptible to tuberculosis, and whose environment did not contribute fresh air and a nourishing diet. The need of such an institution had been long felt by physicians, but had not been practically presented until Dr. Arthur J. Richer, a noted specialist on tuberculosis, suggested plans o the house and offered his services gratuitously as the consulting and attending physician, spending a portion of his time in Montreal as well as in Ste. Agathe.

A quarter of a century ago there were but few people who believed tuberculosis to be a curable disease. To-day the evidence of its curability is sufficient to convince the most skeptical. When Brehmer founded his Sanatorium at Goerbersdorf, Germany, in 1859, for the purpose of curing tuberculosis, he was laughed at by his associates, who even thought he was insane. To-day there are over one hundred Sanatoria in his native land, and they are springing up everywhere throughout the civilized world. Not only is tuberculosis curable but it is the most curable of all chronic diseases, provided it is taken in time.

Until recently no effort was made in Canada to grasp the elemental principle that prevention must be the saving force, if the disease is to be mastered. The bucket of water at the beginning of the fire is the sane method of saving a burning house; indeed all reform is working along this line, and rescue work, moral and physical, is being superseded by preventative work, and the elimination of causes is the active agency towards bettering all conditions.

The "Rest" is beautifully located in among the mountains about 1500 ft. above sea level near Lake Bruille. The patients are required to remain outdoors eight hours a day, are given three full meals and two luncheons each day.

The results have exceded their expectations, for, with very few exceptions, in which cases there were complications, the patients have returned to their homes and their occupations fully recovered.

Since the inauguration of the Brehmer Rest a splendid new Sanatorium has taken shape under the fostering care of The Laurentian Society for the Treatment and Control of Tuberculosis, which has a farm of 160 ares of highly suitable land in the village of Ste. Agathe.

The idea originated in the mind of Mr. D. Lorne McGibbon, and Dr. H. M. Kinghorn, of Montreal, who were impressed with the large number of people from Canada who were being treated in the United States owing to lack of accommodation in their own country. The total cost of the Sanatorium, which is being fitted up on an elaborate scale, will be in the neighborhood of $100,000.

In 1909 a number of patriotic citizens of the City of London, conceived the idea of an institution for tuberculosis similar to those at Gravenhurst, Weston and Hamilton. Subscriptions were solicited, and an energetic canvass, led by the Hon. Adam Beck, resulted in $10,000 being raised. The City granted in addition $5,000, and the Government of Ontario made the usual grant of $4,000.

A most up-to-date Sanatorium was erected at Byron on a high bank of the River Thames overlooking the pretty village of Byron. It has an elevation of 850 feet, and consists of 115 acres, 50 of which are well watered, the balance being under cultivation.

The ladies of London, under the leadership of Mrs. Beck, held a Made-in-London Exhibition, which was well patronized by the citizens, and as a result almost $8,000 was raised for equipment.

What others have done we can do. However, we are not undertaking too much to start with simply striving to make the initial step; the appointment of a District Nurse. We are not even attempting to open a Dispensary. That will come in due course.

But we must establish the work on a permanent basis, which means that our present effort must provide enough funds to last at least three or four years.

Therefore, no citizen can afford to "rest on his oars;" instead the hearty co-operation of each one is necessary if the venture is to prove a success.

ROMAINE ST. SEWER

Investigation Was Made Without Council Being Consulted

Before the committee of the whole Council last night, the Mayor mentioned the matter of the Romaine street sewer. It appears that Mr. Willis Chipman brought an engineer to the city on his own account, last week and had him endeavor to investigate the cause of the blockade of the Romaine street sewer, without consulting the city.

The sewer had been dug up at one place on his instructions by the city laborers and at the expense of the city. The Mayor felt that this should cease, and it was decided to have any further work on the sewer discontinued until it was investigated by the Mayor and a committee.

RICHARD HALL & SON, LIMITED

NEW MODELS IN KABO CORSETS

GOING TO VIEW THE NORTHWEST

To-day a party of Ontario men leave Toronto by C. N. R. and boat from Owen Sound to Port Arthur, from there by C. N. R. to the neighborhood of Edmonton, Sask. They purpose to look at, and take hold, as a syndicate, of a block of 200,000 acres New Vermillion. This land has practically been untouched, and it is expected, will be put on the market.

Among the party are Mr. J. H. Sexsmith, M.P.; and Mr. James Thompson, M.P.P., who are interested in the property. Both of these gentlemen will join the party at Toronto, making the trip from Port Arthur to the West in a private car, all together. They will return in about two weeks time.

DEATH OF THE REV. D.S. HOUCK; KNOWN HERE

Welland, May 13—The death occurred of Rev. D. S. Houck, beloved pastor of the Methodist church in Milton, at the residence of his brother-in-law, C. H. Reilly, Welland, at 10.15 yesterday morning, after an illness of nine weeks, the cause of death being an abcess on the brain. He preached here on March 10, and was seized with a severe headache, which increased upon his return to Milton. He was taken to the hospital at Buffalo, where an operation was performed by specialists. He recovered sufficiently to return to Welland.

Rev. Mr. Houck was well-known and highly esteemed here, having been pastor of this church, also of churches at Tweed, Picton, Bloomfield and Wellington in the Bay of Quinte Conference. Being transferred to Hamilton Conference, he was during the past year stationed at Milton. He was a graduate of Victoria University, and able, earnest, worker, and had been very successful at his appointment. He was 51 years old, born at Port Perry, and leaves a widow, formerly Miss Johnson of Aelland, but no children.

The Rev. Mr. Houck is well known in Peterborough having been stationed some time in the Bridgenorth circuit.

Accident Insurance

Following the Titanic Disaster no one will think of travelling without first taking out an Accident Policy.

It is interesting to know that practically all the Canadians who lost their lives through the Titanic wreck carried Accident Insurance. The average amount to be paid by Accident Companies alone, is over $30,000 for each Canadian lost.

The Double Indemnity and Bonus feature of The Dominion of Canada and General Accident Assurance Company policies are worthy of investigation before placing your Insurance.

ROBERT FAIR & Co. Limited

SOME INFORMATION ON THE NEW DOCK ON GEORGE STREET

A Review representative called on Mr. J. H. McClellan, Superintendent of the Trent Canal, to-day, and asked him for information in regard to the new dock, George street, Peterborough.

"Can you tell me when the soundings and plans for this dock were made? Mr. McClellan was asked.

"In the fall of 1909," he replied.

By whom were they made?

By Mr. Sing, the engineer in charge of the Public Works Department at Ottawa, who resides in the city of Toronto.

What have the Public Works Department to do with this dock?

It was that Department that voted the money to build it, and then transferred the money by Order-in-Council to the Department of Railways and Canals.

Is the dock built according to Mr. Sing's plans?

Yes.

Who is the foreman in charge of the work?

Mr. Wade.

Who engaged Mr. Wade?

I did.

Why did you engage Mr. Wade?

Because I judged that he was a first class man, and that he had large experience in that kind of work, and I knew he had.

Did the Department at Ottawa recommend him?

No.

If there had been no change in the Government would you have engaged Mr. Wade?

I certainly would have.

Who do you feel is responsible for the proper carrying out of this work?

I am, and nobody else.

You have heard or seen Mr. Burnham's name mentioned in connection with this dock. Is he in any way responsible, and what has he as Member to do with it?

Nothing whatever.

Did he interfere in the way the dock was to be constructed, or the plans of it?

No.

You have had some trouble with one corner of the pier there, have you not?

Yes, there was a settlement.

Are you having it repaired?

Yes.

What will be the cost of repairing it?

Between $100.00 and $200.00.

Do you consider the thing serious?

Not at all.

[illegible] constructed that piers can be extended and slips built?

Certainly.

Is it the intention of the Government to extend it?

I cannot answer that question. If business warrants it, no doubt the Government will add the slips to the present dock when they are required.

Is that all the information you have for me?

That is all I have for you, and I do not propose to enter into any more newspaper controversy.

Well, I might ask you if you consider all the work that is done on this canal at different places, that you hold yourself responsible?

Certainly I do, and all the work that has been done on this canal on the maintenance I am responsible for the way it has been carried out.

Tuberculosis is reported on the increase in Quebec. Montreal has increased its grant for pure milk depots. Most of the veterinaries employed by the Dominion Government in Saskatchewan, who resigned because of small pay and bad working conditions, have returned on the strength of promise of reforms.

A Scientific Experiment

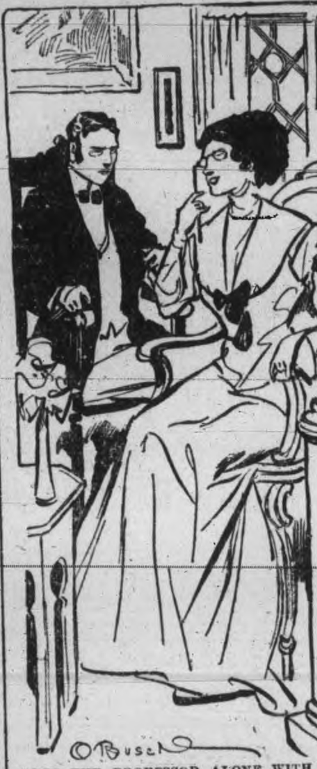
In the Matter of Amatory Waves

By F. A. MITCHEL

Professor John Oldershaw was forty. He had never married and gave as a reason for not doing so that he had never met a woman between whom and himself the amatory vibrations were in unison. "For," he claimed, "that constitutes love, just as vibrations between instruments meet, some producing harmony and some discord."

"What a remarkably analytic brain you have, professor!" remarked his old and tried friend, Mrs. Terwilliger, who sat darning the family stockings.

"All wave matters are, of course, in a way theoretic. We first establish a theory, then note if the conditions are fulfilled in practice. For instance, we press a button and thus ring an electric bell. This tells us that the electric wave current has acted on the bell. If a man takes the hand of a certain woman, between whom and himself there are harmonious amatory wave currents, both feel these currents passing through their arms."



LEFT THE PROFESSOR ALONE WITH MISS SCRUGGINS.

"At what age do these amatory wave currents cease?"

"I can answer only for myself. Mine are still capable of being excited, but only with a woman younger than myself. That may be accounted for by the fact that between youth and age an average of strength in the amatory waves may be maintained that is not possible between two elderly people."

Mrs. Terwilliger rested for a moment from her work and looked at the professor.

"And you don't think these amatory waves can exist between an elderly man and an elderly woman?"

"Not in ordinary cases. You love your husband, but it is questionable if you should meet tomorrow for the first time at your age you would make a match."

"I see. And you don't think you could fall in love with a woman of your own age or older?"

"I am sure I could not."

One day Mrs. Terwilliger repeated the conversation to her husband.

"Oh, a scientist is just as big a fool when he gets off his beat as any one else," remarked the plain Mr. Terwilliger. "You can't budge John on any of his theories, no matter how ridiculous they are."

"I'd like to make a match between him and a woman of his own age or older."

"You can't do that. Give him a young bird."

"I know what I'm going to do. I'll give him a young bird dressed in old plumage. I'll mix him up with Marian Barbour. She's twenty-five. I'll bring her here for a visit, made up as a woman between forty and fifty, and we'll have John here too during her stay."

"And I'll bet [illegible] a new fur cloak against a box of cigars that he doesn't tumble to her."

"Done. And I'll bet you another box against a silk dress that if he does he'll find some way of making his tumble accord with his theory."

"All right; I'll take that, too, just to please you."

In due time Miss Barbour, who was let into the secret and was not averse to making the experiment, arrived at the Terwilliger home. She had been made up by an artist for a homely woman of fifty. She wore a wig sprinkled plentifully with gray hairs, some of her front teeth were discolored, and wrinkles had been so realistically put in that no one but a sharp sighted woman could tell them from the real thing. She wore spectacles, and her costume was plain. Terwilliger prevailed upon Oldershaw to take up his Mrs. Terwilliger. "I bet you would make the demonstration accord with your theory."

abode at the house for awhile, and the experiment was begun.

For a few days the professor took no more account of Miss Barbour, who passed under the name of Miss Scruggins and as an old maid, than of one of the servants. But she won his attention by listening to him intently whenever he opened his mouth. One evening, when he was airing his scientific theories, Mrs. Terwilliger excused herself on account of some household duty. Mr. Terwilliger left the room without any excuse at all, and the professor was alone with Miss Scruggins.

The lady, as usual, proved a good listener, making but an occasional remark, and these were intended to turn what he said upon his scientific definition of love. This he gave Miss Scruggins, omitting nothing he had said to their hostess.

"At my age," she said, "I suppose love vibrations have died out?"

The professor's gallantry was put to the test, but he stood by his guns. "That is in acordance with the theory," he replied. "I do not assert that the theory is correct."

"Excuse me, professor, but you have excited in me a desire to learn if these vibrations have become extinct in me."

The professor instinctively drew away from her.

"It's only in the way of a scientific experiment," continued the lady. "Would you mind taking my hand in yours?"

The professor, being innately a gentleman, could not refuse. He sat down beside her and clasped her hand.

Perhaps it was that Miss Barbour's feelings had become enlisted and that this excited in her the amatory waves. Be this as it may, Professor Oldershaw, holding a hand that for an elderly woman was singularly round and soft, felt a current running up through his forearm and diffusing itself pleasurably through his whole system.

"Do you feel anything?" asked Miss Scruggins, "or have those amatory waves you speak of died out in me?"

"Really," replied the professor, "this is very singular?"

"What is singular?"

"That certain constitutional essences pertaining to youth should still exist in one of your age."

"Oh, professor, how happy I am to hear you say so! I don't like growing old."

Possibly it was gratitude at discovering that she was not too old to love; it might have been an unusually emotional nature. At any rate, she swayed toward him, supporting herself against his shoulder.

"No one likes to grow old," said Oldershaw, "and it is doubtful if there is any man or woman who does not cling to a desire to love and be loved."

"I'd like," said the supposed Miss Scruggins, "if you would be so good, to make a still further test, but I fear you will think me immodest."

"Anything for science," replied her companion with enthusiasm.

"Do the amatory waves pass only through the hand and arm?"

"Certainly not."

The lady bent forward, placing her waist, which despite her plain costume was delicately curved, in an exposed position. The professor let his arm fall upon it.

"Do you feel anything?" she asked.

"Most assuredly I do—and you?"

"Just a slight current."

"Is that any better?" He drew her nearer to him.

"Decidedly."

Her lips were near his and seemed to have retained their youthful freshness.

"There is a still more perfect test," remarked Professor Oldershaw.

"What is that?" asked the lady in a low voice.

The professor pressed his lips to hers.

"Feel anything?" he asked, desisting only long enough to ask the question.

"Lots," said Miss Scruggins. But the desire to laugh was so great in her that, breaking away, she ran to her room, where her merriment exploded.

One morning, when Mr. and Mrs. Terwilliger and Professor Oldershaw were together, the professor said:

"My dear friends, I am indebted to you for a great happiness. You have introduced me to a woman who is of a suitable age for me to love and to love me. I am engaged to Miss Scruggins."

"You don't mean it!" And both congratulated him.

"Your theory has proved incorrect, I suppose," said Mrs. Terwilliger.

"Not at all. Nature is full of freaks. Miss Scruggins has retained the conditions requisite to love far longer than is usual in her sex. Besides, there is doubtless a remarkable harmony in the love waves emanating from her with those emanating from me."

"You've won both bets, my dear," said Terwilliger. "The shrewdness of your sex is still strong in you."

Mrs. Terwilliger called to Miss Scruggins to come downstairs. Miss Barbour appeared in her own attractive person, blushing. The professor looked at her in astonishment. He saw the woman he had wooed rejuvenated. There was a burst of laughter from the host and hostess.

"John," said Terwilliger, "your confounded ridiculous theories have cost me a fur cloak and a silk dress."

"I pay all damages," said Oldershaw, taking Miss Barbour's hand with a benign grin. "I have not only won a great blessing, but have demonstrated to my own satisfaction that the love waves are mainly confined to the young. The moment I touched this young hand nature asserted itself. My eyes saw an elderly woman. My other senses were in contact with a youthful one."

"That's how I won the dress," said

TELEGRAPHIC BRIEFS.

Gen. Nazare Aga, who was Persian Minister to France from 1896 to 1905, died in Paris yesterday.

Harry McEwen, a veteran Brockville bandsman, with an honorable career in the Canadian and British militia, died suddenly yesterday at his home of heart failure.

The Duke of Connaught, Governor-General of Canada, is expected to spend some portion of the summer of 1913 in Newfoundland as the guest of the Government.

W. H. Troupe, a brakeman, was killed at Mitchell, Ont., yesterday morning. While coupling cars in the Grand Trunk yard he slipped, the car running over him.

Raphael Dinenni was found guilty of manslaughter in connection with the death of Mrs. Elizabeth Fallen in Toronto last December, and was sentenced to seven years in prison.

James Sheridan was found dead in a lumber pile on the C.P.R. wharf at Brockville yesterday. He had been drinking heavily of late and it is thought he passed away in a drunken stupor.

While a 60-mile gale blew down the Niagara river, raising the water ten feet, snow fell for two hours yesterday afternoon. Fears are expressed that the crops will be damaged as a result of the storm.

While a report has not been made public, it is understood that the situation insofar as the probability of the Victoria Museum tower at Ottawa sinking any further is concerned, is not at all alarming.

The U. S. weather bureau reported the Mississippi river at a stand at Baton Rouge yesterday, while other points from Cairo south reported falling stages. Fine weather prevailed all over Louisiana yesterday.

What the Death Mask Shows.

The value of a plaster cast as a portrait of the dead or living face cannot for a moment be questioned. It must of necessity be absolutely true to nature. It cannot flatter; it cannot caricature. It shows the subject as he was or is, not only as others saw him in the actual flesh, but as he saw himself. And in the case of the death mask particularly it shows the subject often as he permitted no one but himself to see himself. He does not pose; he does not "try to look pleasant." In his mask he is seen, as it were, with his mask off.

It's worth while just to see our clothes

EVEN if you have no intention of buying, you will find that it is time well spent just looking at the superb showing of new suits at this store.

COME in right away while the stock is at its best. You'll find a splendid array of new models and beautiful fabrics.

WE'LL gladly show you all you wish to see.

STRIKING color combinations are in evidence everywhere. A wide range of the more subdued tones are also shown.

The Antonine Wall.

At the meeting of the Glasgow Archaeological Society the acting secretary reported that arrangements had been completed whereby two acres of land, lying to the south of the cemetary at Bearsden and containing a very well preserved section of the Antonine Wall, had been placed under the Ancient Monuments Act, thus securing for all time the preservation of this valuable relic. As a result of representations made some time ago by the society, the parish council of New Kilpatrick had enclosed another part of the wall lying within the cemetary at Bearsden, and had opened the negotiations now completed regarding the more important portion lying on the property of Mr. Douglas, of Mains.

The Shrewmouse.

The smallest mammal in the British Isle is the shrewmouse. This is not only the smallest British mammal, but, with the exception of one other of the same genus, the smallest in Europe. The harvest mouse is sometimes thought to be even smaller, but the length of its head and body is often two and one-half inches, while that of the lesser shrew is rarely more than two inches. The tail measures about one and one-third inches, and its teeth are so extremely small that a lens is required to detect them.

DENMARK MOURNS THE DEATH OF HER BELOVED MONARCH

The Brother of Queen Mother Alexandra Had Been In Good Health—He Was Widely Beloved and Was One of the Most Democratic Sovereigns In Europe—He Will Be Succeeded by Prince Christian.

London, May 15.—King Frederick VIII. of Denmark died suddenly this morning at Hamburg.

King Frederick VIII. of Denmark was born June 3, 1843, and ascended the throne in his 63rd year, after the sudden death of his father, King Christian IX., who died in January, 1906.

Frederick was probably the most popular and beloved monarch who ever occupied the Danish throne. Of quiet, highly cultured bearing, he led a simple and peaceful life for a man of such high rank. Although he was not a politician in any sense of the word, King Frederick's chief activities were confined to thoroughly acquainting himself with the big topics of the day, concerning the welfare of the country and his subjects.

As a boy he was educated in the public schools and associated and played with children of plebeian birth. This early training developed a most democratic trait in the character of the young prince.

The king was a major-general in the Danish army for a long while before he ascended the throne, and as such attended to his duties with characteristic vigor and diligence, and introduced many innovations that greatly raised the standard of efficiency of the army.

As crown prince he married Princess Louisa, daughter of King Karl XV. of Sweden. She was considered the richest princess of her time. The royal couple had eight children, four boys and four girls. The eldest son, Crown Prince Christian, will succeed his father as head of the Danish monarchy. The king's second son, Prince Charles, married Princess Maud of Wales, the youngest daughter of King Edward VII. of England, and is now King Haakon, the popular ruler of Sweden.

King Frederick was chancellor of the University of Copenhagen and grand master of the Danish Masons. He was fond of traveling, and it was his custom to make frequent trips to other European capitals. A favorite journey of the king and queen was the annual trip to the queen's old home, in Sweden. On one occasion Frederick and a party of English and Americans went for a week's horseback jaunt through the interior of Iceland, and for two days the king remained in the saddle twelve consecutive hours.

SARNIA GIRLS ARE DEPORTED

Sarnia, May 15.—Clara Mackenzie and Maud Harkness, two Sarnia girls, still in their teens, were deported by the U. S. immigration officers at Port Huron Monday morning.

An actor who has been appearing in local theatrical circles is implicated in the affair. The man poses as a clairvoyant, and, ostensibly to have their fortunes told, the girls visited him at an hotel in Port Huron. Following their deportation the two girls have disappeared, and the police have been unable to locate them. Startling developments are expected.

STANDARD OIL SAID TO BE ACTIVE NEAR MILTON

Seven Adjoining Farms Totalling a Thousand Acres Have Been Leased by Two Men Who Seem to Have Unlimited Backing and Great Excitement Prevails In the Vicinity—To Find Oil In a Year.

Toronto, May 15.—One thousand acres, comprising seven adjoining farms just north of the C.P.R. station at Milton, were yesterday leased to two men who have apparently unlimited backing, and who are believed to be agents of the Standard Oil Co.

Oil was struck [illegible] a little less than two [illegible] ago by men boring on the property of Brandon's Brick Works. They went down 1,400 feet, presumably while testing the clay beds, then struck a fair flow of oil. These men since have rigged up an improvised pump and have got four or five barrels an hour, they say. Government geologists here have pronounced the oil to be of excellent quality.

In the last three weeks there has been great excitement throughout the district, and over two thousand acres, exclusive of the thousand acre deal, have been optioned and leased and released by speculators.

The two men, who are said to be backed by the Standard Oil Co., are T. Bracken and J. McKnight. The farms they have leased are William Bowan's 100 acres, Elliott Estate, 200 acres; J. S. McConnell, general manager of the Milton Pressed Brick Works, 200 acre and 100 acre farms; G. R. Cottrelle, 100 acres; Daniel and John McGibbon, 200 acres, and Malcolm Chisholm, 100 acres.

In leasing the properties, they covenant to find oil within a year or drop the operations.

Schaeffer
Scull
Trout
Davis

PETERBOROUGH BASEBALL TEAM.
From right—Davis, pitcher; Trout, catcher; Scull, pitcher, and Schaeffer, pitcher. Davis was released this week, as Manager Templin decided to carry only fourteen men. He is a promising youngster.

NORTH TO BE BOOSTED

Toronto, May 15.—With the aim of giving a big impetus to the New Ontario movement, the city council of Sault Ste. Marie, Ont., have decided on a novel campaign.

Four special trains will run from New Ontario on June 21, which is designated "New Ontario Day," and arrangements have been made with the Toronto Board of Trade for a mass meeting in Massey Hall, on the following day, while speakers from the "hinterland" will address many clubs and other organizations in Toronto. It is also planned that the hundreds of New Ontario visitors parade up Yonge street.

Mayor Munroe and Ald. McPhail and Sargeant of the Soo are in charge of the program.

It is proposed to ask the six Toronto daily papers to allow the six New Ontario editors to take charge of their editorial pages for one day to present the case of New Ontario fully, the understanding that New Ontario men be allowed liberty to discuss matters in their own way. It is also reported that New Ontario's claims will be set forth simultaneously in practically every daily in the province.

Kaiser Warns Alsace-Lorraine.

Strassburg, Germany, May 15.—The Kaiser yesterday warned State Secretary Von Bulach of Alsace-Lorraine, and Mayor Schwander, of Strassburg, that he would make the territory a mere Prussian province if the hostile sentiment towards Germany is not modified.

Discussing the political situation in Alsace-Lorraine, where strong anti-German and pro-French sentiment is rising, and where the Diet attempted to strike the Kaiser's allowance from the civil list, the Kaiser said to the State Secretary and mayor:

"You now only see the best side of us. You may also learn the other side of us. If this continues we will recall your constitution and make you simply a Prussian province."

EARL HARTMAN.
The regular third baseman.

White Keeps Mum.

Toronto, May 15—Hon. W. T. White, Minister of Finance, interviewed at the King Edward yesterday as to the rumored tariff changes, said:-

"There is only one time and place for the announcement of tariff changes, and that is when the budget speech is delivered in Parliament. The changes authorized by order-in-council only relate to the remission of duties upon the material for use in our Canadian factories. Some orders of this kind have been made every year, but they will not decrease whatever protection is afforded now to our home industries."

GRAHAM FOR GRAND TRUNK ?

Toronto, May 15.—The Globe this morning says: Hon. George Perry Graham, M.P., Minister of Railways and Canals in the Government of Sir Wilfrid Laurier, has been offered the presidency of the Grand Trunk Railway Co. as successor to the late Charles M. Hays, who lost his life in the Titanic disaster. Mr. Alfred W. Smithers, chairman of the board of directors, is now on his way to Canada to consult with Mr. Graham as to the vacancy. Prior to leaving England last week, Mr. Smithers, in an interview, said: "I selected Charles M. Hays, and if my next choice is equally successful I shall be abundantly satisfied." It is not known what Mr. Graham's attitude toward the offer is.

Invitation to Connaught.

St. John's, Nfld., May 15.—The Duke of Connaught, Governor-General of Canada, is expected to spend some portion of the summer in Newfoundland as the guest of the Government. Governor Ralph Champney Williams is now en route to Canada to extend a formal invitation to the duke.

SIX MEN ARE ALIVE IN MINE

Duluth, May 15.—Six of the thirteen men entombed at the 2,000-foot level of the Norris mine at Ironwood, Mich., by a cave-in Monday night, are grouped in a small space with five of their comrades dead beside them. Two other bodies have been brought to the surface.

The men still alive are being fed by means of a little pipe driven through the earth. Many rescuers are working to save them.

It is not known just what caused the accident. Some time about midnight Monday something gave way on the 2,000-foot level. Many men were at work there. New timbers recently had been installed and the workings were considered in perfect condition. When the cave-in occurred, men scattered in both directions. The majority escaped up the right path, but 13 blundered into one of the many cross sections of the mine, considering themselves safe there.

Then, with a roar that could be heard at the surface the roof dropped down for yards and the 13 were trapped.

Selling London Electric.

Toronto, May 15.—Advices from London, Ont., received last night, state that the shareholders of the London Electric Light Co. are likely to sell out this month at the rate of $50 per $100 share par value to interests as yet unnamed, and also that the shareholders would be notified by a letter to be sent out from the office of W. D. Matthews, president, Toronto, [illegible]. Should they approve, a majority of the stock, about 75 per cent., would be deposited with the National Trust Co. by May 27.

Mr. Matthews, when interviewed at his residence last night, stated that negotiations had been going on for some time, and that he thought the sale would go through. As to the interest behind the deal, Mr. Matthews said that he could not give any information at present.

Many people interested in electrical matters throughout the province, are of the opinion that Mackenzie & Mann are behind the deal.

Wife Won His Freedom.

Baltimore, Md., May 15.—Hugh C. Lyons of Toronto, Ont., convicted of flim-flamming, and sentenced to the Maryland penitentiary here for three years, was given his freedom by Presiding Judge Elliott in the Criminal Court. Lyons owes his liberty principally to the devotion displayed by his young wife, who came here from Toronto and finally succeeded in obtaining a review of the case by Judge Elliott.

HE LAID THE CORNER STONE

Premier Borden Attends Function in Toronto.

Toronto, May 25.—In the presence of a large crowd of representative citizens, Right Hon. R. L. Borden, Prime Minister of Canada, laid the corner-stone of the new Central Y. M. C. A. building on College street, at 6 o'clock last evening. Stretching from Yonge to almost Teraulay street, were about 2,000 people, homeward bound, who paused on their way to witness the ceremony.

The corner-stone is situated on the southeast section of the building, the foundation of which is now laid, and a large platform, gaily decorated with bunting and flags, was erected to accommodate the guests at the function.

Bishop Sweeny and Principal O'Meara of Wycliffe College read the service, following which the silver trowel was presented to the Premier.

After the stone was laid several persons spoke. In the course of his speech the Premier said that the affairs of Canada were carried on by the entire people, and the work of the Y. M. C. A. was as patriotic and important as any. "You realize, moreover, that the ideals of democracy must be based upon public opinion of the country, and after all the character of the people is the chief asset of the nation," he said. "And upon the voice and ideals of the people the future destiny of the country must inevitably rest."

Canada was justly proud of its great resources, but this counted almost for nothing unless there was behind them the force of great character among the people, he said. It was to this higher inspiration that the influence of the Y. M. C. A. was especially brought to bear in shaping the character of the young men in the great cities.

He then referred to the young man coming into a city like Toronto from rural Ontario and passing through some critical period, the influence of which shaped his career. Here was where the Y. M. C. A. did its great and patriotic work in the highest sense of the term.

KING WAS TAKEN TO HOSPITAL AS AN UNKNOWN

Special to the Review.

Hamburg, May 15.—The death of Frederick of Denmark was very pathetic. He was travelling incognito with the Queen and three daughters on the way home from a trip to the south for the benefit of his health. He apparently had fully recovered and stated only yesterday that he felt particularly well. Last evening he went for a stroll a short distance from his hotel and being dressed in an ordinary business suit, he was not recognized. He was hurried to the public ward of the hospital, where the body was found later by members of his suite, who became alarmed at his prolonged absence and instituted a search.

JOHNNIE DURR.
He twirled a clever game for the White Caps yesterday and deserved to be a winner.

NAVY SHOULD BE UNIONIZED

London, May 15.—According to the Daily Chronicle, present unrest among the sailors in the British navy is due to dissatisfaction with the conditions of the service, especially in reference to pay and punishments. This complaint has become so acute that petty officers and men in the service are contemplating a breach of the King's regulations by forming themselves into a trades union.

The writer makes a long statement in this connection, which the paper prints conspicuously. He says it is time for the nation and the naval authorities to realize that if the Admiralty does not start immediately to reform the legitimate grievances of these 100,000 men, or if the country does not compel the authorities to measure out at least justice, the rank and file of the navy will form an association which will be strong enough to demand redress by methods with which the industrial history of the country for the last year or two has made the country painfully familiar.

STEAD SPEAKS FROM DEAD

Manchester, Eng., May 15.—The Daily Despatch says that it hears that a message was received from Wm. T. Stead, who perished on the Titanic through the medium at a seance at Rothesay, on April 26th.

The medium, who is the wife of a friend of Stead's swooned. She jumped up and seizing other women there pushed them across the room, urging them to "enter the boat." Afterwards she cried out, "God pity us." She followed this with, "Thy will be done," and "Nearer, My God, to Thee." After an interval the medium spoke again. She said: "I know I have passed over. The past has been like a nightmare with a sudden awakening."

The question was asked: "Who are you?" and the medium replied: "I am Stead. I know where I am. I was here before, but was unable to make an appeal to all God-fearing men and women for help. Could you see the misery of the lost, as I saw it, your hearts would bleed for them called to part with all their cherished hopes and plunge into the terrors of the unknown, you would weep and pray for them."

Mr. Stead, through the medium, went on to speak of the foolishness of the riches and possessions of this earth. It was at his suggestion, so the spirit said, that the band played "Nearer My God to Thee," as the ship went down.

ROBBERS MADE BIG MONEY HAUL

Special to the Review.

New Orleans, May 15.—Two bandits held up a north bound train on the New Orleans & North Eastern Railroad last night, near Hattiesburg, Miss. They dynamited the safe in the express car and escaped with a package containing one hundred and forty thousand dollars.

The finest possible growing weather prevails throughout Western Canada, with days bright and warm and no low temperature at night.

Amherstburg ratepayers passed the bylaw to lend a new auto company $10,000, and the new knitting factory will start operations in a short time.

The Italian naval and military authorities succeeded in reproducing the human voice in a message by wireless telephony at a distance of 160 miles.

A Winnipeg foreigner called John the Austrian killed himself because of the arrival of his wife with a two-year-old child, he having deserted her five years ago.

Alex. Cudney of 74 Trinity street, Toronto, a driver for the Reid Lumber Co., was jolted off a load of lumber he was driving, and falling under the wheels was instantly killed yesterday.

The sailing steamer Algerine, which has been chartered by the White Star Line to search for bodies of victims of the Titanic disaster sailed to-day. The vessel will have on board fifty coffins.

The death is announced at Carleton Place of a former Kingston clergyman, in the person of Rev. Stearne Tighe, who held charges in Huron, Ottawa and Ontario dioceses, and was retired in 1905.

At the British Titanic inquiry the day was occupied with the examination of the captain and officers of the California, the vessel nearest the Titanic on the night of the disaster and from which rocket signals were seen.

The Gloucester schooner Walter [illegible] Coulart, Capt. Ballart, struck the rocks at Half Moon Ledge, on the Shelburne, N.S., coast Monday night, and the crew deserted half clothed. Of the crew of 14, 12 have landed at Cape Negro.

The Dominion Government has agreed to assume control of the old Cataraqui bridge at Kingston, and plans and specifications will be submitted at once for the new steel bridge and tenders called. Work on the Kingston harbor improvements will be commenced at once.

Death In the Matches.

Charlottetown, P.E.I., May 15.—Dr. McMillan, giving evidence for the crown in the trial of Mrs. McGee, charged with having poisoned her five children, told of a post-mortem examination made in Montreal. He added:

"I have no doubt whatever that death was due to phosphorus poisoning. Less than twenty-five matches would contain enough phosphorus to kill an adult."

It has been shown that the woman purchased many matches.

LAST FRENCH AUTO BANDIT KILLED AFTER LONG SIEGE; BATTLED WITH THE POLICE

PREMIER BORDEN.
Laid the corner stone of the new Central Y.M.C.A. at Toronto.

Octave Garnier and His Confederate, Valiot, Barricade Themselves In a Villa and Hold Off Troops and Gendarmes For Eight Hours Before House Is Blown Up—Chief Lepine Nearly Killed.

Paris, May 15.—The career of the last of France's notorious bandit gang was dramatically ended yesterday morning when, after eight hours' battle with police and troops, its leader, Octave Garnier, and his confederate, Valiot, were blown up by explosives in a small villa at Nogent-Sur-Marne, on the banks of the Marne, where they had taken refuge.

Shattered by shots of dynamite, their house fell in ruins when melinite was exploded under its walls. The police found Garnier dead and Valiot dying. Five policemen were wounded in the battle.

All the forces for the protection of society had failed for hours to dislodge them. Police came from Paris, four miles away. Several thousand police, gendarmes and Zouaves tried to shoot the bandits and blow up the house. Though the villa was badly damaged by dynamite the bandits miraculously held their own and showed no signs of surrendering.

Unlike Bonnot, whose refuge was dynamited at Choisy-les-Roi, Garnier made his last stand in a house hidden by foliage and surrounded closely by other buildings, rendering an assault difficult and dangerous. Bonnot and Dubois fought in a garage, which could be approached from all sides.

Garnier's mistake came in trying to negotiate stolen securities at a branch of a big banking house, whereby he and his companions, Valiot and Vuillemin were tracked to Nogent.

Louis Lepine, the prefect of police of Paris, with a large body of policemen, left headquarters hurriedly in motor cars for the scene.

M. Lepine had a narrow escape from death. Although some distance from the villa, a bullet passed within an inch of his shoulder and buried itself in the wall of a house, sending up a shower of fragments into the prefect's face. The crowds, forced back further and further, lost patience and vented their feelings in a wild chorus of "Death to the Bandits."

The arrival of a brigade of reserve police was loudly cheered.

From the attic windows the trapped men directed a steady fusilade, and in the flickering glare of torches, the scene was dramatic in the extreme.

Trains from Paris conveying the working people to their homes slowly passed over the bridge, affording thousands a view of the fight.

At 10.15 M. Lepine ordered electric searchlights from Paris, as there was great danger in the obscurity of the besiegers accidentaly shooting their fellows.

The prefect also requisitioned extra dynamite bombs and cartridges. Several detectives armed with a new type of steel shield which the police arsenals recently devised, were able to approach within fifteen feet of the house. Holding the shield with the left arm, and crouched behind it, they fired. One shield was pierced, but the detective was not wounded. Sergt. Fleury, who was dangerously wounded earlier in the battle while protected by a steel sheet, owed his injury to the fact that he turned to explain to a comrade how well his armor was working, thus exposing his body.

The firing ceased for a time, the bandits either being exhausted or saving ammunition, while the soldiers were forced to discontinue pending the arrival of a new stock of cartridges from Fort Nogent.

Later two more dynamite cartridges were exploded, and a portion of one of the walls toppled over. Nevertheless, the bandits apparently succeeded in finding shelter in what remained of the structure.

CALIFORNIA FOR ROOSEVELT

San Francisco, May 15.—Theodore Roosevelt and Champ Clark were apparently victorious by a large margin yesterday over their respective Republican and Democratic rivals in California's preferential Presidential primary. This statement is based on returns received from 583 precincts out of 37 in the state as follows:

Republican: Roosevelt 26,220, Taft 16,303, Lafollette 9,954.

Democratic: Clark 5,974, Wilson 2,504.

Women voters played a large part in yesterday's primaries. Reports from all parts of the state indicate that they went to the polls in greater numbers than the men, in proportion to registration.

Prince at French Manoeuvres.

Paris, May 15.—The Prince of Wales, who has been staying for some time here with the Marquis de Breteuil, intends to leave for the great French naval station at Toulon on June 19, and will embark on board the French dreadnought Danton, the flagship of Vice-Admiral Augustin Boue de la Peyrere.

JIMMIE BEARD.
Works in the middle garden for the White Caps.

BROOKLYN BRIDGE GROWING FEEBLE

New York, May 15.—That some fears are felt for the safety of the old Brooklyn bridge, which still carries a considerable share of the traffic between Manhattan and Brooklyn, is indicated by orders issued by the city bridge department prohibiting heavy teams from using the roadways and directing the elevated railroads to curtail their traffic during the rush hours.

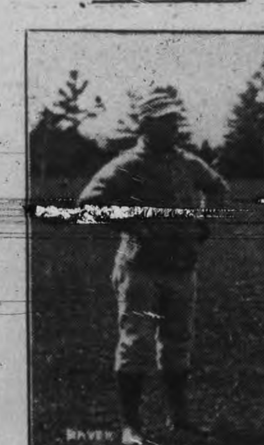
Extensive repairs are being made to the structure and an official statement says: "It is safe to believe that it will be many years before it will [illegible] necessary to condemn it."

Brooklyn bridge was one of the seven wonders of the world when it was built. Begun in 1870, it was opened in 1883. It is 5,989 feet long, with a river span of 1,596 feet, and is 85 feet wide. It cost about fifteen million dollars.

Appeals to Electors.

Montreal, May 15.—The secretary of the Dominion Alliance, John H. Roberts, issued the following statement in regard to the provincial election:

"On the eve of the provincial election, I would earnestly appeal to the good citizens of all parties to cast their votes in favor of temperance and for the minimizing and restrictions of the temptations of the liquor traffic. With no party bias whatever, the Dominion Alliance has decided to ask men of all parties to sustain the candidates of the Government because it has been a good temperance Government, and, therefore, deserves the support of all who place emphasis upon temperance and morality."



ELMER BAVER.
On the pitching staff of the White Caps.

Demand Retraction.

Port Arthur, Ont., May 15.—The City Council of Port Arthur has ordered its solicitor to demand of The Toronto Saturday Night retraction of an article of which J. Gorman is given as the author, reflecting on the city's financial position, or in default thereof to institute action for damages alleging it injures the city's credit so as to affect the sale of bonds.

"PILLS LIKE A FYLE"

So Harsh and Drastic are Many Pills as to Seriously Injure Health.

In a letter written from his home in Valencia, Mr. Marsh Selwyn does service to thousands by drawing attention to the injuries inflicted upon delicate people by drastic purgative pills. "For a long time I suffered from constipation. This condition compelled the use of pills. Like many another, I made the unwise choice of using pills that were like lightning in their activity. I began to be filled with intestinal disturbances, constant rumblings, gas in the bowels and diarrhoea. I grew pale and emaciated. Then the doctor told me drastic irritating pills had caused catarrh of the bowels, an almost incurable disease. Explaining my situation to a friend, he advised a trial of Dr. Hamilton's Pills. I speedily experienced the healing and curative effect they exert on the stomach, liver and bowels. The intestines, freed from irritating drugs, rapidly regained natural tone, the bowels acted as if nature and not Dr. Hamilton's Pills were at work. I know it will be of value to thousands to know that a pill as mild and curative as Dr. Hamilton's is available to the ailing."

For bowel disorders, sick headache, constipation, liver and stomach derangement, there is no pill so invariably sure to cure as Dr. Hamilton's Pills. Refuse a substitute. Sold in 25c boxes, all dealers, or The Catarrhozone Co., Kingston, Ont.

Dr. Hamilton's Pills Are Mild--Never Gripe

The Daily Review

WEDNESDAY, MAY 15, 1912.

SPARE THE RULER.

Was the method employed by Squeers, the Yorkshire schoolmaster, from a humanitarin standpoint, much different from that of some of our own educators as evidenced by the disclosures made in Toronto where two places set apart for the instruction of youth have recently been in the limelight. In one case the principal was in the police court charged with assault upon a pupil whose body bore black and blue marks as a result of a vigorous application of a ruler. Everyone must admit that a ruler is a useful article when confined to its own legitimate sphere, but common humanity demands that it be barred as an instrument of correction. After the magistrate had quoted that rather overworked text, "Spare the Rod and Spoil the Child," the principal was discharged and the back of the plaintiff was permitted to suffer unavenged. Solomon, (with the numerous and diversified family which the circumstances of his career warrant us in surmising that he possessed, must at times have resorted to extreme measures in the Government of his extensive household, but we have yet to read where he advocated the application of a ruler to juvenile shoulders with such force as to leave marks upon the unfortunate little body for days after. Those who with the confidence begotten of inexperience, would tell us all about the training of children, never fail to quote to us the "spare the rod" proverb. They never think to present the converse of the proposition and set forth that a too hearty application of the rod—or the ruler as the case may be—is not only apt to seriously injure the growing frame but to warp the nature and sour the disposition of the child for all time to come. Too often the blow struck with a corrective object in view cuts deeper and more cruelly than we can ever know and leaves upon the impressionable heart scars which a life time will not efface. The spirit of justice and fair play burns in the bosom of the average Canadian boy. Worsted in a physical contest with the youth of nearly his own size and weight, he accepts defeat with the grace of the heroic vanquished, although he may cherish a laudable ambition to make good on some future occasion. But let him be overcome by a full grown adversary in the shape of a teacher, who in addition to his superior inches has the further advantage of being armed with a club, contrary to all juvenile ideas of the ethics of personal warfare, and the boy's consequent downfall breeds in his little bosom nothing but resentment and bitter hatred for his adult fellowman.

We are justified in supposing that something in the shape of a ruler existed in the time of Solomon but its use was probably confined to the purpose for which it was originally designed. Nowhere do we find that the Wise man recommends its employment as a means of inflicting black and blue marks upon the backs of wayward youth. We know there were shackles in his day but he does not advise us to use them upon the sturdy limbs of boys who have a weakness for running away from school. Nor does Solomon anywhere suggest that we place upon so called incorrigibles, whom we are for the time being compelled to confine in a quasi-penal institute, a distinguishing badge or uniform which hurts the self-respect of the wearers by publishing their shame to the world and what is to them far more galling, brings upon them the jeers and contumely of their more fortunate youthful compeers on the outside.

Everyone who has had experience in the education of the young knows that no boys are absolutely incorrigible except those who are all but entirely deficient mentally and for all such a school, of whatever kind is no place. Very often it is from the so-called incorrigibles that the ranks of the strongest and most virile specimens of Canadian manhood are recruited. The boy who to-day frets at restraint, runs away from school and shuns books as he would a plague, we see to-morrow in the front of the battle, high in mechanics and in the strenuous pursuits of life. If we are to be guided in the training of our youth by the precepts of Solomon—and surely there can be no higher authority—let the use of the ruler as a club be discontinued, the handcuffs and all other means of degrading punishment be abandoned so that there may be attained the salutatory effects which should be the object of all corporal correction.

RECEIVED WITH CHEERS

When Mr. J. Bruce Ismay, Managing Director of the White Star Line landed in England he was received with cheers. This welcome was doubtless, partly an outcome of the British feeling in favor of fair play which was aroused by the manner in which he was treated by a section of the United States press. One New York paper published his portrait with the name J. Brute Ismay beneath it. The facts so far as brought out, had not and have not yet justified such treatment. Whatever blame may be found to attach to him for the speed at which the Titanic was driven when in the vicinity of icebergs, if he was in any way responsible for it, or for any lack of life-saving equipment, he will have to bear, but that he showed any cowardice or brutality following the accident has not been established. He saved his life, but he left in the last boat, when, it is stated, no passenger would have taken the place in the life-boat. Under these circumstances for him to have remained behind would not have saved another passenger, and if he felt any responsibility for the accident, or expected that he would be looked upon as in any way responsible for it, it would require courage to face it, and a cowardly man might have shirked facing it by taking a course that would have amounted to suicide. Mr. Ismay is reported to have said that he had no complaint to make of the United States investigating committee, but did complain of some of the papers, and he had reason to.

MORE WONDERS

It is not surprising that the air fleets are sharing a large part of the public interest, with the water fleets in the naval review, for new wonders are being introduced. The latest is a machine that partakes of the nature of both fleets. It belongs to both air and water. The hydroaeroplane flies through the air, floats on the water and rises again in the air. Such a machine will be a formidable engine of war, and its manoeuvres surprised as well as delighted those who saw them.

It is satisfactory to know that the hydro-aeroplane is the property of Britain. The air machines are threatening the usefulness of the fleets, [illegible] has the most powerful navy and is mistress of the sea, the possession of this new flying machine, will enable her to prevent any other nation becoming mistress of the air. It will also, in Britain's hands, not be used to provoke war.

NOTE AND COMMENT

Toronto is favored by having some exceedingly industrious employes. Two men engaged on the waterworks intake repair work were credited with working 162 hours in one week.

The latest scientific disclosure is that frequent washing of the human body with soap and water tends to breed microbes, and consequently disease. The high physical condition of the tramp and the unrestrained small boy ceases to be a mystery.

Perhaps the scalding water complained of by a Toronto pupil was administered in the form of a bath, the natural antipathy of youth to such drastic treatment leading the victim to regard it as a punishment more to be dreaded than the application of a club.

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. MUCH RELIEF IN RHEUMATISM

IN ONE BOX OF GIN PILLS

Thousands of people have tested Gin Pills in thousands of cases of Painful or Suppressed Urine, Backache, Aching Legs and Shoulders, Pain through the Hips, Rheumatism and Lumbago. Here is a case of one cure -- out of thousands.

NEWBURGH, ONT.

"My father had been troubled with Rheumatism for a number of years. He tried two doctors but got no relief, when a friend advised him to try Gin Pills. He purchased a box and after taking Gin Pills for a week, found that they were giving him much relief. He then bought three more boxes, which were the means of curing him. He is now a strong man—in good health—and able to attend to his daily work."

ALEX. MOORE.

If you suffer, get Gin Pills and be free of pain this winter. 50c. a box, 6 for $2.50. Sample free if you write National Drug & Chemical Co. of Canada, Limited, Dept. B Toronto. 94

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

Liverpool Wheat Futures Close Lower, Chicago Steady—Live Stock —Latest Quotations.

CHICAGO, May 13.—Active demand here for spot delivery of wheat rescued the option market from the bears. A big decrease in the world's supply total helped. Prices at the close were steady at a range varying from ½c lower to ¼c advance, as compared with the previous close. Corn scored a net gain of ⅛c to ½c; oats finished ⅜c off to ⅛c up, and provisions were more expensive by 5c to 7½c to 15c.

Liverpool wheat closed ⅜d to ¾d lower than yesterday, and corn ⅜d to ½d lower. Paris wheat closed unchanged to ¼c higher. Antwerp 1¼c lower. Berlin ¼c higher. Buda Pesth ⅜c higher.

Phosphonol restores every nerve in the body to its proper tension; restores vim and vitality. Premature decay and all sexual weakness averted at once. **Phosphonol** will make you a new man. Price $3 a box, or two for $5. Mailed to any address. **The Scobell Drug Co., St. Catharines, Ont.**

Man's Body Pulverized.

Montreal, May 15.—Robert John Smallwood fell into a stone crusher in the plant of the Canada Cement Co. at Point aux Trembles yesterday and his body was pulverized.

Anticipation.

A Larned man who was the father of twelve children had rocked each one in the same cradle by the same great toe. He was rocking the newest arrival one evening when his wife remarked: "William, that cradle is nearly worn out; it's getting rickety. I'm afraid it will fall all to pieces." "It is about used up," replied her husband. Then, handing her a ten dollar bill, he remarked, "The next time you go downtown get a new one, a good one, one that will last."—Kansas Magazine.

Novel Stage Effect.

"I've thought of a novel effect for my new melodrama."

"Hard to find anything new."

"This is new. The villain lights a cigar in the midst of the snowstorm, thus setting the snowstorm afire."—Washington Herald.

A Use For Grasshoppers.

A concern in Buenos Ayres, Argentina, is about to install machinery to be used in a factory for producing fertilizing materials. It is proposed to utilize grasshoppers and their eggs, thus converting a destroyer of the crop into fertilizing material.

EVERY PLACE ON THE WIDE PRAIRIE

Tells of Cures Made by Dodd's Kidney Pills.

Thos. Griffin, of Peace River Landing tells how he got rid of his Rheumatism — Honestly earned popularity.

Cold Springs, Peace River Landing, Alta., May 14 Special — Just why Dodd's Kidney Pills retain their wonderful popularity is easily shown by a trip across the prairies. Every town, village and post-office has at least one man or woman who is ready to tell of pains relieved and health restored by the great Canadian Kidney Remedy. Let Thos. Griffin of this place add his statement to the hosts already published.

"When I came to this part of the country," says Mr. Griffin, "I was troubled with a bad back and Rheumatism in my shoulders and hips. I sent for six boxes of Dodd's Kidney Pills and they gave me relief at once. I also recommended them to my eldest son who was confined to his bed from Rheumatism.

"Now I know that Dodd's Kidney Pills are the best medicine for Rheumatism and the kidneys. I recommend them to every person I hear complaining of not feeling well."

Dodd's Kidney Pills made their popularity by curing sick kidneys. They keep their popularity by keeping on curing sick kidneys.

Cynthia's Chauffeur

By LOUIS TRACY

Copyright by McLeod & Allen, Toronto

"Now, you two—what are you discussing?" cried Cynthia from the porch. "I hope you are not trying to persuade my chauffeur to yield his place to you, Monsieur Marigny. Once bitten, twice shy, you know, and I would insist on checking each mile by the map if you were at the wheel."

"Your chauffeur is immovable, mademoiselle," was the ready answer, though the accompanying smile was not one of the Count's best efforts.

"He looks it. Why are you vexed, Fitzroy? Can't you forgive your friend Simmonds?"

Cynthia lifted those demure blue eyes of hers, and held Medenham's gaze steadfast.

"I trust you are not challenging contradiction, Miss Vanrenen?" he said, with deliberate resolve not to let her slip back thus easily into the role of gracious employer.

She did not flinch, but her eyebrows arched a little.

"Oh, no," she said offhandedly. "Simmonds told me his misfortunes last night, and I assumed that you and he had settled matters satisfactorily between you."

"As for that," broke in the Count, "I have just offered my car as a substitute, but Fitzroy prefers to take you as far as Hereford, at any cost."

"Hereford! I understood from Simmonds that Mr. Fitzroy would see us through the remainder of the tour?"

"Monsieur Marigny is somewhat vague in our island topography: you saw that last evening," said Medenham.

He smiled. Cynthia, too, glanced from one to the other with a frank merriment that showed how fully she appreciated their mutual dislike. As for Marigny, his white teeth gleamed now in a sarcastic grin.

"Adversity is a strict master," he said, lapsing into his own language again. "My blunder of yesterday has shown me the need of caution, so I go no farther than Hereford in my thoughts."

"It is more to the point to tell us how far you are going in your car," cried the girl lightly.

"I, too, hope to be in Hereford to-night. Mrs Devar says you mean to spend Sunday there. If that is a fixed thing, and you can bear with me for a few hours, I shall meet you there without fail."

[illegible] lies that way; but don't let us make formal engagements. I love to think that I am drifting at will through this land of gardens and apple blossoms. And, just think of it—three cathedrals in one day—a Minister for breakfast, lunch, and dinner, with Tintern Abbey thrown in for afternoon tea. Such a wealth of medievalism makes my head reel.........I was in there for matins," and she nodded to the grave old pile rearing its massive Gothic within a few paces of the hotel. "At high noon we shall visit Gloucester, and to-night we shall see Hereford. All that within a short hundred miles, to say nothing of Chepstow, Monmouth, the Wye Valley! Ah, me! I shall never overtake my correspondence while there are so many glories to describe. See, I have bought some darling little guidebooks which tell you just what to say in a letter. What between judicious extracts and a sheaf of picture postcards scribbled at each place I'll try and keep my friends in good humor."

She produced from a pocket three of the red-covered volumes so familiar to Americans in Britan—and to Britons themselves, for the matter, when the belated discovery is made that it is not necessary to cross the Channel in order to enjoy a holiday

and showed them laughingly to Medenham.

"Now," she cried, "I am armed against you. No longer will you be able to paralyze me with your learning. If you say 1269 at Tintern I shall retort with 1387 at Monmouth. When you point out Nell Gwynne's birthplace in Hereford, I shall take you to the Haven Inn, where David Garrick was born, and, if you aren't very, very good, I shall tell you how much the New Town Hall cost, and who laid the foundation stone."

Medenham alone held the key to the girl's lively mood, and it was a novel and quite delightful sensation to be thus admitted to the inner shrine of her emotions, as it were. She was chattering at random in order to smooth away the awkwardness of meeting him after that whispered indiscretion at their parting over-night. Here, at least, Marigny was hopelessly at sea—desoriente, as he would have put it—because he could not possibly know that Cynthia herself had counseled the disappearance of Simmonds. Indeed, he attributed her high spirits to mere politeness—to her wish that he should believe she had forgotten the flasco on the Mendips.

This imagined salving of his wounded vanity served only to inflame him the more against Medenham. He was still afire with resentment, since no Frenchman can understand the rude Saxon usage that enforces submission under a threat of physical violence. That a man should be ready to defend his honor—to convince an opponent by endeavoring to kill him—yes, he accepted without cavil those tenets of the French social code. But the brutal British fixity of purpose displayed by this truculent chauffeur left him gasping with indignation. He was quite sure that the man meant exactly what he had said. He felt that any real departure from the compact wrung from him by force would prove disastrous to his personal appearance, and he was sensible of a certain weighing underlook in the Englishman's eyes when his seemingly harmless chatter hinted at a change of existing plans as soon as Hereford was reached.

But that was a mere feint, a preliminary flourish, such as a practiced swordsman executes in empty air before saluting his opponent. He had not the slightest intention of testing Medenham's pugilistic powers just then. The reasonable probability of having his chief features beaten to a pulp was not inviting, while the crude efficacy of the notion, in its influence on Miss Vanrenen's affairs, was not the least stupefying element in a difficult and wholly unforseen situation. He realized fully that anything in the nature of a scuffle would alienate the girl's sympathies forever, no matter how strong a case for interference he might present afterwards. The chauffeur would be dismissed on the spot, but with the offender would go his own prospect of winning the heiress to the Vanrenen millions.

So Count Edouard swallowed his spleen, though the requisite effort must have dissipated some of his natural shrewdness, or he could not have failed to read more correctly the tokens of embarrassment given by Cynthia's heightened color, by her eager vivacity, by her breathless anxiety not to discuss the substitution of one driver for the other.

Medenham was about to disclaim any intention of measuring his lore against that in the guidebooks when Mrs. Devar bustled out.

"Awfully sorry," she began, "but I had to wire James—"

Her eyes fell on Medenham and the Mercury. Momentarily rendered speechless, she rallied bravely.

"I thought, from what Count Edouard said—"

"Miss Venrenen has lost faith in me, even in my beautiful automobile," broke in Marigny with a quickness that spoiled a pathetic glance meant for Cynthia.

The American girl, however, was weary of the fog of innuendo and hidden purpose that seemed to be an appanage of the Frenchman and his car.

"For goodness' sake," she cried, 'let us regard it as a settled thing that Fitzroy takes Simmond's place until we reach London again. Surely we have the best of the bargain. If the two men are satisfied why should we have anything to say against it?"

Cynthia was her father's daughter, and the attribute of personal dominance that in the man's case had proved so effective in dealing with Milwaukees now made itself felt in the minor question of "transportation" presented by Medenham and his motor. Her blue eyes hardened, and a firm note rang in her voice. Nor did Medenham help to smooth the path for Mrs. Devar by saying quietly:

"In the meantime, Miss Vanrenen, the information stored in those little red books is growing rusty."

She settled the dispute at once by asking her companion which side of the car she preferred, and the other woman was compelled to say graciously that she really had no choice in the matter, but, to avoid further delay, would take the left-hand seat. Cynthia followed, and Medenham, still ready to deal harshly with Marigny if necessary, adjusted their rugs, saw to the safe disposal of the camera, and closed the door.

At that instant, the hall-porter hurried down the steps.

"Beg pardon, mum," he said to Mrs. Devar, thrusting an open telegram between Medenham and Cynthia, "but there's one word here—"

She snatched the form angrily from his outstretched hand.

"Which one?" she asked.

"The word after—"

"Come round this side. You are incommoding Miss Vanrenen."

The man obeyed. With the curious fatality which attends such incidents, even among well-bred people, not a word was spoken by any of the others. To all seeming, Mrs. Devar's cramped handwriting might have concealed some secret of gravest import to each person present. It was not really so thrilling when heard.

"That is 'Raven,' plain enough I should think," she snapped.

"Thank you, mum. 'The Raven, Shrewsbury,'" read the hall-porter.

Medenham caught Marigny's eye. He was minded to laugh outright, but forebore. Then he sprang into his seat, and the car curled in quick semicircle and climbed the hill to the left, while the Frenchman, surprised by this rapid movement, signaled frantically to Mrs. Devar, nodding farewell, that they had taken the wrong road.

"Not at all," explained Medenham. "I want you to see the Clifton Suspension Bridge, which is a hundred feet higher in the air than the Brooklyn Bridge."

"I'm sure it isn't," cried Cynthia indignantly. "The next thing you will tell me is that the Thames is wider than the Hudson."

"So it is, at an equal distance from the sea."

[illegible] bridge. Seeing is believing, [illegible]

(To be continued)

CARTER'S LITTLE LIVER PILLS

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them.

Publish My Letter The World Over

The Words of Harold P. Bushy, Who Was Permanently Cured of Chronic Lumbago by "Nerviline."

"Three years ago I discovered that a man subject to lumbago might just as well be dead as alive." These words open the sincere, straightforward letter of H. P. Bushy, a well-known man in the plumbing and tinsmithing business in Portland.

"One attack came after another, and lumbago got to be a chronic thing with me. I could scarcely get in a day's work before that knifing, cruel pain would attack my back. I used a gallon of liniments; not one of them seemed penetrating enough to get at the core of the pain. I read in the Montreal Witness about Nerviline, and got five bottles. It is a wonderful medicine—I could feel its soothing pain-relieving action every time it was applied. When I got the disease under control with Nerviline, I built up my strength and fortified my blood by taking Ferrozone at meals. This treatment cured me permanently, and I urge everyone to give up the thick, white, oily liniments they are using, and try an up-to-date, penetrating, pain-destroyer like Nerviline.

LETTER NO. 4311

"Please publish my letter the world over. I want all to hear of Nerviline."

Don't be cajoled into receiving anything from your dealer but "Nerviline." Large bottles 50c., trial size, 25c. Sold everywhere or The Catarrhozone Co., Kingston, Ont.

NERVILINE A Family Liniment

MISS KITTS HAS A RECORD.

She Is Only Twelve, but Has Traveled More Than 46,000 Miles.

The United States army can now probably claim the world's juvenile traveling record by virtue of the globe trotting of Miss Julia D. Kitts, daughter of Lieutenant William P. Kitts, Twenty-first United States infantry.

Incidentally, her record sheds a strong light upon the mutations of the army officer and the frequent recurrence of "moving day," says the Army and Navy Journal.

The child was born at Fort Lincoln, N. D., April 29, 1904, and was the first baby born at that post. Within three weeks she had traveled 452 miles; within two months 1,250 miles; within six months, 3,750 miles, and within one year, 13,300 miles. In this short time the baby had traveled from North Dakota to Minnesota, to the Atlantic coast, to San Francisco, and thence across the Pacific to the Philippines.

It took her only two years more to add 17,000 miles to her record, making the total distance covered in three years 32,200 miles, or an average of more than 10,000 miles a year. She has kept on going, and at present has more than 46,000 miles to her credit. This youthful tourist, who could put to shame Phineas Fogg, Jules Verne's traveling hero, has nearly completed her second tour of foreign service with the regiment.

Testing Potatoes.

Dr. Pierre Berthault of Paris has discovered that a surprising variation exists in the cellular density of potatoes. Microscopic examination shows that edible varieties have small and numerous cells, while industrial varieties possess larger and coarser cells. Dr. Berthault says that potatoes of the finest flavor have the smallest cells. Those that have the largest cells should be used only in such industries as the manufacture of starch. If the structure is a sure indicator of the quality of the potato, as the French investigator declares, a choice of the best varieties for planting should depend largely upon simple microscopic tests.

His Impression.

Judge Ben B. Lindsey, defending woman's suffrage, said of an opponent:

"He objects because he misunderstands. His description of woman's suffrage is about as wise and accurate as the little boy's description of the circus elephant.

"This little boy, seeing an elephant for the first time on Easter Monday, shouted:

"'Oh, pop, look at the big cow with her horns in her mouth eating hay with her tail.'"—Washington Star.

[illegible] Open [illegible]

An Englishman makes the suggestion that the Bacon-Shakespeare controversy may be settled by the opening of Shakespeare's grave. In order to escape the consequences of the Bard's curse, "Cursed be he that moves my bones," etc., the Englishman proposes to have the grave opened by women. It seems to us that this would be about as far as people could go in their efforts to take advantage of a technicality.—Chicago Record-Herald.

Bullets In Battle.

Instancing the fact that in the Boer war "it took 5,000 shots to hit a man," the celebrated rifle shot Ommundsen says, "In spite of improvements in the power, precision and rate of fire of modern weapons, the percentage of hits was immeasurably greater a hundred years ago than it is today."

On What Terms?

"I see," said Wiggles, "that Bobby Fancier and his wife have got a divorce."

"Really!" said Jiggles. "What a sad case! Who gets the custody of the poodle?"—Harper's Bazar.

VACANCIES AT WEST POINT.

There Are Not Enough Cadets at the Military Academy.

The difficulty in filling vacancies in the corps of cadets in the Military academy continues, despite every effort made by the war department to maintain a complete complement. There are more than fifty unfilled positions in the corps, and, while this proportion of vacancies is less than for many years, it is realized by the military authorities that provision should be made at once to keep the places filled for the best and most economical interests of the service.

A measure to that end was considered and favorably reported by the senate committee on military affairs at the last session of congress and was incorporated in the Military academy bill, but was lost in the closing days of the session.

This bill provided that whenever all vacancies at the Military academy shall not have been filled as the result of the regular entrance examinations, not to exceed thirty of the remaining unfilled vacancies shall be filled from the whole list of alternates selected in the order of merit, establishing at such entrance examinations, preferably from the same state in which the vacancies occurred; these appointments to be credited to the United States at large and to be without prejudice to any other appointment authorized by law.

The secretary of war again strongly urges that this legislation be enacted during the present session of congress. Every year there are hundreds of applications made to the war department by ambitious young men qualified physically, morally and mentally for entrance to West Point who would be more than glad to avail themselves of the opportunity to win the honor and advantages of an appointment, but who must be denied because there is no vacancy in the particular congressional district where the applicant happens to reside, while many vacancies exist in other districts not available to them.—Army and Navy Register.

A Big One In Prospect.

Mrs. Cannibal—Don't eat that little missionary.

Cannibal—Why not?

Mrs. Cannibal—It will take away your appetite for dinner.—Judge.

Fair Inference.

"I'll bet that bearded lady is a suffragist," mused Sideshow.

Tent—What makes you think so?

Sideshow—She faces the world like a man.—Philadelphia Record.

Penalty of Punctuality.

"When you make an engagement you are always right on the minute keeping it, aren't you?"

"Yes; I have lost a lot of time that way."—Houston Post.

Question of Quantity.

"I know you don't love me," she cried peevishly.

"I do love you," he demurred, "only not as much as you imagine I do."—Satire.

Capitalizing Wings.

De hymn goes dat you wants ter be a angel, but ef you had wings right now you'd hire yo'se'f out as a curiosity in a side show.—Atlanta Constitution.

BEAUTIFUL EYES

are made beautiful by long, silky lashes and well defined, lustrous brows. Eyes, like diamonds, depend on their setting. The beauties of the face are lost is the eye brows are thin and scanty, and the lashes are thing and scanty. Parisian Lash Lustre grows beautiful, soft, silky lashes. It has done so for society women throughout Europe, and it comes here well recommended to do the same for you. Parisian Lash Lustre is not a dye or colorator, but a scientific preparation for beautifying the eye lashes and brows. Our guarantee goes with every box of Parisian Lash Lustre. A two weeks' treatment will bring beauty to your eyes that you have never before possessed. By mail, prepaid, in opal boxes on receipt of price, fifty cents. B. V. To Keep Tea At Its Best It Must Be Kept In An Air Tight Package.

RED ROSE TEA "is good tea"

201

All the Same.

Dr. Wiley was talking of a "new" sort of food preservative. "They are all the same things under different names," he said. It reminded him of the old caretaker of an Episcopal church of whom he once heard.

The old fellow, as he sat on a tomb in the churchyard, dismissed as trivial the question of his proper title.

"The good old creed keeps the same for all," he said, "though they may change the words they use. Look at me. Here I used to be the janitor. Then we had a parson who called me the sextant. Dr. Thirdly gave me the name of virgin. And the young man we've got now says I'm the sacrilege."—Washington Star.

On Second Thought.

Editor—Isn't there something unique about your star that would be more readable than this old stuff about losing her diamonds?

Press agent (reflecting)—Well, she loves her husband.—St. Louis Post-Dispatch.

Hopeful Outlook.

"Why is it that men never seem to care to go to weddings?"

"Madame, men are progressive. I have no doubt that the time will come when hardly any man will care to witness a hanging."—Chicago Record-Herald.

CONCERNING YOUR EYES

Good eyesight is essential to health, comfort and appearance. Have you ever noticed a strained look on your face, or your friend's? Usually this comes from eyestrain. More wrinkles are caused by eyestrain than by age. Thousands unconsciously squint in an effort to adapt the eyes to the surroundings. Success in relieving eyestrain depends entirely upon the OPTICAL SKILL of the Specialist who prescribes the glasses. Neglect of the eyes many times leads to surgical operations, which glasses worn in time may prevent. We correct errors of vision by means of properly fitted lenses.

We have every modern appliance for accurate eyesight testing, and we grind all our own lenses. Thus assuring you accuracy and promptness. All work guaranteed.

Miss Julia Marlowe

"I am glad to write my endorsement of the great remedy, Peruna. I do so most heartily."—Julia Marlowe.

Any remedy that benefits digestion strengthens the nerves.

The nerve centers require nutrition.

If the digestion is impaired, the nerve centers become anemic, and nervous debility is the result.

CANADIAN ENGINEER PUBLISHES ARTICLE BY R.W. HEAFIELD

Many will hear with regret that Mr. R. W. Heafield, 264 Reid Street, is leaving the city. He has secured a good position with the Tudhope Motor Co., at Orillia. He has been in Peterborough for only about twelve months, and during that time has become deservedly popular, and has made many friends.

An article of his, published in the "Canadian Engineer" a short time ago, on store work in connection with engineering, was very favorably received, and certainly, by the very able way in which he has handled his subject, he not only shows a complete knowledge of it, but he has a very bright future before him. So far he has made good, and if the wishes of his numerous friends count for anything, then he may be assured of a still more prosperous time, and although his friends are sorry to lose him, all wish him every success.

CHEESE BOARD

Mr. Gillespie Bought Entire Offering at 13 3-8.

At the meeting of the Peterborough Cheese Board this morning in the Bank of Montreal Chambers there were only 914 cheese boarded. Mr. G. A. Gillespie bought the whole offering at 13⅜c per pound.

The business of the adjourned annual meeting was also dealt with.

The election of officers took place resulting in the reinstating of all last year's officers, including the President, Mr. W. C. Switzer, who requested to be relieved of his duties.

On motion of Messrs. Cook and Morton it was decided to allow the buyers as well as the sellers to become members o the Board on payment of the annual dues. It was also decided to hold meetings every two weeks during the summer months of July and August, as usual, and to take no action in the matter of holding weekly meetings during those months.

The meeting then adjourned for three weeks.

WITH THE RED COATS

A walkout preceded the weekly drill of the 57th Regiment last night, after which the orders were read as follows:

Headquarters,
Peterborough, 14th May, 1912

Orders by the Commanding Officer, 57th Regiment, Peterborough Rangers.

1. The following extracts from General Orders are promulgated for the information of the Regiment. G. O. No. 47, March, 1912.

"The following units of the active militia will assemble for training in camp of instruction for the number of of days and at the places, and on the dates herein specified:

3rd Divisional Area.

Barriefield—9th Infantry Brigade—City Corps—Infantry, 14th Regiment, 15th Regiment, 41st Regiment, 43rd Regiment, 57th Regiment.—June 6th to June 10th.

2. Detail of duty for the week ending May 20th, 1912: Captain for the week, Captain McLean; next for duty, Captain Watt; Subaltern for the week, Lt. C. Lech; next for duty, Lt. Hagerman.

3. The following are struck off the strength of the Regiment: A. Co., Corp. W. E. Manley.

4. The following are taken on the strength of the Regiment: A. Co., W. Brown, A. Wagstaff, J. R. Hoscar, C. Sanderson; Signalling Section, S. Ecobichon, J. D. Johnston, F. Allen.

5. Leave of absence from parade is hereby granted to Major Bennett and Lt. Ackerman.

6. The Commanding Officer has been pleased to make the following promotions: A Co., to be Corporal provisionally, Ptes P. Foster and R. Piercy; To be Lance Corporals, Ptes A. Price, H. E. Carpenter, A. Briscoe and G. McGregor.

H. Co.—To be Sergeants provisionally, Ptes Anderson and McKnight; To be Corporal provisionally Pte J. Ryan.

D. Walker, Bt. Major,
Adjutant."

Mr. W. R. Morris, president of the Canadian Club, introduced the matter. The Committee appointed was as follows: Messrs. W. H. Moore, A. G. Gillespie, and Rev. Canon Davidson.

The Peterborough Light & Power Company's showroom will be open on Tuesday, Thursday & Saturday evenings during May and June from 8 to 10 p.m., for the convenience of those wishing to secure gas appliances, or to arrange for gas connections. 5d

BIRTH

GADD.—To Mr. and Mrs. C. Gadd, 467 King street, on Sunday, May 12, a son.

"With the right balance and the correct hang".

An Odd Pair of Trousers
$4, $5 or $6, $7.

IT'S the day of the all-through-suit, to be sure, but an odd pair of trousers helps out a good coat.

We may match the suit you have exactly.

Or help out with a pair that will harmonize.

Or make you one to order from the same pattern.

Semi-ready Trousers have the proper balance and "hang," and are better than the ordinary kind. We recommend the lines at $6 and $7. The label is on every pair.

The CRESSMAN Company Limited.
Peterborough, Ont.

FIFTEEN YEARS AS SECRETARY

Mr. T. Q. Quartermaine has Given Long Service to Board of Trade.

The reports of the President, Mr. V. Eastwood, Mr. T. Q. Quartermaine, and Mr. Peter Campbell, treasurer, were read to the Board of Trade last night. The re-election of Mr. Quartermaine to the Secretaryship makes his fifteenth year as Secretary of the Board. The Treasurer reported a balance of $60.88.

OBITUARY

Mr. James Trew

A well-known and highly respected resident of Peterborough, Mr. James Trew, passed away yesterday afternoon in the Nicholl's Hospital. The late Mr. Trew has been for many years a resident of this city, and for twenty years has been a faithful member of the Salvation Army and a member of the Orange Lodge. For the past two years he has been living in the Protestant Home, until lately his health forced him to move to the Nicholl's Hospital.

His wife predeceased him some years ago, and he is survived by one daughter. The funeral took place from Comstock's undertaking parlors to the Little Lake cemetery this afternoon, Ensign Merrett officiating.

Mrs. James Hoar

After an illness of just one week in St. Joseph's Hospital, the death occurred yesterday, May 14th, at two o'clock, of Annie Kearney, beloved wife of Mr. James Hoar, 378 McDonnel street.

The deceased was widely known in the community, and her death will be greatly regretted by all her many friends. To mourn her loss are her sorrowing husband, her mother, one child, Jerome Orville, three brothers and [illegible] sisters, namely, Patrick and Cornelius, of Seattle, Wash.; James, of Peterborough; and the sisters, Mrs. J. E. McNeil and Mrs. J. Doherty, of Chicago, Ill.; Mrs. C. De La Grange, of Chester, Montana, and Margaret, of Peterborough.

The funeral will leave the family residence Thursday morning at nine o'clock to St. Martin's Church, Ennismore, and thence to St. Martin's cemetery, Ennismore.

Mrs. David MaGrath

The death occurred this morning [illegible] eight o'clock of the wife of Mr. David McGrath, [illegible] Otonabee. The deceased lady was popular among a large circle of acquaintances and her death will be deeply regretted by all. She is survived by her husband and several grown up children.

The funeral will take place on Friday morning at 9 o'clock to St. Peter's Cathedral, and thence to St. Peter's cemetery.

Mrs. B. R. Mowry

Word was received in the city this morning of the death at Gravenhurst of Fannie Carow, wife of Mr. B. R. Mowry, of Gravenhurst and formerly of Peterborough. The deceased was 80 years of age. She passed away at three o'clock this morning. Besides her husband three sons and two daughters survive. They are Messrs. Aldas, Albert and Bradley, and Miss Sadie, at Gravenhurst, and Mrs. Alex. Jackson, of Lindsay.

Two sisters are, Mrs. R. N. Roddy and Mrs. Annie Heathorne, of this city. Mr. John Brownlee, also of Peterborough, is a half brother.

The remains will arrive in Peterborough to-morrow on the 11,34 G. T.R. train and the funeral will proceed to the Little Lake Cemetery.

LIVE NEWS FROM KEENE

Special Correspondence.

Keene, May 15.—Mr. George McCartney, of Bethany, spent last Thursday in the village.

Mrs (Dr.) Harrison is visiting friends in Toronto.

Mrs. Wm. Wedlock, sr., spent a few days last week with her daughter, Mrs. Wesley Montgomery, at Villiers.

Cyril Hill, of Peterborough, was in the village on business Tuesday and Wednesday of last week.

The little son of Vincent McCarthy met with a very painful accident last Tuesday morning, by falling on a broken piece of glass, cutting the arm to the bone. The little fellow is doing nicely.

Miss J. Rennir was in Peterborough on Saturday.

Mr. W. Wedlock shipped a car load of lumber to Peterborough on Saturday.

Mr. and Mrs. James Bryce, of Peterborough, spent Sunday with Mr. Archibald Bryce.

Miss Lillian Wedlock spent Saturday in Peterborough.

Mrs. Thomas Wedlock, of Toronto, is visiting at the home of her father, Wm. Kempt.

Miss Joe Kenneally spent Friday and Saturday in Peterborough.

Born, on May 11th, to Mr. and Mrs. W. W. Drummir, a son. Mother and son are doing nicely.

Miss Edith Bryce is visiting at the home of her sister, Mrs. Jack Henderson.

Miss Maggie Miller spent Saturday in Peterborough.

Miss Jean Campbell, who has been visiting her brother, Dr. Campbell, of New York, returned home on Thursday of last week.

Mr Herbert Miller has rented the agricultural grounds for pasture, and posted notices forbidding anyone to trespass. The grounds have always been used for different games, but Mr. Miller ordered the ball players off the grounds, which caused a deputation of the players to call on the secretary and president of the society, the latter giving them permission to use the grounds as in other years, so we hardly know what steps will be taken by Mr. Miller.

Mrs Wm. Kempt, who has been very ill, is much improved.

Mr. James McNeil, sr., is having his residence painted by H. Poole, of Bethany.

Miss Lillian Campbell returned from New York on Saturday.

Mrs George Carey is visiting at the home of her son, Redmond, of Omemee

J. C. Reid, of Peterborough, was in the village on Friday.

Richard Skinner was in Peterborough on Tuesday of last week

Robert Moher, Leo Young, Mollie Young and Miss Stobo, of Peterborough, were guests at the Victoria House on last Wednesday.

Mr. and Mrs. L. Busby spent last Tuesday in Peterborough.

Mr. Andrew Lumsden, who has been out of the village for a few days, has returned home.

We are sorry to report Miss Alice Walker very ill.

Fred Fife of Germyn, was in the village on Thursday.

Mr. James McFarlane is building an addition to his residence.

Mr. James McNeil, sr., is reported very ill

Wm. Harris is visiting his daughter, Mrs. James Ashburn at Oak Lodge.

Mr. Clark of the Bank of Toronto, went to Millbrook on Thursday to attend the funeral of his aunt.

James McNeil, sr., spent Thursday in Peterborough.

Mrs. T. Sharp and daughter have returned to their home in Alberta.

Mr. James Story, of Peterborough, was in the village on Tuesday, in the interests of the Farmers' Insurance Co.

Miss K. McNeil visited friends in Peterborough a few days last week.

C. Patterson spent the week-end in Warkworth.

Mrs. Dave Wallace returned home on Saturday.

Miss Birdie Gray, of Peterborough, is acting as nurse at Dr. Harrison's Sanitarium.

Miss Pearl Howson underwent a slight operation on Thursday and is doing nicely.

Wm. Edwards, of Peterborough, spent Sunday in the village.

Jas Armstrong, of Oshawa, is visiting at the home of his aunt, Mrs John Moon.

Mr. James Fife is reported seriously ill.

The J. B. McColl tug, after a desperate fight with the heavy winds Monday forenoon, failed to make the mouth of the river and was compelled to tie up at Sugar Island until the afternoon. She arrived at Keene wharf about 3 p.m., and took out a scow load of lumber purchased by the government from W. Wedlock.

Molly Moore left Monday morning for Peterborough to finish her course in the Business College.

The Orange Lodge members met last Monday evening for their regular monthly meeting, and to make preparations for their walk on July 12th at Peterborough. [illegible] was in Peterborough on business on Friday of last week.

Mothers' Day was observed in the Methodist church last Sunday morning. After Sabbath school services a program, consisting of music and recitations, was rendered by the different classes. The pulpit was beautifully decorated with cut flowers and plants, and at the evening service Rev. Johnson preached an appropriate sermon in his usual interesting manner.

Wm. Bell spent Saturday and Sunday in Peterborough.

Mr. and Mrs. W. W. Wedlock spent Sunday at Villiers.

Trip to Stoney Lake Saturday, May 18. Steamer leaves Lakefield on arrival of morning train from Peterborough, returning to connect with 4.40 p.m. train. Stoney Lake Navigation Co., F. G. Young, General Manager. 2d

Rev. John Galt, of Picton Baptist church, will go to Vankleek Hill.

Our New Perfection Broiler

Is pleasing many women. It enables the housewife to broil as well on the New Perfection Stove as over a coal fire.

It uses all the heat.
It cooks evenly.
It broils both sides at once.
It doesn't smoke.

And of course you are familiar with the
New Perfection
WICK BLUE FLAME
Oil Cook-stove

It is such a convenience all the year round. It will bake, broil, roast and toast just as well as a regular coal range.

Ask to see the New Perfection Stove at your dealers. It is handsomely finished in nickel, with cabinet top, drop shelves, towel racks, etc. It has long, enameled, turquoise-blue chimneys. Made with 1, 2 or 3 burners. Free Cook-Book with every stove. Cook-Book also given to anyone sending 5 cents to cover mailing cost.

THE IMPERIAL OIL COMPANY, Limited
Winnipeg, Montreal, St. John, Halifax and
Queen City Division, Toronto

HEAVY AWARD

Given Reginald A. Fessenden, a Nephew of Mr. C. Fessenden

Special to the Review.

Boston, May 15.—Verdict of $406,175 has been awarded Reginald A. Fessenden, a native of Bolton, Quebec, and formerly of Port Hope. He is a protege of Edison, known as the "Wireless Wizzard." It is the largest award ever given by a Massachussets jury. The case was won by Attorney Walter Badger, of Boston. Mr. Fessenden has been instructor at various American and Canadian colleges.

Reginald A. Fessenden is a nephew of Mr. Cortez Fessenden, Mathematical Master at the Collegiate Institute. His early education was received at Trinity College School, Port Hope. This case is in connection with infringements of an invention for wireless telegraphy.

OUT OF PRISON

Through the instrumentality of G. N. Gordon, and Chief of Police Thompson, the release from Central Prison has been secured of Joseph Shearer who was sentenced to two years less one day, for his connection with the theft of a large quantity of feed from the Houedry pea factory last Spring. He is a young man.

Mr. Gordon was the prisoner's counsel at the time of the trial.

His Royal Highness had the case laid before him, and after consideration, Shearer, who has served about one year of his sentence was granted a release under the Ticket of Leave Act.

HILL'S TEAM SCORED SHUTOUT AT THE OVAL

Cap D. Hycke's and Cap. H. Hill's team clashed yesterday afternoon at the Oval. Hill's team won out by a score of 6 to 0. Huycke twirled for the winners and allowed but one safe hit. Smyth, who pitched for the losers, pitched good ball, but was wild at times.

Batteries—Huycke and Hill, Smyth and Knapman.

Umpire—Mr. Firth.

REV. DR. YOUNG WAS HONORED

Many friends in this city will be glad to learn of the friendly recognition accorded Rev. Dr. W. R. Young and Mrs. Young in Montreal.

The Witness says—

"The Rev. Dr and Mrs. Young were waited upon last evening at the parsonage by Mr. Joseph Eveleigh and Mr. H. H. Lang, two prominent members of the congregation of Douglas Methodist church, and were informed that it was the wish of the congregation that their pastor's vacation this year should take the form of a trip to Europe, and on behalf of the congregation they presented them with a cheque for $1,275. Mr and Mrs. Young were completely taken by surprise, as those in charge of the matter had given no intimation of their intention."

TO ORGANIZE TENNIS CLUB

A meeting of the young men of Sacred Heart Parish is called for to-morrow, Thursday, evening, at 8 o'clock, for the purpose of forming a young men's tennis club.

The meeting will be held in the Sacred Heart Parish is called for terested are expected to be on hand.

SUMMER FAIR

Will the people who promised contributions of [illegible] for the Orange Tree and Parcel Counter, in connection with the Peterborough Summer Fair, kindly send their contributions no later than May 20th, to Miss L. C. Revell, 333 Rogers street, Ashburnham.

WANTED AT ONCE
Two Salesmen and Two Sales-ladies to sell inside lots in the City of Saskatoon. Will pay salary and commission to right parties. Apply to O. G. Hale, 332, George Street, district manager Walch Land Co., Peterborough. 2d

MARRIED

JARMAN—GARDEN— On May 14th, at All Saints church, Hamilton, by Ven. Archdeacon Fornoret, Augusta Campbell, (Gussie) daughter of A. C. and Mrs. Garden, 150 Herkimer street, to Frederick William Jarman, of Cochrane, Ont.

McLAUGHLIN MOTOR CAR

McLAUGHLIN MODEL 35

McLaughlin 35 | **McLaughlin 35**

A car embodying the principles which have been tested, tried and proven more than **GOOD** under the most exacting regulations and conditions. Here is a copy received from Mr. Thomas Davis, Chief of the fire department, Victoria, B.C., what he has to say in regard to the McLaughlin Car he has purchased.

Victoria, B.C,

McLAUGHLIN MOTOR CAR CO.,
Oshawa, Ont.

Dear Sirs,—The McLaughlin-Buick, 40 h.p., chief's automobile, which was built for the department and delivered last May, has now been in our possession long enough for us to realize its good points. It has given perfect satisfaction in every respect. I have responded to 187 alarms with it to the present time, and over very rough roads. Its hill climbing capabilities are excellent, the cost of maintenance in comparison with the horse drawn vehicle used for the same purpose is trivial.

I shall be pleased to recommend this type of a machine to any Chief of Fire Dept. requiring same ; you are at liberty to refer them to me.
Yours respectfully,
(Signed) THOMAS DAVIS, Chief of Fire Dept.

Peterborough Garage and Showrooms,

WESTWOOD MAN KILLED BY ZULUS WHEN CONSTABULARY WERE ATTACKED BY BLACKS

London, Ont., May 15. — Dudley Mooney, a former London man, who enlisted with the Canadian South African Constabulary and went out for the Boer War, and who has since had a most adventurous time, has returned home. He relates many interesting matters concerning the Canadians there. Since taking part in the last Zulu uprising Mooney has been in charge of the New Primrose gold mine, in which he was reported to have been killed last November, when a ledge of rock 1,700 feet long fell in. The Londoner was still in the shaft and not fifteen feet from the cave-in when the crash came.

Mooney tells an interesting story of the death of Lorne Boak, a former St. Thomas school teacher, and a man named Roberts, who at one time lived in Westwood, near Peterboro'. During the Zulu campaign thirteen members of the constabulary were marching through Zululand when they were suddenly ambushed by a band of blacks. Boak, stating that he would walk ahead while the others stopped to drink from a stream, started out, and in an instant was cut down, seven assegais penetrating his body. Mooney jumped at Roberts' shout of warning, and as he turned saw an immense Zulu with his spear poised only a few feet away. A bitter fight was in progress in an instant, Mooney shooting explosive bullets from his revolver, and tearing a leg off his man. Boak, Roberts and five others fell pierced with assegais, while the rest, with one exception, were injured more or less seriously. A shot from a rudely constructed rifle made from a piece of gas pipe wounded Mooney in his leg, but he, with others, remained to bury their comrades. Boak was dug up by Zulus and his body hacked to pieces, but the remains were later gathered and reinterred.

MAIL DELIVERY FOR NORTH

TENDERS ASKED FOR

EAST SECTION OF SMITH

Tenders are asked for the delivery of mail along a route which is given below. Tenders will be received up to 12 o'clock on Tuesday, June 28. This is a new route for the northeast section of Smith township. On application blanks can be secured at the post offices at Lakefield, Young's Point or Selwyn. The contract includes the King Edward mail boxes, $1 being given for each box, per annum. The route is :

To leave Lakefield daily, Sundays excepted, at 2 p.m., or after arrival of mails by train from Peterborough, proceed north to the 11th concession a distance of 2 and 3-4 miles ; thence north-east along the main travelled road to Young's Point, 2¾ miles ; thence west 3 miles along the 12th concession line to the corner between lots 27 and 28 ; thence north 2 concessions, 2 miles, to the 14th concession ; thence east along the 14th concession 1 mile to the corner between lots 30 and 31, then south one concession, one mile ; thence west one mile to the corner between lots 27 and 28 ; thence south one mile to the 12th concession, thence west along said concession line passing through Selwyn enroute about two miles to the corner between lots 21 and 22 ; thence south along the town line one mile, thence southwesterly across lots 21, 20 and 19 to the corner known as the Middle Line, between lots 18 and 19 two miles; thence south across concessions 9 and 8 two miles to the 8th concession line, and east along said line about 3 miles, back to Lakefield a distance of about 24 miles in all.

DEALERS SAY THEY WOULD NOT SWEAR TO THE AGE OF VEAL

A Chance for the Health Association to Secure a Donation of $100.

The police court case of yesterday morning, when Mr. Gilbert Thompson was fined $10 on the charge of selling veal under the age limit of four weeks has aroused considerable interest, particularly among the meat dealers of the city.

The Review called up several dealers this morning, but failed to find one who would be willing to swear to the age of veal, and they one and all were of the opinion that the Sanitary Inspector was no wiser in this respect than they.

Mr. Thompson yesterday morning would [illegible] oath that the veal he sold was under or over the limit. He makes his purchases of cattle not by age, but [illegible] from the farmers, through his buyers, and (naturally enough, could not state under oath in police court the age of the veal. Mr. Spence swore the meat was under the age limit. Magistrate Dumble commented in words to the effect that he could not see anything wrong with it.

A Review representative met Mr Thompson this morning, and he was firm in his statement that the inspector could not tell the correct age of veal. Furthermore, Mr. Thompson said that he would give $100 to the Peterborough Health Association or any charitable institution, if Mr. Spence could furnish such correct information.

There appears to be somewhat of the "irony of fate" in this case. Mr. Thompson needs no introduction to the buying public as a dealer who takes every precaution at his slaughter-house, and in delivery, in the interests of his customers. He has a modern slaughter house, and has been in the business [illegible] past twenty years.

MR. W. M. McILROY LIKED THE WORK OF WHITE CAPS

Mr. Wm. McIlroy, C. P. R. ticket agent and executive member of the Ball Club, accompanied the local players to Hamilton, who went by special coach, arranged for by Mr. McIlroy.

He is enthusiastic in commenting on the work of Manager Templin's team, and attributes their defeat yesterday to the fortunes of the game. They hit and fielded like winners and even with the bad throw in the second by Mooney, looked good to tack on to the game in the eighth, when with no hands down, third and second base were occupied by Peterborough White Caps. Sharp fielding by the Kolts held them to the bags and retired the side.

Mooney's injury, a split finger, was largely responsible for the bad throw which went high over Dolan's head and allowed two runners to score.

Durr, pitched a clever game and was more effective than Teed for Hamilton.

WHITE CAPS SHOW CLASS IN OPENER WITH LEE'S KOLTS

Crowd of 2,500 Saw Hamilton Win by Score of 3-2---Kolts Presented With Two Runs in the Second Through Wild Throw by Mooney, Who Had Injured His Hand.

White Cap Twirler Had Big Day and Held Hamilton Runless for Eight Innings—Mooney, Tully and Schwartz Were Active With the Bat.

Hamilton, May 15.—The Canadian League season opened here yesterday afternoon, when Peterboro' and Hamilton met, Hamilton being fortunate in winning by 3 to 2. The word fortunate is used advisedly, for it was good fortune that gave the locals the game. Mooney, who was catching for Peterboro', had his thumb injured during the game, and shortly after he had a chance to throw men out at first, but had no control, and his wild throw cost the Peters' the game.

The game was witnessed by about 2,500 and the brand of ball seemed to please the fans. Mayor Lees pitched the first ball, with Controller Gardner behind the bat. Controller Allan at bat and Controller Bailey acting as umpire. Both as regards the game and the attendance the opening fixture augurs well for the local season. Both teams showed excellent material, that is sure to improve as the season advances. Burr, who pitched for Peterboro', made a hit with the local fans, and the work of Fisher behind the bat for Hamilton satisfied them, while Teed pitched a steady game. Score:—

Peterboro'—	A.B.	R.	1B.	P.O.	A.	E.
Schwartz, l.f.	4	0	2	2	0	0
Hartman, 3b.	4	0	1	0	0	0
Tully, s.s.	3	0	2	1	2	1
Templin, 2b.	3	0	0	0	1	0
Dolan, 1b.	2	0	0	12	0	0
Beard, m.	4	1	0	2	0	1
Brode, r.f.	4	0	1	2	1	0
Mooney, c.	3	0	2	5	0	1
Durr, p.	3	1	1	0	3	0
Totals	30	2	9	21	7	3
Hamilton—	A.B.	R.	1B.	P.O.	A.	E.
Schaefer, 1b.	3	1	2	10	1	0
Keenan, 3b.	4	0	1	1	3	0
Murphy, r.f.	3	0	1	1	0	0

THE LIMIT OF COLD

Absolute Zero and the Way It Is Defined by Science.

POINT OF MOLECULAR DEATH

At 459.4 Degrees Below the Fahrenheit and 273 Degrees Below the Centigrade Zero There Is No Heat, No Energy and No Motion Within Matter.

Few people have any definite idea of the meaning of absolute zero. When temperatures or degrees of heat are mentioned it is natural for most people to think of these degrees as given on the household or Fahrenheit scale, with its freezing point at 32 degrees and its boiling point at 212. The space on the Fahrenheit thermometer below the freezing point of water is divided into thirty-two equal spaces down to zero. The other thermometer scale in common use is the centigrade scale, with its boiling point at 100 degrees and its freezing point at zero. The zero points on these two scales are not the zero of absolute temperature or absolute zero, but are only two relative points.

Temperature as used and spoken of in ordinary practice is only relative and is measured in reference to two points—the boiling and freezing points of water at sea level. But science and scientific investigation requires another scale for its measurements, which has a theoretically correct zero point. This scale is called the absolute scale, with its zero point 273 degrees below the zero of the centigrade scale and 459.4 degrees below that of the Fahrenheit zero. This is what is meant by the zero of absolute temperature.

Absolute temperature has been defined. According to science, all matter is composed of small particles or molecules in ceaseless vibration in the spaces between them. This molecular motion, as it is called, is much greater in gases than it is in liquids or solids, and the ultimate particles are farther apart. The idea of absolute zero and the place assigned to it on the absolute scale is based on this property of matter—motion. In gaseous forms of matter the motion is greater because of the greater space between the particles.

To illustrate the meaning of this point and to explain how it was got, imagine a volume of air of 273 cubic inches at the temperature of freezing water on the centigrade scale. Heat this volume of air to 1 degree centigrade and its volume will have increased to 274 cubic inches, and if heated to 2 degrees its volume will be 275 cubic inches. Likewise, if the original volume be cooled 1 degree below the freezing point of water its volume will be decreased by one cubic inch and become 272 cubic inches. For every additional decrease of 1 degree the volume will contract one two-hundred and seventy-third part of what it was to begin with, so that, if the cooling is carried far enough, it is easy to see that at 273 degrees below the freezing point of water the volume will become nothing.

The volume of a gas is due to the real volume of its individual particles, together with the volume of the spaces between these particles. At ordinary temperatures these particles are in swift motion. But for every degree of cooling this motion is slackened, and the paths of vibration become shorter. This motion continues down to 273 degrees below the centigrade zero, where the motion has entirely ceased and the paths of the particles are infinitely short. Of course the gas under consideration at —273 degrees will have a volume due to the sum of the volume occupied by the molecular particles themselves.

This 273 degrees then is the absolute zero. It is the point of molecular death. No heat is there, no energy and consequently no motion. Matter at this point is entirely motionless within itself.

The thermometer scales of the world should be based on it as the logical starting point. The freezing point of water, which is zero on the centigrade scale, referred to the absolute scale is —273 degrees, while the freezing point of 32 on the Fahrenheit scale is —459.4 degrees on it. The ordinary temperature of a room is about 68 degrees F., or 527.4 degrees on the absolute scale. On the same scale summer heat is about 558 degrees F.

The zero of absolute temperature has nearly been reached in the preparation of solid hydrogen gas and liquid helium. The temperature of liquid [illegible] so that the individual [illegible] of liquid helium have almost become motionless. Probably in the near neighborhood of absolute zero this gas, which is the only one that has not been solidified, will become solid and represent matter in its state of molecular death.—W. C. Dumas in Chicago Record-Herald.

The Longest Novel.

The "Story of the Eight Dogs" is the longest novel that has ever been published. Fortunately, perhaps, it is written in Japanese, so no one will set himself the task of reading it. It contains 106 volumes, several hundred characters and numerous dogs, all of which are successfully disposed of by the time the last chapter is reached. Just imagine reading through that—one book that would last a lifetime!

The world's great men have not commonly been great scholars nor its great scholars great men.—Holmes.

PILES CURED IN 6 TO 14 DAYS

our druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

Biliousness—is certainly one of the most disagreeable ailments which flesh is heir to. Coated tongue—bitter taste in the mouth—nausea—dizziness—these combine to make life a burden. The cause is a disordered liver—the cure Dr. Morse's Indian Root Pills. They go straight to the root of the trouble, put the liver right, cleanse the stomach and bowels, clear the tongue and take away the bitter taste from the mouth. At the first sign of biliousness take

Dr. Morse's Indian Root Pills 40

His Twenty Dollar Egg.

A hen on the farm of Henry L. Jost, assistant prosecuting attorney, laid her first egg the other day. Incidentally it was the first egg laid by any member of the flock, and Mr. Jost took his account book down from the shelf and figured just what that egg cost him.

"As nearly as I can estimate," said he, "I am out just $20 for that egg. I have been feeding those chickens all winter, and now, at last, I am rewarded. Occasions when I could sit down to a banquet that cost $20 a plate have been rare with me, but I can claim to have eaten a twenty dollar breakfast this morning. Some of my friends have insisted that I should have had the egg framed, but I ate it and got at least $20 worth of enjoyment out of the meal."—Kansas City Journal.

Deplorable Result.

A public house in a Yorkshire district displays in one of its windows this notice: "Football Results Received Here." Into this haven one evening a man entered, supporting a young man whose figure testified to the fact that he had been engaged in some violent encounter.

"Ye receive futba' results here, I see," said the former.

"Yes, we do," replied the barman.

"Well, here's one frae the futba' match. Ye might keep him till he comes to hissel'!"—Farm and Home (England).

Benevolence.

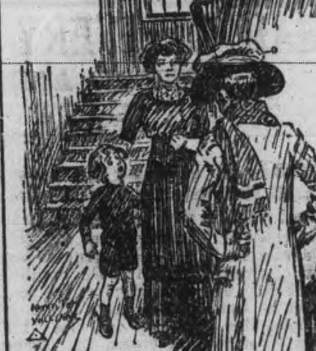
"So you won't take children in your apartment house?"

"Couldn't think of it," said the landlord.

"Why do you dislike children?"

"I don't. I'm so fond of them that I don't want to take a chance on their being kept awake by people who play the piano till midnight."—Washington Star.

Resenting It.



Ex-Servant—So you won't give me a character (with deep scorn), you—you lady!

Monty—You're not, are you, mother?—Punch.

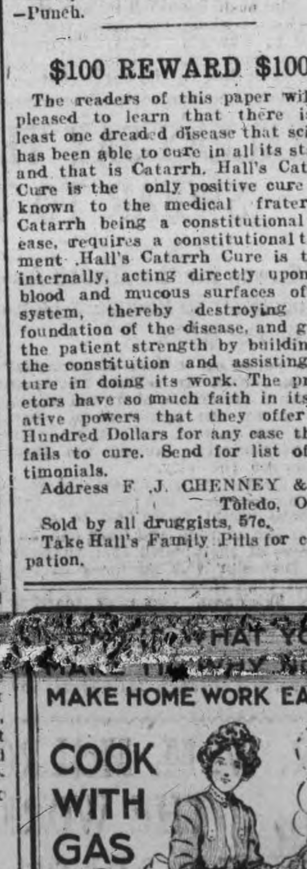
$100 REWARD $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENNEY & CO., Toledo, Ohio.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.



[illegible] WHAT YOU [illegible] WHY NOT

MAKE HOME WORK EASY

COOK WITH GAS

LESS WORK—LESS DIRT
LESS EXPENSE

ANTICIPATING HER BLUFF.

The Landlord Profits by the Experience of Other Springs.

"I have called to collect the rent," said the landlord.

"Yes," replied the lady of the house, "come in. Now, before I give you the money this month, I"—

"Just a minute, madam," said the landlord. "I can save your time for you. I know the parlor isn't fit for a pig to live in, the dining room wall paper is a shock to people of refinement, the kitchen walls are a disgrace, and the back porch is a menace to life and limb. I'm also aware that you won't stay here another month unless the barber shop wall paper in the back bedroom is changed to something in a delicate pink, and I'm next to the fact that you're ashamed to have people look at such gas fixtures as I have provided. This spring I'm going to paint the front and back porches and let it go at that."

"Thank you very much," said the lady meekly. "You have saved me a lot of trouble. That is all we really expected to have done, but I was afraid that I should have to make the same old bluff to get that much out of you."—Detroit Free Press.

A Real Treasure.

After addressing a woman's cooking club a famous lecturer was besieged by the members, who questioned him about his own household and about his kitchen in particular.

"Are you satisfied with your cook?" some one asked him.

"Yes, indeed," was the reply.

"Is she economical?"

"Very."

"Can she bake pies and bread?"

"The best in the land."

"Is she neat about her work?"

"As tidy as a pin and as attractive in appearance as one would care to see."

"How about her disposition?"

"I think it is about perfect."

"Huh!" exclaimed one of the matrons who had been having trouble with her cook. "It's a wonder you don't marry the girl."

With a satisfied smile the lecturer replied:

"That's exactly what I did. My wife does her own cooking."—Youngstown Telegram.

Looking Ahead.

Village Policeman (who has locked up his quarrelsome wife)—There! I shall have a little peace now! But how about tomorrow when I let her out?—Fliegende Blatter.

Peace Hath Her Victories.

She—No, I can never marry you, but we can always be friends.

He—Well, that is one of the advantages of not getting married.—Puck.

ROYAL NAVAL COLLEGE OF CANADA, HALIFAX, N.S.

THE next examination for the entry of Naval Cadets will be held at the examination centre of the Civil Service Commission in November 1912; parents or guardians of intending candidates should apply to the Secretary, Civil Service Commission, Ottawa, for entry papers before 1st October next.

Candidates must be between the ages of 14 and 16 on 1st October, 1913.

Cadets are trained for appointment as Officers in the Naval Service, the course at the College being two years, followed by one year in a Training Cruiser, after which Cadets are rated Midshipmen.

Further details can be obtained on application to undersigned.

G. J. DESBARATS,
Deputy Minister, Department of the Naval Service.

Department of the Naval Service,
Ottawa, May 6th, 1912. —22868

ONTARIO

Provincial Loans of $2,000,000 and $210,000

THE GOVERNMENT OF THE PROVINCE OF ONTARIO, under the authority of Chapter 4, of the Statuets of Ontario, 1911, invites subscriptions from the public for a loan of $2,000,000 on bonds of the Province of Ontario, or "Ontario Government Stock."

The bonds will be dated 1st of May, 1912, and payable on the 1st November, 1941, in denominations of $1,000 each, with coupons attached for interest at the rate of 4 per cent. per annum, payable half-yearly, on the 1st May and 1st November in each year, at the office of the Provincial Treasurer, Toronto, or [illegible] the Bank of Montreal, in Montreal, Canada, and in New York, N.Y., at the holder's option. Bonds will be made payable to bearer, but on request will be registered in the office of the Provincial Treasurer and endorsed as payable to bearer, but on request of holders will be exchanged for "Ontario Government Stock" at any time.

Also balance of Algonquin Park Loan of $210,000 on the same terms and with the same dates, under the authority of Chapter 9, 1 George V.

The issue price during the month of May, 1912, will be 102 for each $100, and after the 31st day of May, 1912, the issue price will be 102 and interest accrued from the 1st May, 1912.

ALL BONDS AND INSCRIBED STOCK ISSUED UNDER THE AUTHORITY OF THE SAID ACT ARE FREE FROM ALL ONTARIO PROVINCIAL TAXES, CHARGES, SUCCESSION DUTY AND IMPOSITIONS WHATSOEVER.

American Crews Barred.

Ottawa, May 15.—The Railway Commission, according to a statement yesterday by Commissioner Scott, will issue a mandatory order prohibiting the Midland or Great Northern Railway from operating its trains by American crews from the boundary to Winnipeg.

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for Wharf or Retaining Wall at Owen Sound, Ont.," will be received at this office until 4.00 P.M., on Tuesday, June 4, 1912, for the construction of a Wharf or Retaining Wall at Owen Sound, Grey County, Ont.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department and at the offices of J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont.; H. J. Lamb, Esq., District Engineer, Windsor, Ont., and on application to the Postmaster at Owen Sound, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order
R. C. DESROCHERS,
Secretary.

Accident Insurance

Following the Titanic Disaster no one will think of travelling without first taking out an Accident Policy.

It is interesting to know that practically all the Canadians who lost their lives through the Titanic wreck carried Accident Insurance. The average amount to be paid by Accident Companies alone, is over $30,000 for each Canadian lost.

The Double Indemnity and Bonus feature of The Dominion of Canada and General Accident Assurance Company policies are worthy of investigation before placing your Insurance.

PETERBORO'S OPPORTUNITIES DEPICTED BY MR. RYERSON RITCHIE TO BOARD OF TRADE

At last the longed for tide seems to have turned in favor of the Board of Trade. Last evening at one of the biggest, best and most enthusiastic meetings ever recorded in its history, golden prospects for the future sprang into being, and ambition and pride in the city of Peterboro received a second birth.

The man responsible for the decisive change was Mr. Ryerson Ritchie who delivered one of the most stirring and stimulating addresses, on Peterborough's prospects and possibilities, ever heard from a local platform.

If all meetings of the Board of Trade of the future arouse the intense spirit manifested last night, then the days of knocking have ended and the Board of Trade will no longer have to submit to the constant jocular references to which it has so long been subject.

Seating accomodation last night was taxed to the limit and more spacious quarters could have been most appreciatively utilized.

Among those present were noticed the following—J. J. Turner, jr.; Rev. Canon Davidson, J. John, P. Campbell J. Riddell, C. Coleman, W. R. Morris, T. E. Bradburn, C. K. Jameson, V. Eastwood, G. A. Gillespie, W. S. Dodds, G. O. Cameron, Judge Hoycke, S. Vinette, E. H. D. Hall, S. R. Armstrong, W. Langford, W. H. Moore, Cortez Fessenden, G. C. Wainwright, Dickson Hall, Dr. Morrison, W. J. Dunsford, W. G. Morrow, F. L. Goodwill, Frank Adams, T. H. Hooper Alderman Anderson, J. Comstock, G. J. Sherry, Ald. Gordon, John Crane, R. Ruddy, J. E. A. Fitzgerald.

The meeting of the Board was the concluding one of the present year, the reports of the year's work being presented, followed by the election of officers.

The officers elected for the next year were—

President — Vincent Eastwood, re-elected.
Vice-President—J. J. Turner, jr.
Treasurer—James Hamilton.
Secretary— T. Q. Quartermaine, re-elected.

Mr. Vincent Eastwood was very reluctant to assume the office of president for another year, stating very plainly his reasons. The gathering seemed to feel however that Mr. Eastwood had most creditably filled the position in the past, under the circumstances. They gave him to understand that in the next year, he would have no reason to regret, once more, having taken up the reigns of office with the Board.

Ald. Gillespie moreover, who moved for the re-appointment of Mr. Eastwood, expressed the hope that after Mr. Ritchie's talk to the Board, the organization would be a live wire in the future. His prophecy looks good to be fulfilled.

Mr. Eastwood, although loath to accept, finally yielded, and decided to remain with the Board as president. In expressing his willingness to work to the extent of his ability in the interests of the Board, he stated that the Manufacturers' Committee in connection with the Board had held their meetings regularly and considerable faithful work had been performed. Personally he would endeavor to do his very best, but it remained with the rank and file, to make the Board this year, a real live organization.

Mr. W. G. Morrow was first nominated for the vice-presidency, but declined, on the ground that he had served his time in that office. He was willing to do all in his power in bringing new industries to the city and manufacturing concerns, but felt that there were many other men in the Board, who were more eligible for the position than he.

After the election of officers, Ald. G. N. Gordon, who was appointed at the last meeting of the Board to prepare a report on the Imperial Home Reunion Association, presented a report on the progress of the organization. He outlined the objects and working operations of the Association for the information of those present who were unfamiliar with it. The scheme of operation for Peterborough is almost identical with that followed in Toronto and in Winnipeg, and which have been found to be of eminent value to the English workingman. Trustees have been appointed and an advisory Board selected who have to do with the financial disbursements of the funds raised to assist British workmen's families to come to this country. Through the efforts of an influential local bank manager who subscribed [illegible] outset $10 to the fund, a line of credit up to $500 had been provided, [illegible] forward. Even to-day, said Mr. Gordon, we had an application from a man of first class character, who lacked just $65 of an amount of money sufficient to bring his family to this country.

The report of Mr. Gordon was received.

The chairman then referred to the pleasure it afforded him in introducing the speaker of the evening, Mr. Ryerson Ritchie, who was warmly greeted by all present.

His address was as follows—

INDUSTRIAL GROWTH AND CIVIC DEVELOPMENT

Mr. President and Gentlemen of the Board,—

I esteem it a privilege and an honor to appear before my townsmen to discuss with them the subject of industrial growth and civic development. I feel a keen sense of my responsibility, because I not only join with you in the hope that Peterborough may rise to a high place among the cities of Canada, but because I believe it to be as practical to plan and develop the city as it is to establish and build up any private enterprise.

There is much to be said in commendation of Peterborough, of the high character of her men and women, of her physical attractions and natural beauty. Peterborough has much to be proud of and much to be thankful for. But on this occasion I want you to look at the city in the abstract. Let us leave the Hydraulic Lift Lock out and speak of hydraulics and lifts that are applicable in the work of construction and development of the future city.

It is more than likely that if I had lived in Peterborough during the last thirty years I would not see its faults. But my life has been spent in a foreign land and my occupation has been with institutions that found many flaws in urban conditions, and sought pratical ways to mend them. The community that cannot stand self analysis lacks the true spirit of progress. Improvement is the spirit of progress. Improvement is the spirit of the age and the more interesting scenes of action are in our cities.

In studying the indexes of character in its particular community I have formed a new conception of it, and I have lost the impression of my boyhood. We have a new city, different in many particulars from the town of my youthful days. My new conception is that Peterborough is much like other communities of equal size—no better, no worse. The city of to-day does not possess qualities that entitles it to superior rank save only the rich gifts of nature. I have been trying to analyze Peterboro's public spirit, trying to find out its purpose as a city. I do not think that Peterborough has a definite conception as to its particular place in Canada, nor of its own future as a city.

INDUSTRIAL GROWTH

Peterborough has an ambition to become a greater manufacturing centre but has not yet decided what particular class of industries it desires. A survey of all the conditions affecting manufacturing should indicate those industries that will be an economic fit in this locality. Industries that do not fit ultimately fail and as you want stability and growth you will naturally exercise care in the selection of new institutions.

The ordinary methods of Boards of Trade in seeking industries often fail simply because they are superficial in their analyses and judgments; they lean upon the public purse or appeal to public spirit rather than to business discernment. The average board of trade, if not its "industrial commissioner," frequently takes the shadow for the substance, rushes into public view on flimsy pretexts and not infrequently discredits both the industry and the city.

Just now there is strong competition among Canadian cities for new industries. Those cities that know their own advantages and limitations will succeed in exact proportion to their ability of selection and enterprise in negotiation. In general those industries that need ample power should be advantaged here but the class of industries you seek should be a matter of choice by your board of trade.

Industries that are looking for money to establish themselves, for bonuses, for tax exemption or land gifts, are not the kind of industries you should spend your energies upon. I believe that it is wrong to tax the general public for the benefit of any industry, great or small. Neither the ratepayers of the city, or their government have any business to pay tribute to a private interest. The growth of industry is not a governmental responsibility; the proper function of the city government is —government. The theory of bonusing manufactures is, in principle, false, unbusinesslike and pernicious and I hope the legislature of Ontario will make bonusing of any kind illegal. Good industries—the kind you can get—really prefer freedom from municipal obligation. All they should ask for are sound business reasons for their establishment, cheap power and competent labor.

The industrial growth of a community is not dependent alone upon a specific or economic advantage. Iron ore and raw cotton are hauled a thousand miles to the mills of Ohio, Pennsylvania and New England, Wool is brought from Australia to Peterborough. Raw material is often of insignificant value compared with the cost of operating machinery and skilled labor. I say skilled labor advisedly. Cheap labor is not an element of permanent industrial or communal prosperity. Given a location such as this with its facilities for good transportation and distribution, normal taxation and land cost, Peterborough [illegible] become a great manufacturing centre. With the wonderful water powers [illegible] given you, you should be [illegible] to outrival [illegible] city in Central Ontario. With cheap power to offer manufacturers, you need have no anxiety as to your industrial future.

The acquirement of cheap water power is necessary to the future growth of Peterborough. If Peterborough could own its own water powers, you could successfully meet any competition for power-using industries. It will lose a large measure of this advantage if the water powers are owned and controlled by private corporations, for the simple reason that the main and ultimate object of a private corporation is private profit. In the present situation Peterborough needs a vigorous board of trade to stand with the Mayor and Board of Aldermen in their purpose to place Peterborough where it naturally belongs, in the front rank as an industrial city.

We hear much of the influx of settlers in the North-west, but comparatively little of the influx of industries. But manufacturers are constantly coming to Ontario from the United States and from Europe. The enormous aggregate of importations and the rapid growth of the purchasing public in Canada are sufficient inducements to the foreign manufacturer. What is Peterborough doing to originate and attract sound manufacturing institutions? Does it initiate and promote industry by adhering closely to business standards?

The establishment of new industries is a business and should follow the rules of business. A "still hunt" is one of these rules. Don't rush into print before you get an industry; when you get it, then you can brag if you want to. A good business man does not tell the world at large what he intends to do.

Capital should be more easily obtained for industrial enterprises. Of all legitimate investments "industrials" are the most profitable and it ought to be as easy for the board of trade to measure the worth of any given industry as it is for a bank to fix the credit of a business house. All sorts of plans for securing capital for new industries have been tried. Those who have profited from Peterborough's growth could and should establish an industrial investment corporation and they could safeguard its investments by helping to manage it themselves.

CIVIC DEVELOPMENT.

The promotion of industry and the control of water powers are important, but rising above these and above every other influence for progress is the development and attractiveness of the city itself. European and American cities are planning their reconstruction; they are talking of transformation, of aiding nature and promoting art, of social refinement and practical benevolence, of substituting the home for the tenement, of making poor neighborhoods attractive, of flowers and gardens and playgrounds, of education and culture and manners, of the shaping and the making of the whole city. And they are doing these things because of their contribution to the wellbeing, enjoyment and prosperity and growth. In the United States, New York, Boston, Chicago, St. Louis, Baltimore, Cleveland, Detroit, Pittsburg and other metropolitan cities are now engaged in making magnificent improvements at fabulous cost. Enormous sums of money are being spent to cure defects that were preventable.

It is good business judgment to so diversify the architecture of homes and the utility of lands as to maintain and enhance their value. An artistic home can be built as cheaply as an ugly one and costs less to keep in good condition. But the ambition to grow fast is characteristic of too many American and Canadian cities. Their attractive homes and neighborhoods are regarded merely as external evidences of wealth. With the excitement attendant upon "growth," new allotments are laid out. Then come rows of cheap houses, much alike in style, each with its little space of lawn or garden, all set in line and offered for sale or rent on easy terms and with "all modern improvements." The kind of construction one finds in these new neighborhoods shows a degradation of the builders' art. The blocks of poorly-built box-like houses are not a good investment, even from the viewpoint of the real estate agent or building contractor, because they emphasize neighborhood distinctions and the inevitable tendency is deterioration and rapid lowering of values in such sections.

This unintelligent and undirected way of booming a town's growth emphasizes social distinction on a money basis. No matter what education or taste a man with small resources may have, or may desire to impart to his family, he is almost obliged to live in one of these new neighborhoods. A "class" is assigned to them—the class of limited incomes. The homes of the prosperous are in sections by themselves. This is hard on people who measure class distinction otherwise than by a money standard. The intelligent planning of the city corrects many of the grosser faults and mixes up the dwellings of the people in such a way as to enhance the beauty of the whole city and make a truly democratic community. In England, where social distinctions are more pronounced than here, noteworthy progress has been made in diversifying the use of lands by the classes in the so-called garden cities.

People with narrow vision may say that such ideals are not, under present conditions, practical. But what is being done to-day in England and America, and has been done for ages in Germany, is entirely practical here. The difficulty is that our laws place us in the same unfortunate position as the United States, inasmuch as they were made for the so-called protection of property [illegible] rights. In effect they were obstacles to freedom [illegible] by the community. Little [illegible] far been done to emancipate the control of the city from vested interests, from the protected landlord from the licensed domination of ownership, from abuses that are legalized rights to the individual. Little restraint is put upon the land owner—he may do as he pleases. In Germany the city government is supreme; it is master of the real estate owner and of the builder. The government of the German city has a plan to work out; the land owner, the builder, the craftsman and the artist are obliged to work to that plan and avarice cannot mar it.

If it happens that the statutes of Canada or Ontario, or the charter of this city, do not permit an absolute control, much can be done by the municipal ownership of lands for industrial and public purposes; much can be done by example, and much by voluntary co-operation among the citizens, though a board of trade that is capable of touching and influencing the motives of the people. But the character of Peterborough probably gives it larger powers and liberties than those of most American cities; the exercise of these is hampered only by tradition or conventional habits of mind. The city, if it were to exercise its rights, would probably order the demolition of several structures that not only disfigure, but actually endanger the city. And I have no doubt the city could prevent the erection of ramshackles, eyesore, monstrosities and tinder boxes; I believe it could even compel artistic and safe construction. The general improvement of the city is not philantropy, it is business, and business that pays. It has paid in Germany, it is paying in England. It will pay in Peterborough.

As the city grows it ought to learn the value of foresight—perspective; it should learn to see its opportunities. For example, the cost of grading the streets, and of separating the grades of railways and of highways, is a simple undertaking now compared with what it will be later. The cost of placing underground, in safe conduits, the dangerous and unsightly network of electric wires, must increase inordinately as the city grows. Then, too, the acquirement of nearby woods and riverside spaces, of lands for parks, boulevards and playgrounds, is not merely a thing of expediency, it is a recognized necessity in the modern city. Improvements may be planned and carried out from year to year without imposing a burden on the ratepayers.

There are men in this room to-night who will be living when Peterborough may be a city of a half million people. The very fact that such an assertion strikes you as absurd, illustrates your want of faith in your city if not in your province and country. It is easy enough to say "The Twentieth Century is Canada's," but to believe in its realization seems beyond our limited vision.

What I suggest as a possibility for Peterborough has actually happened in the United States under my own observation. Little more than fifty years ago the city of Cleveland was no larger or more important than the present city of Peterborough. To-day its population is more than 600,000. The State of Ohio is not as rich in natural resources as the province of Ontario; and Ontario's development has just begun. In relation to that development, Peterborough is most favorably situated. There is nothing unreasonable or extreme in saying that within a half century Peterborough may have a population of half a million people.

I could give you many striking illustrations from the American republic in support of my thesis, but I will take for illustration four well-known and conservative American cities near the Canadian border line, with which you are acquainted, and in three of which I have lived. I know these cities, and the spirit that has inspired their energies and fired their ambitions. I shall not go back fifty years, but thirty. Then Cincinnatti was the metropolitan city of Ohio and of the so-called midland section. Let us take these four cities in their order as ranked in the census tables just three decades since.

1. Cincinnatti.
2. Buffalo.
3. Cleveland.
4. Detroit.

In ratio as to growth, the position of these cities is exactly reversed, with Cleveland's population in the lead. In percentage of increase for the last decade the cities now rank:

1. Detroit, 63 per centum.
2. Cleveland, 47 per centum.
3. Buffalo, 20 per centum.
4. Cincinatti, 12 per centum.

The point is that the present standing of these four cities is in exact line with the relative efficiency of their respective boards of trade, considering each a unit.

It is unquestionable that the character and development of the city are responsive to and analagous with their public spirit as expressed by such an organization as your board of trade. Cleveland has more than doubled its population, giving evidence, as to causes and effects, to anyone acquainted with the history of that city and those of the three sister cities referred to. It is certain that Cleveland won the race of its rivals because it had the advantage of vigorous and united effort. Why the great iron ore business should centre in Cleveland, instead of in Buffalo, is not accounted for by geographic or economic considerations, for Buffalo had these advantages. Nor is there any economic reason why Detroit should be the preferred centre of the automobile or stove-making industry. Cleveland centralized its organized forces and utilized them in intelligent constructive work.

In any community united effort in a public cause breeds a patriotic spirit and consequent service. Cleveland saw that the making of the city is not the work of the individual—however useful that may be—but of an inclusive society of individuals. Its unrivalled park system, its magnificent grouping of public buildings, its internal improvements, its social work, its business enterprise, its civic spirit, were each and all inspired by intelligent organization.

Detroit was a close second, passing Cincinatti and Buffalo, and has gained on Cleveland during the last decade. In Detroit there was little need of public effort, for nature had made the city beautiful, and besides its public affairs had been well managed. The Detroit Board of Commerce devoted itself primarily to industrial development, with the result that the city has, latterly, grown even faster than Cleveland or any other midland city, and now possesses a population of a half million people. The attractiveness of [illegible] low tax rate and public debt and its excellent government were factors in this remarkable development.

In my humble opinion it is possible for Peterborough, in the Province of Ontario, to do what Cleveland and Detroit have done in the United States.

Canada is attracting the attention of the whole civilized world because of her vast resources and great possibilities. The growth of population has already been given momentum and will be rapidly accelerated. Millions will come to Canada from other countries, not only to settle in the North-west, but to Ontario, for

Second Floor Front

ALL THIS WEEK

ROBERT FAIR & Co. Limited

PETERBORO'S OPPORTUNITIES

CONTINUED FROM PAGE 7

Ontario is destined to be the empire province of the Dominion, the seat of a great commereal, industrial and financial expansion. Canada will become a great and populous nation not only rivaling the American republic, but it may pass it within the next fifty years. This is what men of large vision are looking for. What position will Peterborough take in this great progressive movement?

Canada is young—its development is ahead. In this development Peterborough has its opportunity and if it is to become a great metropolitan city, it will be because it possesses the elements and the abilities to be great. If this city shall refuse to rush headlong into the business of promoting more growth, if it shall stand firmly for a more finer and rational development, if it shall preserve the ethics of commerce with rigorous tenacity and hold to the elemental principles of civic excellence, it will inevitably prosper.

Loyalty to country—to the Empire—is expected of every Canadian, but the true patriot must first be loyal to his community. Peterborough is the home of your homes. Here your boys and girls are housed and clothed and educated—trained for their place in life, their duty to their fellows and to themselves. As citizens, you make the environment of these men and women of to-morrow; you make the schools and churches, the shops and factories, the streets and playgrounds, the religious and moral atmosphere, the newspapers and society, these are all precisely what you make them. You are responsible in exact ratio as the environment of the rising generation lacks elevating or inspiring influences, or possesses the qualities of high social and civic character. If you are the leaders in the community, fail to guide the city in its development—who will?

I often think that some eminent landscape artist selected the sight for this city. Compared with other ordinary towns it is a good place to live in. Nature has endowed this particular locality by a beneficient formation of land and water. We know that Peterborough will continue to grow. It will grow in spite of itself, responsive to external influences. It is already established as an important industrial centre. Its situation is strategic in relation to Ontario's commercial development. It is a good railway centre and will soon have its canal to the Great Lakes and the Seaboard.

Peterborough has nearly doubled its population in twenty years. At the present normal rate of progress it will, within the next twenty years, become a city of more than forty thousand. But suppose its growth in numbers is as rapid as that of some of the cities in Canada and the United States during the last decade, its population will exceed one hundred thousand within ten years—in 1922. In any case the impost is upon you to prepare for a futuure, and the future city will be what you make it. If Peterborough became the most attractive city in Canada, it would attract industries, it would soon be a thriving, progressive metropolis, it would be advertised from one end of the continent to the other and across the seas.

THE BOARD OF TRADE

Next in importance to the legislative body of the city stands the board of trade, yet I am led to believe that this representative organization is not sustained by a large number of our business and professional men. Its annual fees for 300 days are no more than one woul pay for two seats in the balcony of the opera house for an evening. If you compel the Board of Trade to be inefficient by lack of support, it isn't fair to find fault with it, and I find that the board is more often abused than praised. It is just as impossible to run a bank without men and capital as it is to make an efficient board of trade out of such conditions. If the board of trade is a business Institution then it should be equipped to do business.

At this stage of our civilization the urban community is not adequately organized to carry its resolutions to effect. The community needs an organization with a public conscience and a keen sense of public responsibility. My private opinion is that a vigorous board of trade is as necessary to the city as a board of aldermen. The time has gone by when the development of a city may safely be left to itself. What is everybody's business is nobody's business. Your greatest need to-day is a board of trade that will see to it that the city's commercial and industrial advancement, and the interests of the public at large, are given as intelligent and diligent attention as those of any well-managed private corporation.

To you, as citizens, the leading question is—are existing conditions in themselves sufficient to insure a greater future? Individual enterprise will do something but individual enterprise massed, can do anything within reason. Make the intelligence of Peterborough single-minded in purpose and you can exercise irresistible influence and power. If Peterborough intends to pass her rivals and competitors, she should have a board of trade that serves as the brain of the city—one that sees ahead comprehends the whole situation, develops each factor and energizes every upbuilding agency within its grasp. The welfare and growth of the community affect business and often touch it intimately. The modern board of trade should be a civic society; and if it is not a civic society it has little commercial value, for the growth of business and that of the city are correlated.

MR. VINCENT EASTWOOD.
Was re-elected President of the Peterborough Board of Trade.

But one does not need to live long in Peterborough to learn that many people have narrow views of its future. The plain truth is that there is a small army of knockers here. Indeed it is rarely that one meets a man or woman who is a thoroughgoing believer in the town. The people of Peterborough must learn to have more faith in their city, for without that it is manifestly impossible for the city to rise above mediocrity. The great city of the future will be the creation and work of men and women of large vision.

Civic organization is necessary to promote civic growth. When I assert that Peterborough will respond to a right spirit of unity, to intelligent, well directed co-operation, I merely state a simple fact.

If you lived in one of our more progressive cities and desired to join the board of trade, you would be obliged, to be of good standing personally, and, if elected, to pay an admission fee and twenty-five dollars or more dues per year; and the only personal benefit you would get would be the privilege of working for the board and the city. If you mean to build a greater Peterborough you cannot do it successfully without a competent organization, and you must give more members, more money and more time to its work. To build a big city is a big task, but it can be done by big men, if there are enough of them to labor in unison for the common object—the city's growth.

Fortunately, in these days, the public interest has come to be the recognized concern of business and professional men, and as one consequence, their cities and boards of trade are receiving the aid of the ablest and most patriotic citizens. And by reason of this voluntary service our cities are receiving, and will more and more receive, the benefit of keen analysis, judicial criticism and businesslike treatment.

What Peterborough needs is a breaking away from its conventional conservation and timidity. One must actually go away from home to get warrant for a substantial faith in Peterborough's future. The conservative directors of railways and banks and public-service corporations, seated in their board rooms in distant cities, have shown a larger confidence in Peterborough than those who live here and pay the tax bills.

Canada's greatest railway company has purchased some of the city's most valuable land and is now extending its track and freight yards.

If you want to measure the confidence in Peterborough of a great public service corporation, visit the new water power and electric generating plant now in course of construction in the north end.

If you want still another index of faith in Peterborough's future, count the number of banks established here. These are not all needed for present demands but they are established because the growth of Peterborough is assured.

Years ago Canada's leading financier invested in lands and buildings in Peterborough and I have not heard that he has sold them in favor of the great enterprises that have engaged his attention. On the other hand he has steadily increased his investments and is said to own eighty per cent of the city's heart.

Peterborough is to-day growing faster than any one of the ten more prosperous towns of comparative standing in the province. The census figures for the decade ending with 1911 are illuminating and ought to stimulate our ambition and fortify our faith for the future.

Towns	Population 1911.	Gain in 10 years.
Chatham	10,760	1,692
St. Catharines	12,460	2,514
St. Thomas	14,050	2,565
Welland	5,311	3,448
Guelph	15,148	3,652
Owen Sound	12,555	[illegible]
Berlin	12,192*	5,445
Windsor	17,819	5,666
Brantford	23,046	6,427
Peterboro'	18,312	7,073

I might go on with other illustrations but it is not necessary. A little less knocking at home and a good deal more enthusiasm among our own people will work wonders. A long pull and a strong pull altogether by the board of trade should make Peterborough one of Canada's most prosperous and beautiful cities. In my humble opinion Peterborough has a rare chance to put a sustaining and stimulating organism at work. Results are certain if the intelligence, energy and liberality of our most useful men have a proper channel for their exercise. That channel should be your board of trade. The question is not how little you can give to it, but how much. The genius of a competent board of trade is leadership; its spirit, citizenship, its aim, the common good. Hence it should be so supported and equipped as to make its aim, its spirit and its leadership, factors in the constructive work and public service of the city. Such an organization must put into action the latest energies of the community. It should break down obstructive traditions and override obstacles. The time for action is now. Do not overlook the fact that the prestige and growth of the future Peterborough depend upon the practices, principles, methods and aims that are inculcated and applied to-day.

At the conclusion of Mr. Ritchie's address, Dr. M. A. Morrison, in moving a vote of hearty thanks and gratitude to the distinguished speaker, remarked that it must be the consensus of opinion of all those present that Mr. Ritchie's address was one that could not be excelled and was one of exceptional worth and discernment. His motion was warmly endorsed by Ald. Gillespie, who felt that Mr. Ritchie had placed the city's opportunities before them in a most truthful and promising manner and that it was up to the Board of Trade to get busy and boost Peterborough so that it would eventually materialize into the great city prophesied by Mr. Ritchie. The gathering evidenced their thorough endorsement of his words by a burst of hand-clapping. Mr. Ritchie suitably acknowledged the vote of thanks, and expressed his willingness at any time to assist the city as far as possible in any schemes for industrial development and promotion whenever his services were desired.

MAKES HAIR RADIANT OR MONEY BACK

A Delightful and Refreshing Hair Dressing

People who desire to preserve the hair can gain some valuable information from the following:

Have your own brush and comb at home and at hair dressers.

Never use a brush or comb in public places, they are usually covered with dandruff germs.

Wash your hair brush once a week with soap and warm water, to which is added a disinfectant.

Shampoo the hair once a week with pure soap and water.

Use PARISIAN SAGE every day, rubbing thoroughly into the scalp.

PARISIAN SAGE is guaranteed by Wm. Madill to destroy dandruff germs and abolish dandruff, or money back.

To stop hair from falling and scalp from itching, or money back.

To put life and beauty into dull faded hair, or money back. Price 50 cents.

NEWS FROM OMEMEE

Special Correspondence.

Omemee, May 15—Miss Ina Hunt spent the week end with friends at Lindsay.

Mr. and Mrs. J. H. Wylie of Toronto, former residents of our town arrived on Saturday from Toronto for a visit with their many friends.

The Public School concert on Friday evening in Coronation Hall, though not largely attended, produced a high class and an artistic program as follows—

Invitation to the Dance—Mr. H. C. Treneer, A.T.C.M.
Vocal, selected—Rev. H. Earle.
Two Larks—Mr. Treneer.
Vocal, selected—Miss Lila Parsons
Recitation—Miss Lulu Bushnell.
Valse Arabesque—Mr. Treneer.
Vocal, Selected—Miss A. Ivory.
Vocal, selected—Miss S. Wilson.
Scarf Dance—Mr. Treneer.
Vocal, selected—Mrs. A. C. Hodgetts
A Musical Romance—Mr. Treneer.
Vocal, selected—Rev. H. Earle.
Dance Napolitan—Mr. Treneer.
Recitation, selected—Mrs. D. Magee
Vocal, selected—Miss Lila Parsons.
Vocal, selected—Mrs. C. H. Shield.
Vocal, selected—Miss S. Wilson.
God Save the King.

Miss Muriel Morrison of Peterboro spent Sunday with her mother at Omemee.

Mr John Murray came up from Peterboro for the week end with his parents.

The Boy Scouts are having the time of their lives. Mr. Winslow is Scoutmaster, and Master Hartley Currie, adjutant. There are two patrols called "The Owls" and "The Buffaloes." Master Tommy Shield is patrol leader of the former and his corporal is Eral Woodruff. Master Willie Glenny is patrol leader of the latter, and he is assisted by Master James McGhil as corporal. It is expected that more patrols will be organized. The boys drilled on Mount Nebo, enjoyed some scout games, had some demonstrations in fire lighting and in cooking a meal. Their infatuation is complete.

The play to be presented on Victoria Day will produce a Shakespeare in logical oration and drama, a Tennyson in humorous portrayals of his own composition, a Judge Blowhard in a diatribe on women, Slasher representing the Press, Sherk Abou, Ben-Abraham of Egypt, with his famous wishing carpet and his Abyssinian Serf; Zeb West, a policeman; Miss Sourdrop and a host of others who will keep the fun going for over two hours. Watch for posters.

Rev. D. H. Currie returned home and occupied his pulpits on Suunday.

Mr. H. C. Treneer, organist and choir master of St. Andrew's church Peterboro, was in town on Friday.

Mr. Bert Skuce of Port Hope spent Sunday at his home here.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. NEW DANISH MONARCH PROCLAIMED FROM PALACE; QUEEN MOTHER PROSTRATED

Further Particulars of the Death of King Frederick Show That He Had Gone Out For a Short Walk and Dropped Dead on the Street—Was Taken to Hospital Where Courtiers Found Him.

Copenhagen, May 16.—Christian X. was proclaimed King of Denmark from the balcony of the palace at 3 o'clock yesterday afternoon, in the presence of a huge concourse of people who had gathered in the square in front of the royal residence.

The raiding of the proclamation was hailed with a loud cheer from the enormous crowd.

Throughout the day the church bels of the city have been tolling. At the palace many telegrams of condolence from chiefs of state arrived.

The space in front of the palace was so crowded that many of the people were crushed, while others fainted.

The Premier, promptly at 3 o'clock, appeared on the balcony of the palace and announced the death of King Frederick. He then proclaimed Christian X. his successor, wishing the new king a long life.

Enthusiastic cheering broke out as the monarch, in the uniform of the royal guard, stepped on to the balcony. In a brief speech he paid a tribute to his father and pointed out the difficulty of succeeding such a ruler, concluding:

"May God give me strength rightly to rule my dear old country, and may it live forever."

In response to the cheers of the people, King Christian and Queen Alexandrina, with their two sons, appeared again and again. The scene was an inspiring one and closed with the singing of the national anthem by the immense concourse.

Royal messages announcing the accession to the throne was read in both House of Parliament at 4 o'clock.

Died on Street.

Hamburg, German, May 16.—King Frederick VIII. of Denmark died alone unrecognized and unattended, in the ward of a public hospital here late Tuesday night of apoplexy.

King Frederick and Queen Louisa, who had traveled here from Nice under the incognito of the Count and Countess of Kronberg, had their three youngest children, Princess Thyra, Prince Gustav and Princess Dagmar with them.

King Frederick had been undergoing a course of treatment for arteriosclerosis, with which he had been troubled for a considerable time. He had also suffered from an attack of inflammation of the lungs, from which he had been critically ill some weeks ago, but this had been completely overcome.

When he left the Hamburg Hotel on Tuesday night after eating a hearty dinner, the king, accustomed to an evening stroll before retiring, walked toward the "Goose Market," one of the principal squares in the business section of the city and which is just round the corner from the hotel. A few minutes later some pedestrians on the "Goose Market" noticed an elderly gentleman fall in a heap on the sidewalk. He was dressed in an ordinary business suit and appeared to be a well-to-do tradesman.

The passers-by ran to the spot to assist the old gentleman, but found that he was already dead. A policeman was called who had the body conveyed in an automobile to the Sailors' Hospital. The physicians on duty there said that death had been instantaneous.

There was nothing on the body which afforded a clue to its identification, and it was placed in the mortuary of the hospital.

It was only much later in the evening that the royal suite, which had become anxious owing to the king's absence, heard of the accident that had occurred on the "Goose Market." As their enquiries in regard to the king's movements had up to then proved fruitless, they, together with the proprietor of the hotel, proceeded to the hospital to look at the body there, although they did not suspect that it was that of his majesty.

Queen Mother Prostrated.

London, May 16.—Queen Mother Alexandra and the Dowager Empress Marie of Russia, both of whom are sisters of the dead King Frederick, [illegible] prostrated by the shock [illegible] unexpected death. The Dowager Empress Marie has been staying at Marlborough House.

King George and Queen Mary proceeded there immediately after they were informed of the dramatic event.

The flags on all the Government offices and other public buildings were half-masted yesterday.

For the second time this year the British court is plunged into mourning, and the social season just commencing will be seriously affected.

IN THE LAND CF THE FREE

San Diego, Cal., May 16.—The free speech fight here took another serious turn yesterday when Emma Goldman, celebrated anarchistic lecturer, was escorted to the depot early yesterday, after a near-riot when she tried to hold a meeting, and was put on a train bound for Los Angeles. It is reported that Dr. Ben Reitman, Miss Goldman's manager, was tarred and feathered, forced to kneel and kiss the American flag, and then put on a northbound train and told not to return to San Diego.

Advertise in the Review. It pays.

Railways Forbidden to Connect.

Ottawa, May 16.—The Railway Commission yesterday issued an order forbidding either the Canadian Northern Railway or the Midland Railway of Manitoba to carry out the connecting agreement existing between the roads. A penalty of $100 a day, beginning on Monday next, has been fixed for non-compliance with the order. In connection with the dispute over the Midland Railway's carrying American train crews into Canada, it has been found that the connecting agreement was never ratified by the governor-in-council.

TO HEAR THE CASE

Privy Council Decides the Supreme Court of Canada Can Hear Stated Case.

Special to the Review.

Toronto, May 16.—The Privy Council in England has decided that the Supreme Court of Canada has power to hear stated cases submitted to it by the Federal Parliament. This means that the argument in the famous case will proceed, and the opinion of the Privy Council itself itself will be secured. The case which decided the jurisdiction of the Supreme Court was one of Ontario vs. Dominion in regard to the control and incorporation of companies.

SOMEBODY GOT $3,000

But Travers Will Not Say What Man Was Bribed.

Toronto, May 16.—Some person or persons at Ottawa received at least $3,000 for assisting to pave the way for the granting of the certificate to the Farmers' Bank. This was intimated by W. R. Travers during the course of a dialogue yesterday afternoon at the Farmers' Bank enquiry, when the former manager was squeezed into a very tight corner by Frank Hodgins, K.C., and before he could extricate himself, some surprising admissions had been made in reference to the three blank checks that were sent to Ottawa by Solicitor Hunter.

Travers refused absolutely to tell who got the money, stating that he would sooner return to jail for twice his term.

"What was the name on the check for $3,000?" asked Mr. Hodgins.

Travers' face clouded and he turned to Sir William Meredith, and said: "Mr. Commisisoner: I hardly think that it is fair to ask me to who certain sums of money were paid to friends who gave assistance. I can't see what good it would do. Mr. Commissioner, I would sooner go back to jail and stay for twice my term than injure anybody."

"Well, if that is your final answer, I suppose we can not press you," remarked Sir William.

"Will you tell me if it was paid out at that time?" asked Mr. Hodgins.

"I would rather not go into it at all," replied the manager.

Sir William: "You may be concealing it, or rather not disclosing it, case reflection on some one."

"Well, it did not go to where you are thinking."

Sir William: "No, no. I am not thinking of anyone."

"Well, it did not go to Mr. Fielding. He didn't get a cent or a promise of anything of the kind."

FOUND THREE MORE BODIES

New York, May 16.—A message received late yesterday by the White Star Line from the steamer Oceanic, en route to this port, reported the picking up the liner of a collapsible boat from the sunken Titanic, containing three bodies. The boat was found, according to the message, on May 13 in latitude 39.56 N., longitude 47.01 W.

The message from Oceanic reads: "May 13, latitude 39.56 N., longitude 47.01 W., picked up collapsible boat, containing three bodies. Committed same to deep. One apparently Thos. Beattie, passenger; one sailor, one fireman, both unidentified. Also coat with letters in, addressed Richard N. Williams, one cane, Duane Williams, A ring also in boat, inscribed 'Edward and Gerda.'"

The collapsible boat referred to in the message, it was stated at the White Star offices here, is the one mentioned by Officer Lowe in his testimony before the Senate committee, from which he took into his boat twenty men and one woman, leaving on board three dead bodies.

The Thomas Beattie referred to is evidently the wealthy Winnipeg man who lost his life in the disaster.

Bottom Row—Kopp, Left Field; Forgue, Shortstop.

QUEBEC LIBERALS SWEEP PROVINCE WITH 62 TO 17

J. M. Tellier Says He Is Quite Unable to Explain the Crushing and Unexpected Defeat of the Opposition Forces—Hon. C. Devlin Loses One Seat But Saves the Other—Gaspe and Magdalen Will Go Liberal.

Montreal, May 16.—Sir Lomer Gouin has carried Quebec by an overwhelming majority, the Liberals returned yesterday numbering 62, while the Conservatives will only number 17 in the new Legislature. The Liberal host will be increased by two, as Gaspe and Magdalen Islands will elect their members later on, when the 17th Legislature since Confederation will be complete.

The Prime Minister was correct in his predictions, or about so, while the Opposition organizers were away out in their calculations. They expected to divide the ten members from the eastern townships, and they did not get a single man. Armand Lavergne's predictions were also astray in the Quebec district, as his own county of Montmagny, Levis and Temiscouta were the only seats left to the Opposition from that part of the province. Sir Lomer Gouin carried St. John's by 400, and Jortneuf by over a thousand.

All his colleagues were elected by large majorities except Hon. C. Devlin, who was defeated in Temiscamingue, although he was re-elected in Nicolet by a good majority. Hon. Jean Prevost carried Terrebonne by a thousand, and was defeated in L'Assomption by three hundred, and the Quebec lieutenant, Mr. Armand Lavergne, although defeated by Hon. Mr. Taschereau in Montmorency, carried Montmagny.

SIR LOMER GOUIN.

Of the counties held in the late House by the Opposition, they lost yesterday Shefford, Maskinonge, Charlevoix, Megantic and Beauharnois, and won St. Anne's and Champlain, while the English-speaking seats like Westmount and St. Annie's, which had been Liberal, returned Opposition men. The minority vote supported Sir Lomer.

As the three French Dominion Ministers took part in the election, it is quite interesting to note that, while Terrebonne and Jacques Cartier represented by Nantel and Monk respectively, went Conservative, Hon. L. P. Pelletier's County of Quebec went strongly Liberal. Hon. C. J. Doherty's division of St. Anne's was one of the very few captured by the Opposition.

After the fight, Mr. J. M. Tellier said: "I am at a loss to give a cause for the result. I was all over the province and there was nothing in sight that portended such a crushing defeat."

HEARST MAY JUMP IN

New York, May 16.—William R. Hearst is coming to the front as the chief candidate against Roosevelt, and by much the same road that the colonel is coming by—in spite of the party machine. Hearst will practically nominate himself, and that kind of nomination is now valid and will be effective. Wilson is sinking like a disappearing star below the zenith; Champ Clark is supported by Hearst and Bryan, only to be moved aside later on; and Hearst will be more forceful than Bryan at the last. It will be Hearst and Roosevelt at the finish, and Hearst will run Roosevelt closer than any other man. He has an immense following in the readers of his papers; he has many thousands of Democrats with him; he will have many of the dissatisfied; many Insurgent Republicans may yet come to him.

Hearst has Wilson extinguished; he will later on extinguish Clark because of his lack of national calibre, and he will do Bryan in the last showdown—because he will force himself into the field in spit of anyone. Bryan will not do that.

Hearst is the big rising quantity in the Presidential fight in spite of all the organized slugging that is coming or will be coming to him.

TRIED TO STEAL OVER THE BORDER

Niagara Falls, Ont., May 16.—Steve Mouslin, the second Campbellford Hungarian to be convicted of illegally [illegible] into Canada, was [illegible]. Accompanied by six foreigners, Mouslin crossed the upper river a mile above the falls in a rowboat Tuesday midnight. The boatman escaped, but the others were arrested. They were deported.

Three Hurt In Gas Explosion.

Chatham, May 16.—Louis Lott, Charles Houston and Barnard Bassatt, employes of the Northern Pipe Line Co., were seriously injured in a gas explosion in the Tilbury oil fields near Glenwood, Tuesday. They were badly burned about the head and face. Houston and Bassatt are in a serious condition in the hospital here, and it is thought that their eyesight may be impaired.

They were repairing a leak in a pipe and had dug down into the ground and got down into the hole to work. The pressure in the pipe widened the hole and caused such an explosion that the excavated earth was piled on top of them.

Bishop of Ontario's Illness.

Brockville, May 16.—In the absence of the bishop of Ontario, who is suffering from inflammatory rheumatism, the rite of confirmation was administered in St. Paul's Church here by the Rt. Rev. Dr. Reeve, bishop of the diocese of Toronto.

BRITAIN'S FLEET TIED UP IN HOME WATERS; COLONIAL NAVY NEEDED

Passengers Badly Jolted.

St. Thomas, May 16.—Yesterday morning, while the fast M.C.R. express from the east was at the station, the train was divided to attach a dining car which was being shunted by the yard engine. The engineer in charge miscalculated the distance, and the dining car was bumped with great violence, striking a sleeper and injuring three passengers, who were asleep in their berths. W. E. Matthews, Chicago; Jos. Wilet, St. Albans, Vt., and Adolph Nyman, Pontiac, Mich., all suffered injuries to their heads backs and shoulders by striking the top of their berths. They were removed to the city hospital and are under the care of the railway's physicians. Five dining car employes were also so badly injured that they were sent to the hospital, but all are expected to recover inside of a week.

MOTHER JOINS CHILDREN

Special to the Review.

New York, May 16.—MMe. Navratil, the mother of the two waifs rescued from the Titanic by Miss Hayes, arrived on the Oceanic today and was met by her children at the pier. The reunion was most affecting.

Hurled From Buggy by Train.

Brockville, May 16.—Driving across the tracks of the B. W. & N. W. Railway at Athens, Gordon Foley was struck by an incoming express train. He was hurled from the buggy, but escaped with a fractured hip and other minor injuries. Foley was brought to the hospital here for treatment.

Rockland Doctor's Sudden Death.

Rockland, May 16.—Dr. Wm. Ferguson of this town was found dead in [illegible] bedroom yesterday morning. [illegible] to have been the cause of his death.

THEIR DEATH NOT PEACEFUL

Special to the Review.

New York, May 16.—Officers of the steamer Oceanic which arrived here to-day state that three Titanic victims found in a collapsible life boat had apparently starved to death. Thompson Beattie, of Winnipeg, was one of the trio. A dead fireman was chained to the thwart by his leg, and all had pieces of cork in their mouths which they chewed in their delirium.

SUDDEN DEATH AT PORT HOPE

Peterboro friends will regret to learn of the death at Port Hope yesterday, of Mrs. E. Fudge. She was taken ill during the previous night and her death which occurred shortly after noon was quite unexpected.

Winston Churchill In Speech In London Says That Since Recent Events Have Impaired the Mobility of the British Marine Force Self-Governing Dominions Will Have a Fair Chance to Do Something.

London, May 16.—(C.A.P. Cable.)—Winston Churchill, speaking last night, said that recent events had led to a greater concentration of the fleet in home waters, which meant a relative reduction in mobility. This gave a great opportunity to the self-governing dominions.

Canadians were deeply stirred as to which share Canadians should take, and representatives of the new Government of Canada were coming soon to consult with the Admiralty.

As the main developments in ten years had been the concentration of British fleets in decisive theatres, it seemed not unlikely that the main developments of the next few years would be the growth of effective naval forces in the great dominions overseas, so that while Britain maintained supremacy at decisive points they should patrol all the rest of the British Empire. He ventured to say the Admiralty did not object to giving the dominions full measure of control over the movements in peace of any naval forces which, with Britain's help, they might bring into efficient existence.

"In war, we know our countrymen overseas will have only one wish—to encounter the enemy wherever the need and danger is most severe."

Canada and the Navy.

London, May 16.—Captain Nash, lecturing at the Imerial Institute, denied the practicability of a purely Canadian navy. He deprecated a Canadian money contribution to the Imperial service, but looked more hopefully on the formation of a squadron by Canada, combined with other dominions.

Earl Grey, who presided, approved this scheme.

MUST BE SOBER TO ENTER CANADA

Niagara Falls, Ont., May 16.—Because he was drunk, Frank Hendle, Niagara, was refused admittance to his native land early yesterday. He was sent back to the States, where he was arrested and sentenced to fifteen days in jail. The judge suspended sentence when found the Canadian authorities would admit Hendle when sober.

Important Judgment To-day.

London, May 16.—(C.A.P. Cable.)—The Privy Council has reserved judgment in the appeal of the Commercial Cable Co. against their liability for taxation in Newfoundland.

The Council will give judgment on the Ontario provincial rights case to-day.

Brockville Ladies Musn't Smuggle.

Brockville, May 16.—To prevent smuggling by ladies who patronize river trips to Ogdensburg, N.Y., a lady officer from Windsor yesterday entered the service of the local customs at the C.P.R. dock. Her duty will be to search female passengers in quarters set apart for the purpose.

Complaints by local merchants to the customs department have led to this action being taken.

FOR FAMILY USE

An Ideal Remedy for Coughs, Sore Throat, Catarrh, Weak Chest.

After having made a special study of the treatment of the throat and lungs for twenty years, Prof. D. Jackson states that in his opinion no preparation for general family use is so efficient, so healing, so certain to cure as Catarrhozone.

As his reasons for making this claim for Catarrhozone, Dr. Jackson says:

"Catarrhozone is free from opium.

"The patient can breathe its rich, balsamic fumes direct to the diseased spot.

"It is a remedy that treats and cures causes—prevents disease spreading.

"Reaches the innermost recesses of the throat, nose, bronchial tubes, and lungs.

"Alleviates chest soreness.

"Stops coughing instantly.

"Prevents bronchial irritations.

"Relieves clogged nostrils.

"Cures sniffles and nasal catarrh.

"Prevents La Grippe.

"Has proven itself a cure for weak lungs, loss of voice, speakers' sore throat, asthma, bronchitis, catarrh, coughs, colds, and winter ills."

Catarrhozone is unquestionably the world's greatest breathable cold, cough, and catarrh medicine, and being free from all drowsy drugs, entirely safe for children and old folks; it makes an ideal family remedy. Recommended by the medical profession, and sold by all reliable dealers. Beware of imitations, get "Catarrhozone" only; large size lasts two months, and is guaranteed, price $1; smaller sizes 25c and 50c. By mail from The Catarrhozone Company, Kingston, Ont.

CORNS CURED IN 24 HOURS

You can painlessly remove any corn, either hard, soft, or bleeding, by applying Putnam's Corn Extractor. It never burns, leaves no scar, contains no acids; is harmless, because composed only of healing gums and balms. Fifty years in use. Cure guaranteed. Sold by all druggists, 25c. bottles. Refuse substitutes.

PUTNAM'S PAINLESS CORN EXTRACTOR

The Daily Review

THURSDAY, MAY 16, 1912.

UNION LABEL

GOUIN SUSTAINED

The expected has happened in the return to power of Sir Lomer Gouin as Premier of Quebec, with an increased majority. Of the 81 seats in the province, the Liberals have been successful in 61, the opposition having carried 16, the labor party 2, while in two ridings the election is yet to be held. The vote was an unusually heavy one, especially in the French speaking districts of Montreal Sir Lomer has beedn premier for six years, while the opposition have been out of power for fifteen.

THE VALUE OF A VISION

Great things are accomplished by men who see visions. These men may not be the first who see the vision; the seer may be unable to do what is required, but he calls the attention of others to what he beholds, and they too see, and unite in an endeavour that causes the vision to be realized.

When the western plains of Canada were inhabited by the Indians, the trapper, the buffalo and other animals, Canadian statesmen had a vision of the influx of settlers, of millions of bushels of grain growing, of cities springing up and of a vast, fruitful and great country taking the place of the wilderness. They imbued others with faith in their vision, and although there were doubters, the Canadian people had confidence in them. The necessary effort was made; a railway needed for the foundation of the peopling of the west was built, and to-day their vision has become a reality. Not one but several railways are needed to convey the fruits of the [illegible]

Mr. Ryerson Ritchie has a vision of the future of Peterborough. The figures he read towards the close of his address to the Board of Trade shewed that the growth of the city has been very gratifying. But he sees in the near future a large and prosperous Peterborough with a population of hundreds instead of tens of thousands. All that nature should give to provide for such a city is here. The foundations for industrial growth and for civic development are present. He sees these made of the highest use, and resulting in a city of hundreds of thousands of a prosperous, healthy and high minded citizens.

Will the people catch the vision? Those who listened to Mr. Ritchie did. They at the time had confidence in his judgment and felt the impulse of that confidence urge them to the endeavour that would result in the vision being realized to the full extent. Will the citizens generally see it? That will depend upon whether those who were present will allow the vision to fade, or will carry it with them, cause others to see it, and all unite in the effort to bring about its fulfilment.

A few years ago the city could have had its choice of water powers at a price that to-day would seem trifling. A very few years ago it could have secured power at a cost that it would be glad to get it for now. Some at that time had a vision, more or less vivid, of the coming value of the power and wished it to be secured, but they either lacked the faith or the ability to inspire others with sufficient confidence and the opportunities passed. Now only more heroic efforts will accomplish what could have been done so much more easily then.

A few cannot carry on the work that will carry Peterborough forward to the position that it can and should occupy. A City Council and a Board of Trade with a few members cannot do it. But a united community can. The business men of Peterborough should unite in a sober, earnest, honest and steady effort to do the work that will fill out the outline. It will not be done with a burst of enthusiasm; but enthusiasm tempered into a determined purpose to build up the city, and that determination backed up with united endeavour will accomplish it.

Practical measures are needed, and practical men must shape them. The first requisite is the proper civic spirit and confidence in the future of the city. With these aroused the officers of the Board of Trade must draw to their support, the men who have the knowledge and capacity to shape and carry out the measures that will bring about the results, and these men must be ready to give their aid. With the right leadership the people will endorse the necessary action.

It is not solely in the direct efforts to secure industries that work is needed. Indeed, according to Mr. Ritchie's ideas and experience, the efforts should not be primarily for city—with the conditions of cheap power, transportation facilities, sanitary conditions, artistic as well as comfortable homes, beautiful surroundings, and a healthy and vig- that direct purpose. An attractive whole population—will draw industries. Such a city will not be like all other cities; it will have a distinctive character, and that distinctive character made known will carry it rapidly forward. This means that a comprehensive and well thought out plan for city building must be formulated and carried out, and it is a work that should receive the consideration of the men who are interested in the city and the assistance of every citizen.

The past has been successful but the future is full of hope and should eclipse the past. With a proper idea of what can be accomplished, with a correct conception of the means to the end, and with the right spirit inspiring the efforts of all there will be built up a city that will fully realize the vision that the Board of Trade had given it of the future.

NOTE AND COMMENT

More messages are coming from W. T. Stead from the spirit world, and it is astonishing how little they tell.

A NewYork paper suggests that Canadian bank mergers may call for the work of a Teddy Roosevelt. Mr. [illegible] would be quite willing [illegible] has [illegible]

The health inspectors in Ottawa do not like uniforms and threaten to resign rather than wear them. Why not procure them neat metal badges such as the one that adorns our Sanitary Inspector?

How comes it that the Democrats of Texas in their primary vote expressed a presidential preference for Wilson, of New Jersey, rather than for Clark, of Missouri? Because they know that a Southern man nominated for the presidency, has no chance of election, and in making their selection were moved by policy rather than sentiment.

Press despatches tell us that during his sojourn in Chicago Dr. Beattie identified himself and hob-nobbed with the great unwashed and unterrified, the Democrats of that city. After such an experience the contemplation of an enforced association with the inmates of a Canadian penal institution should have no terrors for him.

Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. Toronto, Ont. (formerly Windsor)

CURED OF THIS HORRIBLE DISEASE

Edmonton Girl saved By "Fruit-a-tives"

EDMONTON, ALTA., Nov. 20th 1911.

"I had been a sufferer from babyhood with that terrible complaint, Constipation.

I have been treated by physicians and have taken every medicine that I heard of, but without the slightest benefit. I concluded that there was no cure for this horrible disease.

Finally, I read of "Fruit-a-tives" and decided to try them, and the effect was marvellous.

The first box gave me great relief, and after I used a few boxes, I found that I was entirely well.

"Fruit-a-tives" is the only medicine that ever did me any good for Chronic Constipation and I want to say to all who suffer as I did—Try "Fruit-a-tives"—why suffer any longer when there is a perfect cure in this great fruit medicine"

(MISS) E. A. GOODALL.

"Fruit-a-tives" is the only remedy in the world made of fruit and the only one that will completely and absolutely cure Constipation.

50c a box, 6 for $2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

The Canadian Royal Templar says—Mr. Hanna is working hard to keep up his reputation as a man inclined to go as far as the policy of his party will allow in meeting the views of the temperance people of the province. He has voted the action of the license commissioners in the Temiscamingue district in granting new licenses. He has dismissed the chairman of the license board and the license inspector in Goderich, for misconduct. He has forbidden the issues in Harwich township, Kent County. The same thing has occurred in the village of West Lorne, Elgin County. And he has appointed as the successor of the Rev. John Avearst, a Methodist minister, as Provincial License Inspector ,a Baptist minister, the Rev. J.B. Grimshaw, of Petrolea. A pretty good grist for one month's record.

One gratifying evidence of our municipal progress is the fact of the completion and approaching opening and dedication of the new church erected by the Murray street Baptist church congregation. Not alone is this work an evidence of faith in the future growth and importance of this body, but of its confidence in the growth of the city and enlargement of the borders of both. The congregation further expresses its confidence in its pastor, Rev. J. R. Webb, through the Board of Managers, and in some measure, recognition of his services, both in the discharge of his pastoral duties and in connection with the extension of the church's interests, by adding to his stipend of salary three hundred dollars, the second substantial advance since he assumed the pastorate. Rev Mr. Webb does infinite credit to himself, his congregation, and to that important denomination, the Baptist church in Canada, as a whole, by his adequate conception and carrying out of what he believes the function of the clergyman, a source of inspiration to the people of his church and an example of energy, good sense and ability in the direction of its temporal affairs. These attributes are wholly admirable, and two seldom combined in one man, and it is fortunate for the congregation when they are wisely directed and well.

BADLY ULCERATED LEG

Zam-Buk Cured Her When so Bad She Had to Use Crutches

For varicose sores, bad leg, or chronic ulcers, Zam-Buk is without equal as a healer. A proof of this is just to hand from Montreal. Mrs. T. Edwards, of 164 Amherst street, writes: "Some time ago a bad sore broke out on my left leg near the ankle. For a week or two I did not heed it, but it got so bad that I could hardly walk. I sent for our doctor, and he told me that I would have to lay up with the wound. I did so for three weeks, [illegible] about by using crutches.

The sore then broke out badly, and the doctor told me that the only thing that would cure it would be an operation, and that I should have to lay up for a year. This, I knew, was impossible, as I had a family to attend to.

"My son had cured a bad cut on his finger by using Zam-Buk, and he advised me to give this balm a trial. I did so, and in less than a week's time it gave me wonderful relief. It stopped the pain, which had been so bad that many nights I did not get a wink of sleep. In a very short time the wound was so much better that I had no more sleepless nights, and was also able to move about and do my work. I persevered with Zam-Buk, with the result that the wound is now perfectly cured, and the limb is as sound and strong as ever. To any person suffering from ulcerated sores I would say, 'try Zam-Buk.'"

Zam-Buk is just as good for piles, abscesses, boils, scalp sores, blood poison, festering wounds, cuts, burns, scalds, bruises, eczema, eruptions, and all other injuries and diseases. All druggists and stores, 50c. box, or Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations. Have you tried Zam-Buk Soap? 25c tablet.

It is stated that Miss Malecka, the English woman convicted at Warsaw of revolutionary tendency, is to be banished to Siberia for life.

THE MARKET

Latest Quotations in Grain Dairy Products, Live Stock Etc.

Liverpool and Chicago Wheat Futures Close Lower—Live Stock—Latest Quotations.

CHICAGO, May 15.—Comprehensive reports indicating a material improvement in winter wheat since May and predicting that the June statement from the federal government would show a high condition for the spring crop, caused a sharp break in the wheat market to-day. Latest trading left prices heavy, ¼c to 1⅝c under last night. Corn finished ⅛c lower to ⅜c up; oats, off ⅛c to ¼c to ½c, and provisions varying from 10c down to 5c up.

Liverpool wheat closed ⅛d higher to ⅛d lower than yesterday, and corn ¼d lower. Berlin wheat closed ⅜c lower and Buda-Pest, ¼c lower.

Oats—No. 3 white, 55c.

Rye—No. 2, 87½c.

Bran—$23.50 to $24.

Flour—First patents, $5.50 to $5.75; second patents, $5.15 to $5.45; first clears, $3.90 to $4.15; second clears, $2.80 to $3.10.

Buffalo Grain Market.

BUFFALO, May 15.—Spring wheat dull; No. 1 northern car loads store, $1.21⅞; winter scarce, No. 2 red, $1.22; No. 3 red, $1.20; No. 2 white, $1.21.

Corn—Steady.

Oats—Easier; No. 2 white, 60¾c; No. 3 white, 60¼c; No. 4 white, 59¼c.

Barley—Malting, $1.17 to $1.30.

Duluth Grain Market.

DULUTH, May 15.—Wheat—No. 1 hard, $1.17½; No. 1 northern, $1.16½; No. 2 northern, $1.14¼; May, $1.16½ asked; July, $1.15¾ to $1.17⅞ bid; Sept., $1.06⅝.

CATTLE MARKETS.

Montreal Live Stock.

MONTREAL, May 15.—At Canadian Pacific Live Stock Market the receipts for the week ending May 11 were 950 cattle, 100 sheep and lambs, 1300 hogs and 2150 calves. The offerings on the market this morning were 400 cattle, 250 sheep and lambs, 900 hogs and 1800 calves.

Owing to the very limited supply of cattle again the market was stronger and prices scored another advance of 25c per cwt., which was due to the fact that butchers generally were short of supplies of beef and in consequence the demand was brisk and the competition very keen between buyers.

The demand for sheep and lambs was keen, the offerings being limited. The market for hogs was firmer, but prices were unchanged with sales of selected lots at $9.25 to $9.60 per cwt.

East Buffalo Cattle Market.

EAST BUFFALO, May 15.—Cattle—Receipts 50; market active, strong; prime steers, $8.40 to $8.80; butcher grades, $4 to $8.25.

Calves—Receipts, 700; market, active, 25c higher; cull to choice, $6.25 to $9.

Sheep and Lambs—Receipts, 10,000; market, [illegible] to 25c lower; choice lambs, [illegible] $6.50 to [illegible] $3.50 [illegible] market, fairly active, 5c to 10c lower; yorkers, $8.06 to $8.10; pigs, $7.10 to $7.20; mixed, $8.15 to $8.20; heavy, $8.20; roughs, $7 to $7.25; stags, $6 to $6.25.

Chicago Live Stock.

CHICAGO, May 16.—Cattle—Receipts, 15,000; market strong; beeves, $6.10 to $9.20; Texas steers, $5.90 to $7.60; western steers, $6.10 to $7.85; stockers and feeders, $4.20 to $7; cows and heifers, $3 to $7.90; calves, $5.20 to $8.10.

Hogs—Receipts, 33,000; market strong, 5c higher; light, $7.35 to $7.85; mixed, $7.40 to $7.90; heavy, $7.40 to $7.95; rough, $7.40 to $7.65; pigs, $5 to $6.50; bulk of sales, $7.65 to $7.80.

Sheep and Lambs—Receipts, 2000; market weak; native, $3.75 to $6.25; western, $4 to $6.25; yearlings, $4 to $7.25. Lambs, native, $5 to $8.50; western, $5.75 to $8.80.

Cheese Markets.

MADOC, May 15.—There were 400 cheese boarded; all sold at 13⅝c.

WOODSTOCK, May 15.—Offerings, 800 boxes; sales, 50 white at 13c; balance at 13⅛c.

Guelph's New Y. M. C. A.

Guelph, May 16.—The corner-stone of the new $50,000 Y. M. C. A. building for Guelph was laid yesterday afternoon in the presence of a large crowd of prominent citizens. J. G. Lyon occupied the chair, and the stone was laid by W. E. Buckingham, who has taken the lead in the movement, and to whom much of the success is due. The building will likely be completed this fall.

Amherstburg has voted a $10,000 loan to the Two-in-One Auto Co.

Cynthia's Chauffeur

By LOUIS TRACY

Copyright by McLeod & Allen, Toronto

But Cynthia had yet to learn the exceeding wisdom of Ezekiel when he wrote of those "which have eyes to see, and see not," for never was optical delusion better contrived than the height above water level of the fairy-like structure that spans the Avon below Bristol. The reason is not far to seek. The mind is not prepared for the imminence of the swaying roadway that leaps from side to side of that tremendous gorge. On either crest are pleasant gardens, pretty houses, tree-shaded paths, and the opposing precipices are so prompt in their sheer fall that the eye insensibly rests on the upper level and refuses to dwell on the river far beneath.

So Cynthia was charmed but not convinced, and Medenham himself could scarce believe his recollection that the tops of the towers of the far larger bridge at Brooklyn would be only twenty-six feet higher than the roadway at Clifton. Mrs. Devar, of course, showed an utter lack of interest in the debate Indeed, she refused emphatically to walk to the middle of the bridge, on the plea of light-headedness, and Cynthia instantly availed herself of the few minutes' tete-a-tete thus vouchsafed.

"Now," said she, looking, not at Medenham, but at the Titantic cleft cut by a tiny river, "now, please, tell me all about it."

"Just as at Cheddar, the rocks are limestone—" he began.

"Oh, bother the rocks! How did you get rid of Simmonds? And why is Count Marigny mad? And are you mixed up in Captain Devar's mighty smart change of base? Tell me everything. I hate mysteries. If we go on at the present rate some of us will soon be wearing masks and cloaks, and stamping our feet, and saying 'Ha! Ha!' or 'Sdeath!' or something equally absurd."

"Simmonds is a victim of science. If the earth wire of a magneto makes a metallic contact there is trouble in the cylinders, so Simmonds is switched off until he can locate the fault."

"The work of a minute."

"It will take him five days at least."

Then Cynthia did flash an amused glance at him, but he was watching a small steamer puffing against the tide, and his face was adamant.

"Go on," she cried quizzically. "What's the matter with the Count's cylinders?"

"He professed to believe that I had stolen somebody's car, and graciously undertook to shield me if I would consent to run away at once, leaving you and Mrs. Devar to finish your tour in the Du Vallon."

"And you refused?"

"Yes."

"What did he say?"

"Very little; he agreed."

"But he is not the sort of person who turns the other cheek to the smiter."

"I didn't smite him," Medenham blurted out.

Cynthia fastened on to the hesitating denial with the hawklike pounce of some barrister famous for merciless cross-examination of a hostile witness.

"Did you offer to?" she asked.

"We dealt with possible eventualities," he said weakly.

"I knew it. . . . There was such a funny look in your eyes when I first saw you. . . ."

"Funny is the right word. The crisis was rather humorous."

"Poor man, he only wished to be civil, perhaps—I mean, that is, in lending his car; and he may really chauffeur—like Simmonds, or Smith, for example. You wouldn't have hit him, of course?"

"I sincerely hope not."

She caught her breath and peered at him again, and there was a light in her [illegible] that would have infuriated Marigny had he seen it. It was [illegible] too, that Medenham's head was [illegible] since he simply dared not meet her frankly inquisitive gaze.

"You know that such a thing would be horrid for me—for all of us," she persisted.

"Yes," he said, "I feel that very keenly. Thank goodness, the Frenchman felt it also."

Cynthia thought fit to skip to the third item in her list.

"Now as to Captain Devar?" she cried. "His mother is dreadfully annoyed. She hates dull evenings, and the four of us were to play bridge to-night at Hereford. Why was he sent away?"

"Sent away?" echoed Medenham in mock amazement.

"Oh, come, you knew him quite well. You said so in London. I am not exactly the silly young thing I look, Mr. Fitzroy, and Count Marigny's coincidences are a trifle farfetched. Both he and Captain Devar fully understood what they were doing when they arranged to meet in Bristol, and somebody must have fired a very big gun quite close to the fat little man that he should be scared off the instant he set eyes on me."

Then Medenham resolved to end a catechism that opened up illimitable vistas, for he did not want to lose Cynthia just yet, and there was no knowing what she might do if she suspected the truth. Although, if the situation were strictly dissected, Mrs. Devar's chaperonage was as useful to him as the lady herself intended it to be to Marigny, there was a vital difference between the two sets of circumstances. He had been pitchforked by fate into the company of a charming girl whom he was learning to love as he had never loved woman before, whereas the members of the money-hunting gang whose scheme he had accidentally overheard at Brighton were engaged in a deliberate intrigue, outlined in Paris as soon as Mr. Vanrenen planned the motor tour for his daughter, and perfected during Cynthia's brief stay in London.

So he appealed to her for forbearance on a plea that he imagined was sure to succeed.

"I don't wish to conceal from you that Captain Devar and I have fallen out in the past," he said. "But I am genuinely sorry for his mother, who certainly does not know what a rascal he is. Don't ask me for further details now, Miss Vanrenen. He will not cross your path in the near future, and I promise to tell you the whole story long before there is any chance of your meeting him again."

For some reason, deep hidden yet delicately distinct, Cynthia extracted a good deal more than from that simple speech than the mere words implied. The air of the downs was peculiarly fresh and strong in the center of the bridge, a fact which probably accounted for the vivid color that lit her face and added luster to her bright eyes. At any rate, she dropped the conversation suddenly.

"Mrs. Devar will be growing impatient," she said, with an admirable assumption of ease, "and I want to buy some pictures of this pretty toy bridge of yours. What a pity the light is altogether wrong for a snapshot, and it is so stupid to use films when one knows that the sun is in the camera!"

Whereat Medenham breathed freely again, while thanking the gods for the delightfully effective resources that every woman—even a candid, outspoken Cynthia—has at her fingers' ends.

The simplest means of reaching the Gloucester road was to run back past the hotel, but the goddess of happy chance elected, for her own purposes, that Medenham should ask a policeman to direct him to Cabot's Tower, and, the man having the brain of a surveyor, he was sent through bystreets that saved a few yards, perhaps, but cost him many minutes in stopping to inquire the way. Hence, he missed an amazing sight. The merest glimpse of Count Edouard Marigny's new acquaintance would surely have pulled him up, if it did not put an end to the tour forthwith. But that was not to be. Blissfully unconscious to a dignified yet strangely perturbed old gentleman that the car Number X L 4000—containing a young American lady and her friend and driven by a conceited puppy of a chauffeur who suffered badly from tete montee—had just gone up the hil to the left, Medenham at last reached the open road, and the Mercury leaped forward as if Gloucester would hardly wait till it arrived there.

The old gentleman had only that minute alighted from a station cab, and a question he addressed to the hall-porter led that civil functionary to refer him to Marigny "as a friend of the parties concerned."

But the newcomer drew himself up somewhat stiffly when the foreign personage spoke of Medenham as a "puppy."

"Before our conversation proceeds any farther I think I ought to tell you that I am the Earl of Fairholme and that Viscount Medenham is my son," he said.

that the Earl's explanation took fresh shape.

"I mean," he went on, perceiving that his hearer was none the wiser, 'I mean that the chauffeur you allude to is Viscount Medenham."

Marigny, though born on the banks of the Loire, was a Southern Frenchman by descent, and the hereditary tint of olive in his skin became prominent only when his emotions were aroused. Now the pink and white of his complexion was tinged with yellowish-green. Never before in his life had he been quite so surprised—never.

"He—he said his name was Fitzroy," was all he could gasp.

"So it is—the dog. Took the family name and dropped his title in order to go gallivanting about the country with this young person . . . an American, I am told—and with that detestable creature Mrs. Devar! Nice thing! No wonder Lady Porthcawl was shocked. May I ask, sir, who you are?"

Lord Fairholme was very angry, and not without good reason. He had traveled from London at an absurdly early hour in response to the urgent representations of Susan, Lady St. Maur, to whom her intimate friend, Millicent Porthcawl, had written a thrilling account of the goings-on at Bournemouth. It happened that the Countess of Porthcawl's bedroom overlooked the carri[illegible] of the Royal Bath Hotel, and, when she recovered from the stupor of recognizing Medenham in the chauffeur of the Vanrenen equipage, she gratified her spite by sending a lively and wholly distorted version of the tour to his aunt.

MOTHERHOOD SUGGESTIONS

Advice to Expectant Mothers

The experience of Motherhood is a [illegible]ing one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

LYDIA E. PINKHAM

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

CHANGED HIS MIND.

He Was Awful Strong, but He Took a Dislike to Boxing.

Talking of the padded mitt and its practitioners, some one remembered a story of Tom O'Rourke when he was managing that black warrior, Joe Wolcott. Every now and then some greenhorn would happen along and beg to be tried out. It afforded Mr. O'Rourke and Mr. Wolcott a great deal of innocent pleasure to try them out—plenty. On one occasion a large walnut colored man came, hat in hand, to O'Rourke. "Ah'm most powerful desperit, Mr. O'Rourke," said he, "an' strong! My, my, Ah'm that strong Ah'm jes' natchally afraid to leave mahself go. Ah want you to match me to fight wiv somebody."

O'Rourke said that would be easily done if the caller was as good a fighter as he believed himself to be. But he'd have to be tried out first. The stranger said he was willing, and O'Rourke called Wolcott. "Take this man out in the gym," said he, "and try him out."

The pair fiddled and fenced about for awhile. Then Wolcott got his chance, whanged that right hand over, and the stranger bounced three times before he came to rest. By and by he waked up to find O'Rourke bending over him. "Mebbe Ah'd make a pretty good wrestler, Mr. O'Rourke," said he hopefully.—Cincinnati Times-Star.

WALL STREET TIPSTERS.

They Are a Numerous Tribe and Are Always Ready to Advise.

Wall street is the home of the tipster. You can always find him. You do not need to ask for him. He seeks you out in seductive advertisements, in circulars, letters and all the ways of the shrewd trader. And there are none shrewder than those who nest in Wall street.

You will find the tipsters in every broker's office. Stand at the ticker for a few minutes and hear them as they come up one after another. "This is the time to sell," says one. Directly another appears, takes up the tape, scrutinizes it for a moment, lays it down and exclaims, "A good time to buy!" But go to the head of a house, especially if it be an old, conservative and well established institution, and ask him what he thinks about the market. See how many tips you will get from him. Not many, as a rule.

He will discourse upon the situation, tell you the [illegible] factors, call attention to certain [illegible] that may be influenced by current rumors, to others that have new possibilities, to others that may suffer from various reasons, and then he will conclude with a general observation that one man's opinion is as good as another's.—Leslie's.

Cold Blooded Man.

"Man is the coldest blooded animal there is," said a well known doctor. "Man's low temperature," the doctor went on, "is responsible for more than half his ailments. Your normal temperature is 98½ degrees F. It is only when you have a bad temperature that you get as warm as any of the lower animals—that is to say, when you are in a high fever, with a temperature of 102, you are at the normal heat of the cat, the dog, the ox, the rat, and so on. In the coolest of seas the porpoise is never cooler than 100 degrees. The bat, the rabbit, the guinea pig, the hare and the elephant likewise are all cool at 100 degrees. The hen has the highest temperature of all the lower creatures, and it is a good deal warmer, too, when a chicken. Its temperature then is as high as 111, but age and experience cool its blood by 3 degrees."—New York Globe.

CRATER LAKE.

Scenic Marvels of One of Uncle Sam's National Parks.

Ten years have passed since the region of Crater lake, in "the land of burnt out fires"—the Oregon volcano country—was constituted a national park by presidential proclamation and thus preserved to the people as one of the greatest of nature's wonderlands, yet to many its very existence is unknown.

Now, after ten years of practical solitude, Crater Lake park, which has an area of 249 square miles, is coming into its own and is destined to be visited by wondering thousands. Steel rails and the automobile have made its access easy, and nowhere in the United States nor even in the world is there such a wonderful spectacle afforded the tourist as in the Crater Lake National park.

Long ago there towered among the mountains of the Cascade range, famous for its great volcanic peaks, one other lofty cone, rivaling and perhaps surpassing in height Mount Shasta's 14,000 feet. Today one views, instead, a ragged rimmed basin of huge dimensions, with what appears an almost sheer descent of 2,000 feet to a silent lake, itself 2,000 feet in depth.

One of the weird features of Crater lake is that, while it has an altitude of 6,000 feet, its waters are said never to freeze, although ice forms on the adjacent Klamath lakes, which are at a considerably lower altitude. Again, while Crater lake is always open water, ducks and other waterfowl are never seen upon its bosom during the winter. Gamy trout, however, are plentiful.—Guy Elliott Mitchell, United States Geological Survey, in Leslie's.

Bunkoed.

"Hans," said Gottlieb as they reached a pause in the conversation, "dit you efer puy a golt brick?"

"Nein, nein!" replied Gottlieb. "I nefer puyed a golt brick, but once I puyed vat I t'ought vas one."—Everybody's.

If we did but know how little some enjoy the great things that they possess there would not be much envy in the world.

$100 REWARD $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENNEY & CO., Toledo, Ohio.

COSY HOMES AND GOOD GARDENS

At Low Prices and on Rent terms, are what we are now offering—to good honest Wage-earners. Walk down to Western Avenue and see the nice homes and gardens just far enough from work to compel you to take ten minutes' walk, which is good for you but very bad for the doctors.

You can own a Home just like those if you want to, and we can give you any sized garden you want. We have a Large House, Orchard and Garden to rent, suit one large or two small families only $6.00 per month each. We commence at once to build two Houses like Mr. Wallworth's, see it, then tell us you want one. Our Price and Terms will please you as they have pleased others.

CONCERNING YOUR EYES

Good eyesight is essential to health, comfort and appearance. Have you ever noticed a strained look on your face, or your friend's? Usually this comes from eyestrain. More wrinkles are caused by eyestrain than by age. Thousands unconsciously squint in an effort to adapt the eyes to the surroundings. Success in releaving eyestrain depends entirely upon the OPTICAL SKILL of the Specialist who prescribes the glasses. Neglect of the eyes many times leads to surgical operations, which glasses worn in time may prevent. We correct errors of vision by means of properly fitted lenses.

We have every modern appliance for accurate eyesight testing, and we grind all our own lenses. Thus assuring you accuracy and promptness. All work guaranteed.

HARRY ADAMS

NEW GENERAL SECRETARY WELCOMED AT THE Y.M.C.A.

The new general secretary of the Young Men's Christian Association Mr. A. A. Hainsworth, late of Batavia N.Y., met the Board of Directors and a number of staunch friends of the Association last evening and the occasion proved an interesting one for all concerned.

Mr. Hainsworth was introduced to the various members of the Board, as they arrived, and towards nine o'clock all adjourned to the gymnasium, where the Intermediate and Junior Leaders Corps, went into action, under direction of the physical director, Mr. J. J. Thompson. The boys certainly made a hit with the spectators as they went through their work.

Later the affair took the form of a meeting of welcome in the parlors, when with the president, Mr. J. J. Turner, jr., in the chair, an interesting program was carried out.

Mr. Turner, in a short introductory address, cordially welcomed Mr. Hainsworth to the city of Peterboro, which he (Mr. Hainsworth) would find to be one of no mean order.

Other speakers were Messrs. J. W. Bennett, J. J. Hartley, Ald. Gillespie A Macfarlane, Jas. Connal, W. C. Switzer, Ald. Gordon, who was present to represent Mayor Bradburn, His Worship being unable to give his attendance, Rev. W. C. Riddiford, Rev. F. J. Sawers. Letters of regret at inability to be present were read from Rev. Jas. Rollins, Mr. E. G. Patterson W. H. Denham and Rev. R. E. Grobb.

One and all agreed that, as the field was large and the opportunities and possibilities many, Mr. Hainsworth was the right man for the position. He was assured by every speaker that their assistance was available whenever he wished.

Mr. Hainsworth in reply, acknowledged the kind reception. He would do his best he said, and in the work coveted the co-operation of every members of the Board. Much depended on the assistance given by the Board. He hoped there would be no knockers. If any member of the Board had opinion differing from the secretary, as to the work proceeding he (the speaker) hoped that opinion would be expressed openly.

Altogether, Mr. Hainsworth spoke as a man with his whole heart in his work and made a splendid impression.

He was general secretary at Batavia N.Y., for two years, and in that time the building fund for a new structure was raised to $50,000. He comes highly recommended, and since he accepted the position here, a number of glowing references, in regard to his work, have come unsolicited to President Turner.

The local Association is in charge of good hands once more. The merits of Mr Hainsworth's assistants, Mr. Thompson and Mr. Hall are well known and now with all three officials working harmoniously, the Y.M.C.A. work should prosper as never before.

During the evening, vocal solos were given, by Messrs. R. F. Downey and W. J. Miller. Mr. Schneider presided at the piano. Refreshments were served by Colemans".

Mr. Hainsworth will reside on Maitland Avenue.

AD. CLUB MEMBERS ON TRIP TO DALLAS, TEXAS

This morning, Mr. H. B. Cowan and Mr. C. F. Hardy two members of the local Ad Club, started on their trip for Dallas, Texas, to attend the great convention of business men and advertising men of America, which meets this year in Dallas, and it is expected next year will convene in Toronto.

The importance of this convention and what a delegate may learn while there is in a degree evident when it is known that men from all over America, like these two local citizens of Peterboro, travel to this convention meeting their own expenses, and taking from ten days to two weeks of their time in order that they may profit in the way of information and knowledge gained while at the convention.

The largest spenders of money for advertising purposes both from Canada and the United States, meet together with members of the Associated Ad Clubs of America, at this convention, to discuss their various problems relating to advertising. The trip to Dallas includes a four day tour of the State of Texas, during which trip all delegates are the guests of the State.

In order that the members of the Peterboro Ad Club and the local business men may learn something of what takes place at Dallas, the club will meet for dinner possibly Tuesday evening, the first week in June, at which dinner Mr. Hardy and Mr. Cowan will speak of sights they saw and things they learned while on the trip and at the convention.

DEATH OF MRS. PERRY

The death occurred this morning of Mrs. Charles Perry, 571 Water st., daughter of the late Dr. Charles Gilchrist. Fuller particulars will be published to-morrow.

The funeral is on Saturday at 2.30 from the late residence, to Little Lake cemetery.

THE ELECTRIC WIRE PARTED AND DROPPED

This afternoon one of the power wires crossing the bridge, broke, and there was a display of electric lights as the broken ends touched the iron work of the bridge. A little girl who was on the bridge had her hat knocked off by the falling wire, and ran for her life in terror.

The cable is on the north side, almost over the walk and should be moved farther north so that if a break occurs the wire would drop in the water. Among the many cables strung about the city, such a happening may occur at any time and the utmost care must be taken to ensure that no fatalities may happen.

CARNIVAL AT THE CONSERVATORY HALL

The Children's Carnival to be given to-morrow evening and Saturday afternoon, in the Conservatory of Music promises to be a most pleasing entertainement. One hundred and fifty children will take part. An orchestra composed of fifteen little people will assist in the festival, supplying a number of charming musical creations. Miss Choate, Miss Dean and Glidder have prepared an interesting program, which is certain to be a surprising exposition of the talents already recognized, of the younger generation in Peterborough.

[illegible] MEETING

At Sergent's Mess, 57th Regiment, to-night. Full attendance requested. 1d

Ascension Day

Ascension Day was observed to-day in St. John's Church by Holy Communion at ten o'clock. The service to-night at eight o'clock will be fully choral. Choir practice will follow the service. Boys are asked to assemble at 7.30 o'clock.

At St. Luke's this morning, Holy Communion was observed at 10.30 o'clock. Services will also be held in St. Peter's Cathedral and at Sacred Heart Church.

Retrospective Luncheon

The Willing Workers of Murray st. Baptist church, will serve luncheon at 7.30 Friday evening, May 17, after which, a program suitable to the occasion will be given. This will consist of addresses by Rev. C. G. Smith, and several local gentlemen and several good musical numbers. Admission 25 cents.

TO CURE A COLD IN ONE DAY
take LAXATIVE BROMO Quinine Tablets Druggists refund money if it fails to cure. E. W GROVE'S signature is on each box 25c.

CHILDREN'S FESTIVAL

Given by chorus and orchestra of 150 little people, introducing Mother Goose and her children. Teddy Bears, vocal, violin, cello, clarionette, cornet and piano solos. Conservatory of Music Hall, Friday evening May 17, at 8 o'clock; Saturday afternoon, May 18, at 3 o'clock. Admission, adults 25c, children, 2 for 25c. Under direction of Miss Dean, Miss Choate and Mr. Gliddon.

JEANNE TOWLER IN 'THE WHITE SISTER'

When Jeanne Towler comes to the Grand Opera House for one night only, Wednesday, May 22nd, she will be seen here for the first time in a new play which has aroused more comment among critics, theatregoers and literateurs than any dramatic offering for many and many a season. The play is "The White Sister," a most unusual story, both in plot and sub-plot, the work of the late F. Marion Crawford. When "The White Sister" was first produced the announcement was made that it would be interesting to watch the attitude of the Catholic church with regard to this play and conjecture was rife among the laymen of every sect as to whether or not the church through its clergy could endorse or condemn the stage offering. Inasmuch as F. Marion Crawford was selected as the biographer of the late Pope Leo, shortly before his death, it was thought probably that the play would make for a truer understanding of the Catholic faith. After the first performance a number of the prominent Catholics of Chicago were selected to attend [illegible] performance and report the peculiarities of "The [illegible] in their [illegible] [illegible] result of the churchmen's visit was a statement issued by the Catholic publications to the effect that the play was based entirely upon fact, as far as the principles of the church were concerned; that Catholics would appreciate the play and enjoy it; that the characterization of the Nun was beyond reproach, and that people of every sect and creed could find no objection in any part of the performance as the delicate subject of religion in general and Chatholicism in particular was treated in a most unusual manner, with deftness and dramatic power and that as an entertainment "The White Sister" was high in the list of the greatest offerings of the American stage.

LOCAL NEWS ITEMS

St. John's Junior Auxiliary are preparing for a children's entertainment for June 8th. All members please attend the next practice, Saturday morning at 10.30 o'clock sharp. Any children desiring to join will be welcome.

Stratford's tax rate will be 26 1-2 mills, an increase of one half mill.

NORWOOD NEWS ITEMS

Special Correspondence.

Norwood, May 16.—Miss Lodiema Johnston left on Sunday afternoon for Weyburne, Sask., where she has procured a good position as saleslady in one of the largest stores in that place.

Mr. W. J. Puffer who has been employed in the J. B. Pearce & Son's store has resigned his position and entered into the employ of the Le Roid Brokers.

The members of the Norwood Band have made arrangements for a celebration in Norwood on May 24th. At the Driving Park a good line of sports will be run off in the afternoon including a baseball game between Norwood and Havelock while in the evening a grand concert will be held in the Town Hall.

The Court of Revision on the assessment roll in the village of Norwood will be held in the Council Chamber on Wednesday evening, June 5th, at 8 o'clock.

Mr. Claude Bongard has moved into Mr. Norman Graham's house on Queen street.

The structural work on the John Baskin hotel is nearing completion. The outside walls are finished and the carpenters are busily engaged in putting on the roof which will be mansured, thus admitting of several additional sleeping apartments. When completed the hotel will afford accommodation to a large number of guests, as there will be practically four storeys, as Mr. Baskin intends utilising the basement for travellers' sample rooms.

Mr. J. A. Finlay has had his auto re-painted and it looks like new.

SPRINGVILLE NEWS

Special Correspondence.

Springville, May 10.—Mr. Andrew Goodfellow spent Sunday with Mr. and Mrs. Geo. Gipson.

A number of our young people attended church at Fraserville Sunday night.

We understand that Mr. Walter Bowles intends setting a number of duck eggs. We all wish you success in your experiment, Walter.

Miss Katherine Hopkins and Miss Pearl Scobell were the guests of the Misses Reynolds over Sunday.

Miss Patterson of Peterborough, spent Sunday with Miss Eva Bidgood.

Mr. Charles Nixon, of Peterborough, was in the village Monday night.

We were pleased to see such a large attendance out to Sunday school, Sunday. We have had no Sunday school during the winter and Rev. Dr. Marsh is doing all in his power to make this a banner year for Springville; eighty-two was the roll call Sunday.

OSHKIGMONG

Special Correspondence.

Oshkigmong, May 16.—Messrs. J. D. Monague, J. L. King and M. Mccue, of Christian Island, who have been visiting friends here for more than a week, have returned home. While here Mr. King conducted three preaching services, which were much appreciated by the people.

Miss Lavenia Whetung, of Hiawatha, is here for a few days visiting her grandparents and friends.

Last Sunday morning we were honored by a visit from Rev. Mr. Smith, of China, who preached to a large and attentive congregation. His remarks were very inspiring and effective. Twenty-one years ago Mr. Smith was a pastor of this place, and vividly recognized some of the old faces.

Mr. and Mrs. James Bigvina, of Alderville, are here to stay for a while.

Tuesday of last week the Indian agent, Mr. Wm. McFarlane, of Keene, was here distributing the interest money due to the Indians of Chemong.

Trip to Stoney Lake Saturday, May 18. Steamer leaves Lakefield on arrival of morning train from Peterborough, returning to connect with 4.40 p.m. train. Stoney Lake Navigation Co, F. G. Young, General Manager. 2d

Hard Luck

The local dog catcher is having his troubles these days. Evidently a friend of the dogs does not approve of their being detained in the old barn across from the library. The other night some unknown ripped off a board allowing several of the captured canines their freedom.—Lindsay Post.

DIED

PERRY—Died at her residence, 571 Water Street, Peterborough, [illegible] Perry, daughter of the late [illegible] sixth year.

Funeral Saturday, May 18th, at two thirty o'clock to the Little Lake cemetery.

CAMPING AT NASSAU

The junior boys of the Y.M.C.A. are in high glee these days over the prospects of regular camp life which is made possible by the selection of a camping grounds, immediately south of Nassau on the east side of the river. Boys' Secretary Hall has the matter in hand, and weather permitting, outdoor life will commence this week.

The camp will be in charge of Mr. Leader and will do a continuous business till July 28, when the yearly camp at Sandy Point will be held.

There will be three large tents at the Nassau camp and school boys will be able to go under canvass after school on Friday and remain till Saturday night. In no case will the juniors be allowed to remain over Saturday night for Sunday. The program will adhere to the rules of the Annual Camp as closely as possible.

WANTED AT ONCE
Two Salesmen and Two Salesladies to sell inside lots in the City of Saskatoon. Will pay salary and commission to right parties. Apply to O. G. Hale, 332, George Street, district manager Walch Land Co., Peterborough. 2d

LOCAL ARTIST AT HAVELOCK

Standard:—"A Joyful Thanksgiving," a sacred cantata by Simer, was produced in the town hall on Monday night, under the auspices of the local orchestra, and proved to be a splendid success from a musical standpoint. The attendance was very small, which does not speak highly for the love of good music in Havelock. The orchestra, under the direction of Miss Julia Choate, of Peterborough, has improved greatly since last year, and their accompaniments and other selections were indeed most excellent, and reflect credit upon their leader and teacher. In addition to the cantata, Miss Choate delighted the audience with an entrancing violin solo, to which she was forced to respond with an encore. Miss Chalmers, of Peterborough, was also enthusiastically encored after giving a splendid vocal solo, "April Song."

Dr. de Van's Female Pills

Sold by the Warne Drug Co., Limited

TWO BRIGHT AND INSTRUCTIVE SESSIONS AT ANNUAL DISTRICT LEAGUE CONVENTION

Mr. J. J. Goodwin of Peterboro Elected to Presidency—Visiting Speakers Were Rev. F. L. Farewell and Dr. W. E. Smith of West China.

The seventeenth annual convention of the Peterborough District Epworth Leagues and Sunday Schools was held yesterday afternoon and evening in the Lakefield Methodist church. While the convention was not as largely attended as was desired, yet every profitable and enjoyable sessions were held, and those delegates who were able to attend the afternoon session must feel greatly helped, and stimulated to go ahead with more enthusiasm and earnestness than before in the work of the Epworth League.

The convention got under way shortly after two o'clock in the afternoon. The devotional exercises were conducted by Rev. O. H. Coon, in whose church the convention was held. This was followed by the report of the Sunday School Secretary, Rev. O. E. Cragg. He reported a rather encouraging state of affairs prevailing in the district, although unable to ascertain complete reports from many of the schools. His report was followed by that of the Epworth League secretary, and the election of a nominating committee.

PLACE AND VALUE.

Miss Pearl Burnham, of Millbrook, next presented one of the best and most thoughtful papers by far that has ever been read at a District Convention. Her subject was most timely and helpful and was based upon the "Place and Value of the Epworth League as a Spiritual Agency." The paper contained invaluable suggestions which when worked out could not fail but be a great medium for the advancement of Epworth League work.

MISSION WORK.

Dr. W. E. Smith, of Yuan Shi, West China, representative of Peterborough and Cobourg districts, gave a talk on his experience and in the mission fields, relating a host of interesting things about China and its people. Dr. Smith said that he attributed most of the success which has attended his work in China to the fact that he and his wife have always treated the Chinese on terms or equality thereby winning friends at the very commencement. Their influence in guiding them to Christ through this treatment was greatly strengthened. Two churches had been built in the city, both largely attended and meeting with success in every department. Even while Dr. Smith was away they carried on the good work as they would if he were present, Chinese converts taking over the responsibility.

The concluding speaker for the afternoon was Rev. F. L. Farewell, B.A., Associate Secretary of Epworth Leagues. Mr. Farewell discussed Young People's Societies, giving plenty of opportunity for a general discussion on the subject. Some of the things debated were whether the new League pledge was superior to the old one. Another, was, how to stimulate more League interest in the district as a whole. His concluding injunction was "Pray, study and meditate on all things which would tend to build up and strengthen the League as a whole." There is considerable difficulty experienced in organizing Leagues in some circuits owing to the scarcity of members. Rev. J. N. Clarry, of Cavan circuit said that the whole district executive might try if they wished, but would find it impossible.

During the afternoon session several suggestions were brought forward for benefitting the League and Sunday school work which were referred to a business committee who brought in their report on them at the evening session.

An elegant supper was served in the basement of the church about six o'clock, provided by the League of the Lakefield Methodist church.

EVENING SERVICE.

[illegible] tion was large[illegible] of delegates from Peterborough, who drove up in 'bus loads. Indeed, the representation from Peterborough was larger than Lakefield, which speaks well for the enterprise of the local leagues.

The devotional exercises in the evening were in charge of Rev. G. W. Henderson, Honorary President.

The report of the nominating and business committee followed, which embodied several recommendations evolving out of the afternoon suggestions. The new officers for the district for the next year are:

Honorary President—Rev. G. W. Henderson, Peterborough.

President—J. J. Goodwin, Peterborough.

1st Vice-President—Miss Pearl Burnham, Millbrook.

2nd Vice-President—Rev. C. E. Cragge, Peterborough.

3rd Vice-President—Miss Edna Armstrong, Peterborough.

4th Vice-President—Mr. E. E. Logan, Peterborough.

5th Vice-President—Miss E. L. Brown, Millbrook.

Secretary—Chester J. Frowde, Peterborough.

Treasurer—Smith Kelly, Bridgenorth

The recommendations were as follows:

That the Epworth League and Sunday school work in the future be separated, and that the convention be continued for Epworth League purposes alone.

That the District Executive enter into negotiations with the Sunday schools with a view to uniting Leagues and Sunday schools in the support of a missionary.

That we urge upon all Leagues the need of placing special emphasis upon evangelical work, and that an executive meeting be held early next fall, preferably at the next financial district meeting, to discuss this work at that meeting so as to secure the co-operation of the pastors.

That the fifth vice-president be requested to submit at the above executive meeting a plan for increasing junior work.

Rev. J. G. Brown, the retiring president of the district, occupied the chair at the two sessions.

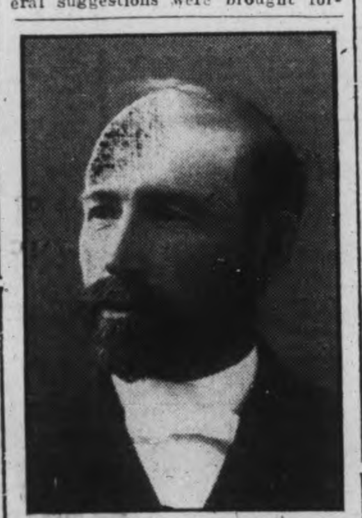
A splendid address was delivered in the evening by Rev. Farewell on the subject of "Good Citizenship." He urged the building up of a better and purer manhood and womanhood, and the cultivation of loftier ideals.

The other evening address was delivered by Rev. Isaac Couch, M.A., B.D., pastor of George street Methodist church, who gave an eloquent, thoughtful and most scholarly exposition of the inspiration of the Old Testament.

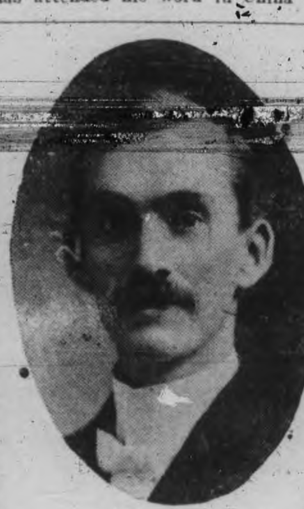
Rev. Mr. Couch went to much painstaking and careful preparation in compiling his address, which included a review of the Old Testament and the origin of its writings. While lengthy, Rev. Mr. Couch's address was much appreciated and was most comprehensive and thorough.

At the finish of the evening session [illegible] the district [illegible] had assisted in any way in making the convention a success, and the gathering dispersed with the benediction.

M. A. A. HAINSWORTH.
Who was welcomed to the Y.M.C.A. as the new General Secretary. He comes from Batavia, N.Y., but is a Canadian by birth, having been born in Nova Scotia.



REV. C. H. COON.
Chairman of the afternoon session, District Leaguers' Convention at Lakefield.



REV. ISAAC COUCH.
His treatment of the subject, "The Inspiration of the Old Testament" was a feature of the Leaguers Convention at Lakefield.

W.O.W. AT HOME

The Woodmen of the World held a very successful and enjoyable "At Home" in their lodge rooms on George street last night. Over one hundred and fifty guests were entertained and all pronounced the evening a most pleasing one.

Commencing at eight o'clock, progressive euchre contests were indulged in and the usual honor and prizes connected with the games were won. Refreshments were served after the card games.

Tucker orchestra summoned the happy throng to the dancing hall, where for several hours the dancing continued.

The success of the evening is largely due to the efforts of Mr. McCoy, chairman of the entertainment committee who supervised all the arrangements for the affair.

New Brunswick elections will be held about June 13th.

S. CENTRALS WON AGAIN; GOOD GAMES IN THE PUBLIC SCHOOL BALL LEAGUE

The winners in the Junior School League yesterday afternoon were, South Centrals, King Edwards and Queen Alexandras.

The East City nine visited the Queen Alexandras and returned home with the small end of the 15-12 score. Both teams played good ball.

Batteries—Anderson and Moffatt, Johnston and Echobison.

SOUTH CENTRALS AGAIN

Yesterday afternoon at the Oval, the South Central juniors defeated the Central Juniors, by a score of 19 to 8. Bartley for the South Centrals pitched good ball and was steady throughout the game.

Mr. Pettit, of the Collegiate Institute gave entire satisfaction as umpire.

Batteries—Bartley and Soden, Armstrong and White.

KING EDWARDS' IN FRONT

At the King Edward grounds, the King Edwards defeated the East Ward to the tune of 24 to 9.

Batteries—Frost and Taylor, Thompson and Batten.

Umpire—Mr. Kerr.

CITY TENNIS ASSOCIATION MEETING AT Y.M.C.A. TO-NIGHT

All those interested in the City Tennis Association, are asked to meet at the Y.M.C.A. this evening, when the annual meeting will be held. It is hoped that a big attendance will greet the officers as it is necessary that active work commence at once if success is to be met with this summer.

It has been decided that the prizes won in championships last season will be presented at a later date, possibly May 24, when a club from Toronto may be represented here.

Bill Landry was the winner of the gents' singles last year, but is absent in Toronto. Miss Burnett won the ladies singles, while the doubles went to the Y.M.C.A. for the third consecutive season.

Every member and tennis enthusiast should be out to the meeting to-night.

WHITE CAPS HAD THE EDGE IN BATTING HONORS BUT DROPPED THE SECOND GAME

Hamilton, May 15.—Hamilton took the second game of the series from Peterborough to-day 7 to 5. The weather was raw and both teams played loose ball. An error by Tully, a wild pitch by Bartlett, and three timely bingles gave the Kolts four runs in the first and after that they were never in trouble. The three flingers were hit freely. Rose's delivery was solved ten times. The feature of the game was Corns' hitting. He made the first triple of the season and a two-bagger. Hackbush, who was let out by Guelph, was signed by Manager Templin this morning. He will likely be carried as a utility man. The score:

White Caps	R.	H.	O.	A.
Schwartz, 1b	2	1	1	0
Hartman 3b	0	0	1	0
Tully ss	1	1	2	2
Templin 2b	0	2	2	3
Dolan 1b	0	2	10	0
Beard cf	0	0	4	0
Hackbush rf	0	0	0	0
Mooney c	1	2	4	[illegible]
Bartlett p	0	0	0	[illegible]
Baver p	1	2	0	4
xBrode	0	0	0	0
Totals	5	10	24	15

xBatted for Bartlett in the second.

Kolts	R.	H.	O.	A.
Schafer, 1b	1	1	7	0
Keenan, 3b	0	1	0	3
Murphy, rf	1	1	2	0
Corns, cf	3	2	2	0
Killilea, ss	2	1	3	0
Farrell, 1b	0	0	4	0
Fisher, c	0	1	8	1
McGuire, 2b	0	1	1	3
Rose, p	0	0	0	1
Totals	7	8	27	8

By innings—

Peterborough ... ...10001300—5

Hamilton ... ...40101010x—7

Summary—Two-base hits—Schwartz, Fisher, Keenan, Corns, Killilea. Three-hit—Corns. Sacrifice hits—Farrell 3, Keenan. Struck out—By Rose 6, by Baver 1. Bases on balls—Off Rose 2, off Baver 2. Stolen bases—Schaefer. Innings pitched—By Bartlett 1, by Baver 7. Passed ball—Mooney. Wild pitch—Bartlett. Left on bases—Hamilton 5, Peterborough 10. Umpire—Yerkes. Time—1.55. Attendance—600.

CANADIAN LEAGUE RECORD

Games to-day—London at St. Thomas, Berlin at Ottawa, Peterboro at Brantford, Hamilton at Guelph.

HOW THE WHITE CAPS LOOKED TO HOME SCRIBES

The Hamilton Herald hands out the following against the White Caps—

The Petes looked decidedly nifty in their new uniforms of white with blue stockings and blue and white caps. The Hamilton team also has a prettier uniform than last year, yellow and black being the colors, as they are most soothing to the eye of a Hamiltonian. Templin chose his star southpaw Derr, to do the heaving, and with as good support as Teed received he would have won. Derr has loads of speed and good control. Not once during the afternoon did he attempt to put one over the centre. He is an artist when it comes to cutting the corners, and sent over a bunch of heaves that for variety could not be beaten. Six bingles were all that Lee's Lulus could amass, and if this Derr person continues to do such heaving, he will be booked for higher company before the season closes. He pitched winning ball yesterday, and the disaster can in no way be attributed to him. He kept the bingles well scattered, and pulled out of a tight corner on two occasions when it looked as though the local hired help would notch another. . . . What was the best play made in yesterday's game? The answer is easy. In the sixth inning, Tully, the Peterboro shortstop, hit to right field, and reached second on a passed ball. Templin was at bat, and Tully naturally took a lead off second. Fisher threw the ball to Maguire in time for the latter to nail Tully, making the first play of the kind that was ever seen at Britannia Park, and one that is seldom seen at any park. Pitchers have caught men off the bags at each of the three corners, but for a catcher to throw fast enough to catch a man napping at second base is certainly some pegging . . . Peterboro has a real high class ball player in Tully, the shortstop. He performs well in the difficult position and will be heard from before the season is very far advanced.

BREEZES FROM THE DIAMOND

Twice in the same spot. Manager Knotty Lee isn't the least bit particular about the manner he handles the White Caps.

The errors were 7 and 5, which reminds us that the Strathconas and West Ends used to come away from Riverside Park, with the total anywhere around one score and ten.

The Petes play in Brantford to-day and for the remainder of the week. Here's hoping for an even break.

St. Thomas for Monday and Tuesday and then back home till the 29th with St. Thomas, Guelph and Ottawa.

Judging from the way the Caps are hitting the leather, Doc McFadden's picture of Manager Templin will not have to wait long for a new owner.

The fans are pleased with the showing of the Templin brigade, and believe that the boys will climb the percentage ladder.

The entrance of the Canadian League team into Peterborough does not find the Review forgetting the amateur ranks. If you want to get all the sporting news, read the Review.

The results of all games in the National, American, International and Canadian Leagues are bulletined by the Review as soon as they can be brought over the wires.

St. Thomas claims the fastest infield in the league. It is made up of Guerney at first; Wilde, second; Forgue, short, and Johnston, third.

Jack Gibson, the McGinnity of the Berlin champions, comes from Marion, Mich. His father is the man who is known as the breeder of fast trotting horses. The Eel comes from his stables.

Guelph's star heaver, Nebr, was hit for 6 runs in the first innings, before two men were out yesterday. The Maple Leafs have failed to score yet.

White Caps have clouted out 19 safe ones, in the two games. When the team settles down, look out there Ottawa, London, Berlin, etc.

SKIPPING THE BOWLERS

Port Hope Coming for Games on May 24th.

The Peterborough Bowling Club held a meeting last night for the purpose of appointing skips for the coming season. It was also decided to have a local club tournament during June and to entertain the Port Hope Bowling Club on the 24th of May.

It is likely that the opening of the bowling season will be on Monday, with President vs. Vice-President games.

The skips appointed were: George Giroux, Alex. Weddell, Dr. Wightman, W. H. Dunsford, D. H. Moore, Dr. Eastwood, R. J. Soden, Dr. Caldwell, Dr. Marshall, R. M. Waddell, J. E. McIntyre, A. E. Runnells, T. E. Pratt, T. Brightman, J. H. Renwick, D. Belleghem, R. G. Cottrell, Dr. Greer, W. N. Lang, J. W. McDermid, W. McIlroy.

BASEBALL YESTERDAY.

TELEGRAPHIC BRIEFS.

The Minister of Justice has had a medical examination made of Farquhar McRae at Kingston Penitentiary, for whose release friends are working.

While attempting to jump on the front running board of a moving G.T.R. yard engine, Ernest E. Avery, aged 21, a switchman, was almost instantly killed at Toronto yesterday.

A contract let yesterday at St. John, N.B., includes the entire construction of a breakwater a mile long and the removal of a large hill. The contrast involves, it is understood, $4,000,000.

Sir Wilfrid Laurier returned to Ottawa last night from voting in Arthabaska, and on the way heard some of the returns in the procincial elections in Quebec. He was happy as a boy.

Before a crowd of several thousand people, the new Government tug, Bellechasse, which will be used as an ice-breaker, was launched at the dry dock of the Kingston Shipbuilding Co. yesterday.

An effort will be made by the towns along the Grand River to either have the conservation commission or the Ontario Government investigate the matter of presenting the serious spring floods here.

Winston Churchill says he will have to present supplementary naval estimates this year, as he had intimated in his speech when introducing the naval budget, because of Germany's naval expansion.

A Hamilton fireman has applied for the Chief's job at Guelph.

Willie's Anguish.

"Say, ma," asked little Willie after he had been in conjunction with the paternal slipper, "did anybody besides pa ever ask you to be his wife?"

"Oh, yes. I had lots of proposals before your father came along."

"Well, do you think you gained anything by waiting?"

Sense of Smell Gone.

"This egg seems to be tainted, ma'am," said the cook to the mistress of the boarding house.

"Well, give it to Mr. Smith. He's got a bad cold in his head and probably won't notice the difference."—Detroit Free Press.

Service Must Speak

A STORE is almost human. It is full of temperament. It affects each customer with the composite personality of its management and staff.

There are stores and stores. There are "grouchy" stores and "smiling" stores. There are flippant stores and dignified stores. And the peculiar thing about each is that the goods or the prices have little to do with the store's temperament. It is the personality of the store that colors and defines the character of the goods from the customer's view-point and wins or repels approval.

The temperament or personality of a store is vividly expressed in its face. The face of a store is its advertising. You can judge a store by its advertising the same as you can judge a man by his facial expression.

Stores that honestly try to serve their customers best simply can't help advertising. It is the way of human nature that when we have spent the best of our brain power and physical and financial resources in building up something worth while, our enthusiasm bursts forth into publicity. We simply cannot restrain the desire to tell others about it.

In the long run, service is what you pay for, always. The goods, as goods alone, are incidental. Service implies quality, fair prices, safe treatment, and [illegible] transaction.

The service store is the "serving" store. It is also the honest-advertising store. By this, you may know it always—anywhere.

Advice regarding your advertising problems is available through any, recognized Canadian advertising agency, or through the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—so write, if interested.

Accident Insurance

Following the Titanic Disaster no one will think of travelling without first taking out an Accident Policy.

It is interesting to know that practically all the Canadians who lost their lives through the Titanic wreck carried Accident Insurance. The average amount to be paid by Accident Companies alone, is over $30,000 for each Canadian lost.

The Double Indemnity and Bonus feature of The Dominion of Canada and General Accident Assurance Company policies are worthy of investigation before placing your Insurance.

$35 FOR THE TITANIC FUND

Pleasing Program by St. George's Choral Society.

The St. George's Choral Society gave a successful concert in the S.O.E. Hall last night, in the interests of the Titanic fund for the penniless survivors and widows and children of the "Titanic" victims. Mr. Wm. Guy occupied the chair, and the audience were favored with an address by Ald. Gordon.

The program was almost entirely musical and the selections were all appreciated by those present. The monetary results of the concert were satisfactory.

Tucker's orchestra supplied a number of very appropriate and delightful selections, and the music of the evening was all of the highest order.

After the opening selection by the orchestra the Philharmonic quartette rendered "Nearer My God, to Thee,' in a most pleasing style. The quartette is made up of Messrs. Harold Lee, J. Cairne, J. New and A. New, and their music was almost faultless in their presentation.

Mr. Harold Lee in his solo, "The Message," certainly displayed the power and accuracy of his voice, making a decided impression on the audience.

Mr. R. J. Devey was in charge of the evening's entertainment, and provided the following extensive and varied program:

Selection, "Nearer, My God, To Thee"—Philharmonic Quartette.

Solo, "The Sailors' Grave"—Mr. Flowers.

Solo, "Poppyland"—Miss Quartermaine.

Solo, "My Ain Folk"—Mr. Dickson.

Solo, "The Swallows"—Mrs. Wells.

Reading, "A Noble Vengeance"—Miss M. Moss.

Selection, "The Low Backed Car"—Philharmonic Quartette.

Solo, 'There's a Land"—Mr. Chambers.

Chairman's Address.

Banjo Solo—Mr. Clark.

Solo, "The Message"—Mr. Harold Lee.

Pianoforte Duet—Messrs. H. Hill and Harold Devey.

Solo, "Friars of Orders Gray"—Mr. A. New.

Selection—Philharmonic Quartette.

Solo—Mr. Dickson.

Reading, "If I Were a Man"—Miss M. Moss.

God Save the King.

The accompanists took their part in the concert with the utmost success, Mrs. Evans, Mr. R. J. Devey and Mr. J. Dickenson accompanying the different singers.

In all the receipts amounted to $35, which will be given to the Titanic fund.

DEVELOPMENTS IN MINDEN CASE

New Evidence Likely at Trial of Arthur Ellis.

Minden, May 16—Detective Reburn of Toronto, was in this village a few days last week in connection with the recent murder, and it is understood that he has secured additional information concerning the unfortunate affair.

It is understood that Mr. T. H. Stinson, of Lindsay, and formerly of this village, has been retained to look after "Heck" Ellis' interests and that when his trial comes on T. C. Robinette, the well known criminal lawyer of Toronto, will be engaged to assist Mr. Stinson in his defence.

There are ugly rumors in circulation regarding the manner in which the deed was committed. The statement has been made that information has been given a county official that Porter was shot in a different manner than that given out at the inquest and that the spot where the body was found was only a temporary resting-place. Whether these statements can be substantiated will only be known when the trial comes on.

WHO'S COMING AND GOING

Mr. A. M. Beakett, of Prescott, is in the city to-day.

Mr. R. C. Lees, of Buffalo is registered at the Oriental.

Mr. Jack Barry, of Prescott, Ont., is in the city transacting business.

Mr. B. [illegible] Dawson of Hartford, Conn., is in the city to-day on business.

[illegible] Kidd, Bacon and Samuel [illegible] in Lakefield yesterday attending the District Epworth League Convention.

Dr. H. A. Wood has sold his dental practice in Peterborough, and will close his office Saturday night. His successor takes possession Monday, 20th inst.

Miss Agnes Dickson, formerly secretary of the Y.W.C.A., will be in the city to-morrow and will be glad to meet any of her old friends at the Y.W.C.A. building in the evening.

Mr. and Mrs. Ryerson Ritchie left yesterday for a visit among old friends in Detroit, which was their home for five years. They return to the city next week and will summer at "Hiawatha Lodge," on the lower Otonabee.

The friends of Miss McCalla, general secretary of the Young Women's Christian Association, will be pleased to know that she is convalescing nicely after undergoing an operation in Nicholls Hospital, and expects to be out again next week. Her duties at the Y.W.C.A. are being carried on by Miss Coventry, assisted by others of the staff.

A. B. Manson has been named city engineer of Stratford.

We Announce a Brilliant Display of The Requirements of The June Bride

Offering a Better, Bigger and Broader Array Of Muslin Wear, Dresses, Fabrics, etc., Than Has Ever Been Exhibited In Peterborough

The Bride of June whose trousseau is as yet uncompleted, will especially appreciate this exposition of muslin undergarments, silk and mull dresses, and light fabrics of every sort.

It is the most pretentious display of this character ever attempted in Peterboro. It comprises only garments and materials of the very highest and most meritorious quality. It exploits fabrics which could be well used for the bridal outfit of a princess, and of her attendants. It offers Muslin Wear and Dresses of fascinating style and charming attractiveness.

This exhibition of the June Bride's requirements is indeed out of the ordinary, and unlike anything of the sort hitherto held in Peterboro. In quality, in diversity, in beauty and in attractiveness, it eclipses any similar array ever attempted here.

Our windows are displaying some of these bridal goods, and they should be closely inspected by everyone interested in June Weddings.

RICHARD HALL & SON, LIMITED.

FOREIGNER COULDN'T READ SIGN AND MISSED POLICE COURT COSTS

A young man appeared before His Worship this morning, charged with being drunk and disorderly. He pleaded guilty and his mother paid the fine, $4 and costs, amounting to $5.75.

T. D. Stinson was found guilty of riding on the sidewalk and was fined [illegible] amounting to $1.00.

Six other young men pleaded guilty to the same charge and were fined $2 and costs.

A foreigner was charged with crossing the C.P.R. bridge. He was fined $2 without the costs, because he could not read English and did not know he was trespassing on private property.

Another man was up on the same charge and was fined $2 and costs, amounting [illegible] He was given ten days to pay the amount.

CONGREGATION OF MURRAY STREET CHURCH SURPRISE THEIR PASTOR

Much important business was transacted at the meeting of Murray street church last night. The recommendation of the officers regarding the time and manner of allocating the pews of the new church was carried unanimously. No pews will be allocated until after the three Sundays of opening services when an evening will be devoted to this work.

After several other matters were dealt with the pastor was asked to vacate the chair when Mr. R. Harding was voted chairman. Mr. T. F. Matthews then presented a motion that the salary of Rev. Mr. Webb be increased by the sum of three hundred dollars, to date from the first of April. This was carried without a dissenting vote. The minister then thanked the congregation for this another manifestation of the kindness of those with whom he has now worked for over five years.

The Murray street congregation will enter their new edifice under the happiest auspices on Sunday, May 26, with Rev. J. L. Gilmour, D.D., as the first speaker in the new building.

To-morrow (Friday) evening, a Retrospective Luncheon will be held in the old building. Tea will be served at 7.30 o'clock, after which a suitable program will be presented including addresses by Rev. C. G. Smith, M.A., of Belleville, and others. At this meeting the greetings from those who have been members of Murray street years ago, will be read and also a message of congratulation from Rev. Jno. Cliffords, of London, England, who laid the corner stone last June.

The offering of twenty-five cents which will be received will be devoted to Foreign Missions.

Counsel for the United States Steel Corporation have refused to produce certain papers demanded in the government suit to dissolve the trust.

BIRTH

WHATLEY.—In Peterborough, on Tuesday, May 14, to Mr. and Mrs. George Whatley, of 567 Albert street, a daughter.

Mr. A. Northey and Mr. Gordon Northey returned from Bobcaygeon last week.

Miss Eva Bell, of Cotesloe, spent Sunday in the village visiting friends.

Miss Mabel Portsmith, of Peterborough, was the guest of Miss Eva Alford Sunday.

Miss Stella Lennox is spending a couple of days at Crowe's Landing.

Mr. J. Blewett and sons will take their first trip up the lake on Wednesday to look after their island.

Mrs. (Dr.) Bell, of Apsley, is at present visiting friends in the village.

Miss May Lynn, of Peterborough, spent Sunday in the village, the guest [illegible]

A very successful Oriental entertainment was given in the town hall on Friday evening, May 10th, by the Rev. H. A. Ben Oliel, assisted by a number of young people dressed in varied and picturesque costumes of Palestine. "Living Scenes from the life in the Holy Land," acted by groups in costume and accompanied by suitable explanations and descriptions were given.

Scene 1.—
In a village home.
Women at the mill.
The lost piece of silver.
A midnight visitor.
Scene 2.—
At a village fountain.
Washday.
Going to market.
Scene 3.—
At a village threshing floor.
The "Lot," a farm for every man.
Scene 4.—
A village wedding.
Wedding presents.
Bride's procession.
Singing and dancing.
The Virgins and their lamps.
The bridegroom arrives late.
The wedding procession.

Rev. Mr. Ben Oliel spent five years in the Holy Land so he is well acquainted with their customs and habits.

SCHOOL BOARD

A regular meeting of the Public School Board was held in the town hall on Friday evening last. The members present were—Trustees Dr. J. R. Fraser, in the chair; Gibson, Lillicrap, Redpath, Tanner, Galvin.

The minutes of the last regular meeting were read and confirmed.

The financial committee having examined the following account, recommended payment of the same—

H. G. Mason, shades	$17.50
McPherson Co., boiler repairs	79.38
W. Sherin, express	1.32
Lakefield News, supplies	48.70
School Supply Co.	48.30
R. Graham & Son, supplies	3.14
John Sanderson	1.50
H. Fitzgerald, hardware	2.92
McClelland & Goodchild books	59.94
Lakefield Milling Co., coal	15.00
Jas. Hendren, belt	1.00
W. J. Charlton, coal	120.10
E. A. Tanner, supplies	28.10
J. Mahood, work	2.50

The accounts were ordered to be paid.

A communication was received from Mr. G. B. Hilliard, offering the Board a set of the Encyclopaedia Britannica, for the sum of $25. No action was taken.

A communication was received from the inspector of continuation classes enclosing his report of the inspection of the continuation class. The report was a good one, which shows that good work is being done in the school. The report was, on motion, received.

The board then adjourned.

Rev. Mr. Sawers of Peterboro will occupy the pulpit of St. John's church on Sunday next at Lakefield.

Rev. T. B. McCorkindale will occupy the pulpit of St. Andrew's Presbyterian church, Toronto, during the month of June and July.

The regular meeting of the Womens' Institute, was held in the Foresters' Hall on Thursday evening, May 14th at eight o'clock. The annual election of officers took place. Important business was also transacted in connection with the summer meeting which will be held in Lakefield, May 29th.

The Leap Year concert which was to be given under the auspices of the Epworth League of the Methodist church on Monday evening, May 13, was postponed on accou[illegible] stormy evening.

The Cavendish Lumber Company's saw mill commenced operation on May 15th.

Mr. and Mrs. Theo. Crawford spent a few days in Stony Lake last week.

Mr. A. Moore of Kenora, Ont., is visiting his parents in the village.

Mr. J. Watson spent a few days in Toronto last week.

Mr Roland Johnston, Port Hope, was in the village last week on business.

Mr. Johnson intends moving his business at Lakefield to Port Hope.

Guelph Radial Railway employes will get 1 1-2 cents an hour increase.

Five stowaways were found on the steamer Montcalm at Quebec.

Cook's Cotton Root Compound.

Address: THE COOK MEDICINE CO., TORONTO, ONT. (formerly Windsor)

NEWS FROM MILLBROOK

Special Correspondence.

Millbrook, May 16.—Mrs. W. J. Howden has returned home after spending the week end with Mrs. E. J. Eagleson, Kendal.

Mrs. John Lang died in Millbrook May 11th; mother of Wm. and Thos. Lang, at the age of 82 years.

There are quite a number of autos in our village now.

We are sorry to hear that Mr. Henry Argue is very ill.

Mrs. Joseph Hamilton was a visitor at Peterborough last week.

April 20th.

Mrs. Parker Smith, eldest daughter of the late Richard Hughson, died suddenly at her home in Cobourg, on Saturday night. Deceased had returned home that afternoon from a visit to her mother here, where she had a slight attack of bronchial asthma, with which she has been a sufferer, but otherwise was in her usual condition of health. About midnight she woke her husband and sent him hurriedly for a doctor, and although he was gone but a few minutes he found her dead on his return. Her brother, Mr. C. J. Hughson and two daughters, Misses Alice and Jennie, her sister, Miss C. Hughson, Mr. and Mrs. Melvin Powers, Mr. and Mrs. C. J. Thornton and daughter, Miss Augusta, Mr. and Mrs. Edgar Thornton, Mr. and Mrs. will Cobbledick, and Mr. T. H. Powers, attended the funeral in Cobourg on Tuesday.

Tuesday, April 2nd, at the home of Mr. R. Fowler, a pleasant evening was spent taking Mr. and Mrs. W. J. Fowler by surprise, presenting them with an address and two beautiful chairs, before their departure for their new home in Orono.

Dear Friends—We the members and adherents of the Methodist church and Epworth League, have heard with sorrow of your intended departure from our midst. We cannot allow you to take your departure without showing in some tangible way our appreciation of your ready helpfulness, usefulness and willingness to help in every good work, have made our association a pleasure.

In your removal we feel we are losing good friends. On all questions having a moral issue we always knew where to find you.

We would ask you to accept these chairs as a very small token of our appreciation of you as very dear friends. In your new abode we hope you will be blessed and be a blessing and continue lives of usefulness wherever your lot is cast, and when the years have passed may you be found of Him in peace.

Signed on behalf of the members and adherents of the Methodist church and Epworth League.

CECIL ROBINSON
CHAS THOMPSON
LORNE HENRY

Kendal, April 2nd, 1912.

Mr William Stutt received a crate of oranges from his cousin, Mr. Frank Stutt, of Redlands, Cal., last week. Frank requested that a few of his old friends should be remembered, and the oranges, a seedless variety, were accordingly parcelled around as directed. Frank, from all accounts, has made good in the Flowery State. He is now Vice-President and his half-brother, Mr. Robert Leigh (also an old Orono boy) is Superintendent and manager in an automobile business, auto livery and rapir shop. Mr. and Mrs. Stutt are both well and wish to be remembered to old acquaintances here.

SPRINGVILLE

Special Correspondence.

Springville, May 16—Mrs. Wm. Mitchell and daughter, Clare, and Mr. Sam Whittaker of Peterboro, passed through the village on Sunday to attend the funeral of the late Mrs. Lang of Millbrook.

Messrs. Sam Staples, Ida and Mr. Ottie Pue, of Frazerville, attended church here Sunday evening.

Miss Mercy Baptie is visiting her sister, Mrs. Milburn of Smith.

Mr. Harold Cathcart and Mr. R. Robertson attended the funeral of the late Mr. Geo. Robb, a very highly respected farmer, who had resided near Springville up till a year ago, and although he has not been among us frequently during that short time, still his memory is with us and we all join in extending to his bereaved wife and son our heartfelt sympathy.

We are pleased to hear that the special duet which Messrs. Stanley Armstrong and Tom Madill intended singing Sunday last will be given Sunday next. Owing to bad weather they were unable to practice, but we hope to see a large attendance as they will receive a trial.

The many friends of Messrs. Albert and Joseph Sanderson, join us in extending to them our heartfelt sympathy in the loss of their mother who has been a faithful worker in ou[illegible] took an interest in everything relating to church work. Mrs. Sanderson passed away Friday after a brief illness.

The evening shades of life will fall,
God knows the very day;
Then let our lives, both one and all,
Grow purer all the way.

Mr. Gillhooley passed through the village Sunday evening, en-route for Frazerville.

What we would like to know—

If someone enjoyed his drive Sunday night.

Where Ab. was going up the west line.

If Norman got her permission to go home with her after church.

Why Ottie has that far away look in his eye.

Where Lorne was Sunday night.

Miss Kate Cathcart spent a few days in Peterboro last week.

Mr. Joseph Wright was the guest of Mr. A. Reynolds Monday.

Women in Berlin refused to attend theatres, where, by order of the police they had to remove hats. So theatre managers have secured a court order allowing the hats to be worn.

INDIAN RIVER

Special Correspondence.

Indian River, May 16.—The Indian River Baptist church, which has been closed for a few Sundays, has reopened again for the summer. Mr. Wood, of Toronto University, has taken charge of the services.

Farmers in the locality are busily occupied in seeding.

Mrs. J. T. Hall, of this village, has returned from a visit to Toronto.

Mr W. H. Borland, who has been suffering from an acute stage of rheumatism for the past few months, is recovering.

Miss Bella Kidd, who has been the guest of her sister in Winnipeg for a few months, is home again.

Mr. R. Humphrey and Miss A. Elmhurst were the guests of Miss N. L. Borland last Friday.

Miss J. M. Halliday was in the city last Saturday.

The Misses Minnie Sullivan and Myrtle Andress called on J. Breckenridge last Friday evening.

The many friends of Mr. Richard Corneleous will be grieved to learn of his departure from this place, and will, we are sure, all join in wishing him a pleasant future in his new home at Peterborough. Mr. Jos. Whibbs and Mr. Arthur Devlin, two of his most intimate friends, moved his furniture, while Mr. David Kidd drove ahead with his fast driver, taking with him the wife and the child, Mr. Wm. Breckenridge, John Fitzgerald, and Happy Heels, awaited the coming of the effects at the new home on Linen street. Mr. Ed. Howley, who felt the departure keenly, presented Richard with a gold headed cane.

Mr. Albert Elmhust was in the village last Saturday.

Mr. Earl Kidd, of Peterborough, visited his home here yesterday.

ALFALFA COMPETITION

There is still time for Review readers to enter their alfalfa fields in the Alfalfa Competition that is to be conducted in Peterborough county by Farm and Dairy, our local farm paper. Several entries have already been received, but there is room for many. All of the Review readers who have three or more acres of alfalfa seeded last spring should enter it in this competition. There is no entry fee, the only requirement being that the competitor be a subscriber to Farm and Dairy, and you stand the chance to win a valuable prize.

Farm and Dairy would like to have entries from every part of the county. So far most of the entries have come from Smith and Ennismore townships. Does this mean that these two townships only have farmers who can grow alfalfa successfully? Among the Smith township entries, a nice field has been entered by Ernest A. Scott. Mr. Will Scott has also entered three acres that has come through the winter in splendid shape. In Ennismore, C. and E. Telford, and W. J. Telford, both of whom were prize winners in the Farm and Dairy Farms Competition, have entered for the Alfalfa Competition also.

Farm and Dairy requests that entries be made at once in order that they may draw up a schedule for the judging which will be done the first week of June. Send entries to the Editor, Farm and Dairy, Peterborough, Peterborough, Ont.

GILCHRIST BAY

Special Correspondence.

Gilchrist Bay, May 16.—The farmers in this vicinity are pretty well done sowing.

Mr. and Mrs. F. Calberry arrived recently at their cottage on White Lake shore.

Mr. J. E. Fitzgerald, of Peterborough, passed through here last Friday.

We are all very sorry to hear of Mrs. J. Drain's illness.

The ranchers around here are very busy, filling up their ranches with horses and cattle.

Mr. and Mrs. John Moore visited Peterborough recently.

Mr. Robert Lennox and son, Ira, have opened up their summer resort at Crowe's Landing.

Mr. John Drain passed through this place on his way to Warsaw last Saturday.

DRAINAGE DEMONSTRATION

The Ontario Agricultural College is emphasizing the value of drainage again this summer, for which purpose drainage demonstrations are being held in many parts of the province. On Thursday, May 23rd, at the hour of two o'clock, one of these demonstrations will be held on the farm of Mr. C. F. Dawson, con. 1, lot 6, South Monaghan. This meeting should be of special interest as some difficult [illegible] the discussion [illegible] lems of Mr. Dawson's farm, there will be a demonstration of methods of finding the fall over a ditch, determining the grade, digging true to grade, etc. Those of our readers interested in drainage should not miss this meeting.

Anyone wishing information about the drainage work should write Prof. W. H. Day, O. A. C., Guelph.

E. T. Mott is the new president of Winnipeg Board of Trade.

A Munich "loan shark" who charged 350 per cent interest, has been given five years in prison.
